Donald Trump: [\(02:44\)](#)

The media will not show the magnitude of this crowd. Even I, when I turned on today, I looked, and I saw thousands of people here, but you don't see hundreds of thousands of people behind you because they don't want to show that. We have hundreds of thousands of people here, and I just want them to be recognized by the fake news media. Turn your cameras please and show what's really happening out here because these people are not going to take it any longer. They're not going to take it any longer. Go ahead. Turn your cameras, please. Would you show? They came from all over the world, actually, but they came from all over our country. I just really want to see what they do. I just want to see how they covered. I've never seen anything like it. But it would be really great if we could be covered fairly by the media. The media is the biggest problem we have as far as I'm concerned, single biggest problem, the fake news and the big tech. Big tech is now coming into their own. We beat them four years ago. We surprised them. We took them by surprise and this year, they rigged an election. They rigged it like they've never rigged an election before. By the way, last night, they didn't do a bad job either, if you notice. I'm honest. I just, again, I want to thank you. It's just a great honor to have this kind of crowd and to be before you. Hundreds of thousands of American patriots are committed to the honesty of our elections and the integrity of our glorious Republic. All of us here today do not want to see our election victory stolen by emboldened radical left Democrats, which is what they're doing and stolen by the fake news media. That's what they've done and what they're doing. We will never give up. We will never concede, it doesn't happen. You don't concede when there's theft involved.

Donald Trump: [\(04:42\)](#)

Our country has had enough. We will not take it anymore and that's what this is all about. To use a favorite term that all of you people really came up with, we will stop the steal. Today I will lay out just some of the evidence proving that we won this election, and we won it by a landslide. This was not a close election. I say sometimes jokingly, but there's no joke about it, I've been in two elections. I won them both and the second one, I won much bigger than the first. Almost 75 million people voted for our campaign, the most of any incumbent president by far in the history of our country, 12 million more people than four years ago. I was told by the real pollsters, we do have real pollsters. They know that we were going to do well, and we were going to win. What I was told, if I went from 63 million, which we had four years ago to 66 million, there was no chance of losing. Well, we didn't go to 66. We went to 75 million and they say we lost. We didn't lose.

Donald Trump: [\(06:08\)](#)

By the way, does anybody believe that Joe had 80 million votes? Does anybody believe that? He had 80 million computer votes. It's a disgrace. There's never been anything like that. You could take third world countries. Just take a look, take third world countries. Their elections are more honest than what we've been going through in this country. It's a disgrace. It's a disgrace. Even when you look at last night, they're all running around like chickens with their heads cut off with boxes. Nobody knows what the hell is going on. There's never been anything like this. We will not let them silence your voices. We're not going to let it happen. Not going to let it happen.

Crowd: [\(07:11\)](#)

Fight for Trump! Fight for Trump! Fight for Trump!

Donald Trump: [\(07:11\)](#)

Thank you. I'd love to have, if those tens of thousands of people would be allowed, the military, the secret service, and we want to thank you, and the police law enforcement. Great. You're doing a great job, but I'd love it if they could be allowed to come up here with us. Is that possible? Can you just let them come up, please? Rudy, you did a great job. He's got guts. You know what? He's got guts, unlike a lot of people in the Republican party. He's got guts, he fights. He fights, and I'll tell you. Thank you very much, John. Fantastic job. I watched. That's a tough act to follow, those two. John is one of the most brilliant lawyers in the country, and he looked at this and he said, "What an absolute disgrace, that this could be happening to our constitution." He looked at Mike Pence, and I hope Mike is going to do the right thing.

Donald Trump: [\(08:09\)](#)

I hope so. I hope so because if Mike Pence does the right thing, we win the election. All he has to do. This is from the number one or certainly one of the top constitutional lawyers in our country. He has the absolute right to do it. We're supposed to protect our country, support our country, support our constitution, and protect our constitution. States want to revoke. The States got defrauded. They were given false information. They voted on it. Now they want to recertify. They want it back. All Vice-President Pence has to do is send it back to the States to recertify, and we become president, and you are the happiest people.

Donald Trump: [\(09:08\)](#)

I just spoke to Mike. I said, "Mike, that doesn't take courage. What takes courage is to do nothing. That takes courage," and then we're stuck with a president who lost the election by a lot, and we have to live with that for four more years. We're just not going to let that happen. Many of you have traveled from all across the nation to be here, and I want to thank you for the extraordinary love. That's what it is. There's never been a movement like this ever, ever for the extraordinary love for this amazing country and this amazing movement. Thank you.

Crowd: [\(09:44\)](#)

We love Trump! We love Trump! We love Trump!

Donald Trump: [\(09:59\)](#)

By the way, this goes all the way back past the Washington monument. Do you believe this? Look at this. Unfortunately, they gave the press the prime seats. I can't stand that. No, but you look at that behind. I wish they'd flip those cameras and look behind you. That is the most amazing sight. When they make a

mistake, you get to see it on television. Amazing, amazing, all the way back. Don't worry. We will not take the name off the Washington monument. We will not. Cancel culture. They wanted to get rid of the Jefferson Memorial, either take it down or just put somebody else in there. I don't think that's going to happen. It damn well better not. Although with this administration, if this happens, it could happen. You'll see some really bad things happen.

Donald Trump: [\(10:54\)](#)

They'll knock out Lincoln too, by the way. They've been taking his statue down, but then we signed a little law. You hurt our monuments, you hurt our heroes, you go to jail for 10 years and everything stopped. Did you notice that? It stopped. It all stopped. They could use Rudy back in New York City. Rudy, they could use you. Your city is going to hell. They want Rudy Giuliani back in New York. We'll get a little younger version of Rudy. Is that okay, Rudy?

Donald Trump: [\(11:25\)](#)

We're gathered together in the heart of our nation's Capitol for one very, very basic and simple reason, to save our democracy. Most candidates on election evening, and of course this thing goes on so long, they still don't have any idea what the votes are. We still have congressional seats under review. They have no idea. They've totally lost control. They've used the pandemic as a way of defrauding the people in a proper election. But when you see this and when you see what's happening, number one, they all say, "Sir, we'll never let it happen again." I said, "That's good, but what about eight weeks ago?" They try and get you to go. They say, "Sir, in four years, you're guaranteed." I said, "I'm not interested right now. Do me a favor, go back eight weeks. I want to go back eight weeks. Let's go back eight week." We want to go back, and we want to get this right because we're going to have somebody in there that should not be in there and our country will be destroyed, and we're not going to stand for that.

Donald Trump: [\(12:34\)](#)

For years, Democrats have gotten away with election fraud and weak Republicans, and that's what they are. There's so many weak Republicans. We have great ones, Jim Jordan, and some of these guys. They're out there fighting the House. Guys are fighting, but it's incredible. Many of the Republicans, I helped them get in. I helped them get elected. I helped Mitch get elected. I could name 24 of them, let's say. I won't bore you with it, and then all of a sudden you have something like this. It's like, "Gee, maybe I'll talk to the president sometime later." No, it's amazing. The weak Republicans, they're pathetic Republicans and that's what happens. If this happened to the Democrats, there'd be hell all over the country going on. There'd be hell all over the country. But just remember this. You're stronger, you're smarter. You've got more going than anybody, and they try and demean everybody having to do with us, and you're the real people. You're the people that built this nation. You're not the people that tore down our nation.

Donald Trump: [\(13:45\)](#)

The weak Republicans, and that's it. I really believe it. I think I'm going to use the term, the weak Republicans. You got a lot of them, and you got a lot of great ones, but you got a lot of weak ones. They've turned a blind eye even as Democrats enacted policies that chipped away our jobs, weakened our military, threw open our borders and put America last. Did you see the other day where Joe Biden said, "I want to get rid of the America first policy." What's that all about, get rid of...? How do you say, "I want to get rid of America first?" Even if you're going to do it, don't talk about it. Unbelievable, what we have to go through, what we have to go through and you have to get your people to fight. If they don't fight, we have to primary the hell out of the ones that don't fight. You primary them. We're going to let you know who they are. I can already tell you, frankly.

Donald Trump: [\(14:39\)](#)

But this year using the pretext of the China virus and the scam of mail-in ballots, Democrats attempted the most brazen and outrageous election theft. There's never been anything like this. It's a pure theft in American history, everybody knows it. That election, our election was over at 10:00 in the evening. We're leading Pennsylvania, Michigan, Georgia by hundreds of thousands of votes, and then late in the evening or early in the morning, boom, these explosions of and bullshit, and all of a sudden. All of a sudden it started to happen.

Crowd: [\(15:25\)](#)

[inaudible 00:15:25]

Donald Trump: [\(15:35\)](#)

Don't forget when Romney got beat. Romney. I wonder if he enjoyed his flight in last night? But when Romney got beaten, he stands up like you're more typical. Well, I'd like to congratulate the victor, the victor. Who was the victor, Mitt? I'd like to congratulate. They don't go and look at the facts. Now I don't know. He got slaughtered probably, maybe it was okay. Maybe it was that's what happened. But we look at the facts and our lecture was so corrupt that in the history of this country, we've never seen anything like it. You can go all the way back. America is blessed with elections all over the world. They talk about our elections. You know what the world says about us now? They said we don't have free and fair elections and you know what else? We don't have a free and fair press.

Donald Trump: [\(16:25\)](#)

Our media is not free. It's not fair. It suppresses thought. It suppresses speech, and it's become the enemy of the people. It's become the enemy of the people. It's the biggest problem we have in this country. No third world countries would even attempt to do what we caught them doing and you'll hear about that in just a few minutes. Republicans are constantly fighting like a boxer with his hands tied behind his back. It's like a boxer, and we want to be so nice. We want to be so respectful of everybody, including bad people. We're going to have to fight much harder and Mike Pence is going to have to come through for us. If he doesn't, that will be a sad day for our country because you're sworn to uphold our constitution. Now it is up to Congress to confront this egregious assault on our democracy. After this, we're going to walk down and I'll be there with you. We're going to walk down. We're going to walk down any one you want, but I think right here. We're going walk down to the Capitol, and we're going to cheer on our brave senators, and congressmen and women. We're probably not going to be cheering so much for some of them because you'll never take back our country with weakness. You have to show strength, and you have to be strong.

Donald Trump: [\(18:16\)](#)

We have come to demand that Congress do the right thing and only count the electors who have been lawfully slated, lawfully slated. I know that everyone here will soon be marching over to the Capitol building to peacefully and patriotically make your voices heard. Today we will see whether Republicans stand strong for integrity of our elections, but whether or not they stand strong for our country, our country. Our country has been under siege for a long time, far longer than this four-year period. We've set it on a much straighter course, a much ... I thought four more years. I thought it would be easy. We created-

Donald Trump: [\(19:03\)](#)

Four more years, I thought it would be easy. We created the greatest economy in history. We rebuilt our military. We get you the biggest tax cuts in history. We got you the biggest regulation cuts. There's no President, whether it's four years, eight years, or in one case more, got anywhere near the regulation cuts. It used to take 20 years to get a highway approved. now we're down to two. I want to get it down to one, but we're down to two. And it may get rejected for environmental or safety reasons, but we got it down the safety. We created Space Force. Look at what we did. Our military has been totally rebuilt. So we create Space Force, which by in of itself is a major achievement for an administration. And with us, it's one of so many different things.

Donald Trump: [\(19:52\)](#)

Right to try. Everybody know about right to try. We did things that nobody ever thought possible. We took care of our vets. Our vets, the VA now has the highest rating, 91%, the highest rating that it's had from the beginning, 91% approval rating. Always you watch the VA, when it was on television. Every night people living in a horrible, horrible manner. We got that done. We got accountability done. We got it so that now in the VA, you don't have to wait for four weeks, six weeks, eight weeks, four months to see a doctor. If you can't get a doctor, you go outside you get the doctor, you have them taken care of. And we pay the doctor. And we've not only made life wonderful for so many people, we've saved tremendous amounts of money, far secondarily, but we've saved a lot of money.

Donald Trump: [\(20:49\)](#)

And now we have the right to fire bad people in the VA. We had 9000 people that treated our veterans horribly. In primetime, they would not have treated our

veterans badly. But they treated our veterans horribly. And we have what's called the VA Accountability Act. And the accountability says if we see somebody in there that doesn't treat our vets well, or they steal, they rob, they do things badly. We say, "Joe, you're fired. Get out of here." Before you couldn't do that. You couldn't do that before.

Donald Trump: [\(21:24\)](#)

So we've taken care of things. We've done things like nobody's ever thought possible. And that's part of the reason that many people don't like us, because we've done too much, but we've done it quickly. And we were going to sit home and watch a big victory. And everybody had us down for a victory. It was going to be great. And now we're out here fighting. I said to somebody, I was going to take a few days and relax after our big electoral victory. Ten o'clock, it was over. But I was going to take a few days.

Donald Trump: [\(21:52\)](#)

And I can say this, since our election, I believe, which was a catastrophe when I watch and even these guys knew what happened, they know what happened. They're saying, "Wow, Pennsylvania's insurmountable. Wow, Wisconsin, look at the big leads we had." Even though the press said we were going to lose Wisconsin by 17 points. Even though the press said Ohio is going to be close, we set a record. Florida's going to be close, we set a record. Texas is going to be close. Texas is going to be close, we set a record. And we set a record with Hispanic, with the Black community. We set a record with everybody.

Donald Trump: [\(22:36\)](#)

Today, we see a very important event though, because right over there, right there, we see the event going to take place. And I'm going to be watching, because history is going to be made. We're going to see whether or not we have great and courageous leaders or whether or not we have leaders that should be ashamed of themselves throughout history, throughout eternity, they'll be ashamed. And you know what? If they do the wrong thing, we should never ever forget that they did. Never forget. We should never ever forget. With only three of the seven states in question, we win the presidency of the United States.

Donald Trump: [\(23:21\)](#)

And by the way, it's much more important today than it was 24 hours ago. Because I spoke to David Perdue, what a great person, and Kelly Loeffler, two great people, but it was a setup. And I said, "We have no back line anymore." The only back line, the only line of demarcation, the only line that we have is the veto of the president of the United States. So this is now what we're doing, a far more important election than it was two days ago.

Donald Trump: [\(23:59\)](#)

I want to thank the more than 140 members of the House. Those are warriors. They're over there working like you've never seen before, studying, talking, actually going all the way back, studying the roots of the Constitution, because they know we have the right to send a bad vote that was illegally got, they gave these people bad things to vote for and they voted, because what did they know? And then when they found out a few weeks later... Again, it took them four years to devise history. And the only unhappy person in the United States, single most unhappy, is Hillary Clinton because she said, "Why didn't you do this for me four years ago? Why didn't you do this for me four years ago? Change the votes! 10,000 in Michigan. You could have changed the whole thing!" But she's not too happy. You notice you don't see her anymore. What happened? Where is Hillary? Where is she?

Donald Trump: [\(24:57\)](#)

But I want to thank all of those congressmen and women. I also want to thank our 13 most courageous members of the US Senate, Senator Ted Cruz, Senator Ron Johnson, Senator Shadowless, Kelly Loeffler. And Kelly Loeffler, I'll tell you, she's been so great. She works so hard. So let's give her and David a little special head, because it was rigged against them. Let's give her and David. Kelly Loeffler, David Perdue. They fought a good race. They never had a shot. That equipment should never have been allowed to be used, and I was telling these people don't let them use this stuff. Marsha Blackburn, terrific person. Mike Braun, Indiana. Disinvested, great guy. Bill Hagerty, John Kennedy, James Lankford, Cynthia Lummis. Tommy Tuberville, to the coach. And Roger Marshall. We want to thank them, senators that stepped up, we want to thank them.

Donald Trump: [\(26:04\)](#)

I actually think though it takes, again, more courage not to step up. And I think a lot of those people are going to find that out, and you better start looking at your leadership because the leadership has led you down the tubes. "We don't want to give \$2000 to people. We want to give them \$600." Oh, great. How does that play politically? Pretty good? And this has nothing to do with politics. But how does it play politically? China destroyed these people. We didn't destroy. China destroyed them, totally destroyed them. We want to give them \$600, and they just wouldn't change. I said, "Give them \$2000. We'll pay it back. We'll pay it back fast. You already owe 26 trillion. Give them a couple of bucks. Let them live. Give them a couple of bucks!"

Donald Trump: [\(26:57\)](#)

And some of the people here disagree with me on that. But I just say, look, you got to let people live. And how does that play though? Okay, number one, it's the right thing to do. But how does that play politically? I think it's the primary reason, one of the primary reasons, the other was just pure cheating. That was the super primary reason. But you can't do that. You got to use your head.

Donald Trump: [\(27:19\)](#)

As you know the media is constantly asserted the outrageous lie that there was no evidence of widespread fraud. You ever see these people? "While there is no evidence of fraud..." Oh, really? Well, I'm going to read you pages. I hope you don't get bored listening to it. Promise? Don't get bored listening to it, all those hundreds of thousands of people back there. Move them up, please. Yeah. All these people don't get bored. Don't get angry at me because you're going to get bored because it's so much. The American people do not believe the corrupt fake news anymore. They have ruined their reputation.

Donald Trump: [\(27:57\)](#)

But it used to be that they'd argue with me, I'd fight. So I'd fight, they'd fight. I'd fight, they'd fight. Boop-boop. You'd believe me, you'd believe them. Somebody comes out. They had their point of view, I had my point of view. But you'd have an argument. Now what they do is they go silent. It's called suppression. And that's what happens in a communist country. That's what they do. They suppress. You don't fight with them anymore, unless it's a bad. They have a little bad story about me, they'll make it 10 times worse and it's a major headline. But Hunter Biden, they don't talk about him. What happened to Hunter? Where's Hunter? Where is Hunter? They don't talk about him.

Donald Trump: [\(28:34\)](#)

Now watch all the sets will go off. Well, they can't do that because they get good ratings. The ratings are too good. Now where is Hunter? And how come Joe was allowed to give a billion dollars of money to get rid of the prosecutor in Ukraine? How does that happen? I'd ask you that question. How does that happen? Can you imagine if I said that? If I said that it would be a whole different ball game. And how come Hunter gets three and a half million dollars from the Mayor of Moscow's wife, and gets hundreds of thousands of dollars to sit on an energy board even though he admits he has no knowledge of energy, and millions of dollars up front, and how come they go into China and they leave with billions of dollars to manage? "Have you managed money before?" "No, I haven't." "Oh, that's good. Here's about 3 billion."

Donald Trump: [\(29:29\)](#)

No, they don't talk about that. No, we have a corrupt media. They've gone silent. They've gone dead. I now realize how good it was if you go back 10 years. I realized how good, even though I didn't necessarily love him, I realized how good it was like a cleansing motion. But we don't have that anymore. We don't have a fair media anymore. It's suppression and you have to be very careful with that. And they've lost all credibility in this country. We will not be intimidated into accepting the hoaxes and the lies that we've been forced to believe over the past several weeks. We've amassed overwhelming evidence about a fake election. This is the presidential election. Last night was a little bit better because of the fact that we had a lot of eyes watching one specific state, but they cheated like hell anyway.

Donald Trump: [\(30:27\)](#)

You have one of the dumbest governors in the United States. And when I endorsed him, I didn't know this guy. At the request of David Perdue. He said, "A

friend of mine is running for Governor, what's his name." And you know the rest. He was in fourth place, fifth place. I don't know. He was way... He was doing poorly. I endorsed him. He went like a rocket ship and he won. And then I had to beat Stacey Abrams with this guy, Brian Kemp. I had to beat Stacey Abrams and I had to beat Oprah, used to be a friend of mine. I was on her last show. Her last week she picked the five outstanding people. I don't think she thinks that anymore. Once I ran for president, I didn't notice there were too many calls coming in from Oprah. Believe it or not, she used to like me, but I was one of the five outstanding people.

Donald Trump: [\(31:17\)](#)

And I had a campaign against Michelle Obama and Barack Hussein Obama against Stacey. And I had Brian Kemp, he weighs 130 pounds. He said he played offensive line in football. I'm trying to figure that. I'm still trying to figure that out. He said that the other night, "I was an offensive lineman." I'm saying, "Really? That must've been a really small team." But I look at that and I look at what's happened, and he turned out to be a disaster. This stuff happens.

Donald Trump: [\(31:50\)](#)

Look, I'm not happy with the Supreme Court. They love to rule against me. I picked three people. I fought like hell for them, one in particular I fought. They all said, "Sir, cut him loose. He's killing us." The senators, very loyal senators. They're very loyal people. "Sir, cut him loose. He's killing us, sir. Cut him loose, sir." I must've gotten half of the senators. I said, "No, I can't do that. It's unfair to him. And it's unfair to the family. He didn't do anything wrong. They're made up stories." They were all made up stories. He didn't do anything wrong. "Cut him loose, sir." I said, "No, I won't do that." We got him through. And you know what? They couldn't give a damn. They couldn't give a damn. Let them rule the right way, but it almost seems that they're all going out of their way to hurt all of us, and to hurt our country. To hurt our country.

Donald Trump: [\(32:40\)](#)

I read a story in one of the newspapers recently how I control the three Supreme Court justices. I control them. They're puppets. I read it about Bill Barr, that he's my personal attorney. That he'll do anything for me. And I said, "It really is genius," because what they do is that, and it makes it really impossible for them to ever give you a victory, because all of a sudden Bill Barr changed, if you hadn't noticed. I like Bill Barr, but he changed, because he didn't want to be considered my personal attorney. And the Supreme Court, they rule against me so much. You know why? Because the story is I haven't spoken to any of them, any of them, since virtually they got in. But the story is that they're my puppet. That they're puppets. And now that the only way they can get out of that, because they hate that, it's not good on the social circuit. And the only way they get out is to rule against Trump. So let's rule against Trump, and they do that. So I want to congratulate them.

Donald Trump: [\(33:41\)](#)

But it shows you the media's genius. In fact, probably, if I was the media, I'd do it the same way. I hate to say it. But we got to get them straightened out. Today, for the sake of our democracy, for the sake of our Constitution, and for the sake of our children, we lay out the case for the entire world to hear. You want to hear it?

Crowd: [\(34:04\)](#)

Yes!

Donald Trump: [\(34:06\)](#)

In every single swing state, local officials, state officials, almost all Democrats made illegal and unconstitutional changes to election procedures without the mandated approvals by the state legislatures, that these changes paved the way for fraud on a scale never seen before. And I think we'd go a long way outside of our country when I say that.

Donald Trump: [\(34:34\)](#)

So just in a nutshell, you can't make a change on voting for a federal election unless the state legislature approves it. No judge can do it. Nobody can do it, only a legislature. So as an example in Pennsylvania or whatever, you have a Republican legislature, you have a Democrat mayor, and you have a lot of Democrats all over the place. They go to the legislature, the legislature laughs at them. Says, "We're not going to do that." They say, "Thank you very much." And they go and make the changes themselves. They do it anyway. And that's totally illegal. That's totally illegal. You can't do that.

Donald Trump: [\(35:13\)](#)

In Pennsylvania, the Democrat Secretary of State and the Democrat State Supreme Court justices illegally abolished the signature verification requirements just 11 days prior to the election. So think of what they did. No longer is there signature verification. Oh, that's okay. We want voter ID by the way. But no longer is their signature verification, 11 days before the election! They say, "We don't want it." You know why they don't want it? Because they want to cheat. That's the only reason. Who would even think of that? We don't want to verify a signature? There were over 205,000 more ballots counted in Pennsylvania. Now think of this. You had 205,000 more ballots than you had voters. That means you had 200... Where did they come from? You know where they came from? Somebody's imagination. Whatever they needed. So in Pennsylvania you had 205,000 more votes than you had voters! And it's the number is actually much greater than that now. That was as of a week ago. And this is a mathematical impossibility, unless you want to say it's a total fraud. So Pennsylvania was defrauded.

Donald Trump: [\(36:35\)](#)

Over 8000 ballots in Pennsylvania were cast by people whose names and dates of birth match individuals who died in 2020 and prior to the election. Think of that. Dead people! Lots of dead people, thousands. And some dead people actually requested an application. That bothers me even more. Not only are they voting, they want an application to vote. One of them was 29 years ago died. It's incredible.

Donald Trump: [\(37:05\)](#)

Over 14,000 ballots were cast by out-of-state voters. So these are voters that don't live in the state. And by the way, these numbers are what they call outcome determinative. Meaning these numbers far surpass... I lost by a very little bit. These numbers are massive. Massive. More than 10,000 votes in Pennsylvania were illegally counted, even though they were received after Election Day. In other words, "They were received after Election Day, let's count them anyway!" And what they did in many cases is they did fraud. They took the date and they moved it back, so that it no longer is after Election Day. And more than 60,000 ballots in Pennsylvania were reported received back. They got back before they were ever supposedly mailed out. In other words, you got the ballot back before you mailed it!

Donald Trump: [\(38:03\)](#)

... they were supposedly mailed out, in other words, you got the ballot back before you mailed it, which is also logically and logistically impossible. Think of that one. You got the ballot back. Let's send the ballots. Oh, they've already been sent. But we got the ballot back before they were sent. I don't think that's too good.

Donald Trump: [\(38:23\)](#)

Twenty-five thousand ballots in Pennsylvania were requested by nursing home residents, all in a single giant batch, not legal. Indicating an enormous illegal ballot harvesting operation. You're not allowed to do it. It's against the law. The day before the election, the State of Pennsylvania reported the number of absentee ballots that had been sent out. Yet this number was suddenly and drastically increased by 400,000 people. It was increased. Nobody knows where it came from by 400,000 ballots. One day after the election, it remains totally unexplained. They said, "Well, we can't figure that." Now that's many, many times what it would take to overthrow the state. Just that one element. 400,000 ballots appeared from nowhere, right after the election.

Donald Trump: [\(39:16\)](#)

By the way, Pennsylvania has now seen all of this. They didn't know because it was so quick. They had a vote, they voted, but now they see all this stuff. It's all come to light. Doesn't happen that fast. And they want to re certify their votes. They want to re certify. But the only way that can happen is if Mike Pence agrees to send it back.

Donald Trump: [\(39:43\)](#)

Mike Pence has to agree to send it back. And many people in Congress want it sent back, and take of what you're doing. Let's say you don't do it. Somebody says, "Well, we have to obey the constitution." And you are, because you're protecting our country and you're protecting the constitution, so you are. But think of what happens. Let's say they're stiff and they're stupid people. And they say, "Well, we really have no choice." Even though Pennsylvania and other states want to redo their votes, they want to see the numbers. They already have the numbers. Go very quickly and they want to redo their legislature because many of these votes were taken as I said, because it wasn't approved by their legislature. That in itself is illegal and then you have the scam and that's all of the things that we're talking about. But think of this: if you don't do that, that means you will have a president of the United States for four years, with his wonderful son.

Donald Trump: [\(40:50\)](#)

You will have a president who lost all of these states, or you will have a president to put it another way, who was voted on by a bunch of stupid people who lost all of these things. You will have an illegitimate president, that's what you'll have. And we can't let that happen. These are the facts that you won't hear from the fake news media. It's all part of the suppression effort. They don't want to talk about it. They don't want to talk about it. In fact, when I started talking about that, I guarantee you a lot of the television sets and a lot of those cameras went off and that's how a lot of cameras back there. But a lot of them went off, but these are the things you don't hear about. You don't hear what you just heard. And I'm going to go over a few more states. But you don't hear it by the people who want to deceive you and demoralize you and control you, big tech, media.

Donald Trump: [\(41:48\)](#)

Just like the suppression polls that said, we're going to lose Wisconsin by 17 points, well we won Wisconsin. They don't have it that way because they lose just by a little sliver. But they had me down the day before Washington Post, ABC poll, down 17 points. I called up a real pollster. I said, "What is that?" "Sir, that's called a suppression poll. I think you're going to win Wisconsin, sir." I said, "But why do they make it four or five points?" "Because then people vote. But when you're down 17, they say, 'Hey, I'm not going to waste my time. I love the president, but there's no way.'" Despite that, we won Wisconsin, you'll see. But that's called suppression because a lot of people, when they see that, it's very interesting. This pollster said, "Sir, if you're down three, four or five people vote. When you go down 17, they say, 'Let's save, let's go and have dinner, and let's watch the presidential defeat tonight on television darling.'"

Donald Trump: [\(42:49\)](#)

And just like the radical left tries to blacklist you on social media, every time I put out a tweet, even if it's totally correct, totally correct. I get a flag. I get a flag. And they also don't let you get out. On Twitter, it's very hard to come on to my account. It's very hard to get out a message. They don't let the message get out nearly like they should, but I've had many people say, "I can't get on your Twitter." I don't care about Twitter. Twitter is bad news. They're all bad news. But you know what? If you want to get out of message. And if you want to go through big tech, social media, they are really, if you're a conservative, if you're a Republican, if you have a big voice, I guess they call it shadow ban. Shadow ban. They shadow ban you and it should be illegal. I've been telling these Republicans get rid of Section 230.

Donald Trump: [\(43:47\)](#)

And for some reason, Mitch and the group, they don't want to put it in there. And they don't realize that that's going to be the end of the Republican party as we know it, but it's never going to be the end of us, never. Let them get out. Let the weak ones get out. This is a time for strength. They also want to indoctrinate your children in school by teaching them things that aren't so. They want to indoctrinate your children. It's all part of the comprehensive assault on our democracy and the American people to finally standing up and saying, "No." This crowd is again a testament to it. I did no advertising. I did nothing. You do have some groups that are big supporters. I want to thank that Amy and everybody, we have some incredible supporters, incredible, but we didn't do anything. This just happened.

Donald Trump: [\(44:39\)](#)

Two months ago, we had a massive crowd come down to Washington. I said, "What are they there for." "Sir, they're there for you." We have nothing to do with it. These groups, they're forming all over the United States. And we got to remember, in a year from now, you're going to start working on Congress. And we got to get rid of the weak congresspeople, the ones that aren't any good, the Liz Cheneys of the world, we got to get rid of them. We got to get rid of them. She never wants a soldier brought home. I've brought a lot of our soldiers home. I don't know, some like it. They're in countries that nobody even knows the name. Nobody knows where they are. They're dying. They're great, but they're dying. They're losing their arms, their legs, their face. I brought them back home, largely back home, Afghanistan, Iraq. Remember I used to say in the old days, "Don't go into Iraq. But if you go in, keep the oil." We didn't keep the oil. So stupid. So stupid, these people. And Iraq has billions and billions of dollars now in the bank. And what did we do? We got nothing. We never get. But we do actually, we kept the oil here. We did good. We got rid of the ISIS caliphate. We got rid of plenty of different things that everybody knows and the rebuilding of our military in three years, people said it couldn't be done. And it was all made in the USA, all made in the USA. Best equipment in the world. In Wisconsin, corrupt Democrat run cities deployed more than 500 illegal unmanned, unsecured drop boxes, which collected a minimum of 91,000 unlawful votes. It was razor thin the loss. This one thing alone is much more than we would need, but there are many things.

Donald Trump: [\(46:29\)](#)

They have these lockboxes and they pick them up and they disappear for two days. People would say, "Where's that box?" They disappeared. Nobody even knew where the hell it was. In addition, over 170,000 absentee votes were counted in Wisconsin without a valid absentee ballot application. So they had a vote, but they had no application. And that's illegal in Wisconsin. Meaning those votes were blatantly done in opposition to state law. And they came 100% from Democrat areas, such as Milwaukee and Madison, 100%. In Madison, 17,000 votes were deposited in so-called human drop boxes. You know what that is, right? Where operatives stuff thousands of unsecured ballots into duffel bags on park benches across the city in complete defiance of cease and desist letters from state legislature. The state legislature said, "Don't do it." They're the only ones that could approve it. They gave tens of thousands of votes.

Donald Trump: [\(47:37\)](#)

They came in in duffel bags. Where the hell did they come from? According to eyewitness testimony, postal service workers in Wisconsin were also instructed to illegally backdate approximately 100,000 ballots. The margin of difference in Wisconsin was less than 20,000 votes. Each one of these things alone wins us the state. Great state, we love the state, we won the state. In Georgia, your secretary of state, I can't believe this guy's a Republican. He loves recording telephone conversations. I thought it was a great conversation personally, so did a lot of other ... people love that conversation, because it says what's going on. These people are crooked. They're 100% in my opinion, one of the most corrupt. Between your governor and your secretary of state. And now you have it again last night, just take a look at what happened, what a mess and the Democrat party operatives entered into an illegal and unconstitutional settlement agreement that drastically weakened signature verification and other election security procedures.

Donald Trump: [\(48:53\)](#)

Stacey Abrams, she took them to lunch and I beat her two years ago with a bad candidate, Brian Kemp. But the Democrats, took the Republicans to lunch because the secretary of state had no clue what the hell was happening, unless he did have a clue. That's interesting. Maybe he was with the other side, but we've been trying to get verifications of signatures in Fulton County. They won't let us do it. The only reason they won't is because we'll find things in the hundreds of thousands. Why wouldn't they let us verify signatures and Fulton County? Which is known for being very corrupt. They won't do it. They go to some other county where you would live. I said, "That's not the problem. The problem is Fulton County." Home of Stacey Abrams. She did a good job. I congratulate her, but it was done in such a way that we can't let this stuff happen.

Donald Trump: [\(49:53\)](#)

We won't have a country of it happens. As a result Georgia's absentee ballot rejection rate was more than 10 times lower than previous levels, because the criteria was so off, 48 counties in Georgia with thousands and thousands of votes rejected zero ballots. There wasn't one ballot. In other words, in a year in which more mail-in ballots were sent than ever before, and more people were voting by mail for the first time, the rejection rate was drastically lower than it had ever been before. The only way this can be explained is if tens of thousands of illegitimate votes were added to the tally, that's the only way you could explain it. By the way, you're talking about tens of thousands. If Georgia had merely rejected the same number of unlawful ballots, as in other years, there should have been approximately 45,000 ballots rejected, far more than what we needed to win, just over 11,000.

Donald Trump: [\(50:59\)](#)

They should find those votes. They should absolutely find that just over 11,000 votes, that's all we need. They defrauded us out of a win in Georgia, and we're not going to forget it. There's only one reason the Democrats could possibly want to eliminate signature matching, oppose voter ID and stop citizenship confirmation. Are you in citizenship? You're not allowed to ask that question. Because they want to steal the election. The radical left knows exactly what they're doing. They're ruthless and it's time that somebody did something about it. And Mike Pence, I hope you're going to stand up for the good of our constitution and for the good of our country. And if you're not, I'm going to be very disappointed in you. I will tell you right now. I'm not hearing good stories. In Fulton County, republican poll Watchers were rejected in some cases, physically from the room under the false pretense of a pipe burst.

Donald Trump: [\(52:03\)](#)

Water main burst, everybody leave. Which we now know was a total lie. Then election officials pull boxes, Democrats and suitcases of ballots out from under a table. You all saw it on television, totally fraudulent. And illegally scanned them for nearly two hours totally unsupervised. Tens of thousands of votes, as that coincided with a mysterious vote dump of up to 100,000 votes for Joe Biden, almost none for Trump. Oh, that sounds fair. That was at 1:34 AM. The Georgia secretary of state and pathetic governor of Georgia ... although he says, I'm a great president. I sort of maybe have to change. He said the other day, "Yes, I disagree with president, but he's been a great president." Oh, good. Thanks. Thank you very much. Because of him and others. Brian Kemp, vote him the hell out of office, please.

Donald Trump: [\(53:05\)](#)

Well, his rates are so low, his approval rating now, I think it just reached a record low. They've rejected five separate appeals for an independent and comprehensive audit of signatures in Fulton County. Even without an audit, the number of fraudulent ballots that we've identified across the state is staggering. Over 10,300 ballots in Georgia were cast by individuals whose names and dates of birth match Georgia residents who died in 2020 and prior to the election. More than 2,500 ballots were cast by individuals whose names and dates of birth match incarcerated felons in Georgia prison. People who are not allowed to vote. More than 4,500 illegal ballots were cast by individuals who do not appear on the state's own voter rolls. Over 18,000 illegal ballots were cast by individuals who registered to vote using an address listed as vacant, according to the postal service. At least 88,000 ballots in Georgia were cast by people whose registrations were illegally backdated.

Donald Trump: [\(54:18\)](#)

Each one of these is far more than we need. 66,000 votes in Georgia were cast by individuals under the legal voting age. And at least 15,000 ballots were cast by individuals who moved out of the state prior to November 3rd election. They say they moved right back. They move right back. Oh, they moved out. They moved right back. Okay. They miss Georgia that much. I do. I love Georgia, but it's a corrupt system. Despite all of this, the margin in Georgia is only 11,779 votes. Each and every one of these issues is enough to give us a victory in Georgia, a big, beautiful victory. Make no mistake, this selection stolen from you, from me and from the country. And not a single swing state has conducted a comprehensive audit to remove the illegal ballots. This should absolutely occur in every single contestant state before the election is certified.

Donald Trump: [\(55:21\)](#)

In the State of Arizona, over 36,000 ballots were illegally cast by non-citizens. 2000 ballots were returned with no address. More than 22,000 ballots were returned before they were ever supposedly mailed out. They returned, but we haven't mailed them yet. 11,600 more ballots and votes were counted more than there were actual voters. You see that? So you have more votes again than you have voters.

Donald Trump: [\(55:51\)](#)

150,000 people registered in Maya Copa County after the registration deadline. 103,000 ballots in the county were sent for electronic adjudication with no Republican observers. In Clark County, Nevada, the accuracy settings on signature verification machines were purposely lowered before they were used to count over 130,000 ballots. If you signed your name as Santa Claus, it would go through. There were also more than 42,000 double votes in Nevada. Over 150,000 people were hurt so badly by what took place. And 1500 ballots were cast by individuals whose names and dates of birth match Nevada residents who died in 2020, prior to November 3rd election. More than 8,000 votes were cast by individuals who had no address and probably didn't live there. The margin in Nevada is down at a very low number. Any of these things would have taken care of the situation. We would have won-

Donald Trump: [\(57:03\)](#)

Any of these things would have taken care of the situation. We would have won Nevada also. Every one of these we're going over, we win. In Michigan quickly, the secretary of state, a real great one, flooded the state with unsolicited mail-in ballot applications, sent to every person on the rolls, in direct violation of state law. More than 17,000 Michigan ballots were cast by individuals whose names and dates of birth matched people who were deceased. In Wayne County, that's a great one. That's Detroit. 174,000 ballots were counted without being tied to an actual registered voter. Nobody knows where they came from. Also in Wayne County, poll watches observed canvassers re-scanning batches of ballots over and over again, up to three or four or five times. In Detroit, turnout was 139% of registered voters. Think of that. So you had 139% of the people in Detroit voting. This is in Michigan, Detroit, Michigan.

Donald Trump: [\(58:08\)](#)

A career employee of the Detroit, City of Detroit, testified under penalty of perjury that she witnessed city workers coaching voters to vote straight Democrat, while accompanying them to watch who they voted for. When a Republican came in, they wouldn't talk to him. The same worker was instructed not to ask for any voter ID and not to attempt to validate any signatures if they were Democrats. She also told to illegally, and was told backdate ballots received after the deadline and reports that thousands and thousands of ballots were improperly backdated. That's Michigan. Four witnesses have testified under penalty of perjury that after officials in Detroit announced the last votes had been counted, tens of thousands of additional ballots arrived without required envelopes. Every single one was for a Democrat. I got no votes.

Donald Trump: [\(59:10\)](#)

At 6:31 AM, in the early morning hours after voting had ended, Michigan suddenly reported 147,000 votes. An astounding 94% went to Joe Biden, who campaigned brilliantly from his basement. Only a couple of percentage points went to Trump. Such gigantic and one-sided vote dumps were only observed in a few swing states and they were observed in the states where it was necessary. You know what's interesting, President Obama beat Biden in every state other than the swing states where Biden killed him. But the swing States were the ones that mattered. There were always just enough to push Joe Biden barely into the lead. We were ahead by a lot and within the number of hours we were losing by a little.

Donald Trump: [\(01:00:03\)](#)

In addition, there is the highly troubling matter of Dominion voting systems. In one Michigan County alone, 6,000 votes were switched from Trump to Biden and the same systems are used in the majority of states in our country. Senator William Ligon, a great gentleman, chairman of Georgia Senate Judiciary Subcommittee, Senator Ligon, highly respected on elections has written a letter describing his concerns with Dominion in Georgia.

Donald Trump: [\(01:00:40\)](#)

He wrote, and I quote, "The Dominion voting machines employed in Fulton County had an astronomical and astounding 93.67% error rate." It's only wrong 93% of the time. "In the scanning of ballots requiring a review panel to adjudicate or determine the voter's interest, in over 106,000 ballots out of a total of 113,000." Think of it, you go in and you vote and then they tell people who you're supposed to be voting for. They make up whatever they want. Nobody's ever even heard. They adjudicate your vote. They say, "Well, we don't think Trump wants to vote for Trump. We think he wants to vote for Biden. Put it down for Biden." The national average for such an error rate is far less than 1% and yet you're at 93%. "The source of this astronomical error rate must be identified to determine if these machines were set up or destroyed to allow for a third party to disregard the actual ballot cast by the registered voter."

Donald Trump: [\(01:01:44\)](#)

The letter continues, "There is clear evidence that tens of thousands of votes were switched from President Trump to former Vice President Biden in several counties in Georgia. For example, in Bibb County, President Trump was reported to have 29,391 votes at 9:11 PM Eastern time. While simultaneously Vice

President Joe Biden was reported to have 17,213. Minutes later, just minutes, at the next update, these vote numbers switched with President Trump going way down to 17,000 and Biden going way up to 29,391.” And that was very quick, a 12,000 vote switch, all in Mr. Biden’s favor.

Donald Trump: [\(01:02:31\)](#)

So, I mean, I could go on and on about this fraud that took place in every state and all of these legislatures want this back. I don’t want to do it to you because I love you and it’s freezing out here, but I could just go on forever. I can tell you this...

Speaker 1: [\(01:02:52\)](#)

We love you. We love you. We love you. We love you. We love you. We love you. We love you. We love you.

Donald Trump: [\(01:03:03\)](#)

So when you hear, when you hear, “While there is no evidence to prove any wrongdoing,” this is the most fraudulent thing anybody’s... This is a criminal enterprise. This is a criminal enterprise and the press will say, and I’m sure they won’t put any of that on there because that’s no good, do you ever see, “While there is no evidence to back President Trump’s assertion,” I could go on for another hour reading this stuff to you and telling you about it. There’s never been anything like it. Think about it, Detroit had more votes than it had voters. Pennsylvania had 205,000 more votes than it had more, but you don’t have to go any... Between that, I think that’s almost better than dead people, if you think, right? More votes than they had voters, and many other States are also.

Donald Trump: [\(01:03:56\)](#)

It’s a disgrace that the United States of America, tens of millions of people are allowed to go vote without so much as even showing identification. In no state is there any question or effort made to verify the identity, citizenship, residency, or eligibility of the votes cast. The Republicans have to get tougher. You’re not going to have a Republican party if you don’t get tougher. They want to play so straight, they want to play so, “Sir, yes, the United States, the constitution doesn’t allow me to send them back to the States.” Well, I say, “Yes, it does because the constitution says you have to protect our country and you have to protect our constitution and you can’t vote on fraud,” and fraud breaks up everything, doesn’t it? When you catch somebody in a fraud, you’re allowed to go by very different rules. So I hope Mike has the courage to do what he has to do. And I hope he doesn’t listen to the RINOs and the stupid people that he’s listening to. It is also widely understood that the voter rolls are crammed full of non-citizens, felons and people who have moved out of state and individuals who are otherwise ineligible to vote. Yet Democrats oppose every effort to clean up their voter rolls. They don’t want to clean them up, they are loaded. And how many people here know other people that when the hundreds of thousands and then millions of ballots got sent out, got three, four, five, six, and I heard one who got seven ballots. And then they say, “You didn’t quite make it, sir.” We won. We won in a landslide. This was a landslide.

Donald Trump: [\(01:05:43\)](#)

They said, “It’s not American to challenge the election.” This is the most corrupt election in the history, maybe of the world. You know, you could go third world countries, but I don’t think they had hundreds of thousands of votes and they don’t have voters for them. I mean, no matter where you go, nobody would think this. In fact, it’s so egregious, it’s so bad, that a lot of people don’t even believe it. It’s so crazy that people don’t even believe it. It can’t be true. So they don’t believe it. This is not just a matter of domestic politics, this is a matter of national security. So today, in addition to challenging the certification of the election, I’m calling on Congress and the state legislatures to quickly pass sweeping election reforms, and you better do it before we have no country left. Today is not the end. It’s just the beginning.

Donald Trump: [\(01:06:37\)](#)

With your help over the last four years, we built the greatest political movement in the history of our country and nobody even challenges that. I say that over and over, and I never get challenged by the fake news, and they challenge almost everything we say. But our fight against the big donors, big media, big tech and others is just getting started. This is the greatest in history. There’s never been a movement like that. You look back there all the way to the Washington Monument. It’s hard to believe. We must stop the steal and then we must ensure that such outrageous election fraud never happens again, can never be allowed to happen again, but we’re going forward. We’ll take care of going forward. We got to take care of going back. Don’t let them talk, “Okay, well we promise,” I’ve had a lot of people, “Sir, you’re at 96% for four years.” I said, “I’m not interested right now. I’m interested in right there.”

Donald Trump: [\(01:07:33\)](#)

With your help we will finally pass powerful requirements for voter ID. You need an ID to cash your check. You need an ID to go to a bank, to buy alcohol, to drive a car. Every person should need to show an ID in order to cast your most important thing, a vote. We will also require proof of American citizenship in order to vote in American elections. We just had a good victory in court on that one, actually. We will ban ballot harvesting and prohibit the use of unsecured drop boxes to commit rampant fraud. These drop boxes are fraudulent. There for, they get... They disappear and then all of a sudden they show up. It’s fraudulent. We will stop the practice of universal, unsolicited mail-in balloting. We will clean up the voter rolls that ensure that every single person who cast a vote is a citizen of our country, a resident of the state in which they vote and their vote is cast in a lawful and honest manner. We will restore the vital civic tradition of in-person voting on election day so that voters can be fully informed when they make their choice. We will finally hold big tech accountable and if these people had courage and guts, they would get rid of Section 230, something that no other company, no other person in America, in the world, has.

Donald Trump: [\(01:09:10\)](#)

All of these tech monopolies are going to abuse their power and interfere in our elections and it has to be stopped and the Republicans have to get a lot tougher and so should the Democrats. They should be regulated, investigated and brought to justice under the fullest extent of the law. They’re totally breaking the law. Together we will drain the Washington swamp and we will clean up the corruption in our nation’s capital. We have done a big job on it, but you think it’s easy, it’s a dirty business. You have a lot of bad people out there. Despite everything we’ve been through, looking out all over this country and seeing fantastic crowds, although this I think is our all time record. I think you have 250, 000 people. 250,000.

Donald Trump: [\(01:10:05\)](#)

Looking out at all the amazing patriots here today, I have never been more confident in our nation’s future. Well, I have to say we have to be a little bit careful. That’s a nice statement, but we have to be a little careful with that statement. If we allow this group of people to illegally take over our country, because it’s illegal when the votes are illegal, when the way they got there is illegal, when the States that vote are given false and fraudulent information. We are the greatest country on earth and we are headed, and were headed, in the right direction. You know, the wall is built, we’re doing record numbers at the wall. Now they want to take down the wall. Let’s let everyone flow in. Let’s let everybody flow in.

Donald Trump: [\(01:10:52\)](#)

We did a great job in the wall. Remember the wall? They said it could never be done. One of the largest infrastructure projects we’ve ever had in this country and it’s had a tremendous impact and we got rid of catch and release, we got rid of all of the stuff that we had to live with. But now the caravans, they think Biden’s getting in, the caravans are forming again. They want to come in again and rip off our country. Can’t let it happen. As this enormous crowd shows, we have truth and justice on our side. We have a deep and enduring love for America in our hearts. We love our country. We have overwhelming pride in this great country, and we have it deep in our souls. Together we are determined to defend and preserve government of the people, by the people and for the people.

Donald Trump: [\(01:11:44\)](#)

Our brightest days are before us, our greatest achievements still wait. I think one of our great achievements will be election security because nobody until I came along, had any idea how corrupt our elections were. And again, most people would stand there at 9:00 in the evening and say, “I want to thank you very much,” and they go off to some other life, but I said, “Something’s wrong here. Something’s really wrong. Can’t have happened.” And we fight. We fight like Hell and if you don’t fight like Hell, you’re not going to have a country anymore.

Donald Trump: [\(01:12:21\)](#)

Our exciting adventures and boldest endeavors have not yet begun. My fellow Americans for our movement, for our children and for our beloved country and I say this, despite all that’s happened, the best is yet to come.

Donald Trump: ([01:12:43](#))

So we're going to, we're going to walk down Pennsylvania Avenue, I love Pennsylvania Avenue, and we're going to the Capitol and we're going to try and give... The Democrats are hopeless. They're never voting for anything, not even one vote. But we're going to try and give our Republicans, the weak ones, because the strong ones don't need any of our help, we're going to try and give them the kind of pride and boldness that they need to take back our country.

Donald Trump: ([01:13:19](#))

So let's walk down Pennsylvania Avenue. I want to thank you all. God bless you and God bless America. Thank you all for being here, this is incredible. Thank you very much. Thank you.

(singing).

Crowd: [\(00:00\)](#)
USA! USA! USA! USA! USA! USA! USA! USA!

Donald Trump: [\(02:11\)](#)

Well, I want to thank you very much. Hello, Georgia, by the way. There's no way we lost Georgia. There's no way. That was a rigged election, but we're still fighting it and you'll see what's going to happen. We'll talk about it. I just want to thank you. This is some crowd. Biden was here today, also. They had 14 people in three cars. No, there was no way. I just want to thank you. I've had two elections. I won both of them. It's amazing. I actually did much better on the second one. It's great to be back in this incredible state, the home of hardworking patriots who believe in God, family and country. Tomorrow, each of you is going to vote in one of the most important runoff elections of the history of our country. Frankly, forget about runoff. One of the most important elections, really. It's really not runoff. It's elections because it's a biggie. Our country's depending on you. The whole world is watching the people of Georgia tomorrow. You've got to swamp them because everything's so crooked around. I mean, and not here.

Donald Trump: [\(03:26\)](#)

They were saying, "Oh, he's complaining about Georgia." No, no. I'm complaining about eight different states, and I think we're going to win them all. You're going to get everyone you know. You're going to show up at the polls in record numbers. You got to swamp them and together we're going to defeat the Democratic streamers and deliver a thundering victory to David Perdue. Where's David? David, David. We love our David. I know David so well. He's respected and loved by everyone. And someone that has really been a star in Washington, Kelly Loeffler. Where is Kelly? Where is our Kelly? What a job you've done. Thank you. I will tell you about Kelly.

Crowd: [\(04:29\)](#)

Fight for Trump! Fight for Trump! Fight for Trump! Fight for Trump!

Donald Trump: [\(04:30\)](#)

Kelly fights for me. David fights for me, that I can tell you. I will also say the Republicans, you have to understand, for the people that don't fight, not for me, fighting for us because we have a lot of corrupt things that happen when they don't fight. One thing I've learned about Republicans, they have some difficulties, but you know a difficulty that they don't have? They never forget. They never forget. People are going to find that out because we have to go and we have to go all the way and that's what's happening. You watch what happens over the next couple of weeks. You watch what's going to come out. Watch what's going to be revealed. You watch.

Donald Trump: [\(05:17\)](#)

I have to tell you that the stakes of this election could not be higher. You vote tomorrow. You want to go out tomorrow. People want to go out. They don't want to do the ballot thing. Don't want to do it unless it's the other side, in which case they just print them out. They don't want to do it. They want to go and vote and make sure your vote is counted. Make sure they don't let you say, "I'm sorry. Somebody else has already voted for you." Your vote tomorrow will decide which party controls the United States Senate. The radical Democrats are trying to capture Georgia's Senate seats so they can wield unchecked, unrestrained, absolute power over every aspect of your lives. If the liberal Democrats take the Senate and the White House... And they're not taking this White House. We're going to fight like hell, I'll tell you right now.

Donald Trump: [\(06:14\)](#)

I was telling Kelly before, you can lose and that's acceptable. You lose, you lose. You go, and you go wherever you're going and you go and say, "Maybe I'll do it again sometime, or maybe I won't or I'll get back to life." But when you win in a landslide and they steal it and it's rigged, it's not acceptable. Not acceptable. Then you have a country that would be run, if these two don't win, and if we don't take the presidency, you have a country that would be run by Schumer, Pelosi, and Biden. The people of Georgia will be at the mercy of the left wing, socialist, communist, Marxists. That's where it's going. We don't like to use the word communist.

Donald Trump: [\(07:04\)](#)

How about the press? Look at them back there. Look at all of them. How about the press? That's a lot of press. Oh, boy. That's a lot of press. But they've gone silent now. They have a new thing. They used to fight me left, right. I'd go, they'd go. You'd fight. I'd win. They'd win. Who knows who wins? But people would hear. Now they don't want to talk about it. Unless they can say something bad about you, they don't want to talk about it. So if we talk about certain subjects, as you've been watching over the last six months, all of a sudden they were getting clobbered so they went stone cold silent. Big tech, the fake news media, they go silent anymore. They don't talk about it, and that is the beginning of communism. That's exactly what happens.

Donald Trump: [\(07:53\)](#)

Because I think they hate our country and they despise Georgia values. I think a lot of you despise them as you know there's nothing the radical Democrats will not do to get power that they so desperately crave. Even the outright stealing of elections, like they're trying to do with us. We're not going to let it happen over the pass, and I hope Mike Pence comes through for us, I have to tell you. I hope that our great vice president comes through for us. He's a great guy. Of course, if he doesn't come through, I won't like him quite as much. No, Mike is a great guy. He's a wonderful man and a smart man and a man that I like a lot, but he's

going to have a lot to say about it. One thing with him, you're going to get straight shots. He's going to call it straight. Over the past few weeks, we've demonstrated that we won the election in a landslide. Almost 75 million people voted for me, the most of any incumbent president in the history of our country.

Donald Trump: [\(09:09\)](#)

We won over 11 million, close to 12 million, more votes than 2016. One of the largest, actually, the single largest increase in the history of our country. No person that won went to a second term or went through an election where he got nearly 12 million votes. Nope. It never happened before. Never happened before. We made historic gains among African Americans, Hispanic Americans, Asian Americans, and we won the largest share of non-white vote of any Republican president in 60 years. We also won 18 out of 19 bellwether counties. Now, when you win just a few bellwether counties, you always win the election. We won 18 out of 19. That's a record, and they said we didn't win. We won 25 of 26 toss-up House races. I think we have one that we're waiting for, right? Did you see the one in... Hello, Mike. How are you, Mike?

Donald Trump: [\(10:14\)](#)

Did you see the one in New York where Claudia, good woman... They keep finding votes. They keep finding votes. "She's up by 18. Oh, we just found 19 votes." That's the same kind of stuff. Democrats were projected to gain 15 House seats and instead... And Kevin McCarthy gives us the credit. Good man. Very good man. My coattails, we swept our Republican House candidates to victory and we have a couple of great ones with us tonight, and the Democrats lost 14 seats. It was supposed to be the other way around. When that happens, no president loses unless they play games. You don't lose. They play games. The fact is we won the presidential election. We won it big and we're going to win tomorrow. We're going to win it really big.

Donald Trump: [\(11:08\)](#)

We have to. We have to. People have no idea how important that is. Tonight, our mission here in Georgia is to make sure the radical left cannot rob you of your voice and your votes in Washington. You can't lose these two people. I really know them well. They're the most respected people. They're great people and they really do have a voice and they love their state and they love their country. The Democrats are trying to steal the White House. You can not let them. You just can't let them steal the U.S. Senate. You can't let it happen. You can't let it happen. David and Kelly are running against the most extreme liberal candidates in the history of your state, probably in the history of our country, Jon Ossoff and Raphael Warnock. Well, I beat Ossoff once running against a very fine woman, Karen, who you know, and he was at 57 and I got involved and we drove him down to 49 and then he ended up in a runoff and she ended up winning. Now I have to beat him a second time. This is going to be, hopefully, easy because when you know what he stands for, when you know what Warnock stands for, it really should be easy. Cast deciding votes to rubber stamp the agenda of AOC and Bernie Sanders. Crazy Bernie. Stacey Abrams. What's with this Stacey Abrams? Your governor and your secretary of state, they're petrified of Stacey Abrams. What's that all about? Did you see this consent decree they signed with signature verification? You can forget about it. What they have done to your state. I think most people have no idea what they've done to your state. That consent decree or these two people. I don't know. They say they're Republicans. I really don't think they are. They can't be.

Donald Trump: [\(13:19\)](#)

If we want to have a special session, because your legislature's excellent, they want to have a... Why wouldn't they let us have a special session? If they want to check signatures in Fulton County, not in Cobb County. We didn't ask for Cobb County. They said, "We'll do Cobb first and then we'll do Fulton." They do Cobb. Then they never get to Fulton. Why wouldn't they do that? Why wouldn't they do that? That's a positive thing. Anyway, the Democrats want to turn America. I'll be here in about a year and a half campaigning against your governor, I guarantee you that. I shouldn't say this. I shouldn't say this because I just don't want you to tell anybody outside of this room, other than the millions of people now, but I endorsed him. He was in last place and I endorsed him. He went to first place immediately, and then he won the primary, and then I gave him a couple of rallies, which I don't like doing for other people. I was telling Kelly, "do rallies for other people. I do them for me, right?" Not that easy, a crowd like this. They say over 25,000 people. Over what? Over a couple of days notice. Is everybody glad you're here, right? I think so. There is no place like a Trump rally, but you know what? This is a Kelly rally and a David rally. I wouldn't do it unless I loved them both. I wouldn't do it. But I'm going to be here in a year and a half and I'm going to be campaigning against your governor and your crazy secretary of state, that I can tell you.

Donald Trump: [\(15:04\)](#)

You have great candidates. They want to turn, the Democrats do, America into Venezuela with no jobs, no prosperity, no rights, no freedom, no future for you and your family. Here is exactly what the radical left will do if they win this runoff election, which we can't let them do tomorrow. Tomorrow's a big day. I guess we have to get over a million votes tomorrow, right, Kelly? Over a million. All right. That's a lot of votes, Kelly, but we'll do it. The one thing I know, if they win I'll get no credit, and if they lose they're going to blame Trump, these people. Kelly won't let that happen. Please win tomorrow. You're going to win so big, it's going to be great story. It's a great story, a very important story for our country, long beyond Georgia for our country. It's such a big story. They'll massively raise your taxes on the middle class to pay for socialism. The U.S. military, which we rebuilt. We've totally rebuilt the U.S. military, much of it coming right out of Georgia.

Donald Trump: [\(16:17\)](#)

We built it right out of Georgia, a lot of it. You have incredible contractors in Georgia, military contractors, and they got plenty of our money. Spent \$2.5 trillion. When I took over the military, it was absolutely a mess. It was depleted. Now it's the opposite of depleted. The U.S. military will be gutted and military families across the street and all over the state will be betrayed. Their benefits and opportunities will be slashed. Fort Benning, Fort Gordon and other Georgia military institutions will be the first on the chopping block. By the way, there'll be forced to change the names of the bases where generations of American patriots trained to win two World Wars. I don't know. Fort Benning. Let's see. Give me a couple of names. I could give you some. I don't want to give them the credit, but you'll name them.

Donald Trump: [\(17:09\)](#)

You'll name them after other people. Fort Trump. Yeah. How about that? I like that. Yeah, let's change the name. Let's change it. Kelly, let's change it. If they name it Trump, let's change it. No. Now they're going to go back and say, "He wants to have Fort Benning changed to Trump." Watch, they'll say, "He's asking, he's begging for Fort Benning to be changed to Trump." No, no. I don't want that. The Democrats will surrender the entire U.S. manufacturing industry to China. You notice they never criticize China, right? They never... It's Russia, Russia, Russia. I saw it today again. Russia, Russia. Oh, Russia. Here we go. That was another great scam. I've been involved in the two greatest scams in American history, the Russian hoax, and now they are trying to steal an election from us. We won not by a little bit. We won in numbers like nobody's seen before.

Donald Trump: [\(18:08\)](#)

If Ossoff and Warnock are elected, they will immediately [inaudible 00:18:12] and you know what's going to happen. They'll throw open American borders and allow tens of millions of illegal immigrants to pour into our country from every corner of the globe. Your schools, your hospitals and your communities will be overwhelmed. And the wall, the wall, the wall. Remember, we'll build a wall. We're going to build a wall. And that's right, Mexico is paying for the wall. If I were here, they would be, because we were going to charge them a nice fee, right at the entry points. They were paying for the wall. They paid for 28,000 troops along the wall and along the border, which we don't need so much anymore, but we built almost 500 miles of wall and they want to rip down the wall. They want to rip down.

Donald Trump: [\(18:57\)](#)

It's why the numbers have been so great. But now everyone's coming back up because they think this guy's going to win. If he wins, it's going to be everything that they could dream for, dream of. We want to help other people, but we can't afford to do it. We can't afford to do it. So, they're coming up now, the caravans. Remember the caravans? The caravans are starting to form. Here they come. But let's keep this thing going. We have great support in Congress. We have good support in the Senate. I wouldn't say great. Could be better. But people will remember the people that don't support us. If they win this race, Democrats will implement nationwide catch and release. You know what that is? You catch a criminal and you take his name. You say, "You're released into our country." I ended it.

Donald Trump: [\(19:49\)](#)

You're released. Come back in four years. We're going to take you to court. So far nobody's ever shown up. I mean, literally they almost don't show up. That's

when I had the big debate with Biden. They come back for court. I said, "No, they don't." I turned out to be right. Did they apologize? I don't think so. And turn our entire country into one giant sanctuary for criminal aliens, setting loose tens of thousands of dangerous offenders and putting MS13 gang members straight into your children's schools. We've removed thousands and thousands of MS13 gang members. I want to thank ICE and I want to thank Border Patrol, and I want to thank our great law enforcement. Incredible people. They're incredible.

Donald Trump: [\(20:39\)](#)

The people that understand those values are Kelly and David. They understand those values. You're with our law enforcement, right? A hundred percent. I don't have to ask her that. They'll allow heroin, cocaine, fentanyl, and other deadly drugs to flood across our borders again, and poison our youth. They'll take away your healthcare. They'll eliminate private insurance. We have 180 million people that love their private insurance. You can forget about it. You'll lose your doctor. Remember President Obama said, "You can keep your doctor. You can keep your plan." Guess what? He said it 28 times. That was a lie. That was a lie. That turned out to be a big, great scam lie. Remember, I got rid of the individual mandate, the most unpopular thing in Obamacare, fighting a lot of different fronts, which really doesn't make it Obamacare anymore, by the way. They'll resume the war on Christians and attack Catholic organizations like Little Sisters of the Poor. They will ban voter ID. We want voter ID. Is that so much to ask? And institute universal, unsolicited mail-in balloting in every state.

Donald Trump: [\(21:54\)](#)

They will never be... I'll tell you this. If we don't do something fast, there will never be another fair election in America. We're known for elections and now we're being laughed out all over the world about this last election. You've got to swarm it tomorrow. Now, the good thing about tomorrow, it's one state so you have a lot of eyeballs watching. It's tougher than when you have 50 states and they do it to various states. I've never seen anything like it. I was leading in Pennsylvania by hundreds of thousands of votes. All of a sudden I was tied. I said, "What happened?" They'll make Washington DC and other liberal places the 51st, 52nd, 53rd States of the Union guaranteeing the radical left a permanent majority of the U.S. Senate and the House and the electoral college. It will make it, really, a one party country, and the party will be the wrong party. They will pack the Supreme Court with crazed extremists and I'm not happy with the Supreme Court. They are not...

Donald Trump: [\(23:03\)](#)

Extremists. And I'm not happy with the Supreme Court. They are not stepping up to the plate. They're not stepping up. How about that? Look at the Supreme Court, President of the United States. I want to file suit. I want to do... And they say, "Sir, you can't, you really can't do that." Why? So they have legal reasons, complex legal reasons. It's wrong. If you're the President of the United States, and you get defrauded out of an election, you should be able to file a suit, but we can't do that. They say, "Sir, you don't have standing." How about that? I'm the president, seven states, You know, I was winning by a lot. And then all of a sudden I was losing by a little, tiny bit, just a little, they can only go so far. They had no idea we were going to do the kind of numbers. So that printing press was really moving.

Donald Trump: [\(23:57\)](#)

And they say, I don't have standing to bring a suit. What kind of a legal system is that? But the Supreme Court has led us down so far. Who knows? Maybe they'll come back. Maybe they'll come back. They'll pack the Supreme Court with crazed extremists. Then there'll be saying, "You know, I should have done something about this." When they start having 24, 25, 26 justices, and they want to have the justices rotate to the lowest courts. So they'll rotate. These nine justices will have a great time rotating, but they're bent on destroying our constitution and overthrowing America's founding.

Donald Trump: [\(24:37\)](#)

If the left wins these Senate seats, they will abolish the Senate. You know this. The filibuster, they will knock it out. I've been saying, to be honest with you for a long time, they're going to do that, at some point, they're going to do that. And why don't we do it first? I said it. If they're going to do it, you might as well do it first. And now everybody said, "You were right." But you know what? I want to be wrong, because I want these two to win. Because if they win, we don't want to do it. It's a bad thing for our country. But that would give them the power to ram through every diluted piece of left-wing legislation that they've ever wanted, that they've ever dreamt up. Your religious liberty will be gone. Your second amendment will be gone. Your borders and great new world will be gone. Your police departments will be gone as we know them, and your life savings will be gone. We'll be like a large scale version of so many other countries that you look at. That are poverty.

Donald Trump: [\(25:36\)](#)

America as you know it will be over. And it will never, I believe, be able to come back again. It will be too far gone. Your vote tomorrow could lose, and it could be your last chance to save the America that we love. That's why I'm here. I don't want to do rallies for other people. I told you. I'm here because of that. Because of David and Kelly, the far left wants to destroy our country, demolish our history, and erase everything that we hold dear. This could be the most important vote you will ever cast for the rest of your life. It really could be. This is so important. I mean, think of it. It's so important. It's amazing actually, that in one state you have two races simultaneously. I don't think a thing like that's ever happened before. If you don't show up, the radical Democrats will win. A lot of people say, "Oh, well, Trump, maybe he wants it that way." No. You know what I want? I want a great country. I want these two very special people to be elected.

Donald Trump: [\(26:40\)](#)

And I want to be clear. If those of you that know how badly screwed we got, I want to be clear that we can't let that happen again. We can't let that happen again. We're going to come back, and I really believe we're going to take what they did to us in November 3rd. We're going to take it back. But these two people, they can't go through this. They can't go through it. If you don't go and vote, the socialists, the Marxists, will be in charge of our country. If you don't fight to save your country with everything you have, you're not going to have a country left. I love this state. This state's been very good to me. We've had a lot of victories in this state, just had one on November 3rd actually. And I love the people of this state. We can't let that happen. The damage they do will be permanent, and will be irreversible. Can't let it happen.

Donald Trump: [\(27:42\)](#)

Nothing and no one will be able to stop them. These Senate seats are truly the last line of defense. Now I must preface that by saying, because they'll say, "He just conceded." No, no, I concede. So Kelly, if I might add, I think we're going to win, in which case we'll be the last line of defense, it's called veto, veto, veto. Veto. So tomorrow, you must get out and vote for David Perdue and Kelly Loeffler. Over the last four years, David Purdue has been one of our greatest allies and strongest defenders in Washington. He's a great gentleman. David was a critical vote in the right to pass the largest package of tax cuts and reforms in American history. We did that together. We got it done, launching an incredible economic boom. The greatest tax cuts in the history of our country, think of it. And the greatest restrictions, we were so restricted we couldn't breathe in this country. That's one of the big, I think it might've been more important in many ways than the tax cuts. You would know that being one of the great businessmen of our world.

Donald Trump: [\(28:56\)](#)

I think it was maybe more important. When Georgia needed a strong voice in Washington after Hurricane Michael, remember Hurricane Michael? And I was down here with David, but David Purdue led the charge to get the workers and farmers of your state the relief you deserved. He said, "Sir, can we get a billion dollars?" And I said, "We're going to get it David. And we got it very fast." And there was no mechanism to get it. You got hit with a hurricane like you have never seen before, came in from a location that is just very unique. It was a horrible thing. I was here for a long time with David, and he worked and his kin, his kin, the great Sonny Perdue, our Department of Agriculture, our Secretary of Agriculture was fantastic also, but we worked very hard, and we got the farmers and the businesses the money that they had to have. And now they're thriving. David has also been one of the most courageous advocates fighting for an immigration system that defends American workers, American wages, American families, and American jobs. He led the effort in Congress to build the wall. That's right.

Donald Trump: [\(30:08\)](#)

And Kelly helped on that she's a little bit newer to the Senate, but she helped a lot. Those last moments you were there, without you it wouldn't have happened, actually. Cracked out on deadly sanctuary cities, and chain migration and institute on parallel protection for our great citizens. He fought to help us replaced NAFTA disaster with the brand new USMCA, they said it couldn't be done. A giant victory for Georgia, for workers, and for farmers all over our country.

NAFTA was the worst trade deal probably ever signed. And that maybe has to exclude some of the crazy deals and things they did with China. We voted to confirm nearly 300 federal judges. We have a record on federal judges, and three Supreme Court justices, which is a tremendous thing. We have almost 300 federal judges committed to interpreting our constitution as written. No one fights harder for the people of Georgia than David Perdue. David's opponent, Jon Ossoff is an unhinged radical leftist. He's not a senator. He's not a senator. That's not a Senator. Ossoff said that he's very proud to be endorsed by socialist crazy Bernie Sanders.

Donald Trump: [\(31:28\)](#)

He's weak on China. He promoted Chinese propaganda and then he failed to disclose his business ties to the Chinese communist party. Other than that, he's a wonderful guy, right? Ossoff supports the largest tax hike in American history. If they get in, Warnock and Ossoff, if they get in, you're going to have the largest tax increase that you've ever had. It'll be the largest tax increase in the history of our country. For what? The Green New Deal, let's rip down a building because its windows are too big. Let's build a building with no windows. Among many other things. He supports the insane Green New Deal, which would crush middle-class parents trying to raise a family. He will support the socialist takeover of American healthcare, which will lead to rationing poverty and death. Ossoff also backed the radical left wing crusade to defund police. The last summer, he proudly joined the anti-police mob, he didn't like the police. He doesn't like our police. We love our police. Slandering our brave men and women in blue.

Donald Trump: [\(32:40\)](#)

If you vote for Jon Ossoff, he will attack our heroes. He will destroy our economy, and he will betray you and your family. And it'll happen very quickly. That's why you must vote. And really importantly, get out tomorrow. Vote for David Perdue. He's a great gentleman. He loves you. Georgia has another fantastic champion in Senator Kelly Loeffler. Kelly is a staunch defender of our incredible military. I'm so proud of our military. She supports the wall, and she always stands with the heroes of law enforcement, ICE and border patrol. I hated it, Kelly, when we got ballots in from the military with Trump all over it, and they got thrown into a river, you saw that. They threw ballots into a river from the military with my name all over it. We want Trump. Boom, goes into the river. That was just one of many instances of problem. Kelly is also a committed protector of your second amendment rights. With Kelly's vote, we confirmed our third new Supreme Court justice Amy Coney Barrett.

Donald Trump: [\(33:50\)](#)

Working with David, Kelly helped rescue the US economy from the China virus, passing nearly \$4 trillion in economic relief, saving over 1.5 million Georgia jobs, and rescuing countless small businesses all across your state. Businesses that now are doing really well, and we also came up with a vaccine. Nobody else would have done that. They would have done that in 10 years. Kelly and David also both strongly support my efforts to provide \$2,000 stimulus checks to hardworking Americans across Georgia, and across the nation. And my reasoning is simple. I mean, we're conservative with money, but my reasoning is simple. You didn't cause this problem, this problem was caused by China. Kelly is running against a hard left extremist named Raphael Warnock. Warnock is the most radical and dangerous left-wing candidate ever to seek this office, and certainly in the state of Georgia, and he does not have your values. Warnock has publicly declared his support for socialism, and he once welcomed the anti-American communist dictator, Fidel Castro to his church. He wanted him here. He liked Castro. Thought Castro was a nice guy.

Donald Trump: [\(35:13\)](#)

Warnock said that quote, nobody can serve both God and the military. A vicious smear against thousands of patriotic service members across the state of Georgia. He wants to abolish cash bail. You see how that's working in New York City, right? It's not working too well. He has called for quote, opening up the jails, and he slandered our police officers as gangsters, thugs, and bullies. The choice for the voters of Georgia could not be more clear. Jon Ossoff and Raphael Warnock, are fringe extremists, who would wreck everything Georgia patriots hold dear to their hearts. Kelly Loeffler and David Perdue share your values, and you know that. They share your values like nobody shares your values. I can tell you, they share your values. They want to defend your interest. And they will always put America first.

Donald Trump: [\(36:12\)](#)

Did you see the other day? What a great name, America First. They announced they don't want to do the America First policy. How crazy? Even if you're not going to do it, which is basically protect us. We come first. But even, and that includes financially in every other way. Even if you don't believe it, you don't say we're going to end America First. They want to end America First. Kelly, I'd love you to just come up and say a few words. Would that be okay? Kelly.

Kelly Loeffler: [\(36:39\)](#)

Hello, Georgia. Thank you Georgia. I have an announcement Georgia. On January 6th, I will object to the electoral college votes. That's right. That's right. Thank you. We're going to get this done. All right, Georgia. But I have a very important question for you. Are you ready to show America that Georgia's a red state? That's right. That's right. Look, this president fought for us, we're fighting for him. He put America first. He put the American worker first. Thank you, Mr. President. He stood with our men and women of law enforcement. He restored our military. My opponent, radical liberal Raphael Warnock, He attacked our police, our military. He spoke out against Israel, evangelicals, small businesses. Georgia, we have to hold the line. You have to get out and vote tomorrow. Georgia, we are the firewall to socialism. We have to get it done. I love you guys. Thank you. God bless you. God bless Georgia. Thank you.

Donald Trump: [\(38:38\)](#)

We love you. Thank you. Thank you Kelly. That was nice. I'm glad I invited her up. Kelly, I'm glad I invited you up. That was great. Thank you Kelly. That was so great.

Crowd: [\(38:52\)](#)

Fight for Trump. Fight for Trump. Fight for Trump. Fight for Trump. Fight for Trump. Fight for Trump.

Donald Trump: [\(39:01\)](#)

Thank you. Thank you. You know, it really is. It's fight for our country. It's really fight for our country, not fight for Trump. It's fight for our country, because that's why we're fighting for. Also joining us tonight are Georgia representatives, Marjorie Taylor Greene. I love Marjorie Taylor too. Where are you? Come up here. Kelly wants you to come up here. Don't mess with her. Don't mess with her.

Marjorie: [\(39:38\)](#)

Hello, Northwest Georgia. All right. Let me tell you something. I'm so fired up to hear Senator Kelly Loeffler. She's going to object on January 6th. This is why I believe in her. You see, when you have a strong Senator Kelly Loeffler from Georgia fighting for you, and fighting for your president, and protecting your vote, this is why you have to turn out tomorrow, right? Yes. We have to save our Senate seats. We have to save America and stop socialism. This is the last line. We aren't going to hand over our Senate seats to a pastor who preaches abortion from the pulpit. No. He's preaching murder of God's creation in the womb, holding a Bible in his hand.

Marjorie: [\(40:48\)](#)

If anything, go out there and vote for the unborn tomorrow. We've had enough. We're not going to let Georgia go to two radical socialists. No. I need you all to go out there and vote. Our district has to show up. We've got to stop this attack. Stop our senate seats from being hand over to these radicals. And we're going to fight for president Trump on January 6th. God bless Georgia, God bless America. Let's do this.

Crowd: [\(41:30\)](#)

USA, USA, USA, USA, USA, USA, USA, USA, USA, USA, USA.

Donald Trump: [\(41:49\)](#)

I also want to introduce two great warriors, friends of mine, Andrew Clyde and Jody Hice. Jody, thank you. Thank you, Andrew. Thank you very much. Great job. We have another friend of ours, South Carolina Senator Lindsey Graham. And Mike Lee is here too, but I'm a little angry at him today. Where's Mike Lee,

Where is he? I'm a little angry at you today, but that's... State representative Vernon Jones. What a great guy he is. A great man. And an early supporter of mine who's also on the ballot tomorrow. Public service commissioner Bubba McDonald. Bubba. You're going to do great.

Crowd: [\(42:43\)](#)

Bubba. Bubba. Bubba. Bubba. Bubba. Bubba. Bubba. Bubba.

Donald Trump: [\(42:43\)](#)

Great guy. Thank you, Bubba. Thank you. Good luck tomorrow. You'll do well. Georgia Republican party chairman David Schaefer, and he's fighting. He's out there. He is fighting. He is fighting. By the way, I also want to say hello to, Kelly's husband is one of the great entrepreneurs in our country. He's respected by everybody. He's a tough guy, but he is a sweetheart, and he loves your state. I just want to say hello. Do you mind? Okay. He doesn't want that. He doesn't want it, but I will tell, you he's respected as a businessman, respected by everybody, and gives tremendous amounts of money to charity and everything else. Thank you very much.

Donald Trump: [\(43:35\)](#)

Also a friend of mine, and I don't know what it is. I'm not so good with the bikes. I sort of say, maybe I stay away from it a little bit, but Chris Cox is Bikers for Trump. And he's the founder, and he had more people show up for me. Whenever I saw, I'd go to places, I'd have two, three, 4,000 bikes, and secret service would go crazy. I'd say, "No, I'm so happy." And they wouldn't do it for any other reason. They just wanted to protect their future president. This was before I won, they were with me for whatever reason, bikers like me. And I like them. Chris Cox, wherever you are Chris Cox. Where is Chris? I don't know why the bikers like me, Chris, but they do. But I like you guys a lot, and you're great. We go to speeches and we'd be packed, and we couldn't even get them, they didn't even want to be inside. They stood outside. And they were protecting their president when I became president, I never felt safer in my life. Thank you. That's true.

Donald Trump: [\(44:37\)](#)

Another man who's respected by everybody, a friend of mine. David McIntosh Club for Growth. David, David. Thank you, David. Respected by everybody. And I want to thank Don Jr. Did he do a good job tonight? I watched. Where is Don? Don is great. I love Don. They love our Don, but he's working hard, and I want to thank Don and Kimberly Guilfoyle, who is incredible. And I also came with somebody who people like a lot, people like her a lot. I don't know. She doesn't really like the concept of running for office. She says, "What do I need it for, dad?" Ivanka. Where's Ivanka? Come on, come, come. Should we get Ivanka up yes, right? Come on up here honey.

Ivanka Trump: [\(46:03\)](#)

Hello Georgia. It is so incredible to be back here with so many amazing, hardworking Georgia families who are fighting for our children's future. Each one of you. And it's so great to be back in Georgia with this warrior, my father, the people's president. He is a tireless, a tireless champion for all of you, and he will never stop fighting. And by his side are two amazing senators that we have to send back to the Senate and send a resounding message that patriotism is alive and well in Georgia. And Georgia is going to keep freedom alive in America. Please vote. Thank you. God bless you. God bless Georgia and God bless America, and God bless our president.

Donald Trump: [\(47:35\)](#)

Thank you Ivanka. Thanks Don. Kimberly, everybody. Thank you all. Tomorrow our entire nation is counting on the people of Georgia in a way the world is counting on the people of Georgia. The fate of our country is at stake. It's in your hands. You must deliver a Republican victory so big that the Democrats can't steal it or cheat it away. We have all... They'll be trying though, I'll tell you that. We have all seen what our opponents are capable of doing. I ran two elections. I won both of them. Second one, much more successful than the first, but we can't let this happen any longer. On election night, we were leading by so much. We're not going to have that tomorrow. We're not going to have that tomorrow night, where you're leading and then all of a sudden, boom, it's gone like magic. We won Florida and Ohio in record numbers.

Donald Trump: [\(48:32\)](#)

We won Iowa by 8.2%. Nobody's ever won those three States and lost. Never happened before. It's almost impossible unless people do a lot of... Either get very lucky or they cheat. We're up 293,000 votes in Michigan, 112,000 votes in Washington. In Wisconsin we were way up, 356,000 votes. In Georgia, 356,000 and 700,000 votes in Pennsylvania. It was over. I should have run up to the podium and said, thank you very much for this wonderful victory. Then maybe they wouldn't have had time to close those booths, the counting rooms, and do what they did. But then it all started to disappear. I tell this story because we can't let this happen tomorrow, Kelly. So keep your eyes open. Since the election, we have put forth indisputable evidence documenting the rampant fraud, which will be announced on Wednesday as you know.

Donald Trump: [\(49:48\)](#)

And I want to thank Senator Josh Hawley and Ted Cruz and all of the incredible senators that have stepped up to fight, because they've seen what happens. They know it's a fraud and not just here. I watched some of the people on Fox. I had no choice. I had no choice. I had to. I didn't have enough channels. And they said, "Why is he fighting for Georgia? It's not enough." And I need three, I'm fighting in eight, actually, but six and we're going to win them all. But they said, "Why?" So one of the people, a very fine woman actually, but she said, "Why is he fighting Georgia? It doesn't get him there." I said, "No, but Georgia and Pennsylvania and one other get me there. And we have six and maybe eight, if you look at them and we were leading all of them by a lot, until, like a miracle, it started to quickly disappear."

Donald Trump: [\(50:45\)](#)

Right here in Georgia there were tens of thousands of illegal votes cast and counted. You know that. And here are just a few examples. Watch this for tomorrow. We were up 10,315 ballots were cast by individuals whose name and date of birth matches a Georgia resident who died in 2020 prior to the election. Then your wacky secretary of state said two people, two people. Now, I don't know how many people are on that list, but it's a lot of people. 2,506 ballots were cast by individuals whose name and date of birth matches an incarcerated felon in a Georgia prison. Maybe they aren't all there, but they did a lot of work. They paid a lot of money to a lot of people. I can tell you that. 4,502 illegal ballots were cast by individuals who do not appear on the state's voter rolls. Well, that's sort of strange. 18,325 illegal ballots were cast by individuals who registered to vote using an address listed as vacant according to the postal service. At least 86,880 ballots were cast by people whose registrations were illegally backdated. Oh, I can't believe that happened.

Donald Trump: [\(52:13\)](#)

66,000 votes... You have to understand, we're down by a little more than 11,000. So every one of these is determinative. 66,000 votes in Georgia were cast by people under the legal voting age. At least 15,000 ballots were cast by individuals who moved out of the state prior to the November 3rd election, or maybe they moved back in. I don't know. I mean, I can't tell. They moved out, ah, let's go back. Usually takes a little time, right? We moved out. Let's go back, darling. Georgia's absentee ballot rejection rate went from an average of 3% in 2016, and then went down very low to almost zero now. Think of it, almost zero. If you multiply that out. And this is with many, many more ballots pouring in. Went to almost zero. 48 out of 159 counties in Georgia rejected no ballots at all. These absentee ballot rejection rates prove that the tens of thousands of illegitimate ballots were counted. There were more absentee ballots in 2020 than ever before by [inaudible 00:53:36]. But magically far fewer ballots were rejected. This alone is more than enough to swing the election to us. This one thing. I'm going over individual. In all of the swing States. Now they'll check this out and that's fine, but you take a look at it. Officials, egregiously violated state laws in order to solicit, facilitate and promote cheating and theft on a scale never seen before. These crooked and incompetent official suspended signature verification. I said, I want you to go to Fulton County to check the signatures, because hundreds of thousands of ballots came in. I want you to check the signature to see if it compares to somebody that lived there two years, four years or six years ago. They don't want to do it. The secretary of state and your incompetent governor. Although he thinks I've been a great president. They illegally flooded their States with absentee ballots and they deployed hundreds of illicit ballot drop boxes and corrupt Democrat run cities, among many other flagrant violations of law.

Donald Trump: [\(54:52\)](#)

They put these drop boxes there. And in a number of they'd be gone for three days. They'd take them up and where are they? Where are they? They were gone.

Georgia secretary of state agreed to a litigation settlement, which is something that nobody's ever seen one like this. I want to just tell you that Stacey Abrams took him to the cleaners. That drastically and illegally changed the states election procedures. They never got the mandated approval from your state legislature, who, by the way, you have some great people in your legislature. Some great, great people who agree with what we're saying and even more so.

Donald Trump: [\(55:35\)](#)

But think of it. They never got the approval. You have to, by law, under the constitution, you can't just do these deals and not get the approval and your secretary of state or whoever it was, made this horrible consent decree, horrible, which got rid of so much safety. It's a disgraceful thing. And it was only approved by your local politicians, him, and local judges. You can't do that. You have to have your state legislatures do it. That's true with all States. Tens of thousands of votes are missing. We go all over the world telling people how to run their elections and we don't even know how to run ours. The most unhappy person right now, anywhere in the United States is Hillary Clinton. Because she's asking the Democrat party, why the hell didn't you do this for me? True. Why didn't you do it for me? Why the hell didn't you? You notice how quiet she's been? I shouldn't have said that, not tonight Jill. But you notice how quiet ... she's furious, because she said, "Don't forget, I won Michigan by 10,000 votes." We did much better. As I said, this time. Much, much better, but I won Michigan from her by 10,000 votes. I won Wisconsin by a small ... I mean, they could have done that one and not get caught. We caught him, we caught him.

Donald Trump: [\(57:11\)](#)

And I say to people like Mike Lee, that here at Lindsey, I say, if they got approved and verified, they use the word verified, votes that are fraudulent. And then we find out after, because you can't do it that quickly. It doesn't go that quickly. It's a lot of work and a lot of votes and a lot of people. And then we find out that they were frauds like in one state where you had, let's say you lost by 25,000 votes. They verify it. And that's supposed to be the end. But shortly thereafter, we find out that we actually won the state by 250,000 votes. Does that mean that that state plus others adds up to being your president? I don't think it should. I don't think it should. I don't think that Kelly feels it should. I don't think that Marjorie feels it should. In Wisconsin over 90,000 ballots were illegally harvested. Can't do that. Not allowed to.

Donald Trump: [\(58:09\)](#)

Through so-called human drop boxes and over 500 illegal unmanned drop boxes were put out statewide. In addition, over 170,000 absentee votes were counted that are blatantly illegal under Wisconsin law and should never have been included in the tally. By the way, I lost the ... It was razor thin. There's 170,000 votes. The margin in Wisconsin is only 20,000 votes. So this issue alone would have won that state for us many times over, we were leading at 10 o'clock in the evening by a lot. In Pennsylvania, there were 205,000 more ballots cast than there were voters. How do you get around that one?

Donald Trump: [\(58:58\)](#)

Which remains completely unexplained. You have great senators and representatives there and nobody can explain it, but think of that. And in other places too, you had more ballots than you had voters. You had more votes, think of it, then you had voters by a lot. In addition, Democrats, state Supreme court judges and Democrat secretary of state effectively abolished the signature verification process right here. They counted ballots cast after deadlines and they allowed ballots to be illegally fixed in Democrat controlled areas. And I say this because you can't let this happen tomorrow. And I hope all the politicians are listening. There's an unexplained 400,000 vote discrepancy between the number of mail-in ballots in Pennsylvania sent out reported on November 2nd, 2020. And the number reported on November 4th. They can't explain it. 400,000 previously unreported mail-in ballots, magically appeared. They couldn't explain it. And all of a sudden they just happened to find 400,000. That's a lot of people.

Donald Trump: [\(01-00:14\)](#)

Amazing. And the Pennsylvania legislature is not happy. Pennsylvania also had an estimated 8,000 dead voters, 55,000 ballots received back before they were even sent. How about that? The ballots were received, but they weren't sent yet. Oh, get them out fast please. Many more with no mail date and 14,000 ballots illegally cast by out of state voters. Those are the numbers and those are the numbers we got from them. So they can't say, Oh, the numbers aren't so good. In Clark County, Nevada, over 130,000 ballots, this is far, just so you know, all these numbers, these are far more than we need, we're processed on machines where the signature matching threshold was intentionally lowered to a level that you could sign your name, Santa clause, and it wouldn't pick it up. Didn't pick up anything. More than 42,000 people in Nevada double voted. That's more than we needed, by far.

Donald Trump: [\(01-01:23\)](#)

In Arizona more than 36,000 votes were cast by non citizens. And there were 11,000 more ballots than there were voters. It seems to be a trait, doesn't it? This was like at the Super Bowl, where you have 15 cameras and they'd say camera number four, you're on. Camera number three, you're on. In Michigan, according to one analyst, over 35,000 ballots listed no address, over 13 ballots were cast by non-residents and an estimated 17,000 ballots were cast by dead people. Some dead people, by the way, also requested an application through. Those are the ones that really bothered me. They not only vote, but they request an application. That's a double. In addition, there is the highly troubling matter of Dominion voting machines.

Donald Trump: [\(01-02:22\)](#)

And I want you to watch this very carefully tomorrow everybody, you have to watch it carefully. I want to read you from a letter from Georgia state Senator William Ligon. You know who he is, right? Highly respected guy. "Dear Mr president, as chairman of the Georgia Senate judiciary committee on elections. I request that you immediately send an outside team of cyber experts to investigate potential hacking and other irregularities associated with Dominion voting systems, scanners, ballot marking devices, ballots, polling pads used in the 2020 general election in Georgia." You don't hear this from your secretary of state and you don't hear this from your governor and you do have a great legislature. I have to tell you, but the governor won't let him hold the session to decertify. On December 30th, 2020, the committee held a hearing investigating potential fraud and other irregularities during Georgia's 2020 general election.

Donald Trump: [\(01-03:26\)](#)

The committee first unanimously approved a report dated December 17th, 2020, discussing a myriad of voting irregularities and potential fraud in Georgia 2020 general election, disgusted in an earlier hearing held on December 3rd. Notably the committee stated in the executive summary that the November 3rd 2020 general election was chaotic and reported results must be viewed as untrustworthy. They are untrustworthy, despite the line of crap that you hear from these people that represent you. I don't know where they come from. The committee then heard, and this is from one of your most highly respected political representatives, the committee then heard additional testimony concerning voting irregularities during the 2020 general election, including testimony and a real time test demonstrating serious irregularities with Dominion's voting machines. Three events discussed at this hearing stand out and require a forensic auditor of the Dominion voting machines in Georgia to be immediately conducted.

Donald Trump: [\(01-04:36\)](#)

The governor will not let us do it. We've been asking them now since November 4th, the day after the election, he won't let us do it. Why won't he let us do it? There's only one reason I can think of. First the Dominion voting machines employed in Fulton County. That's the home of Stacey. Had an astounding 93.67 error rate. 93.67 error rate in the scanning of ballots requiring a review panel to adjudicate or determine the voters intent. So they're going to a voter intent. What did the voter mean by this vote? Somebody votes for Trump. I think that voter meant something other. He doesn't want Trump. Let's just switch it around.

Donald Trump: [\(01-05:23\)](#)

Think of that. They're trying to determine the voters intent in over 106,000 ballots out of a total of 113,000 ballots. This is from your representative, highly respected. The national average for such an error rate is far less than 1.2%. So, that was 93%. The source of this astronomical error rate must be identified to determine if these machines were set up were designated to allow for a third party to disregard the actual ballot cast by the registered voter. This is what I have. There was no way. Look at this crowd we have here. Biden came here. He had nobody.

Donald Trump: [\(01-06:08\)](#)

Gallup, Gallup. You know, the Gallup poll. They did a ... I don't say this braggingly, the most admired man in the world or the country. I don't say it. I say it for a different reason. So, I came in first. Obama came in second and Biden came in way low. Then I say, and they say, and people have said, how is it possible that a guy who got 80 million votes can't get any votes for the most admired man. You know why? Because he didn't come in first. That's why.

Donald Trump: [\(01:06:47\)](#)

Second, again from this very respected political leader, second, there is clear evidence that tens of thousands of votes were switched from president Trump to former vice president Biden in several counties throughout Georgia. For example, in Bibb County, anybody live in Bibb County? Bibb, Bibb, B-I-B-B. President Trump was reported to a 29,391 votes at 9:11 PM, while simultaneously former vice-president Joe Biden was reported to have 17,000 to 18. Minutes later at the next update these vote numbers switched with president Trump now having 17,000. And Biden now having 29,391. That was a switch of over 12,000 votes. It was like a miracle. Third, during this hearing, a presenter demonstrated that a Dominion Poll could be hacked into in real time because it was connected to the internet. Now, anything connected to the internet, that's not good, but this demonstration proved that these machines could allow votes to be siphoned off or added during the voting process because they're connected to the internet.

Donald Trump: [\(01:08:14\)](#)

Cybersecurity experts agree that voting machines should not be connected to the internet at any time and in any way, shape or form. Did you see that during the hearing? This guy sitting there. Well, can you connect into the machines? Yes. How do you do that? Within about 25 seconds, he controlled the internet. Former vice-president Biden led Georgia by only 11,779 votes. Every one of the things I told you about almost is more votes than what we're talking about. The crime that was committed in this state is immeasurable and immediate forensic audit of an appropriate sampling of Dominion's voting machines and related equipment is critical to determine the level ...

Donald Trump: [\(01:09:03\)](#)

... Machines and related equipment is critical to determine the level of illegal fraudulent ballots, improperly counted in Georgia during the 2020 general election and during tomorrow's race. You've got to be very careful. And, let me also quickly read a letter from Mark Finchem, chairman of the Arizona House, a very respected man, Federal Relations Committee. "Dear Mr. President, subsequent to the election, members of the legislature were inundated with complaints from constituents relating to the intensity of the general election, and the integrity more important than anything else, and the accuracy of canvassed results." "In many instances, constituents reported that their earlier in-person ballots may not have been correctly processed, or tabulated in Maricopa County officials." "Members of the legislature have conducted two public hearings in recent weeks during which significant evidence of fraudulent and illegal voting in Arizona has been demonstrated through expert and eyewitness testimony, for example, in Pima County and Maricopa County, it appears that 143,000 illegal votes were actually injected into the ballot system." Think of that. No, but think of this.

Donald Trump: [\(01:10:25\)](#)

Also, the press won't report this, they probably turn it off, oh, we don't like this. They don't like this. They don't want to talk about numbers. They talked about my phone call. They don't like my phone call, everyone loved my phone call. They don't like talking about numbers, because nobody knew the numbers were so egregious. Also, an expert mathematician concluded that the only explanation for the actual voting results in Arizona is that 100%... Think of this, 130% of Democrats voted for candidate Biden, and a negative 30% voted for President Trump. Now, think of that. In order to get to the numbers 130% of the voters, that's a little tough to get, okay, had to vote for him, and minus 30 had to vote for me, and that gets you to a 100%. And, nobody has a 100% voting.

Donald Trump: [\(01:11:21\)](#)

For all of these people who think it's too late, does that mean that we're forced to approve a fraudulent election or an election with massive irregularities? I don't think so. [crosstalk 01:11:32] I don't think so. I want to thank those two great political leaders, but we have many other letters just like that. Same thing. Hundreds of thousands of votes are missing. The only way to combat the Democrat fraud is to flood your polling places with a historic tidal wave of Republican voters tomorrow.

Donald Trump: [\(01:11:56\)](#)

Because at a certain point, the machines are going to explode. They almost did with me, unfortunately they didn't quite get there, but we'll figure that out. And, I just want Mike Lee to listen to this when I'm talking, because you know what? We need his vote. This election is your chance to stand up to the corrupt Democrat machine, and show them that the American people are still in charge.

Crowd: [\(01:12:20\)](#)

Yeah.

Donald Trump: [\(01:12:23\)](#)

With your help over the last four years, we built the greatest political movement in the history of our country. There's never been anything like this. Kelly, when did I say, we'll do this, like two days ago, three days ago, right? And, look at this, and we love you all for being here, we really do. I'm glad the weathers good, we love you all. But, there's never been a movement like this. I say it all the time, and the politicians, the lame stream medias, I call them affectionately, if that weren't true they'd say, "That's wrong, there's never been a movement like this." I mean, you have people that won one state, and they become world famous for the rest of their lives.

Donald Trump: [\(01:13:02\)](#)

You have people that came in second in New Hampshire and their [inaudible 00:04:06], we won everything and we won it now a second time. Hate to bore you with that expression. But, we won it now a second time. And, I don't want to win it a third time, I really want to win it the second time, [inaudible 00:04:18]. Somebody came up to me today, Kelly, and they said, "Sir, you way up in four years, nobody can come close to me." I said, "I'm not interested in four years, I'm interested in like eight weeks ago."

Crowd: [\(01:13:34\)](#)

Yeah.

Donald Trump: [\(01:13:35\)](#)

Four years is a long time. It's actually two in two, we'll take back the house for [crosstalk 01:13:42] Kevin and Marjorie. Jodi, we'll bring back the house, right? We'll bring back the house.

Crowd: [\(01:13:48\)](#)

Four more years. Four more years. Four more years. Four more years. Four more years. Four more years. Four more years, four more years, four more years.

Donald Trump: [\(01:14:00\)](#)

No, we didn't win, I'd be all upset. Of course, if I didn't win, you probably wouldn't want me, you know in all [inaudible 01:14:05].

Crowd: [\(01:14:05\)](#)

[crosstalk 01:14:06].

Donald Trump: [\(01:14:07\)](#)

A Big difference between losing and winning and having it stolen. No, but they talk about for years, sir, you haven't made, nobody can come closer and I say, "Nope, we go this way first." And, I think we're going to do it. I really believe, because there's no [crosstalk 01:14:23] way we could have won every single state, and for Fox, not one state, this is one of many. We win every state, and they're going to have this guy be president and he can't speak, he can't talk. Already, we've achieved more than anyone thought possible. And, we are just getting started.

Speaker 1: [\(01:14:43\)](#)

Thank you.

Donald Trump: [\(01:14:44\)](#)

And honestly, it's you, it's amazing what happened. I don't even know why the hell I say let's have a rally. We have a rally and thousands and thousands

[inaudible 01:14:51] Honestly, I'll go out on the extreme, there's never been anything like this in the history of our country. And, the election is over, the presidential election, and we have a big one tomorrow, but there's never been anything like this in the history of our country. Our economy is coming back. It's roaring back. Our stock market is an all time high. Who would have thought that? We're rounding the turn, because of what we did with the vaccines. And, nobody else would have done it, it would have taken so long. The economy boomed at 33.4% last quarter, that's the fastest rate ever recorded. And, we're talking about [crosstalk 01:15:37] pandemic during a pandemic. We've already slashed the unemployment rate in half. And for decades, our politicians spend trillions of dollars rebuilding foreign nations, fighting foreign wars and defending foreign borders. You know, we're bringing many of our great troops home. I mean, I hate to say it, but got to do it. We've been in Afghanistan for 19 years, I think that's enough. I think that's enough. We've got very few left and [crosstalk 01:16:09] very proud. Nothing worse than going to Dover and meeting the parents of our great warriors that have fallen, our great warriors coming home so badly wounded or dead. And, on countries that many of you have never even heard about. So, we bring our soldiers home. We've been incredible warriors, we can beat anybody. Nobody has our equipment, nobody has our military, nobody has our people-

Speaker 2: (01:16:36)
[inaudible 01:16:36].

Donald Trump: (01:16:37)
... but we aren't over there to be policemen. We're not over there to be policing, they're warriors, they're fighters, and that's what we want them for. That's what we have to have them for. But, we brought a lot of them home. We are finally protecting our nation, rebuilding our cities and we're bringing our jobs, our factories and our troops back to the USA where they belong.

Donald Trump: (01:17:07)
But everything that we've achieved together is on the line tomorrow. Our fight to take back our country from the big donors, the big media and the horrendous big tech giant that our politicians, not these two politicians, are afraid to attack. Section 230, we have to get rid of Section 230 politicians-

Crowd: (01:17:26)
Yeah.

Donald Trump: (01:17:30)
... or you're not going to have a country very long, taken away all your rights. If you-

Speaker 3: (01:17:34)
[inaudible 01:17:34].

Donald Trump: (01:17:34)
... want to send a message to the powerful forces that are trying to control your country, you must get out and vote tomorrow for David Perdue and Kelly Loeffler.

Crowd: (01:17:47)
Yeah.

Donald Trump: (01:17:47)
With your help, we're going to continue our mission to save America, and we're going to continue our mission of America first. It's very simple.

Crowd: (01:17:59)
Yeah.

Donald Trump: (01:18:01)
Each of us here tonight is United by the same core vision, and the same timeless American values. We love our country. Together, we believe that faith and family, not government and bureaucracy are the center of American life.

Speaker 4: (01:18:15)
Yeah.

Speaker 5: (01:18:15)
Yeah.

Donald Trump: (01:18:16)
We will defend the right to life, [crosstalk 01:18:19] religious Liberty, free speech and the right to keep and bear arms, which they want to take away from you.

Crowd: (01:18:24)
Yeah.

Donald Trump: (01:18:27)
And, we will always support the heroes of law enforcement.

Crowd: (01:18:34)
Yeah.

Donald Trump: (01:18:35)
We will maintain America's unrivaled military might, and we will preserve peace through strength.

Crowd: (01:18:44)
Yeah.

Donald Trump: (01:18:44)
You know when I first got elected and before I got elected in 2015 and 2016, before they were in debates and everyone said, "Oh, he's going to cause Wars, he's going to cause wars." I think I'm the only president in many, many decades that didn't [crosstalk 01:19:00] get into a war, right.

Crowd: (01:19:01)
Yeah.

Donald Trump: (01:19:01)
[inaudible 00:10:04]. Remember North Korea was going to be a tremendous nuclear fight, and all this, what happened with that? I got along very well with Kim Jong-un. I don't think that Joe's going to based on what I've heard, but I got along very well with him. And people say, "Whatever happened with North Korea, we got along well." But, they all said that, "With my personality, I'll be in a big war very soon within the first two weeks." What happened? And, they don't want to mess with us either, that [crosstalk 01:19:35] I can tell you.

Donald Trump: (01:19:36)
David and Kelly will protect Social Security and Medicare, and they will always protect patients with pre-existing conditions. We will stop the radical

indoctrination of our students and restore patriotic education to our schools.

Crowd: [\(01:19:50\)](#)

Yeah.

Donald Trump: [\(01:19:54\)](#)

We will teach our children to love our country, honor our history and always respect our great American flag.

Crowd: [\(01:20:02\)](#)

Yeah.

Donald Trump: [\(01:20:05\)](#)

And, we will live by the words of our national motto, In God We Trust, and it will stay that way.

Crowd: [\(01:20:13\)](#)

Yeah.

Donald Trump: [\(01:20:16\)](#)

From Atlanta to Augusta, to Savannah, to Columbus, from Athens... And, I want to say hello to Herschel Walker, Athens.

Crowd: [\(01:20:26\)](#)

Yeah.

Donald Trump: [\(01:20:26\)](#)

Herschel [crosstalk 01:20:28]. 10.2 yards of carry for a while, he made a lot of quarterbacks look very good. We love Hershel. To right here in Dalton, Georgia, we inherit the legacy of generations of American Patriots who gave their blood, sweat and tears to defend our country and to defend our freedom. We stand on the shoulders of American heroes who crossed the oceans, settle the continent, tamed the wilderness, laid down the railroads, raised up the great skyscrapers that won two world wars, defeated fascism and communism, and made America into the single greatest nation in the history of the world, and the best is yet to come.

Crowd: [\(01:21:16\)](#)

Yeah.

Donald Trump: [\(01:21:22\)](#)

And, proud citizens like you helped build this country. And, together we are taking back our country, our fight to drain the Washington swamp and reclaim America's destiny and dignity has only just begun. We will not bend, we will not break, we will not yield. We will never give in, we will never give up, we will never back down. We will never, ever surrender.

Crowd: [\(01:21:49\)](#)

Yeah.

Donald Trump: [\(01:21:54\)](#)

Because, we are Americans [crosstalk 01:21:56] and we are from Georgia-

Crowd: [\(01:22:00\)](#)

Yeah.

Donald Trump: [\(01:22:00\)](#)

... and our hearts bleed red, white and blue.

Crowd: [\(01:22:06\)](#)

Yeah.

Donald Trump: [\(01:22:06\)](#)

We are one movement, one people, one family, and one glorious nation under God. And, together with the incredible people of Georgia, we have made America powerful again, our military. We have made America wealthy again, our stock market. We have made America strong again, look at that arm, look at...

Donald Trump: [\(01:22:35\)](#)

We have made America proud again, we're proud of our country. We have made America safe again, and we will make America great again. Go get him, David, go get him, Kelly, go get them tomorrow.

Donald Trump Georgia Rally Transcript Before Senate Runoff Elections December 5

[Rev](#) › [Blog](#) › [Transcripts](#) › [Donald Trump Transcripts](#) › Donald Trump Georgia Rally Transcript Before Senate Runoff Elections December 5

President Donald Trump held a December 5, 2020 rally in Valdosta, GA ahead of the Georgia Senate runoff election to campaign for Republicans Kelly Loeffler and David Perdue. First Lady Melania Trump also spoke at the rally. Read the full transcript of Trump's rally speech here.

Melania Trump: [\(01:30\)](#)
Hello, Georgia.

Audience: [\(01:31\)](#)
USA. USA. USA. USA.

Melania Trump: [\(02:55\)](#)
It is wonderful to be here with you tonight. Thank you for coming out and supporting us. President Trump continues to fight for you every single day. Do not let your voices be silenced. We must keep our seats in the Senate. It is more important than ever that you exercise your rights as an American citizen and vote. Under my husband's leadership, our borders are safer global, terrorists have been destroyed, and historic peace deals in the Middle East have been made. Our nation is respected again and our allies are now doing their fair share globally. President Trump has brought jobs back to the American people. And opportunities for women have expanded in our workforce. Our economy has soared and unemployment has shrunk. When a global pandemic hit the United States last January, my husband put the American peoples first. And now under this administration and because of our amazing medical capabilities and resources, we are closer than ever to vaccinate that will save millions of lives. Let your voices be heard, Georgia.

Melania Trump: [\(04:54\)](#)
Get out and vote for Senator Loeffler and Senator Perdue. Thank you. And God bless you and your families. It is now my pleasure to welcome the President of the United States, Donald J. Trump.

Donald Trump: [\(05:35\)](#)
Thank you.

Audience: [\(05:35\)](#)
Four more years. Four more years. Four more years. Four more years. Four more years.

Donald Trump: [\(05:35\)](#)
Thank you. A very popular First Lady, I have to admit. Thank you very much and thank you, Melania. And I want to say, hello, Georgia. We did a great job. You know we won Georgia, just so you understand. And we won Florida and we won a lot of places.

Audience: [\(06:06\)](#)
We love you. We love you. We love you.

Donald Trump: [\(06:08\)](#)
Thank you. Thank you. Thank you very much. Thank you.

Audience: [\(06:24\)](#)
We love you. We love you. We love you.

Donald Trump: [\(06:24\)](#)
Thank you.

Audience: [\(06:24\)](#)
We love you. We love you. We love you. We love you.

Donald Trump: [\(06:24\)](#)
Well, thank you very much. Thank you. No, we won a lot of places. We won Florida. We won Ohio. Big, big. We won them big. Remember we were going to lose Florida they said. We were five down in Florida. We won by a lot. We were way down in Ohio and we won by a lot. I think they say that if you win Florida and if you win Ohio in history, you've never lost an election. This has got to be a first time. But the truth is they were right, we've never lost that election. We're winning this election. And I will say, we're fighting very hard for this state. When you look at all of the corruption and all of the problems having to do with this election, all I can do is campaign and then I wait for the numbers. But when the numbers come out of ceilings and come out of leather bags, you start to say, "What's going on?" But I want to just tell you that I love this state. I love the people in this state and I'm thrilled to be back in magnificent Georgia with thousands of proud, hardworking American patriots.

Donald Trump: [\(07:33\)](#)
Let me begin by wishing you all a very Merry Christmas. Remember the word. Remember. We started five years ago, and I said you're going to be saying Christmas again. And we say it proudly again, although there'll be trying to take that word again out of the vocabulary. We're not going to let them do that. I also want to express our profound condolences to the family of Harrison Deal, a young and brilliant campaign staffer for Senator Loeffler, who tragically died in a terrible car accident yesterday. You know about it. He was an incredible magnificent young man. And I just want to say our prayers are with his friends and loved ones and we will keep his memory in our hearts. And he's looking down right now and he's very proud of Kelly and David. He's very proud of all of us. So I just want to express my best wishes to the family and everybody. Thank you. Thank you, Kelly. And let me also express our warmest best wishes and love

to all of those people and families suffering from the COVID pandemic. Vaccines are on their way at a level that nobody ever thought possible. It would have taken another administration five years. It took us seven months and they're starting next week and we're going to start vaccinating. And a lot of people already are vaccinated. It's called you have ... You caught it and you're immune. I hope it's true. They say that before I had it, they said if you catch it, you're immune for life. Once I got it, they said, if you catch it, you're immune for four months. Right.

Donald Trump: [\(09:13\)](#)

But they're on their way, the vaccines and they're great vaccines and safe, and brilliant actually to think of it, what we've done in such a short period of time. Nobody thought. They call it, even some of the enemies call it a medical miracle what we've done. And we also have great therapeutics and they're already here and I can testify to that fact. I'll tell you what, some incredible work has been done over the last seven months. And we should always get credit for that. Don't let anyone ever take it away from us.

Donald Trump: [\(09:45\)](#)

We're gathered here tonight to ensure ... A very important word, ensure because these are two great, great people that I know so well and respected by everybody in Washington and beyond, that David Perdue and Kelly Loeffler win the most important congressional runoff, probably in American history. I really believe that. I think it's in American ... There's never been a time like this, where you have two at one time, at least you have two beauties. And you know what, you also have two beauties running against them, but beauty in a different way, there are two beauties.

Donald Trump: [\(10:21\)](#)

But there's never been a case where a state has had this prominence on Senate races because they're never together. And this is something that's very important and you have to get out and you have to vote. You have to make sure you have every vote counted. Every one has to count. You got to make sure they don't throw away any ballots. You got to make sure that when they collect the ballots and they start bragging about how many ballots they already have, you got to make sure your secretary of state knows what the hell he's doing. And you got to make sure your governor gets a lot tougher than he's been. He's got to get a lot tougher. Because at stake in this election is control of the US Senate and that really means control of this country. The voters of Georgia will determine which party runs every committee, writes every piece of legislation, controls every single taxpayer dollar.

Donald Trump: [\(11:18\)](#)

Very simply, you will decide whether your children will grow up in a socialist country or whether they will grow up in a free country. And I will tell you this, socialist is just the beginning for these people. These people want to go further than socialism. They want to go into a communistic form of government. I have no doubt about it. Somehow that doesn't suit Georgia too well. That doesn't work too well I think, Kelly, in Georgia, does it?

Donald Trump: [\(11:49\)](#)

David and Kelly are running against radical Jon Ossoff and Raphael Warnock. Ossoff and Warnock are the two most extreme, far-left liberal Senate candidates in the history of our country, and you got them both at one time. How did that happen? I think you both got lucky, but we'll see, right? We'll see. You must go vote and vote early starting December 14th. You have to do it. They cheated and they rigged our presidential election, but we will still win it. We will still win it. We'll still win it. And they're going to try and rig this election too.

Audience: [\(12:31\)](#)

Stop the steal. Stop the steal. Stop the steal. Stop the steal. Stop the steal. Stop the steal. Stop the steal. Stop the steal. Stop the steal. Stop the steal. Stop the steal. Stop the steal.

Donald Trump: [\(12:54\)](#)

No, we continue to fight. We've had some great moments. We just need somebody with courage to do what they have to do because everyone knows it's wrong. We need somebody with courage, somebody that makes decisions, then we'll be going up to the Supreme Court very shortly. And we really, if we have-

Audience: [\(13:10\)](#)

Fight. Fight. Fight.

Donald Trump: [\(13:17\)](#)

If we have courage and wisdom, I think, you know what the answer's going to be because you can't let people get away with what they got away with. Think of it, with over 74 million votes, over, think of that, more than ... I got more votes than any sitting president in history. 11 million more votes than we got in 2016. And we thought that if we could get 68 million, 67 million that would be the end. All of our great, brilliant geniuses said you'd win if you get 67 or 68. It's over. We got 74 million-plus and they're trying to convince us that we lost. We didn't lose. They found a lot of ballots to be nice about it. And they got rid of some too. The 74, let me tell you, the 74 could have been even higher.

Donald Trump: [\(14:10\)](#)

As the great pollster, John McLaughlin, who was really a great pollster, one of the most highly respected, he said, "There's no way this could have happened other than the obvious cheating or a rigged election. There's no way it could have happened." It's interesting, I wrote this out and I had just a few of the facts, which I think ... Because I want to get onto the presidentials. I want to stay on presidential, but I got to get to these two because they're incredible. But listen to this. These are the facts. And each fact is irrefutable and it means win. President Trump received, done by one of the most brilliant political people, President Trump received more votes than any previous incumbent president in history. And we lost. And we lost. So, we received more votes than anybody in history, any incumbent in history, and we lost, supposedly. We didn't lose. You're going to see that. No incumbent who received 75% of the total primary vote lost reelection in the history of our country. President Trump received 94, not 74. 94, which is one of the highest in history.

Donald Trump: [\(15:21\)](#)

In fact, President Trump is the only one of five incumbents since 1912 to receive more than 90% of the primary vote. And again, anybody received over 75%, they won. We got 94%. President Trump set a record for the most primary votes ever received by an incumbent, ever. And nobody that's received all of the primary votes, nobody's received at a much lesser level than what we, they always won. But we didn't according to what they say. It's rigged. It's a fixed deal. Nationally, initial numbers show that 26% of President Trump's voting share came from nonwhite voters. The highest percentage for a GOP presidential candidate since 1960. That's a long time ago. President Trump won ... Think of this one. President Trump won 18 of 19 bellwether counties. You know what a bellwether county is, it's a big deal. So I won 18 of 19, a record, never happened. That between 1980 and 2016 voted for the eventual president in every single election, and before that, it was almost every election. And we won a record 18 of 19. Never lost. Nobody's ever lost with anything like that.

Donald Trump: [\(16:48\)](#)

Biden did not demonstrate coattails for the downballot races, had no coattails. I'm shocked to hear that. In fact, he got 80 million votes. But what he made a Thanksgiving day speech on the internet, they say he had less than a thousand people. How do you have 80 million votes and you have a thousand people? Now how do you have 80 million votes and you have less than a thousand people?

Donald Trump: [\(17:12\)](#)

With Republicans maintaining control ... So here's what happened. So Biden didn't demonstrate coattails downballot races, but with Republicans maintaining control, first time this has ever happened, control of the Senate, winning all 27 toss-up races in the House. Kevin McCarthy, great job. Mitch, great job. Winning all 27 toss-up races. And now, think of it. We didn't lose a seat in the House. Think of this. The first time that anybody, I think in history, we didn't lose one seat. Normally, you lose two, three, five, and you replay. We lost nobody sitting in Congress. I worked hard in the House, with Kevin McCarthy, not losing a single legislative chamber and making big gains at the state level and holding onto the Senate. I mean, look at what's happened. We better hold onto the Senate, you two. And there's never been numbers like that where a president even came close to losing, but they say we lost. The only way is they stuffed the ballot boxes.

Donald Trump: (18:14)

President Trump won. President Trump won as we said both in Florida and then Ohio. And by the way, won by a lot. Remember the fake polls where they said he's down by four in Florida, and I won by a lot. He's down by two in Ohio, and we won. I think we got eight or nine or something, up. But nobody's ever done that. Those two very powerful, big, important states. And the beauty is that we also won Georgia, and that was good. We won South Carolina and we won Iowa. Remember, we're not going to win an Iowa they said. We're not going to win. I think the farmers like Trump a lot, right? Well, we want an Iowa by a lot. We won in Iowa by close to record numbers. I think I have the record. And we won all over the place.

Donald Trump: (19:06)

And many of these swing states, it's a very interesting statistic. President Obama beat Biden all over the country, except in some of the swing states where Biden beat him badly. How does that work? And they say it's statistically impossible. He beat crooked Hillary. Think of this. He beat crooked Hillary in the swing states, but she beat him everywhere else. Let me tell you, this election was rigged and we can't let it happen to two of the greatest, most respected people in Washington. We can't let it happen again. Can't let it happen.

Audience: (19:48)

Stop the steal. Stop the steal.

Donald Trump: (19:48)

Can't let it happen. Can't let it happen.

Audience: (19:50)

Stop the steal. Stop the steal. Stop the steal. Stop the steal. Stop the steal. Stop the steal.

Donald Trump: (19:58)

Your governor could stop it very easily if he knew what the hell he was doing. He could stop it very easily. Hundreds of thousands of illegal votes were cast in each state. Far from ... I mean, if you look at this, hundreds of thousands more than we needed were cast in every state we're talking about, not only here, but Michigan, Pennsylvania. How about Pennsylvania where they throw the poll Watchers out? They threw them out. They literally threw them out. And they did it here too, by the way. But we caught them cold and have numerous cases pending. And so far we haven't been able to find the people with the courage to do the right thing. And that is true in Georgia, certainly. But we're going to hit those people and they're going to go down in history as great people. They're going to go down because everyone knows what took place.

Donald Trump: (20:47)

But we're going to talk about the presidential election a little bit later because we have a big senatorial race going on in Georgia and we are watching Democrats very, very closely. And remember this, we had this massive race all over the country, so they could cheat in Georgia and people aren't really watching it like they should. And again, all I can do is say I'm running, win, and then do a good job as president. That's all. I don't run the elections. I don't run to see if people are walking in with suitcases and putting them under a table with a black robe around it. I don't do that. That's up to your government here. And for whatever reason, your secretary of state and your governor are afraid of Stacey Abrams. They're afraid of her.

Donald Trump: (21:37)

So we know the Democrats are planning to cheat and we can't let them do it again. And we're going to pull ours out one way or the other. But we have to be vigilant because I don't want these two to work like that I ... I thought we were going to easily win. And then maybe for the first time in a long time, I'd go take a nice little vacation for about two days and then we'd go back. And instead, I probably worked harder in the last three weeks than I've ever worked in my life doing this.

Donald Trump: (22:12)

And I've become friendly with legislators that I didn't know four weeks ago and actually, they're great people. In fact, in my pocket right here, we have a couple of them right here. Where's Burt Jones. Where's Burt Jones? Burt. Burt, boy, you're a young guy. I thought you were young, but not that young. Burt Jones, I want to thank you, Burt, for being here. You're friendly with a man next to you, right? He's a man of courage. Thank you very much, Burt. I appreciate everything you're doing and so does this big crowd. And this is a big ... This is a lot of people. Also, Brandon Beach, Senator Brandon Beach. Brandon, thank you for everything. We appreciate it. William Liggins. William. Where's William? Why are you so far away, William, from them? Oh, I like that group better actually. I agree. And Greg Dolezal, where's Greg? Greg, thank you very much, Greg. We appreciate it. Really do. We appreciate it. Great people.

Donald Trump: (23:09)

And we said, have this brought back into your legislature, governor, have it brought back. Let these people make it. Keep it open, keep it transparent, and let us have a signature verification. What's wrong with that? They keep counting the same votes. I said, "Don't count votes, look at the signature. You're going to find the signatures aren't what they were two years ago, four years ago, six years ago." But are two great Senate opponents, and these are the two people that fight and they're going to fight like ... I don't know if you know this, but one of the people that you're fighting, I went against him, Ossoff, four years ago. He was against a very fine woman, Karen, who was a great woman, and he was leading by quite a bit and we ended up beating him. He didn't even live in the district. He was running for Congress. He didn't even live in the district. So we're going to have the same thing.

Donald Trump: (24:04)

But Ossoff and Warnock will be total pawns of Chuck Schumer, Crying Chuck. I only see him cry when the cameras are on. But he said, he did say this, maybe I'm hurting you when I say, he did say this, "If we get in we're going to absolutely make Donald Trump's life miserable." Can you believe that? That's Chuck Schumer. He made the statement. "We're going to investigate him." Oh, those investigations, we'll go on and on. Well, they've been investigating me since the day we came down on the escalator, which what turned out to be our great First Lady, we came down to the escalator, right? Okay. And a spider in our campaign and lots of other things. But Nancy Pelosi, AOC, Bernie Sanders, and the lunatic radical left, that's what you're going to have.

Donald Trump: (24:56)

As Chuck Schumer said rather infamously, "First we take Georgia, then we take America." But they don't mean to take America in a good sense. They mean bring it over to things that the people of Georgia don't want. You're not going to like it when they want to take over your farm. "Gee, we own this farm too. We were here also. We own this farm." Here's exactly how they will change America forever. The radical Democrats, if they get power, they will immediately abolish the Senate filibuster, allowing them to pass any bill they want and giving them free rein to ram through the most extreme left-wing agenda ever conceived while at the same time, destroying our military through a lack of funding.

Donald Trump: (25:44)

And by the way, tell our senators end Section 230. End Section 230. Put it in. We put it in. I want it in the defense bill. Put it in because it's a national security problem. It's a big national security. So hopefully, Mitch and the senators will put it in. But it's the one chance we have to bring big tech, who are vicious and violent and untruthful, to bring big tech ... It's the only thing they fear is that we're going to end Section 230. So hopefully, we will do it. It happens to be a politically very popular thing to do, by the way.

Donald Trump: (26:23)

If these people get control, their draconian, military cuts will devastate Fort Benning, Fort Gordon, and the military families all across Georgia. We would also like to save the names of the forts if you don't mind everybody. They have the right. They put in the Elizabeth Pocahontas Warren clause, where they have the right to take all the names of our past warriors heroes in some cases, many cases, some turned out to be heroes in disguise, perhaps, but they want to take the names off and they have the right to desecrate, to take down, to destroy, to demolish places in our national parks that we don't want demolished. So we have to be very careful of that. We can't let that happen. They want to put it in our military bill. Of all people, Elizabeth Warren puts that clause in the military bill.

Donald Trump: [\(27:15\)](#)

They will impose total open borders so that people can pour into our country and they will give them free healthcare, free welfare, and the right to vote in your elections. You won't ever win another election as a Republic. They even want to take down the wall. The wall, I won on the wall too. We won on a lot of things. "Take down the wall," I heard him say the other day. "We will take down the wall." We have the strongest border we've ever had now. We're almost finished with the wall. Strongest border, right, Sonny? And we built it despite ... It's incredible, the effect it's having. We built it despite, everybody said no chance. I mean, we had a whole very powerful Democrat party oppose me. And yesterday, I don't know if you saw it, the court-

Donald Trump: [\(28:03\)](#)

Oppose me. And yesterday, I don't know if you saw it, the court just ruled that the money I took was taken legally. So at least we have a legal wall. The appeals court. So we took it and we built the wall and we'll be finished with it very soon, but it's had a tremendous impact on illegal immigrants coming into the country. And by the way, we want people to come into our country, you see that by the vote I got, but we want people to come in legally and through merit. Through merit, where they can help us. The radical Democrats will implement nationwide catch and release. You know that is? You catch a killer, you catch a rapist and you say, "Oh, thank you very much. Please give us your name. Oh, come back in three years. We're going to put you on trial. Oh, Good." You never see them by the way. Remember I had that debate with Joe Biden? He said, "No, they come back." Yeah, they don't come back. They don't come back. No. They don't come back. Like, never. Maybe 1%, but I doubt it. That's the end of them. You let them loose in our country. I got rid of it. You think that was easy?

Donald Trump: [\(29:02\)](#)

And install sanctuary cities all across the country, that's what they want, freeing criminal aliens and MS-13 gang members, the most vicious people. They don't like guns because it's not painful enough. They like using knives. It's true. They don't like guns, they'd rather cut somebody up. To wreak havoc and terror upon innocent families. We've moved thousands and thousands of MS-13s the hell out of our country. We moved them back to where they came from. And some, we put in prison because they're too dangerous to move back because they'll try and figure away. They're not stupid. They're vicious, but they're not stupid, sort of like the Democrats if you think about.

Donald Trump: [\(29:43\)](#)

They'll confiscate privately owned firearms and share... What they will do, they will share everything with themselves, only dangerous equipment. And they will totally cut up a thing called your second amendment rights. They'll Make Washington DC a State and many other places guaranteeing two, four, or six additional left wing senators. They want to make numerous places States, this way you have a lot more... Louie, you're going to have a lot more company in Congress. You'll have lots of... You'll have another 30, 40 congressional people from places you've never even heard of. You've never even heard of. Louie Gohmert. The great Louie Gohmert.

Donald Trump: [\(30:29\)](#)

And there'll be voting against Georgia every time, completely canceling out your voice in Washington forever like David Perdue. I'll never forget it. You got hit by a piece of a hurricane. Remember that? The farmers got hit so hard. And I went with Sonny and with David or some other great people from Georgia. And I said, "Is there a way we can pay these people?" They never asked for anything, and their orchards were wiped out. One of the men said, "This was going to be the best crop I ever had. I was a week and a half away from finally, after 10, 12 years making some money." And a week and a half early, he gets hit by the remnants of that big hurricane from Florida. Great state, great place. But you got hit. And David, we took 100% care of those people, right? We took 100% care, yeah, with the help of Sonny Purdue, Secretary of Agriculture. And I felt so good.

Donald Trump: [\(31:24\)](#)

But I met them. There were 33 of them standing and they were all in the line. "What do you do?" "I have this?" "What?" It was a tragic... And nobody wanted anything. They didn't even want it. They said, "If we could borrow it, if we could..." They didn't want it. These are incredible people. They don't want anything. They just want a level playing field, but we took care of them. They'd never forgot it either. It's very interesting. I still hear from some of those people.

Donald Trump: [\(31:47\)](#)

The extreme left will pack the Supreme Court with 24 radical Justices. That's the last number I heard. I used to hear it was 16, now it's up to 24. Pretty soon, you'll have another Congress. Twenty-four radical justice is instead of nine justices that we have right now. And they want them to revolve up and down the court system so that Supreme Court Justices can spend time in other locations, down the totem pole. They want to hurt the Supreme Court and they want to hurt it very badly. And if these two don't get in, or if I don't get in and these don't, we got to get... The best would be all three. Nothing will happen. All three.

Donald Trump: [\(32:30\)](#)

But they want to destroy the sanctity of the Supreme Court, the importance of the Supreme Court, the majesty of the Supreme Court. They'll terminate religious liberty, cancel free speech, and force you to fund extreme late-term abortion. And there will be nothing to stop them. If they don't get in, there's going to be nothing to stop them. You have no idea how bad it will be. There will be nothing. I used to argue with certain people about the filibuster. I said, look, I don't like it either, but I do it because I know they are going to do it. Everybody said, "Oh, they'll never do it." They're doing it. They've already announced they're going to do it. That means they can do anything they want.

Donald Trump: [\(33:16\)](#)

And the Republicans, they play a different game. I don't know, maybe they love the country more. But they said, "No, no, they'll never do it." And I said, "Well Schumer, he'll do it the first day he gets in, he'll do it." And that's exactly what's happening and he'll do it. And he will do that to the Supreme Court, there's no question. But they look forward to it because you know why? We put on three... Think of this, three great Justices and we'll be over 300 federal judges in the United States, which will be a record. Three hundred, 300. And they don't want to wait, they want to do it very quickly. "Let's just vote and we'll take it." This takes years and years and years to slowly change a court and perhaps I got a little bit lucky to get three. A lot of presidents have had none. They've never had... They stay on for a long time, they're young when they go on and they're old when they come off.

Donald Trump: [\(34:15\)](#)

But the fact is a lot of presidents, good presidents, great presidents... They say you can't be a great president unless you've put in Supreme Court Justice. They say it's the single most important thing a president can do. And I'm not sure that's right, I think military defense, military offense, frankly, is the most important thing. But it's certainly one of the most important things you can do. And the fact that I have more than... I will have by the end, more than 300... First term, think of it. And if we do a second term, which I hope we do, we could have close to 540.

Donald Trump: [\(34:55\)](#)

But the fact that I had three Supreme Court Justices in the first term is not making them feel too good. They will unilaterally surrender to China. They're already doing it. They're already doing it. And Hunter made a lot of money in China. What's he going to do? Sending our factories and our jobs overseas. They will raise your taxes. We lowered your taxes. We gave you the greatest tax decrease, tax cut, in the history of our country and they want to get rid of that and raise your taxes, and raise your regulations. We cut more regulations than any president in the history of our country. That's one of the reasons our business came back.

Donald Trump: [\(35:37\)](#)

With the pandemic, as bad as it is, it's horrible. Should have never happened. China allowed this to happen. Should have never happened. But we went down less. A lot of people don't like to talk... Our economy. We went down less and we went up more than any other country in the world. We went down less because we had a good foundation. And yesterday again... So now I thought it was 48, it's actually 128 times... Can you believe it? We set a new stock market record, but this one was great because the Dow Jones industrial average over... Think of this. Over 30,000 for the first time ever over the last couple of weeks. And yesterday it was 30,200. Can you believe this? And this is during hopefully what will be... We're rounding the turn, we're rounding the corner of the pandemic. But this is during a pandemic. We broke 30,000. A number that was unthinkable when I first came.

Donald Trump: (36:34)

When I first came in at around 16,000, the concept of hitting a 30,000 Dow was not even possible. And we not only hit we... Can you imagine if we didn't get hit by this is freak? This total freak that came into our country, could you imagine if we didn't get hit? And I of this before, David, in a way we did this sort of twice. We took it from the time I came in to the time we got hit and nobody's blaming us for... Every country, 188 got hit. Some were totally devastated. I don't know if they ever recover. But if you think about it, we had two. We did it the first time, we went up from where I took it over. Way up, then it went down. Then we had a second. So we really had two.

Donald Trump: (37:21)

And now we're going to get money because we want the money. First of all, these States and cities should open up. They should open up. And we're working hard against the Democrats, but we're working hard to get some money out to the people because they need it. It's not their fault that they got hit with something from China. And you notice the way the Democrats like to say it came from Italy? No, it came from China. And that's okay to say it. They like to say it came from Europe. "No, actually, well specifically came from Italy." Italy saying, "What did we do?"

Donald Trump: (37:58)

They'll wage war on American energy. Absolutely decimating Georgia's middle-class. Your bills will go up. Not a huge energy producer, but Texas.... Remember they said, "Trump will lose Texas by a lot." I said, "Wait a minute. I'm in favor of energy. I'm the one that built... We have the greatest energy we've ever had. And it all happened this period of time. So you're telling me, you're telling me that I'm going to lose Texas to a guy that's against fracking, against energy, against religion, and against guns." You tell me that, I end up winning Texas by so much. Somebody said, "We don't even know how much." And we knew that before, but it's fake news.

Donald Trump: (38:38)

They said Wisconsin. A poll came out. Washington Post, ABC, just before the election, I'm going to lose Wisconsin by 17 points. I said, "No, I'm going to win Wisconsin." Well, actually I won Wisconsin. They're trying to say he's a little down. But I actually won. But that's called suppression. That's called a suppression poll. That's a poll that's so devastating, when I asked one of the pollsters, I said, "Why did they go so far? Why don't they just say four or five?" "Because in four years they're going to lose all respect. They don't care. They'll do anything to win. They'll do anything to beat you. They don't care." These people are sick. Seventeen points. And we actually won.

Donald Trump: (39:16)

Remember so many of the States? I won every one of them. Every one of these States. And by the way, the swing States that we're all fighting over now, I won them all by a lot. I won them all by a lot. And I have to say, if I lost I'd be a very gracious loser. If I lost, I would say I lost and I'd go to Florida, and I'd take it easy, and I'd go around and I'd say, "I did a good job." But you can't ever accept when they steal and rig and rob. You can't accept it.

Crowd Chants: (39:54)

Stop the steal.

Donald Trump: (40:09)

Well, the Democrats did try to steal the presidency. They're trying like hell. Do you ever notice the fake news? "Today he's appointing his this, his that." Sonny, his Secretary of Agriculture. Sonny. I liked Sonny. We want Sonny. He was a great governor here for eight years. Right? You would have solved this problem in about two hours, Sonny. He would have said, "Let the legislature open. Let the vote... Let us be transparent on signatures." I think that's okay.

Donald Trump: (40:44)

But we're working hard to ensure that it doesn't happen. And now they're trying to steal these two important Senate seats from Georgia. These seats are the last line of defense to save America and protect all that we have accomplished. And we've accomplished things that no other president has accomplished, no other administration. And I did it with these two people. I didn't know Kelly. When Kelly came in, I didn't really know what to think. There is nobody that fought harder for me. And I have to tell you this... Do you mind if I tell you here publicly, is that okay? There is nobody... David understands this too. She fought. What a trooper. She was so tough and smart. She even went against Mitt Romney. She didn't like Mitt Romney too much. I won't say what she said, but it was tough. But she is... We call him Kryptonite. Anything he touches, they lose. But you were so great. And I'll not forget it. And David's been my friend for a long time, for a long, long time. And there's nobody in Washington that's more respected than David Perdue. There's nobody. There's nobody. So we have to keep them.

Donald Trump: (41:58)

If the other side manages to steal both elections, we will have total, one party, socialist control and everything you care about will be gone. Your whole philosophy is going to be gone. Joe Biden, Kamala... Kamala [inaudible 00:14:13]. Crying Chuck Schumer and Nancy Pelosi, they want to take away your guns. I never got it. I never got it. That's one of the reasons I knew. How can you win? No oil, no guns. No God. Oh, they won. I don't think so. Okay. I don't think. We knew that a long time ago. They want to take away your jobs, take away your borders, take away your freedom, take away your religion. And they even want to take away your beautiful Christmas that we just got back.

Donald Trump: (42:49)

I have to be very careful. When I of imitate that, right? You remember I was saying suburban women. I say, "Suburban women, love me. Please love me. I've been so good to you. I've been so good to you." I got rid of the worst regulation of the history of suburbia. I got rid of that regulation. So now you can actually have a house without a building going up next to it that you're not going to be happy about, without crime increasing by tenfold and this and that. So I said, "But suburban women, please, please love me." And CNN put me on. "Donald Trump. Donald Trump is begging. He's begging and crying for the vote of suburban women, [inaudible 00:15:31]"

Donald Trump: (43:32)

These people are sick. So you have to be very careful when you're sarcastic. Sarcasm doesn't work. Sarcasm doesn't work with... Wow, that is a big group of people back there. Look at that. The fake news. Whoa. That's a big group. That is a lot of fake news. Well, now we call it the fake news and suppression news. I use the word suppression because now they got a new thing going. This happened since Hunter, because we were killing them on Hunter, stealing money from every country. He was a human vacuum cleaner and it was hurting them badly. So all of a sudden big tech, together with their partner the Democrats, and their partner the fake news media, they decide under no circumstances will we ever talk about it again. So you have 95% of the media. You could have him be Jesse James and walk into the bank with a gun, hold them up, give me all your money, and they won't talk about it. And it's hard to have a scandal if they don't talk about it.

Donald Trump: (44:42)

Other than the New York Post and people like Sean Hannity and people like Laura, and Tucker is doing good. I like Tucker lately. And our friends in the morning. And I tell you, we have some great new people. OAN. NewsMax. And Judge Jeanine, she's on right? She's on tonight. And Jesse Waters is great. And Pete Hexa. And I'm in trouble because I don't mention everybody, but we have great people. We have a great voice, but the fact is most of the press was suppressed, so that no matter what they wouldn't talk and it was incredible. And I have to give a lot of credit to Col Alan in the New York Post for what they did because they went out and they fought him and they fought them hard. Oldest paper in America, fourth or fifth biggest, and they should be very proud of themselves.

Donald Trump: (45:44)

But we're doing the same thing. These two incredible people are doing the same thing. We fight. If you don't get out and vote, they are going to win. Now, a lot of people, friends of mine say, "Let's not vote. We're not going to vote because we're angry about the presidential..." And they're friends of mine. There are people that are great people. They're real friends. And more than just two, there are numerous people. And it's almost like a protest. But if you do that, the

radical left wins. Okay? It was sort of an instinct of mind. You're angry because so many votes were stolen. It was taken away. And you say, "Well, we're not going to do it." We can't do that. We have to actually do just the opposite. We can't do that. We can't do that. We have to do just the opposite.

Donald Trump: [\(46:26\)](#)

If you don't vote, the socialists and the communists win. They win. Georgia Patriots must show up and vote for these two incredible people. And I'm telling you, they're two of the finest people you'll ever meet. We can fight for the presidency and fight to elect our two great senators and we can do it at the same time. We'll do it at the same time, it's all right. The election is about David Purdue, one of the greats. Kelly Leffler, a person who is just unbelievable. How she picked it up. There's natural talent. As an athlete, I'd always say, "Would you rather practice or have natural talent?" I said, "The best is both right?" But she's got a great natural talent, a great natural talent. Just very [inaudible 00:47:12]. But they believe, both of them, in America, and they believe in our values and all that we stand for. And they understand this state. They love your state. If they didn't, I wouldn't be here because I love you stay too, by the way.

Donald Trump: [\(47:25\)](#)

This election is about the radical left movement that hates America and wants to erase our history and wipe away everything that we hold dear. They want to rip down our statues. I signed a bill. I took an old bill because we could never get it today in the house headed by crazy Nancy. I took an old bill that said, "Ten years in prison." They used the word prison, not jail. "Ten years in prison if you take down a statue." I haven't seen it happen lately. Do you notice? Everyone said you can't use that. I'll never forget. I heard they were going to... They did destruction around... And all in radical left, Democrat-run cities, by the way, and we're not supposed to go in. If I had it to do again, I think I would have said the military in, if you want to know the truth. But we're not supposed to. They're supposed to be able to handle their own affairs. I don't know.

Donald Trump: [\(48:16\)](#)

But all over, they said, "Sir, you can't do this bill. This is too tough." I said, "Really, they're going to tear down a statue of Abraham Lincoln, George Washington, Thomas Jefferson. Desecrate the most beautiful pieces of art... And they represent our country. And now they want to do it again. They want to put it in. I told you, we can't let it happen."

Donald Trump: [\(48:37\)](#)

Over the last four years, David Purdue has been one of the toughest fighters for our America First, America First agenda in Washington. And David saw this. Did you see last week? China said... China doesn't like me too much. They pay us billions and billions. That never happened. Billions and billions of dollars in tariffs and they pay it, they devalued their currency. They paid a lot of money. They don't like me. The happiest people in the world right now are the leaders of China, the second happiest or the leaders of Iran. What we would have done in the next four years, we would have been on a footing like nobody's ever. And now we're giving it all away. But China said, "We will not deal with you unless you get rid of the America First policy." And you know what the Democrats said? They said, "Yes, we will do that." Can you believe this?

Donald Trump: [\(49:35\)](#)

And that's what I realized what a brilliant name that is. We come up with some good ones, but that's a good one. We came up with plenty of good ones, haven't we? Some of them I won't use because some of those people are now friends of mine, but we came up with some good ones. But America First and I looked at Melania a week ago and I said, "Can you believe it? They are saying that they don't agree with America First." How do you say that? I mean, how do you say it? "We don't agree with America first. We agree with China. Yes. We will get rid of America First policy." I think David, you don't like that too much. Right?

Donald Trump: [\(50:09\)](#)

And if they're here, it won't happen because nothing's going to be able to get past that's not going to be reasonable. He fought to pass the largest package, David, of tax cuts and reforms in American history. He helped lead the effort to repeal a record number of job killing regulations, the likes of which you've never seen, including the unfair Waters of the United States Rule that crippled work for our farmers and our builders. It's such a beautiful name, but it was destroying people and I'll never... Waters of the United... How beautiful is that? Waters of the United States. And I said, "I got to get rid of it. I got to do it, but I'm going to get killed." Because the only thing good about it was the title. Waters. "What are you doing today?" "I'm terminating waters of the United States."

Donald Trump: [\(50:57\)](#)

Well it was a little bit like the Paris Environmental Accord, right? The Paris Environmental Accord. I said, "I'm going to get killed in this one." But we would have paid trillions and trillions of dollars. Russia has a big advantage of us. They go back to old days when the air was very dirty, that was their standard. China doesn't kick in until 2030. We kick in immediately. And the money that would have cost us... And if we adhere to it, we would have had to close up 20% of our factories. And now the first thing they want to do... John Kerry, great negotiator. The first thing they want to do is, number one, they want to bring back the Paris Environmental Accord, which will cost us.

Donald Trump: [\(51:39\)](#)

That was designed to destroy the United States. The second thing they want to do is, let's give Iran billions of dollars. Oh, they're so happy. Iran would have been in my office in the first hour after we won the election to make a deal. But perhaps they still will. He said they still will.

Donald Trump: [\(51:59\)](#)

After hurricane Michael devastated our farmers in Southwest Georgia, as I said, no one worked harder to get them relief than David Perdue. He would call me all the time. He actually called me more than Sonny and Sonny's at Agriculture. What the hell's going on, Sonny? Sonny, what happened to you, Sonny? It's true, David would call all the time. And remember how tough the Democrats meant. They didn't want to give them anything. But we got it. We got them more than they even thought possible.

Donald Trump: [\(52:24\)](#)

Senator Purdue helped pass the unprecedented \$2.5 trillion investment in our United States Military delivering the largest pay raises, in addition to everything else, for our warriors in a decade. And we now have the greatest, most modern military in the history of our country. We have brand new fighter jets, brand new bombers, brand new missiles and rockets, hypersonic missiles. We have hypersonic and hydro-sonic. You know what hydro-sonic is? Water. We have them all. We have missiles that go seven times faster than any missile in the world.

Crowd Chants: [\(53:06\)](#)

USA.

Donald Trump: [\(53:10\)](#)

And when we took over, our military was decimated, our military was tired, our military was in big trouble. And you remember and I've said it a lot. One of the world's most overrated generals came to see me. He said, "Sir, we have no ammunition." We had a little problem with a certain country. And he said, "Sir, we have no ammunition." I said, "Tell me, you're not saying that." We didn't have ammunition. Think of it. We had very little ammunition and I'll never forget that statement. I said, "That should never happen to a president of the United States again nor should being spied on ever happened to a president of the United States again."

Donald Trump: [\(53:45\)](#)

Senator Perdue has been a tremendous leader on pro-American immigration reform. Like nobody else. He voted very powerfully when I was going through hell on the wall. They would have given me anything. They gave me the money for the military. They just didn't want to give me money for the wall. So I took it out of the military. What the hell could I do? That was rather good. It's good to be a developer. Everyone said it was. That was the one where the judges ruled yesterday. So they said it was fine because I called it natural security. So we took it out of the... They didn't figure that one out. Now they do. But you know what? They don't have to be careful because it's turned out to be very popular, very successful.

Donald Trump: [\(54:20\)](#)

Shut down sanctuary cities. End chain migration and protect American jobs, David did. He voted to confirm nearly 300 of the judges that I talked about. The

federal judges that interpret the constitution is written. And when the Democrat mob came for judge Kavanaugh, David Purdue stood strong. And I'm just thinking, they both stood strong when they impeached your president for making a perfect phone call too. I'm the only president ever will never... That got impeached for making a perfect phone call. But those two were among the best.

Donald Trump: [\(55:02\)](#)

Senator Purdue is an outsider, a businessman, a great businessman, and a true American Patriot. You need him fighting for you and your family and your values because the United States Senate cannot be the same without him. So that's why I'm here. I don't do these things for other people. In fact, I was curious, I didn't know if anyone was going to show up. I said, "I'm doing it for other people." This is a hell of a crowd lift. As far as the eye can see. As far as the eye can see. I don't like doing it for other people. I said, "David and Kelly called, would you do a rally?" I said, "Not really. I did 56 of them in a little tiny period of time." I said, "Let me have..." And I said, when they asked I... It was really not. But I don't do them for other people. It's a lot of work to do a rally. A lot of work. People don't realize. When you do... I did five a day, the last four or five days. One day I did six. Six. And the smallest one... Think of it, the smallest one.

Donald Trump: [\(56:03\)](#)

And the smallest one, think of it, the smallest one at 25,000 people, you think that's fun? In some of them it's 75 degrees and another it's 20 degrees below zero and you're doing them both. I'm saying, "How's the weather out there?" "Sir, it's about 20 degrees below zero." That's good. Then I land the next step, "How are we doing?" "Sir, it's 82." David's opponent Jon Ossoff is a radical left wing zealot who is very proud to be endorsed by Bernie Sanders, crazy Bernie. Ossoff supports defunding the police, supports the crazy Green New Deal, that's another beauty. Don't forget, the Green New Deal is really \$100 trillion, okay? It's \$100 trillion. They don't say that, Louis, do they? Talk about 3 trillion? They got down to 3 trillion, no, it's \$100 trillion is what they wanted. That's more money, if our economy was going unbelievable gangbusters for 100 years, no recession, no anything we couldn't come close to making 100 trillion.

Donald Trump: [\(57:04\)](#)

They want to rip down buildings and rebuild them with no windows. I like windows, I like big, beautiful windows. He wants to do a total government takeover of healthcare that will destroy your doctor's offices and rural hospitals. So if you are sick, if you have a cold go to a hospital, wait on line for about three days and hope you get a decent doctor. Ossoff also supports a crippling nationwide lockdown. He wants you to lock your home nice and tight after you're inside of it and he passes legislation to let hardened criminals go free, get them out of jail, get them out of jail. Ossoff will be a complete tool for the radical left donors who are trying to buy Georgia Senate seats.

Donald Trump: [\(57:51\)](#)

You see the money these people have raised? I mean, well, of course I just raised \$250 million and I should say. I didn't raise it's just... I said, how are we doing on that front? Because we didn't get great publicity, boy, they were so happy these guys. You might not be happy in a few weeks, you might not. They were so happy. I said, "How's fundraising going?" They said, "Sir, about 250 million." I said, "250 million what?" "Dollars." How the hell did that happen? Because people believe in what we're doing, that's why. They believe in what we're doing. But that's why Ossoff's donations come from Silicon Valley, San Francisco and the other liberal places and they don't come from Georgia. This is not your fault... I know you. You're with me, I'm with you, we've always had wins from primers to two elections. We won two elections, believe it or not. I think I won the second one by more than I won the first one, I do, right? I won the second one by more.

Donald Trump: [\(59:03\)](#)

On January 5th you also need to vote for your incredible Republican Senator Kelly Loeffler. Kelly has been an exceptional champion for Georgia's workers and families. And I know what they fight for. If I could tell you about David, I could tell you about Kelly, she fights for you every single day, loves you state. When our nation was hit with the China virus, Senator Loeffler helped rescue the U.S. economy by voting to pass a historic \$3 trillion bill relief for American workers and families that a lot of people were against it and turned out to be a great thing. Kelly, thank you.

Donald Trump: [\(59:44\)](#)

A lot of people said, "Oh, it's too much." I said, "It's not their fault that I want to get them more money now." And I like the higher number rather than the lower number, we'll make it back. With our help we secured \$15 billion for 175,000 Georgia small businesses and saved 1.5 million Georgia jobs, that was both of them really, both of them. Kelly is a relentless advocate for Georgia farmers and she is tireless to get them relief in this pandemic. And by the way her husband is a fine man who's one of the most respected men in the country, I want to tell you that. I want to tell you that. He's a great man, he's a great gentleman.

Donald Trump: [\(01:00:28\)](#)

If you're successful that it's supposed to be a bad thing. No, I think it means you're smart sometimes, right? He's a smart guy but he's a great guy, he's a great man. At the urging of Kelly and David my administration took historic action to protect growers of Georgia blueberries, peppers, squash and cucumbers. Who does cucumbers around here? Because I like cucumbers. I'm the only one, I like cucumbers.

Donald Trump: [\(01:00:54\)](#)

When our law enforcement heroes were under attack Senator Loeffler stood up to the Marxists and introduced legislation to protect our brave men and women in blue and she was threatened all over the place. That threat meant nothing. That was a wasted number of phone calls or however the hell they threatened you, that was a waste of time. She also introduced legislation to prevent Democrat gun grabbers like Beto O'Rourke. Remember Beto? Beto.

Donald Trump: [\(01:01:23\)](#)

There's a guy, here's another one. He wants to take your guns away. Oh, by the way, Trump is going to lose Texas but Beto O'Rourke who's a big factor of that all thing wants to take. Remember when Beto was running he was riding high and then Ted Cruz has done a great job, beat Beto O'Rourke. But Beto was riding high for a while. I remember he was on the cover of a certain really bad magazine, I won't mention the name it's failing. It won't be in business for another six months, I don't think, I hope. But he was on the cover and he said, "I was born to do this." And I said, "Anybody that says they were born to do this they're going to be losing very quickly." And you know what? Within about two months he was a stone cold loser. And just weeks ago Senator Loeffler her vote to confirm our newest Supreme Court Justice, Amy Coney Barrett. They both did by the way, they both did. I can't leave David out of that one.

Donald Trump: [\(01:02:24\)](#)

Kelly's opponent, Raphael Warnock is a dangerous extremist who is radically opposed to your values. He said he believes that, "Nobody can serve God and the military." Oh, really? An appalling statement that dishonors the memory and generations of American heroes who fought for God and for our country. Raphael Warnock has openly declared his support for socialism and he is even praised Marxists all over the world. He once hosted the barbaric communist dictator, Fidel Castro. He likes Castro, he thinks he was a good man. "He was a good guy," he said. He falsely slandered patriotic Americans as racist. He called police officers gangsters, thugs, and bullies.

Donald Trump: [\(01:03:15\)](#)

He supports abolishing cash bail. Look at what happened to New York with their cash bail, no cash bail. Don't bail, don't worry about it. You killed somebody, don't worry about it you're on the honor code. And he's declared, "Open up the jails." Free the violent criminals and prey on Georgia families, children. Now you can't do that. This is not for Georgia, yeah, I'm telling you. It might be for some places that I tell you that too, this is not for Georgia. I think Raphael has to move to another state.

Audience: [\(01:03:45\)](#)

Warnock.

Donald Trump: [\(01:03:46\)](#)

Try it again. Warnock is strongly anti-Israel and Warnock's own writings make clear that he believes America is a sinner nation that must be punished. Don't

just take my word for it. We did something, I shouldn't be doing this for them, of course it's too much money but we'll do it anyway. We have a little video to play, please.

Speaker 1: [\(01:04:09\)](#)

We, Senator Sanders, Senator Warren and myself are all on the same team. What are you willing to sacrifice to make sure that's over-funding police departments is stopped? There is no middle road on the climate crisis. I not only support a Green New Deal, I don't think it goes far enough. I'm all for a Green New Deal. This is part of what gun registration is about, we want to track where the guns are. We need to cut the defense budget. Bye-bye for Chick-Fil-A.

Speaker 3: [\(01:04:36\)](#)

Are you in favor of expanding the court or perhaps an age limit in place instead of a lifetime appointment?

Speaker 1: [\(01:04:45\)](#)

Well, I've said everything is on the table.

Speaker 2: [\(01:04:49\)](#)

But if we win the majority everything is on the table.

Speaker 4: [\(01:04:52\)](#)

Now we take Georgia and then we change America. Change is coming to America.

Speaker 5: [\(01:04:58\)](#)

The blue wave is comprised of those who are documented and undocumented.

Speaker 6: [\(01:05:02\)](#)

We'll win these races in Georgia so that we don't have to negotiate.

Speaker 7: [\(01:05:08\)](#)

That's their goal, total radical control to bring horrific change to America. Only Georgians can stop them.

Raphael Warnock: [\(01:05:16\)](#)

Nobody can serve God and the military.

Speaker 7: [\(01:05:19\)](#)

Raphael Warnock attacks our military.

Raphael Warnock: [\(01:05:21\)](#)

Police power, the kind of gangster and thug mentality.

Speaker 7: [\(01:05:26\)](#)

Warnock attacks our police.

Raphael Warnock: [\(01:05:29\)](#)

Somebody's got to open up the jails.

Speaker 7: [\(01:05:31\)](#)

Raphael Warnock is dangerous, no wonder he defended this.

Raphael Warnock: [\(01:05:36\)](#)

Not God Bless America, not (beep) America. Now my hope is that in early January Democrats will pick up two more seats in the Georgia runoffs and that will make our life a lot easier. We need to send a message this year. We need to send a message that if you indulge this kind of politics, you're not just going to get beaten. You're going to get beaten so bad you can never run or show your face again in public. [crosstalk 01:06:09]. Because we have had enough, absolutely enough of what we are getting from Donald Trump and his fellow travelers right now. [crosstalk 01:06:23].

Audience: [\(01:06:25\)](#)

Listen.

Raphael Warnock: [\(01:06:28\)](#)

You're not going to get beaten, you're going beaten so bad you can never run again or show your face in public.

Donald Trump: [\(01:06:42\)](#)

So we had, I just looked at that one scene because it was in Washington and we had about a month ago incredible crowds of people. They were angry as hell at the election and they showed up and it was incredible, there were hundreds of thousands of people, people couldn't believe. Now, of course some of the fake news said, "Hundreds of people." Again, no, no, tens of thousands of people. And Antifa, Antifa showed up. Not the right but the left showed up and they looked at some of these people and they wanted to attack the crowd. They looked and they said, "No, thank you," and they left. No problem. They looked at some of these people they said, "No, thank you."

Donald Trump: [\(01:07:24\)](#)

Then it broke up about three o'clock, everyone went home very peacefully, it was a beautiful day, actually. They all went home peacefully. And that night they came back and there were a few families that stayed around with young children and there were some elderly people that were having dinner in Washington, very elderly people. And they got attacked, those people got attacked viciously by the scum from Antifa. We can't let this happen, we can't let this happen.

Donald Trump: [\(01:07:51\)](#)

But what they didn't play, what the fake news didn't play is during the day they walked in and they wanted to do some damage and they took a look and they said, "No, thank you, we won't do it. We'll wait. We'll wait till we get the people with the children. We'll wait till we get the elderly people that want to stay in Washington and really just have a good time." And it was disgusting to watch. On January 5th, you must defeat Ossoff and Warnock and send two great people, David Perdue and Kelly Loeffler back to the Senate. And if you don't mind I'd like to ask David and Kelly to come up and say a few words, please.

Kelly Loeffler: [\(01:08:54\)](#)

Thank you, Georgia, thank you Mr. President. President Trump, you made America great again because you put America first, thank you. President Trump created the strongest economy because he put the American worker first. He stood up, that's right, he stood up to the cancel culture, China, big tech, the fake news. We are standing strong for President Trump because he's fought for us every single day, every day. Georgia, we need you to vote January 5th. If you're our voice on January 5th we'll be your voice for years. We have to make sure that we keep America strong. Thank you. Well, you know what? My colleague David Perdue, my good friend was to make sure that you vote. We are going to vote because if we don't vote we will lose the country. If we vote, we will win.

David Perdue: [\(01:10:06\)](#)

Hey guys, I want to take literally just one second. I want to say something personal to President Trump. Hey guys, I want to say something for President Trump

personally. Yes, I want to say something personal for President Trump. God bless you, we love you, Mr. President. We love the first lady and we're going to fight to win those two seats and make sure you get a fair square deal in the State of Georgia. God bless you, Mr. President.

Donald Trump: [\(01:10:40\)](#)

Thank you very much. Thank you. Well, thank you very much. Thank you both. Thank you, thank you. We're fighting, we're going to fight like you never saw before, thank you. We can't let what happened three weeks ago, we can't let it happen. Note, it's beyond me. We can't let it happen. And somewhere there's going to be a champion, you're a champion, somewhere there's going to be a champion that's going to do what's right. Because this has been going on for a long time, but never like it's happened recently. And they've used the pandemic and the phony fake ballots, the mail-in ballots, they used that to sabotage our country. We're not going to let it happen.

Donald Trump: [\(01:11:38\)](#)

As you know a major issue in this state is voter fraud, it's been a big issue for a long time but never like this. We sent out tens of thousands, millions and millions of ballots. Nobody knew where they came from, where they are, people were getting two, three, four ballots. They were signing them, sending them in, what a mess. And I said it a year ago and I said it every month and I even said, "Let's postpone the election," and they said, "Oh, he's not an American." They knew what they were doing. They knew what they were doing.

Donald Trump: [\(01:12:09\)](#)

Were all deeply disturbed and upset by the lying, cheating, robbing, stealing that's gone on with our elections. We know the Democrats will have dead people voting and you got to watch it, dead people. You wouldn't believe how many illegal aliens from out of the state and they'll be filing out and filling out ballots for people who don't even exist. They put up names, they have people signing their own name over and over. They have people signing names with the same pen, with the same signature. They don't even change because they know once they get it in it'll never be looked at, it'll never be looked at again because of people like your secretary of state and your governor.

Donald Trump: [\(01:12:57\)](#)

So we want signature verification but the answer... And we're going to be very careful, we're going to watch every ballot, David and Kelly, we can't let this happen again. And again we have more light shining here because of what happened and because of the fact it's pinpointed. The answer to the Democrat fraud is not stay at home, that's what Nancy Pelosi and Schumer, that's what they want you to do, stay at home, just stay at home. If you want to do something to them, I don't want to use the word revenge, but it is a certain revenge to the Democrats. You show up and vote in record numbers, that's what you have to do.

Donald Trump: [\(01:13:41\)](#)

They can only win if they cheat, they can't win this state unless they cheat and they cheat better than anybody. When you think it the Republicans are much nicer. They're not nearly as vicious, maybe a few of us. "Republicans are too nice," she said. You're right. That's a very good.. Thank you very much, I like that. But they are, they're too nice. They don't go after these criminals, they got to go after them. We're talking to people, "Go after them," they don't go after them. They're afraid they'll hurt their reputation when they get out, I don't know, they don't go after them. But we're watching this so closely, we have everybody watching. You got to get out and vote.

Donald Trump: [\(01:14:22\)](#)

Let them steal Georgia again you'll never be able to look yourself in the mirror. We have to hold the line and you have two of the greatest people in earth so we have to hold the line. Make sure that you and everyone else know that you have to register to vote before this Monday, December 7th, is that right? Monday, December 7th, you have to register to vote. Of course, you'll probably be allowed to if you're a Democrat, they don't have any time limit. Did you see where Stacey is allowed to harvest but other people can't harvest. How is that constitutional? How is that constitutional? Has anybody looked at that?

Donald Trump: [\(01:15:05\)](#)

Go to georgia.gov and register immediately then request your absentee ballot before December 31st. Don't delay, watch it closely. Do it today, do it tomorrow and return your ballot the same day you get it. So they can't say, "Gee, it didn't come in on time." You know what they did it in one of the states? Ballots were coming in late, very, very late so they backdated the ballots. We have all the information, we have so much evidence. And then you go to a court, "Oh, they don't have enough evidence." We have hundreds and hundreds and even thousands of affidavits. And they say, "Oh, he doesn't have the evidence." We have so much evidence we don't know what to do with it. I'm saying, "Do we put all of this into a file?" Again it's like with wheelbarrows.

Donald Trump: [\(01:15:50\)](#)

If you aren't planning to vote by mail, vote early in person or vote on election day. Whatever you do I need each of you, every one of you, your friends, your family to go and vote. And after we win we need to pass landmark election reform including voter ID, is that so bad? Residency verification, like we live in the country, we live in this state. Citizenship confirmation. They want to say, "Oh, he doesn't have to be a citizen." You got to see what's voting... They're not citizens. "You're a citizen?" "No, I'm not citizen." "You speak English?" "No, no English. I speak, no English." "Oh, you're voting?" "Yeah." This is the craziest thing.

Donald Trump: [\(01:16:40\)](#)

The Democrat National Committee had their convention. And they had a picture, you couldn't get in unless you had a picture, you had a photo ID. But when it comes to the most important thing voting they don't want to do it. And they know, they know exactly. We just can't let that happen. I've only been doing this for short time. Believe me this is something we're going to do because we can't allow it to happen. And complete overhaul of our election security systems because right now Dominion is a joke, okay? Not a very funny joke.

Donald Trump: [\(01:17:15\)](#)

It's a disgrace that in 2020 no state in America even makes any real attempt to verify that those who cast ballots by mail are eligible and lawfully registered voters. The evidence of fraud is overwhelming and again, I'm going to ask you to look up at that very, very powerful and very expensive screen. I do this for a few people, let's go.

Pearson Sharp: [\(01:17:39\)](#)

We certainly want transparency. What he saw is what we revealed to you last night on this program what appears to be Atlanta, Georgia ballot counters being told to leave the counting room, then a short time later with no observers, with no media, hidden cases of possible ballots are rolled out from under a table. Four people under a cloud of suspicion begin what looks an awful lot like ballot stuffing.

Richard Barron: [\(01:18:09\)](#)

And the media did pack up and leave at 11:15, but there weren't observers there at that time and there was no announcement made for anyone to leave.

Pearson Sharp: [\(01:18:21\)](#)

Now, wait a second here, that is disheveled Fulton County Elections Chief Richard Barron, but he doesn't have the facts right, video proves it. At 10:40 PM, not 11:15, 10:40, the media is packing up a half hour before he thinks they'll leave, you can see them putting on their jackets there. And by 10:56, they are long gone. And the Trump team has sworn witness testimony claiming an announcement was most certainly made. In fact, even CNN reported the counting was being shut down due to a water main break that even election administrators now acknowledge was a leaky toilet so someone had to tell those people to leave.

Pearson Sharp: [\(01:19:05\)](#)

And if you look at this table there are ballots in boxes open and ready for counting. Now, watch as they get packed up. Why would you need to secure them and then ultimately take out the mysterious ballots from under the table to start counting? It just doesn't add up. Elections board member, Dr. Kathleen Ruth shows her skepticism in that Zoom call this morning with the elections chief.

Dr. Kathleen Ruth: [\(01:19:33\)](#)

It is interesting that these ballots were under a table versus being in the open.

Richard Barron: [\(01:19:42\)](#)

Well, I think there's this... I don't know that there... I think those ballot boxes get heavy. I don't think they want to be lifting those things up and putting them back down.

Pearson Sharp: [\(01:19:59\)](#)

It makes no sense. The guy is scratching his head, he just looks nervous. The guy does not inspire confidence. There were already ballots out, but even almost 24 hours since I posted what could be "smoking gun video of election fraud," a video now with 2.5 million views as of right now on my Twitter feed, the head of elections whose ballot counters are now being accused of ballot stuffing declares this.

Richard Barron: [\(01:20:30\)](#)

I'll have to review. I need to review the video, I have not seen the video.

Speaker 8: [\(01:20:34\)](#)

Now, please do.

Pearson Sharp: [\(01:20:38\)](#)

Points to life. He hasn't watched the video that could upend the presidential election, and the guy in charge of the very people in the room admits he didn't watch the video before updating board members this morning? That's insanity. And yet Fulton County still certified the election. But you know who did watch our video? Our viewers, Stinchfield army. One directed me to this moment in the video. The woman in purple after putting ballots in to be scanned it appears to take the same batch of ballots out, straighten them, and then, look what she does with them. She re-inserts them back into the ballot counting machine again, the same set of ballots. Now, there may or may not be an explanation for this, but it certainly needs to be investigated by law enforcement as the greatest political heist in election history may have just been caught on camera.

Pearson Sharp: [\(01:21:43\)](#)

Evidence of election fraud mounts as the mainstream media and Democrats loudly insist Joe Biden is still the 2020 winner. However, numerous whistleblowers are coming forward with credible information that hundreds of thousands of votes for President Trump mysteriously disappeared on election night. On Tuesday, Jesse Morgan, a worker for the U.S. Postal Service revealed that his trailer full of ballots simply went missing after he dropped them off. The worker drove his truck from Bethpage, New York, all the way to Lancaster, Pennsylvania and says he was carrying some 288,000 completed mail-in ballots.

Pearson Sharp: [\(01:22:18\)](#)

Phil Kline, the director of the legal group, Thomas More Society Amistad Project says they have many more testimonies from whistleblowers with similar stories. The project is working to discover flaws and even expose cases of voting fraud in the 2020 election and has already uncovered serious examples of voting irregularities. Backing out President Trump's warnings, Kline explains that the Post Office was rife with fraud and that many Postal Service workers were taking part in widespread illegal efforts to undermine the election.

Pearson Sharp: [\(01:22:49\)](#)

While the missing truck full of ballots is bad enough, other whistleblowers say they drove thousands of prefilled ballots right over state lines, which is a federal crime. A subcontractor for the Post Office, Nathan Pease, said that he was told by two separate postal workers that the Post Office in Wisconsin had collected and backdated over 100,000 ballots on the morning after the election. Unsurprisingly others also claimed the integrity of Dominion voting machines has been compromised and cannot be trusted.

Pearson Sharp: [\(01:23:20\)](#)

During a press conference in Arlington, Virginia on Tuesday, the Project explained that election officials in blue jurisdictions have failed to maintain the ballot chain of custody which leaves the door wide open for voting fraud. The Project said it has photographic evidence of people improperly accessing voting machines and eye witness accounts on how the seals on ballot hard drives were illegally tampered with and broken. Kline says that in total there are over 300,000 fraudulent ballots in Arizona, 548,000 in Michigan, 204,000 in Georgia, and 121,000 in Pennsylvania. Based on this evidence the FBI has reportedly requested to look at the Project's data on voting integrity...

Pearson Sharp: [\(01:24:03\)](#)

... has reportedly requested to look at the project's data on voting integrity and potential election fraud. Pearson Sharp, One America News.

Donald Trump: [\(01:24:13\)](#)

So if you just take the crime of what those Democrat workers were doing, and by the way, there was no water main break. You know they said... there was no water main break.

Donald Trump: [\(01:24:25\)](#)

That's 10 times more than I need to win this state, 10 times more. It's 10 times maybe more than that, but it's 10 times more because we lost by a very close number. The alleged Biden margin of victory in several states is entirely accounted for by extraordinarily large midnight vote dumps. You saw them going up to the sky, all extremely skewed to Biden. Like, Biden would get 10,000 votes and Trump would get three in a Trump area. Oh. For, example, at 6:31 AM in Michigan, reported 141,238 votes for Joe Biden and 5,900 votes for Donald Trump.

Audience: [\(01:25:13\)](#)

Boo.

Donald Trump: [\(01:25:14\)](#)

96% for Biden, 4% for Trump in an area where I should be doing quite well. You know, I won almost every county in Michigan, almost every district, except for one. And they actually had more people, if you look at the ballots, they had ballots all over. They had more ballots than they had people voting. How do you do that? So they had people and they're voting, and then as you know, two of the canvassers were very brave. They didn't vote, and they got the hell knocked out of them from the standpoint of what they went through. All the cameras went off and then they raised their hand, but then they couldn't sign it ultimately, but more ballots than they had voters. Now, how simple is that?

Donald Trump: [\(01:25:56\)](#)

A similar vote dump occurred in Wisconsin at 3:42 AM. This is 3:42 in the morning. In fact, when I went to bed that night, everybody was calling, "Congratulations. You're up 600,000 votes in Pennsylvania." Across all of the key swing states, there were impossibly low rejection rates, you saw that, for mail-in ballots, drastically less than the historic norm. In Georgia 0.5% of the mail-in ballots were rejected in 2020 compared to 5.77%. That's a difference of 11 times more. It's hundreds of thousands of votes. In Pennsylvania, 0.03% were rejected in 2020 compared to a much, much higher percentage in 2016. This issue alone is enough to change the election results in many states.

Donald Trump: [\(01:26:51\)](#)

Whistleblowers. And that's the smallest of the issues, whistleblowers in multiple states have testified to witnessing postal workers and election workers illegally backdating thousands and thousands of ballots, fixing ballots, filling out false birthdays, registering ineligible voters, and much, much more. We're talking about hundreds of thousands of votes in each state. In Arizona, a sample of 100 ballots reviewed by a judge found that a very small percentage of these ballots, very small, but when you look at it, it was turned out to be very large, it was tens of thousands of votes, more than we would have needed to win Arizona. We should have won that state very easily. We have a similar type of governor, I think, but I'll let you know that in about a week.

Donald Trump: [\(01:27:43\)](#)

In one Michigan county, and by the way, when Laura Ingram interviewed your governor, he said he was an offensive lineman. I said, "That's strange. He doesn't look like an offensive lineman to me." In one Michigan county using Dominion voting systems, nearly 6,000 votes were discovered that were wrongly switched from Trump to Biden. They called it a glitch. You know a glitch? Just like the machine broke. Numerous times we found glitches, and every single time, the glitch went a hundred percent to Biden and no percent to Trump. The same systems are used in 30 states.

Donald Trump: [\(01:28:20\)](#)

The left lies, they cheat and they steal. They are ruthless and they are hellbent on getting power and control by any means necessary. They investigate you and they prosecute you. The moment you question them, they try and intimidate you. They call you a poor American. You're not a good American. You don't love our country. They don't love our country. They beat you down, shut you up and make you retreat. That's what they do. That's what they've done to your governor. They've done that to your governor. Your governor should be ashamed of himself. That's what they want to do right here in Georgia. They want you to be quiet. They want you to go away, but we don't go away. We don't go.

Donald Trump: [\(01:29:09\)](#)

It's the biggest open secret in America that Democrats cheat in elections, this year by sending out 65 million mail-in ballots. They perpetrated the largest fraud in the history of our country. Democrat officials and politicians in every swing state, systematically weakened every measure to combat election fraud. They ensured that there were no identity checks, no signature checks. "I want to check a signature, please." "I'm sorry. We don't let you do that." No eligibility checks, no nothing.

Donald Trump: [\(01:29:44\)](#)

Every single one of you know that if these ballots are properly audited, if the signatures and envelopes were examined, if the envelopes were correlated to the votes, because you'll find there are far more ballots than there are envelopes, all you have to do is count them up. How many ballots do you have? How many envelopes do you have? And if the voter rolls are studied, in other words, studied to check the signature. "Ms. Smith. Oh, it's a totally different signature from 2 years ago, from 6 years ago, from 10 years ago. What's that all about?" We will find that hundreds of thousands of ballots were illegally cast in your state and all over the country, by the way, more than enough to give us a total historic victory.

Donald Trump: [\(01:30:35\)](#)

This is our country that they are... and you know this and you see it, but they're trying to take it from us through rigging, fraud, deception, and deceit. That's what we saw in the election. That's what's going on, and it's happening right now in our country. We will do something about it, and we're going to do something about it quickly. We're going to be watching on January 5th, we're going to be watching every element of what they do. This fraud that they perpetrated on our country, we're going to be watching it more closely than any election has ever been watched. Hopefully, our legislatures and the United States Supreme Court will step forward and save our country.

Donald Trump: [\(01:31:23\)](#)

I used to say, "Without borders, we don't have a country." I can say also without an honest voting system, without an electoral process that works and that's honest and fair, we don't have a country either. We need to check every single signature in the presidential and senatorial elections. Right now, we have to get out to vote for David Perdue and Kelly Loeffler to show the radical left that we will never surrender, we will only win. We're going to win. We always win. Somehow we find a way to win.

Donald Trump: [\(01:31:54\)](#)

Now, is not the time to retreat. Now is the time to fight harder than ever before. So don't listen to my friends. Just go out, just go out. And you know what they're saying? They're saying, "We want you to fix the system." We're going to fix the system, but the system will be fixed when these people get in. They'll get in and we'll fix this system because we're all victims. Everybody here, all these thousands of people here tonight, they're all victims, every one of you.

Donald Trump: [\(01:32:24\)](#)

The next great victory for our movement begins right here on January 5th. Then we are going to win back the White House. We're going to win it back. We're going to take back the house in 2022, and then in 2024. And hopefully I won't have to be a candidate, we're going to win back the White House again. A friend of mine said, "Oh, don't worry about it, sir. You're way up in the polls. You'll win in 2024." I said, "I don't want to wait until 2024. I want to go back three weeks."

Donald Trump: [\(01:33:07\)](#)

We're thrilled to be joined tonight by some real friends of all of ours, Representatives Doug Collins. It was fantastic, and by the way, I've got to tell you. As you know, he and Kelly had a great primary, a very strong primary. They both did fantastically well, and he is on board and he is one of the greatest advocates I've ever met in Washington. I want to thank Doug Collins. Where's Doug? Thank you, Doug. What a job he does. Thank you, Doug, you want to run for governor in two years [inaudible 01:33:45]? Yeah. Good-looking governor.

Donald Trump: [\(01:33:55\)](#)

A friend of mine, one of the toughest guys you'll ever see, Louie Gohmert of Texas. Louie. Thank you Louie. Thank you, Louie. And a young up-and-comer who's taken Washington by storm, Dan Crenshaw. Where's Dan? Where's Dan? Where is Dan? I didn't see you, Dan. The first time that's ever happened to me. Yeah, because you do stand out in many ways. Thank you very much, San.

Donald Trump: [\(01:34:27\)](#)

The next Senator from Tennessee just got elected. Did my endorsement help? Ah? Better believe it. We love Tennessee. Bill Haggerty. He's going to be a great Senator. He's going to be a great senator for a long time. You're a former eight-year governor. He only left because of a thing called term limits. If I would've known, I would've tried to end those term limits, but he went to the Department of Agriculture as his head.

Donald Trump: [\(01:34:55\)](#)

He's done a tremendous job. We've handed out \$28 billion to farmers, 28 billion. I said, how badly have we been targeted by China? And Sonny produced that over a two-year period, sir. \$28 billion. That's when I put the tariffs on China, took the money and gave it out to the farmers. And we had a lot of money left over and we put that into the U.S. treasury, right Sonny? You've done a fantastic job. He knows more about farms than any human being.

Donald Trump: [\(01:35:24\)](#)

State representative. A friend of mine, and great gentleman. He saw what was happening. He happens to be a Democrat, but we love him. I'm trying to talk him into joining our party. Vernon Jones. [inaudible 01:35:36]. Thank you Vernon. What a great guy.

Donald Trump: [\(01:35:44\)](#)

Agriculture commissioner, Gary Black. Gary, good job you're doing. Boy, what a good reputation. Thank you very much, Gary. Your Public Service Commission's Tricia Pridemore, Jason Shaw and a great man. Great, great man who's also on the ballot next month. Bubba McDonald. I like that name. Where's Bubba? [inaudible 01:36:06].

Audience: [\(01:36:06\)](#)

Go Bubba. Yes.

Donald Trump: [\(01:36:10\)](#)

Great, great job. Great job. That's great. Thanks a lot, Bubba. And I introduce you to Bert Jones. Bert's going to be a very important man, I think, over the next coming with William and Brandon and the folks and I appreciate it. And Greg, thank you very much for being here. We appreciate it very much. Very important. Georgia Republican Party Chairman, David Shafer. David. Hi David, how are we doing, David? We'll fire you so fast if we don't. Now, David's done a great,

great job, and he works very closely with RMC chairwoman. This is how we won. We won a great state. We won a great state known as Michigan when she was there. And I said, "Let's bring her to Washington." Ronna McDaniel. Thank you, Ronna. Thank you. Thank you, Rona.

Donald Trump: [\(01:37:06\)](#)

Over the last four years, we've built the greatest political movement in the history of our country. Already, we've achieved more than anyone thought possible and we're just getting started and we don't want other people to rip it apart. We must reelect Kelly and David to keep it going for decades. Our politicians spent trillions and trillions of dollars rebuilding other foreign nations, fighting foreign wars and defending foreign borders. We want to defend our border if it's okay. And we're now finally protecting our nation, rebuilding our cities, and we are bringing our jobs, our factories, and our troops back home to the USA where they belong, thank you.

Donald Trump: [\(01:37:51\)](#)

Bringing them home. Not easy to bring them home. I bring them home, and they say, "Well, Sir, we got to keep them there, sir. We got to keep spending money." We got to keep giving money to these countries that can't stand us, that nobody ever heard of-

Audience: [\(01:38:06\)](#)

Boo.

Donald Trump: [\(01:38:06\)](#)

In everything we do, we are putting America first. We ended the war on American energy and the United States is now the number one producer of oil and natural gas anywhere on earth.

Donald Trump: [\(01:38:21\)](#)

We achieved the most secure border in U.S. history, and we built our wall, as I say. Very important for you because you're a big military between the equipment we build and VA choice and VA accountability, right? You ever notice the vets? We used to always have... On television, you'd have the fake news, they'd always be... Well in that case, it wasn't fake, but for years, you'd always see vets how badly treated they were, how badly treated. I shouldn't say this because they'll find one somewhere in the country, but you don't see that. You don't see that anymore. You don't see the stories on the evening news about vets that are being treated horribly. And accountability was a big factor. We fired 9,000 horrible people that took advantage of our vets, and they're gone. Now if our vets don't get good service, they go out, they see a doctor. We pay the bill, they get better. They don't wait in line for weeks and months.

Donald Trump: [\(01:39:20\)](#)

We destroyed 100% of the ISIS caliphate in Iraq and Syria. We killed the leader of ISIS, al-Baghdadi and we eliminated the world's top terrorist, Soleimani is dead. I withdrew from the last administration's disastrous Iran nuclear deal, and I think they want to start it up again. Can you believe this?

Audience: [\(01:39:44\)](#)

Boo.

Donald Trump: [\(01:39:46\)](#)

I wonder if they'll give him 150 billion. No, they'll give him 250. They were ready to rock. They were ready to do whatever we wanted. Now they're going to... they're salivating. I recognized the true capital of Israel and opened the American embassy in Jerusalem, and also recognized Israeli sovereignty over the Golan Heights. Instead of endless war, we are forging peace all over the world.

Donald Trump: [\(01:40:13\)](#)

And you know, we have the greatest military ever. We have the greatest equipment, all made in the USA. A lot of it made in Georgia, but you know what? I'm the only one in many, many decades that hasn't started a war. Everyone thought that with my personality, I'd be in war the first week. They were all saying war, and we developed relationships. Let's see how he would do with Kim Jong-un of North Korea. I don't think too well, but whatever happened to that? Remember I came in, it was going to be war with North Korea. It was going to be war with everybody.

Donald Trump: [\(01:40:46\)](#)

Now, we built the greatest military in the world and the better it is, the less likely it is that we're going to have to use it. But everything that we've achieved together is on the line on June 5th. And this election, you can send a message to the fake news media, and there's a lot of them right back there.

Audience: [\(01:41:03\)](#)

Boo.

Donald Trump: [\(01:41:08\)](#)

They'll find something wrong with this evening. I don't know what it is, but they'll find something wrong. Maybe it was the person that shouted love. They'll say I was a horrible protester. They'll find something. Kelly and David, they're going to find something. They're looking and having a hard time. It's been a love fest. This is a love fest for these two people. But they all want the Silicon Valley sensors and the corrupt Democrat political machine. They're partners. You must vote for David Perdue and Kelly Leffler. Go out and vote. With your help, we are going to continue our mission to save America. We will defend the right to life, religious liberty, free speech and the right to keep and bear arms. They're going to take your guns away.

Donald Trump: [\(01:41:57\)](#)

We will always support the heroes of law enforcement. We will maintain America's unrivaled military might, and we will preserve peace through strength. We will protect social security and Medicare, and we will always protect patients with pre-existing conditions.

Donald Trump: [\(01:42:18\)](#)

We will stop the radical indoctrination of our students and children, and restore a patriotic education to our schools. We will teach our children to love our country, honor our history and always respect our great American flag. We will live by the words of our national motto, In God We Trust.

Donald Trump: [\(01:42:47\)](#)

From Atlanta to Augusta, from Savannah to Columbus and from Athens to right here, right here, this is a nice place. It's a nice place, Valdosta. We inherit the legacy of generations of American patriots who gave their blood, sweat, and tears to defend our country and our freedom. We stand on the shoulders of American heroes who crossed the oceans, settled the continent, tamed the wilderness, laid down the railroads, raised up the great skyscrapers, won two world wars, defeated fascism and communism, and made America into the single greatest nation in the history of the world.

Donald Trump: [\(01:43:32\)](#)

And if they get in, and add me into the group, if you don't mind, we will be greater than ever before without question. The best is yet to come.

Donald Trump: [\(01:43:46\)](#)

Proud citizens like you helped build this country, and together we are taking back our country. Our fight to drain the Washington swamp and reclaim America's destiny has just begun. We will not bend. We will not break. We will not yield. We will never give in. We will never give up and we will never back down. We will never, ever surrender because we are Americans and our hearts bleed red, white, and blue.

Audience: [\(01:44:20\)](#)

U.S.A. U. S.A.

Donald Trump: ([01:44:39](#))

We are one movement, one people, one family, and one glorious nation under God. And together with the incredible people of Georgia, we have made America powerful again. They've done it. We have made America wealthy again. We have made America strong again. We have made America proud again. We have made America safe again, and we will make America great again. Thank you, Georgia. Get out and vote, get out and vote.

President Trump: [\(07:55\)](#)

Thank you Fayetteville and North Carolina. Thank you very much. Tomorrow, we are going to win this state and we are going to win four more years in our great White House. With your vote, we will continue to cut your taxes, cut regulations, support our great police, support our fantastic military, care for our veterans, protect your second amendment, defend religious liberty and ensure more products are proudly stamped with that wonderful phrase, "Made in the USA." Next year will be the greatest economic year in the history of our country. Under my leadership, our economy is now growing at the fastest rate ever recorded. 33.1% just announced last week. We created a record 11.4 million jobs in the last five months. It's a number that we never even thought possible, nobody did. Nobody thought it was possible and we're going to now even do better than that. It's going very rapidly.

President Trump: [\(09:07\)](#)

While foreign nations are in a free fall, you see what's going on with so many nations in Europe, unfortunately. I say that with sadness. We are creating an economic powerhouse unrivaled anywhere in the world. A recent Gallup poll found that 56% of Americans say they are better off today than they were four years ago, under Obama and Biden. You got to remember that, you got to remember that kind of thing. They didn't do a good job. In fact, if they did, I wouldn't have runned. If they did, I wouldn't be here right now. They did a bad job. And Obama, he went out yesterday with Biden. They got like 14 people, they didn't have too many. They didn't have too good a crowd and we have five of these today. Five. We have some big ones. Thank you.

Crowd: [\(09:57\)](#)

[crosstalk 00:10:01].

President Trump: [\(09:57\)](#)

Thank you. Thank you very much.

Crowd: [\(09:57\)](#)

[crosstalk 00:10:06].

President Trump: [\(10:09\)](#)

Thank you. Thank you very much. Thank you and I love you, too, and I appreciate that. We appreciate it.

Crowd: [\(10:19\)](#)

[crosstalk 00:10:16].

President Trump: [\(10:20\)](#)

I was thinking coming in because I watch these fake polls, everyone, no matter if we're up by 10, if we know we're going to win easily, he's down by one point, he's down by one... I just watch this fake stuff and I'm saying to myself, you know, we've been under a phony, fake hoax investigation for three years, nothing but bad and really corrupt publicity from these people. And I say-

Crowd: [\(10:48\)](#)

[crosstalk 00:10:47].

President Trump: [\(10:48\)](#)

I wonder what the difference would have been had it been legit, had it been legit. And it turned out to be just the opposite. They were the ones who committed the crimes, not us. But I wonder what it would have been. It probably would have been a little bit easier, but you know the good news, we're going to win anyway. We're going to shove it.

Crowd: [\(11:06\)](#)

[crosstalk 00:11:06].

President Trump: [\(11:07\)](#)

We're going to win anyway. I wonder what it would've been. I wonder what it would've been if all of the nonsense wasn't brought up.

Crowd: [\(11:14\)](#)

[crosstalk 00:11:14] four more years, four more years, four more years-

President Trump: [\(11:24\)](#)

Thank you very much.

Crowd: [\(11:24\)](#)

Four more years, four more years, four more years-

President Trump: [\(11:26\)](#)

Thank you very much. Looking tremendous in Florida, so of course, they don't mention that. It's Florida. We are looking good. We're really looking good all

over in the real polls, not the Fox polls. Those Fox polls... There's somebody at Fox who doesn't like me very much, I can tell you. They are the phoniest polls and they were almost as bad four years ago. Actually, they were worse, but you get some of these pollsters, they work magic. And the amazing thing is, they hang onto their jobs. They do horribly. Look at what they did last... I had nine states and I had to win them all and they said I was going to lose all nine. This is four years ago. I was going to lose all night. It's going to be very short evening for Donald Trump. And the polls said decisively, "I was going to lose all nine." And that was the day before and I won all nine. No, I won them all.

Crowd: [\(12:19\)](#)

[crosstalk 00:12:20].

President Trump: [\(12:19\)](#)

Or I wouldn't be here right now. No, I won all nine. They said we're going to lose all nine and it was quite depressing as I turned on the television, let's see how we did, he won Florida, he won South Carolina. [inaudible 00:12:32]. No, but thank you.

Crowd: [\(12:35\)](#)

[crosstalk 00:12:35].

President Trump: [\(12:36\)](#)

And then they said they're getting rid of the guy, like at Fox, I heard they were getting rid of that pollster and they kept him and they have others they kept. And you wonder what kind of a business that is? You wonder what kind. We have a case where in Wisconsin, we're one up and I left there a couple of days ago. We had a rally, you wouldn't believe it. Packed. Just packed. Just like last night, like here, but like last night, this was the section I wanted to come. This is considered a small, beautiful, cute little wonderful section-

Crowd: [\(13:06\)](#)

[crosstalk 00:13:07].

President Trump: [\(13:07\)](#)

And they asked me and I said, "I want to be there." No, and every vote counts. It's very important. We had something last night in Miami. You would not have believed it. I don't know who saw it on television. I don't know, but you look at some of these results in Wisconsin, whether I'm up one or down one it's right in that thing. I think we're going to win Wisconsin because we have a lot of people that say, "We don't want to talk to you," and then they go vote for Trump. The hidden voter or whatever they call them. Somebody said, "They're the shy voters." My people are not shy. They're not shy.

Crowd: [\(13:45\)](#)

[crosstalk 00:13:41].

President Trump: [\(13:45\)](#)

But in Wisconsin, so they said, ABC News, which is in my opinion, corrupt, but they're all corrupt. ABC News, Washington Post, which is basically lobbyists, as far as I'm concerned for Amazon, it's just a lobbyist. They didn't say like, he's two down, three down, four down, a fake poll. They said, "Trump is 17 points down in Wisconsin." I could lose it. I could win it. I don't know how I'm not, I did a lot of good things for Wisconsin, but let's say it's even and I call up a great pollster, John, and say, "John, let me ask you a question." I think we're one up in Wisconsin, but ABC, Washington Post, they did the same thing four years ago, if you remembered that, very close to the election, they said, we're down 12. And then we won, but we were down 12 and it's disheartening.

President Trump: [\(14:41\)](#)

It's called suppression. What it does is it suppresses people. They say, "Well, listen, we love the president, but if he can't win..." But they did it four years ago and we complained bitterly with a very good lawyer. I had very good lawyers in those days. We complained very bitterly and they changed it right before the election. I think it was one. We're down one. They took it from 12 to 1 in about 15 seconds. And I realized, I said, "This is a phony business," but now they come down and it says 17 down in Wisconsin, 17.

President Trump: [\(15:15\)](#)

I called John, John McLaughlin, he's like the dean, he's a great guy and he's been very good with me. He said, "We're going to win," four years ago. He said, "We're going to win easily this one." He's probably the biggest and the best. I said, "John, let me ask you a question. ABC, Washington Post came out with a poll. It said I was 17 down. I'm not 17 down. I might be one down or I might be two up, but I'm not 17 down. What's going on? Why don't they make it [inaudible 00:15:43] have to live after that? They have to do other events. Why don't they make it three or four or two or five or something?"

President Trump: [\(15:51\)](#)

He said, "They can't do that because they want you to lose and if you're two or three or four, everyone's going to go vote. They want to make sure that your people don't vote and when you're 17 down, people say, 'I just can't waste my time. I'm not going to stand on line.'" And I said, "Isn't that sick?" And he said, "He knows some of the people and they're very smart. They're very brilliant. They're smart people." He said, "But if they made it five down or four down or six down even, so they make it something that's so bad, 17 down." I said, "Isn't that a shame? I want to tell that story. Do you mind?" He said, "I don't care. That's the way it is." It's crooked stuff.

President Trump: [\(16:29\)](#)

The Fox polls are horrible. Every time I have a Fox poll, it's horrible. I like some of the things on Fox, certainly Sean and Laura, and Tucker's been great lately.

Crowd: [\(16:42\)](#)

[crosstalk 00:00:16:42].

President Trump: [\(16:43\)](#)

And Fox and Friends in the morning is great.

President Trump: [\(16:45\)](#)

[inaudible 00:16:46]. I find Harris to be great, Harris Faulkner to be really good. She has been very good over a period of time. The great Lou Dobbs, he's been fantastic. Jeanine, how do we Jeanine?

President Trump: [\(17:03\)](#)

Look, we have some great people that support us. [Jesse 00:17:07] has been great. Pete [inaudible 00:17:09] has been great. And I don't want to mention, you know there are a lot of people. Look, we have a lot, but it's 90% negative, everything, everything, but so think of that. I said, "17," and he gave me an answer. I just thought it was so incredible. I said, "I got to tell that answer." I hope I haven't bored you, but I thought it was interesting. [inaudible 00:17:28].

Crowd: [\(17:27\)](#)

[crosstalk 00:17:30].

President Trump: [\(17:30\)](#)

I thought it was interesting. To me, it was interesting and I have like five of these to do today, so let's get going.

Crowd: [\(17:39\)](#)

[crosstalk 00:17:41].

President Trump: [\(17:39\)](#)

And I appreciate you being here. We had some monsters last night. We had some little rough weather. It wasn't like this. In Michigan, we had a slightly cold day with the wind blowing at 40 miles an hour in my face. And you're lucky you have a President that doesn't need a teleprompter. Good memory.

Crowd: [\(18:05\)](#)

[crosstalk 00:18:06].

President Trump: [\(18:05\)](#)

I would have been in big trouble. There was no way you could hold paper. There was no way you could do, you were just... And my guys set it up where the wind was right smack in my face and I was looking at that flag from the plane and I said, "Oh no, here we go again." But actually, the flag must be a very high quality silk because it's not that windy, but yesterday, that was not an easy day. We had some very cold stops. And Biden and Harris, Kamala, Kamala. You want her?

Crowd: [\(18:40\)](#)

[crosstalk 00:18:41].

President Trump: [\(18:42\)](#)

You want her as your first woman president? I don't think so.

Crowd: [\(18:45\)](#)

[crosstalk 00:18:46].

President Trump: [\(18:47\)](#)

And the radical left gain power, they will collapse our economy and send our nation into a depression. Biden will raise your taxes \$4 trillion, massively increase your regulations, close down your factory, send your jobs overseas. That's what he's-

President Trump: [\(19:03\)](#)

... close down your factory, send your jobs overseas. That's what he's been doing all his life. Him and his group, destroy the suburbs, dissolve your borders, terminate religious liberty, outlaw private health insurance, 180 million people have great health insurance. Shred your Second Amendment, confiscate your guns and indoctrinate your children with anti-American lies. Biden has vowed to abolish the American oil and natural gas industries and ban fracking. For a year and a half, he said it. Then all of a sudden he goes to Pennsylvania. "No, I never said that." And the fake news doesn't do anything about it. Biden's energy ban will send every state into crushing poverty from North Carolina to Michigan, to Pennsylvania. As long as I'm president, we will remain the number one producer of oil and natural gas.

President Trump: [\(19:57\)](#)

And we will remain energy independent. Sleepy Joe Biden is a globalist who spent 47 years outsourcing your jobs, opening your borders and sacrificing American blood and treasure in endless foreign wars, in countries that most of you have never even heard of. He was a cheerleader for NAFTA ... and they're all coming home, don't worry about it. I said it.

President Trump: [\(20:27\)](#)

He was a cheerleader for NAFTA and China's entry into the World Trade Organization. North Carolina lost 50% of all manufacturing jobs after those Biden betrayals. And now he says, "Oh, I'm going to ..." he's trying to follow my policy. He's trying to follow my policy. He's not going to do my policy has been doing this for 47 years plus, and for eight years as vice president, which is only three and a half years ago. Joe Biden is a corrupt politician who raked in millions from China while giving them your jobs. He's a corrupt politician, you see it. Now they say the laptop Schiff, that watermelon head, Schiff. "That laptop was produced by Russia." Here we go again, Russia, Russia, Russia. Here we go again. Can you imagine what they must think of it? These people are crazy. No, it was produced by where's Hunter? That's right, it was produced by [inaudible 00:02:39]. No, Schiff knows. He a psycho in many ways, but he knows, it's a total con game. I had to put up with it for three years and it affects it. When you see nothing but negative television every night, every night, every night. And then they find totally no collusion after wasting \$48 million, 18 people, think of it. And then it's no collusion, but then you have to run. But you've had three years of horrible publicity and they did it. I mean, they did it. They were the criminals. Hillary was a criminal. She deleted her emails. People go to jail for that.

President Trump: [\(22:26\)](#)

These are criminals. These are criminals. And say it any way you want to do it. But we took the brunt, then we caught him spying in my campaign and trying to overthrow a duly elected president of the United States. And that was before I even knew. That was while I was running, I didn't even know. I'd hear these things, "Sir." This is before I got elected. Guys would come up to me every once in a while. "Sir. Do you have anything to do with Russia?" I said, "No. Why do you ask?" "Oh, I was just curious."

President Trump: [\(23:00\)](#)

Because it was like this thing floating around. Then they come up again, "Sir, are you sure you don't have anything to do with Russia?" I said, "I have nothing to do with Russia. What the hell are you talking?" And you hear it four or five times, then you get into office and they come up with this scheme and this plot, it was a plot to overthrow the government of the United States. And then we have people that just don't act fast. It's just unbelievable. We have so much information. We have the whole thing, and Obama was involved and Biden was involved. They were involved, but let's see what happens. People should move more quickly. In 2016, North Carolina voted to fire this corrupt political establishment. And you elected an outsider as president who is finally putting America first. And if I don't sound like a typical Washington politician is because I'm not a politician. If I don't always play by the rules of the Washington establishment, it's because I was elected to fight for you and I fight harder than any president has ever fought for his people. Thank you. Thank you.

President Trump: [\(24:41\)](#)

Get out and vote. That's all I ask, is take a little time and vote. We got to win this state. I think we win this state, we win Pennsylvania, we're going to win Florida. We win Pennsylvania and you, were going to win the whole thing. We're going to win the whole thing.

President Trump: [\(24:58\)](#)

And we'll send them a signal like they've never seen before. This has not happened to them. "Big tech is so powerful. You can't beat big tech." They're saying this. And I see it on Twitter. Trending, trending. It's not trending. They put the most boring thing. Anything bad about me. Number one in the world on trend. Boring stuff. As opposed to affairs, scandals, that they didn't even put that stuff up. It's always Trump, two, three, four, or five items. It's a fix. It's a fix. This is a smart guy. We have his name. Everybody knows who he is. And I'm not talking about the primary. I'm talking about people that work. They take stuff out of a hat. "Let's see? This is bad about Trump. Let's make it worse. Okay, we'll make it worse." Number one trend in the whole world. No, that's not stuff that trends, but these are phony guys. They fix the elections and you know what?

President Trump: [\(25:57\)](#)

They should be subject to campaign violations because they're an arm of the Democrat National Committee. They work together. They work on messaging together. The Democrats, the fake news media, they're the worst. IN fact, these are fake people. And if I've done one thing, it's to expose the dishonesty in the media.

President Trump: [\(26:24\)](#)

And not everybody, but a big, vast majority, a vast majority. Not everybody. Look at us, we catch Hunter and Joe cheating. We catch them stealing millions of dollars. They refuse to write a story. Could you imagine if I got three and a half million dollars from the mayor of Moscow's wife? Could you imagine? Somebody gave me three and a half million bucks? Somebody gave me \$20. They impeached me because they made a perfect phone call to the head of

Ukraine. I never met the gentlemen. “Congratulations on your win. If you see anything corrupt, please call the attorney general of the United States.” And we have a corruption agreement with them because it’s been a very corrupt country. I actually have an obligation. Now, of course they impeached before they found out, before I decided to release the phone call. Isn’t it lucky that I had that call transcribed?

President Trump: [\(27:22\)](#)

Can you imagine? Now, they couldn’t do it. They didn’t know what to do. Crazy Nancy said, “This isn’t impeachable.” They said, “You’re right, but let’s go through with it anyway. Maybe we’ll get lucky.” Because she didn’t know about the call. When she read the call, she said, “Ge didn’t do anything wrong. How did you get me into this? You shifty Schiff? How did you do it”

President Trump: [\(27:49\)](#)

Jerry Nadler, I’ve been fighting this guy for 25 years on the West side of Manhattan. Jerry Nadler, he’s a beauty, isn’t he? How did he get me into this? Well, let’s just keep going forward. It’s a disgrace. And I will say this for the Republicans, 197 or 697 to nothing, we won. And in the Senate, 52 and a half to one half, we lost a half a vote, I wonder who that could have been. But sleepy Joe Biden is bought and paid for by China. They gave the son a billion and a half dollars to manage. That means it’s going to make millions of dollars a year, but he does know anything about investment. Didn’t know anything at all about energy. He got \$183,000 a month on energy. Think of that. Think of that, \$183,000. I called a friend of mine on Wall Street, “Is just a normal fee.”

President Trump: [\(28:44\)](#)

He said, “No, maybe the most abnormal fee I’ve ever seen in my whole life. I’ve been doing this for 25 years.” He’s the biggest guy. But they’re bought and paid for. They got the money and then they were going for the big one in China. They wrote a letter to very big powerful man within the communist party. And where Hunter asked for \$10 million a year, as he was going to recommend, he was going to talk. Here’s a guy didn’t have a job, got thrown out of the Navy. He got thrown out of the Navy. He didn’t have a job. Biden becomes vice president. And this kid is like a vacuum cleaner going all over the world, following his father, picking up the scraps.

President Trump: [\(29:28\)](#)

No he’s following his dad, picking up scraps. And then when you find the note where the big man gets 10%, the big man’s Joe Biden. The big man gets 10, then in one case, they said 50%, right? That’s more likely because he wouldn’t do it for 10. Because these people are all hangers on, losers. But that’s the story and it’s in a laptop. And now they say the laptop was made by Russia, therefore it has no credibility. Can you believe this? And so the news, outside of the New York Post, which really I hold in high esteem. They’re a hero paper and they endorsed me.

President Trump: [\(30:19\)](#)

I got a nice endorsement from, did you say from Pennsylvania yesterday, right? Pittsburgh Gazette. That was nice. Once I got through that first paragraph, it was phenomenal, actually. They said, “We don’t love his personality. We don’t love his tough.” I have to be tough. Look, I’ve been under investigation from before I ever became president. I have to be tough. If I were soft, I wouldn’t be here right now. And they don’t want to say that. I was under a fake investigation by a lot of fake people. Bob Mueller and his crew, the whole thing was a fake scam that should have never been started. And they knew the answer to the first day, but it took him two and a half years to put it down, no collusion, but they knew the answer the first day. So I was under investigation for the first two and a half years. Think of that. And then they say, “He’s tough.” But I’ll take it anyway. I’ll take their endorsement anyway. Because once you get over the first paragraph or two, it says all of the things we’ve done, which are incredible, which are incredible.

President Trump: [\(31:29\)](#)

And now we’ll have a chance to do it without the cloud. Because I had a cloud hanging over my head, whether we like it or not. And then they say, “He was tough. He fought too hard. He was somewhat crude. He was very, very nasty. His Twitter.” Now, you know what? If I didn’t have social media, I wouldn’t be here. It was the only way I could defend myself. So it was one of those things. But I just wonder, I was thinking, I asked the people on the way, if we have great people, such loyal, great people. Including a man that comes from an area not too far from here, is a good friend of these women who have been here, this is number 64 time for these incredible, beautiful, I think rich women and their husbands are in here someplace.

President Trump: [\(32:12\)](#)

But they had their husbands. They were at the one last night. That was a big deal, wasn’t it? But this is number 64. I would say I, right?

Speaker 5: [\(32:20\)](#)

65.

President Trump: [\(32:21\)](#)

65. Oh, there’s two more. They come from North Carolina, but we have Mark Meadows comes from North Carolina. And he has been fantastic, he’s done a great job. He’s done a great job. Where is he? He’s probably working, bump, bump, bump with a phone. He’s got two phones instead of one. And he’s not going to break it up with a hammer like Hillary did. He’s going to throw it away.

President Trump: [\(32:51\)](#)

He’s done a fantastic job. And he loves this state and he loves North Carolina. And I specifically said, “I want somebody from North Carolina and give me Meadows.” Now I knew three years ago. I said, “We got to get Meadows in here.” Big tech, big media, big donors and powerful special interests are desperate for sleepy Joe to win. They want them to win. I’ll tell you who wants him to win, China. They will own our country because they own him, they control him and they know he will always be there to do their bidding. He’ll always be there. He’s a corrupt politician. I don’t care, I’ll say it. And I say it, everybody knows it’s true. Can you imagine? Big tech refuses to put anything in. They took the New York Post down for two weeks because they won’t let anyone write.

President Trump: [\(33:42\)](#)

If you put out a little tweet and say that Biden is corrupt, they will knock out your whole account. Nobody’s ever seen anything like this and you notice, it is outside of what I say, it is indeed fading away. Because you can’t have a scandal if nobody writes about it. So we have the fake news not writing about it. And you have the big tech not writing. So, how can you have a scandal? Nobody’s allowed to talk. It’s called suppression. We don’t have freedom of the press. We probably haven’t had it for a long time, but we don’t have ... they say, “Freedom of the press. The American way.” We have suppression by the press. That’s what it is. What beautiful words I should have done the speech this way, it would have been much more interesting.

President Trump: [\(34:32\)](#)

No, but seriously, we have suppression by the press. This is not freedom. It really is, it’s the exact opposite of freedom of the press if you think about it. Every corrupt force in American life that is responsible for cruel betrayals that hurt our family and all of the people that we love, they’re supported by Biden and they donate to Biden. I could have been a much bigger fundraiser than him, but I didn’t want to call every head of a Wall Street firm, every head of the oil companies that we’ve made rich anyway. I did a great job, we’re energy independent, that’s not so bad, first time.

President Trump: [\(35:12\)](#)

The failed establishment that started the disastrous foreign wars, they support sleepy Joe Biden, because they get anything they want. And he took in \$300 million last month. You think he made any deals? No, I don’t think so. The career politicians that offshored your industries and decimated your factories, they support sleepy Joe. The open borders lobbyists that killed our fellow citizens with illegal drugs, gangs and crimes. The people that wanted to stop the wall, even though it knew it works. It’s almost finished by the way, be finished very soon.

President Trump: [\(35:51\)](#)

But the people that wanted to stop it, even though they knew full well, it worked. Remember they said, “No, no, we don’t want a wall. Walls are obsolete. We want drones.” Okay, good. Drones flying to watch the people pour into our country. They want drones, let’s have drones. The far left Democrats that ruined our public schools, depleted our inner cities, defunded our police and demeaned your sacred faith and values. They support sleepy, Joe Biden. You can’t even go to your churches. You can’t even go to your church and your governor of North Carolina, you got to open up your state.

President Trump: [\(36:36\)](#)

You got to get your governor, I hope you're going to vote for Dan who's good. You got to get your state open. Don't worry about it, on November 4th they'll announced your state is opening. November 4th, north Carolina will be opened on November 4th. Right after the election. Because they want us to look bad. They don't care about people. They want us to look bad. They want to try and steal an election.

President Trump: [\(37:07\)](#)

The anti-American radicals defaming our noble history, our heritage, our heroes, they support sleepy Joe. Antifa and the rioters and looters and Marxists and left wing extremists, they all support Joe Biden. They always like to blame it on the right. Do you ever notice? "These were right wing." It's very rare. It's rare. It's you got bad on every side, but they always like to blame the right. It always starts off with the right, the right. This election comes down to a simple choice. Do you want to be ruled by the arrogant, corrupt, ruthless, and selfless political class? Or do you want to be governed by the American people themselves? You want to be represented by a career politician who hates you, or by an outsider who will defend-

President Trump: [\(38:03\)](#)

Who hates you or by an outsider who will defend you like you have never been defended before. I didn't need this job. I had a very nice life, but I love what we're doing for our country. Nobody's done so much. Nobody, no administration and I never even had a challenge on this from the fake news. Normally, if you say something slightly off, they make a big deal. No administration, president has done more in the first three and a half years then we have, our military we rebuilt, our tax cut, our regulation cuts, Space Force. It's just a thing like Space Force. I never even talked about Space Force during the campaign. I did more than I actually talked about during the campaign. Thank you. Thank you very much. I thought this was a small little cute area. This is a small little cute area. When I came in, I'm watching Fox and a gentlemen and anchor said, "They have a small crowd of about 2000, 2,500. Nah, I knew. I knew." It's an incredible thing. This is a lot more than that. This is a lot of people. This is a lot more than I wanted to do because [inaudible 00:39:51]. I mean, my granddaughter is named Carolina. Do you know that? And we'll give South Carolina some credit too. They've been waiting. Is that okay? I want to get your permission. South Carolina is great. They are great people too. A vote for Biden is a vote to hand the keys to government over to people who despise you and who want to rob your children of their American dream. That's what they're doing. A vote for Biden is a vote to give control of government over to the globalist, communist, socialist, the wealthy liberal hypocrites who want to silent, censor, cancel and punish you. If you want your children to be safe and remember this, against... I'll put it very simply, against the second amendment.

President Trump: [\(40:46\)](#)

If you're pro-life, you can forget about it. Tremendous support. Do you see these people in California? They have lines of hundreds of miles of cars and tractors in Iowa and boats, five or 6,000 boat in lakes and ocean with the flags. If you want your values to be respected, if you want to be treated with honor and dignity and respect, then I am asking for you to go out tomorrow or sooner, but I don't know. You tend to like to vote on Election Day, right? We all do and vote. This is going to be the most important election in my opinion in the history of our country. I never thought I was going to say it. If you have told me, I was going to say that four years ago, I would've said you're crazy, but it's the most important because I've always said we will never be a socialist nation and that's what they're trying [inaudible 00:41:47].

President Trump: [\(41:54\)](#)

And remember what I said. Four years ago I said, "I am your voice and we will make America great again," and that's what we're doing. And if we didn't get hit by the China plague, now we're building it up again and we're doing it at record clip and record numbers and at a much faster pace than any other country in the world, but we got hit by the plague from China and we will never forget it. With God is my witness, I will never let you down. For the last four years, the depraved swamp has tried everything to stop me because they know I don't answer to them, I answer to you. Together we will defeat the corrupt establishment, we will dethrone the failed political class and we will drain the Washington swamp and we will save the American dream. This election is also a choice between a deadly Biden lockdown. He wants to have you locked down.

President Trump: [\(43:04\)](#)

I don't even know if he knows to be honest. They ask him a question. I don't think he has a clue. You can vote whoever you want, but I don't think he has a clue. You know it, the media knows it. The media laughs behind his back and then they say, "He did brilliantly today." No, he didn't do brilliantly. He didn't do brilliantly in his prime, and he's not in his prime anymore. Or a safe vaccine that ends the pandemic and we're doing very well with the vaccines. They'll be distributed very soon. We will mass distribute the vaccine in just a few short weeks. It will quickly eradicate the virus and wipe out the China plague once and for all. Joe Biden is promising to delay the vaccine and turn America into a prison state. Looking again, that's more Kamala. Remember when they said this is the Harris-Biden administration, right? I never did that with Mike. And you know what? Mike Pence never came to me and said, "Do you mind if I put my name first every once and a while?" Well, no. And by the way, he's been a great Vice President.

President Trump: [\(44:17\)](#)

Some people say it was a perfect combination. It was. He's a great guy. He's going to be in your state in a little while. Locking you in your home while letting far left writers roam free. The Biden lockdown will mean no school, no graduations, no weddings, no Thanksgiving, no Easter, no Christmas, no 4th of July and no future for America's youth. Other than that, it's fine. If you want a vaccine to kill the virus, a job to support your family and freedom to live your life, that you go and cast your ballot for President Trump. And if you remember the catastrophe. Joe Biden, he's telling us how to run things right? This guy never ran a thing successfully. He always said horrible things about him when he was in the... Obama didn't even want to endorse him. He wouldn't endorse him. Even after he won, Obama said, "No way." How long did it take him after he won? It took forever. Obama couldn't believe it. I don't think Obama is much better. You want to know the truth. Joe Biden personally ran the swine flu, right? The swine flu, H1N1, which he can never remember. He never says it. He says it and then goes NIH and I said, "No." He failed horribly and he was a laughing stock all over Washington. They were laughing at him. And his own Chief of Staff said he was absolutely terrible.

President Trump: [\(45:52\)](#)

They did a terrible job. Now he's telling us how to do it. I should have closed earlier. There's only one problem. He's on record all over the place, knocking me two and a half months later for closing too soon and closing it all. He said, "Don't close." He's xenophobic. He's xenophobic. I didn't like people from China is what he's saying. It's so wrong. I think they're incredible people. I do. I think they're incredible people, but he said xenophobic. And then he runs for office. He said, "He should have closed earlier." And you know what? The press never covers that. The only time I get it covered is if I happen to be on live television. I'll say it again and again. And when I do say it, they try and turn it off, "Let's go to commercial break right now. I think I know what's coming." These are really bad people. Secretary of Defense Robert Gates said that Biden has been wrong actually on nearly every major foreign policy and national security issue over the past four decades. He had no respect for him whatsoever.

President Trump: [\(46:57\)](#)

I'm sure he endorsed him because he's probably looking for something like everybody else, but I don't think any of them are going to get anything because I think we're going to have one of the greatest victories tomorrow, but you don't have to take my word for what a disaster Joe Biden is because it's the great state of North Carolina. I spent a fortune. See this? See the board? I spent a lot of money on the board. So let's just take a look at a little roll. Let's roll it please.

Speaker 6: [\(47:27\)](#)

Have you taken a cognitive-

Joe Biden: [\(47:29\)](#)

No, I haven't taken a test. Why the hell would I take a test? Come on man. That's like saying, "Yo, before you got in this program, if you take a test where you're taking cocaine or not what do you think? Huh?" Are you a [inaudible 00:09:42]." that's my little sister, Valerie. And I'm Jill's husband. Oh no. You switched on me. This is my wife. This is my sister. They switched on me. But I'd tell them, "If you have a problem figuring out whether you're for me or Trump, then you ain't black." There is not a single solitary reason in the world why, why as I said, we shouldn't be in a position that everybody and that's my wife, Jill. Hey Jill. I'm Jill's husband actually.

Joe Biden: (48:13)

And [inaudible 00:48:13] was a bad dude and he ran a bunch of bad boys and I did. And back in those days, lots of things have changed. Play the radio, make sure the television... Excuse me. Make sure you have the record player on at night. Make sure the kids hear words. We hold these truths to be self-evident. All men and women created... You know the thing. If you were a quartermaster, you can share and help take care of running the department store thing in the second floor of the ladies' department. You know what I mean? Well, I'm sick and tired of smart guys. The rapidly rising in with... I don't know. There'd been no caucus. No, you haven't. You're a lying dog-faced pony soldier.

Speaker 7: (49:15)

Why attack Sandra? You're getting nervous man.

Joe Biden: (49:19)

What kind of country we're going to be. Four more years of Georgia... Georgia. Going to find ourselves in a position where if Trump gets elected, we're going to be in a different world. We have to come together. That's why I'm running. I'm running as a proud Democrat for the Senate. And by the way, I sit on the stand and they get hot. I got hairy legs that turn blonde in the sun and the kids used to come up and reach in the pool and rub my leg down, so it was [inaudible 00:49:58] and then watched the hair come back up again. They looked at it. So I learned about roaches. I learned about kids jumping on my lap and I've loved kids jumping on my lap. Barack and I think it's a right for people that have [inaudible 00:50:12]. I laid an effective strategy to mobilize truant [inaudible 00:00:50:16].

President Trump: (50:33)

Don't do it. Don't do it to yourselves. Our country has such potential. You can't do that to our country. He's not mentally equipped. He just isn't to be your president. He's not equipped to be your president. And I say it because he's not a nice person, never was a nice person, but he was never a smart person. He was a touchy feely person, hale and hearty, but not nice. But this is not a man that 25 years ago is not equipped to be your president. And he ran many times, numerous times. We called him 1% Joe. Think of it. And now he's working on about 50% and he ends up winning the nomination because of Elizabeth Warren. Elizabeth Warren gave him the numb. All she had to do is drop out and he would have lost on... I mean, then we would have had crazy Bernie. But at least Bernie, they had a great energetic base. It's a small base, but energetic, but this is not a man that should be your president. We have tremendous potential.

President Trump: (51:50)

Our country has tremendous potential and we can't blow it. We can't blow it because there's no way to describe that. And that's like 1% .we could keep you out here all day. Much of it happened yesterday and the day before yesterday, oh, he had some beauties yesterday, but we can't do this. And you know what's going to happen? Kamala will be put in that position very quickly. And she's more liberal than crazy Bernie. She's more liberal. In fact, she makes him look like a strict conservative. Joining us today are some incredible people, incredible friends and warriors. And I want to tell you, I just looked at a poll and he's up in the poll, Senator Thom Tillis. He's up.

President Trump: (52:42)

That's great. I'm good. I'm very happy with that. We got to get him and he's a good man, a good man. And your wife was great the other night. We had a great rally the other night and you are well-represented, let me tell you, very well. Congratulations. Well, let's save that for tomorrow or the next day, or as the Supreme Court would say, "Sometime into the future." What a ruling. What a ruling. What a horrible thing that they've done. Do you know that puts our country in danger? Do you know what can happen during that long period of time Pennsylvania? The long period of time, do you know what can happen? Number one, cheating can happen like you've never seen. This is their dream and they are known for it. The Philadelphia area is known for it, but what can happen during that long period of time is just a disgrace. Get the ballots in and have them in long before the third and have them counted before the third and have an election where we can say to the world that we know who won and we know who lost. I'm just so tired of some of these horrible political decisions that are being made. It's a shame. It's a shame. And I won't get into it too much, but I'm going to start getting into it because they're hurting our country very badly.

President Trump: (54:22)

Representative warrior, David Rouzer. David, thank you. You're doing a great job. Appreciate it. Congress, we have a friend over there. Richard Hudson. Where's Richard? Richard Hudson, Congressman, and another great guy. Great guys. Did a fantastic job and a friend of mine and somebody that's done an incredible job also in Congress, Dan Bishop. Thanks Dan. How you've been? You're doing a good job. He came in through the system. He won a race. It was a tough race, right? We worked together on it and he had no choking him. He started off a little behind to put it nicely and he ended up winning and he one solid and how are you doing on this one? Good? I don't have to help you as much. He's going to win. He's going to win. He should win. He's a great Congressman. All of them, all three. Thank you very much fellas. A man that hopefully you're going to recognize for, I guess he doesn't have the funds that the other one has. I see commercials all the time for your governor that has you in a total lockdown, but Dan Forest would be a phenomenal governor, a phenomenal governor. He did have a surprise there. That could be a big, beautiful gift to North Carolina. A gift. That's not bad. Hey Dan, that's not bad huh? Beautiful. Dan, that's a very impressive applause you got. I have to be honest.

President Trump: (56:12)

Don't kid yourself. That is like a poll. It's like a poll, except instead of interviewing 73 people, they have thousands of people here. Much more than the 2000. He's got a nice 2000 people and I don't think so. Well, last night in Miami, you want to see a crowd, you couldn't even see the end of it. I've never seen anything like it. There's such spirit. I've never seen spirit like this. At North Carolina GOP chair, somebody doing an incredible job if we win tomorrow. By the way, if we don't win tomorrow, they'll say, "How's Michael Watley doing?" I say, "Not good at all. He didn't do a good job." Michael Watley, are we doing okay, Michael? Yes? Get out. Get out to vote Mike. Get them out.

President Trump: (57:03)

Get out. Get out to vote, Mike, get them out. Get out to vote. Thanks, Michael and you are doing a good job. I also want to recognize Medal of Honor recipient, Command Sergeant Major Bob Patterson. Where's Bob? Where's Bob? Where is Bob? Whoa! He looks good. He looks good. Wow. Your husband. Whoa. That's a good looking couple.

Crowd: (57:31)

USA. USA. USA. USA. USA.

President Trump: (57:37)

Wow. That's some incredible honor. That's some incredible honor, I'll tell you what. There's no greater honor. And are you proud of your husband? But he's proud of you too. Oh, she's proud of Trump, look at that. Thank you. I knew I liked her. I knew I liked her. Thank you both very much. Great honor. That's the highest honor you can get.

President Trump: (58:08)

Former prisoner of war and Vietnam veteran, Captain Ken Wells, a real hero. Where is Ken? A real hero. Thank you. Thank you.

Crowd: (58:27)

USA. USA. USA. USA. USA.

President Trump: (58:32)

Real tough one. Look at him, he's tough. He's a tough looking guy. Thank you. Thank you very much. Beautiful. You look great. Thank you. These are great people.

President Trump: (58:42)

And World War II hero and D-Day veteran, very, very brave, they say, Harold Frank. Hi, Harold. You're looking good. Thank you, Harold. Thank you, Harold. Thank you. They said he's a brave one. Thank you, Harold, you're looking good. These guys look good. I don't know. They go through all that, they come out,

they look better than all of us. I don't know. Something about the war, something about brave people, right? Military spouse, and don't ever underestimate that is where it all begins. Somebody who's incredible. Donna Dotson. Donna. Where's Donna? Thank you, Donna thank you very much. Thank you, Donna. Great to have you. Thank you very much. And retired Sergeant Major Karen De la Vega. Karen, thank you. Thank you, Karen. Great people. Thank you all for your extraordinary service and it's an honor to have you with us, really is, thank you very much.

President Trump: [\(59:59\)](#)

For 47 years, Joe Biden, viciously, repeatedly attacked black Americans. He decimated the black middle-class and called young black men super predators. To every black American vote for Trump. This is your one and only chance to show sleepy Joe Biden what you think of his decision to attack you, to insult you, to jail you and to betray you. I am fighting for you and got criminal justice reform, prison reform, Opportunity Zones with Tim Scott and funding for historically black colleges and universities. I got it done. Nobody else got it done.

President Trump: [\(01:00:50\)](#)

And with the exception of, and I use the word possibly, possible exception, but I could use it and maybe I won't, I'll keep it a little bit less controversial, with the exception of Abraham Lincoln, there has been no president that's done more for the black community than Donald Trump. Nobody. Thank you very much. Thank you. Thank you. Thank you very much.

President Trump: [\(01:01:24\)](#)

Under my leadership, we achieved the most secure border in US history. Joe Biden has pledged to open borders. He's actually talking about taking down the wall. Can you believe? "Let's take down the wall and let everybody pour into our country." He wants to take down. I know he said it. I don't know. Maybe, but he did say let's take down the wall. One of the biggest projects that we've ever done, you know, it's a tremendous project. We're up to over 400 miles. We're going to be finished very soon. Over 400 miles. Designed to the specifications of the Border Patrol, who are great.

President Trump: [\(01:02:03\)](#)

Mass Amnesty wants to give them free healthcare. This is for illegal aliens and wants to keep deadly sanctuary cities. Your state has a sanctuary city. You know that, right? You have a sanctuary city, right? A very big one, actually, that doesn't work very well. We believe our city should be sanctuaries for law abiding Americans, not criminals aliens. The Biden-Harris plan would increase refugees from terrorist nations by a staggering 700%. This has been a great term. This has been a great term. No thank you, fellas. I'm not interested. I'm keeping radical Islamic terrorists the hell out of our country. If I have the approval of North Carolina, I will keep them out. We're going to keep them out. We invested \$2.5 trillion in the US military. We have the greatest equipment, greatest people. 2.5 trillion. You think that was easy to get from the Democrats? Actually the wall was even tougher. The wall was tougher but we got. Do you notice once I got the wall started and got all the funding, won all the court cases against the Democrats, the press never talks about it anymore. They don't talk about it. We had the best statistics, the best...

President Trump: [\(01:03:31\)](#)

And can you imagine during the pandemic, because Mexico's very heavily unfortunately infected and it was a good thing that we had it up that's why the numbers are so good. We also passed for our great vets, VA Choice and VA Accountability. Nobody thought that could happen. We obliterated 100% of the ISIS caliphate. We killed the leader of ISIS, al-Baghdadi is dead. Last week, I visited Fort Bragg where I presented the Presidential Unit Citation to the special forces team that achieved that historic victory. It was good. And we are keeping the name Fort Bragg, you do know that, right? Do you agree. They want cancel culture. We won two world wars out of Fort Bragg and we have other forts and we're keeping it. We won two world wars out of Fort Bragg. And now they say, "Let's change the name. Let's change the name of Fort Bragg. We'll pick somebody else. Do you have any good suggestions?" No, no. We have to keep. We have to keep. It's our culture. It's our heritage. So many victories, so many victories out of Fort Bragg. We also eliminated the world's top terrorist, Soleimani is dead. I recognize the capital of Israel and opened the American embassy in Jerusalem. I also recognized Israeli sovereignty over the Golan Heights. 52 years they tried to get it. And instead of endless war in the Middle East we're forging peace. They are lined up to come in.

President Trump: [\(01:05:35\)](#)

I said, "How did Obama and all of those that came before him do?" They told me they all used the same method. I said, "Really, I'm going to go the opposite method." And it worked very nicely. No blood in the sand, no cost. Three very powerful countries already signed. We have many others. They're standing on line, standing on line. And we're bringing our troops back home. Our troops are coming back home. They're coming back home. 19 years is enough. They serve as policemen. I said, "No, you have to get your own police department, I'm sorry."

President Trump: [\(01:06:20\)](#)

A vote for me and the Republican party is a vote for the American dream. And in conclusion, over the next four years, we will make America into the manufacturing superpower of the world. And we will end our reliance on China, which has already started. Can you imagine Biden saying we're not going to our reliance? I mean, can you imagine? "We are going to end our reliance on you." "Hey, hey we gave your son a billion and a half. What the hell are you telling me?" Okay, well, I don't know, Senator, I think it would be tough for him, right? They wanted 10 million a year for his services, right? And then you say, "No, I'm not going to deal with China anymore." Or "I'm going to be tough on China."

President Trump: [\(01:07:11\)](#)

I've taken out many, many billions of dollars. We never did this in this country, not 25 cents. I just gave \$28 billion from China to our farmers because they targeted our farmers. 28 billion and we had plenty of money left over, which went into the US Treasury. Thank you. We will hire more police, increase penalties for assaults for law enforcement and we will ban deadly sanctuary cities. With God's help, we will defend the right to life, religious liberty and free speech and the right to keep and bear arms. We will maintain America's unrivaled military might and we will ensure peace through strength.

President Trump: [\(01:08:09\)](#)

We're the envy of every country in the world. Our military now has the greatest equipment all made in the USA, but we have the greatest equipment in the world. We will end surprise medical billing, require price transparency and lower drug prices even more. We instituted a favored nation's laws. We pay by far the most in the world. We are going to pay now the least in the world and nobody can believe I did it. And big pharma does not like me too much. They are not so happy with me. And we will always protect patients with pre-existing conditions. America will land the first woman in the moon and the United States will be the first nation to land an astronaut on Mars. We will stop the radical indoctrination of our students and restore patriotic education to our schools.

President Trump: [\(01:09:08\)](#)

We will teach our children to love our country, honor our history and always respect our great American flag. And we will live by the timeless words of our national motto, In God We trust. For years, you had a president who apologized for America. Now you have a president who is standing up for America and standing up for the great people of North Carolina. I do.

President Trump: [\(01:09:48\)](#)

And your tobacco growers are in good shape, by the way, please let them know, okay. Do you have any tobacco growers, please? They're in good shape. They work hard. They were treated very rough. Tomorrow, you have the power to do so much for our country. You have the power to vote. So go out and vote. Unless you're going to vote for somebody other than me, in which case, [inaudible 01:10:12]. Do you ever hear these politicians get up and they say, "You have the power to vote and it makes no difference if you vote for me or my opponent," they're such liars. Liars. So get your friends, get your family, get your neighbors, get your coworkers, get your boss, grab him by the tie, say, "Let's go boss." And get out and vote.

President Trump: [\(01:10:39\)](#)

From Greensboro to Charlotte, from Wilmington to Raleigh, from Asheville to right here in Fayetteville. Fayetteville. I love the name, Fayetteville. We inherit the legacy of American Patriots who gave their blood, sweat, and tears to defend our country and to defend our freedom. We stand on the shoulders of American heroes who crossed the oceans, settled the continent, tamed the wilderness, laid down the railroads, raised up the great, great, beautiful skyscrapers, won two

world wars, defeated fascism and communism, and made America into the single greatest nation in the history of the world and the best is yet to come. You will see that.

President Trump: [\(01:11:34\)](#)

Proud citizens like you helped build this country and together we are taking back our country. We are returning power to you, the American people. With your help, your devotion and your drive, we are going to keep on working, we are going to keep on fighting, we are going to keep on winning, winning, winning. We are one movement, one people, one family, and one glorious nation under God and together with the incredible people of North Carolina, we have made America powerful again, military. We have made America wealthy again. We have made America strong again. We have made America proud again. We have made America safe again. And we will make America great again. Thank you, North Carolina. Thank you. Go out and vote.

Vice President Mike Pence: [\(00:00\)](#)

Well, hello, Michigan? Congressman Huizenga, Congressman Moolenaar, GOP Chair Laura Cox, to all of you have been with us every step of the way. It is great to be back in the Great Lakes State, just 80 minutes from election day when we reelect President Donald Trump for four more years.

Crowd: [\(01:01\)](#)

Four more years. Four more years. Four more years. Four more years. Four more years.

Vice President Mike Pence: [\(01:17\)](#)

Wow. It is really great to be with y'all and a special treat tonight to be with my much better half, she's a military mom, she's been committed to helping our military families, been my wife for 35 years. But she's the best Second Lady the United States has ever had. Would you join me in thanking my wonderful wife, Karen Pence.

Vice President Mike Pence: [\(01:43\)](#)

But we're here tonight for the same reason you are. For one reason and one reason only. And that is that Michigan and America need four more years of President Donald Trump in the White House. It's on, and the road to victory goes straight through Michigan.

Vice President Mike Pence: [\(02:09\)](#)

You all are great to be out tonight. And you know, I got to tell you, I just spoke to the President. He just finished up in Wisconsin, but he can't wait to get to Grand Rapids. It's great to be back here tonight. We'll never forget. We'll never forget being in Grand Rapids four years ago tonight. The clock ticked past midnight. It was election day 2016. The President spoke until about 1:30 in the morning and he walked up to me after he walked off the stage, he looked out at the crowd just like this one and he slapped me on the shoulder and said, "Mike, I don't know about you, but that doesn't look like second place." And it still doesn't. Michigan did it before and I know Michigan's going to do it again.

Vice President Mike Pence: [\(03:15\)](#)

We're going to show America that Michigan is Trump country.

Vice President Mike Pence: [\(03:24\)](#)

Thank you all for coming out. What an incredible site. And I know there's more people waiting to get in and I'm telling you what, it really is incredible to be with you. And it's also great to be here with some great leaders who served alongside with us every step of the way. Would you join me in thanking two of the most principled conservative leaders in Congress? Two men have been with us every step of the way. Congressman John Moolenaar and Congressman Bill Huizenga.

Vice President Mike Pence: [\(03:56\)](#)

And how about the next Congressman from the third congressional district, Peter Meijer? and earlier tonight, the President and I were with a friend of mine, got to know him over the last couple of years. He's a man of integrity, dedicated to his family. He's a West Point graduate, a combat veteran, a businessman, and the next Senator from the great State of Michigan, John James. Four years ago, we inherited a military that had been hollowed out by devastating budget cuts, an economy that was struggling to break out of the slowest recovery since the Great Depression, terrorism was on the rise around the world, and we witnessed a steady assault on our most cherished values. But in three short years, we rebuilt our military, we revived our economy, we secured our border, supported law enforcement and stood for life, liberty and the Constitution of the United States. Incredible.

Crowd: [\(05:15\)](#)

USA. USA. USA. USA. USA. USA. USA. USA. USA. USA.

Vice President Mike Pence: [\(05:23\)](#)

And on the economy, after Joe Biden's spent eight years in the White House trying to tax and spend and bail us back to a growing economy, President of Donald Trump created the greatest economy in American history, and we are doing it again.

Vice President Mike Pence: [\(05:42\)](#)

How about those new GDP numbers last week? Isn't that something? The American economy grew by more than 33%. Shattering any previous record. The American comeback is on. And with four more years of President Donald Trump, we're going to bring this economy back bigger and better than ever.

Vice President Mike Pence: [\(06:13\)](#)

You know, that great American comeback is a testament to all of you, to the character and the resilience and the strength of the American people. But it's also a tribute to a President and our allies in the Congress who worked with us to create the greatest economy the world has ever seen.

Vice President Mike Pence: [\(06:31\)](#)

That's why it's astonishing in the midst of a global pandemic, Joe Biden wants to raise taxes by \$4 trillion. On Friday, his running mate, Kamala Harris said, quote, the first order of business is to get rid of the President's tax cuts. They got a \$2 trillion version of the Green New Deal, but under President Donald Trump, where they're planning to raise your taxes, we cut taxes across the board.

Vice President Mike Pence: [\(07:15\)](#)

We rolled back more federal regulation than any administration in history. We fought for free and fair trade, unleashed American energy, and in three short years, businesses created 7 million good paying jobs, including 112,000 jobs right here in the Great Lakes State. Unemployment reached a 50 year low, and wages were rising across the board in those first three years.

Vice President Mike Pence: [\(07:46\)](#)

And they were rising most rapidly for hardworking, blue collar Americans. The forgotten men and women of America were forgotten no more. When Joe Biden was Vice President, America actually lost 200,000 manufacturing jobs. I come from just south of here in Indiana, just like Michigan, we do two things well out this way, don't we? We make things and we grow things, right?

Vice President Mike Pence: [\(08:19\)](#)

The last President actually said, after losing 200,000 manufacturing jobs, he said, "They're never coming back." Remember he said, "What magic wand do you have?" Well, we didn't need a magic wand. We just needed President Donald Trump in the White House.

Vice President Mike Pence: [\(08:39\)](#)

500,000 manufacturing jobs in just three years. So manufacturing came roaring back and when it comes to trade so important here in Michigan, what we make and what we grow, we sell to the world. Joe Biden's been a cheerleader of communist China, all along the way while they took advantage of the United States, put barriers to their markets while we put none to ours.

Vice President Mike Pence: [\(09:12\)](#)

And closer to home, when it came to our trading relationship with Canada and Mexico, Joe Biden liked to complain a lot about NAFTA, but he never lifted a finger to fix what was wrong with it when we saw thousands of factories closed and jobs shipped south of the border. But under President Donald Trump, we put China on notice.

Vice President Mike Pence: [\(09:34\)](#)

We said the era of economic surrender is over. We stood strong, imposed tariffs, and NAFTA is now gone. And the USMCA is here to stay. And it's something you ought to know about Joe Biden's running mate as well. I had a little debate with Kamala Harris in Salt Lake city a couple of weeks ago. Thank you. Some people think we did all right. So... thank you. But you all deserve to know in this hard working State of Michigan, despite the fact that USMCA was a huge win for Michigan, right, Bill?

Vice President Mike Pence: [\(10:18\)](#)

I mean, Kamala Harris was one of only 10 senators to vote against the USMCA. Kamala Harris said the USMCA didn't go far enough on climate change. I mean, she put her radical environmental agenda ahead of Michigan jobs and Michigan workers. No wonder she was listed as the most liberal member of the United States Senate last year. But when it comes to trade or anything else for that matter, I promise you, President Donald Trump will always put American jobs and American workers first. And on energy, Joe Biden wants to crush American energy under a \$2 trillion Green New Deal that would raise the cost of electricity for every home in business in America. It's true. The President had to remind him he was for it in that first Presidential debate, remember? But he is, right?

Vice President Mike Pence: [\(11:22\)](#)

And Kamala Harris, she was the original co-sponsor in the Senate of the Green New Deal. The truth is Joe Biden and Kamala Harris want to abolish fossil fuels, end fracking. It would destroy hundreds of thousands of good paying jobs. They said it over the last year, over and over again, but now, right, Joe Biden shows up in Pittsburgh. I wasn't far from there today. And he's trying to convince people that he's not for banning fracking. He actually said that our President was lying about it. It came up in the Presidential debate. How good did President Trump do in that Presidential debate? Wasn't that a great night? That ball is still going.

Vice President Mike Pence: [\(12:09\)](#)

Anyway, it came up in the Presidential debate. Remember Joe Biden, about 90 minutes into the debate, he said, "America needs to make a transition from the oil industry." I love what the President said. He said, "That's a big statement." But by the next morning, Joe Biden was already denying, but [inaudible 00:12:32] even in the debate, remember? He said, "Show the tape." So we've been showing the tape.

Vice President Mike Pence: [\(12:45\)](#)

I got to tell you, men and women of Michigan, look, no matter what Joe Biden and Kamala Harris are saying right now, you can take it to the bank. Joe Biden and the radical left are going to abolish fossil fuels, ban fracking, close down the oil industry if they ever get to the White House, but we're not going to let it happen. We're going to have more fracking, more American energy and energy independence for generations to come with four more years of President Donald Trump in the White House.

Crowd: [\(13:17\)](#)

Four more years. Four more years. Four more years. Four more years. Four more years. Four more years.

Vice President Mike Pence: [\(13:34\)](#)

Folks, the choice we face in this election, I really believe it's a choice between a Trump boom and a Biden depression. I mean, there was an independent review of his plans last week. Said that Joe Biden's economic policies would cost this country 5 million jobs and cut the average income of the Americans by household by \$6,500 a year. So anyway, every minute between now and when the polls close tomorrow here in Michigan, if you come across a family member or a coworker or a neighbor that is still undecided, I want you to say I was out at the airport, ran into Mike and he said if I ran into anybody who was undecided, I was just supposed to ask him one question. Seriously. Just look them in the eye and say everything I, just everything else. Just look them in the eye and say, "Who do you really think can bring this economy all the way back?"

Crowd: [\(14:41\)](#)

Trump.

Vice President Mike Pence: [\(14:42\)](#)

Am I right? A career politician who spent 47 years in Washington, DC raising taxes, growing government, waving a white flag on international trade or a proven job creator who's overseeing the fastest economic recovery in us history? You ask them. If they're honest, they'll answer. So this election really is about prosperity. It's about jobs, about our children's future, but it's also about national security. And I'll tell you what, I couldn't be more proud to serve alongside a President who cares so deeply about the men and women of our armed forces and their families. You might not know the Pences are actually a military family. My son's a United States Marine. My daughter is married to a Navy pilot who's currently deployed. And we couldn't be more proud of them. In fact, my daughter is a military spouse, and while her husband is away, she's out campaigning a little bit with mom and dad. Would you welcome my wonderful daughter, Charlotte Pence Bond? Incredible Navy spouse and a writer. And a leader. So proud of her.

Vice President Mike Pence: [\(16:12\)](#)

When Joe Biden was Vice President, we saw years of reckless budget cuts in our national defense, didn't we? And over the last few days, you can go look it up, leading Democrats in Washington are talking about massive cuts in defense spending to pay for all their big government plans.

Vice President Mike Pence: [\(16:33\)](#)

President Donald Trump, we rebuild our military, we restore the arsenal democracy. President Trump signed the largest investment in our national defense since the days of Ronald Reagan. And with four more years, we're going to keep giving our soldiers, sailors, airmen, Marines, and Coast Guard, the resources and the support they need to defend this nation.

Crowd: [\(17:08\)](#)

Four more years. Four more years. Four more years. Four more years. Four more years. Four more years. Four more years.

Vice President Mike Pence: [\(17:09\)](#)

It's not just about those that serve today. It's about all of you who did serve in the uniform. When Joe Biden... Yeah, put your hand in the air if you're a veteran of our armed forces, would you please? Let us thank you one more time. Thank you for your service. Thank you for your service. Thank you for our freedom.

Vice President Mike Pence: [\(17:33\)](#)

When Joe Biden was Vice President, America saw years of scandal at the VA that shocked the conscience of the nation. You remember. We had literally some of America's veterans that were dying on waiting lists, waiting to get the care that they earned in the uniform of the United States.

Vice President Mike Pence: [\(17:55\)](#)

But under President Donald Trump, those days are over. President Trump signed the most sweeping reforms of the VA in 50 years. We fired 3,000 VA employees that weren't giving our veterans the care they need and Veterans Choice is now available for every veteran in America.

Vice President Mike Pence: [\(18:20\)](#)

So for a strong national defense, for taking care of our veterans, let me just say, it's one more reason why we need John James in the United States Senate. And when it comes to law and order, you all know President Donald Trump has stood every day with the men and women who serve on the thin blue line of law enforcement and we always will. The President and I know what you know. Men and women who serve in law enforcement are some of the best people in this country and they deserve the respect of every American every day.

Vice President Mike Pence: [\(19:09\)](#)

The truth is though, you remember the violence over this last summer and all Joe Biden never talked about was peaceful protestors. But rioting and looting is not peaceful protest. Burning businesses is not free speech.

Vice President Mike Pence: [\(19:25\)](#)

The truth is Joe Biden would double down on the policies that have led to violence in America's cities. Joe Biden explains it all by saying he believes America is systemically racist. And he and Kamala Harris often say that they believe police officers have an implicit bias against minorities.

Vice President Mike Pence: [\(19:48\)](#)

When Joe Biden was asked whether he'd cut funding for law enforcement, he replied, "Yes, absolutely." And Kamala Harris recently praised the Mayor of Los Angeles for cutting \$150 million out of the LAPD's budget. But under President Donald Trump, I'll make you a very firm promise, we're not going to defund the police. Not now, not ever.

Vice President Mike Pence: [\(20:15\)](#)

We're going to back the blue and we're going to back the blue for four more years. And we're going to have law and order in every city in every state in this nation for every American of every race and creed and color.

Vice President Mike Pence: [\(20:40\)](#)

It's been about standing with people that protect and serve. But this President is also stood strong for all the God-given liberties enshrined in our constitution and in the hearts of the American people, like the freedom of religion, the freedom of speech and the second amendment right to keep and bear arms.

Vice President Mike Pence: [\(21:07\)](#)

To that end, we've appointed more than 200 conservative judges to our federal courts at every level. And they're all men and women all uphold the God-given liberties enshrined in our founding documents. That includes Justice Neil Gorsuch, Justice Brett Kavanaugh and that includes the Supreme Court's newest, brilliant principled woman, Justice Amy Coney Barrett.

Crowd: [\(21:34\)](#)

ACB. ACB. ACB. ACB.

Vice President Mike Pence: [\(21:35\)](#)

Isn't she great? And not just because she's from Indiana. How much did you love it when one of those Senators asked her, show me what you got written down on that paper. "Nothing." She's so impressive. I'll tell you, and she's going to stand strong for all the liberties we cherish.

Vice President Mike Pence: [\(22:07\)](#)

When Joe Biden was Vice President, we actually saw a steady assault on our first freedom, the freedom of religion. The last administration used the power of the federal government to erode the conscience rights of doctors and nurses in religious charities. They even hauled a group of nuns into federal court to force them to compromise their faith to live under the Obamacare. It's true.

Vice President Mike Pence: [\(22:32\)](#)

And the same religious intolerance happened when Amy Coney Barrett was nominated to the court of appeals two years ago. You remember? She was in front of the Senate Judiciary Committee and the leading Democrat on that committee said she was concerned about Amy Coney Barrett's Catholic faith, because she said, and I quote "The Dogma lives loudly within you." And then Hollywood elite started attacking Amy Coney Barrett for her faith and they've never stopped. Well, I got news for the Democrats in Washington and their Hollywood friends. That Dogma lives loudly in me. That Dogma lives loudly in you. And the right to live and worship according to the dictates of our faith lives loudly in the Constitution of the United States of America.

Vice President Mike Pence: [\(23:38\)](#)

Under President Donald Trump, we restored the conscience rights of doctors and nurses. We stood strong for religious freedom. We ended the assault on the Little Sisters of the Poor, and we are going to stand for the religious freedom of every American of every faith for four more years. And finally, where Joe Biden and Kamala Harris support taxpayer funding of abortion all the way up to the moment of birth, I couldn't be more proud to be Vice President to a President who stands without apology for the sanctity of human life.

Vice President Mike Pence: [\(24:29\)](#)

So in our first three years, we rebuilt our military, we revived our economy, we stood for law and order, liberties in life. And none of that would've been possible without the strong and consistent support of Michigan's Republicans in Congress. So right after you reelect President Donald Trump, right after you send John James to the United States Senate, the President and I need Michigan to send Bill Huizenga, John Moolenaar, Peter Meijer, and Lisa McClain to a new Republican majority in Congress and retire Nancy Pelosi once and for all.

Vice President Mike Pence: [\(25:17\)](#)

Out.

Vice President Mike Pence: [\(25:19\)](#)

I'm telling you, I was there 10 years ago when we retired Nancy Pelosi the last time. And I intend to be here when we do it again. When you look at everything we were able to accomplish with Republican majorities in the House and Senate, I think there's only one way you can describe it. In three short years, we Made America Great Again. Right?

Vice President Mike Pence: [\(25:48\)](#)

And then 2020 arrived. And the Coronavirus struck from China. The American people have seen this President's leadership up close. I mean, before there was a single case of community spread anywhere in America, President Trump did what no American President had ever done. He suspended all travel from China, the second largest economy in the world. President Trump put the health of America first.

Vice President Mike Pence: [\(26:19\)](#)

Now Joe Biden said that was xenophobic. Essentially means that he thought it was racist. He actually wrote that closing down travel in a global pandemic would make things worse, but Joe Biden got it wrong. And President Trump got it right. By shutting down travel from China, President Trump's saved untold American lives because it bought us invaluable time to stand up the greatest national mobilization since World War II.

Vice President Mike Pence: [\(26:53\)](#)

It's true.

Vice President Mike Pence: [\(26:54\)](#)

We reinvented testing. We saw to the manufacturer of billions of supplies, new medicines and therapeutics. And we're just a matter of weeks away from having the first Coronavirus vaccine with tens of millions of doses for the American people.

Vice President Mike Pence: [\(27:14\)](#)

And I want to promise the people of Michigan, you can be confident. We're going to keep making sure those supplies and medicines are there. We're going to keep driving toward a vaccine until we put this pandemic in the past. And we're going to keep opening up America again. I know, I got to tell you, it's amazing to think how this economy has come back. In just the last five months alone, after losing 22 million jobs at the height of this pandemic because of the foundation the President poured in those first three years, because of the unprecedented relief that these Congressmen made available to families and to businesses, we've actually seen 11 and a half million Americans already go back to work, including 600,000 people right here in the State of Michigan. We are opening up America again, and the Michigan economy is coming back.

Vice President Mike Pence: [\(28:19\)](#)

But you all deserve to know that Joe Biden is talking about shutting down our economy again. I mean, you've dealt with enough here at Michigan, right? I mean, the truth is, newspapers are already reporting there's countries in Europe that are already starting to shut down. So you can bet that Joe Biden will lock down the American economy if he makes it to the White House. All your schools will be closed, all your churches and synagogues, places of worship. Main Street will be all shuttered once again right at the moment that the American economy is getting back on its feet, Joe Biden said, and I quote, he would shut it down.

Vice President Mike Pence: [\(29:07\)](#)

Joe Biden is going to shut down, going to shut down our economy. And he says, we're in for a long dark winter, but under President Donald Trump, we're going to defeat the virus. And the best is yet to come.

Vice President Mike Pence: [\(29:27\)](#)

The choice in this election has never been clearer. The stakes have never been higher. When you look at their agenda of higher taxes, open borders, socialized medicine, a Green New Deal, defunding the police, abortion on demand, it's clear. Joe Biden would be nothing more than a Trojan horse for the radical left. It's true.

Vice President Mike Pence: [\(29:53\)](#)

I mean, I saw where Bernie Sanders and Elizabeth Warren are already angling for cabinet posts. The truth is, you all know what's at stake. Now, Joe Biden says that democracy is on the ballot. Well, I think our economic recovery is on the ballot. I think law and order are on the ballot. But I also think there's things much more foundational to who we are that are on the ballot as well.

Vice President Mike Pence: [\(30:26\)](#)

You know, in this election. I think it's not going to be so much whether America ends up more Republican or more Democrat, more liberal or more conservative, more red or more blue. I think the choice in this election is whether America remains America.

Vice President Mike Pence: [\(30:48\)](#)

It's whether we're going to chart a course and Michigan will play an outsize role in this decision, so hear me out. It's whether we're going to chart a course based on our American heritage of faith and family and patriotism and freedom, or whether we're going to let Joe Biden and the Democratic party surrender our country to the radical left, shut down our economy, topple our heritage of freedom and values into an avalanche of socialism and decline.

Vice President Mike Pence: [\(31:24\)](#)

So let me say to all of you from my heart, for everything that has always made America unique and exceptional and great, for the freedom that generations of Americans have fought to defend, we've got to decide right here and right now that Joe Biden will never be President of the United States. We're going to reelect President Donald Trump for four more years.

Crowd: [\(31:54\)](#)

Four more years. Four more years. Four more years. Four more years. Four more years. Four more years. Four more years. Four more years.

Vice President Mike Pence: [\(32:10\)](#)

Men and women, I got to tell you when I got the phone call four years ago to join this ticket, I said yes in a heartbeat because I heard and saw in this President, both the vision and the leadership ability to make this country great again. We've served alongside each other every day for the last four years. And you know, some people think we're a little bit different, but I got to tell you, we've gotten to be very close friends.

Vice President Mike Pence: [\(32:44\)](#)

And I can tell you firsthand when the Klieg lights are off and the cameras are off, there's never been a day gone by in the last four years that I haven't seen this President against unprecedented resistance and-

Vice President Mike Pence: [\(33:03\)](#)

... against unprecedented resistance and opposition by the Democrats in Washington, against unrelenting and unfair attacks by their allies in the national media. There hasn't been a day gone by that I haven't seen our president get up and fight to keep the promises that he made to the people of Michigan. Now it's our turn to fight for him. It's on, Michigan. It's time to bring it. It's time to do what you did four years ago.

Vice President Mike Pence: [\(33:41\)](#)

Tell your neighbors and friends what four more years means. Four more years means more jobs, four more years means more judges, four more years means more support for our troops. And it's going to take at least four more years to drain that swamp.

Crowd: [\(33:58\)](#)

Drain that swamp. Drain that swamp. Drain that swamp. Drain that swamp. Drain that swamp. Drain that swamp.

Vice President Mike Pence: [\(34:10\)](#)

Oh, we're draining it.

Vice President Mike Pence: [\(34:11\)](#)

It's just like the president says a little deeper than we thought it was, we're draining it though. We found the plug and we're going to pull it tomorrow. So I got to ask you to do a couple of things. Air Force One is on its way in, and before you know it President Donald Trump will be in the house but on all of our behalf, I want to ask you to do a couple of things. First and foremost, about 47 minutes from now, it'll be election day. Tomorrow morning, the polls open at 7:00 AM. Stay open till 8:00. So I'm going to ask you personally, I need you to vote Michigan, vote to reelect president Donald Trump to the White House. And remember, friends don't let friends vote alone, bring a family member, bring a coworker, bring a neighbor and vote to reelect president Donald Trump for four more years.

Vice President Mike Pence: [\(35:38\)](#)

After you vote with a friend, number two, I want you to tell somebody why you came out late at night. Why are you here on this historic night in Grand Rapids. I want you to tell them all that we accomplished in those first three years with the president that kept his promises to Michigan. I want you to tell them about the choice that we face and how we're going to set a course for this nation for generations to come.

Vice President Mike Pence: [\(36:12\)](#)

The President and I were on 60 Minutes the other night but he got a question during his interview and he gave an answer I'll never forget. Because the reporter, I'm looking out at all of you, the reporter looks at the president and she said, "So how would you describe your supporters?" The president answered without missing a beat. She said, "How would you describe your supporters?" And he said, "They are people who love our country." So go tell your neighbors and friends that you love our country and we need four more years of President Donald Trump in the White House.

Crowd: [\(37:02\)](#)

Four more years. Four more years. Four more years. Four more years.

Crowd: [\(37:02\)](#)

USA. USA. USA. USA. USA.

Vice President Mike Pence: [\(37:19\)](#)

Finally, this is just from me and from my family, as I've traveled around this country the last four years, I've become convinced this is a freedom loving nation, and this is a nation of faith. And so if you're inclined like the Pences are to bow the head and bend the knee at your house from time to time, I'd encourage you to do that the next day. When you pray, pray with confidence in these challenging times where it seems like there's more that divides us than any time in my lifetime, we ought to claim those ancient words that have seen Americans through much more challenging times than we could possibly imagine. The words of an ancient promise that say, if his people who are called by his name will humble themselves and pray and turn that he'll do like he's always done in the long and storied history of this great nation, he'll hear from heaven and he'll heal this land. This one nation under God, indivisible with liberty and justice for all. So pray for America. Pray for all the American people. It'll make a difference.

Vice President Mike Pence: [\(39:07\)](#)

So thank you for the warm welcome today. Thank you for giving my family such a warm welcome, I have to tell you, it's the greatest honor of my life to be your vice president, but I want to be your vice-president for four more years. But I leave here today with renewed confidence, I'm telling you standing where I'm standing, you'd be confident too. Wow. I called him up after I got off the plane, I called him on the tarmac. I said, "You are not going to believe it." I know he can't wait to get here, but listen, I'm confident. If all of us do all we need to do between now and eight o'clock tomorrow here in Michigan, between now and when the polls close all across this country, we're going to have a great victory all across Michigan, all across America.

Vice President Mike Pence: [\(40:07\)](#)

And with Bill Huizenga, John Moolenaar, Peter Meijer, Lisa McClain and a new Republican majority in the Congress with John James in the United States Senate with President Trump in the White House for four more years and with God's help, we're going to make Michigan and America more prosperous than you could possibly imagine. We're going to make Michigan and America safer than ever before. We're going to make Michigan and America more united than ever before, and together we will make America great again, again. Thank you very much, Michigan. God bless you. God bless America. Now let's go get it done.

Crowd: [\(41:13\)](#)

(singing)

Crowd: [\(41:13\)](#)

Trump. Trump. Trump. Trump. Trump. Trump. Trump. Trump. Trump. Trump. Trump. Trump. Trump. Trump. Trump. Trump. Trump. Trump.

Crowd: [\(41:13\)](#)

(singing)

Announcer: [\(01:17:25\)](#)

Grand Rapids, Michigan. Please welcome the 45th president of the United States, Donald J. Trump.

Announcer: [\(01:17:34\)](#)

(singing)

Crowd: [\(01:17:34\)](#)

USA. USA. USA. USA. USA. USA. USA. USA. USA. USA.

Donald Trump: [\(01:20:16\)](#)

Thank you very much Grand Rapids, you know, this is ... This was our final night prior to a very, very big victory, that was it. Remember? We left at around 1:00 in the morning. I got home, my wife said, now First Lady, said, "You have to be kidding." We came home late and then we watched the beautiful victory, and we're going to have another beautiful victory tomorrow. And we're going to win the state of ... You know what we're going to win, we're going to win the state so easily. We're going to win the state of Michigan so easily. We want to do it just like last time. But let's give me a little bit more margin than that if you don't mind.

Crowd: [\(01:21:06\)](#)

Four more years. Four more years. Four more years. Four more years. Four more years. Four more years. Four more years.

Donald Trump: [\(01:21:18\)](#)

So we're going to win the state of Michigan and we are going to win four more years in that very beautiful, beautiful, beautiful house. It's called the White House. We made history together four years ago, and tomorrow we're going to make history once again. So this has been really, this was amazing, Grand Rapids, I'll never forget it though.

Donald Trump: [\(01:21:44\)](#)

We were called, late in the evening, Ronna, thank you very much, wherever you may be. She kept calling, say, "One more trip, one more trip to Michigan, I'm telling you, one more trip." And then we heard crooked Hillary was coming back because they were hearing ... Oh, you know, Michigan hadn't been won for a long time, many, many years by a Republican. We heard that Barack Hussein Obama and Hillary, Bill, and Bill was the only one that got it right. Said, "You don't want to run against Trump," he said that very early. He was the only one, he's the only one that understood what was going on actually.

Donald Trump: [\(01:22:23\)](#)

But they came and they came and they wanted to be in Michigan, which was unscheduled. So I got a call from Ronna, the whole group, and they said, "Could you go back?" We got here at 12:00 in the evening, I started speaking at 12:30, now election day, I'll never forget it. We had 32,000 people, almost as many as we have tonight. And I said to my team, "We have to ... This is it." We've done five, but actually six, because we ended up last night around 2:00 in the morning in Miami, so we can say that includes this ... So that would be six. We've done six of these big, and every one was just a lot of people. And you know what? There was a lot of love. There was a lot of love. We had a lot of love.

Donald Trump: [\(01:23:15\)](#)

We had 45,000 people in Florida last night. By the way, we're doing very well in Florida. We're doing very, very well in Wisconsin. We're doing very well in Texas, I hear great things about Texas. You know they're saying Texas may be even ... Well, you know, then you think sleepy Joe Biden's against guns. That's not good for Texas, right? He's against oil. Oil isn't good. If you're against oil, that's not good politics, right Texas? And he's against god. Right?

Donald Trump: [\(01:23:54\)](#)

When you have guns, oil, and god, and he's doing well in Texas, I don't think so. But I actually know for a fact we're doing very well in Texas. I think we're doing very well all over. I think you're going to have, I don't know if it's as much of a ... I don't know what's a surprise. We fulfilled everything we said we were going to fulfill, and that's why people are [inaudible 01:24:17]

Donald Trump: [\(01:24:19\)](#)

And we did some things that we never even talked about, right? We never talked about Space Force. We got it. And I said you know what? I looked at Russia, I looked at China, and I said, "We need Space Force." And we did it, first time in 74 years, not since the Air Force.

Donald Trump: [\(01:24:34\)](#)

But I want to thank you all. We have a great group of people here. I'd like to show our appreciation for our phenomenal vice president, Mike Pence, and his amazing wife Karen. Did he make a good speech? I saw him on the plane and I couldn't sort of ... Did he make a good speech? Huh? He's great, I'll tell you what. It was close, it was close. If I had my choice between Mike and Kamala, I think it's a very close choice, but I think I'll take Mike. I think we'll stick with Mike and Karen. No.

Donald Trump: [\(01:25:14\)](#)

By the way, how badly did he beat her in that debate? Did you ever hear the expression, if that were a fight they would have stopped it.

Crowd: [\(01:25:25\)](#)

He did great.

Donald Trump: [\(01:25:27\)](#)

But anyway. No, Mike's been great from day one, and I appreciate it. I also want to thank Don, Jr., Eric, Ivanka, Tiffany. Words cannot express how proud you make me every single day. No matter what happens tomorrow, I'm very proud of you all.

Crowd: [\(01:25:45\)](#)

We love you Don, Jr.

Donald Trump: [\(01:25:46\)](#)

But if we don't win I'll never speak to them again. They like him. They like them all. No no. I'm very proud. We're very proud of you. Thank you. Look at these people. There's a lot of spirit here. A lot of spirit.

Donald Trump: [\(01:26:08\)](#)

No, it's funny though, I kept saying we have to finish off here. We have to do it. It's just we could be a little bit superstitious, right? But you people, you've been great, you've been great. And I think we're going to have a tremendous victory in Michigan.

Donald Trump: [\(01:26:22\)](#)

Don't forget, four years ago I said, "Why are so many car companies leaving?" You know, you were losing everything to Mexico and to China and to frankly Canada, and you were losing everything. And we stopped it, and now you have many, many car plants that have already been built, are being built, renovations, 17 ... You didn't have a deal in like 42 years. It was always going out. Now they're all coming in. I want to thank Prime Minister Abe of Japan. I said, "Shinzo, Shinzo, you got to do me a favor, Shinzo. You got to build some plants." And he said, "No, no, no, we are the government, we don't do that. That's up to the private sector." I said, "No, Shinzo, you got to do it. You got to do it. It's not fair. You're sending too many cars and they're built in Japan. We wanted them built in Michigan, we wanted them built in Ohio, we want them built in South Carolina and North Carolina. We got to do it."

Donald Trump: [\(01:27:17\)](#)

He says, "But I do not do that, Donald." And the next day they announced five companies are coming to Michigan. But he's a great guy. And he retired. He had some difficulty with his health, but he was a great prime minister of Japan, and he did a great favor to Michigan and to us, all of us, he's a ... We have a lot of activity in Michigan. It would be nice if your governor would open up the state, however. Would open up the state. Open up your schools, open up the state, go back. Get back to business.

Crowd: [\(01:28:02\)](#)

Lock her up. Lock her up. Lock her up. Lock her up. Lock her up. Lock her up.

Donald Trump: [\(01:28:02\)](#)

The only one that's allowed to roam free is her husband. What's her husband like? Remember? That wasn't so long ago. He's allowed to do whatever he wants. But everybody else, you're not allowed to leave your house or your apartment. No, she's got to open it up. Well they will. On November 4th, she'll announce, "Okay, now we're going to open." You know, they're doing that for political ... They think it hurts us in the election. Actually it helps us, okay? Who has voted so far? Has anyone voted? Okay, good. Because you're saving it, right? You're saving it for Tuesday? Right? No, we're cool. We're going to have a red wave, they call it the great red wave like nobody's ever seen before. Like nobody's ever seen. So based on just early results though, Florida looks like it's phenomenal. Just phenomenal. North Carolina's looking great. I think they're all looking great. Ohio is looking fantastic.

Donald Trump: [\(01:29:05\)](#)

You know, we won Ohio last time by eight points, and I said, "Well why are ..." These fake polls that they put out, they're called suppression polls. If they make them bad enough, they hope you don't want to waste your time and vote, right? We love our president, but if he's losing by 250 points, let's stay home and have dinner, darling.

Donald Trump: [\(01:29:27\)](#)

It doesn't work, because you people don't, you don't go for the bait do you?

Crowd: [\(01:29:31\)](#)

No.

Donald Trump: [\(01:29:31\)](#)

It's really amazing. And I think we're winning. I think we're going to win everything. I think tomorrow's going to be-

Crowd: [\(01:29:40\)](#)

Big win.

Donald Trump: [\(01:29:41\)](#)

... one of the greatest wins in the history of politics.

Donald Trump: [\(01:29:49\)](#)

I want to give the very special thank you also to Jared Kushner, who is in the process of negotiating a little thing called peace in the Middle East. Great guy. Great guy. They like that. They like the sound. Peace in the Middle East without blood all over the sand, no blood in the sand, and no cost, just peace. Already three countries, UAE, a great leader, Mohammed, great leader. And three countries have already signed. Bahrain. It's already signed. Sudan. And we have many, many countries, how many do we have lined up? It'll be more than 10.

Donald Trump: [\(01:30:41\)](#)

Now what would happen if sleepy Joe Biden had to take over the deal? You know what happens? That's the end of that deal. You can forget that deal. The sleepy one.

Donald Trump: [\(01:30:51\)](#)

Lara Trump, thank you Lara, what a job you do. What a job you do. You know, Lara's a specialist on a place called North Carolina, I will tell you. She lived there and she grew up there and they love her there, and Pennsylvania, that extends to Pennsylvania next door, and you said that we're doing phenomenally there, right? So I think that's right. She said win. I think they're both wins, big wins. We got to be careful though, because the Pennsylvania deal with that decision, oh, you can count the ballots later on, and count them whenever you'd like. No. No. We have to be very, very careful with that, that causes a lot of problems.

Donald Trump: [\(01:31:32\)](#)

I want to thank Kimberly Guilfoyle. Kimberly is fantastic, from day one. I'd watch her on The Five, and she always liked me, right from the beginning, so I always liked her. If they don't like me, I never like them. It's funny the way that works. But she was their big star, and she did great, and thank you very much Kimberly, I appreciate it very much.

Donald Trump: [\(01:31:59\)](#)

And Tiffany, thank you for the job you do. She goes around from place to place. She just graduated from law school. She just graduated from Georgetown. She did a great job. Thank you, honey, thank you very much. And Michael, thank you very much. Thank you very much.

Donald Trump: [\(01:32:17\)](#)

To all of our supporters here tonight, I really want to thank you from the bottom of our hearts. We've worked very hard in four years. We've been hit by fake, fake investigations, fake scandals, fake impeachments.

Donald Trump: [\(01:32:30\)](#)

We've had so many things that, the witch hunt, I call it the witch hunt. And it turned out to be a phony witch hunt, and they should have known it the first day. They did know it the first day. But it's the deep state, it's whatever you want to call it, but it should have never happened. Think of it. They spied on our campaign. They got caught. They tried to take down a duly elected president of the United States. They got caught. And you know who knew all about it? Barack Hussein Obama and sleepy Joe Biden. They knew all about it. They knew all about it.

Crowd: [\(01:33:11\)](#)

Lock him up. Lock him up. Lock him up.

Donald Trump: [\(01:33:12\)](#)

And then I watch the fake news back there, look at all of them. Look at all of the fake news, isn't that nice. It's a lot of fake news. Then I watch the fake news saying, "You know, his attitude is a very tough attitude. He's not very nice, he's a very nasty person." No no. We're defending ourselves, and we're defending all of these people that voted for us. With these fake ...

Donald Trump: [\(01:33:38\)](#)

And then what happens? It turns out to be that it was them that were guilty of all of these horrible crimes. Including the crime of treason, because when you try and take down a duly elected president, you know, it's called treason, it's called big stuff. It's big stuff. So we're going to see how that all works out. We're going to see how that. But that's another reason we want to go for a long time, frankly. Because you know what? We started something incredible. We built the greatest economy in the history of the world. We then had to close it down for a period of time. We saved millions of lives. Remember the original estimate was 2.2 million people would die from the China plague, and they could have kept it in China. They didn't get infected in the rest of China after Wuhan Province. But it came out to the world, it came out to Europe and the United States and 188 countries all over the world. And we can never forget that.

Donald Trump: [\(01:34:43\)](#)

We signed a great trade deal with China, but it doesn't mean so ... The ink wasn't dry, and all of a sudden this happened.

Donald Trump: [\(01:34:52\)](#)

But the job we've done, when you see the numbers, and you're going to hear the numbers because they're coming out very soon, the job we've done has been an incredible job. We had to close it up. We saved millions of lives. We now opened it up. You saw what happened. 33.1%. The fastest in the history of our country. The fastest growth, the biggest growth in the history of our country.

Donald Trump: [\(01:35:18\)](#)

But you've been there right from the beginning, we've all been together, and I'll tell you what, we very much appreciate it. And think of how it could have been different, except I think in a way we would have been less popular. Somebody said, because they would have said just another presidency. This time, you know we had to fight for you. We had to fight. You understood it. You understood the hoax better than anybody. It was a hoax. The Russian hoax. And after spending \$48 million, 18 angry Democrats, and smart people, vicious, they were vicious, they were smart. If they could find any little morsel.

Donald Trump: [\(01:35:54\)](#)

And they went over taxes. And they went over everything you can go over. They spent \$48 million, two and a half years. The Mueller investigation scam. And they come up, no collusion, there's no collusion after all of that. Which makes me perhaps the most innocent man anywhere in the history of the United States.

Donald Trump: [\(01:36:22\)](#)

Now a friend of mine called me up, very smart guy. He said, "I can't imagine anybody could go through two and a half years, \$48 million, 18 killers, some of whom worked for Hillary Clinton, right? Crooked Hillary. And it turned out they're the ones dealing with Russia. What a disgrace."

Donald Trump: [\(01:36:41\)](#)

So let's see what happens. It's too bad it's going so slowly. There's plenty of info there, and I try and stay uninvolved. Someday I'm going to have to get involved, maybe. I try and stay uninvolved. Going too slowly. "No sir, we'd rather not do anything before the election." Well they did it to me before, they did during, before, and after. These are bad people, Comey, the worst director in the history of the FBI. A crooked person.

Donald Trump: [\(01:37:12\)](#)

Did you leak? Remember? "Chuck Grassley. Did you leak the information to the newspapers?" He choked when he heard Chuck Grassley from Iowa, great

gentleman, great gentleman. He looked at that guy, he said, "Did you leak?" And he said, "Yes." He choked. You know the guy choked like a dog, Comey. He leaked, he lied, he did a lot of things. You saw the report by Inspector General Horowitz, who by the way did a great report. That was a great report, Inspector General Horowitz, and I appreciate it. But you saw that on Comey. Comey should hang his head in disgrace.

Donald Trump: [\(01:37:48\)](#)

But we had to go through all this stuff. Think if we didn't have any of it.

Donald Trump: [\(01:37:53\)](#)

We probably wouldn't have done as well. It's true. We might not have done as well. And we might not have these massive crowds, because you saw what was happening. You got it. We might not have had ... So I just want to tell you, we appreciate you so much. We really do. We appreciate you so much.

Donald Trump: [\(01:38:13\)](#)

And now we have to build on what we've done. Nobody has done what we've done. No administration has done, thank you.

Crowd: [\(01:38:20\)](#)

We love you. We love you. We love you. We love you.

Donald Trump: [\(01:38:22\)](#)

Wow, I love you too.

Crowd: [\(01:38:23\)](#)

We love you. We love you.

Donald Trump: [\(01:38:24\)](#)

I love you too.

Crowd: [\(01:38:24\)](#)

We love you. We love you. We love you.

Donald Trump: [\(01:38:24\)](#)

Thank you very much.

Crowd: [\(01:38:24\)](#)

We love you. We love you.

Donald Trump: [\(01:38:24\)](#)

Thank you.

Crowd: [\(01:38:24\)](#)

We love you. We love you.

Donald Trump: [\(01:38:33\)](#)

That's really nice. You know, in the history of politics, nobody's ever heard that expression before, it's true. Look, Ronald Reagan, we liked Ronald Reagan, right, but nobody ever said, "We love you, We love you." Nobody's ever heard it before. Nobody's ever heard it before. It's an expression, true, you know they were covering it the other night, they looking back, oh, they want to find it so badly. They want to find somebody so badly. But it's never been said before to the best of anyone's knowledge.

Donald Trump: [\(01:39:03\)](#)

... so badly, but it's never been said before to the best of anyone's knowledge, and we appreciate it. I'll tell you what, when you hear that, I had a nice life. I had the greatest life. But you know what? I'm so happy. This was the greatest decision I ever made, because we have done so much good together. We've done it together. We couldn't have done it without you, and we've done so much, from the biggest tax cuts in history, to regulation cuts, the biggest ever. We have cut regulations at a level that nobody believed. It would take 18 to 20 years to get a highway approved. We have it down to two. It'll soon be down to one, and it may not get approved. It may be an environmental problem. It may be a safety problem, but it shouldn't take 20 years, it shouldn't take 19 years, 21 years. And by the time you get it approved, first of all, you start off as a young man on a highway project, and you end up in retirement, and then you get a rejection. "We rejected three to two," some board somewhere.

Donald Trump: [\(01:40:03\)](#)

No, we've done a great job, and we've rebuilt our military. We just got a 91% approval from our veterans. The veterans just gave us a 91% approval, highest we've ever gotten. With your vote, we will continue to cut your taxes, cut regulations, support our police, support our great military, protect your Second Amendment, which has gone if sleepy Joe Biden gets ... Defend religious liberty, and ensure more products are proudly made with that beautiful, beautiful phrase, right? "Made in the USA."

Donald Trump: [\(01:40:44\)](#)

Next year we will be, and I mean this, I think we have such a foundation-

Speaker 1: [\(01:40:50\)](#)

USA! USA! USA! USA! USA!

Donald Trump: [\(01:40:50\)](#)

This group over here. They're an activist group. Thank you very much. Thank you, fellas.

Speaker 1: [\(01:41:08\)](#)

USA! USA! USA! USA! USA! USA! USA! USA! USA! USA!

Donald Trump: [\(01:41:08\)](#)

It's a great group. Thank you. Thank you very much. We appreciate it. Next year will be the greatest economic year in the history of our country. So you had last year was the best year you ever had. Before that was the best year. You had three of them with me, and then we got hit with the plague, and then we went back to work. Under my leadership, our economy is now growing at the fastest rate ever recorded. 33.1% last week. And if you look at the auto business, auto business, I don't know what's going on. It's at a level that it's never been at. What is that all about? What is that all about? You wouldn't think, and this is during a pandemic.

Donald Trump: [\(01:41:50\)](#)

We're rounding the turn, by the way. They hate it when I say it, but we're rounding the turn. They used to say, "Look at the way Europe's doing." Well, take a look at Europe. Take a look. And what we've done in terms of the economy, we went down less than any major country in the world, or any country. And now we've gone up far faster and far higher than any country in the world. It's not even close. And it should be tougher because of the size, because we're a big country.

Donald Trump: [\(01:42:20\)](#)

We created a record 11.4 million jobs in the last five months alone, which is another record. That's another big record. We've never hired that many people that fast. While foreign nations are in a free fall, we're creating an economic powerhouse unrivaled anywhere in the world. A recent Gallup Poll found that 56% of Americans say they are better off today than they were four years ago under Obama and Biden. And if Biden and Kamala ... You don't have to say it "Kamala." "Kamala." If Biden and Kamala Harris, who's further left by far than crazy Bernie Sanders, right, he's considered a strict conservative compared to her. How the hell did he ever pick her, Mike? Where's Mike. How did that ever happen? That turned out ... I don't think that's going to be a good pick. You're going to find out tomorrow.

Donald Trump: [\(01:43:23\)](#)

By the way, she happens to be slightly against fracking. She's still against fracking. Isn't that amazing? Isn't that amazing? Biden goes like, "I'm against ..." For a year and a half, he's running, running. Nobody gave him a chance because he never got more than 1% in prime time, right? 25 years ago, the guy never got 1%. And he never had what it took. He was a glad hander. Not a smart guy. Not a nice guy, either. By the way, not a nice guy. But he was, I used to call him 1% Joe, because he ran for president all the time and he never got more than 1%. Now he's got half the intelligence he had 20 years ago and he wins. Politics is a strange business. A strange, very strange business. But if Biden and Harris and the radical left gain power, they will collapse our economy and send our nation into a very steep depression. That's what's going to happen.

Donald Trump: [\(01:44:23\)](#)

This is the only man that I've ever seen run for office on the fact that he wants to give you the largest tax increase in the history of our country. No, that's his space. The good news is, he has no idea what the hell he's saying, so it doesn't ... He goes up. Here's his line. "Ladies and gentlemen, we are going to give you the biggest tax increase in the history of our country. It will be \$4 trillion." They're going to increase your taxes by \$4 trillion. \$4 trillion tax increase. That's his campaign, and they're going to put the money in the Green New Deal, which is conceived and designated by AOC plus three, right? AOC plus ... This was their deal. I think they ever took an environmental course. Did they go to college, by the way? I don't think they ever took a course on the environment.

Donald Trump: [\(01:45:18\)](#)

But Biden wants to raise your taxes \$4 trillion, massively increase regulations. You know, the regulations may have been more important than even the big tax cuts that you got. The biggest ever. You got the biggest tax cuts ever, and you know it. You know it. You felt that in a very, very good place. You know where it is? Your wallet. You felt it in your wallet. They want to close down your factories, send your jobs overseas, destroy the suburbs. Women of the suburbs, please, okay? Please.

Donald Trump: [\(01:45:55\)](#)

I wiped out a regulation that would have destroyed your home, to put it mildly. Would have destroyed your American dream. And Ben Carson is a great guy. I said, "Sir, why don't we just do this? Why don't we just sort of ease it up?" It's a horrible regulation. What it does is a horrible thing, and everybody knows it. It would have destroyed the suburbs. I said, "Ben, let's just cut it out. Let's terminate it because there's no negotiating here. Let's just terminate it." And I terminated it. And you know one thing I know about? The women of the suburbs, they want two things. They want their home. They want their family night, but they want safety, and they want security. And that's what we provide.

Donald Trump: [\(01:46:38\)](#)

And I think this will be like four years ago. Remember? "Donald Trump will do very poorly with women." At the end of the evening when they're all crying, and I remember they were crying. Remember? Martha Raddatz. Oh, she was very impartial. She was another one of my debate anchors. I had some real beauties, didn't I? She was crying, and they all said we're going to do badly with women. I'm going to do terribly with women. I said, "Why? What's so bad? Tell me what's so bad." And at the end of the evening, "He's done very well with women. What happened?" No. But this time we're going to do even better, because we are providing safety and security. And for the suburban women, I mean, we're saving the suburbs. This regulation was so horrible, what it does to the suburbs. It would have destroyed the suburbs as we knew them.

Donald Trump: [\(01:47:30\)](#)

And I got to say this, 31% of the people living and moving to the suburbs are minority groups, African American, Asian American, Hispanic American. And they have a great American dream also, and then they want to live in the suburbs and they want to be proud, and they don't want to live next to a project that somebody puts in because they play games with your zoning and other things. And all I can say is, for the women ... I don't even talk about the men in the suburbs. I don't care about the men in the suburbs. I only care because they're all saying ... He's going, "Oh, what about us?" I don't worry about you.

Donald Trump: [\(01:48:13\)](#)

But the women of the suburbs are going to vote for President Trump, because we love you, and we're saving you a horrible, a horrible thing was going to happen, frankly, and it's been happening for years, and it's been a very bad situation. So we solved it. We terminated it. It is gone. Now, if they get in, if they should get in, you can take that regulation and quadruple it, just like they want to quadruple your taxes. You can quadruple it. So I think that'll be good. I think we're going to have a great ... Women, that's a pretty hard pitch, but that's the way it is, right?

Donald Trump: [\(01:48:48\)](#)

They want to dissolve your borders. We complete the wall in a very short period of time. We're over 400 miles. Over 400 miles, and that's right, Mexico is paying for the wall. You know, they like to say Mexico is, but we will have the wall completed very shortly. We're over 400 miles right now. 400 miles, and we're building 10 miles a week, and we now have the strongest numbers and the strongest border, Southern border that we've ever had. And you know what? We want people to come into our country, but they have to come in legally, and they have to come in through merit. We want people that can help us. We want people that can help us.

Donald Trump: [\(01:49:34\)](#)

They want to terminate religious liberty, outlaw private healthcare. 400 ... Think of this. Think of this. Private healthcare. You work so hard. You have 180 million people that have a great healthcare plan, that love it. Private plans, and they want to end it and put you on socialized medicine. I don't think so. I don't think you're going to be too happy. I don't think ... "We have a cold, let's go to the hospital and let's wait for nine days to see a doctor." They want to confiscate your guns, Second Amendment, and indoctrinate your children with hateful anti-American lies. So you'll be happy that I just signed on the plane, that's beautiful Air Force One, and it is a beauty, I have to admit an executive order to teach our nation students pro-American values. That will be taught. Sleepy Joe Biden has vowed to abolish and eradicate the American oil and natural gas industries, and he's pledged to ban fracking. And you saw that. For a year, more than that, he'd get on stage with all these crazy people, radical left people, and they were screaming who could ban it faster. He would say, "Yes, I'd been fracking. I am totally against fracking." For a year, "I am against fracking." I could play 100 clips. See the board? Where is the board. I spent a lot of money for that today. He's going, for a year, "I am against fracking." Then he lucks out because Elizabeth Pocahontas Warren doesn't get out, so she takes votes away from crazy Bernie, right? On Super Tuesday. And he loses by a little bit on each state, and Bernie loses again. This poor guy. Crazy Bernie. But he's running again in four years. Don't worry about it.

Donald Trump: [\(01:51:31\)](#)

No, he's the best loser I've ever seen. He could lose ... He lost with Hillary and they didn't treat him too well. And then he lost, but Elizabeth Warren lost. If she would have gotten out, he would have had the votes. He would have won easily. So instead of a Crazy Bernie, I'm running against a sleepy guy, right? I'm running against a very sleepy guy. We can't let the sleepy guy fool us, though, because he happens to be a corrupt politician, and they don't want to write it. Biden's energy plan will send every state into a crushing poverty situation, from Michigan to Minnesota. We're going to win Minnesota because of Omar, and because we did a great job in stopping the riots in Minneapolis. The National Guard went in. They should have called them a lot sooner, like a week and a half. You wouldn't have had half of your city burnt down. But Arizona, Pennsylvania. We're doing great in Pennsylvania, by the way. I just got the word. I just got the word. We're doing great in Pennsylvania. It's looking good. I think you're going to have a very exciting ... You're going to have a very exciting evening or day tomorrow, but evening in particular tomorrow.

Donald Trump: [\(01:52:44\)](#)

You know, when people see it, I walk in, we do polls, and they do a poll. "We interviewed 73 people, and President Trump is down 57 points." This is a poll. See, this is a poll. When you draw crowds like this. This is not the crowd of somebody that's going to lose the state of Michigan. This is not. This is not. And look at this crowd. You can't even see the end of it. You can't. This is not the crowd of a second place finisher. Do you agree with that? No. No. This is our crowd, all together. We're in this together and we're doing it together. As long as I'm President, we will remain the number one producer of oil and natural gas anywhere on this planet. And for the first time, we are energy independent. You never heard that term before. We're energy independent, and you know, we have very good relationships in different parts of the world. In some we help. We don't have to, though. Now we don't have to do ... We do what we want, but we have some very good allies and partners that we'll help them, but we don't need their oil anymore. We have so much oil. We have more oil than anybody, okay? And it's an incredible thing that it's happened over the last few years. A lot of great things. And you're paying, what, \$2 a gallon for your gasoline? That's okay.

Donald Trump: [\(01:54:16\)](#)

You know what that's like? That's like a tax cut. That's bigger than a tax cut. If Biden got in, you'd be paying \$7, \$8, \$9. Then they'd say, "Get rid of your car. We're going to build some more windmills. Kill all the birds." Joe Biden is a globalist who spent 47 years outsourcing your jobs, opening your borders, and sacrificing American blood and treasure in endless foreign wars in countries that most of you have never even heard of, okay? A vote for Biden is a vote to eradicate your auto industry. Somehow I don't think you want to do that in your particular state. He was a cheerleader for NAFTA, one of the worst trade deals ever made, and now we have USMCA, which is a great deal. What a difference. No, you were sending all your jobs.

Donald Trump: [\(01:55:08\)](#)

You know, 12 years ago, I was honored, believe it or not, the Man of the Year, and I was never thinking about doing this, the Man of the Year in Michigan. I'm still trying to figure out how that happened, and I got up and I said, "You know, you're losing all your car business to Mexico, and Canada, too, by the way, and what are you doing? Why are you doing it?" And it was a whole big thing, became quite controversial as usual. But I was right, and it was probably the biggest reason that I ultimately ran for the presidency, because I saw how we were being ripped off. Not only the auto business, how we were being ripped off by every country of the world, friend and foe, on trade. And it just was something that was terrible.

Donald Trump: [\(01:55:50\)](#)

Now with the USMCA, they said there's no way I would ever pull it off. "There's no way you get rid of NAFTA." You know why? Because Mexico and Canada loved it. I said, "Well, if they love it, that means it can't be any good, right?" They said, "Sh, we never thought of that one." So I wouldn't say they're exactly thrilled with USMCA, but we're fine with it. We like it. But he was sending your auto jobs, so many of them, to Mexico, and it was terrible.

Donald Trump: [\(01:56:16\)](#)

Joe Biden supported China's entry into the World Trade Organization, which was the beginning of a disaster. It was good for China, but it was sure as hell bad for us. But you know, we won seven and a half billion dollars a little while ago, because we wouldn't win anything. They had no respect for this country whatsoever, and now they know that if they don't treat us right, we'll pull out of that deal so fast. Now all of a sudden we're winning all these cases, but we just won seven and a half billion dollars, which would have been impossible with a different president. You are so lucky I've agreed to be your president. Go out and vote for Trump.

Donald Trump: [\(01:56:56\)](#)

The seven and a half billion dollars we won, that was nice. Michigan lost half of all of its auto manufacturing jobs, because that was like a Biden and his friends, that was a betrayal to you and to many other states. He supported the Trans-Pacific Partnership, which would have eliminated your auto industry totally. I came in and immediately canceled it. I canceled it. I was so happy to cancel the TPP. I ended the NAFTA disaster. Canceled that one too. I've been an activist. Despite the fact that every week I'm being hit on all different sides, "Let's impeach him for having a perfect conversation with the President of Ukraine." They were the ones that had the bad conversations, including his son making \$183,000 a month to sit on the board of a company. His son. Where's Hunter? Where's Hunter? His first name is, "Where." Where's Hunter? Remember that? I brought that up. A t-shirt was made overnight. It was the hottest selling t-shirt of the year. "Where's Hunter?"

Donald Trump: [\(01:57:59\)](#)

You know where Hunter is? He's buying vacuum cleaners, because he follows his father and he vacuums in money from every country that his father sees. No, seriously, Ukraine. His father was a judge of Russia, Ukraine, and China. President Obama entrusted him with those three countries. Those are the three beauties, right? Russia, Ukraine. So Russia, Moscow, the mayor of Moscow, his wife gives him three and a half million dollars, Hunter. Now he got dismissed from the military, was unemployed. His father becomes Vice President, and now all of a sudden he's raking in money like you never saw. Now you tell me, is that honest? And then they say the big guy gets 10%. The big guy in some cases gets 50%.

Donald Trump: [\(01:58:48\)](#)

And then the last one is he asked China for \$10 million here. This is Biden. They asked for \$10 million, yeah, \$10 million for introductory purposes. That's what ... Introductory purposes. So he's going to introduce people to who? To his father, for which he gets \$10 million a year. I never saw anything like this. And the fake news refuses to report it, because they don't want it in there, because it's not good for them. How about the Moscow? Three and a half million dollars from the wife of the mayor of Moscow. Three and a half million dollars to, "Where's Hunter?" You know, "Where's Hunter?" He's at the bank depositing his money.

Donald Trump: [\(01:59:36\)](#)

Now think of it. So he gets a billion and a half from China. He goes with his father on Air Force Two, a plane that the great Vice President Mike Pence uses too. Mike, do your kids follow you to the various countries, raking in money? No. He's got the greatest people, the greatest children, the greatest family. I don't think they have, right, where they're flying airplanes for our military. No they don't. They do it a little differently. They do it the old fashioned way. No. Mike Pence, it's a holder. I always compare ... I say, "Can you imagine with Mike Pence?" How good we have it with Mike Pence compared to that. No, it's great.

Donald Trump: [\(02:00:22\)](#)

How about the China, though? So the kid has no investment experience whatsoever. His father and him, they go into Air Force Two. In 10 minutes, like a 10-minute meeting, he walks out with a billion and a half dollars from China. They don't do this for the biggest investment firms. I spoke to a friend of mine who's one of the biggest guys on Wall Street. He said, "No, this is never done. They invest their own money. They don't need people that are much dumber than them to invest their money. They invest their own money. They don't do that." Then he said, "Wow. That's amazing. How long did it take him to get the money?" "About 10 minutes." Walks out with a billion and a half dollars to invest, which is millions of dollars a year.

Donald Trump: [\(02:01:01\)](#)

And the fake news and big tech, big tech is getting very dangerous, very dangerous, but it's one of the reasons we have to win. They have me trending every day on Twitter, Twitter Trending. They make up these stories, phony stories. They put up stories or they'll take an old story, make it as bad. "Number one trend," like some really boring story. Trending is like, you got to be cool, right? To trend. I'm trending number one, number two, number three. Everyone, "Negative, negative, negative." How the hell did I ever win this thing? It's such a fix with these people. I'm always trending with these stories that are like, either they didn't happen, or they make them different. And I don't want to act like a complainer, but it's a totally rigged deal. And everyone said four years ago, they said, "Sir, you can't win." "Why?" "Because big tech is against you." I said, "What's big tech?" I didn't even know what the hell it was, right?

Donald Trump: [\(02:01:52\)](#)

I learned fast, because I think we're number one in the world now on social, so we learned very well. We got a lot of people. You know what? If I didn't have ... They say, "Don't tweet." Forget the tweet. It's called social media. If we didn't have social media, I'd have no voice. We wouldn't be here. I have no choice. They say, "Gee, we wish she wouldn't do so much tweeting." I don't do tweeting. What I do is social media. And without it, I don't think we'd be here, because

we'd have no voice. There's no voice with these people. They're dishonest people, mostly. Not in all cases, but Joe Biden is a corrupt politician who, what he's done is he's bled America dry.

Donald Trump: [\(02:02:34\)](#)

In 2016, Michigan voted to fire this corrupt political establishment, and you elected an outsider as president who is finally putting America first. And if I don't sound like a typical Washington politician, it's because, thank you, I'm not a politician. Thank you very much. If I don't always play by the rules of Washington and the Washington establishment, it's because it was elected to fight for you, and I fight for you harder than anyone has ever fought for you before. Joe Biden is bought and paid for by big tech, big media, and powerful special interests. That's why he takes in \$300 million. They taken millions and millions of dollars for his crazy campaign, and he's not going to win.

Donald Trump: [\(02:03:28\)](#)

I really don't believe he's going to win, because of this. Take a look. This is going on all over the country. They have tractors, thousands of tractors. You ever see this? Thousands in Iowa. We're winning an Iowa very big, by the way, just in case. Thousands of tractors in Iowa on big farms, thousands and thousands. They have thousands of boats, 6,000 boats out in the lake, out in the ocean. They have things nobody's ever seen anything like it. So I think we're going to have a very big day, but they say you can't win without big tech. Well, we're going to find out tomorrow. Wouldn't that be wonderful? But they said the same thing, they said the same thing four years ago. The head of CNN said, "You can't win without CNN." I said, "Really?" And we won, so now we have to do it again. They're totally crooked. They're fake news. CNN is fake. CNN and the others are fake news. They own Biden. They control him, and they know that he will always do their bidding.

Donald Trump: [\(02:04:28\)](#)

Every corrupt force in American life that betrayed you and hurt you is supporting Joe Biden. The failed establishment that started the disastrous foreign wars that hurt our country so badly and hurt our young people so badly, they support Sleepy Joe Biden. The career politicians that offshored our industries and decimated your factories and sent your jobs away, they support Biden. The open border lobbyists that killed our fellow citizens with illegal drugs and gangs and crime, they support Biden. The far left Democrats that ruined our public schools, depleted our inner cities, defunded our police, and demeaned your sacred faith and values, they support Biden. The anti-American radicals defaming our noble history, heritage, and heroes, they support Sleepy Joe Biden. Antifa, and the rioters, looters, Marxists, and left wing extremists, they all support Biden.

Donald Trump: [\(02:05:35\)](#)

This election comes down to a very simple choice. Do you want to be ruled by the corrupt and selfless political maniacs that you're dealing with? Or do you want to be ruled by the American people? You're supposed to be ruled by the American people. Do you want to be represented by a career politician who hates you, by an outsider? I mean, just take a look. These people, what they do and what they get away with, and I guess that's the other reason. I mean, I was in politics and I see what's been happening to our country. Our country was going to hell, and we've turned it. And we got waylaid by this plague that came in, but we've done a job like nobody else has ever done a job, and you understand it. And that's why there's so many of you here tonight, and that's why all over the country, this is happening. All over the country. And even they're just springing up by themselves. I'm not there. I don't do this. I mean, if you look, they had something today I read where 100 miles of cars all with the flag, the American flag, the Trump, a whole Trump thing.

Donald Trump: [\(02:06:49\)](#)

But do you want to be represented by a career politician who actually doesn't like you, or by an outsider who will defend you like you have never been defended before? That's what I'm doing. And it's not easy, but there's nothing I've ever enjoyed more in my life, because we are making so much progress. We have to now finish the progress. A vote for Biden is a vote to hand the keys of government over to people who don't like you, don't respect you, and who want to rob your children of their American dream. We have a great American dream. We're not going to let it happen. We're not going to let that happen. We're going to keep our great American dream. A vote for Biden is a vote to give control of government over to the globalists, and communists, and socialists, and wealthy, liberal hypocrites, and all of those that want to silence, censor, cancel, and punish you.

Donald Trump: [\(02:07:48\)](#)

If you want your children to be safe, if you want your values to be honored, if you want your life to be treated with dignity and respect, then I am asking you to go to the poll tomorrow and vote, vote, vote. Remember what I said four years ago. I am your voice, and we will make America great again, and that's what we're doing. For the last four years, the depraved swamp has tried everything to stop me and to stop you, because they know I don't answer to them. I answer to you. That's why we're here. That's why we're here. Together we will defeat the corrupt establishment. We will dethrone the failed political class, and we will drain the Washington swamp. And we will save that American dream. That beautiful, beautiful American dream.

Donald Trump: [\(02:08:47\)](#)

This election is a choice between a deadly Biden lockdown, open up your state, governor, or a safe vaccine that ends up the pandemic and leads to the greatest economy in the history of the world. That's where we're going. We were there, and we're going to get it back very quickly. And that's going to bring our whole country together, because success brings it together, and it was happening. Before that plague came in, it was happening. People were calling me that you would least suspect, and it was all happening. And then we had to close it down and now build it up, and it's building ... It's not a V. It's a super V. It's a super V.

Donald Trump: [\(02:09:28\)](#)

We will mass distribute the vaccine in just a few short weeks. It will quickly eradicate the virus and wipe out the China plague once and for all. And whether we have the vaccine, great companies, Johnson & Johnson, Moderna, Pfizer, but with or without it, we are rounding the turn. Just remember that. You know, they don't like it. They hate it when I say that we're rounding the turn. And they always use Europe. "Oh, look at Europe. Look at Europe." Well, take a look at Europe. Look at how they're doing. And their economy is in tatters, and they have a lot of problems, and we don't want that. We don't want that. And that should have never happened. Should have never happened. That should have never been allowed to happen.

Donald Trump: [\(02:10:07\)](#)

Joe Biden is promising to delay the vaccine and turn America into a prison state. He's looking you in the face and he's locking you in your home while letting rioters, Antifa, the radical left, run down your streets, riot in your streets, burn down your stores, beat you over the head, and they're allowed to do that. But you can't go to your church. You can't have dinner with your family, but you're allowed to protest and riot. That's why I call all of these protests, because we're allowed to protest. You're not allowed to meet and you're not allowed to pray together, but you're allowed to protest, so I call everything that we do a protest. The Biden lockdown will mean no school, no graduations, no weddings, no Thanksgivings, no Easters, no Christmas, no 4th of July, no future for the youth. Other than that, it's actually quite good.

Donald Trump: [\(02:11:11\)](#)

A vote for Sleepy Joe Biden is a vote for lockdowns, lay offs, and misery. If you want a vaccine to kill the virus, by the way, he would have been so far behind on a vaccine. He would have been so far behind. He did the swine flu. It was the joke of ... They didn't know what the hell they were doing. Now he's saying, "He should have acted faster." Except when I did the ban on China, he said I shouldn't do it for two and a half months. Then he admitted he wrong too, and then he runs, and now he's saying I should have acted. I was so early in doing that ban, and we saved ... And our biggest critic admits that we saved thousands and thousands of lives by doing it. Thousands of lives. And the ventilators that were made, and all of the things that we've done, and all of the medicines that are coming out. And here I am-

Donald Trump: [\(02:12:03\)](#)

... all of the medicines that are coming out and here I am, right? Here I am. And I'm sure it had nothing to do with the medicine. I used to sort of give the medicine a little bit of credit, now I give it none, because I'm a perfect physical specimen, and I'm a very young person. I'm a very young person. I said that, of course, a little bit sarcastically. I said it a couple of weeks ago. I said, "No, no, I'm better than perfect. I mean, it was very quick, very easy because I'm in perfect physical shape and I'm a very young man," and CNN went crazy, "He is not in great shape, and he is not a young..." But they went totally crazy. They are definitely, seriously losers.

Donald Trump: [\(02:12:46\)](#)

Could you imagine if they had a cover of sleepy Joe for four years, their ratings would tank. That's why football is not doing well. First of all, they're not going to do well, basketball was down 71%, their finals. You know why? Because our people want to see people that respect our country, respect our anthem and respect our flag.

Donald Trump: [\(02:13:12\)](#)

And football is way down. But you know, they're down for that reason, but they're also down because people would rather watch this stuff than watch football, because this is much tougher. They consider this to be much tougher actually. But can you imagine if they covered sleepy Joe, the ratings are phenomenal for all of these things. And then they cover sleepy Joe, their ratings would tank. They would come to see me, "Sir, I think it's really important that you run again because we are losing our networks, our ratings are down the tubes." The failing New York Times will definitely be out of business very quickly. They used to write nothing about me, now I average probably about four or five stories a day on the front page. Someday they're going to give me a good one, watch. It might be tomorrow. We got to have a big win. We want a big win, not just a wave, we want a big win. Secretary of Defense, Robert Gates said about Biden that he was wrong on nearly every single major foreign policy and national security issue over the past four decades. He's been wrong on everything. He's been wrong on everything. But don't believe me, because you're Michigan, I spent all of this money on these beautiful, very large television sets. I call them beautiful, large screens. They're large television sets. Let's see it for yourself, okay. Go ahead.

Speaker 2: [\(02:14:41\)](#)

Joe Biden. Joe Biden. Joe Biden.

Speaker 3: [\(02:14:53\)](#)

Have you taken a cognitive test?

Vice President Mike Pence: [\(02:14:55\)](#)

No, I haven't taken a test. Why the hell would I take a test? Come on man. That's like saying you, before you got on this program, you take a test where you're taking cocaine or not? What do you think, huh? Are you a [inaudible 02:15:08].

Vice President Mike Pence: [\(02:15:08\)](#)

By the way, that's my little sister Valerie and I'm Jill's husband. Oh no, you switched on me. That's my wife, that's my sister. They switched on me.

Vice President Mike Pence: [\(02:15:20\)](#)

[inaudible 02:15:20] And if you have a problem figuring out whether you're for me or Trump, then you ain't black.

Vice President Mike Pence: [\(02:15:25\)](#)

There is not a single solitary reason in the world why. Why, as I said, we shouldn't be in a position that everybody, and that's my wife, Jill, Hey Jilly, I'm Jill's husband actually.

Vice President Mike Pence: [\(02:15:39\)](#)

And Corn Pop was a bad dude. And he ran a bunch of bad boys. And I did, Jake. And back in those days you show how things have changed.

Vice President Mike Pence: [\(02:15:49\)](#)

Play the radio, make sure the television, excuse me, make sure you have the record player on at night. Make sure the kids hear words.

Vice President Mike Pence: [\(02:15:58\)](#)

We hold these truths to be self-evident. All men and women created by... you know the thing.

Vice President Mike Pence: [\(02:16:05\)](#)

Because if you could take care [inaudible 02:16:08] quartermaster, you can sure as hell take care of running a department store thing, the second floor of the ladies department, you know what I mean?

Vice President Mike Pence: [\(02:16:18\)](#)

Well, I'm sick and tired of smart guys.

Vice President Mike Pence: [\(02:16:25\)](#)

You know, the rapidly rising in with, I don't know... You been to caucus. No you haven't. You're a lying dog-faced pony soldier.

Vice President Mike Pence: [\(02:16:42\)](#)

[inaudible 02:16:42] Why, why, why, why, why, why, why you're getting nervous, man.

Vice President Mike Pence: [\(02:16:45\)](#)

What kind of country we're going to be? Four more years of George [inaudible 02:16:49] going to find ourselves in a position where, if Trump gets elected, we're going to be in a different world.

Vice President Mike Pence: [\(02:16:58\)](#)

Lie, after lie, after lie, after lie.

Vice President Mike Pence: [\(02:17:03\)](#)

You know, we have to come together. That's why I'm running. I'm running as a proud Democrat for the Senate.

Vice President Mike Pence: [\(02:17:09\)](#)

And by the way, you know I sit on the stand and they get hot. I got hairy legs that turn blonde in the sun. And the kids used to come up and reach in the pool and rub my leg down so it was straight and then watch the hair come back up again, they'd look at it. So I learned about roaches. I learned about kids jumping on my lap and I'd love kids jumping on my lap.

Vice President Mike Pence: [\(02:17:38\)](#)

Barack and I think it's a right for people to have [inaudible 02:17:42] care.

Vice President Mike Pence: [\(02:17:42\)](#)

We have to do at least several things. One, we have to depend on what the president's going to do right now. And first of all, he has to tell, wait until the cases before anything happens with... Look exacerbating need for environmental justice... Sorry, there's a bug.

Vice President Mike Pence: [\(02:18:02\)](#)

Folks, we got a lot of work to do. I don't even need you to get me elected.

Vice President Mike Pence: [\(02:18:06\)](#)

It's a case where we cannot let this... We've never allowed any crisis from the civil war straight through to the pandemic of 17, all the way round 16, we have never, never let our democracy second fiddle. We can both have a democracy and elections, and at the same time, correct the public health.

Vice President Mike Pence: [\(02:18:27\)](#)

Everywhere. I've been hearing all around the country. You're trying your breast but it never feels like enough.

Vice President Mike Pence: [\(02:18:35\)](#)

And here comes the train that he tried to make sure didn't continue to run. That's the community. But folks, look.

Vice President Mike Pence: [\(02:18:49\)](#)

Anyway, I am very willing to let the American public judge my physical, as well as my mental fitness.

Vice President Mike Pence: [\(02:18:59\)](#)

I'll lead an effective strategy to mobilize [inaudible 00:02:19:04].

Donald Trump: [\(02:19:19\)](#)

Thank you very much. Look, you can't let this happen to our country. Okay? We know what's going on. You can't let this. This was a total fluke. This was a total fluke. In prime time he didn't work and now it's really not working. What a disaster. I can't believe this is even happening.

Donald Trump: [\(02:20:05\)](#)

It puts much more pressure on me running against a guy like this. You lost to somebody that was good, can you imagine the concept of losing to this guy? You better get out there and vote tomorrow. I will be so angry I will never come back to Michigan, I'll never come back. I'll tell Japan to bring all those plants they held back.

Donald Trump: [\(02:20:31\)](#)

Joining us tonight are some great warriors, great people. Congressman Bill Huizenga. Bill, where is Bill? Thank you very much. Everything good? You're doing great. Thank you, Bill.

Donald Trump: [\(02:20:49\)](#)

Congressional candidate, Peter Meijer. Peter, where's Peter? Where's Peter? Peter, you don't have a good location. What happened to Peter? Peter's here someplace and I hear he's doing great.

Donald Trump: [\(02:21:03\)](#)

House Speaker, Lee Chatfield. Lee? Thank you, Lee, great job you're doing.

Donald Trump: [\(02:21:12\)](#)

RNC Chair, I'll tell you what a job she did. What a job she did. Ronna McDaniel. Where are you Ronna? What a job she's done. We won this great state with her leadership. Thank you, Ronna, very much, great job.

Donald Trump: [\(02:21:34\)](#)

State GOP Chair, Laura Cox. Laura? Good job. Are we going to win? Otherwise, we will fire you so fast.

Donald Trump: [\(02:21:53\)](#)

No, I think we're going to have a tremendous victory in Michigan. I think we're going to have a tremendous victory in all of these States they're talking about, I see all of them. We're going to have a tremendous evening, I hope so. For the good of our country, I hope so. You see the alternative, I'm sorry. But this is not just an alternative. We're doing a great job, but we want to keep it going. Okay. We got to keep it going and we're going to.

Donald Trump: [\(02:22:18\)](#)

A very special person. Medal of Honor recipient, Jim McCloughan. Jim, where are you? Great job. He's a very brave one. Thank you very much, Jim. Congratulations, that's a great honor. Our highest honor.

Donald Trump: [\(02:22:36\)](#)

Ted Nugent, and he is great. Where is Ted? Great job, Ted. He's been from day one, right, Ted? Great job. Thank you very much for everything. I appreciate it. I love your sound. I love your music. And speaking of sound, music and other things, one of the big superstars of the world, Little Pimp. There he is. How's it going? Do you want to come up and say something? Come on. Lil Pump, come on up here, come on up here. Does everyone know who he is? You know how big he is? Come on up here. It's a nice hat. Come on, say something.

Lil Pump: [\(02:23:32\)](#)

Hello everybody, how are you guys feeling? I've come here to say, Mr. President, I appreciate everything you've done for our country. You brought the troops home and you're doing the right thing. MAGA 20, 20, 20, don't forget that. Don't forget that. And do not vote for sleepy Joe, at all.

Donald Trump: [\(02:23:58\)](#)

Thank you/ That's great, thank you very much, I appreciate it. That's very nice. Big star, big star. That's very impressive.

Donald Trump: [\(02:24:29\)](#)

For 47 years, Joe Biden viciously attacked black Americans. He called young black men, super predators. To every black American, I am asking you to get out tomorrow and vote. This is your one and only chance. Thank you. Thank you, man. Thank you very much. To show Joe Biden what you think of his decision to attack you, to jail you, to betray you and I'm fighting for you and you know what we've done? What we've done is really something that nobody thought could have happened. Other administrations, in particular, the last administration didn't make even a move to try and get it done. We got criminal justice reform done. We got prison reform done. We got opportunities zones all done and complete. Tim Scott. We had funding for historically black colleges and universities completed and done, and it's an honor to have done it. And I say it all the time, with the exception of Abraham Lincoln, no president has done as much for the black community as President Trump. And I'm very proud of that, very proud of that.

Donald Trump: [\(02:25:54\)](#)

Thank you. It's been an honor. It's been an honor. Biden has vowed to increase refugee admissions from terrorist nations by over 700%, including from Syria, Somalia and Yemen. The Biden plan would overwhelm your communities and turn Michigan, Minnesota, Wisconsin, and the entire Midwest into a virtual refugee camp. I am keeping radical Islamic terrorists, if you don't mind, the hell out of our country.

Donald Trump: [\(02:26:25\)](#)

And if you take a look at France over the last week, they're having a devastating problem. Another problem happened today, a very big problem in Europe and we don't want it. We don't want that problem. We don't need it. We don't want it. We invested \$2.5 trillion in the United States military, biggest investment we've ever made. We are the envy of every country, militarily, Russia, China, North Korea. Everybody looks at what we have, nobody. Tanks, F35s, super fighter jets, tankers, submarines, missiles, rockets, hypersonic missiles, they go seven times faster than our fastest missile, fastest in the world. All of the things we've done in our nuclear plants and our nuclear capability is now at the highest level and it's all in tippy top shape. And you just have to pray to God that we'd never used it. That's all we say. Pray to God that we never use it.

Donald Trump: [\(02:27:34\)](#)

We have the best in the world, all by the way, made in the USA and made a lot of it made right here in Michigan. A lot of it made right here in Michigan. We also passed VA veterans choice and veterans accountability, VA accountability. 91%. We killed the leader of ISIS, al-Baghdadi. We eliminated the world's top

terrorist, Soleimani is dead. I recognized the capital of Israel and opened the American embassy in Jerusalem. I also recognized Israeli sovereignty over the Golan Heights, had been working on that for 52 years.

Donald Trump: [\(02:28:24\)](#)

And instead of endless wars, we are now forging peace in the Middle East, and we're getting it done. It's going to happen very quickly, you watch. A vote for me and The Republican Party is a vote for the American dream. And remember, Abraham Lincoln was a proud member of The Republican Party, Abraham Lincoln.

Donald Trump: [\(02:28:47\)](#)

In conclusion, over the next four years, we will make America into the manufacturing superpower of the world and we will end our reliance on China once and for all, which is already taking place. We will hire more police, increase penalties for assaults on law enforcement and we will ban deadly sanctuary cities. With God's help, we will defend the right to life, religious liberty, free speech and the right to keep and bear arms, your second amendment. Which is under siege, but it's 100% secure with us in this position, Mike, right? We will never touch it.

Donald Trump: [\(02:29:32\)](#)

We will maintain America's unrivaled military might, and we will ensure peace through strength. We will end surprise medical billing, require price transparency, which goes into effect on January 1st, bigger than healthcare. Lower drug prices even more. We have signed and done something that's never been done on prescription drug prices, favored nations. It will bring drug prices down 50, 60, 70%, like you've never seen before. And the drug companies, big pharma, does not exactly like your favorite president, I will tell you, but that's okay. We broke a log jam. Favored nations, nobody thought we'd ever do that, we did. And we will always protect patients with pre-existing conditions. America will land the first woman on the moon and the United States will be the first nation to land an astronaut on Mars. That's starting very soon.

Donald Trump: [\(02:30:37\)](#)

We will stop the radical indoctrination of our students and restore patriotic education to our schools. We will teach our children to love our country, honor our history and always respect our great American flag. And we will live by the timeless words of our national motto, in God we trust. For years you had a president who apologized for America. Now you have a president who is standing up for America and standing up for the great people of Michigan.

Donald Trump: [\(02:31:20\)](#)

Tomorrow, you have the power, with the power of your vote, but you have a power to save America, for this country will never be a socialist nation. We will never allow that to happen. Together we can finish the job and drain the Washington swamp once and for all. Nobody knew it was so deep and so vicious, but we have done some job. So get your friends, get your family, get your neighbors, get your coworkers and get out and vote. Most important election perhaps in the history of our country. I never thought I'd say that. After what we went through four years ago, I said, "There'll never be anything like that. Never be anything like what we went through." And this is the most important election, maybe in the history of our country, from Midland to Mackinac, from Pontiac to Battle Creek and from Detroit to right here in Grand Rapids, I love Grand Rapids.

Donald Trump: [\(02:32:27\)](#)

We inherit the legacy of American patriots who gave their blood, sweat, and tears to defend our country, our families, and our freedom. We stand on the shoulders of American heroes who crossed the ocean, settled the continent, tamed the wilderness, laid down the railroads, raised up the great skyscrapers, won two world wars, defeated fascism and communism, and made America into the single greatest nation in the history of the world. And the best is yet to come. The best is yet to come.

Donald Trump: [\(02:33:04\)](#)

Proud citizens like you, who helped build this country, together we will take back our country. We're taking it back at a level that nobody has believed. We are taking it back and we are winning and we're going to win tomorrow. We are returning power to you, the American people. With your help, your devotion and your drive, we are going to keep on working. We are going to keep on fighting and we are going to keep on winning, winning, winning. We are one movement, one people, one family and one glorious nation under God and together with the incredible people of Michigan, we have made America powerful again. Our military, it's never been like this. We have made America wealthy again. We have made America strong again. We have made America proud again. We have made America safe again and we will make America great again. Thank you, Michigan. Go out and vote. Thank you very much. Thank you.

President Donald J. Trump: [\(01:14\)](#)

Thank you very much and hello, Kenosha. It's nice to be back. It's nice to be back. We spent a little time with you, a little law and order. We brought law and order to Kenosha. Right? That's what we want. And hello, Wisconsin. Big day, tomorrow, big, big day, big day. And I think we're going to do very well in Wisconsin just like we did four years ago. And it's an honor to be with you. Thank you.

Audience: [\(01:41\)](#)

USA! USA! USA! USA!

President Donald J. Trump: [\(01:51\)](#)

And this is a lot of people. This is a lot of people. See, you know what that means? That means we don't have to pay for the microphones because they did a bad job. Tomorrow, we are going to win this state and we are going to win four more years in the White House. And with your vote, we will continue to cut your taxes, cut regulations, support our police, support our great military, protect your second amendment. It's under siege, but don't worry about it, unless sleepy Joe got in, then you can forget about your second amendment, defend religious liberty and ensure more products are proudly stamped with that beautiful phrase, Made in the USA.

President Donald J. Trump: [\(02:46\)](#)

Next year we will be, and you know, we're going to be together next year. We're going to be together for four more years and we're going to be together forever because we're doing things that nobody's ever done and we're doing them together. And it was my pleasure to be with you a number of months ago when you were in the news, right? You were in the news.

Audience: [\(03:16\)](#)

Turn it up! Turn it up! Turn it up! Turn it up!

President Donald J. Trump: [\(03:20\)](#)

Next year will be the greatest economic year in the history of our country. And I hope you can hear. Can you hear it back there by the way?

Audience: [\(03:33\)](#)

No!

President Donald J. Trump: [\(03:34\)](#)

Yes, no?

Audience: [\(03:35\)](#)

No!

President Donald J. Trump: [\(03:38\)](#)

Hold it. Okay. That was the problem. You got to get the microphones fixed.

Audience: [\(03:48\)](#)

Four more years! Four more years! Four more years!

President Donald J. Trump: [\(03:48\)](#)

What's wrong here? How's that? Is that getting better? And they was supposed to pay these people, right? No. Is that better? Come on. Okay. We'll do this. We'll have to improvise, you know? Sometimes you have to improvise. Okay. You ready? Which is better, this one or this one? Which one? This one. Is that better? Can you hear? This could be a very uncomfortable evening for me. All right. We'll figure this out. Come on. Let's go. Good job fellers. I'm always saying I want a perfect mic. Good job. Unbelievable. Unbelievable. Is that better now?

Audience: [\(05:12\)](#)

Yes!

President Donald J. Trump: [\(05:12\)](#)

So this is the first time I've ever used a head held for an hour, two hours, three hours. No, we have one more tonight. After this, Grand Rapids. We finish up at Grand Rapids and we finished up there four years ago, and a little bit superstitious. Let's do it the same way. We came here. We came to Grand Rapids. Let's keep it going. And I hope everyone can hear me now. Yes? Yeah? All the way back there. All the way back. Good. You let me know. You're not shy. I was wondering. Everyone's going, I thought they didn't like me, I was saying. I'm not sure. I said, "What's going on over here?" Right? Good. Thank you very much.

President Donald J. Trump: [\(05:53\)](#)

So under my leadership, our economy is now growing at the fastest rate ever recorded, 33.1%, fastest every recorded. We created a record 11.4 million jobs in the last five months. That's a record. And while foreign nations are in free fall, we are creating an economic powerhouse unrivaled anywhere in the world. A

recent Gallup poll found that 56% of Americans say they're better off today than they were four years ago. That's under the auspices of Barack Hussein and sleazy Joe Biden.

President Donald J. Trump: [\(06:39\)](#)

You're not going to want to have Joe Biden. You know, see the media. Look at all the media back there. If they had to cover him for two months, they'd say, "We have to bring the President back. We have to bring Trump back." They would be out of business. They would be out of business. If Biden, Harris and the radical left gain power, they will collapse our economy and send your nation, this wonderful nation, into a depression. This is the only guy I've ever seen who runs by saying, "We will," he doesn't say it like that. He goes, "We will." "We will raise your taxes." I never heard that before. You know, I've covered politicians. I've been friends with politicians. I've been enemies also, but I've never seen somebody saying we will raise your taxes. They want to give you the largest tax increase in the history of our country, and we can't let that happen. We can't let that happen.

President Donald J. Trump: [\(07:42\)](#)

So get out and vote. Tomorrow will be, I think, will be the most important election in the history of our country, and I never thought I'd say that. I never thought I'd say it. So get out and vote. Sleepy Joe Biden will raise your taxes \$4 trillion, massively increase your regulations, shut down your farms, close down your factories... How's he doing so far? Send your jobs overseas, they started booing him. I don't know. Is this guy really thinking about, I mean, could he really win? Are we serious about this? What the hell is going on? Is he serious? Guy has no clue. He's shot. Some people are shot. He's shot. Did you see him today with the aviators, right, the glasses, right? Came on very tough. He's very agitated. You know, it's like sort of like going crazy. Destroy the suburbs, dissolve your borders, terminate religious liberty, outlaw private healthcare, confiscate your guns. Second amendment is in deep trouble. Not with me it's not. You notice it hasn't been touched. Right? It hasn't been touched. You think that was easy? It wasn't easy. And indoctrinate your children with anti-American lies.

President Donald J. Trump: [\(09:15\)](#)

So I just signed an executive order to teach our students pro-American values, pro-American values. Biden has vowed to abolish the American oil and natural gas industries and ban fracking. Now, from your standpoint, you don't like it because you don't want energy costs going up, right? That's what he'd do. Biden's energy ban will send every state into crushing poverty from Wisconsin to Michigan, Nevada, Pennsylvania. As long as I am President, we'll remain the number one producer of oil and natural gas in the world. And we are right now. And we will remain energy independent. You know, we're energy independent. We don't need foreign nations anymore, but we have good relationships in the Middle East.

President Donald J. Trump: [\(10:07\)](#)

You know where we're doing peace in the Middle East. Do you believe it? No blood in the sand, peace in the Middle East. Joe Biden is a globalist who spent 47 years outsourcing your jobs, opening your borders, and sacrificing American blood and treasure on foreign wars. You know what they call them? The endless foreign wars, countries that many of you have never heard about. What?

Audience: [\(10:34\)](#)

Lock him up! Lock him up! Lock him up! We love you! We love you! We love you!

President Donald J. Trump: [\(11:08\)](#)

I don't know. I think we're doing fine with this mic, right? I don't want to put this guy under pressure. You're on stage. You got 27,000 people watching. Don't get nervous. Oh, he's not nervous. He's a professional. I'll give you the name of his company. Never use that company. No, he's fine. Don't worry about it. This is okay. This isn't. Oh, you want to just put it in there? Well, is it the same mic as the other one? It's a different mic. That means that one's supposed to be better, right? That's not good. All right. Okay. We'll take that sucker out of there. Right? Congratulations. Go ahead. Do you want to put it in? How's he doing? He's doing a good job, right? Come on.

Audience: [\(11:54\)](#)

We love you! We love you! We love you!

President Donald J. Trump: [\(12:08\)](#)

[inaudible 00:12:08] Now we're back where we started. See? The whole deal. We're right back where we started. I take the mic out. Okay. Okay. You know what? And then I won't pay the bill of the company that does this crazy microphone. And they'll do a story, "Trump is a horrible human being. He doesn't pay bills." No, I don't like to pay bills when people do a bad job. You don't either. But I don't know. They look like nice people. They come from Kenosha. So I'm going to pay the bill anyway. What the hell? You know? Well, at least I proved one thing. You know, did you ever see where I lift the glass of water and I wear the red tie. They're sort of expensive. And you know, you don't like to spill water on the red tie. Right? So sometimes I'll use two hands because I want to catch the water, because I want to save the time because I'm basically cheap, you know? So I'll take the water and I'll go like this, and I'll take a little sip and they'll say, "There's something wrong with him." No, I'm trying to save.

President Donald J. Trump: [\(13:14\)](#)

So I go like this. So now, by holding a mic all night long like this, you're going to say, "Well, there's nothing wrong with that right hand or left hand." No, did you ever hear that? There's something wrong. He can't lift a glass of water. No, I have no problem with it. Some day I may, like Joe, but I don't have any problem.

President Donald J. Trump: [\(13:32\)](#)

Biden was a cheerleader for NAFTA and China's entry into the World Trade Organization. Think of it. You lost half of your manufacturing jobs after the betrayals. These were betrayals by a lot of people and Biden was one of them. He's a corrupt politician and he sold out Wisconsin to China. But he's a corrupt politician and these people never told you that, and they don't want to write about it, and big tech doesn't want to talk about it, and it's off bounds, and they're not allowed to talk, and we have suppression. We have suppression. This is a media suppression, the likes of which nobody has ever seen. And if you take a look, you've never seen anything like it... The last famous last words. Right? But no, nobody's ever seen anything like it.

President Donald J. Trump: [\(14:24\)](#)

You know, his son walks in. His son had no job. He left the military. Unfortunately, it wasn't good. And then what happens is the father becomes Vice President, and this kid becomes like a human vacuum cleaner. He follows the father into countries. "Dad, who are you going to today?" "Well, let's go to China." And he's a vacuum cleaner. Follows the father, takes in money. Right? It's terrible. They give him one and a half billion dollars, one and a half billion. Think of it, one and a half billion dollars, and he gets fees off that, millions of dollars a year. There's only one problem. He has no experience investing money. They give him the money. They gave him the money after 10 minutes. I think our Congress has to take a look at that. What do you think, fellas? I think you're going to have to look at it.

President Donald J. Trump: [\(15:12\)](#)

Can you imagine? You know, I have a lot of my kids here tonight. Could you imagine if my kids said, "Yeah, dad, I got a billion and a half dollars from China." Oh, I don't think they'd want to write about that, the fake news. Do you think they'd write about that? Then he gets three and a half million dollars from the mayor of Moscow's wife. Right? What did he get that for? Remember I asked that at the debate, the first debate, I said it. Chris Wallace thought it was an inappropriate question. Really? I think. You think? Chris Wallace. No, I must tell you. I think Kristen did a better job, Kristen Welker. Right? And I don't mean she was perfect. Actually, some people said she wasn't really very nice. I thought she was nice. Relatively speaking, she was great for what I got.

President Donald J. Trump: [\(15:57\)](#)

How about the one, Savannah Guthrie. You see that one? That was another beautiful. Live at nine o'clock, she's jumping out of a chair. She's like going crazy. But we all do well. You know, I don't get questions like he gets. He gets, "Sir, what kind of ice cream are you eating?" Did you see that? They never asked me questions like that.

President Donald J. Trump: [\(16:18\)](#)

In 2016, Wisconsin voted to fire this corrupt, and really it's like corrupt, corrupt political establishment. Right? And you elected an outsider as President who is finally putting America first, finally putting America first. And if I don't sound like a typical Washington politician, it's because I'm not a politician. Right? If I don't always play by the rules of the Washington establishment, it's because I was elected to fight for you, and nobody has ever fought harder for you than I am. I will tell you. Nobody.

President Donald J. Trump: [\(17:03\)](#)

When the violent mob came to Kenosha, Biden opposed sending in the National Guard. Of course you remember this, right? He didn't want to send in the Guard. He thought it was terrible to send in the Guard. And we sent in the Guard and we saved Kenosha. We saved Kenosha. I said, "You know, I think Kenosha is going to like me." We did a good job. I wish they sent them in a little bit earlier. Right? If we had them in a little bit earlier, but that's okay. That's okay. But we sent in and how good did the Guard do though? Did we do the job? Did they do the job?

President Donald J. Trump: [\(17:41\)](#)

Biden and Kamala, does anybody know who Kamala is? This wonderful woman, she wants to be your first female president. I don't think so. I don't think so. You know, that's a good reason not to vote for sleepy Joe, too. Right? You don't want to do that. We all want to see that happen someday, but we don't want this to be the one. Right. But they're waging war on our police. You know that. We have a lot of police here tonight. I recognize it because I went and I met all of the police. I met a lot of great police, federal police. I've met the whole group and you have great police.

Audience: [\(18:31\)](#)

Back the blue! Back the blue! Back the blue! Back the blue!

President Donald J. Trump: [\(18:31\)](#)

I agree with that. But I stand with the heroes of law enforcement and I was honored to be endorsed by Kenosha County Sheriff, David Beth. Thank you, David, wherever you may be. Where's David? Thank you, David. That was so nice. That was so nice. They like you out there, David. That's very good. Appreciate it, David. Thank you very much. And as I'm sure you've heard, Biden's far left supporters are threatening to loot and riot tomorrow if they don't get their way, if they don't get their way. Are we-

President Donald J. Trump: [\(19:03\)](#)

... if they don't get their way, if they don't get their way. Are we all ready, David? Everybody ready? If they know we're ready and if they know we're not playing games, they won't even be here. They won't show up. It's like I brought an old law into existence when I saw them going around all over the country, knocking down statues and monuments. And we signed, we brought it in, and I signed it, updated it, signed it 10 years in prison if you knocked down a statue or monument. And you don't see it anymore. They look and they say, "Oh, we'd like to knock that one down, but you know what, 10 years is too much, darling. Let's leave now." This is yet more evidence why the radical left cannot be trusted with power. We strongly condemn political violence. We condemn it and we condemn it strongly.

President Donald J. Trump: [\(19:51\)](#)

Biden must tell his supporters. He doesn't really have supporters, let's face it. He doesn't have supporters. They got shot. He doesn't have. There's an ideology that has supporters and he's just the vessel. He happened to be the one that got through, because Elizabeth Warren instead of getting out like she should have and letting Bernie take it. Bernie, I've got to tell you, he is a great loser. He really is. He loses. It happened with Hillary and it had happened with Elizabeth Warren. What she did was incredible. That's a similar philosophy. But Biden ended up being there. Biden ended up being there and that's the way it is, and he has to tell his supporters. And I think you're going to see something. Look at the people over here. They go, "Oh, hello." Can you actually hear this? Can you hear this?

President Donald J. Trump: [\(20:46\)](#)

Because this is the worst microphone I've ever used in my life. Can you actually hear me over there? They can. In the back, all the way back. That's good. Thank you. I can't believe it. It sounds terrible to me. It doesn't sound great, right? To me, it doesn't sound great. It's all right. Good. You know what? Keep saying it. That Bill, he says, "Don't pay him. Don't pay him." Did you hear that, Johnny? Don't pay the damn bill, would you please? A piece of garbage they gave me. It's not even the first rate mic. The good one, it's put to rest. We put it the rest. The good one, we put the rest. All right, don't pay him. But as President, I will ensure peace and order in this country. We are going to have peace and order. And you're going to have a day tomorrow the likes of which I think people haven't seen in a long time, a long time. You're going to have a red way. It's going to be a beautiful sight.

President Donald J. Trump: [\(21:49\)](#)

And you know what? We actually have a country that outside of a radical group, and this is a radical group, but we have a country that's very well united. When you look at a group of people like this, it's incredible. And I go from here, I go I told you, Grand Rapids. They say they have 40,000, 50,000 people in Grand Rapids. Last night in Florida, we had 45,000 people. No problem. Everybody's in love. Everybody loves our country. It's a beautiful thing. I'm telling you, there's a lot of unity. We just don't complain. We don't complain, we just go out and do what we have to do. But you know, when we were having that incredible run, we were doing the best, and now we're almost at that same point, and we'll be there soon. But our country was uniting. We were getting calls. We had the best employment numbers ever African American, Asian American, Hispanic American. And we were getting calls like, "Maybe it's time we get together."

President Donald J. Trump: [\(22:50\)](#)

Because success brings people together. Success brings people together, and you're going to see that happening, because we're having numbers the likes of which we've never had before. Think of it, 33.1%. Nobody's ever had that. The highest was 1952, and it was less than half of that number. So rioting, looting, and arson will be prosecuted to the fullest extent of the law. I'm just telling you that right now. I'm telling you that right now, that if people are, I hate to see where they put boards up on a window, this shouldn't be that, it shouldn't be that, but we are a country of law and order. We have to be. We are. And do you notice, I hate to say it, but it's true, these are Democrat mayors and governors, there are Democrat run cities and states. They're the ones, if you look at New York and Chicago, and how about Portland, which is anarchists? We could solve that problem.

President Donald J. Trump: [\(23:58\)](#)

We tell the Governor, "You want us to solve the problem? We solve it in 30 minutes." We solved it in Seattle. We went in, we were going to go in the morning, we announced we're going in, in the morning, and they just raised their hands and they left the night before. And we did a great job in Minneapolis. We did a great job. We're going to win Minnesota for two reasons. We did a great job. Now, they could have called. They could have let us do it a week and a half early. That would have been nice, so that the announcer, remember the anchor, you looked over, he says, "This is a peaceful protest."

Speaker 1: [\(24:30\)](#)

[inaudible 00:00:24:36].

President Donald J. Trump: [\(24:48\)](#)

Thank you. What a group, what a group. What a group. I've gotten to know this state very well. You surprised. You're the one that put us over the top, you know that, right? Remember? We were waiting for Pennsylvania, four years ago, we're waiting for Pennsylvania. They didn't want to call it. Oh, they were going crazy, these people. They were crying. They didn't know what the hell was happening. They said, "This will be a very short evening for Donald Trump." Four years ago, right? And they were just, oh, they were looking forward. Remember the woman crying in the convention center, that beautiful? Remember the woman, she was going crazy, glasses, her head's going? I wonder where she is right now. They put her away. No, no. This was not a person that I was easily going to convince to be on my side I think. She was going crazy. But remember at the beginning, they show everyone's happy, everyone's thrilled? They spent a fortune.

President Donald J. Trump: [\(25:45\)](#)

It was one of the most beautiful things I've ever seen in terms of a stage. They had it shaped like the United States. Hello, Becca. Are you okay? But that was a hell of an evening. And this evening is going to be, I'm telling you, tomorrow, it's going to be, I can't say bigger. Was there ever anything as big? I'll tell you, the election is more important, but the evening will be as good or almost as good. And that's okay too. But that was a first, right? That was a first. That was some evening. That was some evening. "He won Florida. He won Ohio. He won it all."

Speaker 1: [\(26:26\)](#)

Four more years! Four more years! Four more years!

President Donald J. Trump: [\(26:29\)](#)

Thank you.

Speaker 1: [\(26:30\)](#)

Four more years! Four more years! Four more years!

President Donald J. Trump: [\(26:38\)](#)

Thank you very much. Thank you very much. And because of the microphone, we are giving you back half of your admission price. But considering that you paid nothing, I'm sorry, you're getting nothing. The price is right. Nah, it's fine. But wasn't that something though where they say, the evening begins and they say, "This is going to be very quick." You know what happened? They did exit polls and a lot of the people said, "None of your business." "Oh, who did you vote for?" "None of your business." That meant Trump. And they did 44%. You know that, 44% of the people said none of your business? And that meant Trump. They call it the none of your business vote. But almost all of them, I think maybe all of them, were Trump so they didn't count him. So they said, "Oh, this is going to be a blowout tonight." But they didn't realize.

President Donald J. Trump: [\(27:34\)](#)

These pollsters haven't been doing so good with me, and we blew it out. It was incredible. It started with Ohio. Remember? We're going to do great in Ohio tomorrow too, by the way. Great place. "Donald Trump has won the state of Ohio. That's a big state." I heard for a year while we were doing this, "You cannot win unless you win the state of Ohio." Every night they did it. And then all of a sudden poll numbers started coming out that I was leading in Ohio. But anyway, they thought I was going to win by one point. I won by eight. They said, "He won Ohio. He won by eight points. What the hell is going on here? That's a lot." And then they said, "Oh no, please don't tell me this. Donald Trump has won the state of Florida. No, no, no, no. Please, please, please." Remember Martha Raddatz, ABC? "Oh my God. Oh please. Please don't tell me this. Oh no, I'm a neutral. I'm very neutral. I don't do it. Please."

President Donald J. Trump: [\(28:35\)](#)

Martha, you're neutral? Please, the tears, wipe them away quickly. No. Then we won Florida. Then we won Georgia. Then we won South Carolina. Then we won the firewall, was remember North Carolina? That's their firewall. We were going to win North Carolina. They put so much money into North Carolina, but we had an asset from North Carolina named Lara. Lara, Lara Trump, married to married to the legendary Eric Trump. Where are you? Are you two there? We had a big asset there, Lara Trump. And she knew that area so well and they loved her so much. They loved her so much. And they just had another baby and they named the baby Carolina. They named the baby Carolina. And I tell you though, but I said, "We have to give South Carolina some credit too for that."

Speaker 1: [\(29:41\)](#)

Bring them up. Bring them up.

President Donald J. Trump: [\(29:43\)](#)

Bring them up. Come on up. Get over here. Come on. Bring them up. Bring them up. Great. Come on, come on, Lara. This one, they love her in North Carolina, South Carolina, Pennsylvania. And they love her in Wisconsin too. Here you go.

Lara Trump: [\(30:07\)](#)

Oh my God. I'm done now apparently. Wisconsin, who here is ready for four more years? A vote for Donald Trump is a vote for freedom. A vote for Donald Trump is a vote for the future. A vote for Donald Trump is a vote for God. And a vote for Donald Trump is a vote for America. How do you guys feel? Are we going to win Wisconsin? Let's go do this a second time. Thank you.

President Donald J. Trump: [\(30:54\)](#)

Great job. Thank you very much. Thank you, honey. Thanks, Eric. Thanks, sweetheart. They're doing a good job. They're working hard, I'll tell you. They're all working hard. They're all working hard. We have a whole group of family. This is like a family reunion tonight. Well, this is now the big time, because tomorrow's the big day and we have one more stop. Actually, I did five today, but I could say I did six, because in Miami we finished at close to two o'clock in the morning. So let's add that sixth today after Grand Rapids. Joe Biden is bought and paid for by big tech, big media, and powerful special interests. You know that. They own him, they control him, and they know he will always do their bidding. And when he raises \$300 million for this campaign in a short period of time ask him, what deals did you have to make? Because I would be the greatest fundraiser of all time. I can call the Wall Street guys, I know them all I could say, "Send me \$25 million immediately, please." "Yes, sir, Mr. President. I will."

President Donald J. Trump: [\(32:05\)](#)

But once you do that, you're totally compromised. You can't do anything properly once you do that. And I say, "I don't want to do that." And we did very well with the fundraising stuff, but a lot of it came in small donations. First time a Republican has ever raised a lot of money with small donations. \$61 average or something like that. Every corrupt force in American life has betrayed you and hurt you, and they're all supported by Joe Biden. The failed establishment that started the disastrous foreign wars, they're supported by Sleepy Joe Biden. The career politicians that offshored your industries. And you had plenty off shore, and decimated your factories, they support Joe Biden. The open borders lobbyists, all the people that killed our fellow citizens with illegal drugs, gangs, and crime, and you know a lot about that, they support Joe Biden. The anti-American radicals defaming our noble history, heritage, and heroes, they support Joe Biden. That's cancel culture. We don't believe in cancel culture, do we?

President Donald J. Trump: [\(33:22\)](#)

Antifa and the rioters and looters and Marxists and left-wing extremists, they all support Joe Biden. This election comes down to a simple choice, do you want to be ruled by the corrupt and selfish political class or do you want to be governed by the American people? That's what it's all about. It's the American people. They've taken that away. They've taken it away, and what's going on with big tech and what's going on with the media, nobody has ever seen anything like it. There's never been anything like it. Nobody has seen anything like it, where you can't have a scandal if there's nothing written about it. It's a pretty [inaudible 00:34:08]. A vote for Biden is a vote to give control of government over to the globalist and communists and socialists and wealthy liberal hypocrites, hypocrites who want to silence, censor, cancel, and punish you. These are real, real trouble.

President Donald J. Trump: [\(34:27\)](#)

If you want your children to be safe, if you want your values to be respected, if you want to be just treated with dignity and respect, then I am asking you tomorrow to go out and vote for your all time favorite President, because we still have work to do.

Speaker 1: [\(35:07\)](#)

Four more years! Four more years! Four more years!

President Donald J. Trump: [\(35:07\)](#)

Thank you.

Speaker 1: (35:07)

Four more years! Four more years!

President Donald J. Trump: (35:12)

Thank you. Remember what I said four years ago, I am your voice and we will all together make America great again. That's what we're doing. It's what we've done. For the last four years, the depraved swamp has tried everything to stop me. Can you imagine if they didn't do the hoax. The Russia hoax? Russia, Russia, Russia. How about Schiff getting up the other day, the laptop from hell, right? Where's Hunter? Where's Hunter? Is Hunter here? Where's Hunter? Oh, he's in a country. I see, his father just left the country. He's going to scam them for a couple of bucks. Where is Hunter? No, but he's got the laptop from hell and Schiff got up with the watermelon head, like I want a watermelon, and he goes, "This was produced by Russia." These people are crazy, I tell you. Ay yi yi, what a crazy bunch. But they know I don't answer to them, I answer to you. It's true.

President Donald J. Trump: (36:13)

Look, I didn't need this. I didn't need this. I had a very nice life. I had a very nice life, but you know what? It's the greatest thing I ever did, because no administration, no President in the first three and a half years, the biggest tax cut in history, the biggest regulation cuts, rebuilding our military, look at what we've done, look at what we've done. Our vets just gave a 91% approval rating. The highest in history, the highest in history. No, look at what we've done. Space Force, I never even talked about Space Force. I never talked. I realized we needed it after I was in office. I looked, I saw. I saw a rush. I saw China. I said, "We need Space Force." First time in 74 years, new one, right? A new one, right, Congressman? We did a great job on it. Together we will defeat the corrupt establishment, we will dethrone the failed political class, we will drain the Washington swamp, and we will save the American dream, a dream for your children, your grandchildren, a dream for your children and your grandchildren.

President Donald J. Trump: (37:26)

We have the energy and the people to prove the corrupt media wrong. And that's what we have, we have an energy like no movement has ever had in this country. Somebody would go in and do well in New Hampshire, as an example. I'm thinking about one man, because I have a lot of respect for him, he did well. Came in second in a primary and he became famous for many years. What we did is we won all the primaries, we won everything, and then we won the Presidency. No, there's never been a movement like this. And now they go after us illegally. They spied on our campaign.

President Donald J. Trump: (38:03)

Now they go after us illegally, they spied on our campaign. Our campaign, it's not my ... our campaign. They tried to take out a duly elected President of the United States and we caught them, and we caught them and let's see what happens to them. And you know who was a part of it? Barack Hussein Obama.

Audience: (38:21)

Boo!

President Donald J. Trump: (38:22)

And sleepy Joe Biden and plenty of others, like Comey, et cetera, but plenty of others, but they were a part of it. So now we'll see what happens, right? We're going to see, we're going to see what happens. So, but you have to get out and vote, this is the biggest thing, get out and vote. By the way, who's already voted? All right, that's not ... but we have a tendency to vote on election day, republicans. So let me ask you, who is planning to vote tomorrow? Very important, very important. Is anybody planning to vote for sleepy Joe Biden, please raise your hand? Does anybody have the courage? Raise your hand. No, all right, yeah, get out and vote. Well, that's good, that's a lot of people. So a lot of you vote a little bit early then? Do you trust the ballot system? Do you do early voting or do you do the ballot? Early, I like early better, early as good. Early is good, ballot is not good. We got a very horrible, horrible ruling from the Supreme Court of the United States, a ruling that puts our country in danger, actually. On Pennsylvania, they have so much time to do this thing. Oh, let them put their votes in and give them plenty of time. We have a date, it's called November 3rd. We don't have a date that says, many days later. We don't have a date that says you're allowed to go and start putting your vote in later. And we can tabulate it later, take your time. The whole world is waiting to find out and there's great danger in that, number one, there's danger that there's a lot of shenanigans that go on from that time forth. There's a lot of shenanigans. And then there's a lot of bad things that can happen with the streets. I mean, you're going to have a population that's going to be very, very angry, and you just can't do that. That is such a dangerous decision. That is such a disappointment when I heard that decision. That's a terrible decision, just you go take a look at it. And I know you people are taking a look at it, but there's not a decision that I've ever heard of like that.

President Donald J. Trump: (40:27)

Where people ... if you want to put your ballot in, and if you wanted to ... you go and you put it into a three or four weeks early. You don't go and put your ... he said, you had a whole year, you had a lot of time. You had a lot of time. So they say, "Oh, this is so terrible." They gave them extra time and then all the time. So now we're going to be all waiting around because Pennsylvania ... we're going to win Pennsylvania, it's a great state. But you know it's in like you, it's in a total shutdown, they shut it down. The governor is a Democrat, he shut it down. It'll probably open on the 4th. It'll open ... He'll announce, "Ladies and gentlemen now that the election's over, we're going to open it up." Right? But you can't do that. That's a very, very dangerous decision by the Supreme Court. I guess it was a political decision. I don't know what it was. I don't know what they were thinking.

President Donald J. Trump: (41:17)

And you know what, maybe I should, maybe I shouldn't be speaking this way. I'm very disappointed on behalf of this country that a thing like this could happen. Because we could be waiting for weeks before we ever find out what's going on. The whole world is waiting for this decision. It's a very sad, it's a very sad thing. And hopefully it's going to be changed. Hopefully, their wisdom ... and they have wisdom. Hopefully their wisdom will prevail and they'll do something. And lawyers will be going in and there'll be fighting. But people, in fact, it's all over television tonight. I'm coming from place to place, and the good thing about Air Force One, it's got more televisions than any hotel room in the world, okay? You have him on the floors you have on the ceilings, you have them all over.

President Donald J. Trump: (42:02)

And you see the comments that are being made about the decision. And some of the pros are saying, this is a very dangerous decision for our country because so many things, I mean, they're going to say, well, how many votes short are we? We need 6,000 votes. Well, let's take 6,000 of these. We'll put them over here. Let's take 6,000 of these. It's going to be cheating. It's going to be cheating. It's like, they're putting these people ... and you know what, we don't consider the people that have been running elections in Philadelphia to be very honest. We've had a lot of problems with Philadelphia. So that's the story and hopefully that'll be changed. And I'm sure the people would say, "Oh, you shouldn't speak that way about the Supreme Court." We've had so many bad decisions out of the Supreme Court that I will speak that way and that's the way it is.

President Donald J. Trump: (42:49)

This election is also a choice between a deadly Biden lockdown and a safe vaccine that ends ... and by the way, we're rounding the turn anyway, but we have great vaccines. We have great vaccines coming. We have great vaccines coming and it's a lot of good things are happening. And when you look at the therapeutics, excuse me, here I am. I'm right here. No, I don't think the therapeutic helped me. I don't think I needed it. I'm glad I got it, right? Regeneron, we're going to make it available free to anybody that needs it. We're making it available free to anybody that needs it, free. But I'll tell you what, I'm sure I didn't because I'm a perfect physical specimen. And I am considered very, very young. I'm considered young for my age. No, I'm a perfect specimen. I'm in perfect shape. So I'm sure I would have thrown it away.

President Donald J. Trump: (43:45)

But no, but I had it and the next morning I was not feeling good at all, I tell you. The doctor said, "Sir, I hate to say it. You've just tested positive." I said, "Doc," Sean, a great doctor, White House doctor. I said, "Sean, tell me, what does that mean? Tested positive for what?" "Sir you tested positive for the China plague." No, he used it much nicer, he said, "COVID." He said, "COVID." It's got about 37 names, you know that we could name it. I always like to have a China in there because I like to be accurate. But, but he said, "Sir, you have tested positive for COVID." I said, "I'm in the middle of the campaign, I can't be positive for COVID." And so, anyway, so I was, and I didn't feel too good. And the First Lady had it, at least now you know that all those rumors is that she

lives in Virginia separate, I mean, at least now you know she lives in the White House. Because she got it probably from me or whatever, I don't know, what the hell?

President Donald J. Trump: [\(44:47\)](#)

Do you ever hear, the First Lady lives in Virginia in a beautiful house over a river or something. No, no, she lives ... but at least that. I know people love the First Lady, they love the First Lady. It's true. They love the First Lady, it's true, they love her. She's doing a good job. They love ... the whole family back there, they love that family back there. Great family, hi, Tiffany. So, Melania has it but she knocked it out pretty good. And I did a great job. I was surrounded by these doctors, 12 doctors, I've told this story, each one was a specialist. Johns Hopkins, Walter Reed Medical Center is incredible, that's our military center, it's incredible. And I'm surrounded, right? I'm just surrounded by these brilliant doctors. One thing when you're president, you get a lot of doctors. And each doctor grabbed a different part of my body. And I said, "I don't like this at all."

President Donald J. Trump: [\(45:52\)](#)

But they told me about this one thing. And I said, "I really do, I like it. I really ..." but it was very, a little bit early. What we've done with getting it through the FDA has been incredible. Biden wouldn't have this stuff done for years. Well, he had a chance with this swine flu and totally blew it, right? It was a disaster. It was a disaster. Anyway, so I wake up the next morning and I'm telling you, I felt like Superman. I wanted to get out. I said, "Give me another trade deal to renegotiate that these clowns have screwed up. Gave me a trade deal to renegotiate. And where am I supposed to be?" "Well, sir, could you take it easy for a couple of days?" And people are sort of amazed. I've done these things, I mean, I do them. These are not easy to do, especially when you have no damn microphone. I mean, I'm working harder on this one than I have on all six that I did today. This is the hardest one. Because I have a microphone that was obviously meant for congressmen and senators, not for a president.

President Donald J. Trump: [\(46:56\)](#)

So it's a little bit off, but that's okay. You have to learn how to ... Isn't that funny when he put it back in here and handed it to me, I said, "But that's the way we started." I thought that was better. Nobody got that, only this front row got that one. I thought that was very clever, actually. But then he came up to me, the doctor, Sean, he said, "Sir, I'm sorry to inform you that your son, Barron has tested positive." Again, I said brilliantly, "For what?" He said, "For COVID." I said, "Oh, that's terrible." "Oh no, he'll be okay, sir, he'll be okay." I said, "It's terrible." But he's young and he's strong and he's very tall. Have you ever seen ... I say, "Hi, Barron." 14 years old, he's very tall. He's definitely tall and he's strong, but he's young. And I said, "That's terrible." He said, "No, he'll be okay, sir, he'll be okay." And I said, "Well, I hope." Like 12 minutes later I say, "How's Barron doing Doctor?" "Sir, he's 100% now, he's ..." Get your kids back to school, okay. Right, get them back to school. Yeah, all right. So we're going to mass distribute the vaccine in just a few short weeks. It's going to be coming out very soon and we will quickly eradicate the virus. Wipe out the China plague once and for all, get it the hell out of here. We will never forget either. We will not forget. That was not good. You know, we made a great trade deal with China as you know very well. But you know the ink wasn't dry before we got this and no good, no good. Joe Biden is promising to delay the vaccine and turn America into a prison state, locking you in your home while your far left anarchists are allowed to roam the streets, burn down your cities, hit people over the head. They're allowed to do that. That's why I always call all of these rallies, protests. These are not rallies anymore. Because you're allowed to have a protest, you can't have a rally and you can't go to church.

President Donald J. Trump: [\(49:01\)](#)

You're not allowed to go to church, but you're allowed to burn down the cities with a protest. So we always call these friendly protests. The Biden lockdown will mean no school, no graduations, no weddings, no Thanksgiving, no Christmas, no Easter, no 4th of July, and no future. Other than that, it's really not a bad way to go. A vote for sleepy Joe Biden is a vote for lockdowns, layoffs, misery, and no fracking. How about the guy, no fracking for over a year and a half. "There will be no fracking." He goes to Pennsylvania, "Absolutely, we'll frack." Okay, and these guys don't do anything about it. If you want a vaccine to kill the virus, a job to support your family, and freedom to live your life, then you have no choice but to cast your ballot for a gentleman named, Donald J. Trump. And as I said, you have to remember this, because during the debate, the debate was good ... thank you, thank you very ... thank you very much. Thank you.

Audience: [\(50:19\)](#)

Four more years! Four more years! Four more years!

President Donald J. Trump: [\(50:22\)](#)

Thank you very much.

Audience: [\(50:22\)](#)

Four more years! Four more years! Four more years!

President Donald J. Trump: [\(50:22\)](#)

Thank you, everybody. It's a great honor to be with you. I really did, during the Kenosha disaster, I really got to be friendly with a lot of people up here. Long before that because we've had so many different people that we deal with. You have great people, we're going to introduce you to a few of them, but you have great people here. But I really got to know you during that problem. That potential crisis that we put out very, very swiftly once we got called and it's great. You're great people. You built the country, you're great people. Joe Biden, and as I said, he ran the H1N1, he called it N1H1, he couldn't get it right. He still does, he can't get it right. I said, "Joe, H comes before N, it's easy to remember."

President Donald J. Trump: [\(51:05\)](#)

H1N1, swine flu. And he failed horribly and he was a laughingstock all over Washington. As you remember, as his chief of staff, I don't know why this guy said it, but he made the worst statements. He said, "This guy, we have no idea what we're doing." Now, all of a sudden he's coming and he's ... He was the one that said, I shouldn't close it down to China, heavily infected China, right? You remember that mess? Anyway, now he runs, he said, "I should have closed it sooner." It's really disgraceful. Secretary of Defense, Robert Gates, a respected man, he said Biden has been wrong on nearly every major foreign policy and national security issue over the past four years, right? Four years, he said, he's always wrong. And he has been always wrong. I don't believe he's even running. I can't believe the whole thing. I've watched, I watched the debates. You had 27 total killers on the stage and he was there. But you don't have to believe me because it's you, and because it's Wisconsin, we spent a fortune. And hopefully that'll work better than the microphone, try it, put it on.

Speaker 2: [\(52:15\)](#)

Joe Biden, Joe Biden.

Speaker 3: [\(52:24\)](#)

(singing)

Speaker 4: [\(52:27\)](#)

Have you taken –

President Donald J. Trump: [\(52:27\)](#)

This was today, he forgot to show up.

Joe Biden: [\(52:30\)](#)

No, I haven't taken the test. Why the hell would I take a test? Come on, man. That's like saying, you before he got in this program, you're taking tests where you're taking cocaine or not, what do you think, huh? Are you a ... By the way, that's my little sister, Valerie. And I'm Jill's husband, oh, no, they switched on me. That's my wife, this is my sister. They switched on me. I tell him if you have a problem, figuring out whether you're for me or Trump, then you ain't black. There is not a single solitary reason in the world, why, why, as I said, we shouldn't be in a position that everybody ... and that's my wife, Jill, Hey, Jill, I'm Jill's husband, actually.

Joe Biden: (53:13)

And Corn Pop was a bad dude and he ran a bunch of bad boys. And I did, and back in those you [inaudible 00:53:22] how things have changed. Play the radio, make sure the television ... excuse me, make sure you have the record player on at night. Make sure the kids hear words. We hold these truths to be self evident. All men and women created by ... you know, the thing. If you could take care, if you were a quartermaster, you can sure and help take care of running a department store thing where ... and the second floor of the ladies department or whatever, you know what I mean? Well, I'm sick and tired of smart guys. You know, the rapidly rising in with ... I don't know. Ever been to a caucus? No, you haven't. You're a lying dog face pony soldier.

Speaker 5: (54:15)

Why attack Sanders?

Joe Biden: (54:16)

Why, why, why, why, why, you're getting nervous, man. What kind of country are we going to be? Four more years of George, George, we're going to find ourselves in a position where, if Trump gets elected, we're going to be a, we're going to be in a different world. After lie, after lie, after lie. We have to come together, that's why I'm running. I'm running as a proud Democrat for the Senate. And by the way, I sit on the stand and it get hot, I got hairy legs that turn blonde in the sun. And the kids used to come up and reach in the pool and rub my leg down. So it was straight and then watch the hair come back up again. They'd look at it. So I learned about roaches, I learned about kids jumping on my lap. And I'd love kids jumping on my lap.

Joe Biden: (55:12)

Barack and I think it's a right for people to have [inaudible 00:55:15] care. We have to do at least several things, one, we have to depend on what the president's going to do right now. And first of all, he has to tell, wait till the cases before anything happens. Look, exacerbating the need for environmental justice, sorry, there's a bug. Folks, we got a lot of work to do. I don't really need you to get me elected. The case where we cannot let this ... we've never allowed any crisis from the civil war straight through to the pandemic of '17, all the way around, '16, we have never, never let our democracy sakes second fiddle way. We can both have a democracy, elections, and at the same time, correct the public health.

Joe Biden: (56:01)

Everywhere I've been hearing all around the country. You're trying your breast, but it never feels like enough. And here comes the train and he tried to make sure to continue to walk from. That's the commuter, all right. But folks, look. Anyway, I am very willing to let the American public judge my physical and mental ... my physical as well as my mental fitness. I'll lead an effective strategy to mobilize true international [inaudible 00:18:36].

Speaker 3: (56:36)

(singing).

President Donald J. Trump: (56:37)

Thank you, what a good job.

President Donald J. Trump: (57:00)

...good job.

Audience: (57:01)

USA, USA, USA.

President Donald J. Trump: (57:01)

Thank you.

Audience: (57:01)

USA, USA, USA.

President Donald J. Trump: (57:09)

Thank you very much.

Audience: (57:11)

USA, USA.

President Donald J. Trump: (57:11)

That was just a small little sampling. We have many more. Some were too rough to put on, we just decided... Look. This is not what our country needs. This isn't about... Yeah, it is about me, I guess, when you think about it. But this is not what our country can have. We can't have this. One thing I'll tell you I learned, President Xi of China, President Putin of Russia, Kim Jong-un of North Korea and many others, all of them, they're very sharp. They're very smart. They're very sharp. He wasn't sharp 25 years ago, and now it's not... You can't let this happen to our country. That's all I can say, because it's not a game. We're not playing a game.

President Donald J. Trump: (57:58)

We have a good time tonight. We love each other. We're having fun, but when you get down... It's not about fun. We can't let this happen to our country. Joining us tonight, speaking about somebody that's great, is a senator who is my friend. He's my friend and he is a... He just doesn't stop. He's one of the sharpest, toughest people in Washington, and he is... When he's on somebody, that person has no chance, or that bad group has no chance. He's the Head of Homeland, but he's a respected person, and he's your senator, and we love him. I'm telling you, everybody in Washington talks about him in the greatest of tones. Senator Ron Johnson. Ron, thank you.

President Donald J. Trump: (58:47)

He doesn't stop. You talk about not giving up. He doesn't stop. We have Bryan Steil. Congressman, great job. Great job you're doing. Thank you. Thank you for a great job you're doing. Glenn Grothman. Glenn, thank you very much. Great job. Glenn's doing a great job. Darin LaHood. Darin, good job, Darin. What a good job. You have a wonderful candidate who's going to be running, and you know who that is? Where is he? Where is Jim? Jim? Jim Oberweis. Jim, thank you, Jim. I heard you're doing well. Glenn, how's he doing in the polls? Okay?

Glenn Grothman: (59:33)

He's going to win.

President Donald J. Trump: (59:33)

He said, "He's going to win." When he says, "He's going to win," he's going to win too. Good. Now I heard you're doing very well. Good. Very good. State GOP Chair Andrew Hitt. How are we doing, Andrew, tomorrow? Good? We're okay? Because he's doing a nice job, but if we don't win, he'll be fired immediately. A friend of mine and a guy who's done a terrific job, he loves his state, Kenosha's own Reince Priebus. Where is he? Reince? Stand up, Reince. Where's Reince? What a good guy he is, too. What a good guy. It took me years to learn how to pronounce his name properly, but he's a fantastic person. I'm especially glad to be joined tonight by Don Jr. and Kimberly. Don?

Audience: (01:00:22)

Bring him up, bring him up, bring him up.

President Donald J. Trump: [\(01:00:33\)](#)

Come on up. They're saying, "Bring them up." Come on. Come on up. See, he's a mountain man. He loves to go out to hunting. You don't have a jacket. If you catch a cold... He likes the outdoors, huh? You doing okay? Come on, say something.

Don Jr.: [\(01:00:53\)](#)

Hello, Wisconsin. Or if I was Joe Biden, I'd say, "Florida," but doesn't matter. You don't have to be right. Thank you, guys. Thank you for the support. We've been seeing it on the ground every day for weeks, because unlike the Bidens, we don't have a mainstream media that will campaign for us. We have to do it ourselves on the ground with you guys. We need you to get out and bring your friends to vote tomorrow. When we do, we cannot only keep making America great again, but we can make liberals cry again. Get out there and do it, Wisconsin. Get out there and do it. Thank you guys.

President Donald J. Trump: [\(01:01:40\)](#)

Good job. Thank you. Thanks, Kim. Thank you, sweetheart. Thank you very much. I'll tell you, they're campaigning hard. They're all campaigning hard. They're all campaigning. I see back there Ivanka and Jared. Jared is doing peace in the Middle East. Jared is doing a great job. Peace in the Middle East. Jared, are you going to get it done? You're going to get it done, Jared? I hope so. Come on up. Come on up. Jared and Ivanka, come on. Come on. This is like an old home week for you. I look back, the whole family is here. Tiffany, come on up. I see Tiffany. Come on up, Tiffany. Come on up. Here, honey. Say something.

Tiffany: [\(01:02:39\)](#)

Hello, Wisconsin. You have heard my father talk about some of the things that he's been able to accomplish over the past four years. I am so proud of so many of them. But I will say, the thing that I am most proud of is unlike politicians, he's never forgot why he ran for president, and who he is fighting for. You. Never forgot. It is a beautiful thing to see, and he works so, so hard every single day. Let me just tell you, Washington has not changed Donald Trump. Donald Trump has changed Washington. It's true. It's true. There's more to come. Now we have to fight for him, and we have to fight for this country that we love so much, and get out and vote tomorrow. Thank you, Wisconsin. We love you, and God bless.

President Donald J. Trump: [\(01:03:46\)](#)

Thank you, sweetheart. Jared, would you like to say something about peace in the Middle East to this very small crowd?

Jared: [\(01:03:55\)](#)

Thank you. It's really an honor to be with all of you. I was just saying, "Washington, if the things that the politicians were talking about were easy, they would have been done a long time ago." But it took a leader like President Trump to come in and shake things up a little bit, but we've seen things get done that we never imagined could happen. I can tell you the table is set. There's so many more things to do, and this whole family loves America. We love this country. We love all of you, and we will never stop fighting to get all the things done that President Trump has promised. Thank you for your support. Thank you for your love. Thank you. Thank you.

President Donald J. Trump: [\(01:04:42\)](#)

Great job, Jared. Thank you. Thank you everybody. Thanks, kids. Thanks, everybody. I see some people. Do I see Corey Lewandowski back there? Yes. Do I see David? Is that David? Come on. Get over here, Corey. Corey Lewandowski. David, come on. David Bossie. What a group. Stand up. Just stand up. We don't have to hear from them. The mic doesn't work anyway, so don't worry about it. Great job. Great job. Good luck on television tomorrow. I think you're going to have a blow out tomorrow, okay? But I want to thank...

President Donald J. Trump: [\(01:05:19\)](#)

Look. I have a great family. I have a family. They're working all the time, all of them. We appreciate it. Special people. We didn't need this. We have a wonderful, super... It was just going good. Then I said, "You know, maybe I'll give it a shot." You know why? Because of trade. It started because of trade. I hated... I watched. It was so obvious, the way we were being ripped off on trade. I said, "Let's give it a whirl." I said to my wife, "I'd like to do it. What do you think?" She said, "Well, you have to really want it, because you know you will win, don't you?" I said, "You think so? Really?" She had a little more security in the fact that if I ran... No. She said, "You will win if you... But you have to make sure you want it." I said, "I want to do it because we have so many things we could do."

President Donald J. Trump: [\(01:06:05\)](#)

I never thought we would have done what we've done, though. We've done a lot together. Together, we've done so much. I mean, you think about all... It probably started more... I talked to Ron about it. It probably started with trade, though, because I hated our companies were leaving to Mexico, Canada, China. They were all leaving our country. We had these stupid laws, and horrible tax deals where they had incentives to move to Mexico. They got incentivized to move to Mexico.

President Donald J. Trump: [\(01:06:31\)](#)

Somebody had a concept, "Gee, let's make Mexico great again." I said, "No. I want to make our country great again." That's the story. It's a complicated story, but it all evolved into this evening. Tomorrow we have our big day, and tomorrow I think it's going to be a really special day. I hope you can all go out. You'll find the time, and go out and vote, and we're going to make you very proud. You're going to be made really very proud. I'm just finishing off. For decades, our politicians spent trillions of dollars rebuilding foreign nations, fighting foreign wars, and defending foreign borders. But now we're finally protecting our nation, rebuilding our cities, and we are bringing our jobs, and our factories, and our troops... Finally, finally, finally we're bringing them back home to the U.S.A. where they belong. For 47 years, Joe Biden viciously attacked Black Americans. He called young Black men, "super predators," all the time. To every Black American. I am asking you to go out tomorrow and vote. It's very important. This is your one and only chance to show sleep Joe Biden what you think of his decision to attack you, to jail you, and to betray you. I'm fighting for you, and we got criminal justice reform completed, prison reform completed, Opportunity Zones completed with the great Tim Scott of South Carolina. And funding for historically Black colleges and universities. We got that done.

President Donald J. Trump: [\(01:08:17\)](#)

I say all the time, and sometimes people will say, "That's a big statement." Then they realize it's true. With the exception of Abraham Lincoln, there's never been a president that has done so much for the Black community, and it's my honor. It's my honor. It is my honor, and under my leadership... And by the way, I don't know if you have been watching what's going on in Florida. We're doing really well. You know what they're talking about? The Black community and the Hispanic American community is really... They're liking Trump. What's going on? No, we're doing very well. Florida. Florida is doing very well. In conclusion, over the next four years, we will make America into the manufacturing super power of the world, and we will end our reliance on China once and for all. It's already begun. We will hire more police, increase penalties for assaults on law enforcement, and we will ban deadly sanctuary cities. With God's help, we will defend the right to life, religious liberty, free speech, and the right to keep and bear arms, your second amendment. Which is totally under siege, but as long as Ron Johnson and your great congressman are there, we will protect it. Right, Glenn? Everybody. We will protect it, Ron. That's an easy one for us. But it wouldn't be easy if he got in. We wouldn't have enough to say about it.

President Donald J. Trump: [\(01:09:51\)](#)

We will maintain America's unrivaled military might, and we will ensure peace through strength. We will end surprise medical billing, require price transparency. It starts on January 1st, and it will be bigger than healthcare. Lower drug prices ever more, favored nations. The drug companies do not like me too much, I will tell you. We'll have the lowest drug prices anywhere in the world. We will always protect patients with preexisting conditions.

President Donald J. Trump: [\(01:10:24\)](#)

America will land the first woman on the moon, and the United States will be the first nation to land an astronaut on Mars. We will stop the radical indoctrination of our students, and we will restore patriotic education to our schools. We will teach our children to love our country, honor our history, and always respect our great American flag. We will live by the timeless words of our national motto, "In God we trust."

President Donald J. Trump: [\(01:11:03\)](#)

For years, you had a president who apologized to America. Is this true? I mean, we have had... I watched Obama go out and apologize all over the world. He would apologize all over the world. He apologized for America. Now you have a president who is standing up for America and standing up for the great, great people of Wisconsin. Tomorrow you have the power, you have the vote. You have the power really, to save America. We can't go down that path.

President Donald J. Trump: [\(01:11:37\)](#)

We will never be a socialist country. We never be. Get your friends, get your family, get your neighbors, get your coworkers, grab your boss by the tie and say, "Come on, boss. We got to get out and vote, get out and vote." From Madison to Milwaukee, from Janesville to La Crosse, and from... Your team is doing well, right? Your team is doing well. Green Bay. Green Bay. Do you like your quarterback? I do. I like your quarterback. You know who I like? We like Brett Favre. Do you like Brett Favre? Do you know that Brett Favre endorsed me last week? We love Brett Favre. What a great guy. I got to know him. He's a tough cookie. He's a tough guy. Great guy. Green Bay to right here in Kenosha, we inherit the legacy of American patriots who gave their blood, sweat and tears to defend our country, and to defend our freedom. We stand on the shoulders of American heroes who crossed the oceans, settled a continent, tamed the wilderness, laid down the railroads, raised up the great skyscrapers, won two world wars, defeated fascism and communism, and made America into the single greatest nation in the history of the world, and the best is yet to come.

President Donald J. Trump: [\(01:13:11\)](#)

Proud citizens like you help build this country, and together we are taking back our country. We are returning power to you, the American people. With your help, your devotion and your drive, we are going to keep on working, we are going to keep on fighting, and we are going to keep on winning, winning, winning. Winning, you. We are one movement, one people, one family, and one glorious nation under God. Together with the incredible people of Wisconsin, we have made America powerful again. We have made America wealthy again. Your 401Ks are doing very well.

President Donald J. Trump: [\(01:13:58\)](#)

We have made America strong again. We have made America proud again. We're proud again. We're respected. We're respected again. We have made America safe again. We will make America great again. Thank you, Wisconsin. Thank you, Wisconsin. Go out and vote. Thank you. It's a great honor.

Mike Pence: [\(00:00\)](#)

That's what I'm talking about. Thank you for that wonderful, warm welcome. He's going to be here in about 40 minutes. But would you all join me in just thanking a few people. First and foremost, she's a Marine Corps mom, she's been a champion for military families, she's a school teacher at a little Christian schools, she's been my wife for 35 years. Would you join me in thanking the greatest second lady of the United States that we've ever had? My wife, Karen Pence. Thank you. But Karen and I are here for one reason and one reason only, and that is that Michigan and America need four more years of President Donald Trump in the White House.

Mike Pence: [\(01:06\)](#)

It's on Michigan. And the road to victory goes right through the Great Lakes state. We need the people of this freedom loving state to do just what you did in 2016. By tomorrow night, we need Michigan to show America that this is Trump country. But it really is great to be with y'all. It really is great. Also it's great to be here with some good friends of mine under the President. In fact, one of whom is the highest ranking combat veteran ever to serve in the Congress of the United States. Now, he's one of the strongest voices for our national defense. Join me in thanking Congressman Jack Bergman, will you? Thank you, Jack. It's also great to be here with a man who has served the people of Michigan in the State House. And I've served alongside him, and I can tell you, he is one of the strongest allies of our President and our agenda in the United States Congress, Congressman John Moolenaar.

Mike Pence: [\(02:19\)](#)

And let me say what a privilege it is to be here with a man that I got to know over the last couple of years. He's a man of integrity, he's a family man, a West Point graduate, a combat veteran, a businessman, and the next senator from the great state of Michigan, John James. Well, thank you all for being here. I know you're out today to hear and see our President, show your support, but I also know you're here, because of all that we accomplished together over the last four years. I mean, think about it, four years ago, we inherited a military that was hollowed out by devastating budget cuts, an economy struggling to break out of the slowest recovery since the Great Depression. Terrorism was on the rise and we witnessed a steady assault on our values.

Mike Pence: [\(03:16\)](#)

But in three short years, we rebuilt our military, we revived our economy, we secured our border supported law enforcement and stood for life, liberty, and the Constitution of the United States. After Joe Biden spent the previous eight years trying to tax, and spend, and bail our way back to a growing economy, President Donald Trump created the greatest economy in American history. And we're doing it again, Michigan! I mean, how about those new GDP numbers last week? Did you check that out? 33% growth in the third quarter. Shattered any previous record. The great American comeback is on. And with four more years of President Donald Trump in the White House, we're going to bring this economy back bigger and better than ever before!

Mike Pence: [\(04:28\)](#)

The President said it was the biggest quarter in the history of our country, not even close. And he and I both know this American comeback is a testament to all of you, to the resilience, and the strength, and the character of the American people. But it's also a tribute to a president and our allies in Congress who created the greatest economy the world has ever seen. That's why it's remarkable to think, in the midst of a global pandemic, Joe Biden wants to raise taxes by four trillion dollars. His running mate, Kamala Harris said on Friday that their "first order of business would be to get rid of President Trump's tax cuts." They got a two trillion dollar Green New Deal. They want to put socialized medicine in the heart of Obamacare, risk the health insurance of 180 million Americans.

Mike Pence: [\(05:29\)](#)

But under President Donald Trump, in three short years, we cut taxes across the board for working families and businesses. We rolled back more federal red tape than any administration in history. We fought for free and fair trade, unleashed American energy, and businesses large and small created seven million good paying jobs, including 112,000 jobs right here in Michigan. It's true. When Joe Biden was vice president, America actually lost 200,000 manufacturing jobs. It's amazing. I come from south of here in Indiana, and just like Michigan, we do two things well around here. We make things and we grow things. We're proud of it. But the last president, who I heard is out campaigning today, four years ago, he said those jobs were never coming back. He actually said, "What magic wand do you have?" Well, we didn't need a magic wand.

Mike Pence: [\(06:39\)](#)

We just needed President Donald Trump in the White House. 500,000 manufacturing jobs created in just three years. And when it comes to trade, so important to what we make and what we grow. And Joe Biden's been a cheerleader for communist China all along the way. And he never lifted a finger to reform a trade deal with Mexico and Canada, that literally costs thousands of factories to close across this country. But under President Trump, we put China on notice. We imposed tariffs and made it clear the era of economic surrender is over and NAFTA is gone, and the USMCA is here to stay. Now, Joe Biden's running mate, I actually I had a debate with her in Salt Lake City a couple of weeks ago. Some people think we did all right. So, thank you. But I brought this up in the debate, because you deserve to know Kamala Harris was one of only 10 senators to vote against the USMCA.

Mike Pence: [\(08:03\)](#)

She said it didn't go far enough on climate change. I Kamala Harris put her radical environmental agenda ahead of Michigan jobs and Michigan workers. And I'll make you a promise in four more years, President Trump will always put American jobs and American workers first. And I'll tell you, it's just as clear on energy. I mean, Joe Biden and Kamala Harris want to crush the American economy under a two trillion dollar version of the Green New Deal. Remember first debate, the President had to remind Joe Biden that he supported the Green New Deal. He does. I mean the Green New Deal, I'm telling you, it would actually raise cost of electricity in your home and raise the cost of electricity in every business in Michigan. President Trump, he's been a champion for American energy.

Mike Pence: [\(09:07\)](#)

We ended the war on coal. We've opened up our natural resources and we're now a net exporter of energy for the first time in 70 years. It's true. But worse still, Joe Biden and Kamala Harris over the last year said over and over again that they want to abolish fossil fuels and ban fracking. I mean, that would cost hundreds of thousands of direct jobs across the heartland. They said it over and over again. And then Joe Biden shows up in Pittsburgh, I wasn't far from there today, a couple of weeks back. And he's trying to convince people in Pennsylvania that he's not for banning fracking. He actually said our President was lying about his record, remember? Even in that presidential debate and... How good did President Trump do in that presidential debate, am I right? Out of the park. Still going, right? Well, in that presidential debate, you saw the moment, where Joe Biden said that we needed to "transition from the oil industry."

Mike Pence: [\(10:22\)](#)

President Trump said, "That's a big statement." And then when the President called him on it, he said, "Show the tape." So, we've been showing the tape. And I bet when the President gets here, he's going to show you the tape again. Men and women of Michigan, no matter what Joe Biden and Kamala Harris are saying right now, you can take it to the bank. Joe Biden and the democratic party are going to try and abolish fossil fuels, close down the oil industry, ban fracking, but we're not going to let it happen. We're going to have more fracking, more American energy, more energy independence for this generation and for generations to come when we reelect President Donald Trump for four more years!

Mike Pence: [\(11:24\)](#)

I mean, honestly, here's the choice America faces. It's a choice between a Trump boom and a Biden depression. I mean, a study just came out, non-partisan study that said Joe Biden's economic policies would cost five million American jobs. And it would reduce the average income of American families by \$6,500 a year. So, when you go home tonight, if you run into anybody tonight or any time on election day who hasn't made a decision yet in Michigan, here's what you got to ask them. Seriously. Just look at them and say, "Who do you really think can bring this economy all the way back? I mean, a career politician who's spent 47 years raising taxes, stifling the economy with regulation and economic surrender, or a proven job creator who's overseeing the fastest economic recovery in history to bring America all the way back?" We need four more years of President Donald Trump in the White House.

Mike Pence: [\(12:42\)](#)

So, it's about our economy, but we all know that security is the foundation of our prosperity, and I couldn't be more proud to serve alongside a President who cares so deeply about the men and women of our armed forces and their families. You might not know we got some service members in our immediate family. My son's a United States Marine. And my unworthy son-in-law is a United States Navy pilot currently deployed with the United States Navy. They couldn't be with us tonight, but I couldn't be more proud that that Navy spouse, my wonderful daughter, Charlotte Pence Bond is traveling with her mom and dad today. Would you say hi to her? So, proud of them.

Mike Pence: [\(13:37\)](#)

But you deserve to know when Joe Biden was vice president, we went through years of reckless budget cuts, didn't we, John? I mean, they hollowed out our military readiness. And over the last few days I read where Democrats in Washington are already saying that they're planning, they're planning massive cuts to our national defense to pay for their big government program. President Trump, we rebuild our military. This president signed the largest investment in our national defense since the days of Ronald Reagan. And with four more years, we're going to keep giving our soldiers, sailors, airmen, Marines, and coast guard the resources and the support they need to defend our nation. And it's not just been about those who serve in uniform, it's been about those of you who did serve. When Joe Biden was vice president, we remember the scandals at the VA that shocked the conscience of the nation, don't we?

Mike Pence: [\(14:36\)](#)

I mean, we had veterans that were literally dying, waiting for care at the VA on waiting lists. But when President Trump came into the oval office, those days are over. Our president signed the most sweeping reforms of the VA in 50 years. We fired 3,000 VA employees who weren't giving our veterans the care they deserve. The VA now has a 91% approval rating. And Veterans Choice is now available for every veteran in America. And for our national defense to support our veterans for peace through strength, it's just one more reason why we need a combat veteran in the United States Senate. We need John James in the Senate from the great state of Michigan. And when it comes to law and order, President Donald Trump has stood with the men and women who serve on the thin blue line of law enforcement every single day. I mean, you all know what the President and I know, the men and women who put on the uniform of law enforcement in this country are some of the best people in America and they deserve the respect of every American every day.

Mike Pence: [\(16:09\)](#)

After the summer of violence that we've seen, after the rioting and looting that we saw in Philadelphia this week, the truth is Joe Biden would double down on the policies that are leading to violence in our cities. Now, Joe Biden says that America is, in his words, systemically racist. He says that law enforcement has an implicit bias against minorities. When Joe Biden was asked whether he'd cut funding for law enforcement, he replied, "Yes, absolutely." And his running mate, Kamala Harris recently praised the LA mayor for cutting \$150 million out of the LAPD's budget. Under President Donald Trump, I'll make you a promise. We're not going to defund the police, not now, not ever. We're going to back the blue and we're going to back the blue for four more years.

Mike Pence: [\(17:21\)](#)

The President and I know we don't have to choose between supporting law enforcement and supporting our African-American neighbors, and families, and other minorities in our cities. We've done both for the last three-and-a-half years, and we're going to keep doing both. We're going to support law enforcement with more resources and more training. And we're going to keep creating jobs, and opportunity, and educational choice options for African-Americans and all the families that live in our major cities. And we're going to have law and order for every American of every race, and creed, and color so help us, God. And all along the way under this President's leadership, we've stood for all the liberties and freedoms enshrined in our founding documents, like the freedom of religion, the freedom of speech. And President Donald Trump has stood strong for the Second Amendment right to keep and bear arms. We've appointed more than 220 conservative judges to our federal courts at every level. And I promise you, they're all conservatives who will uphold the God-given liberties enshrined in our Constitution, like Justice Neil Gorsuch, Justice Brett Kavanaugh, and just like Justice Amy Coney Barrett.

Mike Pence: [\(18:54\)](#)

Isn't she great? Isn't she great? How much did you like that when they asked her what she had on that piece of paper in front of her? Nothing. She's going to be an amazing juror for generations to come, and she's going to make America proud. But y'all deserve to know when Joe Biden was vice-president, we saw a steady assault on our religious freedom. We did. They used the power of the bureaucratic state to erode the conscience rights of doctors and nurses. They even hauled a group of Catholic nuns into federal court to force them to compromise their faith to live under the mandates of Obamacare. It's true. When Judge Amy Coney Barrett was up for a different court two years ago, that same religious intolerance among the Democrats in Washington came out. The leading Democrat on the judiciary committee said she was concerned about Judge Barrett's Catholic faith, because she said, and I quote, "the dogma lives loudly within you." And Hollywood elites started attacking Judge Barrett and they've never stopped. Well, I got a message for the Democrats in Washington and their friends in Hollywood... False alarm.

Mike Pence: [\(20:32\)](#)

I got a message for the Democrats in Washington and their friends in Hollywood, that dogma lives loudly in me, that dogma lives loudly in you, and the right to live, and work, and worship according to the dictates of our faith lives loudly in the Constitution of the United States of America! And under President Donald Trump, we've stood for that first freedom, religious freedom strong. We restored the conscience rights of doctors and nurses. And it was President Donald Trump who ended the assault on the Little Sisters of the Poor and the Supreme Court made it permanent. And finally, where Joe Biden and Kamala Harris support taxpayer funding of abortion all the way up to the moment of birth. I couldn't be more proud to be vice president to a president who stands without apology for the sanctity of human life. So, in our first three years, we rebuilt our military, we revived our economy.

Mike Pence: [\(21:47\)](#)

We stood for law and order, liberties, and life. None of that would have been possible without the strong support of Michigan's Republicans in Congress. So, right after you reelect President Donald Trump, right after you send John James to the United States Senate, we all need Michigan to send Congressman Jack Bergman and Congressman John Moolenaar to a new Republican majority and retire Nancy Pelosi once and for all. Out. I'm telling you. Out. When you look at

what we were able to accomplish all of us with the support of the people of Michigan, that historic election four years ago, I think there's only one way you can describe it. In three short years, we made America great again. And then 2020 arrived as President Trump led our nation through the worst global pandemic in the century. And all along the way, President Donald Trump put the health of America first. It's true.

Mike Pence: [\(23:24\)](#)

Before the first documented case of community spread, President Trump did what no American president had ever done in history. He closed off all travel from China, the second largest economy in the world. Now, Joe Biden at the time said that was xenophobic, which is I guess a fancy word for racist. He said closing off travel during a global pandemic would actually "make things worse." But Joe Biden got it wrong and President Donald Trump got it right. I can tell you, as the head of the White House Coronavirus Task Force these last eight months, President Trump's action shutting off travel to China saved untold American lives, because it bought us invaluable time to stand up the greatest national mobilization since World War II. It's true.

Mike Pence: [\(24:24\)](#)

We reinvented testing. We saw to the manufacturing production, including here in Michigan, billions of supplies of medical equipment and PPE. We developed therapeutics that are saving lives. And we are literally a short time away from having the first safe Coronavirus vaccine and tens of millions of doses for the American people. And I promise you, people in Michigan can be confident. We're going to keep making sure those supplies are available to our great doctors and nurses. We're going to keep protecting the vulnerable. We're going to keep saving lives and distribute a vaccine. And we are opening up America again. It's amazing to think in the last five months on that foundation we poured and with the unprecedented relief for families and businesses the President secured from Congress, after losing 22 million jobs at the height of this pandemic, we've already seen 11-and-a-half million people go back to work, including 600,000 people right here in Michigan! We're opening up America and Michigan is roaring back.

Mike Pence: [\(25:41\)](#)

But you all deserve to know, Joe Biden is talking about shutting down our economy again. It's true. If you saw the newspapers the last couple of days, several European countries are already talking about shutting down. So, you can bet that Joe Biden will lockdown the American economy if he makes it to the White House. All the schools will be closed, all your churches, synagogues, places of worship. Businesses will all be shuttered again. Right at the moment that the American economy is getting back on its feet, Joe Biden said this summer he would shut it down. Well, Joe Biden says we're in for a long dark winter, but under President Donald Trump, we're going to defeat the virus and the best is yet to come. The choice in this election has never been clearer. The stakes have never been higher. When you look at their agenda: higher taxes, open borders, socialized medicine, Green New Deal, defunding the police, abortion on demand. It's clear.

Mike Pence: [\(26:54\)](#)

And Joe Biden would be nothing more than a Trojan horse for the radical left. I don't know if you've seen it in the news, but Bernie Sanders and Elizabeth Warren are already angling for cabinet posts. Joe Biden said that democracy is on the ballot tomorrow. Well, I think our economic recovery is on the ballot. I think law and order are on the ballot. But I also think there are things far more foundational to our country that are on the ballot as well. Men and women in Michigan, in this election, I think it's not going to be so much whether America ends up more Republican or more Democrat, more liberal or more conservative, more red or more blue. The choice in this election is whether America remains America.

Mike Pence: [\(27:54\)](#)

Whether we're going to chart a future with President Donald Trump, build on our American heritage of faith, and family, and patriotism, and freedom, or whether we're going to let Joe Biden and the democratic parties surrender our country to the radical left, shut down our economy, topple our heritage, and our values, and our freedom in an avalanche of socialism in decline. So, let me say from my heart to all of my friends here in Michigan, for all the ideals and values that have always made this country unique and exceptional, for our very freedom bequeathed to us by generations of Americans, we need to decide right here and right now that Joe Biden will never be president of the United States. We're going to reelect President Donald Trump for four more years. Ladies and gentlemen, I've gotten to know this president over the last four years. Some people think we're a little bit different, but actually we've gotten to be very close friends.

Mike Pence: [\(29:23\)](#)

We spend time together every day or we speak every day, and I can tell you, President Donald Trump is the real deal. He's a man who says what he means and means what he says. He never quits, he never backs down, and he has never stopped fighting to keep the promises that he made to the American people. Now, it's our turn to fight for him. It's our turn to fight for four more years of President Donald Trump in the White House! Four more years means more jobs. Four more years means more judges. Four more years means more support for our troops. And it's going to take at least four more years to drain that swamp.

Mike Pence: [\(30:21\)](#)

So, before he gets here, I got a couple of things to ask you to do. Number one, before the polls close tomorrow, we need you to vote Michigan, vote to reelect President Donald Trump for four more years! The time for speeches is almost over, the time for voting is coming up. Tomorrow morning, I'm told the polls open 7:00 AM open till 8:00 PM here in Michigan. And remember friends don't let friends vote alone. Bring a family member, bring a neighbor, bring a co-worker, and vote to reelect President Donald Trump to the White House. And secondly, after you vote with a friend, I need you to go find somebody to talk to about this election. I mean, Michigan always plays an outsized role in presidential politics, and that'll be especially true this year. And the choice that Michigan makes is literally going to be a choice that sets our nation on one path or another for generations to come.

Mike Pence: [\(31:38\)](#)

So, you just need to tell them about the stakes in this election. Tell them about the progress we made, the way this president has led us through this challenging year, the way we rebuilt our military and revived our economy, the way America is coming back, and tell them about the choice, and tell them why. The President and I were on a news show a week ago Sunday, 60 Minutes. Oh, yeah. Yeah. Right. But there was a great moment. So, the President got asked a question. His answer, I'll just never forget. The reporter looks at him and she says, thinking about all of you, she said, "So, how would you describe your supporters?" And without hesitation, the President answered the question. She said, "How would you describe your supporters?" And he said, "They are people who love our country." So, go find a neighbor, tell them you love America, and tell them we need four more years of President Donald Trump in the White House!

Speaker 1: [\(33:00\)](#)

USA. USA. USA. USA. USA. USA.

Mike Pence: [\(33:00\)](#)

And then finally, I just encourage you in all that remains in between now and when the polls close just to have faith. Have faith in America when you speak to your neighbors and friends. I think you study American history. Every time the American people are given a clear choice between a future of more freedom and less freedom, they choose freedom every time. Have faith in the boundless capacity of the American people to overcome any challenge. And finally, have faith that he who planted this miracle of democracy on these wilderness shores will see us through these challenging times to bring us through stronger and better than ever before. There's a verse that's been over the mantle of our home for 20 years since we first stepped forward to serve in public life. And they're ancient words that Americans have long clung to and our little family does. They simply say for I know the plans I have for you, plans to prosper you, not to harm you, plans to give you a hope and a future. Have faith and pray for America.

Mike Pence: [\(34:27\)](#)

And I just know if all of us do all we need to do between now and when the polls close at eight o'clock here in Michigan tomorrow with your continued support and your prayers, we're going to have a great victory all across Michigan and all across America. And with Congressmen Jack Bergman and Congressman John Moolenaar in that new Republican majority in the House, with John James in a larger Republican majority in the United States Senate, with President Donald Trump back in the White House for four more years, and with God's help, we're going to make Michigan and America more prosperous than ever before. We're

going to make Michigan and America safer than ever before. We're going to make Michigan and America more united than ever before. And with your support together, we will make America great again again. Thank you all very much. God bless you. God bless America. Now let's go get it done, Michigan. (singing).

Speaker 2: ([51:32](#))

Ladies and gentlemen, please welcome the 45th President of the United States of America, President Donald J. Trump. (singing).

President Trump: ([52:01](#))

Oh thank you. Oh wow. This is a big crowd. We have a lot of big crowds, but this is a big crowd. This is great. Thank you very much. Hello, Traverse City and hello Michigan. We want the same result as we had four years ago from Michigan, right. And we fulfilled all our promises. You have auto plants. So many, you didn't have one in 42 years, and now you have 17 and going up and they're going so fast. I don't know. Nobody's complaining. I can tell you that, but we want that same result. We're going to get out and vote because tomorrow we are going to win this state and we are going to win more years in the White House.

President Trump: ([54:57](#))

And I want to thank you to our great Vice President Mike Pence. He works so hard. I will take him over Kamala every day of the week. We will take Mike. He's great. He's great. He's done a great job. He works very hard and he had a good debate. Didn't he have a good debate against Kamala from a different world? With your vote, we will continue to cut your taxes, cut regulations, support our police, support our great military, protect our 2nd Amendment, defend religious liberty, and ensure more products are proudly stamped with that beautiful term made in the USA, right. Made in the USA.

President Trump: ([55:45](#))

Next year will be the greatest economic year in the history of our country. You had a great year last year, the year before, the year before, three great years, the best you've ever had, and you're going to have the best year you ever had next year. We're all set. You saw what happened. Under my leadership, our economy is now growing at the fastest rate ever, ever, ever recorded, 33.1%. You saw that on Friday. We created a record 11.4 million jobs in the last five months. That's a record, while foreign nations are in a free fall, sadly in a free fall. And you look at what's happening with Europe and other places. Very sad. We are creating an economic powerhouse unrivaled anywhere in the world. You look at our numbers, look at the auto numbers. Look at what's happening with that business and so many other businesses in this country, but that business because we happen to be in a place that likes automobiles, right.

President Trump: ([56:47](#))

A recent Gallup Poll just came out, found that 56% of Americans say they are better off today than they were four years ago under Obama and Biden. And that's during a pandemic and we're rounding the corner. We're rounding the corner and you got to open your states. You got to open your state, open it, open it, open it up Governor. Open it up Governor. Open it up Governor. Got to open it up. If Biden and Harris and the radical left gain power, they will collapse our economy and send our nation into a very steep depression. They want to raise taxes at a level that nobody's ever heard of before. Biden will raise your taxes over \$4 trillion. It's not him. Do you think it's him? He doesn't have a clue. He has no clue, but that's okay. Let's assume he does. We have to win. So that's sad. Can't do that to our country. Our country has too much unbelievable potential actually. Massively increasing your regulations, shutting down your economy. They're going to close down your factory, send your jobs overseas to China and other places.

President Trump: ([58:10](#))

I don't think so. Destroy the suburbs. Are you happy in the suburbs that I ended the regulation that was going to destroy the suburbs, that has been destroyed the suburbs? The women of the suburbs, they love me I think, but the fake news says they don't, but I think they do. They love their home. They love their house. They don't want a development put next to the house. They want their house the way it is. They want to have their beautiful house and they want to have security and they want to have safety. I think they like Trump. I really do. That happened the last time. That happened four years ago. Remember they said, "Women will not vote for Donald Trump at that time. Women will not." And then at the end of the evening where they were all crying, they say, "Women, what happened?" The women came out, right. The women like us. That's nice.

President Trump: ([59:19](#))

Well, I like the women. I will tell you, I think the women are great. You notice we don't even talk about the men with suburbia. We let you guys be alone. They want to dissolve your borders, maybe rip down the wall. They were talking about that. Let's take down the wall. We have our strongest border right now and the wall is almost complete. Mexico is paying for the wall by the way, but it's almost complete. Terminate religious liberty, outlaw private care, 180 million people they want to take it away, go to socialized medicine. I don't think so. You've worked hard for that. You have some of the greatest healthcare in the world. You've worked hard for it. They want to take it away. 180 million private plans, take it away. Now, if you feel a little bad or if you want to check up, you go to a hospital, you wait in line for about six weeks, and you get yourself checked out. They say you have a problem. They can't do anything about it. That's called socialized medicine.

President Trump: ([01:00:18](#))

Confiscate your guns, 2nd Amendment, and indoctrinate your children with anti-American lies. And just a little while ago on the beautiful Air Force One. How does it look? Let me see. Oh, you don't see it. By the way, how about the sky? Oh, so beautiful. Let's just look at the sky for a little while. I wish we had time, right. I wish we had time. So I've made five today. Five of these, all with love, all with big crowds, all with love. It's incredible. Somebody said I actually do six today because we finished up last night in Miami at 1:30 in the morning so.

Speaker 1: ([01:01:11](#))

We love you.

President Trump: ([01:01:11](#))

Thank you.

Speaker 1: ([01:01:11](#))

We love you.

President Trump: ([01:01:11](#))

Oh, thank you very much.

Speaker 1: ([01:01:11](#))

We love you. We love you.

President Trump: ([01:01:13](#))

Thank you.

Speaker 1: ([01:01:13](#))

We love you. We love you. We love you.

President Trump: ([01:01:13](#))

That's very nice, thank you.

Speaker 1: ([01:01:13](#))

We love you.

President Trump: ([01:01:23](#))

Don't make me cry. Don't make me cry. If I started to cry, they'd have a big story. They'd say, "The president broke down and cried." And I don't know if

that's good for us. Probably could, maybe it brings me up four or five points, I promise. I don't care, but that's really nice. It's never been said before. They say there's never been. We've liked Ronald Reagan we've liked a lot, but they say that's the love. We love you. Think of it. When you think about it, right. It's an incredible thing. We've worked hard. We've gotten you everything we said. We've done the things we said. We've done the things we said. We get you the biggest tax cut in history. The biggest regulation cut in history.

President Trump: [\(01-02-08\)](#)

We've rebuilt our military. Our vets just gave us a 91% approval rating on what we've done for them. We've got your Space Force and you'll be making a lot of this stuff right here in Michigan. Space Force, that is the first time in 74 years since Air Force. Think of that, right. A whole new force. I just signed an executive order on Air Force One to teach our students pro American values. It's a good thing with all the things that I've been watching that have been taking place over a pretty long period of time. Pretty long period of time, even before Obama and Sleepy Joe. Biden has vowed to abolish the American oil and natural gas industries and to ban fracking.

President Trump: [\(01-02-59\)](#)

Look, he said it. He said it. He campaigned for over a year. We will ban fracking. We will ban fracking. We will ban fracking. Then he goes to Pennsylvania and they say well, his people told him. He didn't have any idea what they meant, but it was okay. He listened. So they said, "Listen, you have to be in favor of fracking now." They said, "Okay, no problem. Why? I only said it about 200 times during debates, right." So now he goes into Pennsylvania where we just left. Great people by the way. You talk about that was an unbelievably enthusiastic group of people. We're going to win Pennsylvania. We're going to win. We're going to win Michigan too. We're going to win Pennsylvania. We won Pennsylvania last time too. We won this one. We won. This one hadn't been won for many, many years and Pennsylvania, the same thing. It wouldn't, but then Trump came along. We won them both. We beat Crooked Hillary, Crooked Hillary. Now we have a guy that makes Hillary look like a baby. No, we've had a good time. And until the China plague came along, everything was good. We closed it down. We saved 2 million lives. Now we're opening it up. We have the greatest economy we've ever had. See the hat, all the make America great again. Now we're having it make America great again. And our country was coming together. The other side was calling. Everybody was successful. Best numbers for unemployment, African American, Hispanic American. And by the way, do you see what's going on in Florida? African-American, the numbers are phenomenal. Hispanic American, the numbers are beyond belief. They got problems. You notice they haven't been talking too much about Florida for the last six or seven hours. They're not liking what they see. Wow. That is a lot of people. Look, you can't even see. Why don't you take the cameras down there? You can't even see the end. I hope you can hear us down there. It's like two football fields away. I hope you can hear us. That's great. Well, that's really good, but no, Florida is looking great.

President Trump: [\(01-05-20\)](#)

You're looking great. Came out two or three up. I don't know why two or three up. Am I supposed to be happy with three up over this guy? I tell you, but you know what? Let's just put the win in the column. We won't even talk about it, but you're looking great. North Carolina, great. Iowa came out. The big poll came yesterday you saw. And we were a lot up, big, big up. Well, the farmers like me. I got for the farmers \$28 million. I got 28 million from China. Thank you very much China, thank you, because they targeted the farmers. They targeted the farmers. And I said to I said to Sonny Perdue, Secretary of Agriculture, "Sonny, how much?" He said, "Well..."

President Trump: [\(01-06-03\)](#)

Sonny Perdue, Secretary of Agriculture. Sonny, how much? He said, "Well, two years ago was 12 and last year was \$16 billion, \$16 billion, \$12 billion, a total of \$28 billion." And I tariffed China. We took the \$28 billion. We had a lot of money left over into the Treasury and we gave it to the farmers and the farmers are not complaining. I'll tell you. They're in business. They would have been out of business.

President Trump: [\(01-06-24\)](#)

Biden's energy ban will send every state into crushing poverty. And you know this. You know what they're doing. From Michigan, to Wisconsin, to Arizona, where we're leading very nicely. Thank you. And to Pennsylvania. As long as I'm President, we will remain the number one producer of oil and natural gas on Earth. And we will remain energy independent. We're energy independent for the first time. First time. That means we don't have to call people up in far away places and say, "We need some oil, please. We'll send our armies over there to protect you and help you." But we do have great allies over there. We'll help them. We've certainly helped Israel. But we have a lot of good people over there. We'll help them. But we don't need their oil. It's nice not to. We have more oil than they do now. You know, we have actually more oil than they do. We're the largest in the world. Isn't that a nice feeling?

President Trump: [\(01-07-23\)](#)

Sleepy Joe, and that would not have happened except for what we've done over the last three and a half years. There's never been an administration, or President, there's never been an administration that has done in the first three and a half years what we've done, never and not even close. With all the things we've done. And the fake news never even questions it. I've been saying it for a long time. They don't even question it because they can't.

President Trump: [\(01-07-50\)](#)

Joe Biden is a globalist who spent 47 years outsourcing your jobs, opening your borders, and sacrificing American blood and treasure in endless ridiculous foreign wars, countries you've never even heard of. A vote for Biden is a vote to extinguish and eradicate your state's auto industry. You don't like that. Do you? I don't think so. You know, he was going to do the TPP. He was going to do different things that would have been so bad for you. I ended it. I ended it all. He was a cheerleader for NAFTA which was the worst trade deal ever made probably by any country that sent all your auto jobs. You know, they have 32% of our auto jobs, right? And it's probably the number one reason I ran for President.

President Trump: [\(01-08-39\)](#)

And in fact, I was in Michigan. I don't know if anybody remembers this, 12 years ago. They gave me the Man of the Year. You remember? I made a speech and I said, "Why are you letting, you know, it's not my business," but I said, "Why you letting them steal your auto jobs? They're all going down to Mexico." And by the way, plenty go to Canada, too right? People don't know that. And it was a terrible thing that took place, but we've stopped that. And now the USMCA makes it very, very financially difficult for them to do that. It was very important to me. And everybody said, "We'll never be able to do it. We'll never be able to end NAFTA."

President Trump: [\(01-09-15\)](#)

And you know why? Because it was so good for Canada and so good for Mexico. And they have a lot of power, but we ended it. And they're not that happy, but they're happy enough. And we have a great deal and I'll tell you, Mexico, we've had a great relationship with Mexico. Canada is a little difficult to deal with, to be honest with you. You know, Oh Canada, we all love Oh Canada, right? I love that. They stand for their national anthem and we have to stand too, because you know, you saw the ratings from the NBA down 71% for their championship. You know why? Because people don't want to hear it. They don't want to hear it. They want to see a basketball game, obviously, not too much. But I didn't watch it and a lot of people didn't watch it. And the NFL has to be very careful. They tried that game two years ago and I thought we taught them a lesson, and they have to be very careful. We have to respect our flag, we have to respect our anthem, and we have to respect our country.

Audience: [\(01-10-15\)](#)

USA! USA! USA! USA!

President Trump: [\(01-10-30\)](#)

Sleepy Joe supported China's entry into the WTO. Michigan lost half of all auto manufacturing jobs. After those Biden betrayals, they also supported the Trans-Pacific partnership, which would have been the death sentence for the U.S. auto industry. I canceled TPP. I ended the NAFTA disaster. And I took the toughest action ever taken against China. We never took in 25 cents on China. I've taken in billions and billions of dollars over the last three years.

President Trump: [\(01-11-07\)](#)

Joe Biden is a corrupt politician. They don't want to write about it. They don't want to write about it. They're not allowed to write about it. Their bosses,

whoever their bosses may be, they're not allowed to write about it. Who sold out Michigan to China, he sold you out. That's one of the reasons when they send over a car, they charge us 35% tax. We charge them nothing. But those days are changed. We changed it. We changed it. And it's going to change a lot more if you give us another four years. That I can tell you. We were just beginning. We were just beginning.

President Trump: [\(01:11:45\)](#)

And not only with China, with everyone else that takes advantage of our country.

Audience: [\(01:11:49\)](#)

Four more years! Four more years! Four more years! Four more years!

President Trump: [\(01:12:02\)](#)

Thank you very much. No, but with everybody else it takes it. It's not only China. It's everybody. We renegotiated the South Korea deal. You know. Crooked Hillary made that deal. It was going to give 250,000 jobs. She was talking, "This will produce 250,000 jobs." They signed it and she ended up being correct. But the 250,000 jobs all went to South Korea, not to us. That was standard. That was standard. Biden is the living embodiment of the decrepit and depraved political class. They got rich bleeding America dry. And you know what happened? Look, there haven't been too many states that have been affected like you've been affected. You got seriously affected.

Audience: [\(01:12:48\)](#)

Drain the swamp! Drain the swamp! Drain the swamp! Drain the swamp!

President Trump: [\(01:12:58\)](#)

That's what we're doing. We're doing it. We're doing it. But when I ran, you never told me it was going to be that deep, that vicious, that rough. It's a deep sucker. I thought we'd knock it out fast. We went through three and a half years of hell and here we are, and they're not too happy. And they're reeling. They're reeling. They're going to be knocked off very soon. They're going to be all knocked off very soon.

President Trump: [\(01:13:28\)](#)

No, we've done a good job, but it wasn't easy. You get impeached over a telephone call that was perfect. Perfect call. A perfect call. Congratulations on your victory. Ukraine President, Ukraine, nice man. Never met him before. Congratulations. "Sir, could you call up and congratulate the President of Ukraine?" "Sure. What happened?" "Oh, he just won." "Okay, good." So I gave him a call. I avoided it for a long time because it was a lot, you know, busy. Call up and they say, "Let's impeach him." I'll tell you. And we had great support from the Republican party. I have to say that, 197 to nothing and that. 52 and a half to one half. You know who the half was? That's right. That we had 52 and a half to one half. Mitt Romney. He still doesn't know why. He says, "Let's see, what did I do?" He wished he didn't do it. I'll tell you that.

President Trump: [\(01:14:26\)](#)

In 2016, Michigan voted to fire this corrupt political establishment and you elected an outsider as President to finally put America first. And if I don't sound like a typical Washington politician, it's because I'm not a politician, probably wouldn't be here if I was. And if I don't always play by the rules of Washington and the Washington establishment, it's because I was elected to fight for you. And I fight harder and harder and better than anyone's ever fought for you. We were brought here. We were put here to fight for you. I had a very easy life before this. I have to tell you.

Audience: [\(01:15:14\)](#)

Thank you, Trump! Thank you, Trump! Thank you, Trump! Thank you, Trump!

President Trump: [\(01:15:25\)](#)

Thank you. Thank you. Thank you. Thank you very much. I had a very easy life. I had a different kind of a life and you know what? I wouldn't have changed that decision when I said, "First Lady, let's do it. You're going to be First Lady." She was actually one of the people. She said, "Are you sure you want to do this?" First Lady, people love the First Lady. They do. They love her. She's good. She's elegant and she puts up with a lot from these people, you know, it's like unbelievable. But she said, "But are you sure you want to do this?" I say, "I think I do. Yeah. I think I do." She said, "You know you will win if you do it. You must be sure." And I said, "You think so?" I said, "Do you think so, really?" She said, "No, you will win definitely. But the question is, do you want to do it?" And I said, "Yeah, we do. We have to set this nation back on the right course." That's right.

President Trump: [\(01:16:20\)](#)

No. She said that. I'll never forget that. That was sort of cool. It was just like second nature. You know you'll win. You're running against a lot of very talented people. And then we had to run against a very talented crooked machine.

President Trump: [\(01:16:33\)](#)

Joe Biden is bought and paid for by big tech, big media and powerful special interests. You saw that over the last couple of weeks. All the corruption and they refuse to even talk about it. Could you imagine if I got three and a half million from the mayor of Moscow's wife? Or one of my kids took three and a half million from... Can you imagine that? And they refuse to even discuss it. They don't want to discuss it. There is no proof. They now say the laptop from hell was produced by Russia. This was Schiff, watermelon head, right? The laptop was produced by Russia. We say, "Oh no, not again." No, John Ratcliffe came out immediately. He's great. He's doing a great job. He said, "It was not produced by Russia," so. But that's what they try and do. They do disinformation. They're the biggest disinformation. I'll tell you. They own him. They control Biden and they know he will always do whatever they want. They know that. That's why they want him. I definitely don't do what they want. I definitely don't.

President Trump: [\(01:17:41\)](#)

Except I do one thing. I get them good ratings. Can you imagine if they don't have me? Let's say they had Biden. Their ratings will collapse. Every one of them will be out of business. There'll be out of business so fast. They will be out of business so fast. In fact, I think they're going to get together. The New York Times will die, the failing New York Times. Washington Post, which is basically a lobbyist for Bezos. You know that. But they'll all get together and they'll say, "Listen, we made a big mistake here. We got to draft Trump. We got to get him to run again. This is no good. We're dying. Nobody cares." Can you imagine then having Biden? We're going to put something up. Can you imagine having Biden as your President? The biggest loser will be the fake news media. That will be so boring. You know, their ratings are through the roof. Everything's through the roof. The NFL is doing very badly. You know why? Everyone's watching politics because they find politics to be much rougher than the NFL. It's much dirtier and more disgusting. And they don't change. You know, in the NFL, they change the rules. They make everything like coming back. You can't touch anybody. Somebody tackles too hard. They say 15 yard penalty and you're out of the game, and you're out for the season. You know, in the old days, right? It was a little different, but it's still tough. But this is much tougher and people see it. But you have to see the ratings. That's why the ratings are bad for a lot of the sports. Nobody ever thought of this. But I thought of it. A couple of people wrote it. The ratings are bad because so many people are watching this. It's tougher. It's true.

President Trump: [\(01:19:25\)](#)

But they're going to be calling for us, "Please, please run again. We think we're going to endorse you." I got endorsed by the Pittsburgh, right, Pittsburgh Post Gazette. I got endorsed, first time since 1972 that they endorsed, right? It's a big deal. Big newspaper, very good, very liberal newspaper, but that's okay. But first time since 1972 that they endorsed a Republican, so it's an honor. And if you don't read the first two or three paragraphs, it was one of the best endorsements. "Yes. We don't like him. Yes. He has a horrible personality." But listen to this. It's not that I do, but I have been under siege illegally for three and a half years. I've been fighting for three and a half years.

President Trump: [\(01:20:14\)](#)

And I said to somebody today, "I wonder what it would be like if the fake Russia hoax and all this crap with the impeachment over nothing." Over a phone call that was perfect, that was perfect, I wonder what it would be like if we didn't have all of this horrible stuff. You know, we'd have a very calm situation and maybe I'd be less popular. I don't know. Maybe I'd be less popular. Because you know what the fact is, people see that we fight. We're fighting for you. But it's

a really dirty, horrible business. But I said today, because were saying they don't like the personality and he's always fighting. I'm fighting to survive. You have to survive. Very few people would have survived. They would have been in the corner. They would have said, "Mommy, mommy," put their finger in the mouth, put their thumb in the mouth and say, "Mommy, mommy, take me home. I'm out of here. Get me the hell out of here." They'd say, "Forget about the American people. Mommy. I want out of here right now."

President Trump: [\(01:21:16\)](#)

No, we can't do that. But you have to fight hard and then you fight hard and you hit them back. And then they say, "There's chaos in the White House." They caused the chaos. We have a great group of people. We have a lot of them here tonight. Great people in the White House. But it's true. I wonder if it would have been different. We caught them spying on our campaign. We caught them trying to take out a duly elected President of the United States. That's treason. That's treason. We caught them. And someday, maybe something's going to be done about it, too. You know? Maybe. Boy, oh boy, oh boy. We don't want to do anything prior to the election. Well, what about me? They did it to me before. They spied my campaign before the election. We shouldn't do anything prior to the election.

President Trump: [\(01:22:17\)](#)

And you know who we caught? Barack Hussein Obama and Sleepy Joe Biden. They were a part of it. We ought to get these reports out. They should get them out before the election as far as I'm concerned. They should get them out right before the election. Should have gotten them out a long time ago. We have information. You wouldn't even believe it. I don't even get involved. I always said I'm going to stay uninvolved. Very hard for me to do, I'll tell you. No, it is because I didn't have to do that. I thought it'd be the right thing. And yet they did the Mueller report, right? The phony Mueller report, 18 angry Democrats, smart, 18 angry vicious, many of them work for Hillary Clinton, 18 angry Democrats. They spent \$48 million. And at the end of two and a half years, no collusion. Okay? Friend of mine said, "You have to be the most innocent of the world." And they checked everything. They checked taxes. For \$48 million, you check taxes. Right?

President Trump: [\(01:23:15\)](#)

And by the way we announced, you know, I prepaid millions and millions of dollars in taxes. They didn't say that. They refuse to say. They say, "Well, prepaying isn't paying." I said, "No, it's prepaying. That's even worse." Millions of dollars, many millions of dollars. And that'll all come out. And you know, when you look at it, when you look at what's gone on, seriously, think of that. Just think about that tonight when you're with your family. I wonder if it would've been different. I wonder if it would have been a different kind of a feel. And you know what? Honestly, maybe it wouldn't have been as good. Maybe we wouldn't have these massive crowds, because you see what somebody is where we're under siege, and you people get it. You're smarter than them. You're smarter than these people. You get it. And you've always gotten it and it's a beautiful thing. And I'll never forget it. I want to tell you, I'm never going to forget it. But we were under siege and we caught him and it's treason or whatever you want to call it.

President Trump: [\(01:24:16\)](#)

But with sleepy Joe Biden, they don't want to write anything. We caught the whole thing. The son. Where's Hunter? Where's Hunter? The son was like a human vacuum cleaner. He'd go in and follow his father. "Let's go to China today, son." They'd fly it on Air Force Two. Right? I guarantee you one thing. Mike Pence, I know his kids. They don't do that. They don't do that. They're unbelievable kids, military. But you know, "Let's go to China today, dad. I'd like to follow you." Walks out with one and a half billion dollars fees. Oh, he must be a great investor. You know, the greatest investors don't make that deal with China. China doesn't do that. They don't give money out for other people that are less smart than them to invest.

President Trump: [\(01:25:03\)](#)

Let's give our money to somebody that's not very smart to invest. Okay? That's a great idea. He walked out. It only took him 10 minutes to get it to \$1.5 billion. That's millions of dollars in fees. The big one was the \$10 million. You saw that one, the letter. He wants \$10 million a year for introductory purposes. Okay? \$10 million. But it all blew up. By that time, the laptop from hell was found. The one that Schiff said was developed in Russia. It's unbelievable. And then you have Ukraine. He goes into Ukraine. His father was a judge of Ukraine, right? He was a judge of Russia, Ukraine, China, specifically. He goes into Ukraine, \$183,000 a month. "Do you have energy experience?" It's in energy. Right? Burisma. "Do you have energy experience?" "No, I don't. I don't know anything about energy." "Well, we'll pay you \$183,000 a month and we'll give you an upfront fee of approximately \$3 million. Would that be satisfactory?" No. Think of it. No. Think of it. And there are other things, too. Then he's got the brother and he's got a whole... This is a corrupt enterprise. And then they had the big man gets 10%. The big man. Who's the big? He's not a big man to me. To me, he's a very meek, fragile, he's a fragile person.

President Trump: [\(01:26:22\)](#)

And he's very agitated. I watched him today. He gets more time on Fox. I've never seen anybody on Fox so much. Him, they have everybody on Fox. They have all enemies on Fox. I think it's crazy. But he gets a lot of time on Fox. But he's so agitated. And now he comes out with the aviator glasses, but they're a little too small. He wants to look like Tom Cruise from a long time ago. No, but he's fragile. He's not going to be there. That's not what they're counting on. They're counting on somebody else. They're counting on, by far, the most liberal person in the Senate, Kamala. They like her. They like Kamala.

President Trump: [\(01:27:05\)](#)

Every corrupt force in American life that betrayed you and hurt you is supporting Joe Biden. The failed establishment that started the disastrous foreign wars, they support Biden. The career politicians that offshored your industries and decimated your auto plants, and you suffered for many, many years. I'm telling you, that's why I'm here, I think, primarily. That was the first thing, trade. I said, "How could they do that?" They supported Biden. The open borders, lobbyists, that killed our fellow citizens with illegal drugs and gangs and crime that poured into our country, they support Biden. They still do the anti-American radicals, defaming our noble history, heritage and heroes, they support Biden. They support him. They support Sleep Joe.

President Trump: [\(01:27:56\)](#)

And you know, I signed a law that you take down any of our statues, any of our monuments, you go to jail for 10 years. It's amazing the way it seemed to have stopped. Isn't it. It's really amazing. Somebody said, "Oh, it's just stopped." No, it didn't just stop. I took it old law and reactivated it, because the new law, and you go into this with this bunch, with Nancy Pelosi and crying Chuck Schumer, you know what they'll do? They'll give you a medal if you rip down the statues. Antifa and the rioters, looters, Marxists, and left wing extremists, they all support Joe Biden. This election comes down to a simple choice. Do you want to be ruled by the corrupt and selfish political class? Or do you want to be governed by the American people yourselves? You're going to govern the way it supposed to be.

President Trump: [\(01:28:50\)](#)

A vote for Biden is a vote to give control of government over to the globalists, and the communists, socialists, and wealthy liberal hypocrites who want to silence, cancel and punish you. Cancel culture they call it, cancel culture. No, thank you. We want to be proud of our history. Good, bad, whatever, we want our history. We want to know. And we want to learn from our history. We don't want our history canceled. We want to learn. There's things we have to learn from our history, too.

President Trump: [\(01:29:23\)](#)

If you want your children to be safe, if you want your values to be respected, if you want to be treated with honor, dignity, and respect, then I am asking you to go tomorrow and vote for a person named President Trump. Got to win Michigan. This is a big, important place. If we win Michigan, it's over. It's over. We win the whole thing. Four more years and then we can finish the job we started so well. We can finish the job. You know, I got nominated? No, I say it because they don't write it. I just heard today. I thought it was three. I got four, four Nobel Peace Prizes. Can you believe it? One for the Middle East. One for Kosovo, Serbia. They want to make a trade deal. They're each fighting each other, for many decades, they're fighting, killing each other. You've read it. I mean, for years, they're just automatic killing each other for many, many decades. And we're doing these trade deals with them, not big deals, but they want them very badly. We're doing them. And they're each doing them.

President Trump: [\(01:30:32\)](#)

And I said to the people I said, "Listen, we're doing deals. They want to make the deal with us. Everybody wants to make a deal with us." I said, "They're

killing each other.” I think, right? They’re killing each other. I read about it. They’re killing each other for decades. “Tell them we’re not making a deal unless they get together and make a peace.” And we told that to them. We’re not interested in doing deals unless you guys can get along and not kill each other. You know, it’s human lives. We don’t know where it is. You don’t know where it is. Some people have never heard of the places, but they’re places. And they’re people. They’re human beings. And I said, “Tell them we’re going to do it, but you have to make peace.” And we got them together, we made peace. And they actually nominated me for the Nobel Peace Prize. I got four nominations in four unrelated things. That’s crazy, right?

President Trump: [\(01:31:16\)](#)

And I told the story, you probably heard about it. The first one I went up, Middle East. You know, the Middle East is coming along. No blood in the sand, no nothing. The Middle East is great. Signed already three countries. We have seven, eight, nine countries. They could all sign. I said, “How did Obama do it?” And they told me and I said, “Good. We’ll do it the opposite.” But not only Obama. For many, many years, they haven’t been able to do it. And I’d like to finish that up, too. We need a little more time, you know. We need a little bit more time. But we have countries lined up, no money and no blood in the sand, no blood in the sand. Remember what I said four years ago, “I am your voice and I will make America great again.” And that’s what we’re doing. That’s what we’re doing.

President Trump: [\(01:32:05\)](#)

Together, we will defeat the corrupt establishment. We will dethrone the failed political class. We will drain the Washington swamp. And we will save the American dream for your children, for your grandchildren. This election is also a choice between a deadly Biden lockdown or a safe vaccine. The vaccine is coming along great, couple of weeks, a couple of weeks. It’s going to be out soon. That ends the pandemic and it will end anyway. They hate it when I say we’re rounding the corner. It’s going to end anyway. But the vaccine will make it go a lot quicker. And what we’ve done with therapeutics is incredible. Excuse me, here I am. But I like to say, no, no. I like to say it had no impact on me. I didn’t really need it. They just happened to give it to me because I’m a perfect physical specimen that’s very young. I’m very young and in perfect physical shape.

President Trump: [\(01:33:03\)](#)

No, but it’s amazing. What we’ve been able to do is incredible, really incredible. We will mass distribute the vaccine in just a few weeks and it will quickly eradicate this virus. You know, we’ve learned about it with our senior citizens, especially if they have a condition, a heart condition, they have some problem, any kind of a problem. Boy, it’s vicious. That’s the ones it really goes after. But we’re going to protect our great senior citizens first. And then it’ll go very quickly throughout for anybody that wants it. It won’t be enforced. It’s not going to be enforced. For people that want it, and we’ll get it done. And it’ll all take place very quickly. And by the way, nobody else would have been able to do what we did. You know, nobody else would have been able to do what we did.

President Trump: [\(01:33:51\)](#)

You know, Joe Biden, he handled the Swine Flu. It’s one of the great catastrophes. He was a mess. His own Chief of Staff said, “We had no idea what the hell we were doing.” I don’t know why this guy admitted that. I still, I can’t figure out why he admitted it. Probably before Joe thought he could ever run. You know, Joe thought his career was over because he wasn’t thinking straight. Then he ran and Elizabeth Warren said, “I want to stay until the end and take out Bernie.” You know, she took out Bernie, and we’re running against Joe instead of Bernie, and Bernie is going to run again though in another four years. He’s going to run again. One thing about that guy, he never gives up. Does he? But he’s a hell of a loser. I mean, he loses the first time and he goes back. He’s like, no hard feelings. He loses the second time horribly. The Democrats took advantage of Bernie Sanders and everybody that he represents.

President Trump: [\(01:34:45\)](#)

But they’re looking to take over Joe. They agreed to the manifesto. I call it. You have to see what’s in that one. Joe Biden is promising to delay the vaccine and turn America into a prison state. That’s what he wants, locking you in your home while letting the far left rioters, so the rioters and the looters, the anarchists, Antifa, they can go knock the hell out of your room, your streets, set your stores on fire. No problem. That’s called protesting. We must protect our protesters, but you’re not allowed to go to church, you’re not allowed to have dinner, right? The only one allowed to have dinner in this state is the husband of your Governor. He’s the only one that’s got special privileges. That was not a good day when he got caught boating or whatever the hell he was doing. “Who are you?” “I’m the husband of the Governor.” The police didn’t go for that one too well, did they?

President Trump: [\(01:35:42\)](#)

No, that wasn’t a great day. No, you’ve got to open up your state, Governor. Open it up, Governor. Let the kids go back to school. Let the kids go back to school. It’s like Baron, Barron Trump, right? They said, you know, First Lady had it. I had it. They said, “Sir, you tested positive.” First Lady, they did come to see us [inaudible 00:30:03]. They said, “Sir, Barron, he just,” White House doctor, great doctor, Sean, “Sir, Barron just tested positive.” I said, “Tested positive for what?” “For corona>” you know, it sounds like... See, I like the China virus, or I like the plague from China. But a lot of people use it. Like, it sounds like an island in Italy.

President Trump: [\(01:36:27\)](#)

I said it’s not corona, but just tested positive for corona. I said, “Well, I don’t like that. That’s not good” Barron, you know he’s strong. He’s very tall. He’s only 14 years old and he’s very tall. I can tell, “Hi Barron.” And he’s a good boy. But he just tested positive. And I said, “Wow.” Then about 12 minutes later, I see the doctor. “Doctor, how’s Barron doing?” “Oh, he’s okay. He’s fine now. Took him about 12 seconds to get rid of it.”

President Trump: [\(01:36:56\)](#)

Because they’re young and they have a strong immune system. No, I mean, he got better so fast. And you know what I say? Let the kids go to school. You’re not going to hear that from the other side. They want to lock it up. The Biden lockdown down will mean no school, no graduations, no weddings, no Thanksgivings, no Easter, no Christmas, no 4th of July, no future for the youth. Other than that, it’s going to be a great life. No, you got to let the kids go to school. Get going. Open up your state. It’s time. And you know, we got to take care of our seniors. We have to take care of people. We understand that we have to do things, but let the kids go back. This is a lockdown. This is a shut down. Of course, probably on a date like November 4th, they’ll announce. “Well, we’re going to decide to open up.” Right?

President Trump: [\(01:37:53\)](#)

Did you see the one head of the union said, “Yeah, we want the teachers to go back to work on November 4th.” That was not a good move. She announced, “We want the teachers to go back to November 4th.” Gee, I wonder why that day. Despite that we had the best numbers, look, we have states that are locked down, closed down, New York is having a hard time. I’ll tell you. They don’t know what the hell they’re doing. Great place. I left it three and a half years ago. I loved it. And it’s very sad what’s happening to New York. A very, very sad thing in Chicago. Look at Chicago. It’s very sad. All run by Democrats, by the way, I want to just emphasize.

President Trump: [\(01:38:28\)](#)

How about Portland with the anarchists, right? They’re Antifa anarchists. But how about Portland? We could solve that problem in 25 minutes. Like we did, you know, we went into Seattle. We were ready to go in. We were all set to go in. And we told them we’re going in tomorrow morning. And the night before they said, “Okay, well, we’re leaving now.” That could have been done a long time ago if they asked us. We have to be asked. And we did a great job in Minnesota. We’re going to win Minnesota for two reasons. We’re going to win Minnesota. First time since 1972, we’re going to win Minnesota-

President Trump: [\(01:39:03\)](#)

First time since 1972, we’re going to win Minnesota, you know why? Number one is Ilhan Omar, the fact that she’s there. No, but she loves our country very much, right? She has a great deep and abiding love for our country and the other one, boy, the hatred is just crazy. How do we put up with this stuff, right? I mean, the hatred. But she’s the number one reason and maybe number two is the fact that the National Guard did one hell of a job in Minneapolis. Now they should have called a week and a half earlier, it would have been nice. You wouldn’t have had the fires raging, the anchors that said, “This is a friendly protest,” and behind the anchor it looked like the world was burning down. This is a friendly protest, see because they don’t report the truth. A vote for Biden is a vote for lockdown’s, layoffs, and misery. You got to just get out of this. We can’t play games. Our country has such incredible potential we can’t let this happen.

President Trump: [\(01:40:02\)](#)

This country will never be a socialist nation, okay? And that's what they want to do. If you want a vaccine to kill the virus, a job to support your family and freedom to live the great, great life that you've always wanted to have, then go cast your ballot tomorrow for your all time favorite President, I hope, Donald Trump. Remember that Secretary of Defense, Robert Gates, a respected guy, he worked with Biden. He said, "Biden has been wrong on nearly every single major foreign policy and national security issue over the past four decades." Other than that, he spoke very well of him. But you don't have to believe me, you don't have to even listen to me because it happens to be Michigan. We spent a hell of a lot of money on that right there, so roll the tape.

Speaker 3: [\(01:40:58\)](#)

Joe Biden. Joe Biden. Joe Biden.

Speaker 4: [\(01:41:06\)](#)

Have you taken a cognitive ...

Mike Pence: [\(01:41:09\)](#)

No, I haven't taken the test. Why the hell would I take a test? Come on, man. That's like saying you before got on this program, you take a test where you're taking cocaine or not, what do you think, huh? Are you junkie? By the way, that's my little sister Valerie and I'm Jill's husband. Oh no, hell, you switched on me. This is my wife, this is my sister, they switched on me. If you have a problem figuring out whether you're for me or Trump then you ain't Black. There's not a single solitary reason in the world, why, why, as I said, we shouldn't be in a position that everybody ... That's my wife, Jill. Hey, Jilly. I'm Jill's husband, actually.

Mike Pence: [\(01:41:53\)](#)

And corn pop was a bad dude and he ran a bunch of bad boys and back in those days [inaudible 00:03:02]. Play the radio, make sure you have the record player on at night, make sure the kids hear words. We hold these truths to be self-evident, all men are created by the thing. Because if you were a quartermaster, you can sure as hell take care of running a department store thing in the second floor of the ladies' department or whatever, you know what I mean? Well, I'm sick and tired of smart guys. Rapidly rising with, I don't know. Ever been to a caucus? No, you haven't. You're a lying dog face [inaudible 01:42:55].

Speaker 5: [\(01:42:55\)](#)

Why attack Sanders?

Mike Pence: [\(01:42:56\)](#)

Why, why, why? You're getting nervous, man. What kind of country are we going to be? Four more years of George we're going to find ourselves in a position where if Trump gets elected, we're going to be in a different world.

Speaker 6: [\(01:43:13\)](#)

Lie, after lie, after lie, after lie.

Mike Pence: [\(01:43:17\)](#)

We have to come together, that's why I'm running. I'm running as a proud Democrat for the Senate. And by the way, I sit on the stand and it gets hot, I got hairy legs that turn blonde in the sun and the kids used to come up and reach in the pool and rub my leg down [inaudible 01:43:40] and then watch the hair come back up again, they'd look at it. So I learned about roaches, I learned about kids jumping on my lap, and I love kids jumping on my lap. Barack and I think it's a right for people [inaudible 01:43:56]. We have to do at least several things, one, we have to depend on what the President's going to do right now. And first of all, he has to wait until the case before anything happens. Exacerbating the need for environmental justice. Folks, we got a lot of work to do. I don't even need you to get me elected.

Mike Pence: [\(01:44:23\)](#)

We've never allowed any crisis from the civil war straight through to the pandemic of '17 all the way around '16, we have never, never let our democracy take second fiddle. We can both have a democracy and elections and at the same time, correct the public health. Everywhere I've been hearing all around the country, you're trying your best but it never feels like enough. And here comes the train that he tried to make sure [inaudible 00:05:54]. All right. Anyway, I am very willing to let the American public judge my physical, as well as my mental fitness. I'll lead an effective strategy, to mobilize [inaudible 00: 06:18].

President Trump: [\(01:45:41\)](#)

You can't let that happen, you can't let happen. This country is so great, we have such potential. We're just starting to show our potential. If we didn't get hit with the plague you'd see numbers, but we're going to do it anyway. Next year, we're going to do it anyway, it's going to be incredible. We can't let that happen, everybody knows it. And if he were a nice guy, he's never been a nice guy, he's never been a smart guy, never been smart, everyone knows it, never been smart. But if he was a nice guy, we wouldn't even do that but that's just a very small version, that's not even the bad stuff. And one thing I can tell you, President Xi of China, Putin, Kim Jong-un, these guys are at the top of their game, they can't have this. Well you don't want to give them this, we'll lose our country. We'll lose our country, we can't do it, we can't do it. Biden would be a disaster for cherry growers, farmers, workers, all across your state. You do so many different things.

President Trump: [\(01:46:40\)](#)

Joining us tonight a representative, Jack Bergman. Two great guys. Jack, thank you very much and John Moolenaar. Thank you, John. Thank you, fellas. Great warriors. They've been just incredible people. I'll tell you what, they've been with me through everything, right? And we appreciate it. Are you in good shape with your races, you don't need any additional help? They're probably about 30 points up. When somebody is good, they're good. You guys are great, thank you very much. And your next Senator, a tremendous guy, I spotted him a long time, I spotted him. There were five people running a little while ago, a year ago for a seat, frankly, you have somebody there that's okay.

President Trump: [\(01:47:32\)](#)

But I saw this man and I said, "Roll it back. I want to see that again, John James, right?" And I said, "Wow, what potential." And then I found out West Point, great student, great helicopter pilot. I'd trust him 100% to pilot my helicopter, I would do that 100%. No, he's supposed to be a great warrior actually, I got him to run and he got his feet a little wet and then he just took off and I understand you're doing very well to that poll, John, I hear. You want to come up here? Come here John. Come on over here John. Come on over. He's a great guy and I hope he's going to be voted in. You're doing very well. Come on John.

John E. James: [\(01:48:27\)](#)

Mr. President, it's an honor to have you back in our state. Are we grateful?

Speaker 7: [\(01:48:31\)](#)

Yes!

John E. James: [\(01:48:34\)](#)

Are we grateful for the United States of America?

Speaker 7: [\(01:48:38\)](#)

Yes!

John E. James: [\(01:48:38\)](#)

Are we grateful for our President who's been back in Michigan more in the past six days than Gary Peters has in the past six years?

Speaker 7: (01:48:45)

Yes!

John E. James: (01:48:48)

It always tickles me a little bit when career politicians talking about what they're going to do, but Joe Biden has had for decades in Washington and Gary Peterson said three decades in politics and we still have a life that doesn't benefit all of us. We need to get leadership that's been tested in the real world, people who understand how to create jobs in the real world, who can continue to bring results for everyone. So it's my honor, it's my honor, as a war fighter and as a combat veteran to stand before you here today and encourage you to go vote because only you can drain the swamp. God bless you.

President Trump: (01:49:37)

Good guy. Great man.

Speaker 7: (01:49:39)

Trump! Trump! Trump! Trump! Trump! Trump!

President Trump: (01:49:47)

That's a big very important vote you're casting in addition to our vote, John James, he's a star. He's going to be a star and you have somebody that's very special. And his competition, nobody knows who the hell he is, Peters. You have a great State, Michigan. They say, "Oh, who's the Senator?" Peters, Peters, "Who the hell is Peters everyone says." Nobody knows who he is. He's a puppet for crying Chuck Schumer I guess, that's about it. Anyway, good luck John James, everyone. You have to do it. Okay. Another great gentlemen, house speaker Lee Chatfield. Good, nice to see you. I hear you're doing good. And a woman who is special to this part of the world because she headed up our campaign and she kept calling, calling, please one more visit because a Republican hasn't won Michigan for many, many years, decades, long time. So she'd call, "Please come over," so I'd do it, "Come over." Can I do it again? I came so much, I felt like I should become a citizen of your State.

President Trump: (01:51:08)

That could happen, that could happen. But she would just say, "One more time." So now it's toward the end, toward the end and I call and I said, "How we doing?" She said, "You're going to maybe win, but you have to do just one more visit, that's all." So I did one more. I wished her well and I said, "Hey, the elections in three days and I want to just thank you for working so hard." "Thank you very much, I won't call you again." I got home and I got a phone call from her. She said, "You need one more time, one more time." And I came and we ended up, was that sometime? And I started speaking at 1 o'clock in the morning, now it was election day and we had 32,000 people, is that right? We had 32,000 people and I looked and I said, it was 1 in the morning. And Barack Hussein Obama and Hillary came and Bill Clinton came and they all came, the whole group, and it was an emergency because they heard they were going to lose.

President Trump: (01:52:09)

And when they heard that Rhonda called up and she said, "If you came, it'd be good," because they were all coming it's like an emergency. Now their visit was at 7 o'clock, which is prime time, they had 500 people. I started speaking at 1 o'clock in the morning, we had 32,000, so it's now election day. She just got me and she loves your State, I will tell you that. And she was so good, I said, "You know what? We have to pick somebody now to run the RNC," that's the Republican National Committee, it's a big deal. I said, "How about that woman from Michigan?" And I'll tell you she has done a fantastic job. Rhonda, come on up here. Come on up. You want to talk here? Come here.

Rhonda: (01:53:04)

Thank you Mr. President. Hello Michigan! Lightning struck four years ago and we blew the minds of the media and the world when we delivered Michigan for President Trump, are we ready for lightning to strike twice?

Speaker 7: (01:53:22)

Yes!

Rhonda: (01:53:27)

Everyone get out and vote, we need to vote. Call your neighbors, your friends, your family, if you have wronged somebody make it right and get them to go vote. Let's make America great again and reelect our fantastic President.

President Trump: (01:53:47)

She did a great job, we all love her, we love her, she's fantastic. She's got a spirit like you wouldn't believe. Thank you Rhonda, very much and for the work. And I think we're going to have a fantastic day. It's going to be an incredible day and I never thought I'd say it, but this election is more important than 2016, I never thought I'd say it. This is going to be because we can't allow this to happen to our country, this will be the most important election in the history of our country. It's going to set a course, it's going to go one way or it's going to go another and if it goes the other way, it's going to be a terrible thing, it's going to be a terrible thing. So get out there and vote. We're going to win this, we're going to win it, we're winning all over. They have no idea what's going on, they have no idea. We see the real numbers and it's no longer based on polling.

President Trump: (01:54:39)

The early voting is coming, they're supposed to be way ahead, right? In the early voting, then we catch them on election day, I don't know, for whatever reason, that's the way it is. We vote on election day. They're not way ahead and they're having a lot of problems and they have emergency calls out to people. It's going to be very interesting. Let's do the great red wave, okay? And get that guy in to, John, we need them. We need them in Washington. For decades our politicians spent trillions of dollars rebuilding foreign nations, fighting foreign wars and defending foreign borders, but now we're finally protecting our nation, rebuilding our cities and we are bringing our jobs, our factories and our troops back home to the good old USA. It's about time. The troops are coming back. They're policemen, we were serving as policemen all over the world, we're policemen, no, it's not what it's all about. For 47 years Joe Biden, viciously attacked Black Americans. He called young Black men super predators. To every Black American I am asking you to go out and vote for Donald J. Trump. This is your one and only chance to show sleepy Joe Biden what you think of his decision to attack you, to jail you and to betray you and nobody's done it worse than him. I'm fighting for you, I got you criminal justice reform, prison reform, opportunity zones with Tim Scott, great guy, Tim Scott. And funding for historically Black colleges and universities, which were treated extremely badly. Under my leadership we achieved so much, so much. I said that, and I made the statement during debate, nobody saw the debate last week, did you? Nobody? Two weeks ago, it was a good debate. But I said, "Nobody with perhaps the exception of Abraham Lincoln," a lot of people said, "Could you do the perhaps the exception out, please?" "has done more for the Black community than Donald Trump," and that's true. President Trump, all those things and more, and that's good and you know what? It's showing up to.

President Trump: (01:57:06)

When you look at Florida, take a look at those numbers tomorrow. And Hispanic, do you see what's going on with Hispanic? Hispanic numbers in Florida, they're saying, "What's going on with Hispanic?" Hispanic Americans love Trump and I love them and I have a long time. The Black community is going to a level that we haven't seen in a long time. It's a beautiful thing to watch and they are saying, "What is going on?" This could be something very interesting that you're going to be watching. You're going to be watching some very good television tomorrow night. Very good television. Well, you have to say four years ago, was that the most exciting evening in the history of television? Remember how it started? This will be a very short evening for Donald Trump. This will be very easy, very short and then they say, "Donald Trump has won the state of Ohio," but it wasn't just that we won by eight points.

President Trump: (01:58:05)

Oh, by the way, Ohio's doing great too. Then it's, "Donald Trump has won the state of Florida. Donald Trump has won Georgia, he's won South Carolina. He's one their firewall, North Carolina and he won it by a lot. What's going on? Donald Trump has just won Wisconsin. He's just won Michigan." And they held Pennsylvania, even though if I lost every vote in the 2%, I still would have won by a lot, they held it. So you and Wisconsin got credit and that's okay, right? But I just hope Pennsylvania, next time you take credit, so let's do it a little bit earlier, please. No, we're going to do fantastically in Pennsylvania but that was

one of the most exciting evenings ever. And I think we're going to duplicate it, I don't know, could you ever surpass something like that? But we're going to at least duplicate it and we need it to carry on what we've been doing. We've brought so many jobs back and all of those plants that we talked about, we have plants.

President Trump: [\(01:59:18\)](#)

You had nothing for 42 years it was just people leaving, nobody coming and now they're coming back and they're coming back in droves and the numbers are fantastic. Under my leadership, we achieved the most secure Southern border in U.S. history. The Biden Harris group would increase refugees from terrorist nations by over 700% and that's the manifesto that was agreed to with Crazy Bernie. Including from Syria, Somalia, and Yemen, right? You know that. The Biden plan would overwhelm your communities and turn Michigan, Minnesota, Wisconsin, and the entire Midwest into a refugee camp. You're talking about tremendous amounts of people coming into our country. We don't know who they are, we don't know anything about them. I'm protecting your families in keeping radical Islamic terrorists the hell out of your country if that's okay with Michigan.

President Trump: [\(02:00:18\)](#)

If that's okay with Michigan. If it's okay with you, we put the ban on because we want people to come into our country who are going to love us, who are going to help us, not people that are going to hurt us and blow up buildings. We invested \$2.5 trillion in the U.S. military, the largest investment in the military we've ever made, we have to do it. All made in the USA, a lot of it made right here in your great state, a lot of it. And we now have the greatest equipment anywhere in the world, fighter jets, F35's, we have the best tanks, we have the best rockets and missiles. We have the hydrosonic missile that goes 7 times faster right now than the fastest missile in the world. If it went by us, we'd say, "What was that?" It would start over there before you could turn your head it would be over. 7 times, think of that, seven times faster, it's incredible.

President Trump: [\(02:01:14\)](#)

And we have all of these things and our nuclear arsenal now is in tippy top shape and you know what I say? Pray to God we never have to use it. All of it, all of it, all of it. We're making submarines the likes of which nobody's ever seen before, we're doing it all. And when I took over, it was depleted, our military was depleted, we had old fighter jets. You had to go to the desert, it was called the Graveyard for airplanes, right? And you'd strip planes that were sitting in the desert rotting in the desert and you'd bring the parts back. This was what we were flying in our airplanes. Now we have new tankers, we have the new super fighters, it's incredible what we've done and much of it's already here, much of it's coming, but it's all made in our great country. We just passed the VA choice in VA accountability and nobody thought that could be done and we just got, as I told you, 91% approval from our vets, our great vets.

President Trump: [\(02:02:15\)](#)

We obliterated 100% of the ISIS caliphate, people don't talk about that. When I took over, it was a mess. It was all over the place, we obliterated it. We killed the leader of ISIS, Al-Baghdadi. And we eliminated the world's top terrorist, Soleimani is dead. I recognized the capital of Israel and open the American embassy in Jerusalem. I also recognized Israeli sovereignty over the Golan Heights, they were working on that for 52 years. And instead of endless wars we're forging peace all over the Middle East, they're all getting together, they're all getting together. A vote for me and the Republican party and John James and everybody, it's a vote for the American dream and in conclusion, over the next four years, we will make America into the manufacturing superpower of the world. And we will end our reliance on China once and for all, that's already started. We will hire more police, increase penalties for assaults on law enforcement and we will ban deadly sanctuary cities. With God's help we will defend the right to life, religious liberty.

President Trump: [\(02:03:35\)](#)

You better get out there and vote. And we will defend keep and bear arms, you know keep and bear arms? It's called the Second Amendment, which is under siege constantly. That's where we need John and everybody to help us and our great congressmen, they've been so great and we appreciate it. We will maintain America's unrivaled military might, and we will ensure peace through strength. We will end surprise medical billing, require price transparency, lower drug prices beyond any levels you've ever seen, 60, 70, 80%. I've instituted favored nations that drug companies do not like me, they do not like me. They're taking out more commercials, I think, than sleepy Joe, but we're going to get it done. Our prices are the highest in the world for many years by far and we're bringing them down to the lowest price anywhere in the world, matching the lowest price. And we will always protect patients with pre-existing conditions. America will land the first woman on the moon and the United States will be the first nation to land an astronaut on Mars.

President Trump: [\(02:04:51\)](#)

We will stop the radical indoctrination of our students and restore patriotic education to our schools. And we will teach our children to love our country, honor our history and always respect our great American flag. We will live by the timeless words of our national motto, in God we trust. For Years, you had a President who apologized for America, now you have a President who is standing up for America and standing up for the great people of Michigan. Tomorrow you have the power with your vote to save America, you are going to save America. It's the most important election, I say it all the time. This is the most important election our nation has ever had, I really believe that, never thought I would have said that in a million years, if you go back four years. So get your friends, get your family, get your neighbors, get your coworkers, get your boss and drag them out and say, "Boss, come on, you got to get out and vote."

President Trump: [\(02:06:03\)](#)

Get out and vote, so important. The red wave, I talk about it. The red wave, I think, is going to be far bigger. Look at all of these organic things that form in Iowa and the farm country, tractors, thousands and thousands of tractors. Yesterday didn't they have 100 miles of cars? It was 100 miles. All over the country 4, 5, 6,000 boats with Trump, Trump and the American flags all over. Never happened. A movement like this has never happened before, it's never happened and we have to keep it going and finish it out. From Midland to Mackinaw, from Lansing to Grand Rapids, and you know where my last stop is going to be? I'm sorry to tell you that, I feel a little guilty, but Grand Rapids was where we did that final great stop, Grand Rapids. And so, I'm going to be in Grand Rapids. It's going to be my last stop. There's something nice about that, right?

President Trump: [\(02:07:02\)](#)

Because you can believe it, I have five of these today and they're all big monsters. I had five of these today, but I actually had six because yesterday in Miami, we left the stage at 1:30 in the morning. So somebody said, "If you want," they said, "so if you want, you can say you did six today." I think I'm going to say that. Nobody else could do six of these, you think it's easy up here? It's not easy. It's freezing up here too. I got the wind, you don't have that. I have the wind, I'm freezing my ass off up here, only for Michigan and from Battle Creek and right here in Traverse City, it's a good place, right? It's good a place. We inherit the legacy of American patriots who gave their blood, sweat, and tears to defend our country and to defend our freedom. We stand on the shoulders of American heroes who crossed the ocean, settled the continent, tamed the wilderness, laid down the railroads, right?

Speaker 7: [\(02:08:06\)](#)

We love you!

President Trump: [\(02:08:07\)](#)

Raised up the great skyscrapers, won two world wars, defeated fascism and communism, and made America into the single greatest nation in the history of the world and the best is yet to come. The best is yet to come. The best is yet to come and I made that. Proud citizens like you help build this country and together we are taking back our country. We are returning power to you, the American people. With your help, your devotion and your drive, we are going to keep on working, we're going to keep on fighting and we are going to keep on winning, winning, winning, winning. We are one movement, one people, one family, and one glorious nation under God. And together with the incredible people of Michigan, we have made America powerful again. We have made America wealthy again. We have made America strong again. We have made America proud again. We have made America safe again, and we will make America great again. Thank you, Michigan. Go out and vote. Thank you very much.

Donald Trump: [\(03:03\)](#)

Thank you very much. Thank you.

Crowd: [\(03:04\)](#)

Four more years. Four more years. Four more years. Four more years-

Donald Trump: [\(03:06\)](#)

Thank you very much. Thank you. This does not look like a second-place finish. I saw Sleepy Joe. He had about 12 people and unable to fill up his circles. Thank you. Thank you very much.

Crowd: [\(03:42\)](#)

Four more years. Four more years. Four more years. Four more years-

Donald Trump: [\(03:42\)](#)

Thank you very much. Ah, Pennsylvania. We love Pennsylvania. Thank you. Thank you very much. Thank you very much. This is a nice rowdy crowd, isn't it? Only in Pennsylvania. We win Pennsylvania, we win the whole deal. You know that. Just like last time. We want to have the same result as we had last time. Hello, Scranton. Hello, Pennsylvania. Thank you very much. Tomorrow, we are going to win the Commonwealth of Pennsylvania and we are going to win more four more years in the White House. With your vote, we will continue to cut your taxes, cut regulations, support our great police, support our magnificent military, protect your Second Amendment, defend religious liberty and ensure more products are proudly stamped with that beautiful phrase, Made in the USA. Right? More and more.

Crowd: [\(04:57\)](#)

USA. USA. USA. USA. USA. USA. USA. USA. USA. USA. USA-

Donald Trump: [\(04:57\)](#)

Thank you. Thank you. Remember, last time they said, "No, no, Pennsylvania hasn't been won by a Republican for many, many years, many, many years," and then we won. It wasn't even close, when you get right down it. Thank you very much. Thank you.

Crowd: [\(05:30\)](#)

We love you. We love you. We love you. We love you. We love you. We love you. We love you-

Donald Trump: [\(05:42\)](#)

That's really nice. Don't make me cry. I'll cry with that whole thing. I'll cry. Then they'll have it on, they'll say the president broke down and cried in front of his fans. I don't know. Hey, maybe would lift you up, right? You pick up 10 points for crying. I say, I still don't want to do it. Thank you very much. It's really nice.

Crowd: [\(06:17\)](#)

We want Trump. We want Trump. We want Trump. We want Trump. We want Trump. We want Trump. We want Trump. We want Trump-

Donald Trump: [\(06:21\)](#)

Thank you. Nobody's ever heard that chant before. It's never a chance that anybody's ever heard in a political way. We like Ronald Reagan, we like people, but nobody's ever heard of that chant and we appreciate it. Next year will be the greatest economic year in the history of our country. We have the foundation, it's already done. Under my leadership, our economy is now growing at the fastest rate ever recorded. Last Friday, it was released. 33.1%, the fastest. We created a record 11.4 million jobs in the last five months, while foreign nations are in a free fall. You see what's happening all over the world. We are creating an economic powerhouse unrivaled anywhere in the world.

Donald Trump: [\(07:11\)](#)

We went down less and we've gone up much more. Nobody close. A recent Gallup poll found that 56% of Americans say they are better off today than they were four years ago. If Biden and Kamala ... You know Kamala, right? Kamala. Remember it's the Harris-Biden administration, when he said that? The Harris-Biden ... No, no, Joe. You're supposed to go first, Joe. But Harris and the radical left and she is radical left. She's further, I guess you could say Bernie is a conservative by comparison, right? No, she's the most far left. The radical left gain power, they will collapse our economy and send Pennsylvania into a steep depression.

Donald Trump: [\(08:06\)](#)

Don't worry about it. It's not going to happen. I don't think it's going to happen. We're going to win. We've got some big surprises. Oh, look at all of the fake news. Look at all of the fake news. Hey, Kevin, Kevin, Kevin. Kevin, turn the mic on them. Turn the mic on them.

Crowd: [\(08:16\)](#)

We love Trump. We love Trump. We love Trump. We love Trump. We love Trump. We love Trump-

Donald Trump: (08:39)

Biden will raise your taxes \$4 trillion, massively increasing your regulations. They're going to increase your regulations, may be more important than the tax cuts. We gave the biggest tax cut in the history of our country, and maybe more importantly, we did regulation cuts, which were also the biggest in the history of our country. Whether it be four years, eight years, or in one case more. Shut down your economy, close down manufacturing, send your jobs overseas, destroy our suburbs and he will destroy our suburbs. I say to the women of the suburbs, "Love me, women of the suburbs. Bless you." I terminated the regulation. Dissolve your borders, terminate religious liberty, outlaw private healthcare. 180 million people outlaw. They're going to have socialized medicine. That's what they're going to have. Somehow, I don't see Pennsylvania liking that too much. Confiscate your guns. Second Amendment in big trouble, and indoctrinate your children with anti-American lies. I just signed an executive order to teach our students pro-American value.

Donald Trump: (10:04)

Biden has vowed to abolish, extinguish and eradicate American oil, all fracking and natural gas. I say this because, we'll give it an extra little time. This is Pennsylvania. This is a state, that's a wonderful state. I went to school here. I went to college here and I'll tell you what, and I know it well, a big part of your livelihood or your money, your income, your low taxes is fracking. He spent over a year saying he will not allow fracking.

Speaker 1: (10:34)

He's crazy, Boss.

Donald Trump: (10:35)

The first time he came into Pennsylvania as the nominee, which was a shock to everybody, everybody, all Elizabeth Pocahontas Warren had to do is leave two days early, and it would have been Crazy Bernie, instead of Sleepy Joe. I would have had a crazy guy instead of a sleepy guy. But he came in and after going for one year and she, forgot it, she still can't say it. She can't say it. But he said, "No, we will ban fracking. We will ban fracking." That's what he said many, many times. Once he got the nomination, he came to Pennsylvania. They said, "You're going to have to do something because you have a million jobs and it's a massive part of your wealth." He walked in and he went from, we will ban fracking to, of course, we can have fracking. What's the problem? Just remember this, it's always ... Yeah, that's right. He said, play the video, and I might not have that one in the video today. But you know, he immediately changed. The fake news, the fake news, where is Hunter?

Donald Trump: (11:46)

Where's Hunter? Hunter's in a foreign country taking in 25 million today. He's at a country that his father just left, picking up about 25 million. Now, that's total corruption. But he went out, and he started talking about fracking. He said, "We will absolutely allow you, but not on government land," and the press never held him accountable. They never held him accountable for all of the corruption that he's a part of. Biden's plan to ban fracking, is an economic death sentence for Pennsylvania. Biden's energy shutdown will wipe out your jobs, decimate your towns, eliminate your factories and send your state into a nightmare of crippling poverty. You've been there. You've been there. You had the best three years that you've ever had, under President Trump. The best three years. The best three years.

Donald Trump: (12:51)

Next year will be the best of all. Watch. You see it happening. If you look at housing starts, you look at automobile manufacturing, you're going to have your best year next year, unless somebody decides to come along and quadruple your taxes. Then, you're going down here, which is what he's going to do. A vote for Biden is a vote to ban fracking, outlaw mining, explode energy costs, and totally destroy Pennsylvania. You know that right? It's going to destroy Pennsylvania and it can happen. It can happen very fast. You take a look at a country, take a look at Venezuela, same ideology. This was unbelievably wealthy, rich country, one of the richest countries, and now they don't have water. They don't have food. They don't have medicine. It's a very sad situation and it can happen here, just much, much bigger, but it can happen here with these maniacs. It's one of those things. Joe Biden is a globalist, who spent 47 years outsourcing your jobs, opening your borders and sacrificing American blood and treasure on ridiculous, endless foreign wars. Most of you have never even heard of some of these countries. He shuttered your steel mills. I got them open. I got them open.

Donald Trump: (14:09)

I tariffed, very nicely tariffed dumped steel. They were dumping steel. China was dumping steel all over the place. You ask the heads of your steel companies. You wouldn't have any steel companies right now. Annihilated your coal jobs and supported every disastrous trade deal, for a half a century. He was a cheerleader of NAFTA, which was one of the worst trade deals ever made. We have a very good one now, thank you. China's entry into the World Trade Organization, which lifted China into a great power, a great economic power, except they were going to catch us. For 10 years, if you study, China was going to catch us in 2019. Guess what? We were going so far ahead, and frankly, if you have somebody smart, real smart in this position, they'll never catch you. They will never ever catch you.

Donald Trump: (15:06)

But, if you study The history, you'll see, 10 years ago, 2019, they will catch, and they would have. If I didn't come along, they would've caught you. They would've caught you. Then, we had the plague. We built the greatest economy in history, and then we had the plague coming from China. Came in, we closed it down. We saved 2 million lives. We saved 2 million lives and nobody gets it. The projection was 2.2 million modeled out. We saved 2 million lives. We understand the disease and now we opened it up. By the way, Pennsylvania, get your state open. Get it open. Terrible. Terrible. The governor has to open your state, Pennsylvania, has to open your state.

Crowd: (15:56)

[inaudible 00:16:03].

Donald Trump: (16:11)

Terrible. Wow. Get it open. Get it open, Governor. Get it open and count the votes, honestly. Governor, count them honestly. There was a very good poster last night, actually a good one. He has us winning everything, but he was on last night. How's he going to do in Pennsylvania? He was on a show called Sean Hannity. Have you ever heard of it? He said, how's he going to do in Pennsylvania? He's going to win Pennsylvania, except for the cheating. We figure we have to leave 5% for the cheating that takes [inaudible 00:16:48]. Can you believe it, for the cheating that takes place in Pennsylvania? The guy meant it. A very great pollster, but he predicted he would win the whole election. But the question was, "What about Pennsylvania?"

Donald Trump: (16:57)

He said, "Well, you have to leave 5% for the cheating." When the Supreme Court gave you an extension, they made a very dangerous situation and I mean, dangerous, physically dangerous. They made it a very, very bad ... They did a very bad thing for this state. They did a very bad thing for this nation. You have to have a date. You can't extend dates. The danger that could be caused by that extension, and especially when you know what goes on in Philadelphia, and it's been going on for years. Governor, open up your state and please don't cheat, Governor. Please don't cheat, because we're all watching.

Donald Trump: (17:38)

We're all watching you, Governor. We have a lot of eyes on the governor and his friend. Couple of other governors out there too. Pennsylvania lost half its manufacturing jobs after-

Crowd: (17:50)

[inaudible 00:18:05].

Donald Trump: (18:04)

Thank you. Thank you. Pennsylvania lost half of your manufacturing jobs. Think of it. Joe Biden is a corrupt politician who sold out to Pennsylvania, to China and also sold out for personal gain and family gain. Where's Hunter? Is Hunter in the crowd? Where is Hunter? In 2016, Pennsylvania voted to fire this corrupt

political establishment, and you elected an outsider as your President, who is finally putting America first. If I don't sound like a typical Washington politician, it's because I'm not a politician. Probably, why, I'm here.

Donald Trump: (18:56)

If I don't know always play by the rules of Washington or the Washington establishment, it's because I was elected to fight for you, harder than anyone has ever fought. I will tell you that. Now, think of everything we've been through. Look, from before I came to office, from before I came ... whatever, we'll do that in a second. Boy, you are an enthusiastic bunch. You are something. Well, first of all, first of all, you're known as a late-voting state. That means you're smart. How about all the things, hashtag, how do I change my vote? Did you see that? After the debate, the number one trend was, "How do we change our vote?" That was the debate. Did everybody see the debate? Yeah. They wanted to change their vote. A lot of people went, "Is this a Change the Vote state? Not so much, probably. I don't think your governor would let you do that. No, we have some states that change-

Donald Trump: (20:03)

... I don't think your governor would let you do that. Now we have some states, they're changing the votes and it was started with the debates. And then they see the rallies, the biggest rallies, by the way. And I'll say this to the fake news. In the history of our country, there's never been anything like this. And this is at a pretty early part of the day. I wouldn't say it's exactly primetime. You had to see last night in Florida. It was amazing.

Donald Trump: (20:28)

But think of this. They write from before I even ran. I mean, I announced. Maybe before I announced, they said, "I hear Trump is ... oh, let's go in and do it." But think of it. We were under investigation for three years and it turned out to be a phony hoax, and it was a phony impeachment. And based on the laptop from hell, the impeachment should have never been. It should have never happened. In fact, it should have happened against the other side because it was the other side that cheated. It was the other side that dealt with Russia. But think of it.

Donald Trump: (21:05)

And then they say, "President Trump, we don't know if we like his personality. President Trump, he's too rough. He's too tough." Let me tell you something, if we didn't have a certain type of personality and if we didn't fight, we wouldn't be here right now, because we caught them spying on our campaign and trying to take out a duly elected president of the United States. And I fought like hell, because we don't know any other way. We have to fight. But we caught them and they turned out to be the people that were corrupt. No collusion. They spent \$48 million, they found no collusion. They had 18 angry Democrat prosecutors. I have friends that say there's probably nobody that ... and he was is one of the smartest. There's probably nobody that he knows that could have withstood that.

Donald Trump: (22:05)

So we had 18 angry crooked Democrats. You had Bob Mueller that didn't have a clue. You had all of this stuff. Think of it. We went through that for two and a half, three years, and then they say, "Oh, we don't like the way he acted." We were under siege illegally. They committed treason. They tried to take out a duly elected president and we caught them. We caught them. And then they say ... I see it today. Then they say, "Oh, wouldn't it be nice ..."

Donald Trump: (22:42)

And then I say ... I see these guys on television and all of the big tech stuff, which is probably worse than them, right? They're the new boss in town, right? Not the media. They just showed up, the big tech. And we gave the power to the big tech. But now I see it, I look at it, and I say, "Gee, they're saying, 'Tough administration, chaos.'" They created the chaos. All we did was fight back and we fought back well and we caught them and they're all caught and now let's see what happens, okay? Let's see what happens.

Donald Trump: (23:29)

But we caught them. It's treason. They spied on our campaign. Nothing like that's ever happened. That's a bigger event ... I would rate Biden second. His family and him took millions and millions of dollars from countries that he deals with. He became vice-president. He had a son that didn't have a job, he got thrown out of the military, and he went years with no job. And then he signs with Burisma for \$183,000 a month. And then he wanted \$3 million upfront payment. "What's your experience? What do you know about energy?" "I don't know anything about energy." "Oh, that's okay. We'll put you on the board anyway." And then he gets three and a half million dollars from the mayor of Moscow's wife, three and a half million. Well gee, Hunter, what did you do? You gave her some big advice I guess, out there, right?

Donald Trump: (24:25)

And then they go to China, he takes out one and a half billion dollars to manage, which is millions and millions of dollars a year. And then the big one, I guess he had to stop that one because they found the laptop from hell. But the big one was a request to China to pay them \$10 million a year for recommendation services, for services. No services, it's a payoff. Hey, you know what it is? It's a payoff. And the big guy gets 10%. He's not a big guy. He's a little guy. The big guy gets 10%, and there was another one where the big guy gets 50%, right?

Donald Trump: (25:11)

But he wanted \$10 million a year, and the tech and the media will not ... wait, the media will not ... this is actually a very big moment in the history of our country because we have freedom of the press. But we don't. We have suppression by the press. It's suppression. And if anybody even mentions that story ... you don't see that story in the New York Times. You don't see ... that is the second biggest scandal in the history of our country. First is that they spied on my campaign, that's the biggest scandal. And they've got everybody scared, but you have a president that wasn't scared.

Donald Trump: (25:48)

And I see it with Twitter trending. I know what trending is better than anybody in the world. I've been trending my whole life. From the day I was born, I've been trending. I know trending. They take a story, they make it worse. Boring story, boring stuff. They'll take something and they'll say, "Number one trending, Trump this. Number one trend ... " it's not trending. What trends is stuff that you don't want to talk about right now, not having to do with me either by the way. Look, what we have, and what's happened, and you've seen it all over the last two weeks, is a horrible, horrible thing. The media is fake and corrupt. Big tech controls the media and they control the politicians.

Donald Trump: (26:39)

And you know what? You have a president that's willing to say it. And it's a very, very big event. And let's say ... and I'll tell you what. I give Tucker Carlson and I give Sean Hannity and I give Laura ... I give all the people that are willing to talk about it. No, the Tucker reports have been phenomenal. I give all of those people that are willing to talk about tremendous credit, because people don't have any idea how dangerous this is for our country.

Donald Trump: (27:09)

They won't even think about ... a guy walks away with millions of dollars. He's vice president, his son's like a human vacuum cleaner. He follows his father and he takes the scraps. But the scraps are hundreds of millions of dollars. And we can't let this happen. We're putting a corrupt man up for possibly being elected. But here's the story. I don't think that's going to happen. I think we're going to have a tremendous day tomorrow.

Donald Trump: (27:41)

And when he announces his speech in Scranton, Pennsylvania, he said, "I live in Pennsylvania. I was born in Scranton." He doesn't say that his father left him. There's nothing wrong with that. I went to college in Pennsylvania, right? But I don't make the biggest deal of it. But he's ... "I'm a man from Scranton. I'm from ... " He left at nine years old. And that's okay. That's okay. But this guy is a stone cold phony, and honestly, he's not equipped mentally to be your president. He really isn't.

Donald Trump: (28:16)

You know it, I know it, everybody knows it. I have foreign leaders calling me saying, "Are they serious?" I say ... One of them called, said, "I see that you're down a little bit in the poll." I said, "Can you believe this could happen to me?" I'd rather run against somebody that was good or even outstanding. But I think what we're going to have is one of the great days. When he comes to Scranton, then he gives a speech, he's got the six circles. He can't fill them up. So he said,

“Could you please move over here to the press?” He puts the press [inaudible 00:28:48]. And look at this crowd. I don’t know how many people are here, but there’s a lot of people here. And it’s windy as hell and it’s cold, but I couldn’t care.

Donald Trump: (28:58)

Look at that flag. Oh, it’s so beautiful. Look, I’ve never seen a flag blow like that. You know what that means? That means it’s windy as hell. That’s what it means. Wow. Look at that. That’s sideways, but it’s our American flag and we love it, right? Yesterday, I was thrilled to be endorsed by the Pittsburgh Post Gazette. Can you believe it? Pittsburgh Post Gazette, and it’s the first time I’ve ever really liked that paper. And then once you get rid of the first one or two paragraphs, it was great. He said, “You might not like his tone. You might not like the way ...” and again, I’m a nice guy. I have to fight. I have to fight to protect me and to protect you. Because once I’m not here, there’s nobody else to protect you, that I can tell you. But they gave a beautiful ... you have to understand, everything’s relative. They gave a beautiful, beautiful editorial, and I appreciate it.

Audience: (29:57)

We love you.

Donald Trump: (30:04)

It’s the first time, thank you. I’m telling you, you’re going to make me cry with that. Stop. The president broke down in tears as they screamed, “We love you.” I don’t know if president Xi of China wants to hear that. Yeah, he probably worked like that. The first time the papers endorsed a Republican for president in over a half a century. So to the people of the Post Gazette, I would like to thank you. I will forgive you for your first one or two or three paragraphs, because they said, “However, he’s done a great job.” And I have, I’ve done a great job.

Donald Trump: (30:44)

But he said, “Put his personality aside,” but I’m telling you, the assault on this office has changed my personality. I can’t ... it’s just one of those things. Joe Biden is bought and paid for by big tech, big media and powerful special interest. They own him, they control him, and they know he will always do their bidding. And when he raises 300 billion like last month, I could raise much more than him. I’m president. I could call all these Wall Street guys, most of them I know. I could call the oil guys, I could call them all. I would be ... I would blow his numbers apart. Give me two hours. I say, “Send me 10 million ... we don’t need it. How many commercials can you buy?” We raised a lot of money.

Donald Trump: (31:31)

We raised enough money. Crooked Hillary last time outspent us four to one. And I actually got criticized. I said the other day, even against Hillary Clinton, he didn’t raise that much money. And you won the race, right? They don’t care if you won or not. They said they always have to find something. But I would be the greatest fundraiser of time. “This is the president of the United States calling for the head of Goldman Sachs.” “Hello? How are you, Bill? Is everything good? Now listen, I’d like \$25 million within the next five minutes. Send it to the White House, please.” What, do you think he’s going to say no? I would be the greatest, but you know what? I chose not to do that.

Donald Trump: (32:18)

And when you see he raised \$300 million, his people are making deals all over the place. Every corrupt force in American life that betrayed you and hurt you, they’re supporting sleepy Joe Biden. The failed establishment that started the disastrous foreign wars, they support Biden. The career politicians that offshored your industries and decimated your factories and you got it worse than anybody else just about. New England was hit hard too. They support Biden. The open borders lobbyists that killed our fellow citizens and gave them illegal drugs destroyed our families and so many people, the gangs and crime, they support sleepy Joe Biden. The far left Democrats that ruined our public schools, depleted our inner cities, defunded our police and demeaned your sacred faith and values, they support Joe Biden. And I see where they wanted to defund your great Philadelphia police. And you have great police. They want to defund your Philadelphia police. Have you seen that? They actually wanted to defund.

Audience: (33:27)

Back the blue.

Donald Trump: (33:41)

They wanted to defund your police. I read it this morning. I don’t know. I don’t think that’s a good idea. I don’t think people should take it. You can’t take it anymore, right? You can’t allow it to happen. And every place we’ve got into within a half an hour, it was over. But they have to ask the federal government. They’re embarrassed or they’re afraid or they think they’re going to lose support. We want to go into Portland, we’ll settle that in two minutes. We were the ones that did the whole thing in Seattle. We told them we were going in the following morning. That night, they raised their hands. They said, “Well, I think we’ll leave now.” They took over a big chunk of Seattle. Now we can’t allow this stuff. If you look at what’s going on in Philadelphia, you look at what’s ... that can’t be done. And they can’t tell the police to stand] back.

Donald Trump: (34:22)

They can’t tell them. They stand back and they watch people walk out with washing machines. A guy’s pushing a washing machine. That’s a disgrace, it’s a disgrace. And the world watches that. They’re all Democrat run cities and states. New York, Chicago, unfortunately, Pennsylvania, and many of them are closed, right? Because you know why they’re closed? Because they thought it would hurt our numbers, and then they saw 33.1. That was a big number. The anti-American radicals defaming our noble history, heritage and heroes. They support Joe Biden. Antifa and the rioters and looters and Marxists and left wing extremists, they all support sleepy Joe Biden, sleepy Joe.

Donald Trump: (35:17)

And by the way, just so you understand, because look, Joe has no clue. Joe’s not calling the shots. And I guarantee you, he won’t be calling them for very long. This election comes down to a simple choice. Do you want to be ruled by the corrupt, selfless political class, or do you want to be ruled and governed by the American people? Which is what we’re doing, which is one of the reasons I’m here. A vote for Biden is a vote to give control of government over to the globalist, communist, socialist, the wealthy liberal hypocrites, who want to silent, censor, cancel, and punish you. If you want your children to be safe, if you want your values to be respected, if you want to be treated with honor, dignity, and respect, then I am asking you to go tomorrow and vote for Trump. Come on.

Donald Trump: (36:14)

Well, it’s up to you really. You got to get out. I’m telling you ... again, I’ll say it again and again, Pennsylvania, I’ve done very well. You’ve had your best years ever. Pennsylvania. It’s going to be up to you. Such a big deal. Big state, everything ... and we’re doing great in Florida. Florida’s been great. You notice they’re not talking about Florida anymore. Florida has been great. We’re doing great in Florida. So we get Florida. We get Pennsylvania. We’re going to get North Carolina. We’re doing great in North Carolina. You saw the poll come out yesterday in Iowa, way ahead in Iowa. We’re way ahead in Ohio, except we get sometimes a fake poll. We’re way ahead. We won Ohio by eight points. They say we’re further up than that this time, because everything I talked about, we have done, and more. We’ve done more than I talked about. Remember what I said four years ago? I am your voice and we will make America great again, and that’s what we’re doing.

Donald Trump: (37:42)

For the last four years, the depraved swamp has tried everything to stop me because they know that I don’t answer to them, I answer to you, and it’s true. We did this together. This is a movement, the likes of which this country ... in a way the world probably, but this country has never seen. You take some of the things that have happened over many, many years. A politician runs and comes in second in New Hampshire, becomes famous for the rest of his life. We won ... well, we won everything this time. We won 100% of the states and the primaries, right? But we won 34 states against a crooked person, a very crooked person. By the way, how crooked is Hillary? She deleted 33,000 emails. What’s happening with that? But we won. We won like nobody’s ever won. Nobody’s ever won like we’ve won. No, the likes of which nobody’s ever seen anything like it.

Donald Trump: [\(38:45\)](#)

And just to get off that subject for a second, 2016, we had a campaign, nobody's ever seen anything like it. Can I be honest? There is much more enthusiasm for this campaign than there was four years ago, because four years ago I came and I was a successful guy, and I said, "We're going to do this. We're going to cut your taxes. We're going to get rid of regulations. We're going to rebuild your military. We're going to this or that or that or that." And I did everything and more than everything.

Donald Trump: [\(39:18\)](#)

We're going to take care of our vets. We just got a 91% approval rating from the vets on the VA. Okay. No, but think of it. We did everything we said we were going to do, but there is much more. And you know what? That was a record. There was never a campaign ... nobody's ever seen a campaign like that. That and Brexit ... look at him. We have Nigel. I spotted Nigel. Ah, Nigel. But I actually did see a list, Nigel. They said the victory of President Trump was number one. Brexit was number two, but it was a distant number two. And even Nigel agrees with that. No, Nigel has been fantastic. What a voice. Great voice.

Donald Trump: [\(40:03\)](#)

Nigel's been fantastic. What a voice. Great voice. Great guy. Thank you. Thank you. It's an honor to have you. It's an honor. They know Nigel. Brexit, Mr. Brexit. But the level of enthusiasm and I think you're going to see a great red wave tomorrow. And I think it's going to blow them away and we get Florida and we get Pennsylvania and we're going to get New Hampshire. We're going to get New Hampshire. Get New York. Can you believe that? See the disadvantage we have, the disadvantage we have, because I think in certain ways you campaign totally differently. The disadvantage we have with the electoral college, you automatically lose, automatically. I don't care if you bring back Abraham Lincoln and George Washington as his running mate, you lose New York, Illinois, and California. Okay.

Donald Trump: [\(41:06\)](#)

So now you got three of the biggest and the biggest, but you have three monster states. That's an automatic loss. So you're starting off so then you have to run. And so we ran Florida then we got Georgia. By the way, we're doing very well in Georgia. We got Georgia, we got North Carolina, we got Pennsylvania. That was a very important deal. We got Pennsylvania. We got everything. Then we got Wisconsin and Michigan. We said, "Whoa." Remember they wouldn't give you the credit. We were two points short. We were at 98% of the vote tabulated, 98, and it stayed there for hours.

Donald Trump: [\(41:43\)](#)

And if I lost every single vote, right, every and I still went in. So I said, "Why aren't they calling Pennsylvania?" They wouldn't do you the honor. And then they called Wisconsin, great state. And they called Michigan, which hadn't been won in years and years. And they took the glamor. So will you please give yourself the glamor this time? Give yourself the glory. Okay. And make sure your governor doesn't cheat, okay, if you could because they're known for very bad things, very, very bad things here. Can you imagine the pollster saying you have to allow 5% in Pennsylvania for cheating. That's a terrible thing to say. Of course, everybody knows it's true, but no. But we have a lot of eyes watching. They never had eyes watching. We got a lot of very powerful eyes watching them. They don't want that to happen to themselves. Together we will defeat the corrupt establishment and we'll dethrone the fail political class.

Donald Trump: [\(42:37\)](#)

We will drain the Washington swamp and we will save the American dream. We're going to save the American dream. This election is also a choice between a deadly Biden lockdown or a safe vaccine that ends the pandemic and we build the greatest economic country that we've ever had. There'll be nothing like it. We will mass distribute the vaccine. We've done such a great job with this whole thing. You look at Europe, they're spiking, and it's everybody that say, "Look at the way Germany is doing. Look at the way France is doing. Look at Spain, look at now, Italy, right." Italy in a really rough patch. Then it went well, they're all having a lot of problems. I said, "Well, they don't use those examples anymore," but we have better numbers than all of them.

Donald Trump: [\(43:28\)](#)

You look at our numbers, they're better, and it's bigger and a lot of the numbers you don't get because believe it or not, there are some countries that don't give you an honest kick, right. You know that right? It will quickly eradicate. The vaccine will quickly eradicate the virus and wipe out the China plague once and for all. And let me tell you we're rounding the corner anyway, but we have the vaccines coming very shortly. They didn't want to give me the credit. They were saying, "No, don't." Whoa, they fought me like crazy. Did you see that? They didn't want it to happen before the election, but everybody knows. So we have the vaccine. It's going to be very quickly delivered by our military. Our military is ready to go logistically. Joe Biden is promising to delay the vaccine and turn America into a prison state locking you in your home, but you're already locked in your home.

Donald Trump: [\(44:17\)](#)

So I hope that doesn't take away any of your incentive. You're already locked in your home while letting far left rioters roam free. Isn't that something right? You can't go to church. You can't take your family to dinner, but you can let people riot down the middle of your beautiful shopping streets, knocking the hell out of people, burning down your stores like in Minneapolis, burning the hell out of the place until we sent in the National Guard. That ended in 31 minutes. It was amazing when they started getting whacked with tear. I hope they weren't aiming. Did you see Ali Velshi? He went down, Ali. I don't even know who the hell he is.

Donald Trump: [\(44:59\)](#)

I just know he does a very nice job of shaving his head. This is Ali Velshi and this is a friendly protest. And behind him, the entire city is burning. It's like Berlin on its worst day, right. They don't report. If you have a bad in a Democrat run city, they don't report it. I don't watch CNN actually so I don't know about it, but I did see the clips. And then the Allie Velshi then get hit on the knee with tear gas from our great National Guard. No, he got hit. He went down. I'm down, I'm down. What a group of people. CNN, how dishonest is CNN. But you know what? I think NBC is more dishonest than CNN.

Donald Trump: [\(45:51\)](#)

I think NBC and ABC. I think ABC is terrible. I mean, ABC is absolutely. How about where they interview me and every question is a kill. They go in for the kill and then they interview Sleepy Joe. And it's like, "Oh, the most boring interviews." They don't ask him anything. They don't ask him whether or not he's corrupt. Are you corrupt? Hey, Sleepy Joe, are you corrupt? Remember I asked him that question and Chris Wallace of Fox wouldn't allow it. I said, "Why? Why? Why won't you?" Well, I don't think it's appropriate to ask right now. Chris Wallace, he is not Mike. He will never be Mike. He tries hard, but he will not be Mike. You know why? Doesn't have the talent. The Biden lockdown will be no school, no graduations, no weddings, no Easter, no Thanksgiving, no Christmas, no 4th of July, and basically no future for American youth.

Donald Trump: [\(46:44\)](#)

Other than that, actually, it's quite a wonderful thing. A vote for Biden is a vote for lockdown, layoffs, and misery. You're going to have a miserable time. You know what the fake news doesn't know? They're getting the highest ratings in the history of television. When Trump is gone, they're all going bankrupt. They will go down. They're going to say, "Oh, I wish..." They're going to be calling we want Trump to run again. We want him to run again, the fake news. The New York Times, the failing New York Times will be out of business. Can you imagine? Yeah, four more years. It's true though, right. Can you imagine these people, they're getting the highest ratings on television. They've taken over for the NFL. People don't like. How about basketball? How about LeBron? I felt badly for LeBron. I felt very badly. Down 71%. And that's for the champion. I didn't watch one shot. I get bored. Back, forth, back, forth. You know why? When they don't respect our country, when they don't respect our flag, nobody wants to watch. Nobody. And the NFL is way down.

Donald Trump: [\(48:03\)](#)

The NFL is way down. You got to stand for our flag. You got to really be great to our flag and to our anthem. And if you don't do that, we're not watching.

Speaker 2: [\(48:12\)](#)

LeBron James sucks. LeBron James sucks. LeBron James sucks. LeBron James sucks.

Donald Trump: (48:12)
What a crowd.

Speaker 2: (48:12)
LeBron James sucks. LeBron James sucks. LeBron James sucks.

Donald Trump: (48:22)
What a crowd.

Speaker 2: (48:22)
LeBron James sucks.

Donald Trump: (48:26)
Hey, I have three more of these to do. Do you want me to stay with you all day? Yes. So yesterday I did five. I actually did six because I did one early for some people, but I actually did six, but I did five. I got home at two o'clock in the morning in Miami. I got home two o'clock in the morning and I said, "Good, what time do we start tomorrow?" Eight o'clock sir. I said, "Great. Let's go." But you know what it is? I'm doing a run, a great, great marathon, everyone. One thing I'll say, they say I can't believe because Sleepy Joe will go out. He'll talk for 10 minutes. He's very agitated. You notice? He's so angry. He's got the shades on now. They should be a little bit larger. The aviators, right. Are they called aviators? He's got the aviators on and he's so angry. And he's reading every word. He never goes off teleprompter because he gets lost.

Donald Trump: (49:24)
He can't go off teleprompter. He gets lost. No, but the anger, but it's not really anger. It's agitation. You know what that means right? That's what happens is when you lose it, it can happen to all of us someday, but you can't let it happen to your president. I'm sorry. But he was so angry. He was so agitated this morning. The glasses were pouring off. The mask kept on, off, on. There's nobody around him. The closest person's about 60 feet away, a reporter that's can't believe he got this good location in the inner circle that's supposed to be for VIP's, right. Now he's got Lady Gaga. Lady Gaga is not too good. I could tell you plenty of stories. I could tell you stories about Lady Gaga. I know a lot of stories about Lady Gaga. And Jon Bon Jovi, every time I see him, he kisses my ass. Oh, Mr. President. He'll get something out of it just like everyone is. But you know what happens? You bring in some of these, they don't draw. By the way, we draw much bigger crowds than these people. But you know what happens?

Donald Trump: (50:38)
He'll sing a song or two and then he'll leave and the crowd will leave and Sleepy Joe's up there talking. That happened to Hillary too, right. They got Beyonce and they got Jay-Z, right, Jay-Z. And he started using the F word, do you remember, in front of this crowd. And it was unbelievable. He was using the F word, F word, F word, and the crowd is going. And then they laughed and the crowd laughed. And Hillary was standing on the stage with an empty place and she was talking and she lost and people were surprised. Let me tell you something. When you look at these crowds that we're getting, there's never been anything like it. This is just not the crowds. This is your ultimate poll. This is not the crowds of a second place finisher.

Donald Trump: (51:24)
They said yesterday, they said, "Well, some people are here since, Nigel, they're here from 24 hours, 48." We have people in line for three, four days, and then the press says, "But will they vote?" Well, wait a minute. They're willing to go. They're willing to wait four days, three days, two days, one day online. Will they vote? Will they send there for an hour and vote? I think they're going to vote. Who is going to vote? Okay. And seriously, is there anybody here who's going to vote for Sleepy Joe? No. No. Is there anybody that would have the courage to put up their hand? No.

Donald Trump: (52:11)
Ah, but he was born in Scranton. What a phony he is. He was born in Scranton. I'm a Scranton boy. Did you see I'm tired of the smart people? Did you see where he said he is. I'm tired of those smart people. But we want a smart person as president. You got to have a smart. No, he said it. He made a lot of bad moves yesterday, didn't he. He was having a bad day yesterday. He's tired of smart people. No, can't get too tired of them. To me, that's an amazing statement. If you want a vaccine to kill the virus, a job to support your family, and freedom to live your life, then go cast your ballot. You cast your ballot. We're changing. We're changing things too. You could say what it used to be, but maybe it used to be a little bit like this, but it was never like this. Things change I think with big tech. I think it really changed. Joe Biden personally ran the swine flu, right. He ran H1N1. Remember he can't remember that. He always goes no, N1H1 isn't it? No, H comes before N Joe, just remember it that way. H1N1 swine flu. Remember he said the what was that called? Who was that governor from I think it was Utah? He's a Mormon. What was his name? His name was Romney. Oh great. He's another beauty. He failed horribly and he was the laughingstock of Washington so he ran the swine flu operation. He was the laughing stock of Washington. Now, when something much more lethal that we have done a great job on except with public relations. I would say if I had Nigel handling my public relations, I would have been much better. We have done a great job on this and you compare us to other places and you see and bringing back the economy, opening it up except in public relations.

Donald Trump: (53:59)
But his own chief of staff said that he was absolutely terrible. He didn't have a clue. He didn't know what he was doing. And he told us, right, that I was xenophobic because I closed it to China, which was highly and heavily infected. And then he runs it and he says I should have closed it earlier. I said, "How does he get out of that one?" You know how he gets out of that one? The press doesn't report it. They refused to report it. The only way I can do that is look, I got all live television, all the lights, and the only way they can't keep it off only for one reason, I get very big ratings.

Donald Trump: (54:32)
If I didn't get big ratings, there'd be no way of communicating. Oh, and they're going to miss those ratings someday. Someday, they're going to miss them. Secretary of Defense Robert Gates said that Biden has been wrong on nearly every single major foreign policy and national security issue over the past four years. Now, he with Biden. He worked with him and he said he was wrong on everything, and he is. And he is, but you don't have to take my word for it because this happens to be a state that allow, I spent a fortune on building these screens. You've got two of them. Wow. Usually I bring one. It's a lot cheaper. Roll the video, please. Roll it.

Speaker 3: (55:17)
Joe Biden, Joe Biden. (singing). Joe Biden.

Speaker 4: (55:28)
Have you taken a cognitive test?

Joe Biden: (55:30)
No, I haven't taken a test. Why the hell would I take a test? Come on man. That's like saying you, before you got in this program, did you take a test where you're taking cocaine or not? What do you think, huh? Are you a [inaudible 00:55:43]? Bu the way, this is my little sister, Valerie, and I'm Jill's husband. Oh no, this is [inaudible 00:55:48]. Oh, you switched on me. This is my wife. This is my sister. They switched on me. But I tell if you have a problem figuring out whether you're for me or Trump, then you aren't black. There is not a single solitary reason in the world why. Why, as I said, we shouldn't be in a position that everybody and that's my wife, Jill. Hey Jill. I'm Jill's husband actually.

Joe Biden: (56:14)
And corn pop was a bad dude and he ran a bunch of bad boys and I did. And back in those days, you see how things have changed. Play the radio, make sure the television... Excuse me, make sure you have the record player on at night. The phone... Make sure the kids hear words. We hold these truths to be self evident. All men and women created by you know the thing. Because if you could take care if you were a quartermaster you can sure in hell take care running a department store and the second floor, the ladies department. Well, I'm sick and tired of smart guys. The rapidly rising in with... I don't know. You ever been to a caucus? No you haven't. You're a lying dog faced pony soldier.

Speaker 5: [\(57:17\)](#)
Why attack Sanders?

Joe Biden: [\(57:17\)](#)

Why, why, why, why, why, why, why here? You're getting nervous man. What kind of country are we going to be? Four more years of Georgia, Georgia, we are going to find ourselves in a position where if Trump gets elected, we're going to be in a different world. Lie after lie after lie after lie. We have to come together. That's why I'm running. I'm running as a proud Democrat for the Senate. And by the way, I sit on the stand and they get hot. I got hairy legs that turn blonde in the sun. And the kids used to come up and reach in the pool and rub my leg down so it was [inaudible 00:58:02]. And then watch the hair come back up again. They look at it. So I learned about roaches. I learned about kids jumping on my lap and I've loved kids jumping on my lap. Barack and I think it's a right for people to have bad health care. We have to do at least several things.

Joe Biden: [\(58:19\)](#)

One, we have to depend on what the president's going to do right now. And first of all, he has to tell wait till the cases before anything happens. Look, exacerbating the need for environmental justice. Sorry, that was a bug. Folks, we got a lot of work to do. I don't really need you to get me elected. It's a case where we cannot let this. We've never allowed any crisis from the Civil War straight through to the pandemic of 17 all the way round 16, we have never, never let our democracy sakes second fiddle way the way that we can both have a democracy and elections and at the same time, correct the public health. Everywhere I've been hearing all around the country. You're trying your breast, but it never feels like enough. And here comes the train that he tried to make sure didn't continue to go out front. No, that's the commuter. All right, but folks, look. Anyway, I am very willing to let the American public judge my physical as well as my mental fitness. I'll lead an effective strategy to mobilize [inaudible 00:59:39]. (singing).

Donald Trump: [\(59:37\)](#)

All right. All right.

Donald Trump: [\(01:00:00\)](#)

All right. We shouldn't be laughing. Don't let that happen to our country. By the way, that was just a small... We could keep you there all day watching that. No, we can't let that happen to our country. We're joined by some real warriors, Dan Wowski, [Mouser 01:00:27]. Where's Dan? Where are you, Dan? Dan, Congressman? Where are you, Congressman? Where's Dan Meuser? Meuser?

Donald Trump: [\(01:00:39\)](#)

Thank you very much. Thanks, Dan. Fred Keller, GT Thompson. That's good. With you, with the three of you, what warriors you've been. What warriors you've been and thank you very much. They were there at the beginning and they have been with me all the way. And you have a couple of former members that we love that we think are great, Lou Barletta and Tom Marino. Thank you very much, Tom, Lou. Thank you. Thank you very much.

Donald Trump: [\(01:01:07\)](#)

How are your elections going by the way? Dan, how are you guys going? You're doing good? We're going to win Pennsylvania. It's a guaranteed [inaudible 01:01:17]. That's good. [inaudible 01:01:22], you got to vote for those guys. That's a great group. So your districts are looking good. You need an extra tweet or anything? You don't need? This group doesn't need anything. And also thank you fellows for coming. When are you going to re-run for office, Tom and Lou? Do you have anything you're thinking about? Look at them. They look healthy as can be.

Donald Trump: [\(01:01:44\)](#)

Congressional candidate, Jim Bognet. Thank you, Jim. Thank you.

Donald Trump: [\(01:01:54\)](#)

And a woman who is doing an incredible job, campaign chair, Bernie Comfort. Bernie, thank you. How's it going, Bernie? We're going to have a big victory tomorrow I think, huh? We're going to have a big one. We better, Bernie. I'll fire you so fast.

Donald Trump: [\(01:02:11\)](#)

Another great friend of mine, a great guy, David Urban. David. David, thank you, David. And somebody that I know very well. He's a tall young gentleman. His name is Eric Trump and he's been great. He's done great. Oh, and I see Jared Kushner right over here. Middle East peace. Middle East peace. Wow. Jared usually likes to stay in the plane and work. He's working on Middle East peace and doing a great job. You see what we're doing. Thank you very much.

Donald Trump: [\(01:03:05\)](#)

For decades, our politicians spent trillions of dollars rebuilding foreign nations, fighting foreign wars and defending foreign borders, but not defending our border. But now we're finally protecting our nation, rebuilding our cities and we are bringing our jobs, our factories, and our troops back home to the USA where they belong.

Donald Trump: [\(01:03:29\)](#)

For 47 years, Joe Biden viciously attacked black Americans. He called young black men super predators all the time. To every black American, go tomorrow and vote for Trump.

Donald Trump: [\(01:03:49\)](#)

This is your one and only chance to show sleepy Joe Biden what you think of his decision to attack you, jail you and betray you, which is what he did. I'm fighting for you. And I got criminal justice reform, prison reform, Opportunity Zones with Tim Scott. Tim Scott, the Senator from South Carolina who is great. And funding for historically black colleges and universities. We got them the funding, long-term funding. And I say it all the time, I say it like this, with the possible exception of Abraham Lincoln, a lot of people like me to leave the word possible out. There is no president that has done more for the black community than Donald Trump. It's true.

Donald Trump: [\(01:04:38\)](#)

And you're seeing that by the way... You see what's going on in Florida? The numbers are very high, like nobody's seen before, with the black community and with the Hispanic American community. Oh, the Hispanic American, they're liking Trump. I've done a lot for them and they like me and I like them. I always have actually. And they are voting for us very big. They're coming out in Florida in numbers and the Democrats are very worried. They say, "What's going on? What's going on?" You know what's going on? I've done a good job. That's what's going on. So I want to thank... We have to see what the final numbers are, but I think I can say in advance, African American community, Hispanic American community, it's been incredible what's gone on in Florida. Thank you very much. Thank you very much. You notice they're not talking about Florida too much, right? They're not talking. We get Florida, we get Pennsylvania. You watch.

Donald Trump: [\(01:05:35\)](#)

Under my leadership, we achieved the most secure border in U.S. history. You know the wall, the wall is over 400 miles long. It will be finished soon. And they don't talk about that one anymore either, do they? Don't talk about it. When you have success, they never talk about it. And you know what's happening, you know what's going, right? I mean, other countries are coming in. They're studying what we're doing. All over the place, they're studying because what we've done, nobody's been able to do. Joe Biden has pledged open borders, free healthcare for illegal aliens. No, not for you. No. See, I delayed that a little bit. Free healthcare for illegal aliens. They want to give them more than they give us and deadly sanctuary cities. We believe our cities should be sanctuaries for law abiding Americans, not for criminal aliens.

Donald Trump: [\(01:06:29\)](#)

The Biden-Harris plan would increase refugees from terrorist nations by a staggering 700% flooding into your towns and cities. I am keeping, if it's okay with Pennsylvania, I am keeping radical Islamic terrorists the hell out of our country. Is that okay?

Donald Trump: [\(01:06:51\)](#)

I passed a ban early on and it ultimately got approved by the United States Supreme Court. But I passed a ban because we want people coming into our country that could love us and come in through merit and all sorts of things. We don't want people coming into our country that hate us, can't stand us and want to do harm to our citizens. Okay? So the ban was quite controversial, but it's had a big impact. It's had a big impact.

Donald Trump: [\(01:07:20\)](#)

And one of the reasons we're going to win Minnesota? Ilhan Omar, Ilhan Omar. Although she loves our country very much. She loves our country very much, doesn't she?

Donald Trump: [\(01:07:34\)](#)

We invested \$2.5 trillion in the United States military. We have the finest military, the finest weaponry in the world, all made in the USA with the envy of Russia and China and North Korea. We have the best equipment in the world, rockets and missiles and submarines and everything that we're building. Nobody's ever seen anything like it. \$2.5 trillion made in the USA. We also passed veterans, we passed for our veterans, VA Choice after 44 years and VA Accountability. Okay. VA Account... That's where you say you're fired, get the hell out of here. You're not treating our vets right. I told you we got the highest rating, the highest approval rating that has ever been given by our vets. 91% approval. Who are the nine percent? Oh, they'll find somebody within the nine percent. They'll be on television.

Donald Trump: [\(01:08:28\)](#)

We obliterated 100% of the ISIS caliphate. We killed the leader of ISIS, al-Baghdadi. We eliminated the world's top terrorists. Soleimani is dead. I recognized the capital of Israel and open the American embassy in Jerusalem. I also recognized Israeli sovereignty over the Golan Heights. 52 years, they worked on it for 52 years. And instead of endless war, we are forging peace in the Middle East. Good job he's doing. Good job [inaudible 01:09:08].

Donald Trump: [\(01:09:11\)](#)

A vote for me and the Republican party is a vote for the American dream. And who was a very distinguished person within the Republican party? The late great Abraham Lincoln. Please remember that. He was very presidential. He's the only one I said, "Maybe I can't be that presidential," but he was very presidential when he wore the hat especially, right?

Donald Trump: [\(01:09:38\)](#)

Over the next four years, we will make America into the manufacturing superpower of the world. And we will end our reliance on China once and for all. That's already happening. We will hire more police, increase penalties for assaults on law enforcement. And we will ban deadly sanctuary cities. You've got them, you've got them.

Donald Trump: [\(01:10:01\)](#)

With God's help, we will defend the right to life, religious liberty and the right to keep and bear arms. Your Second Amendment is gone if I don't get in. If I don't get in, your Second Amendment, wave goodbye. And I'll be sitting home and I'll be saying, "I told the people of Pennsylvania, you better vote for Trump." No, your Second Amendment is under siege. That's right. We put [Amy 01:10:37] on. You're happy with Amy? Everyone loves Amy. Thank you. You know we do. They don't talk about that enough. They say it's the most important thing a president can do.

Donald Trump: [\(01:10:47\)](#)

So at the end of my first term, I will have approximately 300 federal judges, which is a big a big percentage of the Judiciary and three great Supreme Court justices. That's a lot.

Donald Trump: [\(01:11:02\)](#)

Many presidents have gotten to choose. Hey, whatever happened to packing the court? This guy's running, he never gave an answer. Maybe he's smarter than we think. Whatever happened? He never gave the answer. He never said. He said he was going to tell us. We're running. People are casting votes. You cannot elect somebody that's going to pack the court and he's going to pack the court. And he didn't give us a list of the radical left judges who wants to put on either. So he got away with it. So he got away with it. He just did because the press never pressed him. Right? See, there's a case. If that were me, I could never, ever get away. He got away with it because the fake news wouldn't press it. He never talked about packing the court and we're voting right now. He shouldn't get a vote unless he tells you because he will destroy this country. That's a big thing, packing the court. Can you imagine? But they never picked it up.

Donald Trump: [\(01:11:52\)](#)

We will maintain America's unrivaled military might and we will ensure peace through strength. We will end surprise medical billing, require price transparency, lower drug prices. We're doing favored nations. We're going to have the lowest prices anywhere in the world. The drug companies hate me so much, ai-ai-ai. They are spending more money on ads than sleepy Joe Biden. And we will always protect patients with pre-existing conditions. America will add the first woman on the moon and the United States will be the first nation to land an astronaut on Mars. NASA. NASA was like an abandoned place, to now it's the hottest. It's the hottest place in the world for space. And that goes along with Space Force, doesn't it? We did Space Force. We never even talked about Space Force on the campaign, but we needed it. When I saw Russia, when I saw China, we needed and we got it approved.

Donald Trump: [\(01:12:51\)](#)

We will stop the radical indoctrination of our students and restore patriotic education to our schools. We will teach our children to love our country, honor our history and always respect our great American flag. And we will live by the timeless words of our national motto, "In God we trust."

Donald Trump: [\(01:13:18\)](#)

For years, you had a president who apologized for America. Now you have a president who is standing up for America and standing up for the great people of Pennsylvania. I know you well. I know you well. You're a rowdy bunch today, but that's okay. It's rowdy, but it's rowdy with love. It's rowdy with love. [inaudible 00:13:44].

Donald Trump: [\(01:13:53\)](#)

Tomorrow, you have the power with your vote to save America. We will never be a socialist nation. That's what we're talking about. You're going to be a large scale version, very large scale, of Venezuela. That's what happens. It happens every single time. So get your friends, get your family, get your neighbors, get your coworkers. Even grab your boss by the tie and say, "Come on, boss, let's go. We got to vote. We got to vote."

Donald Trump: [\(01:14:25\)](#)

For generations, America's destiny was made, forged and won in places like Bethlehem and Bristol, Easton and Allentown, Pittsburgh and Scranton, right here in Scranton. Our American ancestors gave their blood, sweat and tears to defend our country and to defend our freedom. We stand on the shoulders of American heroes who crossed the ocean, settled the continent, tamed the wilderness, laid down the railroads, raised up the great skyscrapers, won two world wars, defeated fascism and communism, and made America into the single greatest nation in the history of the world. And the best is yet to come.

Audience: [\(01:15:11\)](#)

USA, USA, USA, USA, USA, USA, USA, USA, USA.

Donald Trump: [\(01:15:28\)](#)

Proud citizens like you helped build this country and together we are taking back our country. We are returning power to you, the American people. With your help, your devotion and your drive, we are going to keep on working. We are going to keep on fighting and we are going to keep on winning, winning, winning.

Donald Trump: [\(01:15:53\)](#)

We are one movement, one people, one family, and one glorious nation under God. And together with the incredible people of Pennsylvania, go out and vote

tomorrow. We have made America powerful again. Our military has never been as even close to what it is right now. We have made America wealthy again. We have made America strong again. We have made America proud again. We have made America safe again. And we will make America great again. Thank you, Pennsylvania. Thank you, Pennsylvania.

Crowd: [\(00:19\)](#)
USA. USA.

President Trump: [\(00:27\)](#)
Wow, what a crowd. What a crowd. Hello, Florida. Hello, Florida. We love Florida. What a great victory we had and we're going to have an even bigger victory. Get out there and vote. We're going to have a bigger victory. And I don't know if you found that you've been here a long time. I hope the music was good. I hope life is good. Everything's good. That's a good looking crowd. Good looking people, I will say. No, we're going to have a big victory. I don't know if you know what's happening, but...

Crowd: [\(01:07\)](#)
We love you. We love you. We love you. We love you. We love you. We love you. We love you. We love you.

President Trump: [\(01:19\)](#)
I don't know if you know what's happening, but they're very worried, the Democrats about Florida. They're very concerned. The vote's not there. It's not there for them. They had to get out to that big early lead and it could be that we're leading, that's a little problem. Two days from now, we're going to win, my home state of Florida and we are going to win four more years in the White House.

Crowd: [\(01:47\)](#)
Four more years. Four more years. Four more years. Four more years. Four more years. Four more years.

President Trump: [\(01:59\)](#)
It's a very vital group, isn't it? With your vote, we will continue to cut your taxes, cut regulations, support our great police, support our great military, protect your Second Amendment, defend religious liberty and ensure more products are proudly stamped with that wonderful phrase, Made in the USA.

President Trump: [\(02:28\)](#)
Next year will be the greatest economic year in the history of our country. You see what's happening. You see it happening right before your eyes. Under my leadership, our economy is now growing at the fastest rate ever recorded in the history of our country. 33.1%. 33.1%. We created a record 11.4 million jobs in the last five months alone. Another record, record, record, we got many records. Now we have a chance to do something next year, even greater than last year, we had it the best ever and then we got hit by the plague from China and we will never forget. We're never going to forget it. And then we're building it up in a level that nobody thought possible leading every nation in the world by far. While foreign nations are in a free fall, we are creating an economic powerhouse unrivaled anywhere in the world. Nothing and no one in the world is doing what we're doing.

President Trump: [\(03:35\)](#)
Now, if somebody wants to quadruple your taxes, I can't tell you what's going to happen. I think I can. It's called the depression. A recent Gallup poll found that 56% of Americans say they are better off today than they were four years ago under sleepy Joe Biden and Obama. And if Biden and Kamala, Kamala, Kamala, most liberal member of Congress, she makes crazy Bernie look like he's a very strict conservative, and the radical left gain power the economy will collapse and our country will go into a very deep and steep depression. I hate to tell you. Look, we're not going to have to worry about it. If anything we're going to win.

President Trump: [\(04:28\)](#)
You know who else thinks we're going to win? The Democrats think we're going to win, the Democrats. They're starting to say, "This is not good." We're looking great here. We're looking great in Pennsylvania, North Carolina, Iowa. Did you see the poll just came out in Iowa? First big poll? We're only up eight. I'm very upset about that, we're only up eight. We're looking very strong, looking strong in Georgia. We just left the great state of Georgia. We're looking strong in Georgia. In fact, they said, "Sir, you don't have to go to Georgia." They said a couple of days ago, I said, "Wait a minute, people are waiting for two and a half days. I'm not going to cancel on Georgia." I've been doing this since early in the morning, only for you, I guess I could have canceled you too. Right? But nobody would have the courage to cancel you. Nah, I wouldn't even think about it. Thank you.

Crowd: [\(05:35\)](#)
We love you. We love you. We love you. We love you. We love you. We love you. We love you. We love you. We love you.

President Trump: [\(05:46\)](#)
Thank you. And I love you too. I love you too. We're all in this together. We're all in this together. Because as I've said many times, this will never ever, ever be a socialist nation. Sleepy Joe Biden will raise your taxes \$4 trillion. Can you believe it? He's the only candidate I've ever seen that campaigns on the fact, "I will raise your taxes," this guy. "I will take away your Second Amendment. We will not frack." For two years, "We will not have frack," then he got to Pennsylvania, he said, "Well, I was only kidding." Look at all the press at this time. At this... Look at that them. The fake news followed us. They followed us.

President Trump: [\(06:57\)](#)
The man, the man. Now, the only one I've ever seen do that. . . We don't worry about them. They don't tell the truth anyway so what difference. Just pretend they're not here. Pretend they're not here. They're having a very bad couple of weeks as you know. They've actually had a bad four years when you think of it.

President Trump: (07:21)

Massively increase regulations, we cut regulations more than any administration in the history of our country and they'll put them right back. Sleepy Joe, it won't be him because he has no idea where he is, but he's surrounded by a lot of very far left people. Close down your factories, send you jobs overseas, destroy the suburbs. I say, suburban women, please love me, please love me. Got a lot of suburban women, look at this. Wow.

Crowd: (08:09)

We love you. We love you. We love you. We love you. We love you.

President Trump: (08:09)

Don't forget suburban women, men also, but we don't worry about them [inaudible 00:08:17]. I'm terminating a regulation that has ruined suburbia. You too can have a project next to your house and I terminated. Oh, well we have... Is that the first sign of trouble in weeks?

Crowd: (08:41)

USA. USA. USA. USA. USA. USA. USA. USA. USA. USA. USA. USA. USA.

President Trump: (08:41)

All right. Is that okay? Is everybody okay over there? Is that, somebody went down or is it somebody that's trouble? Because if there's trouble, we have somebody right over here that can handle it very nicely. I guarantee, I bet everything in this guy right here. You know the one that make all the noises are people, somebody shouts, they have no voice, they're weak. They have no voice. Their mother's looking for them, their father's looking for them. They too live in a basement usually. And nobody can hear them. What they hear is thousands of people going to, "You, watch it." That's all right. Just pretend the person doesn't exist or get them out please.

President Trump: (09:38)

They want to terminate your religious liberty, outlaw private healthcare, confiscate your guns, your Second Amendment is under siege. Don't worry. As long as I'm here, nothing's happening. They want to ban fracking, abolish energy, cut your Medicare, cut your social security by allowing millions of people to come into our country and indoctrinate your children with anti American lies. That's where we are but it's not going to happen. You're going to vote and it's not going to happen. You know, we win Florida, we win the whole thing, you know that, right? We win Florida, we win the whole thing.

President Trump: (10:28)

Our opponents want to turn America into communist Cuba or socialist Venezuela and we're not going to let that happen. Our opponent's agenda is a war on workers, a war on faith and a war on our police. Biden says he's running as a proud Democrat. I'm running as a proud American. Is that okay?

Crowd: (10:52)

USA. USA. USA. USA. USA. USA. USA.

President Trump: (11:10)

Joe Biden is a globalist who spent 47 years outsourcing your jobs, opening your borders and sacrificing American blood and treasure in endless foreign wars. They're all coming back. They're all coming home, our great soldiers. We became policemen to the world. Well, for other reasons they could very well do that, couldn't they?

President Trump: (11:46)

Joe Biden is a corrupt politician bought and paid for by China. You see that? And others. In 2016, Florida voted to fire this corrupt political establishment and you elected an outsider as president who is finally putting America first. If I don't sound like a typical Washington politician, it's because I'm not a politician. Probably why we won. If I don't always play by the rules of Washington and the Washington establishment it's because I was elected to fight for you and I fight harder than anybody in this place, except one person, perhaps him. He's the only one that fights harder. Great guy.

President Trump: (12:44)

My opponent is promising a long dark winter. Did anybody happen to see the debate? See, that's my arena. That was my arena. Right? He didn't come out too good. He came out like your opponents come out. No, that was not good for him. How about the last question? We talked about energy, right? "Well, I'd like to transition out of petroleum." I felt like Perry Mason. The last question of the evening, I said, "Whoa, did you tell that to Texas? Did you tell that to Pennsylvania?" Even Kristen Welker, who frankly did not a bad job considering she's totally on the other side of the plate, she looked and she said, "Why did you say that?" She trying to save the poor guy. "This is what we got. Can you believe it. This could only happen to me."

President Trump: (13:45)

I don't care. I'll say it anyway. Look, this is in the history of presidential politics, this is the worst candidate ever to run. This puts a lot of pressure on me because if you lose to a guy like this, I'd rather really have a great candidate because you feel better. I'm running against the worst candidate in the history of presidential politics.

Crowd: (14:13)

MAGA. MAGA. MAGA. MAGA. MAGA. MAGA.

President Trump: (14:24)

Is there any place you would rather be than at a Trump rally? Got a lot of rich people here. My friend. You got a lot of... Oh, Steve. Hi Steve. We got a lot of rich people, a lot of money, a lot of money in this first row. A lot of money.

President Trump: (14:45)

I built the best economy in history, and now we're going to do it again. You know that hat. I see thousands and thousands of them. We're getting 35, 40,000 people all the time. We'd get more, but they don't have any more room. How about this? You take an airport, right? You take an airport, you don't have enough room. Did you ever think of that one? We have an airport. We don't have enough room. This is amazing. There's never been anything like this has ever happened in the history of politics. Probably on any other history and I don't have a guitar. You know the truth is... No, it's true. They don't get crowds like this. Nobody gets crowds like this. You know what gets crowds like this? Making America Great Again. That's what it does. It's the only thing that's going to get a crowds like this.

President Trump: (15:44)

Sleepy Joe had a rally today, they had 12 people in those little circles. It's got those little crazy circles. It's the only thing good about his campaign, the guy that does the work, I'm a perfectionist, they're so beautiful, nice and wide. And they can't fill them up so they get the media, "Could you please take a circle?"

President Trump: (16:01)

So they get the media. Could you please take a circle? And now he's got President Barack Hussein Obama comes in. President Obama.

Speaker 1: (16:18)

Lock him up. Lock him up. Lock him up. Lock him up. Lock him up. Lock him up. Lock him up. Lock him up. Lock him up. Lock him up. Lock him up.

President Trump: (16:28)

You know, the Democrats never talk about it. You know that federal judgeships are like the biggest deal, and then you have Supreme Court justices. Barack Obama left me 142 federal judges. Nothing like that's ever happened, nothing. Very rarely does it... You know, when you're a president, every one... You

leave; every one of them is filled. Those are the most important things you can have. Federal judgeships, lifetime appointments. It's such a big deal. He left me 142, and we are going to have ... Listen to this. We are going to have, in my first term, record-breaking, approximately 300 federal judges. It's a very big percentage of the whole federal bench. And we are going to have ... We just put a great one on: Amy. Three Supreme court justices.

President Trump: (17:32)

And whatever happened with Biden? He was going to say ... Is he going to pack the court? He just keeps tapping. Maybe he's smarter than we think. Keeps tapping it along. And who are the people he's going to put on? He was supposed to say who he's ... You cannot vote for him if he doesn't tell you about packing the court. Therefore is anybody in this audience going to vote for Sleepy Joe Biden?

Speaker 1: (17:53)

No. Boo.

President Trump: (17:59)

I can't imagine anyone having the courage. I can't believe it. Look at those people. They go ... Does anybody have the courage to even raise your hand? That wouldn't be a very good thing to do. Who is going to vote on election day for President Trump?

Speaker 1: (18:16)

Yay.

President Trump: (18:19)

Who has already voted?

Speaker 1: (18:20)

Yay.

Speaker 2: (18:27)

We love you, Trump.

President Trump: (18:27)

Has anybody here ... Seriously, we don't mind. Not going to matter. Not going to matter. Has anybody voted? With all those people that have already voted, we have a lot of votes going out, and I think we're leading. Can you believe? In early voting. Has any ... Oh, that's a shock. Oh, that's the big story. They're saying we have to get more people out. We have ... Maybe I shouldn't say that. People are watching. No, we're doing good. No, but anybody here vote for Sleepy Joe Biden?

Speaker 1: (19:01)

No. Boo.

President Trump: (19:01)

Okay, good. I believe you. This election is a choice between a crippling depression or a historic boom. It is. You have a depression. All that money, all those 401Ks, they're got to go right down the tubes. Throw it out. It's a choice between a deadly Biden lockdown. He wants to lock down the country.

Speaker 1: (19:27)

No.

President Trump: (19:29)

I just left the country ... I just left a state that locked down. I left two of them, and they're not happy about it. I'll tell you right now. You know what's going to happen to them? On November 4th, the day after, they're going to say, "All right, we'll open up now." That's why they're locking down. But we're going to have a safe vaccine that ends the pandemic. Without it, it's rounding the ... I say it. It drives them crazy. It's rounding the turn, because all they want to do ... You turn on the news: COVID, COVID, COVID, COVID, COVID. We'd like to talk about COVID, and then the next time, here's what happens. November 4th, you won't hear too much about it. You won't hear too much about it.

Speaker 1: (20:14)

Fire Fauci. Fire Fauci. Fire Fauci. Fire Fauci. Fire Fauci. Fire Fauci. Fire Fauci. Fire Fauci. Fire Fauci. Fire Fauci. Fire Fauci. Fire Fauci. Fire Fauci. Fire Fauci.

President Trump: (20:27)

Don't tell anybody, but let me wait till a little bit after the election. I appreciate the advice. I appreciate it. No, he's been wrong on a lot. He's a nice man, though. He's been wrong on a lot. "Do not, under any circumstances, wear a mask," he said. "Do not close up to China," he said. Then he said later on that President Trump saved tens of thousands of lives because I closed early. But how about this? How about Sleepy Joe? I close and he calls me xenophobic. I said, "Give me a definition of that, Joe. Give me a definition." He didn't know how. He had no idea what it meant.

President Trump: (21:10)

You know, 25 years ago, he was not smart. He was never considered smart, and now he's considered about half of that. This is not what you want for your president. We're doing too well. Our country's doing too well. We will mass-distribute the vaccine in just a few weeks. We have all the vaccines. It's all set. Our military is going to deliver. They're going to take care of our seniors first. Is it okay if we take care of our seniors first?

Speaker 1: (21:41)

Yes.

President Trump: (21:46)

You know, I got it. I knew you didn't hear this story, but I got it, because I got better quickly, but I got it. The First Lady got it, and a very young, tall person, 14 years old, named Barron Trump, got it. And I got better. They gave me something called Regeneron, but I'm sure I didn't need it, because I am a perfect physical specimen and I'm very young. I'm very young. Perfect physical specimen. You know, I said that a little sarcastically, and I said ... Although I actually think I am. No, I'm only kidding. No, I said that sarcastically. CNN, right over there with the red light, just went off. Any time I mention them, that light goes off. We have to cut to a commercial. You know, in one way, they need the ratings because they don't get good ratings.

Speaker 1: (22:36)

CNN sucks. CNN sucks. CNN sucks. CNN sucks. CNN sucks. CNN sucks. CNN sucks. CNN sucks. CNN sucks.

President Trump: (22:54)

No, they hated it when I said it. They said, "He is not a perfect physical specimen. It's a disgrace. He's lying to the American public, and he is not young. He is not young." They went crazy. They went totally crazy. They went crazy. They spent two days on that one.

President Trump: (23:13)

Joe Biden, well, he's very threatening all the time. He's so agitated. Did you see him today with the glasses, the whole deal? But you don't see the bad surgery. I put on those ... What do they call them? Aviators? But they're too small. They got to be bigger, right? They're mirrored. You don't see anything going through it. No, he's very agitated, so angry. Everything's screaming and shouting. It's like crazy. But he's a weak person. You know, he challenged me. Do you

remember? A year-and-a-half ago? “Oh, I’d like to take him behind the barn.” And I said, “You know ...” I said, “Of all the people in the world that I could fight, that’s probably the one I’d like to most fight.”

President Trump: [\(24:06\)](#)

Those legs have gotten very thin, not a lot of base. You wouldn’t have to close the fist. And by the way, he brings it up. You know, when he brings it up, the press says nothing. If I ever said, “I’d like to take him behind the barn and beat the crap out of him,” you know what? They would say, “Our president is inciting evil.” I’m inciting. Every time you shout, “Lock him up,” or every time ... Did you see the cars today? All over the place. Cars, trucks, and boats, all organic. They just formed, 5,000 boats. They have tractors in Iowa, thousands and thousands of tractors in this massive farm. They came from all over farm country. They had the thing with these ... Really, I’d say very good people.

President Trump: [\(25:01\)](#)

They were riding along the highway, and you had Sleepy Joe’s bus. So they escorted the bus, and the radical left said, “Oh, what a horrible thing that is to escort the bus.” They don’t tell you about Antifa that go around burning down your cities. Democrat-run, only Democrat-run.

Speaker 1: [\(25:19\)](#)

Boo.

President Trump: [\(25:21\)](#)

They don’t talk about that, bopping people over the head, killing people, setting everything on fire. They don’t tell you about that. They tell you about people that are driving down a highway with an American flag and a Trump flag. Don’t worry; they’ll be just fine. They are going to be just fine. If they’re watching, I guess they were in Texas, right? Oh, Texas will be just fine. We’re doing great in Texas, by the way, really good. You know how? Is this the greatest? You know, I’ve had really six of these, because I had them here, but let’s say five, okay? Do you know what it is to do five of these? I start early in the morning. No, think of it. Start early in the morning, but you know what’s the nice part about this one? This is the last one of the day, so we can stay all night.

Speaker 1: [\(26:11\)](#)

Yay.

President Trump: [\(26:16\)](#)

All night. I was rushing. I was rushing. They said, “You’re going to be late for Florida, Sir.” I said, “How much?” “About an hour-and-a-half.” “Oh, that’s not so bad.” I hope everyone’s having... You know how many people we lost? I’d say zero. We actually gained. People heard about it. They said, “Let’s go.” No, it’s great to be with you. It’s great. Tomorrow, I have five more. Can you imagine five? Five. Five more, and then normally, they’d say, “Five more and let’s crash,” but I don’t know if I can crash. I think it’s going to be a very exciting day. Tuesday is going to be a very exciting day. Make sure you get out. Tuesday is going to be a very exciting day. The most exciting day in the history of television was four years ago, right?

Speaker 1: [\(27:19\)](#)

God bless Trump. God bless Trump. God bless Trump. God bless Trump. God bless Trump. God bless Trump. God bless Trump. God bless Trump. God bless Trump. God bless Trump.

President Trump: [\(27:20\)](#)

Thank you. No, but it is nice that we can take our time. I can tell you stories about some of the things that happen in government. You don’t want to hear them. You wouldn’t even believe them, the level of stupidity, the things that we saved. Like we saved a couple of billion dollars on the embassy in Israel. We built it for slightly less. We built it for slightly less. First, I picked the site that we already owned. You know, that’s better than paying millions for a site, but I picked one that was a better location, bigger, better. Then they were going to build the building for anywhere between one billion and two. This is like a two-storey building, right? One billion and 2 billion, and we built it for \$500,000, a slight saving.

President Trump: [\(28:08\)](#)

We had an existing building that we fixed up. We used Jerusalem stone, very expensive when you bring it to New York or Washington. But when you’re building in Jerusalem, it’s a very cheap material. I said, “Use Jerusalem stone. It’s great stuff.” And we opened it for \$500,000, instead of two billion dollars. That’s one of many. We could tell you about them all night, but let’s get back to the point.

President Trump: [\(28:34\)](#)

Isn’t it nice when you have a president that doesn’t need a teleprompter? You have a president ... It is a nice thing. I had a couple today, though. It was so windy. It was so unbelievable windy, you wouldn’t have believed that the teleprompters were going like this. And then I finally gave up on the teleprompter, so we just talked for an hour and 20 minutes. I said, “This is not possible to read those things, going, “Wah.” You know, the winds were like 30 to 40. The press knows. They couldn’t hold onto the camera. That was a positive event. They know. They never saw. It was probably minus something, if you talk about wind chill. I think it was 30 degrees with a 30-mile-an-hour wind, and it was blowing right in my face. These people that set this up ...

President Trump: [\(29:21\)](#)

It was blowing so hard, and I had a whole section on illegal immigrants pouring into our country, and I left it out, because I said, “If they would have had to suffer the cold weather that I was, they would never come in. They would have stayed. They would have stayed right where they came from.” They had some rough ... We had three. The first three were freezing. So I go from freezing, and today was like 98 degrees. I said, “How warm is it?” “Sir, it’s about 97 degrees.” This is wonderful for not catching pneumonia.

President Trump: [\(29:58\)](#)

Biden’s cruel lockdown would be especially devastating for Florida’s tourism and hospitality workers, for the services industry, and for millions of Latinos in Florida, Arizona, and Nevada, and all across the country. If you want a vaccine to kill the virus, a job to support your family, and freedom to live your life, then you have no choice but to cast your vote for a person named President Trump. It’s very true.

President Trump: [\(30:35\)](#)

But I don’t have to talk too much about Sleepy Joe, because I spent a fortune today to give you a beautiful ... Look at the size of that screen that we put up. Where do you have two? You have two of them. This must be Florida. Look at that. You have two of them. Take a look. Here’s a video. Roll it.

Speaker 3: [\(30:50\)](#)

... a COVID-

Joe Biden: [\(30:50\)](#)

No, I haven’t taken the test. Why the hell would I take a test? Come on, man. That’s like saying, “Before you got in this program, you’re going to take a test where you’re taking cocaine or not. What do you think? Are you a junkie?”

Joe Biden: [\(31:09\)](#)

By the way, this is my little sister, Valerie, and I’m Jill’s husband. Oh, no, this side. Oh, you switched on me. This is my wife. This is my sister. They switched on me.

Joe Biden: [\(31:20\)](#)

I’d tell them if you have a problem figuring out whether you’re for me or Trump, then you ain’t Black.

Joe Biden: (31:25)

There is not a single solitary reason why, as I said, we shouldn't be in a position that everybody ... And that's my wife Jill. Hey, Jilly. I'm Jill's husband, actually.

Joe Biden: (31:39)

And CornPop was a bad dude, and he ran a bunch of bad boys, and I did. And back in those days, to show how things had changed-

Joe Biden: (31:49)

Play the radio. Make sure the television ... Excuse me, make sure you have the record player on at night. Make sure that kids hear words.

Joe Biden: (31:58)

We hold these truths to be self-evident. All men and women created by go ... You know-

Joe Biden: (32:03)

All men and women are credited by the ... you know the thing.

Joe Biden: (32:08)

Quartermaster, you can sure in hell take care, running the department store ... or the ladies department. You know what I mean? Well, I'm sick and tired of smart guys.

Joe Biden: (32:27)

Rapidly rising in with ... I don't know. You've been to caucus? No you haven't. You're a lying dog face pony soldier. Why would you get nervous, man? What kind of country we're going to be four more years of George. George, we're going to find ourselves in a position where Trump gets elected, we're going to be in a different world.

Joe Biden: (32:59)

We have to come together. That's why I'm running. I'm running as a proud Democrat for the Senate. Well, by the way, I sit on the stand and I got hairy legs that turn blonde in the sun. And the kids used to come up and reach in the bowl and rub my leg down so it was straight, and then watch the hair come back up again. They'd look at. So I learned about roaches. I learned about kids jumping on my lap, and I've loved kids jumping on my lap. Barack and I think it's a right for people to have [inaudible 00:33:38] care. I'll lead an effective strategy to mobilize [inaudible 00:33:42] depression.

Crowd: (33:43)

Four more years. Four more years.

President Trump: (34:14)

Thank you. I don't even have to say ... I could say, goodnight, everybody. That can not be your president. The Biden lockdown would cripple Florida. My plan will lift Florida to record highs, we've already been doing it. So joining us tonight, we have some wonderful people. You have a wonderful, great governor, loves your state and loves our country. Governor Ron DeSantis, Ron? A man who's become a really good friend of mine. We went to war and he's a tough guy, he's a smart guy. But he really he's doing a fantastic job for you and for everybody, Senator Marco Rubio.

President Trump: (35:27)

Good to see you, Marco. You have great senators. This is one that happened to be your governor also. And Ron would be the first one to say it, Rick Scott did a great job as governor doing a great job as your Senator, Rick Scott. Where is Rick? Thank you, Rick.

President Trump: (35:53)

And a great job on television today, Jeanette Nunez. Thank you very much, Jeanette. Wow, what a good job you did. What a job you did representing your state and said nice things about a lot of people. The only one I really cared about was me. So I was very happy. It did a great job today. Thank you very much, Jeanette.

President Trump: (36:14)

Chief financial officer, Jimmy Patronis Jimmy. Thank you. Thank you, Jimmy. Great. Doing great, Jimmy. And we have some warriors with us, real warriors, Mario Diaz Balart, Congressman. Thank you Mario. Fantastic job. Fantastic job. He's become a friend of mine. He had the China plague and he got better pretty quick, right? Got better quick. And now he's immune. Until I came along, they said, "If you're immune you're immune for life, everybody's immune." When I got it, I said I was immune. They said, "Yeah, but it's only for four months now." Mario, they only now give us four months, okay? What a terrible thing. I'm sorry I did that to all of those people.

President Trump: (37:04)

And another warrior, tough guy, smart guy. And really my friend, Brian Mast. Thank you, Brian. Congressional candidates, they're fantastic. Byron Donalds. Where is Byron? You are doing great, Byron. You are doing great. Good job. Fantastic job. And another man, I've known him for a long time, he's terrific. He's going to win he's up in the polls by the way, Carlos Jiminez. Where is he? Carlos. Thank you, Carlos. Good job.

President Trump: (38:01)

And the next mayor of Miami Dade County, Steve Bovo. Hey, you're a popular guy, Steve. You're a popular guy.

Crowd: (38:21)

Bovo, Bovo, Bovo, Bovo.

President Trump: (38:32)

Former attorney general and a fantastic talent and my friend for a long time. Oh, we're going to look for something for her. She had to go out and make a couple of bucks and I'm sure she's doing great. She's always done great, and she was an incredible representative of your state, a very special woman, Pam Bondi. Pam, great. You're doing a great job. Great person. Another great person. She was so tough in California. She was the DA, right? The DA. And she was brutal. I think she's like 471 to nothing. You never wanted to get in trouble with this one. And she's a very special person to me and to my family. Kimberly Guilfoyle And I have respect for champions. There's a reason you're a champion. And whether it's Jack Nicklaus, who gave us a beautiful endorsement the other day. So many champions, right? Actually, not too many champions. Usually they tend to choke in the end. In the end, they're not champions, but we have one of the greatest fighters anywhere in the world. In fact, I was willing before, when there was a little trouble back there, I was willing to pit whoever that poor person was against the greatest fighter, Jorge Masvidal. The greatest.

President Trump: (40:13)

I went to a UFC fight. I went to a UFC fight and this gentleman, and he is a gentleman. Great guy, actually, hard to believe. How the hell are you such a nice guy? I have a feeling I don't know. He was fighting a young superstar, right? He was a young, handsome guy. Really good looking guy. Maybe that was the problem with him, he looked too good. And I was Dana White, the great Dana White. You know who Dana White is, what a job. And he said, "Let me tell you something, Jorge has been around for a little while." He's won most of his fights. I hear he's got a very big one coming up. I'll be watching that one. I'm going to be watching it, he's a fantastic talent.

President Trump: (40:59)

He fought as a very young guy. Used to fight at eight years old, had beat up people that are 16 and 17. And then one day they said, "Let's take this guy to the gym." And you know what? He beat up all these guys in the gym. And he's a total champion. He's a total champion, and I do want to take that bet. Is that

person still here? No, he went back home to mom? Went back home to mom. But we had this young, handsome, really, he looked like a male model. And Dana white said to me, "This is the future of the UFC. Watch how great he is. He's tremendous." And wasn't he like 12 and 0, and he walked in the ring and he was full of stuff. And this guy walks in and the fight lasted. What was it? One and a half seconds, I think. Five seconds. It was the quickest knockout in the history of the UFC.

President Trump: [\(41:56\)](#)

No, it was like, ding. He runs across the ring, kicks the hell out of him, right in the face. And I looked at Dana. I said, "Dana, what happened? What happened?" He's a great fighter. And he's a great guy. Thank you very much. Thank you for being here. Champ, he's a champ. He's got that heart. He's got that heart. Thank you, man. We need more people like him, I can tell you. We need people like him in our government that have guts and courage and smarts too.

President Trump: [\(42:27\)](#)

For decades, our politicians spent trillions of dollars, rebuilding foreign nations, fighting ridiculous foreign wars and defending our foreign borders that we didn't defend our own borders. But now we do. And now we're finally protecting our nation, rebuilding our cities and we are bringing our jobs, our factories, and our troops back home to the USA where they belong. It's enough.

President Trump: [\(42:57\)](#)

For 47 years. Sleepy, Joe Biden, betrayed Hispanic Americans. I'm not going to let you meet him, champ, you may get angry. That'd be one 10th of one second. Now he wants to close your small businesses, eliminate school choice and attack our Hispanic law enforcement heroes at the border, you know that. The radical left will assault Catholic organizations, ban prayer in school and fund extreme late term abortion. I will always stand with the incredible Hispanic American community, you know that.

President Trump: [\(43:44\)](#)

Well, that's one of the things that's going wrong with the vote. I'll tell you. You've been here so long that some of you have been here since like yesterday. I know you've been on line. But you've been here a long time, but I'll tell you, so one of the problems with Florida for the other side for sleepy, Joe and the Democrats is that they say, "What happened? The Hispanic Americans are not voting. They're not coming out for sleepy Joe?" Who the hell can vote for this guy? They're saying that's one, right? The other one is the black community. What's going on? They're voting for Trump. They're voting for Trump. Look at you. They're voting for Trump.

President Trump: [\(44:25\)](#)

They're voting for Trump. Did you see it, 18%? The old days, they'd get 4%. You want 4%, you needed 4%. 18 or 19%, I think it's going up to 20%, whatever it is, it's about three times what anyone's gotten. Thank you very much. Thank you to the black community. Thank you to the Hispanic community. And we're returning the pharmaceutical industry back to Puerto Rico. Biden is the one that took it out. So I don't know if we have anybody from Puerto Rico. Do we have Puerto Rico? Puerto Rico? Yes. We're bringing those jobs back. That was Biden. Oh, that's right. Oh yes. We're bringing the pharmaceutical industry back. It was doing great and then Biden and his group of clowns, they didn't know what the hell they were doing. They moved it. You know where it moved to? China. We're bringing it all back.

President Trump: [\(45:27\)](#)

Under my leadership, we achieved the most secure Southern border in the history of the United States. And the wall right now, it's over 400 miles. It'll be finished very shortly. And it's everything that the border patrol, I listened to them. They wanted steel, concrete, and rebar. I said, "What about just concrete plank?" "Sir, we want it this way." I said, "Okay, I'll do it." I don't want to give them any excuses. But it's incredible what's happened with that and we have the most secure border we've ever had. And by the way, we want people to come into our country, but we want them to come in on merit and we want them to come in legally and that's what happens. That's what we're doing. We want them to come in. We need people to come in because of the jobs, we need people. The Biden Kamala plan. How about when she introduced herself? And they said the Harris, the Harris-Biden administration, and then Joe Biden said the same thing two hours later. He said, "Under the Harris-Biden administration." This is twice in one day.

President Trump: [\(46:37\)](#)

I love Mike Pence. I think he's great, don't we? But I have a deal with Mike. I said, "Mike, I will never say it's the Pence-Trump administration." But Mike has done a great job. He's done a great job. He's done a great job with NASA. NASA, the space center, we have done a great job with that. Mike has led it. The Biden-Harris plan would increase refugees from terrorist regions by a staggering 700%, including from Syria, Somalia, and Yemen. And I am keeping radical Islamic terrorists out of our country, if you don't mind.

President Trump: [\(47:18\)](#)

We're keeping them the hell out. If you don't mind, if Florida doesn't mind, we will. I put a ban on, everyone told me what a horrible thing to do. Ask France, whether or not that would be a good thing for them. Have you seen what's happened in France over the last week? No, thank you. We want people to come into our country who love our country.

President Trump: [\(47:43\)](#)

For instance, we're going to win Minnesota. You know one of the reasons why? Ilhan Omar, She loves our country very much. She loves our country. It's unbelievable. Yeah.

President Trump: [\(48:01\)](#)

Yeah. Yeah. She loves us very much. We invested \$2.5 trillion in the US military, the most ever. And you know what? I said, we got to break the budget for this one, because all built in the USA. We have the best missiles, the best rockets, the best fighter jets, have 35, submarines, nobody even close to us, we have submarine technology that nobody's even close. We have things that nobody, we are the envy of the world militarily. And when I took it over, it was a depleted, broken military. One of the most overrated generals anywhere in the history of this country came up to me and said, sir, we have no ammunition. This was my first week in office. I was getting a little bit frisky with a certain country. You know that right? You all know about it. And he came and he said, sir, we have no ammunition. I became much less frisky with that contract. I said, it will have to wait.

President Trump: [\(49:01\)](#)

Now we have so much ammunition, we don't know what the hell to do with it, okay. We also passed VA choice and VA accountability for our great vets. Right? Right? Yeah. They said it couldn't be done. Just got a 91% approval rating from our vets, the highest by far that we've ever had. At my direction, the United States military conducted a successful operation to rescue an American hostage kidnapped overseas just 96 hours ago. Last night... He was kidnapped 96 hours ago, we went in last night, the US special forces, brilliantly executed a daring, nighttime operation. [inaudible 00:49:56] They wanted to do it so badly. [inaudible 00:02:01].

President Trump: [\(50:06\)](#)

They kidnap this young, in a far away land. They kidnap this young American, kidnapped him and they were negotiating for a, they wanted money. Once you give money, once you do that, you'll have it hundreds and hundreds and hundreds of times. So we had some people that are the best in the world. These are the best fighters in the world, except for him, maybe. I don't know, different kind of fighting, right? Different, different kind of fighting right? But these are the best in the world. Incredible people, smart, brilliant in so many ways, and great. They wanted to do it. I said, do they want to do it? You couldn't hold them back.

President Trump: [\(50:45\)](#)

And they went in there and they went in by night and it was over very quickly. And we didn't have anybody even injured slightly. We got the hostage and unfortunately they are gone. They are gone. Now, if you pay them, they'll be doing just over and over. So I'd like, it would be wonderful, let's say, but once you do that, even if it was a small amount, it's no good. And they didn't want a small amount. They wanted a lot of money. Over the last four years, we've rescued a

record 55 hostages and detainees in more than 24 countries. And some of them were very tough countries, but we were able to get them out. That's a lot. That's a record too. And what do we have?

President Trump: [\(51:33\)](#)

Robert O'Brien, is he around here? He's fantastic. Where's Robert? Where is Robert? He is so good. What happened to him? He's out negotiating a hostage deal. That's all he does. Where is Robert? Where is Robert? Robert, look at him. I'll tell you. He's a little, he's a little tired. This is his fifth rally today too. He's fantastic. He's fantastic. What a job he does. Thank you, Robert. Great job too. Congratulations. That was brave. I said, Robert, do you want to do it? It was like, yes before I finished the question. You want to do it, Robert? Yes. So anyway, good job. Thank you very much.

President Trump: [\(52:21\)](#)

The operation should serve as a stark warning to terrorists and thugs who try to kidnap our people. You cannot escape the long reach of our American military or American justice. You can't do it. We obliterated 100% of the ISIS caliphate and it was a mess. Let me tell you, when I took over, it was a mess. It was all over the place. It's gone, 100%. We killed the leader of ISIS, al-Baghdadi. They were looking for him for 14, first day in office, I said to our people, great people. I said, where's al-Baghdadi? That's all I heard about, al-Bag, every time I'd say where's al-Baghdadi. And one day they came in, they said, we have him, sir, what do you want us to do? I said, I'll tell you what, let's go. And we got a bad, bad guy, founded ISIS. And he was trying to rebuild it again. We eliminated the mass murderer of us troops, and many troops and many people. Soleimani is dead.

President Trump: [\(53:29\)](#)

I withdrew from the last administration's disastrous Iran nuclear deal. Iran is not doing well. They had a 27% GDP decline. It was like the opposite with all the sanctions. I'll tell you the first call I get, if we win, we got to win. First call I get will be from the Supreme Leader, as he calls himself, the Supreme Leader. I refuse to call him the Supreme Leader, but he calls himself the Supreme Leader. The first call will be from the Supreme Leader. And you know what? I'd love to make a deal with him. You know why? We don't want to do anything bad, but we just can't let them have a nuclear weapon, if that's okay. Can't let them have.

President Trump: [\(54:10\)](#)

Obama paid him \$150 billion, 150 billion, 150 million would be a lot, but 150 billion. It's not even, it's not even conceived. This is people that don't have any clue about life. Gave him 1.8 billion in cash, in green. Can you believe it? Cash. Five plane loads, big planes. Exactly, where is that beautiful plane that we came in? Where the hell is it? Oops. Somebody stole Air Force One. Planes like that. I recognized the capital of Israel and opened the American Embassy in Jerusalem. I also recognized Israeli sovereignty over the Golan Heights. 52 years, they've been negotiating. People would fly in, fly out, fly in, fly out, have dinner, have lunch, fly in, fly out. 52 years. I did it in two hours, a little bit less.

President Trump: [\(55:09\)](#)

And instead of endless war, we are now forging peace in the Middle East. We have the countries aligned, [inaudible 00:07:18]. No blood in the sand, no costs, no nothing. They want, you know what? After all these years, frankly, we just said, what did Obama do? And I heard, and you know what I did? I did the opposite. I said, what did Obama do? And then I did the opposite, and it worked. Biden and Barack Hussein Obama made a pathetic one-sided deal with the Castro regime on Cuba. That was the other thing I did. I said, who made the deal? Obama. I said, we're going to go the exact opposite way. Okay. We only have a 96% approval rating with Cuban Americans, 96. 96%. Who the hell are the 4%? Champ, who are the 4%?

President Trump: [\(56:15\)](#)

Now the Biden campaign has said that they will work closely with socialistic dictator Maduro in Venezuela. Not the way you do it. My opponent embraces socialists and communists because he has no choice, because that's who he's dealing with in government. I stand with the proud people of Cuba, Nicaragua, and Venezuela, in their righteous struggle for freedom. And we're making a lot of progress. A vote for me is, we are making, by the way, we're making a lot of progress. A vote for me in the Republican party is a vote for the American dream. That's what it is. So in conclusion, over the next four years, we will make America into the manufacturing superpower of the world. And we will end our reliance on China once and for all, it's already started. We will expand opportunity zones, increase vocational education, and provide school choice to every family in America. We will hire more police. Increase penalties for assaults on law enforcement. And we will ban deadly sanctuary cities. With God's help, we will defend the right to life, religious liberty, free speech, and the right to keep and bear arms. Your second amendment. [inaudible 00:58:08]. We will maintain America's unrivaled military might, and we will ensure peace through strength. That's what we're doing. We will end surprise medical billing. Require price transparency, lower drug prices to the lowest levels they've ever gone. And we will always protect patients with pre-existing condition. America will land the first woman on the moon and the United States will be the first nation to land an astronaut on Mars very soon. We will stop the radical indoctrination of our students and restore patriotic education to our schools. We will teach our children to love our country, honor our history, and always respect our great American flag. And we will live by the timeless words of our national motto, in God we trust.

President Trump: [\(59:24\)](#)

For years, you had a president who apologized for America. Now you have a president who is standing up for America and standing up for the great, incredible, wonderful people of Florida. You better vote, vote, vote, vote. Two days from now, America's fate is in your hands. And as I said, we win Florida. We win it all. Your vote can defeat the Washington swamp. We've done a good job of it, but it's deeper and more vicious than we ever thought. And the corrupt media right there, once and for all. So you must get out and vote. We have never had in the history of our country, I really believe this, a more important election. We will never, ever be, [inaudible 01:00:19] wants to start a conversation with me. Can you believe? That's okay, darling. Yes?

Joan Miller: [\(01:00:24\)](#)

[inaudible 01:00:25].

President Trump: [\(01:00:24\)](#)

Oh, good. Joan Miller from the Brooklyn Club. Hi, Joan. Joan, let me finish up. Joan, thank you very much. From Tampa to Tallahassee, from Orlando to Jacksonville, and from Pensacola to Miami, we inherit the legacy of American Patriots who gave their blood, sweat, and tears to defend our country and our freedom. We stand on the shoulders of American heroes who crossed the oceans, settled the continent, tamed the wilderness, laid down the railroads, raised up the great skyscrapers, won two world wars, defeated fascism and communism, and made America into the single greatest nation in the history of the world. And the best is yet to come.

President Trump: [\(01:01:23\)](#)

Proud citizens like you helped build this country and together we are taking back our country. We are returning power to you, the American people. With your help, your devotion, your drive, we are going to keep on working. We are going to keep on fighting and we are going to keep on winning, winning, winning. We are one movement, one people, one family, and one glorious nation under God. And together with the incredible people of Florida, we have made America powerful again, our military. We have made America wealthy again, wealthy, wealthy, wealthy. We have made America strong again. We have made America proud again. We have made America safe again. And we will make America great again. Thank you, Florida. Go out and vote. Thank you.

Donald Trump: [\(00:00\)](#)

Thank you. Thank you very much. What a crowd this is. Wow! Well, thank you very much. Hello Georgia. Hello Georgia. Two days. Can you believe it? Two days from now we're going to win this state again. And we're going to win four more great years in the White House.

Donald Trump: [\(02:14\)](#)

We have done a lot. We've done a lot together. It's been a great relationship with Georgia. Thank you very much. With your vote, we will continue to cut your taxes, cut regulations, support our police, support our great military, protect your second amendment. [inaudible 00:02:35] Defend religious liberty, and ensure more products are proudly stamped with that beautiful phrase "Made in the USA." That's happening.

Donald Trump: [\(02:46\)](#)

Next year will be the greatest economic year in the history of our country. And it's heading that way. Under my leadership, our economy is now growing at the fastest rate ever recorded, 33.1%. The fake news did not like talking about that number. We'd beat the number from 1952 and more than doubled it; much more than doubled it. They don't love talking about numbers like that. They can't believe it. We created a record 11.4 million jobs in the last five months. And while foreign nations are in a free fall, we are creating an economic powerhouse unrivaled anywhere in the world.

Donald Trump: [\(03:34\)](#)

A recent Gallup poll, just out, found that 56% of Americans say they are better off today than four years ago with Sleepy Joe and Obama. If Biden and Kamala. How about Kamala? I don't think so. That's not going to be your first woman president; that's not going to happen. She's further left than Crazy Bernie. He's like a conservative compared to her. And the radical left gain power, the economy will collapse, and our country will go into a steep, mark my... well, we're not going to have to worry about it okay. Steep depression. We don't have to worry about it.

Donald Trump: [\(04:22\)](#)

I shouldn't even be here, they say I have Georgia made, but you know what? I said, "I promised we have to be here." David. No, they said, "Sir, you don't have to come to Georgia. We have it made. It's won, it's well." By the way, just go out and vote. Okay. Just go out and vote.

Speaker 2: [\(04:44\)](#)

(chanting).

Donald Trump: [\(04:56\)](#)

Thank you very much. Thank you very much. No, they said this morning, "Sir, honestly, we can skip Georgia..." I've done four of these, I'm going to Florida for another one. You believe this? Wonderful. Oh, and I had such an easy life before this. It was so...

Donald Trump: [\(05:10\)](#)

But you know I'm happy, you know why? No administration, no president has done anything near what we've done in the first three and a half years. How about it? We're helping our country. We're rebuilding our military. It's rebuilt. Two and a half trillion dollars. We've cut your taxes. The largest tax cut in history. His is going to be the... Explain this to me. His campaign is "We will raise your taxes more than any administration has ever raised it." I don't know. Somehow, David, that doesn't play very well, does it? Huh? He wants to increase your taxes by 4 trillion dollars. Massively increase your regulations again. We cut your regulations more than any administration has ever done. More than any, whether it's four years, eight years or in one case, more, closed down your factories, send your jobs overseas, destroy the suburbs.

Donald Trump: [\(06:10\)](#)

Will the women of the suburbs please vote for President Trump? [inaudible 00:06:15] And I keep hearing from the fake news, "The women of the suburbs don't like Donald Trump." And I'm saying to myself, "Well, I'm giving them safety, protection, and I terminated a regulation that will ruin the suburbs and ruin the value of your house. And you'll be fleeing the suburbs. And no, I did a lot for the suburbs, I'll tell you." Thank you.

Speaker 2: [\(06:46\)](#)

(chanting)

Donald Trump: [\(06:46\)](#)

That's what I thought. That's what I thought. That's what I thought. I made a speech a couple of days ago and I said, "Women of the suburbs, please love me." And they took it on CNN, they said, "He is begging for their support." Women of the suburbs, I've done a lot. You do not want to have a project built next to your house. No, we've done a lot.

Donald Trump: [\(07:14\)](#)

They want to terminate religious liberty, eliminate school choice, outlaw private health care. Would you say it's windy enough tonight? Would you say? It's wonderful. I said, "Is there much wind?" "No, about 25 or 30 miles an hour, Sir." Oh, that's wonderful.

Donald Trump: [\(07:31\)](#)

Shred the second amendment, take away your guns and indoctrinate your children with hateful anti-American lies. Biden has vowed to abolish American oil, fracking, natural gas. You ever see a guy fracking? For a year and a half, he's going, "There will be no fracking. There will be..." Then he goes to Pennsylvania.

They say, "What about fracking?" And he goes, "What should I say?" Well, they say, "You're going to have to totally change your stance because they have a million jobs, right? It's a big part of Pennsylvania. It's a big part of Texas. It's a big part of this country. And you're going to have to change." So now he goes, first speech, he goes, "No, we are in total favor of fracking." And the fake news doesn't even ask him a question about it. I don't think I could get away with it. I don't think so.

Donald Trump: [\(08:19\)](#)

How about the other day? He walks past the press, the media, the fake news. And he walks past, "Sir, what flavor ice cream is that?" He's walking out of an ice cream store. "It's vanilla and chocolate." They don't ask me questions like that.

Donald Trump: [\(08:38\)](#)

It'll cause massive layoffs, exploding energy prices and crippling blackouts, just like they have in California. They're doing great with California energy, right? They have brownouts; they don't want to call it blackouts, but it'll end up being blackouts very soon. Biden's energy ban will send every state from Georgia, Michigan, Pennsylvania into crushing poverty. And you know that, the whole thing is ridiculous. The Green New Deal AOC plus three, I don't even think they ever took... Did they take even an environmental course? Ilhan Omar is a part of that deal. No, no, no. She loves our country very much. As luck... that's why I'm going to win Minnesota because of her.

Donald Trump: [\(09:29\)](#)

As long as I'm president, we will remain number one producer of oil and natural gas anywhere in the world. We are now number one. And something you haven't heard very much of for ever, we are totally energy independent, isn't that nice?

Donald Trump: [\(09:48\)](#)

I don't think we're going to let them turn that around on us. People that have no clue, especially Biden, he truly doesn't have a clue. Our opponent's agenda is a war on workers, a war on faith, and a war on our great police. Biden says he's running as a proud Democrat. Well, of course he said, "I'm running as a proud Democrat for the Senate." And I said, "He's kidding, isn't he?" But then he did it a second time. And I'm running as a proud American, okay?

Speaker 2: [\(10:39\)](#)

(chanting).

Donald Trump: [\(10:39\)](#)

Thank you. Thank you very much. This is a lot of people here, I'll tell you. We always have a lot of people, we really do. It's like the spirit... wait till you see what's going to happen with the Great Red Wave. And you know, I don't know if you've been watching the results, but if you look at Florida, we're looking very good. If you look at Iowa, we're looking very good. If you look at North Carolina, we are looking great. If you look at Pennsylvania, we are looking very good. Oh, they're going to be, they're going to be some heads that are exploding.

Donald Trump: [\(11:26\)](#)

It would have been nice as... You know what would have been really nice though? If our Supreme Court could have ruled that everything has to be counted by the evening of our election, our grand election day. Wouldn't that be nice? Instead of waiting around six days, eight days, nine days, giving them more time. If they want more time, let them put their ballots in early. They don't have to wait till the end. Let's give them an extra three days, and let's take all the time you want. People want to know and you know, bad things happen in places like Pennsylvania and Nevada. We loved Nevada, but you have a governor there. Bad things can happen. That little intervening... Let's take plenty of time. No, that's a terrible ruling for our country. I don't care. It's a terrible ruling. It's a shame.

Donald Trump: [\(12:20\)](#)

Joe Biden is a globalist who spent 47 years outsourcing your jobs, opening your borders and sacrificing American blood and treasure in endless foreign Wars. Don't worry, they're all coming home. They'd been coming home; we're down to very low numbers. He was a cheerleader for NAFTA and China's entry into the World Trade Organization. That was another great deal we made. What a deal. China was flat-lined for years and years. And then they went like a rocket ship because of that stupid deal. Biden shipped your jobs in factories to China while raking in millions of dollars for him and his family, we find out. The only problem is the news doesn't want to report it, and big tech doesn't want to report it.

Speaker 2: [\(13:07\)](#)

(chanting).

Donald Trump: [\(13:07\)](#)

No, big tech doesn't want to report it. Do you ever see where they have trending? You know what they do? They take stories about me, if they can find anything bad, and then they make it worse. Trending Donald Trump did this. Trending... The most boring stories, I mean, with all the things happening. With affairs and this and that. They don't want to hear trending Donald Trump. It's a whole big hoax. It's a big tech hoax, but we have some senators right here that are doing a lot about it. A lot about it. Joe Biden is a corrupt politician who is bought and owned by China, okay? I mean, how is he going to... and by the way, we've taken in billions and billions of dollars.

Donald Trump: [\(14:03\)](#)

I mean, how is he going to do it? And by the way, we've taken in billions and billions of dollars. And you have farmers, a lot of farmers, I found that out with David, with David Perdue. We went down and they were affected a year and a half ago, very heavily affected by a hurricane. We took care of those farmers. Nobody else would have done it. We took care of those farmers. But you know what I did? \$28 billion from China went to farmers, because they were targeted. Can you imagine Joe Biden saying to China? In fact, he actually said he'd take off the taxes and the tariffs that we charged. He said, "We'll take them off." But now we know why, because his son walked away with a billion and a half dollars in management fees.

Donald Trump: [\(14:47\)](#)

About how about where the son said he wants 10 million a year for recommendation purposes? You know who he's going to recommend? His father. His father is going to be recommended. Or the son, who was out of a job, had no money, and then the father became Vice President, and all of a sudden the son is going to be put on the board of Burisma from Ukraine for \$183,000. \$183,000 a month. Who would not take that job? Who would not take that job? We said, "What's your experience?" He said, "I have none." "What do you know about energy?" "I have none." There's a young person right here, probably seven or eight years old, has more knowledge of energy than, where is Hunter?

Donald Trump: [\(15:39\)](#)

Then he said he wants a \$3 million upfront payments also. But how about Russia? So Russia, you know "Russia, Russia, Russia"? The laptop from hell. Russia did a Schiff, watermelon face, Schiff, Adam Schiff. He said the other day, "Here we go again." He said the laptop was created by Russia. This is, we are so screwed up. And he always says it in the halls of Congress, because you can't be prosecuted for lying. You ever notice? He doesn't say it outside. No, he got three and a half... Man, is it windy? Whoa. I wanted to show you how great my hair was. I was having a great hair day. But this is a lot of wind. And besides that, everyone else has a hat on. Everyone else has one. So if you can do it, I can do it too. Then he got three and a half million cash from the mayor of Moscow's wife. She very generously gave him three and a half million dollars in cash.

Donald Trump: [\(16:47\)](#)

So when I asked during the debate, did anyone see the debates, by the way? I felt like Perry Mason. It is absolutely incredible. Look, the last question I said, "Wait a minute, does that mean you want to get rid of energy? You want to get rid of it all?" "Yes, I'd like to transition out." I said, "This is the biggest moment." That was like Perry Mason, the last one. And even anchor, Kristen Welker, who actually treated me fairly compared to Chris Wallace, who wouldn't let us answer a question, actually, Chris Wallace came in third that evening, we won, no, I would say that Sleepy Joe probably came in second, Chris Wallace was a deep third, but Kristen Welker, who did, I mean, her inclination is not for us, but she looked up and when he said that stupid answer, she said, "Why did you say that?" Because she's on his side.

Donald Trump: (17:49)

Did you see that? “Why did you say that? Oh, you ruined my evening now.” Nah, she was fair to me. She really was. I called her, I said, “That was very professional. I appreciated it.” No, most people said she didn’t treat me well. Relatively speaking, she treated me fantastically. In 2016, Georgia voted to fire his corrupt political establishment and you elected an outsider as President who is finally putting America first, If I don’t sound like a typical Washington politician, it’s because I’m not a politician, thank you. That’s right, right? If I don’t know is played by the rules of Washington and the Washington establishment, it’s because I was elected to fight for you. And I fight for you harder and meaner and stronger than any President has ever fought for you. That I can tell you. That swamp is deep and it’s vicious and they keep coming at you. But we’re there and we’re going to win. We’re going to win.

Donald Trump: (19:06)

Deep swamp. It’s a deep swamp, but we’re winning, and I’ll tell you what, we’re going to win. I mean, I wish they didn’t delay the whole deal, but maybe we can win by enough they can call it on Tuesday night. I just came in, and the beautiful thing about Air Force One, good looking plan, isn’t it, the beautiful thing about Air Force One, you have more televisions than you have in anything. They have televisions on the floors, on the ceilings, and one of the shows had very strongly, they said, “Do you see what’s happening?” And they go, “What? What’s happening?” “Trump is way up with African Americans, way up with Hispanic Americans.” He goes, “What’s happening?” And the votes came in, because you people are going to go and vote mostly on election day, which is good. That’s called the red wave. Don’t let anything stop you. Nothing. That’s called the red way.

Donald Trump: (20:06)

But these people, they send in their ballots and we’re practically even. We’re supposed to be 20, 30, 40 point points behind. And then we make it up and at the end we get it over the line, right? So, in Florida, we’re practically, even. They’re in big trouble. They’re saying, “This isn’t good. This isn’t good.” There are those that have already projected that we’re going to win Florida, that we’re going to win certain. This is not working out like they thought, I think we’re going to do even better than we did four years ago. And you know what? I never thought I’d say it, but this is even more of an important election. Thank you very much. I love you too. I don’t know who you are. I don’t know, male or female, I can’t even tell. But whoever you are, I love you too. This is going to be the most important election in my opinion, because our country can never be a socialist country. And that’s what they want to do.

Donald Trump: (21:15)

This election is a choice between a depression and a boom. It’s a choice between a deadly Biden lockdown ... He always talks about locking down, “I want the lockdown. I want to follow science.” Some guy walks in, I think he should lock it down. No, let’s knock down a \$12 trillion economy. No, we’re not going to do that. It’s also we come up a safe vaccine that is ending the pandemic. By the way, it ends with or without. We’re rounding the turn. But we have the greatest companies in the world and they’re all set and we’re coming up. We will mass distribute the vaccine in just a few short weeks and it will quickly help us to eradicate it. It’s going to go anyway. It’s going anyway. We are rounding that. And by the way, they have therapeutics that work. Look what they do.

Donald Trump: (22:04)

I don’t know. I like to think I did it, because I’m in perfect physical shape, but I’m a young man. Like Baron Trump, he had it. “Sir, Barron tested positive.” White House doctor, Sean, a great doctor, he said, “Sir, your son, Barron,” 14 years old, very tall young man, Hi, Barron, how you doing? He’s great. But he’s strong. And Sean came in to see me, “Sir, Barron tested positive.” I said, “That’s not good.” “Oh, he’ll be fine, sir.” I said, about 12 minutes later, “Sean, how’s Barron doing?” “Sir, he’s fine. It’s all gone.” See, they have a strong ... I don’t mean 12. You know what they’ll do? They’ll say, “He’s exaggerating. It took a half a day.” The fake news, everything you say. When I talked about illegal immigration, Joe Biden wants to give everything you can give to illegal immigrants, which will bring millions and millions of people in.

Donald Trump: (23:06)

So I said, “You can’t give them healthcare. You can’t give them education.” But Joe Biden promised them, every one of them, a free Rolls-Royce. CNN said, “This is a terrible thing. That’s not a true statement.” No, they can’t take a little bit of fun. But you know what? We’re in a position, we’re doing so well, we could afford to have fun. The one thing that happened, the one thing that happened that we can never, ever forget is what China did to our country. We can never forget. We shouldn’t have one death. But we closed it up. How would you like to be in my position? I just created, with a lot of people including yourselves, the greatest, strongest economy in the world, and now I had to shut it down. And we did the right thing. We shut it down. We figured it out. We have to protect our senior citizens. We protect, we know all about it, and we now have all these therapies and in my opinion cures.

Donald Trump: (24:07)

I mean, I think it’s cures, I think frankly. But we’ve done a great job. But how would you like to be shutting down the greatest economy ever? And now we’re building it back up, and we’re not talking about a V, we’re talking about a super V, based on all of the numbers that you see. Housing numbers, automobile numbers. 33.1, the highest ever by more than double. Joe Biden is promising to postpone the vaccine, delay therapies, and turn America into a prison state, lock it down, locking you in your home while letting Antifa and other far left rioters look letting Antifa, Antifa is bad news, you do know that, right, bad news, let them run free. You can’t go to church, right? You can’t go to your schools. You can’t do any of this stuff. By the way, your Governor, I don’t know if he’s here. Is he here? Brian? Where is he? Because Brian did a hell of a job. He said, “We’re going to let it stay open.” And Georgia is doing very well.

Donald Trump: (25:15)

The Biden lockdown will mean no school, no graduation, no weddings, no Thanksgiving, no Christmas, no Easter, no 4th of July, no future for American youth. Other than that, he’s doing quite a good job, right? Sleepy Joe Biden. You know what? In prime time, he was never a smart guy. Everybody knows it. And he was never a nice guy. And if he was a nice guy, I wouldn’t talk the way I talk about him. But he is definitely not the guy. He was in primetime, we called them 1% Joe. He always got 1% when he ran. Now, he’s got half left. He’s got about a half at best. And he wins. Is this a screwed up business you people are in or what? What a crazy business. A vote for Biden is a vote for lockdowns, layoffs, and misery. If you want a vaccine to kill the virus, a job to support your family well, and freedom to live your life, then go cast your ballot for a man named Trump. We’re doing a job. We’re a job together. Thank you. Thank you. Thank you. I wish they’d show. Could the camera’s please span this crowd? They never do it. They never do it. And they never show Joe. So today he did a conference with Barack Hussein Obama. And you know what? The crowd was actually smaller. They’re not drawing flies. They’re not drawing. And they never show that crowd. But they should show these crowds, because in the history of politics, I think in the history of anything, including music, and I do this without a guitar. That’s very tough. We don’t have a guitar. Look at these crowds. It is one of the great phenomenons. They don’t like talking about it. They said, “Is he a great public speaker?” “Oh, I don’t really think so.” Well, what the hell am I getting 35,000 people? Today, I said to the great Hope Hicks ... does anybody know Hope Hicks?

Donald Trump: (27:36)

Or Kayleigh? Where’s Kayleigh? Kayleigh’s great. We have such great people. Or our Chief of Staff, Mark Meadows, do you know him? He loves these rallies. Took me three years to get them out of Congress. I tell you what, he’s doing a great job. So easy, it’s such an easy job, because we’re dealing with such nice people on the other side. But you know what? It’s going to all come together with success. I tell this, it was coming together.

Donald Trump: (28:03)

... success. I tell this, it was coming together. We were getting calls. It was coming together. Believe it or not, we were getting calls from the other side, people that you wouldn’t believe we’d be getting calls from. You know what? Let’s sit down. And then all of a sudden we got hit with the China Plague. And now we’re back to the drawing boards and next year is going to be one of the greatest economic years and all of that. But I’ll tell you what. Success, great success like we had best, if you look, African American numbers, Hispanic American numbers, women, Asian American numbers, high school diploma, no high school diploma, MIT, first in your class. Everybody was doing good and it was coming together and we would have unified, I’m telling you. And we’re going to have another chance at it because we are going to have a stronger year next year, because we have a great foundation and you see the kind of numbers coming in.

Donald Trump: (28:57)

You had your best year last year ever. You’re going to have an even better year next year. And like all these caps, Make America Great Again, we’re going to change them. We’re going to say, “Make America Great Again, Again.” But you don’t have to believe me on Biden. I brought a very expensive little tape for you to watch. Where is it? Lot of money.

Joe Biden: (29:25)

We have to come together. That's why I'm running. I'm running as a proud Democrat for the Senate. So vote, vote. Visit iwill.com/ohio. God bless you. Look, tomorrow is superstar Tuesday, and I want to thank you all. I tell you what, I'm rushing head on. We owe these truths to be self-evident. All men and women created by the ... You know, you know the thing. Do you agree with me? Go to Joe 30330. We choose to over facts. Play the radio. Make sure the television, excuse me, make sure you have the record player on at night. Make sure the kids hear words. Poor kids are just as bright and just as talented as the White kids. Donald Trump does pose an existential to this ... It's not hypothetical.

Speaker 3: (30:24)

Now, to be fair, maybe Biden's not telling us because he's forgotten his own plans. Watch Biden's staff quickly swoop in to shuffle him along during a quickie escape the basement trip to Pennsylvania.

Joe Biden: (30:41)

Here's the deal. One of the things that is important is that ... Keep in mind, although they're going to vote on

Speaker 4: (30:45)

Guys, back to that line, please.

Speaker 3: (30:45)

That was terrifying.

Joe Biden: (31:01)

What kind of country we're going to be. Four more years of George, we're going to find ourselves in a position where if Trump gets elected, we're going to be in a different world. Barack and I think it's a right for people to have [inaudible 00:00:31:16]. Folks, we've got a lot of work to do. I don't need you to get me elected. I need you once I'm elected. I'll an effective strategy to mobilize trunalimunaprzure.

Speaker 5: (31:29)

[inaudible 00:03:30].

Joe Biden: (31:33)

We have to come together. That's why I'm running.

Donald Trump: (31:41)

We saved so much time. We could run another couple of minutes. I could just say, "Bye-bye, I'm going to Florida." I'm doing another one of these in a little while. The fake news can't believe it. They're exhausted. Look at all of them back there. Those cameras, they're sagging. This is their fourth one, and all the crowds are big and strong and they love our country. They all love our country. We have a movement the likes of which this country has never seen before. Thank you very much. Thank you very much. Thank you, everyone. So joining us tonight. No, we have a movement the likes of which this country has never seen before, never seen. And you thought it was big four years ago, this is much bigger. This is much bigger. You know why? Because I've really lived up to what we said, and even more so.

Donald Trump: (32:34)

One of them said, he's actually the only guy I've ever seen, "He's done more than he promised," which is true. That's not a typical politician. But joining us tonight are warriors. Great people, people that I work with all the time, people that I like and people that I respect. Actually, a couple of them I don't like that much, but I respect them and they do a good job, which is much more important. But one I do like and respect a lot, he's respected like you wouldn't believe all over Washington. People go to him for advice and he gets it done, Senator David Perdue. Stand up, David. Will you please make sure he gets in without a runoff? Do you mind? The guy he's running against is nothing. I beat him running, he was running for Congress against somebody I'm going to introduce in just a second, but we beat him and we beat him easily. Now, he's running for the Senate. You're supposed to win at a certain level before you do this. David's one of the best there is in the whole country. And you've got to make sure that David Perdue wins, okay?

Donald Trump: (33:40)

A woman that I got to know a little while ago, and she is strong and tough and wonderful, and she's done a really great job, but I want to thank her very much, Kelly Loeffler. Great job, Kelly. Great job. A man who is very close to Kelly, thinks she's wonderful, admits that she's great, and she admits that he's great, and I'm stuck right in the middle, and he's somebody, and he really is, he's a warrior, he was a warrior with the fake impeachment witch hunt deal. And you couldn't have asked for better. He's an incredibly talented guy and a good guy. And I'm just sitting back and watching these two, and whoever it is, you have two winners, you have two winners, Doug Collins. Thank you, Doug. You think it's easy being me, right? We're going to have two winners. We got two winners there. Go out and vote and let's see what happens. But whoever it is, we got to two really talented people.

Donald Trump: (35:02)

Representative Rick Allen. Great job, Rick. Great job. These are warriors. Barry Loudermilk. Barry. Oh, I liked that, Barry. I like that. Thank you, Barry. Great job you do. We appreciate all that support from these guys. They really are, they fight hard, and they win. They know how to win. We were 197 to nothing, right? 197 on the fake impeachment. I'm the only guy in the world that got impeached over a very good phone call. Can you believe? I think you're supposed to do something wrong to get impeached, but they took care of it. Former Governor for eight years and a very, very popular guy and so good at the farming business I made him Secretary of Agriculture, and we gave the farmers \$28 billion, thank you very much, China, Sonny Perdue. Thank you, Sonny. And Lieutenant Governor Jeff Duncan. Hi, Jeff. Good job, Jeff. Good job, Jeff. Agriculture Commissioner Gary Black. Thank you. Great, Gary. Good job you're doing. Oh, here's a guy. I love this guy. And I guess he's not at least yet a Republican. Can you believe it?

Donald Trump: (36:23)

But he's the hottest guy in politics. I see him on television. Everyone loves him. The ratings go up. I shouldn't say Democrat. So I refuse to say it. State Representative Vernon Jones. Man, oh man. Great job. I love this guy. He's got guts. He saw me a couple of times. He said, "That's what we need." I mean, we can't have Sleepy Joe. Thank you. And he's long before Joe. He's a great gentleman too. He's a great person. Georgia GOP Chair David Schaffer. Thank you, David. How are we doing, David? Are we winning? Are we going to win big? Can you imagine where they say, "Don't come tonight"? Can you imagine? I'm going to call them out? You had people in line for two days. Let's call them up and say, "We don't need you because we're going to win Georgia." But you've got to go vote. You never know. It's called politics. You never know. Got to be careful. Get out and vote. Let's really send a resounding note to Washington.

Donald Trump: (37:27)

And a friend of mine and a great woman, and I hope she wins because she deserves it. She works hard and her opponent is absolutely terrible. She's a total puppet for Nancy Pelosi, Crazy Nancy. Congressional candidate Karen Handel. Karen. You're doing well, Karen, got to win. Opponent is zippo. Rich McCormick. Rich. There's Rich. Good luck, Rich. I heard it's good. Angela Stanton King. Thank you. I heard you're all doing well. Somebody that gets a little more publicity than I do, Marjorie Taylor Greene right here from Northwest Georgia. Oh boy. I don't want to mess with her. No, she's great. Every one of them has my full and complete endorsement. Go out and vote for them and let them all come into Congress. Really great. That's great. For 47 years, Sleepy Joe Biden viciously and repeatedly attacked Black Americans. He decimated the Black middle class and called young Black men "super predators", and they never forgot it. They never forgot it. To every Black American, I'm asking you to go out and vote. You can send a message on Tuesday to the corrupt Democrat establishment. This is your one and only chance to show Sleepy Joe what you think of his decision to attack you, insult you, jail you, and betray you. And that's what he did. That's what he did exactly. Some people won't say it like I say it, but I'll say it. And you know it. You know it. I'm fighting for you. And I got approved things that they never thought, that Obama didn't even try. They never had a chance. And we had to twist a lot of arms, didn't we, David. We had to twist a lot of arms. Criminal justice reform, prison reform opportunities zones, and funding for historically Black colleges and universities.

Donald Trump: [\(39:43\)](#)

I always say that with a possible exception I like to keep the word possible in, with the exception of Abraham Lincoln, I have done more for the Black community than any other President. I say it. I said it during the debate. I say it, I say it proudly. And very few people can dispute it. Under my leadership, we achieved the most secure border in U.S. history, including over 400 miles of completed wall. And it'll be finished very soon. Strongest border we've ever had. And by the way, Mexico is paying for the wall, so we get that one clear. It's all done. Joe Biden wants to open borders, he wants mass amnesty, and he would make every community in America into a sanctuary city. I believe our country should be a sanctuary for law abiding Americans, not for criminal alien. The Biden-Harris plan would also increase refugees a staggering 700%. This is Crazy Bernie, one of the greatest loses in the history of politics.

Donald Trump: [\(40:59\)](#)

No, he keeps losing and then he goes back and he says but he's running again in four years, don't worry about it. He'll be back. One thing about him, you can't get rid of him. I like that about Crazy Bernie. Opening the flood Gates to radical Islamic terrorism. No thank you. I'm keeping the terrorists and jihadists and violent extremists the hell out of our country, if it's okay with you. If it's okay with Georgia, if it's okay with Georgia. Well, I'll tell you what. Thank you. I saw some very good numbers today. I appreciate it. But get out and vote. So, in conclusion, over the next four years, we will make America into the manufacturing superpower of the world and we will end our reliance on China once and for all. And we're doing it. We've already started. We will hire more police, increase penalties for assaults on law enforcement, and we will ban deadly sanctuary cities. With God's help, we will ...

Donald Trump: [\(42:03\)](#)

With God's help, we will defend the right to life, religious liberty, free speech, and the right to keep and bear arms, your second amendment. We will defend your second amendment. We will maintain Americans and rivaled military might. We are the envy of the world with our military. We had an obsolete, exhausted, tired military. We have totally rebuilt our military and we will ensure peace through strength. Greatest equipment in the world, all made in the USA. And a lot of it, I hate to say it's made right here in Georgia. We will end surprise medical billing, require prices transparency, already approved and signed. January 1st that kicks in. Lower drug prices even more. We're going to favorite nations where we get the lowest price in the world. And the drug pu... They do not like me too much is big, they call it big pharma, big pharma is not a big fan of Trump. They don't like what I did.

Donald Trump: [\(43:07\)](#)

But you know what? It's the only way you break that whole cartel. You have to break it. You're going to have drug prices going down 50, 60, 70%. And they're going more commercials on me than sleepy Joe Biden. In fact, he keeps saying, who's doing those great commercials. It's the drug companies. All right, now you're going to have tremendous price cuts on drugs and prescription drugs. We're going to protect your social security and your medicare, which they won't do because when they allow all of these illegals to come in, it'll destroy your social security and your medicare. And we will always protect patients with pre-existing conditions. America will add the first woman on the moon and the United States will be the first nation to land an astronaut on Mars.

Donald Trump: [\(43:59\)](#)

NASA is the talk of the space world. And we also have space force by the way. I never even used to talk about that. I never talked about that during, I realized after I was president that we needed it when I saw what was going on with Russia, China, we needed it. Space force first new, if you think, first in 75 years. Last was the air force, right? Brand new, brand new, and it's doing great. And everybody wants to go into space force. 75 years since air force. And now we have space force and it'll be one of our most important. We will stop the radical indoctrination of our students and restore patriotic education to our school. We will teach our children to love our country, honor our history and always respect our great American flag. And we will live by the timeless words of our national motto, in God we trust.

Donald Trump: [\(45:06\)](#)

For years you had a president who apologized for America. Now you have a president who is standing up for America and standing up for the great people of Georgia. Better believe it. And I want to thank Herschel Walker because I think he's great. I used to watch him when he was in college, he was like a man playing with children. He would catch, he would carry that ball for 10 or 12 yards. That was what he had a bad day, right? 10 or 12. He made a lot of quarterbacks look genius. Here Herschel, here's the ball. Here Herschel here's the ball. He's the greatest. One of the greatest. Where is Herschel, is he around here?

Donald Trump: [\(45:56\)](#)

I think I love Herschel Walker. He's been out there and he is one of the greatest athletes. I think he said he does a thousand pushups a day and he is just something special. He's been a great friend of mine for a long time for, I don't want to tell you how long, but, so I just want to pay my respects because he loves this part of the world. He loves Georgia and Georgia loves him. You know, they did the ballot. Remember they did a ballad to Herschel Walker. You just hand him the ball, you win the game. Here Herschel 10 yards, 12 yards, 40. What did he average today? He averaged 11 yards of carry. Well, that's pretty good. Hard to lose those games. So thank you very much Herschel you're watching. Thank you very much. Thank you.

Donald Trump: [\(46:44\)](#)

And Georgia loves your Herschel and I do too. Two days from now, America's fate is in your hands. Your vote can defeat the Washington swamp and the corrupt media right there. Once and for all. They have to get out to vote. You're going to probably want to get, I always say early vote, early vote. But our people love to vote on election day, Tuesday. So go out and vote. That red wave is going to be all, it's going to be the darker the world. It's going to be the talk of the world.

Donald Trump: [\(47:18\)](#)

It's going to be the talk of the world. From Atlanta. You know it, you feel it, you see it and you know, organically, these things are just rising up. 5,000 votes all over the place. And I mean, nobody's ever seen thousands of cars. What do they have? Something 90 or a hundred miles long of cars, trucks, tractors. In Iowa they had thousands of tractors on this massive farm. Now it's something's going on. Never happened before. Nothing like this has happened before. By the way, crowds like this have never happened before. This never happened before.

Donald Trump: [\(47:54\)](#)

My competitor, he's got those circles, those crazy circles. And he can't fill them up. There's five of them. So he has to press please come down and take one. From Atlanta to Augusta, from Savannah to Columbus and from Athens to right here at Rome, we inherit the legacy of red blooded American patriots who gave their blood, sweat, and tears to defend our country and our freedom. Great people. We stand on the shoulders of American heroes who crossed the oceans, settled the continent, tamed the wilderness, laid down the railroads, right? Raised up the great skyscrapers, won two world wars, defeated fascism and communism, and made America into the single greatest nation in the history of the world. And the best is yet to come. The best is yet to come.

Donald Trump: [\(49:12\)](#)

Proud citizens like you helped build this country and together we are taking back our country. We are returning power to you, the American people. With your help, your devotion and your drive, we are going to keep on working. We are going to keep on fighting and we are going to keep on winning, winning, winning.

Donald Trump: [\(49:39\)](#)

We are one movement, one people, one family, and one glorious nation under God. And together with the incredible people of Georgia. We love Georgia. I love Georgia. We love Georgia. Thank you. That's really an honor. Don't keep doing that. You're going to make me cry. I said, they'll put up, the President broke down in tears tonight as they chanted we love you. No, we don't want, I mean, I guess it's okay, but somehow we don't want to, we don't want to have a crying president I don't think. Right now we don't want, we have too many things to do. But I do. It's never been heard. That chant has never been heard politically so I appreciate it very much. Believe me. We have made America powerful again. We have made America wealthy again. We have made America strong again. We have made America proud again. We have made America safe again and we will make America great again. Thank you, Georgia. Go out and vote.

President Donald J. Trump: [\(02:08\)](#)

Thank you very much. Wow. This is a very big crowd. Wow look at this. Hello North Carolina, hello. Two days from now we are going to win this great State just like we did last time. You were the one, right? You were the one that put us over that hump and we're going to win four more years in the white house, our beautiful white house. With your vote we will continue to cut your taxes, cut regulations, support our great police, protect our Second Amendment, defend religious liberty and ensure more products are stamped with that beautiful phrase made in the USA. And next year will be the greatest economic year in the history of our country. Under my leadership our economy grew at the fastest rate ever recorded, 33.1% just announced. We created a record 11.4 million jobs in the last five months while foreign nations are in a free fall, we're creating the world's greatest economic powerhouse. A recent Gallup Poll just came out, found that 56% of Americans say they are better off today than they were four years ago under Obama and sleepy Joe Biden.

President Donald J. Trump: [\(03:53\)](#)

And I want to tell you it's really windy up here. Thank goodness you have a President that doesn't need teleprompters because these things are virtually useless. They are blowing all over the place. That's true. They're blowing all over. We started off today two great places. We went to Iowa, I'll tell you what, in Iowa we had the coldest windiest, but it was warm because the people were warm and we're going to win Iowa, very big, very big. But we had a couple of cold stops today. One was so cold we talked about refugees, we said, if they come in they're going to say, "I want to go back immediately," it was so cold. If Biden and Harris get in, the economy will collapse and our country will go into at least a free fall, but probably a depression, they want to raise your taxes. They want to take away your Second Amendment, they want to do lots of things that I don't think you can stand for.

President Donald J. Trump: [\(05:02\)](#)

I don't think you can send for, fracking doesn't pertain so much to it, it does pertain in a different way to you than it would to Pennsylvania. They're taking away you're fracking but what they're really doing is your energy costs are going to go through the roof, that will be very bad for this incredible State. They want to massively increase regulations, send your jobs overseas, destroy the suburbs, well we're keeping the suburbs. I got rid of the regulation that would have destroyed the suburbs, they will bring it back worse than ever before. Terminate religious liberty, eliminate school choice, outlaw private healthcare, and shred your Second Amendment, take away your guns and indoctrinate your children with anti-American lies. Biden has vowed to abolish U.S. oil, U.S. fracking, natural gas, industry. Look at what he's talking about doing, but it's not him, he's shot, okay? It's not him.

President Donald J. Trump: [\(06:09\)](#)

It's the radical left, it's the radical left. Energy prices will explode and that will cripple our country. We, right now, are energy independent, what we have going we've never had before. Biden's energy ban will send every state from North Carolina to Michigan to Pennsylvania into a very, very severe problem and we're not going to have it, we worked too hard. We had the greatest economy in the history of our country and then the plague came in from China, it came in from China, they should have never allowed it. They stopped it from going into China, but it came to us and Europe and the rest of the world and we're never going to ever forget, we will never forget. But now we're building our economy back up and it's going in a V, but it's really a super V. As long as I'm President, we will remain the number one producer of oil and natural gas on the planet earth and we will remain energy independent. Our opponents' agenda is a war on workers, a war on faith and a war on our great police. Biden says he's running as a proud Democrat, I'm running as a proud American.

Speaker 1: [\(07:48\)](#)

USA! USA! USA! USA! USA! USA! USA! USA! USA!

President Donald J. Trump: [\(07:48\)](#)

Thank you. Thank you very much. By the way, I just have to say this. So we had something incredible happen four years ago. This is more important and there's more energy, the crowds are bigger, everything's hotter. But this is actually and I never thought I'd say it because that was an incredible period of time, never thought, this is the most important election perhaps in the history of my country. Get out and vote. Got to get out and vote. Sleepy Joe Biden is a diehard globalist who spent 47 years outsourcing your jobs, opening your borders and sacrificing American blood and treasure in ridiculous, endless wars and they're all coming back, they're all coming back. North Carolina lost nearly half of its manufacturing jobs thanks to NAFTA, one of the worst trade deals ever. And we got rid of it, nobody thought that was possible. Promises made, promises kept. We did it all. Biden and his group shipped your jobs and your factories to China and other places in far away lands raking in millions of dollars for himself it turns out, we didn't know about this, did we? His son was like a human vacuum cleaner, he went in and "Where are you going today, dad?" "I think I'll go to Ukraine." "Okay, let me pick up a couple of bucks." \$183,000 a month and \$3 million upfront. "Where are you going today dad?" "I'm going to go to Russia." "Good." So the Mayor of Moscow's wife gave him three and a half million dollars, right? And here's the scary part, the fake news media and there's a lot of it right back there, the fake news, they don't want to talk about it, they don't want to talk about it. And big tech will refuse to put it on and then they'll terminate the New York Post if they put it up, New York Post I have to give them a lot of credit. Number one, they endorse me, which is nice.

President Donald J. Trump: [\(10:06\)](#)

I got endorsed today by the Pittsburgh Gazette and it hasn't happened where they endorsed a Republican today. Nobody can believe it, they haven't done it in decades. And thank you very much Pittsburgh Gazette, we'll take it. We got endorsed by a lot of great people, we got endorsed by great people and a lot of newspapers are endorsing us because they know that Joe Biden is not up to this job. All you have to do is watch him for about five minutes, he is not up to this job. One thing I can tell you, President Xi, Putin, Kim Jong-un, they're very sharp, they're very sharp, they're all very sharp and we cannot have a leader that's not sharp. Joe Biden is a corrupt politician who is bought and paid for by China and other countries.

President Donald J. Trump: [\(10:57\)](#)

How can you have a guy whose son walks out with a billion and a half dollars to manage, that means millions of dollars a year, whose son asked for \$10 million a year for introductory purposes, right? \$10 million a year and he's supposed to be negotiating with China? China would just hope that I don't win because, hey, we've taken in tens of billions of dollars a year first time ever with China, we never took in \$25 cents. Saved our steel mills, saved our steel mills, saved our steel and aluminum industries. In 2016, North Carolina voted to fire this corrupt political establishment and you elected a President who is finally putting America first. And if I don't sound like a typical Washington politician it's because thankfully I'm not a politician and never will be. And if I don't always play by ...

President Donald J. Trump: [\(12:03\)](#)

Never will be. And if I don't always play by the rules of Washington and the Washington establishment, it's because I fight for you and there's never been anybody that's fought harder for you. I had a very nice life before doing this. I had a very nice life.

Speaker 2: [\(12:23\)](#)

We love you! We love you!

President Donald J. Trump: [\(12:33\)](#)

Thank you. Thank you. Thank you very much. So nice of you. That's such a great honor, when I hear that. It's never been said at any... I said, "Did anybody ever hear that? Ronald Reagan we liked, others we like." Nobody's ever heard it, and I appreciate it very much. My opponent is promising a long dark winter. Did anybody see the debate? I'm sure nobody watched it, right? He didn't do too well. Remember he said, "You're going to have a long dark winter"? It's so inspiring. How about somebody says, "Gee, we really like Biden"? I don't think anybody likes Biden. "Harry, let's watch Biden tonight on television." And he says, "We're going to have a long dark winter." How inspiring that is, right? So he said that, and I'm saying that we're going to deliver the greatest American comeback in history. That's what we're doing, and we're way ahead of schedule.

President Donald J. Trump: [\(13:32\)](#)

This election is a choice between a Biden depression and a boom like you've never seen before. It's a choice between a Biden lockdown. He wants to lock you down. Let's lock it down. Let's lock it down. And by the way, tell your Governor to open up North Carolina. It's time. It's ridiculous. It's ridiculous. They'll probably announce it on November 4th. "We're going to open up now." They thought our numbers wouldn't be so good. They thought by keeping these states like Pennsylvania, North Carolina, Michigan, how about her? Her husband roams free. He's the only one in the whole state. No, but they thought that by keeping them down the numbers would ... And yet we had, at 33.1, that's the highest in the history of our country. By double. You have to go back to 1952, and that was half of what we did. So we are looking forward. We're going to have very shortly, within a couple of weeks, we're going to have a safe vaccine that will end.

President Donald J. Trump: [\(14:42\)](#)

And now look, we're rounding, they hate when I say it, the fake news, but we're rounding the turn. We're rounding the corner anyway. We're rounding the corner. But on top of that, we have vaccines coming from Pfizer, Johnson & Johnson, Moderna, great companies, and they're right there, they're right. And we're going to have them launched. And our military is going to do it logistically. Incredible. And we're going to start with our seniors, especially our seniors where they have some problems with heart, with diabetes, and we're going to have a great thing. It's going to speed up the process we launched. And by the way, it does work here. I am. Here I am. No, I like to say that the medicine I took, Regeneron, I'd like to say that it had no impact on me, because I'm a perfect physical specimen and I'm very young. But I decided to take it anyway.

President Donald J. Trump: [\(15:40\)](#)

No, it's amazing the things we've been able to do in the last six months. Not only that, if you look at all of what we produce now, we've become a production ... Incredible what we're doing and what we're sending to the world. The ventilators, what we're sending to the world, I mean, we're sending things that nobody could believe. The treatments that reduce the fatality rate now 85%. Think of it, think of it. But my wife, our First Lady got it and our son Baron got it. And Barron's 14, and he's very tall and he's strong. And he had it for a matter of minutes. That's why I say, "Get the kids back to school. Get them back to school." The doctor came up to us and said, "I'm sorry, but Barron has tested positive." And I said, "For what? Tested positive for what? And it's got about 30 different names, but he said, "COVID."

President Donald J. Trump: [\(16:41\)](#)

We could call it the China Plague, the China Virus, but he didn't say. He said, "COVID. I said, "Gee, that's too bad." He said, "Oh, he'll be fine." About 14 minutes later, he came back. I said, "How's Baron doing?" "Oh, he shook it off. It's fine. He's fine." They're young. They have strong immune systems. Get them back to school, please. We've learned about this horrible plague that was sent to us by China. Our excess mortality rate in America is 40% lower than Europe. You keep hearing Europe is doing so well. They're not doing so well. And we want them to do well, by the way. And we helped them. We helped them. We want them to do well. But they're having a very hard time.

President Donald J. Trump: [\(17:27\)](#)

Joe Biden is promising to delay the vaccine and turn America into a prison state while letting rioters roam free. They close your churches, they close your schools, but if you want to riot and burn down the stores and have the anarchists out there and do lots of it, that's okay. You can't stop that. You can't go to school and you can't go to church. It's crazy. All Democrat run, by the way. All Democrat run. You look at Portland, Democrat, super liberal Democrat. We could fix that situation. We have to be invited in. We fixed Seattle because we said, "That's enough. We're going in. We don't care. We're going in." So we were going in the next morning. That night they found out about it. They said, "We're leaving now. Thank you very much." And we did a great job in Minnesota, Minneapolis. After you watched that place burning, down a week and a half later, they went in and solved it in about a half an hour.

President Donald J. Trump: [\(18:29\)](#)

If we'd listened to Joe Biden on allowing travel to come in from China and Europe, remember he said, "Oh, he's xenophobic." Now, he runs for President, he said, "We should have acted sooner." Months later, he didn't think we should do it. Hundreds of thousands more people would have died. We saved two million people or more. Remember the model? It said 2.2 million people would die. Well, we saved two million people by acting quickly. Now, Biden wants a cruel and very heartless nationwide shut down. It won't affect you, because you're already shut down. I don't know what the heck. What's going on with your state? Are you ready to open up? I think so, huh? No, you know what? People aren't going to take it anymore. Look at what happened in Europe, and the people are revolting. They don't want to do it anymore. They can't do it anymore. We can't have the cure be worse than the problem itself. That was the first thing I said a long time ago.

President Donald J. Trump: [\(19:34\)](#)

The Biden lockdown will result in countless deaths and wipe out an entire generation of dreams. And we've learned that children with a computer do not do well compared to being in classes. They don't do well. It's not the same. And the parents have to go to work, and the problems that are caused with alcohol, drug abuse. We can't let this happen. And you can't let it go on. I have a feeling that probably they'll say, "It's now November 4th, the day after the election, we'll go back. We'll go back." He should have never done that. And they should have never done that. And actually, the states that are doing best, look at Florida, look at all of these states where they had a spike and they didn't close down. Look at what happened in Arizona. Look at what happened in Texas. We can't let it happen. Europe imposed Draconian lockdowns, and yet their cases are exploding. Their deaths are surging and their economies are, let's face it, you look at what happened, they're in ruins.

President Donald J. Trump: [\(20:37\)](#)

We had the smallest down and the largest up and the largest fast up on the economy, by far. So the European lockdowns are leading to more suffering, delayed medical care, and financial devastation. A vote for Biden is a vote for lockdowns, layoffs, misery, and getting rid of your Second Amendment. They want to hurt our police, but they want to take away your guns. Very interesting, isn't it? If you want a vaccine to kill the virus, a job to support your family, and freedom

to live your life, then go cast your ballot, cast your vote for me. We're going to do it. We're doing it. But you don't have to take my word for it, because in certain states that I like a lot, we spend a lot of money for, where is that rail? Look at that over there. Look at that.

Speaker 2: [\(21:34\)](#)

Four more years!

President Donald J. Trump: [\(21:35\)](#)

You're going to see something right now. You don't have to listen. Please roll the video. Roll it.

Joe Biden: [\(21:45\)](#)

My problem is I voted for NAFTA. I'm supporting NAFTA because I think it is a positive thing to do. And I do not pretend to be an expert on international trade matters.

Bernie Sanders: [\(21:57\)](#)

Trade agreements like NAFTA and permanent normal trade relations with China, which forced American workers to compete against people making pennies an hour has resulted in the loss of 160,000 jobs.

Speaker 3: [\(22:09\)](#)

The President is absolutely right when he says that China has been cheating for 25 years, and that Bill Clinton didn't do enough about it, George W. Bush didn't do enough about it, Barack Obama didn't do enough about it.

Joe Biden: [\(22:19\)](#)

A rising China is an incredibly positive development for not only China but the United States and the rest of the world. A rising China is a positive, positive development. It is in our self interest that China continue to prosper. We want to see China rise. China's a great nation and we should hope for the continued expansion. China is not our enemy. We talk about China as our competitor, we should be helping. The idea that China is going to eat our lunch is bizarre. The idea that they are our competition, that they're going to beat us, is bizarre. They're not bad folks, folks. China's not a problem.

Jake Tapper: [\(23:02\)](#)

Allowing China into the World Trade Organization, which you supported, extending most favored nation status to China, which you supported, that those steps allowed China to take advantage of the United States by using our own open trade deals against us.

Joe Biden: [\(23:22\)](#)

Now, look.

Jake Tapper: [\(23:22\)](#)

Do you think in retrospect that you were naive about China?

Joe Biden: [\(23:25\)](#)

No.

Jake Tapper: [\(23:26\)](#)

But doesn't he deserve some credit for that? It's better. The USMCA is better than NAFTA.

Joe Biden: [\(23:31\)](#)

It is better than NAFTA. We have to come together. That's why I'm running. I'm running as a proud Democrat for the Senate. So vote, vote. Visit iwill.com/Ohio. God bless you.

Speaker 4: [\(23:49\)](#)

Can somebody tell Joe, by the way, it's not a real website, and Joe you're running for President, not Senator. And by the way that Senator, the Mormon guy, is Mitt Romney, not some Mormon Governor. Now, sadly, what we showed you that's just ...

Speaker 4: [\(24:03\)](#)

Some Mormon governor. Now, sadly, what we showed you, that's just from a couple of hours today because every time that Joe actually leaves the basement bunker and stays out past 10:00 a.m., well, disaster ensues. Here's a quick reminder.

Joe Biden: [\(24:17\)](#)

Tomorrow's superstar Thursday. And I want to thank you all. I'll tell you what, I'm rushing ahead, aren't I. We hold these truths to be self-evident all men and women are created by the... Go, you know, the, you know the thing. If you agree with me, go to Joe three O three three O. We choose truth over facts. Play the radio. Make sure the television, excuse me, make sure you have the record player on at night, the phone. Make sure the kids hear words. Poor kids are just as bright and just as talented as white kids. Donald Trump does pose the next little spent to this... It's not hypothetical.

Speaker 4: [\(24:58\)](#)

This is pretty serious. By the way, these are way beyond an occasional campaign gaff. And I am beginning... Well, I'm more than a little worried that this man could represent a clear and present danger to this country. He's obviously not capable of leading. He's been hiding the entire campaign and the corrupt media mob is covering for him. Joe wants to be the President of the United States of America. That would be the toughest job in the world. And at times, Joe doesn't seem to remember that he's even running for President or what state he's in or what day of the week it is. Does anyone really believe that if elected that Joe Biden will actually be in control of anything?

Joe Biden: [\(25:42\)](#)

What kind of country are we going to be? Four more years of George, George, he's going to find ourselves in a position where if Trump gets elected, we're going to be, we're going to be in a different world.

Joe Biden: [\(25:55\)](#)

Barack and I think it's a right for people to have bad at health care. Folks, we got a lot of work to do. I don't really need you to get me elected. I need you once I'm elected. I'll lead an effective strategy to mobilize truant international under pressure. [inaudible 00:02:16].

President Donald J. Trump: [\(26:25\)](#)

Thank you. Well, thank you very much. That saves a lot of words up here on this cold windy night. It saves a lot of words, but we can't do this to our country. We have such potential. We cannot do this. He's failed for 47 years. And at the debate, all I had to do is very easy. I said, "Joe, why didn't you do it?" You know, as he stood in complained, "What about this, what..." I said, "Joe, you left three and a half years ago. You were there for a long time. And you were in that position for eight years. Why didn't you do it, Joe?" And he never had an answer. No law enforcement endorsements, no nothing.

President Donald J. Trump: [\(27:20\)](#)

Joining us tonight are some people that have done a great job and people that really helped me a lot in Washington, a man who right now I hear you do doing extremely well in the polls, senator, Tom Tillis. Tom, very good. I just saw a very good poll and we had a very good poll today, too.

President Donald J. Trump: [\(27:44\)](#)

I have to tell you that. I'll tell you what, if I don't win after coming here... They said, "Maybe we can cancel North Carolina tonight." One of my guys, one of my geniuses said, "I think they'd understand." You've only been out here for two days waiting. I said, "I don't have the courage to even think about asking that question." No, would never even think about it. No, you've been great to me. The victories that we've had together and what we've done for you, and we have you protected, including your tobacco growers. Right? We have it all. We have you all protected. You're all protected.

President Donald J. Trump: [\(28:22\)](#)

A really wonderful person, wonderful woman, and she's always with me, representative Virginia, Foxx. Virginia., thank you. Thank you, Virginia. Great job. You do.

President Donald J. Trump: [\(28:34\)](#)

A man that I'd love to see in. He'll open you up. I think we can get a guarantee tonight. Lieutenant Governor, Dan Forest. Come on Dan, win. Good, Dan. Boy oh boy, I tell you that would be a natural. That's a natural. You'll open it up right away. Okay. You should win just on that one. This is crazy. He's doing what the Washington Democrats are telling him to do.

President Donald J. Trump: [\(29:05\)](#)

Attorney General candidate Jim O'Neill, hi, Jim. I Great job, Jim. GOP Chairman Mike Whatley. How are we doing, Mike? Are we winning? Are we leading? The poll's up. Right? Yeah, we're up pretty good. We should be up.

President Donald J. Trump: [\(29:24\)](#)

Can you imagine? Can you imagine pastor and a friend of mine and he lives right down the road, Pastor Franklin Graham.

Franklin Graham: [\(30:01\)](#)

Thank you, Mr. President. And I would like to just take a second to pray for this man. Will you join me? Father and our God, we pray for our President. Protect him and his family and protect our nation. And we pray this in Jesus' name. Amen.

President Donald J. Trump: [\(30:16\)](#)

You take care of yourself. Thank you. It's a great honor. That's good genes right there. Right? That's good genes, Billy Graham. How good was Billy Graham? Right? Nobody liked Billy.

President Donald J. Trump: [\(30:36\)](#)

After years of rebuilding foreign countries, we are finally rebuilding our country. For 47 years, the Democrats viciously and brutally repeatedly attacked. And you know what we're talking about because it was led by a man named Joe Biden... Black Americans, they attacked. Decimated the black middle class and called young black men super predators. To every black American, I am asking for you to vote. You have to vote on Tuesday. You can send a message on Tuesday to the corrupt Democrat establishment. Thank you. Thank you. Thank you very much.

President Donald J. Trump: [\(31:25\)](#)

We've had tremendous support and by the way, just so you understand, I don't want to look at all those cameras. Oh, they're all blazing. You ready? So we're doing so well. And one of the great things that's happened is our African American vote. Our black community vote is way up. And they're all saying, "Wow, wow." They're all saying... Everybody back there is saying, "Wow, that's amazing." That's what's happening in Florida. That's what's happening here. That's what's happening all over.

President Donald J. Trump: [\(31:58\)](#)

This is your one and only chance to show sleepy Joe Biden what you think of his decisions to attack, insult, jail you. 1994, Bill, I'm fighting for you. And if you look at what we've done just quickly, criminal justice reform, prison reform, opportunities zones with Tim Scott, historically black colleges and universities long-term funding. They had no funding. They had... Every year, they had to come back and ask for funding. I said, "Nope, we've got to get your long-term funding." We got them more money than they wanted. They needed it.

President Donald J. Trump: [\(32:37\)](#)

Under my leadership, we achieved the most secure United States border in the history of our country. Biden would make every city in America a sanctuary city, which is not good. And it's not Biden. It's not Biden. It's his handlers. I believe our country should be a sanctuary for law abiding American citizens. The Biden/Harris plan would also increase refugees 700%, opening flood gates to radical Islamic terrorism. You see what's happening in France. I'm keeping terrorists, jihadists, and violent extremists out of our country.

President Donald J. Trump: [\(33:26\)](#)

And I was asked, on this very windy night, speaking of that, to do a thing that we used to do during the campaign. I'll do it. Has anyone heard of The Snake?" Have you heard? Should I do it?

President Donald J. Trump: [\(33:42\)](#)

So this has to do with this subject. And it's been a long time since I've done this one, but so many people are asking. You ready? The Snake. On her way to work one morning down the path, along the Lake, a tender hearted woman, saw a poor half frozen snake. His pretty colored skin had been all frosted with the dew. "Poor thing," she cried. "I'll take you in and I'll take care of you." "Take me in oh, tender woman. Take me in for heaven's sake. Take me in oh, tender woman," sighed that vicious snake.

President Donald J. Trump: [\(34:24\)](#)

She wrapped him up all cozy in a comforter of silk. And she laid him by the fireside with some honey and some milk. She hurried home from work that night. As soon as she arrived, she found that pretty snake she'd taken in had been revived. "Take me in oh, tender woman. Take me in for heaven's sake. Take me in oh, tender woman," sighed that vicious snake.

President Donald J. Trump: [\(34:53\)](#)

She clutched him to her bosom. "You're so beautiful, she cried, " But I hadn't brought you in by now, you know, you would have died." She stroked his pretty skin again and kissed and held him tight. But instead of saying, thank you, this snake gave her a vicious bite. "Take me in oh, tender woman. Take me in for heaven's sake. Take me in, oh, tender woman," sighed that vicious snake. "I saved you," cried the woman, "And you bit me, but why? You knew your bite was poisonous and now I'm going to die." "Shut up, silly woman," said the reptile with a grin. "You knew damn well I was a snake before you took me in."

President Donald J. Trump: [\(35:47\)](#)

So, I've been asked by so many people. I've been asked to do that one by so many people, but that pertains a little bit to what we see going on. And you look at Paris and you look at the attacks over the last week and you...

President Donald J. Trump: [\(36:03\)](#)

... Paris and you look at the attacks over the last week and you look at what's happening and we are doing very well. We are doing very well. We have a very strong policy. We put in a ban that a lot of people were upset about and now they're saying, thank you very much for the ban. We appreciate it very much.

President Donald J. Trump: [\(36:20\)](#)

We invested \$2.5 trillion in the US military. We also passed VA Choice and VA Accountability for our great vets. We have a 91% approval rating with our vets. That's the highest by a lot in history, that by direction, the United States military conducted a successful operation to rescue an American hostage, last night. Kidnapped overseas just 96 hours earlier; incredible people.

President Donald J. Trump: [\(36:56\)](#)

The US special forces brilliantly executed a daring nighttime operation. Over the last four years, we have rescued a record 55 hostages and detainees in more than 24 countries and we pay nothing because once you pay, those numbers go very high, but this operation should serve as a stark warning to terrorists and thugs who try to kidnap our people. You cannot escape the long reach of American military and American justice.

President Donald J. Trump: [\(37:36\)](#)

So this happened last night. We're very proud of them. I was at Fort Bragg and by the way, we're leaving the name Fort Bragg in case you had any [inaudible 00:01:45]. Let That word out if you don't mind. Cancel culture. Let's cancel. Let's change everything. Naw. We're leaving the name Fort Bragg. A lot of... We won two world wars out of Fort Bragg and other great places. Gee, let's change the name of Fort Bragg.

President Donald J. Trump: [\(38:04\)](#)

We obliterated the ISIS caliphate and we killed the leader of ISIS, al-Baghdadi. We eliminated the mass murder of US troops. Soleimani is dead. I withdrew from the last administration's disastrous Iran Nuclear Deal. I recognized the capital of Israel and opened the American Embassy in Jerusalem. So recognized Israeli sovereignty over the Golan Heights; 52 years, they negotiated that deal. We did it in less than two hours and we are now forging peace in the Middle East. Already three countries and they're lined up.

President Donald J. Trump: [\(38:49\)](#)

A vote for me in the Republican party is a vote to save the American Dream. And in conclusion, over the next four years, we will make America into the manufacturing superpower of the world and we will end our reliance on China once and for all.

President Donald J. Trump: [\(39:13\)](#)

We will hire more police, increase penalties on law enforcement, and we will ban deadly sanctuary cities. With God's help, we will defend the right to life, religious liberty, free speech, and the right to keep and bear arms. Your Second Amendment.

President Donald J. Trump: [\(39:40\)](#)

Which Sleepy Joe will not be doing any of that. We will maintain America's unrivaled military might, and we will ensure peace through strength. And we are the envy of the world, military. \$2.5 trillion but we have the finest missiles and rockets and tanks and jets. What we've done, submarines. We have the greatest military and our nuclear arsenal has been updated and is a tippy-top shape. And only hope to God, we never have to use it. Hope to God, we never have to use it.

President Donald J. Trump: [\(40:17\)](#)

We will end surprise medical billing. Require price transparency starts on January 1st, all done. Lower drug prices even more. Going to bring them down to the lowest anywhere in the world. I've exercised a thing called Favored Nations. The drug companies do not like me too much and we will always protect patients with pre-existing conditions.

President Donald J. Trump: [\(40:45\)](#)

America will land the first woman on the moon and the United States will be the first nation to land an astronaut on Mars. We will stop the radical indoctrination of our students and restore patriotic education to our schools. We will teach our children to love our country, honor our history, and always respect our great American flag. And we will live by the timeless words of our national motto, in God we trust.

President Donald J. Trump: [\(41:26\)](#)

For years, you had a president who apologized for America. Now you have a president who is standing up for America and standing up for the great people of North Carolina.

President Donald J. Trump: [\(41:41\)](#)

Two days from now, America's fate is in your hands. You must get out and vote. This is the most important election, possibly in the history of our country. You must let everyone know, go get them, go grab your family, grab your boss, grab your coworkers, grab them all. Got to get out and vote. So important.

President Donald J. Trump: [\(42:04\)](#)

From Asheville to Charlotte, from Wilmington to Raleigh and from Greensboro to right here in Hickory, great place. Greatest furniture in the world. I bought plenty of it and it's much better than what they make in China. That I can tell you. I know it well. There's a big difference. We inherit the legacy of red blooded American patriots who gave their blood, sweat, and tears to defend our country and to defend our freedom. We stand on the shoulders of American heroes, right? These are great, great heroes, who crossed the oceans, settled the continent, tamed the wilderness, laid down the railroads, raised up the great skyscrapers, won two world wars, defeated fascism and communism, and made America into the single greatest nation in the history of the world and the best is yet to come.

President Donald J. Trump: [\(43:11\)](#)

Proud citizens like you helped build this country and together we are taking back our country. We are returning power to you, the American people. With your help, your devotion and your drive, we are going to keep on working. We are going to keep on fighting and we are going to keep on winning, winning, winning.

President Donald J. Trump: [\(43:35\)](#)

Vote for Tom. Get Tom in there, right? We are one movement, one people, one family, and one glorious nation under God, and together with the incredible people of North Carolina, we have made America powerful again; our military.

President Donald J. Trump: [\(43:54\)](#)

We have made America wealthy again. We have made America strong again. We have made America proud again. We have made America safe again and we will make America great again.

President Donald J. Trump: [\(44:16\)](#)

Thank you, North Carolina, go out and vote. Thank you.

Donald Trump: [\(03:26\)](#)

Well thank you very much. Thank you. What a crowd. This is a very great place. We had a great victory here four years ago. And I just noticed their happened to be a poll out, that came out last night, that has a very, very substantial margin. We're very happy with it. We're very happy with it, and we're very happy with Iowa, thank you very much Iowa. And we appreciate it. And we've had a great run together, and I've been working very hard with the farmers, and making them hopefully very rich. Making them very rich, and very successful, and hello to everyone here also from Wisconsin. We have a lot of people from Wisconsin.

Donald Trump: [\(04:12\)](#)

All right. Let's see. Who is from Iowa? And who is from Wisconsin? All right. That's not terrible. That's not bad. We just left Wisconsin, and we're going back to Wisconsin. Two days from now we are going to win Iowa and we are going to win Wisconsin. And we are going to win four more years in that very beautiful White House. With your vote we will continue to cut your taxes, cut regulations, and ensure that more products are made, and raised, and grown in the USA. That's what's happening. That's what's happening.

Donald Trump: [\(04:53\)](#)

Next year we'll be, I think we're going to have the greatest year, economically speaking, in the history of our country. You saw the number that just came out. 33.1 GDP. That's the best number in the history of our country. And we're set. We call it a super V. We used to say a V, now we're calling it a super V. Under my leadership, our economy is now growing at the fastest rate ever, we're truly something. We're set. We're all set. We were doing better than ever before. We had the greatest economy in the history of our country, and then we got hit by the China plague, which we're not going to forget.

Audience: [\(05:33\)](#)

Boo.

Donald Trump: [\(05:34\)](#)

So we closed it up, we closed it up and then we opened it up, and we saved, I'll tell you, we saved two million lives. It was 2.2 million people, were projected, we saved two million lives. But what happened, there shouldn't have been one life. Shouldn't have been. And we can never forget what China did to us, we can never forget. While foreign nations are in a free fall, you see what's going on in other lands. Look at what's happening in Europe. It's a shame. We're creating the world's greatest economic powerhouse.

Donald Trump: [\(06:09\)](#)

A recent Gallup Poll found that 56% of the Americans polled said that they were better off now, much better off, it's a record, than they were four years ago under Obama and Biden. As president, I kept my promise. And I protected ethanol. And I approved E15 for use all year round. You don't know what that means. That's a lot. They've been trying to get that approved. Let me just tell you, for all of the ethanol people, and you have Joni, and you have Chuck over here, they fought with me. They were coming, they wanted it. And I said, "Can I give you just a little bit less." "No, we won't accept anything less."

Audience: [\(06:54\)](#)

(laughs).

Donald Trump: [\(06:55\)](#)

That's Chuck, and Joni. They were tough, and they were good. But they didn't have to fight me. They didn't have to fight too hard. I was with the farmers. I was with them from the beginning. But if Biden gets in you can forget about ethanol, you can forget about everything.

Audience: [\(07:10\)](#)

Boo.

Donald Trump: [\(07:10\)](#)

You would have that terminated. You would have that terminated so fast. But authorized its use in existing gas pumps also, that doesn't mean much to you, it means a lot to the ethanol people. So you have the existing gas pumps, you don't have to go and spend a fortune to do the new gas pumps. Nobody knows that. And it doesn't even sound very elegant in this speech. But you have the gas pumps to ethanol, and everything ends if Biden ever... It's not going to happen with Biden, let's face it. That's not going to happen. That's not going to happen. He would end everything that we've done. We've made this an incredible year.

Donald Trump: [\(07:46\)](#)

I got 28 billion dollars from China that went to our farmers, because they targeted you. We opened new markets for Iowa farmers and ranchers. In Japan, the EU, South Korea, and all over the world. We surged exports with the new USMCA. We got rid of your horrible, terrible, worst trade deal ever made. Everyone said that would be impossible to do, we got it done. We got a lot done. We got a lot done. By the way, do you think it could be any windier up here?

Audience: [\(08:21\)](#)

(laughs).

Donald Trump: [\(08:21\)](#)

I'm sitting here, it's like... I'm standing up and this is one hell of a wind. It's lucky you have a president that doesn't need a teleprompter, because these things

are useless. They're going. Yeah. They are useless. They're moving in 17 directions, I'm going like-

Audience: (08:46)
(laughs).

Donald Trump: (08:46)
Now, Sleepy Joe would be lost. He'd be-

Audience: (08:50)
(laughs).

Donald Trump: (08:51)
"What am I going to do?" How about this, they ask him questions, he puts on a teleprompter, gives them... I've never seen this one. The hardest question he had recently was, "What flavor ice cream do you have sir?" He looks down. "I think vanilla and chocolate." "Okay, thanks." They don't ask me questions like that. We confronted China's cheating and made them double their purchases. They doubled up their purchases.

Donald Trump: (09:19)
And three weeks ago you had the largest court order in the history of our country, right? This guy's a corn guy. He's a big corn guy, he likes Trump. You had the largest purchase of soybeans in the history of our country, and the largest beef order. You know why? Because China realized that I'm going to win. Because when you look... And they wanted to make me happy. Because what they did should not have been done.

Donald Trump: (09:46)
They dream about Sleepy Joe Biden. They own Sleepy Joe. They gave his boy a lot of money.

Audience: (09:54)
Four more years. Four more years. Four more years. Four more years. Four more years. Four more years. Four more years.

Donald Trump: (10:02)
Thank you.

Audience: (10:02)
Four more years. Four more years.

Donald Trump: (10:02)
Ah.

Audience: (10:02)
Four more years.

Donald Trump: (10:06)
China goes, they go to bed every night and they say, "Please let it be Sleepy Joe."

Audience: (10:10)
(laughs).

Donald Trump: (10:11)
They would own the United States. You see the whole deal with him, right? With the son, with the 1.5 billion dollars goes to the son to manage. He makes millions of dollars a year.

Audience: (10:22)
Boo.

Donald Trump: (10:23)
Then the kid asks for 10 million a year, for recommendation purposes. He's going to recommend. He gets 10 million. He wants 10 million a year. It's a disgrace.

Audience: (10:36)
Lock him up. Lock him up. Lock him up. Lock him up.

Donald Trump: (10:37)
Nah, it's a disgrace.

Audience: (10:37)
Lock him up. Lock him up.

Donald Trump: (10:40)
It's a disgrace. And then he doesn't have a job for four years, and he goes, and his father becomes vice president. And he wants \$183,000 a month, right? From Ukraine. Ukraine, Burisma, oil company, not the best reputation. And then he said, "That wasn't enough. Could we have three million dollars up front, please?" And then they get from Russia. They, Russia, Russia, Russia. Oh, by the way, the laptop from hell, all of a sudden-

Audience: (11:12)
(laughs).

Donald Trump: (11:13)
Shifty Schiff, with the watermelon head, right Joe?

Audience: (11:15)
(laughs).

Donald Trump: (11:17)
He comes out, [inaudible 00:11:18] Schiff. He comes out and he said, "I think the laptop was developed by Russia."

Audience: (11:26)
(laughs).

Donald Trump: (11:27)
Russia's probably going, "Oh my, here we go again with the-"

Audience: (11:29)
(laughs).

Donald Trump: (11:31)

Can you imagine that? Three years, no collusion. 48 million dollars. A friend of mine said, "You've got to be the cleanest guy in the world. No collusion, no nothing. A waste of 48 million, three years, what a disgrace."

Audience: (11:45)
Boo.

Donald Trump: (11:45)

And then they say, "The laptop came from Russia." No, the laptop came from... Where's Hunter? Where's Hunter?

Audience: (11:52)
(laughs).

Donald Trump: (11:53)

It's called the laptop from hell.

Audience: (11:56)
(laughs).

Donald Trump: (11:56)

How about though, the mayor of Moscow's wife. Gives Hunter a check for 3.5 million dollars. He didn't have a job. He was just... His father became vice president and he became... They were raking in money. And the father was supposed to get 10%, right? And then in another case he was supposed to get 50%. And the media doesn't want to talk about it.

Audience: (12:21)
Boo.

Donald Trump: (12:21)

They put silence on it.

Audience: (12:23)
Boo.

Donald Trump: (12:24)

They put silence on it. And big tech, they'll have to do something with Section 230 Chuck, I'll tell you. They're going to have to do something with Section 230, because what's going on is bad. What's going on could kill this country. They have to do something with Section 230. It's time we stopped talking about it and get it done. We passed record... Because they wouldn't be here if it weren't for Section... We gave them this unbelievable gift of no liability, and they've abused it, they've totally abused it.

Donald Trump: (12:56)

We passed record middle class tax cuts. And we virtually eliminated the estate tax, so you don't have a death tax. When you die, and at some point that'll happen, there's a couple of guys right here. Let's see, eh.

Audience: (13:10)
(laughs).

Donald Trump: (13:10)

When you die and you have a beautiful farm and you want to leave it to your kids, right? In the old days the kids would have to pay tax, and they'd go out and borrow the money, and then two years comes along and they end up losing the farm. No estate tax, no death tax, thank Chuck Grassley, and thank Joni Ernst, right? It's a big deal. You don't have the death tax, or the estate tax. It's a big deal. Now, if you love your children... Who loves your children here? Okay. And who does not love your child or children?

Audience: (13:46)
(laughs).

Donald Trump: (13:46)

There's one hand of a woman in the very back.

Audience: (13:49)
(laughs).

Donald Trump: (13:51)

So, if you don't love them, it doesn't matter that much, okay?

Audience: (13:54)
(laughs).

Donald Trump: (13:55)

If you do, I did you one hell of a favor. You better remember that. We slashed a record number of job-killing regulations. No one has fought harder for the people of Iowa. That's true. For the people, for the farmers. I fought for the farmers, for the ranchers. And China went after you, but I got the money for you because I got it a different way.

Donald Trump: (14:17)

I spoke with our great Secretary of Agriculture, who I think is great, Sonny Perdue, he knows more about farming and agriculture. I said, "Sonny, how much did they hurt us two years ago?" He said, "12 billion dollars." "How much last year?" "16 billion." I said, "Good. Take 28 billion dollars and we're giving it..." I think it was proportioned right, I hope it was, I don't know. Did anybody get a bad deal? Did anybody? Because you're all wealthy.

Audience: (14:43)
(laughs).

Donald Trump: (14:44)

But we took 28 billion dollars and we gave it to the farmers. And that's why you're all here, and that's why you're all happy. And no other president would've done that. And we had a lot of money leftover, because we tariffed China a lot of money. And they paid for it, you didn't pay. The fake news likes to say you paid. You don't pay, they paid. They devalued their currency even further and they paid. We got 28 billion dollars for our farmers, and I'm very happy about it, and so are they.

Donald Trump: (15:12)

For decades, Joe Biden let other countries rip you off, rip off our country, and cheat America blind. And there was a group, they were just, they would let them do anything. Biden has been there for five decades. And the only people who benefited from his policies were himself and his family, frankly.

Audience: (15:31)

Boo.

Donald Trump: (15:32)

He shows up every four years and then goes back the Washington and caters to special interests. But my only interest is you. It's very interesting. He's raising... This sleepy guy is raising a lot of money, right? So he raises money. You know how he raises money? By making deals. That's how you raise money. I would be the greatest political fundraiser in the history of the world. I could raise a billion dollars and give me two days.

Audience: (15:59)

(laughs).

Donald Trump: (15:59)

Give me an extra day just in case.

Audience: (16:02)

(laughs).

Donald Trump: (16:02)

All I have to do is, "Hey." I know most of these guys one way or the other. "President of the United States is calling Mr. So-And-So from Goldman Sachs, etc." "President." "Oh, do me a favor send me 25 million please, for the campaign." "Yes sir." I would get... They wouldn't even negotiate. I'd get so much, and I didn't do any of it, right? And we did very nicely. We got a lot of small donations. But I didn't do any of it, I never made a call. I never made a call. Everybody I called would give, I'm the president, I mean, unless you're stupid you're able to get a lot of money.

Audience: (16:36)

(laughs).

Donald Trump: (16:37)

"Send me 10." "Well sir, we're having a hard time." "All right. Send me five. That's okay. Send me five." I would've raised a billion dollars. But you can only spend so much. You can only buy so many commercials. We've got so many commercials, they have so many. But if Biden Harris... How about Harris? How about Harris?

Audience: (16:55)

Boo.

Donald Trump: (16:56)

Kamala, Kamala. You have to pronounce her name right. It's Kamala, like a comma, Kamala.

Audience: (17:02)

(laughs).

Donald Trump: (17:02)

And yet she pronounces her name differently than that, doesn't she, huh? Did Mike Pence beat her in the debate or what? Did anybody see the debate last week? Our debate? Right? Everything he'd say, I'd say, "Well why didn't you do it Joe?" "Well, he should've done that." Really? First of all, everything I have done. I said, "Joe. You were there for 47 years and you only left 3.5 years ago. Why didn't you do it Joe?" "Well, I never thought of that."

Audience: (17:36)

(laughs).

Donald Trump: (17:39)

But if Biden and Harris, the radical left, gain power, they will crash the economy, destroy your farms, and all of the things I got you, like the estate tax. That's going to be ended. They don't want that. They fought us on that. And then America as we know it, you'll have a socialist country. And America will never be a socialist country. Biden has vowed to abolish the American oil industry. This would be a death sentence, as you know, for ethanol. So all of those people I've gotten to know. I've gotten to know a lot of the ethanol people through Chuck and Joni and Kim, all of them. Yep, by the way, you do have a great governor, you know that right? I don't even know. I don't even know if she's here. Is she here? There she is. I can't see her under all that stuff.

Audience: (18:24)

(laughs).

Donald Trump: (18:25)

Well, she's definitely wearing a mask, I will say that.

Audience: (18:28)

(laughs).

Donald Trump: (18:28)

She's a great governor. The Biden Harris plan would outlaw American energy, would unleash economic misery for Iowa, Wisconsin, Pennsylvania, Michigan, and every other state in America. Your energy costs would go up at a level that you've never seen. He wants to raise your taxes. And it's not him. He has no clue. He's shot, okay?

Audience: (18:51)

(laughs).

Donald Trump: (18:52)

The guy has no clue. You know it, I know it, we're all trying to be nice. But I knew him also for a while, he's not a nice guy. If he was I wouldn't talk this way. He's the only man that ever-

Donald Trump: (19:03)

... if he was, I wouldn't talk this way. He's the only man that I've ever seen, his whole campaign is, "We will raise your taxes." I said I've never heard of it. All my life I've watched politicians, I grew up with politicians, they're always saying, "We'll cut your taxes." He's the only guy I know that says, "We're going to raise your taxes." So I cut your taxes with them, the highest level cut in the history of our country. He wants to raise your taxes more than anybody has ever raised your taxes. Let me just ask you, how do you get elected? I mean, aside from right, wrong, how do you get elected? So he wants to give you the largest tax increase in history. Now for one year he went along the [inaudible 00:19:48] he had 27 people running, right? Some ran well, some didn't go so good. Well, Kamala didn't do well, she was dropping like a rock and she was mean to him.

Donald Trump: (19:59)

And everybody's against fracking, okay? It doesn't pertain to you, but it does as your energy cost because you want your bills to be low, so he's going, "No frack, no frack, no fracking. There will be no fracking." We've got a little play. I don't know if they put it, they did, we spent the money for Iowa, look, see that? That board is expensive as hell. Whoa. Hey, Iowa must be a very important place. We've got a little show. We've got a little show. Look how beautiful. You see a beautiful board, I see a lot of money was spent on that. Wait until you see it, it's incredible what they can do for money, but you're going to see it in a second. But he goes, "No fracking," for a year. "No fracking, there will be no fracking." So he said this 100 times and then he goes to Pennsylvania and he goes, "I believe in fracking. We will have fracking." And the fake news, look at all of them back there, every one of them, they're fake and they're more fake now than they ever were.

Donald Trump: (21:02)

When are you going to look into Moscow and the three and a half million? When are you going to ask Moscow? I want to find out why did Moscow give where's Hunter three and a half million? It must be his expertise. Where is Hunter by the way? Remember I said, "Where's Hunter, is he here?" And then the next day they made a T-shirt. It was the number shirt of the year, where's Hunter? No, but we want them to ask that question instead of what flavor ice cream are you having? They'll terminate your school choice, eliminate your charter schools to fund religious schools, ban prayer in schools, indoctrinate your children, anti-American lies and force you to subsidize extreme late term abortion, that's what they're doing. That's all in their platform, you got to read it. We call the manifesto between crazy Bernie, yeah, Bernie whose one of the greatest losers of all time. No, think of it. They stole two elections, not one. I've seen people where an election got stolen and by the way, we're not going to let that happen to us with these ballots.

Donald Trump: (22:16)

How about the Supreme Court ruling where the Supreme Court, no, this was not good, the Supreme Court gave them more time, more time. So what does this mean? Does this mean we go and we wait, so it's not November 3rd, it's going to be much later than that? No, no, we should know the result of the election on November 3rd, the evening of November 3rd. That's the way it's been and that's the way it should be. What's going on in this country? What's going on? We believe that every child is a sacred gift from God. Biden and Harris will eliminate the private health insurance plans of 180 million Americans, their socialist takeover will ration care and force you onto endless wait lists. You're going to have wait lists, you know what we've done by the way for the military has been incredible. We've gotten rid of the wait list for our veterans.

Donald Trump: (23:14)

Our opponents would pack the Supreme court with far-left justices and by the way, we're into the voting now. It's ridiculous, I liked election day and most of you do too, who is going to vote on election day? Okay. And who's already voted? Okay. And you sent ballots in? Be careful with the ballots, be careful. Just be careful with those ballots, I don't know. Our opponents would pack the court, but remember, a lot of people have already been, he has never said if he's going to pack the court, he's getting along the tap, tap, he's doing a little tap, tap, tap. So he has not said until he says he's not going to do that, you can't vote for him and then on top of it, I created a list of 25, now it's 45 and we just got a great one approved, these two approved them. Amy is going to be fantastic, right? Amy, they all love Amy. She's going to be a fantastic, for a long time a Justice of the Supreme Court, she's going to be there.

Donald Trump: (24:18)

And we picked two other great ones and we're very happy. We have three Justices of the Supreme Court. Many Presidents have never had a pick, they've never had a pick and I've had three, that's just blowing their mind. Look, they're saying, "How the hell did this happen? This guy is driving us crazy." Well, the other thing we've done is, thank you to President Obama, he was unable to get anybody approved, he waited so long and we had little help too with the Senate to put it mildly, but he waited so long if you go early enough, you'll get them through. And we ended up with 142 federal judges, but that's nothing. So we'll have, by the end of my first term, we're going to have almost 300, could be more, 300 approximately 300 federal judges. So that's 300 federal judges, three Justices of the United States Supreme Court. But Bernie never created a list, I have a list, so I take one from the list. People didn't like it, they don't vote for it because it's they say the most important thing that a President does is Supreme Court Justices and judges. And he hasn't given us the answer yet and he hasn't given us a list and he can't because they want far left maniacs and he won't be able to get the votes. So you know what? He's tapping you along, he doesn't know he's doing it, but he's actually doing a very good job of it because people are voting and he still hasn't given a list and he hasn't said whether or not he's going to pack the court. Look, nobody in this group is voting for this guy, nobody. He's not qualified, he wasn't Qualified in primetime, 25 years ago, he wasn't qualified because he was never known as being the brightest bulb in the Lot. When it comes to your second amendment, they want to shred it. They want to abolish religious liberty and they want to ban God from the public square and you've seen that. So the Pledge of Allegiance during the Democrat convention, right? See, it's supposed to be democratic, but it's really not, it's Democrat. Doesn't sound as good that's why I use it all the time.

Donald Trump: (26:42)

No, it should be the Democrat, they should change their name it sounds nicer, I hate to even say it, but the Democrat convention or the Pledge of Allegiance they took the word God out and I heard it I said, "Oh," you know that, I heard it and I said, "Oh, they must've made a mistake. They had a typo maybe, we'll call it a typo." And then I heard it a second time. And I think by the way, God is looking at us and saying, "We want to give you a nice, cool day today," because that wind, I don't know about you, but that wind is hitting me hard.

Donald Trump: (27:14)

Look at these flags. Why the hell did my people put the stage right here for? And there's the great Ivanka Trump who's standing right there. Come here, Ivanka, come here. My poor daughter, she's standing there freezing. Iowa's not like this all the time, they wouldn't grow great corn if it was like this. Look at that, it's Ivanka Trump. Wow. I looked over here, I'm looking at the flags, those beautiful American flags that we love and respect and I see my daughter. Hello Ivanka. Would you like to hear from Ivanka? Come on.

Ivanka Trump: (28:03)

Hello, Iowa. This is some serious energy and a little bit of cold, but you all warm up the room. Well, I love you and we all love this man, a warrior through and through who never forgets why he's in Washington, why he ran for President and who he's fighting for, which is you, the American people. What he has been able to accomplish in four years is extraordinary, but you know what? He'll do that and then some if given another term, which you're going to bring him to. He fights so hard for each of us every day and now we can fight for him and the future of this great country by using our voice and using our vote to win another historic victory for the people's President. Get out and vote everyone. Thank you, God bless

Donald Trump: (29:18)

That's Ivanka. I said, "Ivanka, go down here. It's warmer."

Speaker 2: (29:25)

Four more years! Four more years! Four more years!

Donald Trump: (29:26)

Thank you. Boy, it looked cold out there. She's all by herself under the flags. I said, "Stand next to Chuck Grassley where it's nice and warm." Chuck will keep you warm. He's great. He's a great guy, I'll tell you that. The Biden/Harris agenda is they war on workers, they war on faith and a war on our police. To defend your God-given rights I appointed justice, Amy Coney Barrett to the United States Supreme Court. We will defend, protect and preserve the American way of life. Joe Biden is the candidate of rioters, looters, arsonists, it's hard to believe but you take a look at what's going on in Philadelphia, he doesn't even want to condemn it. Gun grabbers, flag burners, Marxists, lobbyists, and special interest. Other than that, he's not a bad guy, right?

Donald Trump: (30:21)

I'm the candidate of farmers, factory workers, police officers, hardworking people, law abiding patriots and every race, religion, color, and creed. And if I don't sound like a typical Washington politician, that's because I'm not a politician, thank you. If I don't always play by the rules of Washington and the Washington establishment it's because I was elected to fight for you and I fight harder than anybody has ever fought before. Joe Biden is a corrupt politician and we know

that, we know that, we have found that out. You don't have to take my word for it. I've done something for you today that you're going to love. Roll that screen right there, roll it.

Joe Biden: [\(31:15\)](#)

My problem is I voted for NAFTA. I'm supporting NAFTA because I think it's a positive thing to do and I do not pretend to be an expert on international trade matters.

Speaker 3: [\(31:26\)](#)

Trade agreements like NAFTA and permanent normal trade relations with China, which forced the merch and workers to compete against people who are making pennies and [inaudible 00:31:36] has resulted in the loss of 160,000 jobs.

Speaker 4: [\(31:39\)](#)

The President is absolutely right when he says that China has been cheating for 25 years and that Bill Clinton didn't do enough about it, George W. Bush didn't do enough about it, Barack Obama didn't do enough about it.

Joe Biden: [\(31:48\)](#)

The rising China is an incredibly positive development for not only China, but the United States and the rest of the world. Rising China is a positive, positive development. It is in our self-interest that China continue to prosper. We want to see China rise. China's a great nation and we should hope for the continued expansion. China is not our enemy. We talk about China as our competitor, we should be helping. The idea that China is going to eat our lunch is bizarre. The idea that they are our competition, they're going to beat us is bizarre. They're not bad folks, folks. China's not a problem.

Speaker 5: [\(32:31\)](#)

Allowing China into the World Trade Organization, which he supported, extending most favored nation status to China, which you've supported, those steps allowed China to take advantage of the United States by using our own open trade deals against us. Do you think in retrospect that you were naive about China?

Joe Biden: [\(32:54\)](#)

No.

Speaker 5: [\(32:55\)](#)

But doesn't he deserve some credit for that? It's better, the USMCA is better than NAFTA.

Joe Biden: [\(33:00\)](#)

It is better than NAFTA. We have to come together, that's why I'm running. I'm running as a proud Democrat for the Senate. So vote! Vote! Visit iwill.com/ohio. God bless you.

Speaker 6: [\(33:18\)](#)

Can somebody tell Joe by the way, it's not a real website and Joe you're running for President, not Senator and by the way that Senator, the Mormon guy is Mitt Romney, not some Mormon governor. Now, sadly, what we showed you, that's just from a couple of hours today, because every time that Joe actually leaves the basement bunker and stays out past 10:00AM, well, disaster ensues, here's a quick reminder.

Joe Biden: [\(33:46\)](#)

Look, tomorrow's superstar Tuesday and I want to thank you all, I'll tell you what, I'm rushing ahead aren't I? We owe these truths to be self evident. All men and women are created by, you know the thing. If you agree with me, go to Joe 30330. We choose truth over facts. Play the radio, make sure you have the record player on at night, make sure the kids hear words. Poor kids are just as bright and just as talented White kids. Donald Trump does pose an excellent strength to this ... It's not hypothetical.

Speaker 7: [\(34:27\)](#)

This is pretty serious. By the way, these are way beyond an occasional campaign gaff and I am beginning, well, more than a little worry that this man could represent a clear and present danger to this country. He's obviously not capable of leading. He's been hiding the entire campaign and the corrupt media mob is covering for him. Joe wants to be the President of the United States of America, that would be the toughest job in the world and at times, Joe doesn't seem to remember that he's even running for President or what state he's in or what day of the week it is. Does anyone really believe that if elected the Joe Biden will actually be in control of anything?

Joe Biden: [\(35:12\)](#)

What kind of country are we going to be? Four more years of George, we're going to find ourselves in a position where if Trump gets elected, we're going to be in a different world. Barack and I think it's a right for people [inaudible 00:35:28]. Folks, we got a lot of work to do. I don't need you to get me elected, I need you once I'm elected ... I'll lead an effective strategy to mobilize [inaudible 00:00:35:40].

Donald Trump: [\(35:39\)](#)

Oh, we save a lot of words, don't we? We save a lot of words. Our country has such unbelievable potential, let's not blow it, go vote. This election is a choice between a Biden depression or a Trump super boom, we're going to be booming. We're going to have the greatest year, you had the best year we've ever had last year, we're going to have the best year next year, we're set for it. It's a choice between a deadly Biden lockdown, he wants to lockdown, we're never locking down or a safe vaccine that ends the pandemic and frankly, we're going to end it any way. The vaccine's are coming, they're coming in a matter of weeks. It's all set, we're going to be delivering them to our elderly, we're going to start with the elderly, the military, logistically are the best in the world, they're going to be delivering it. And without the vaccine, you can have the vaccine, but without it, we're rounding the corner.

Speaker 2: [\(36:51\)](#)

We love you! We love you!

Donald Trump: [\(36:51\)](#)

Thank you.

Speaker 2: [\(36:51\)](#)

We love you!

Donald Trump: [\(36:52\)](#)

Thank you.

Speaker 2: [\(36:53\)](#)

We love you! We love you! We love you!

Donald Trump: [\(36:57\)](#)

That's really nice, I'll tell you. That's never been a chant that anybody's ever heard. Even Chuck Grassley has never heard. We love Chuck Grassley, don't we? No, but I've never heard of that one, Chuck. Not Reagan, not anybody, they've never heard, so it's good. I appreciate it very much and I love you too, I do. We've developed groundbreaking therapeutics, excuse me, here I am. I took something that was pretty good because I woke up and I said, "I feel great, boom, Superman, right?" That's true. And the first lady got it and Baron got it, now Barron's a young guy, 14 and the doctor came to see me and he said, "Sir, your son

tested positive.” I said, “For what? Tested positive for what?” “For COVID.” I think he used COVID, there’s about 29 different names we can use, the China plague. I think he used COVID, “He tested for COVID,” and I go, “Wow, that’s bad, that’s not good.”

Donald Trump: [\(38:02\)](#)

Wow. That’s bad. That’s not good. 12 minutes later I saw the great White House doctor. “How’s Barron doing?” “Oh, he’s okay. He shed it. No problem.” So like 12 minutes. I said, “Barron, you feeling okay?” “Yeah, what was wrong? I had nothing wrong with me.” Young kids have a strong immune system, they knock the hell out of it. Send your kids back to school. We want to go back to school, right? For those states, Pennsylvania, frankly, the governor very bad lock down, and North Carolina, we’re winning in North Carolina, by the way, you know what’s going on, right? We’re winning in Florida. We’re winning in North Carolina. We’re winning in Pennsylvania. I think they’ve given up in Ohio. I think they’ve given up in Florida, frankly. And I think after the poll I saw from that very nice newspaper, that usually doesn’t treat me so well, but they treated me very well. I think maybe they’re going to give up on a place called Iowa pretty soon, too. I think they’ll give up on Iowa pretty soon.

Donald Trump: [\(39:02\)](#)

We will mass distribute the vaccine in just a few short weeks and we will quickly eradicate the virus, wipe out the China plague. We just want to get back to normal. That’s all we want. We don’t want much. We don’t want much. Just, let’s get back to normal. We had the greatest economy seven months ago, and then we had the plague. That’s not good. Think of what China has done to the world. Think of it. Now, just think. I see people that come in, they’re wrapped up in masks and, how you doing? Don’t touch. Don’t get close. Seriously, think of what China has done to the world. I had a group of people, not so long ago at a place, nice place. And they said, “President, President, could we say hello?” They’re wrapped in masks and it’s terrible. And they said, you couldn’t hear him because the mask. One person had the world’s thickest mask I’ve ever seen. I mean, and then the scientists was there. That one’s no good. That one’s okay.

Donald Trump: [\(40:04\)](#)

But they’re saying, “President, President.” Successful people, good people. And I’m saying, “Look at these people.” I said, “Look at these people.” What China has done to us, but what China has done to the whole world, they could have kept it in. They kept it in from China, they had the Wuhan province, they kept it in. But it got out to Europe, to the US, and all over the world. Think of what they’ve done to us. Forget about their trade deal with your corn, okay? On the bigger picture, we did that great trade deal, but the ink wasn’t even dry. And all of a sudden, we got hit by this damn plague and we won’t forget it. We’re not forgetting it. And you can never forget it. We can never forget it.

Donald Trump: [\(40:50\)](#)

The Biden plan will turn America into a prison state, locking you down while letting the far left rioters roam free to loot and burn. Think of it. Think of it. You can’t go to church. You can’t go to school. You can’t do anything. You have to stay in your house. But if you’re a looter, an anarchist, a rioter, you can run down the streets of Portland. You can run down the streets of anywhere you want. And there you have no problems. In fact, we got to a point because we were shut out from having protests, right? Rallies. So they said, “Well, you can’t have a rally, sir. You’re not allowed to have anything political.” I said, “What can you do?” The only thing you’re allowed to do is protest. I said, “Good. Let’s call our rallies from now on, protests.”

Donald Trump: [\(41:38\)](#)

So this is a protest. We are protesting, but your governor wouldn’t do that to us. We don’t have to worry about Iowa. We don’t have to worry about Iowa. No, but you have some places, Minnesota. You saw that, we had 25,000 people that wanted to be there. And the attorney general, well, I will say one thing about him. He was the first one, I think, or just about, him and one other person. On day one, he said, this is four years ago, “You know that Trump is going to win, don’t you?” They said, “What do you mean?” He said, “Trump is going to win.” So in one way, can’t be so stupid, right? But the attorney general and the Governor of Minnesota said, “No, we can only allow 250 people.” We had 25,000 people that wanted to go. So I went there and they thought that I’d cancel for 250 people, because we’re drawing 25, 30, 40,000 people to every rally. So they figured I’d cancel. I said, “Nope, we’re not going to cancel on Minnesota.” Minnesota hasn’t been won by a Republican since 1972. And we’re going to win Minnesota because of that.

Donald Trump: [\(42:52\)](#)

And actually, had we had the rally, we’d have 25, 30,000 people there. Thousands of people showed up and the governor had them locked out. Frankly, that was a much bigger statement than if we had the rally. If we had a rally, we would have had a big, beautiful rally, but it was a big statement. But between that and Omar, Ilhan Omar, she’s a real winner. Ilhan Omar, who obviously hates our country. She likes to tell us how to run our country. How the hell she gets elected anyways, hard to believe, but she’s in Minnesota. And the other thing is we stopped, I said, “You got to let the National Guard in,” they have to ask us, right? I said, “You got to let in the National Guard.” Well, a week and a half later, they let the National Guard in, and we stopped in, what would you say, 22 minutes? Remember, wasn’t that beautiful?

Donald Trump: [\(43:46\)](#)

I mean, look, sometime, this week and a half they’re burning down Minneapolis, burning it down and CNN’s covering it. That reporter, he got hit on the knee with a canister of tear gas. [inaudible 00:06:00], he said, “I’m down, I got hit.” Don’t worry. It was only tear gas on the knee, he was down. But he was saying, “This is a friendly protest.” And you looked over his shoulder, right? The entire city was burning down. Did you see that? There’s a famous picture, the thing must’ve been like 10 blocks long. They should have called us sooner, but we put it out in about 15 minutes, maybe 20. That was a beautiful sight though, they just came in one, two, three, then all of a sudden more, more, you could just see the busloads. And they walked down that street with pepper spray and tear gas. And it was pow, pow. Everybody got, I’m telling you, less than a half an hour. It was all over. That thing lasted for two weeks.

Donald Trump: [\(44:44\)](#)

Biden calls these lockdowns a dark winter. Wasn’t he inspiring at the debate? How bad was he? Look, I’ve debated guys that had intelligence. Look, I had a debate crooked Hillary four years ago, but I mean, at least she was as an intelligent person, she’s gone a little wacko. No, Hillary, you lost. Remember she said to me, “Will you respect the decision of the people?” And I sort of said, “Maybe.” I wasn’t perfect. I said, “Maybe, if there’s no cheating.” We have to be careful with cheating, right? But then she didn’t respect. And what did they do? They went on a witch hunt for years and years and they spied on my campaign and we caught them spying on the campaign. And now they say, “Will you respect the decision over the voters? And will there be a friendly transition?”

Donald Trump: [\(45:37\)](#)

First of all, there’s not going to be a transition, we’re winning. But then you say, then you say, “Well, let me ask you. Four years ago, was there a friendly transition?” They were spying on my campaign before I even won. And what was worse was they were spying on my campaign after I won, to overthrow the President of the United States, okay? Which is called treason, which is called treason. And let’s see what the hell happens. I don’t know why it takes so long, but it takes a long time. I’ll tell you that man right there, Chuck Grassley is one of the most effective people. He’s one of the people that, he’s one of the people that does not want to let them get away with it. And I appreciate it, you know that. No, he’s one of the most effective guys. He was the man. He looked at Comey. Remember when Comey lied in front of Congress? He looked at Comey, he said, “Did you leak?”

Donald Trump: [\(46:36\)](#)

Chuck is tough, when he’s talking regular he’s the toughest guy in the room. And Comey’s a liar. Worst Director in the history of the FBI, beyond the worst director. He was a bad guy. But Chuck Grassley is interviewing him, ask him. Then he looks at him, “One more question,” sort of like Columbo, right? I have one more question. Remember Columbo, hey, hey, hey, just one extra little question. So here he is, perry Mason also, always the last question, that was true. That was true during the debate, when he said the oil. I said, “Whoa, this is the biggest question of the night.” But with Chuck, he said, “Did you leak?” “What?” “Did you leak?” “Ah, yes. Yes I did.” And I’m sitting there saying, “I don’t believe this.”

Donald Trump: [\(47:27\)](#)

Oh, we love Chuck. What a piece of work Chuck is. What a piece of work that man is. I like that guy. He’s tough as hell though. It’s true. I guess I was only giving the ethanol guys 99%, and Chuck couldn’t stand that, he wanted them. He wanted you people to get 100%, right? I said, “Chuck, I’ve got the papers all ready to sign.” “I don’t like them.” “Why?” “You didn’t get that one little thing, that one little morsel for the other side.” A little morsel right for the other side.

Happened to be the oil industry. I said, "Could we give them something?" And it wasn't any good. We love you, man. We love you. He ended up getting a hundred percent. But it all goes away with Sleepy Joe, just to remember that, Chuck.

Donald Trump: [\(48:17\)](#)

The Biden lockdown will result in countless deaths, destroy millions in small businesses and wipe out an entire generation of hopes and dreams. Earlier today, one of his top advisors again confirmed their desire for a shutdown. The damage to children, you know that, you saw that, it was in the news. They want to shut it down. I don't know. These people are crazy. We've got a thing that's rocking and rolling. And it doesn't work. The damage this will inflict on children, teenagers and young adults is absolutely cruel. The far left has always yearned to wield the unchecked power. That's what they want is the power. I think it's more than the power. I think it is the power and maybe the money. If you want a vaccine to kill the virus, a job to support your family, and freedom to live your life, then you cast your ballot for me and you have to do it on November 3rd.

Donald Trump: [\(49:13\)](#)

You got to get over there, joining us today, got to get it done. We got to get it done. We got to get this election behind us and get to work. We have some great people in government. We have some great people that want to come into government, and our nation has unbelievable potential. I didn't watch much of Biden's speech. He made a little speech, little tiny. He does very short speeches, very short, they're the shortest speeches I've ever seen, actually. He just wants to go home to the basement. He doesn't want to be. He is the most unhappy warrior I've ever. Did you ever see? He's agitated, he's just angry and agitated and he doesn't want to be there. And now he's starting to lose in the polls and it's driving him crazy. So what does he do? He brings in Barack Hussein Obama and you know what happened to his attendance? It went down, his attendance, it actually brought it down.

Donald Trump: [\(50:10\)](#)

They called and they said the other day, a couple of weeks ago, they said, "Sir, have a little bad news." "What?" "Barack Hussein Obama is going to a campaign with Biden." I said, "Why is that bad news? That's good news. He campaigned with Hillary, and that was when she started really getting beaten." Remember that? He campaigned. He's a highly overrated person. Well, he gave us 142 judgeships, we'll take it.

Donald Trump: [\(50:36\)](#)

Joining us today are some incredible people. And if they want to come up and freeze their ass off, they're fine to come up. See you people are there and you're nice and warm. I'm up here all by myself. That's why I said, I said to my daughter, oh look, is that Hope Hicks? Where's Hope Hicks, the great Hope Hicks. Get her. Is that Sarah Huckabee? You look like, come here, Sarah. You know what? You look like Hope Hicks. I thought Sarah Huckabee was Hope Hicks. Come up here Hope Hicks. The great Hope Hicks. Boy, we got them all. Come here, Sarah. How good is Sarah? Look at Sarah. Come up here, Sarah. Look at Sarah. She did pretty well being with Trump, right?

Sarah Huckabee: [\(51:33\)](#)

Thank you, Mr. President, how good does that sound? President Trump. He's had an amazing four years. As a mom of three young kids, there's nobody I trust more to build their future and protect our great country than President Donald Trump. We need everybody here to make sure they get out, because this is the most important election we've ever had. Everything is on the line and the only person strong enough, tough enough, and willing to fight for it is President Donald Trump. I'm so proud to be here. Thank you so much, Mr. President.

Donald Trump: [\(52:18\)](#)

You want to go down here? It's warmer. Thank you. Thank you, Sarah. She could be Governor of Arkansas one day. I don't know. Is that? Where's Hope? Come here Hope. You know Hope, Hope Hicks. Come here Hope, come up here. The great Hope Hicks. Do you know Hope Hicks? She's become very famous, very powerful woman. Very powerful. Look at her. Are you cold enough, Hope? Come on up, Hope. Are you having a good time?

Hope Hicks: [\(53:12\)](#)

Yes sir.

Donald Trump: [\(53:13\)](#)

She does a fantastic job. I don't know if she loves public speaking, just say hello.

Hope Hicks: [\(53:21\)](#)

Hi. How much do we love our president? Are you guys going to vote on Tuesday? Who are you going to vote for? We love you Iowa. Thank you.

Donald Trump: [\(53:43\)](#)

Thank you. Good job. Thank you very much. Thank you. Thanks Hope. So we have a person that you know very well, who's considered one of the best governors in our country and she is, and I work with her. She's another one. She's unrelenting. You had a little flooding problem, to put it mildly. You were like a swimming pool for a period of time. And Kim was on the phone. "Sir, we need money for the dykes, the dams," whatever the hell we were calling them. "We got to get money." And I said, "All right, Kim, is this enough?" "No sir, we got to have more and more and more and more," but that's what a good governor is, right? The ones that don't call, they're not as good, but we don't want to tell them that. But she's really considered one of the greatest governors in our country. And she's a great person. A great husband, she's got a great warrior husband too. I will tell you that. Kim Reynolds. Come on up Kim, if you can. Come on up.

Kim Reynolds: [\(54:50\)](#)

Welcome back to Iowa. We're so proud to have you here. And I've told you every time I had the opportunity to be in front of you, that we were going to carry Iowa for Donald J. Trump, and we are going to bring it home. We're not satisfied with seven, we're going for 10. We're going to bring it home. Thank you. Thank you for everything. Thank you.

Donald Trump: [\(55:13\)](#)

Thanks Kim. Great job. Thank you, Kim. She's a dynamo, huh? Wow. I would say, whoa. Thank you, Kim. And Lieutenant Governor Adam Gregg, Adam, thank you very much. Thank you. Doing a great job, Adam. Are we doing okay Adam? We're doing good? Good. Bring it home Adam. Also with us, are two people, one is running and the other one doesn't even have to run, even when he's running. They say he might be the only politician in America who's just not beatable. People don't even run against him. He's a great guy, but let's get, because we have to do this. We have to get Joni Ernst elected. She's fantastic. She's so good. Joni, come up. Joni is fantastic and special woman, and she loves your state and she loves our country. Joni, please.

Joni Ernst: [\(56:08\)](#)

Thank you. And President Trump, we love you. Thank you so much. God bless you. There is not a finer president, and one that has done so much for our farmers and our ranchers and our biofuel producers. President Trump, Iowa loves you. I love you. God bless you. Four more years. Four more years.

Donald Trump: [\(56:36\)](#)

Thank you Joni. Thank you, Joni. Yeah. Get out and vote for Joni. She's a terrific person and she really fights hard for the state, she really does. She really goes all at it. And the man that we've been talking a lot about today, I've talked about him so much and everybody knows who he is. Everybody in Washington respects him. Most people are deathly afraid of him, but I've gotten to know him. Actually, when you get to know him, he's actually tougher than you even think-

Donald Trump: [\(57:03\)](#)

Actually, when you get to know him, he's actually tougher than you even think. But he's a great man. He really is. He's a great man. He's been a great senator. I think somebody said he's never missed a vote in all these years. And I'd love to have... either stay there or come right up here, Chuck. But we would love to have you. Chuck Grassley, really a legendary guy. A legendary guy. He really is. He's something special.

Chuck Grassley: [\(57:32\)](#)

While we were warming up the crowd for you in this cold day, and I think that's an impossible task. But I said the four words that ought to be the most used for you to be reelected is, promises made, promises kept. And one of the things that you didn't make a promise on that has really materialized anyway... and that is your leadership in peace in the Middle East. And nominated by three parliamentarians, other countries, for the Nobel Peace Prize. That's pretty darn good. And you're going to continue to work for peace.

Donald Trump: [\(58:21\)](#)

That's right. I am.

Chuck Grassley: [\(58:22\)](#)

Yeah, and we thank you very much. Iowa's going to go for you big time, and we're going to have such a successful election that CNN and MSNBC is going to have to change their policies when they realized for four years that they couldn't get you out of office, and the people back you up, you'll be in there and they'll have to change.

Donald Trump: [\(58:57\)](#)

Thank you very much. Great job, Chuck. Thank you. Unique man. Great guy. Agricultural secretary Mike Nagy. Where's Mike? Where's Mike? Thank you, Mike. How's it going? Okay. Your agriculture is strong. You got a check for 28 billion, your percentage, right? How did you split that up? But you did a good job. And somebody that happens to have a very good end named Pat Grassley. You know, Pat? Pat Grassley... We talked about that. What good genes he's got? And another man who has done a fantastic job. I hope he's here. But he was your governor for 24 years. He set the record. And he told me a story. A story that many, many years ago, he met a man in China, and he came home and he told his wife, they were young men together, and they were buying corn or... One was a buyer. One was a seller. I don't know how the hell it worked.

Donald Trump: [\(59:59\)](#)

But he met a man, and his name was Xi. His last name Xi. Then he came home years ago, many years ago, and he told his wife, "I have just met a future president of China." And they were friends after that. And it turns out to be President Xi, current president Xi, the president of China. And when I met President Xi, he said, "Terry Branstad, the governor, is a very good friend of mine. We've known each other for 35 years." So, Terry becomes governor again... 24 years. Longest serving governor in the history of the country. Okay. When you're a governor for 24 years, that's a long time. And I called him, in the middle of his term. I said, "Terry, they like you and China. President Xi has great respect for you. How would you like to be the ambassador to China," and he said, "You know, sir, I think after 24 years, maybe it's time." And he represented us so well. He is so smart and so tough. And so we're a... Come on up here, Terry. What a great job he's done. So he wanted to come back, and he wanted to make sure that we get reelected. That's what he wanted to do. But what a job he's done. Thank you very much. Please.

Terry Branstad: [\(01:01:18\)](#)

Mr. President, we are so honored to have you in Dubuque on the Sunday before the election. On the Sunday before the election four years ago, you were in Sioux City, and we're glad that you've come back the Sunday before the election this time. The polls have you in the same position, seven points up over your opponent.

Terry Branstad: [\(01:01:42\)](#)

But what I want the people of Iowa and American to know is nobody had the courage to stand up to the Chinese like President Donald Trump. And it's made a real difference. He asked Xi if he would make all of Fentanyl a controlled substance, and it's saving thousands of lives in America. He had the courage to put sanctions on the Chinese to get us a fair reciprocal trade agreement, which we'd never had before. And it's already risen the price of corn a dollar a bushel. Soybeans are over \$10. They made record purchases. We need a strong president, and Trump is the one that can do the job for the next four years. I'm proud to be back in Iowa, proud to be back in America, and here to support Donald Trump, Joni Ernst and our entire team.

Donald Trump: [\(01:02:52\)](#)

Great job. Thank you. What a great guy. We have great... You have great people. There's a lot good genes in this state, right? Thank you very much. Is Eric here? Is your son here? Where's... Where? Oh look at you. I didn't recognize you with that big, beautiful hat on. Are you doing good? Are we doing okay? That's great. He has a father who's very proud of him, I have to tell you. Thank you, Eric. Great job you're doing.

Donald Trump: [\(01:03:18\)](#)

And Iowa GOP chair Jeff Kaufmann. He's been fantastic from day one. Thank you, Jeff. It looks good, Jeff, huh? Looking good, Jeff. Take it through. You bring it through, Jeff. I have no doubt about you. He's a great chairman. One of the best. Congressional candidates, Ashley Hinson, who's unbelievable. Come here quick, Ashley. Come here, Ashley. And Mariannette Miller-Meeks, and Esther Joy King. Come on up here. Come on. Get up here. Say a couple of words because you are doing fantastic [inaudible 01:03:56].

Ashley Hinson: [\(01:03:56\)](#)

Thank you, Mr. President, and thank you for coming back to Iowa. Iowa is Trump country. We want to tell you we've been traveling throughout the state, Mariannette Miller-Meeks and Esther Joy King. We are going to take these seats back, because what we want to do, we want to fire Nancy Pelosi. You need a partner in Congress so you can get your MAGA agenda done, and we are going to be there for you, Mr. President. So thank you for coming to Iowa.

Donald Trump: [\(01:04:23\)](#)

Thank you. Thank you.

Mariannette Miller-Meeks : [\(01:04:26\)](#)

Thank you. Our first vote, Mr. President, will be for Speaker of the House, and we're going to say to Nancy Pelosi, "You're fired."

Esther Joy King: [\(01:04:38\)](#)

Nice to meet you, sir.

Donald Trump: [\(01:04:40\)](#)

Nice to meet you.

Esther Joy King: [\(01:04:44\)](#)

As a soldier in the United States Army Reserve, I just want to say thank you, thank you for your support for the military, sir.

Donald Trump: [\(01:04:54\)](#)

Great. Thank you very much. Great people. Really great people. And we have, we've rebuilt the entire military. We've rebuilt it over three and a half years, and that's why we can't worry too much about budgets. They can't say, "Gee, we kept within budget," but who are those people running up the White House lawn? We don't like that, right? Now we have the strongest military now that we've ever had. Strongest in the world, by far.

Donald Trump: [\(01:05:19\)](#)

Under my leadership, we achieved the most secure border in American history. As you probably know, the wall, which they no longer want to talk about... The wall is almost complete. We did 412 miles. We're doing approximately 10 miles a week, and it's done to the highest standard what the border patrol desired, and it has been amazing. And we have now the safest Southern border, and Joni and Chuck worked very much with me on that, and it's been amazing. We really had a great success. That's why you don't hear about it anymore. That's why you don't hear about it anymore. They used to love it when they didn't think we'd get it built. We had a hard time. That was a hard one. The Democrats were a wall. They were their own wall. Remember they said walls don't work. I said, "walls work and wheels work," right? Everything else becomes obsolete very quickly.

Donald Trump: [\(01:06:11\)](#)

Joe Biden is pledged to free healthcare for illegal aliens. That would bankrupt your Medicare, and totally bankrupt, destroy Social Security. I will always protect Medicare and Social Security. We invested \$2.5 trillion in the U.S. Military. We now have the greatest equipment we've ever had. We have the greatest equipment anywhere in the world. We are the envy of the world, Russia, China, North Korea. We are the envy.

Donald Trump: [\(01:06:41\)](#)

We have the best planes, the best fighter jets, F-35 Stealth. You can't see them. They're very, very tough to see. Very tough to beat a plane in the air when you can't see it. But we have the best planes, the best ships... Submarines, we're doing submarines like nobody's ever seen before. We have the best rockets and missiles. We have the best of everything. And our nuclear now is tippy top. And just hope to God we never have to use it. You know that, right? You know that. And the best way that we won't have to use it is to have it in shape like we have it now. But we have the best equipments. We have the hypersonic missiles that go seven times faster than the world's current fastest missile. And these were things that should have been done before me, but they didn't decide to do that. So it's one of those things. We passed VA Choice and VA Accountability for our veterans. Nobody thought that could be done. We took out 100% of the ISIS caliphate in Iraq and Syria, and we killed the leader of ISIS Al-Baghdadi. They were looking for him for a long time. We took out the mass murder of U.S. troops and many other people. Soleimani is dead. I withdrew from the last administration's disastrous Iran Nuclear Deal, recognized the true capital of Israel, and opened the American embassy in Jerusalem.

Donald Trump: [\(01:08:11\)](#)

I also recognized Israeli sovereignty over the Golan Heights. They worked 52 years and we got it done in two hours, approximately. And instead of endless war in the... And when you look, this is what Chuck was just saying... What we're doing... It's amazing what we're doing. We have three countries signed up. We have many... they're all coming in. We're forging peace in the Middle East without blood in the sand, without money, money, money that they would spend. A vote for me and the Republican party is a vote for the American dream. Remember the party of Abraham Lincoln, the late great Abraham Lincoln. People forget, but it's the American dream.

Donald Trump: [\(01:08:53\)](#)

Over the next four years, we will make America into the manufacturing super power of the world, and we will end our reliance on China. That's already begun. We will hire more police, increase penalties for assaults or law enforcement, and we will ban deadly sanctuary cities. We will defend the right to life, religious liberty, free speech and the right to keep and bear arms. Your Second Amendment.

Donald Trump: [\(01:09:26\)](#)

We will maintain America's unrivaled military might, and we will ensure peace through strength. We will end surprise medical billing, require price transparency, which is so good. Starts January 1st. Lower drug prices even more. We're going favored nations. The drug companies are not in love with me. Favored nations. We'll be paying the lowest drug prices anywhere in the world instead of the highest drug prices of the world. But the big pharma... I don't even want to look at Chuck and Joni, because I have no idea if they're... You know, the biggest lobbyists in the world, right? They spend more money. I can tell you, they're making more commercials about me than sleepy Joe is, but we had to do it. Somebody had to do it. Only a non-politician would do that. And you pay a press, but we have to do the right thing. You'll see a 50, 60, 70% reduction in drugs.

Donald Trump: [\(01:10:25\)](#)

And I got the only reduction last year. We got it down a little bit, one percent. It came down. It's not that I'm bragging about it, but in 52 years... first time in 52 years the drug prices came down. So we're sort of... I'm semi proud. At least it didn't go up. I'm semi proud, but you'll see what happens with what we're doing with favored nations. And we will always protect patients with pre-existing conditions. America will land the first woman on the moon in the United States. We'll be the first nation to land an astronaut on Mars. It's all done, our space center. NASA is incredible. It was a closed up, boarded up mess when we took over three and a half years ago. Now it's, again, the envy of the world. We will stop the radical indoctrination of our students and restore patriotic education to our schools. We will teach our children to love our country, honor our history and always respect our great American flag. Right?

Donald Trump: [\(01:11:32\)](#)

And we will live by the timeless words of our national motto, in God we trust. For years, you had a president who apologized for America. Now you have a president who is standing up for America, and standing up for the great people of Iowa, and Wisconsin. And Wisconsin. We didn't forget you, because you're going to vote us in too. We're going to be there very soon. We love Wisconsin. Wisconsin came through for us four years ago too, and we won't forget that. To save the America we love. Get every last person you know... Get them to the voting booth in record numbers. Vote, vote, vote.

Donald Trump: [\(01:12:18\)](#)

Join the red wave. We have a giant red wave that's formed. It's formed. It's formed from Cambridge to Council Bluffs, to Cedar Rapids, to Rock Rapids, from Davenport to Dubuque. We inherit the legacy of American patriots who poured out their heart, sweat, and soul to secure our liberty and defend our freedom. We stand on the shoulders of American heroes who crossed the ocean, settled the continent, tamed the wilderness, laid down the railroads, raised up the great skyscrapers, won two World Wars, defeated fascism and communism, and made America into the single greatest nation in the history of the world. And the best is yet to come.

Donald Trump: [\(01:13:14\)](#)

Proud citizens like you help build this country, and together we are taking back our country. We are returning power to you, the American people. With your help... Thank you. Your devotion and your drive, we are going to keep on working, we are going to keep on fighting, and we are going to keep on winning, winning, winning.

Donald Trump: [\(01:13:43\)](#)

We are one movement, one people, one family, and one glorious nation under God. And together with the incredible people of Iowa and Wisconsin back there, we have made America powerful again. Our military, our beautiful military. We have made America wealthy again. We have made America strong again. We have made America proud again. We have made America safe again, and we will make America great again.

Donald Trump: [\(01:14:20\)](#)

Thank you Iowa. Thank you Wisconsin. Thank you, Wisconsin. Thank you everybody. I hope it's cold enough for you. Thank you everybody. Have a good time. Get out and vote.

Ivanka Trump: [\(00:00\)](#)

... done that for you, for your families, for your communities and for your future of this country.

Ivanka Trump: [\(00:11\)](#)

I recently read a quote that I thought was so amazing by the legendary Winston Churchill. He said, "It was a nation that had the lion's heart. I just had the luck to give it its roar." How much does that remind you of our President and this movement? Did he give all of us the roar? Yes, he did. He made all of us take a hard look at our own convictions and ask ourselves, what do we want for our country? We want jobs. We want opportunity. We want to believe in American greatness, and that's what's on the ballot. With your help, with your support, and with your votes in two days from now, we are going to win four more years for the people's president, my father, Donald J. Trump. Thank you, and God bless you. God bless Michigan.

Speaker 1: [\(01:25\)](#)

(Singing.)

Donald Trump: [\(04:07\)](#)

Does anybody have a coat I could use please? This is definitely not the right one. Hello Michigan, hello Michigan. And thank you very much for four years ago, but I gave you a lot of auto plants. So I think we're even right? And we have a lot more moving in, a lot more moving in.

Donald Trump: [\(04:29\)](#)

Thank you very much. I love you too. If I didn't, I wouldn't be standing here because it's freezing out here. Think of this this, two days, now we're down to two days. Two days from now, we are going to win the State of Michigan again, and we are going to win four more years in that very beautiful place called the White House.

Donald Trump: [\(05:06\)](#)

Over the last four years, I fought for Michigan like no one has ever fought for Michigan. Before I became president, the great state of Michigan was hemorrhaging your car companies, and your car businesses. And thanks to corrupt politicians like Joe Biden, he's turned out to be a corrupt politician, he is corrupt. Plants were closing and moving to Mexico and many other places, you know that, you know that better than anybody. There had no new plants had been built in Michigan in decades and decades before I got here. I stopped the moves, and now many plants are being built and already have been built. Plants are being expanded. The automobile business is coming back.

Donald Trump: [\(05:56\)](#)

I told countries, Japan, Germany, and others, "Sorry, you have to bring it into our country." And I always used to say like, "Michigan, I think of Michigan when I think of cars," and I'd say, "Michigan," but I'd say, "Ohio," and I'd say, "South Carolina," and plenty the other places, and we've brought back millions of car and millions of cars produced a year. But the biggest beneficiary is right here, right here.

Donald Trump: [\(06:24\)](#)

I'm standing up to the global special interest who got rich bleeding America dry. You know that wind is coming right into my face. And I'm saying, it's hard to breathe! They set this place up great. I wind is pouring in as I'm talking, it's pouring in up the mouth, up the nose; this is very pleasant. This is very pleasant.

Donald Trump: [\(06:49\)](#)

I hope they don't report this one for posterity, okay. This is a crazy place, but we love Michigan. Good job. Good job. I'm just saying, whoever set this up, they could have had a little angle, how about if they had a little angle?

Donald Trump: [\(07:09\)](#)

The corrupt establishment hates me because I don't answer to them. I answer to you, which is true. I'm with your vote we will continue to bring you jobs back, to enact fair trade, you saw what we've done, but think of all the plants, just forget about everything else. You didn't have any auto plants four years ago. I got Man of the Year in Michigan, 12 years ago and I left, I said, I made a speech, I said, "You know, Mexico and Canada, they're taking all your car business. Why are you letting that happen?"

Donald Trump: [\(07:41\)](#)

It turned out to be quite a controversial speech. It was true, but it was controversial. It was very controversial. I laugh, I'm saying, "My people are geniuses, real geniuses." But you know what? It turned out to be true. And since then we've been doing things like nobody's ever done. Cut your taxes, cut your regulations, and ensure that more products are proudly stamped with those beautiful words, that beautiful phrase, "Made in the USA."

Donald Trump: [\(08:24\)](#)

Thank you very much. So we had the luck of having Ivanka here. So I said, "Yeah, you introduce me." And I'll tell you, that was the shortest introduction she's ever given me and now I understand why. I understand, thank you darling, it was actually under the circumstances not too bad.

Donald Trump: [\(08:42\)](#)

Next year will be the greatest economic year in the history of our country. You see what's happening, you see what's happening. We had growth like nobody has ever seen in this country, or probably any other country, 33.1%. And they hardly, the fake news hardly makes it a story. But right now they don't care, they're

just trying to survive. Look at them back there. They're just trying to survive. Joe Biden will shut down your economy, raise taxes, wants a \$4 trillion tax increase; he's the only politician I've ever seen who said, "We will raise your taxes." You said most of [inaudible 00:09:25].

Donald Trump: (09:27)

"Will not frack!" You know, he said that for a year, and then when he came to Pennsylvania, goes like, "Oh yeah, I guess it's okay." No, no, there won't be energy. They're going to go to the Green New Deal. The Green New Deal will destroy our country. The Green New Deal is done by AOC plus three, right? I don't think they ever took, you think they ever took a course on the environment? I wonder? Did you ever have a course on, let's say the environment? The Green New Deal... at first I thought they were kidding. Then they said, "You know, some..." Actually they are kidding, you know that? They get it, they get it, they're kidding. But you're going to have to pay for their kidding.

Donald Trump: (10:08)

They want to close down your factories, ship your jobs to China, eliminate private healthcare, destroy the suburbs. I got rid of the, you know, I always say, "Women [inaudible 00:10:20]."

Donald Trump: (10:22)

The women, that was them speaking; the women of the suburbs, you've got to love me, I got rid of the regulation that will ruin the suburbs. I cut it out. I said, "Let's terminate it Ben, let's just terminate it." But if they come back, then Cory Booker is going to be in charge, and that regulation will not be good. You know, we saved the suburbs.

Donald Trump: (10:51)

They want to abolish oil, coal, natural gas, and send your state into a... You know what's going to happen here? You'll have a depression. You will have a depression. Your gasoline will go up to six, \$7. How do you like the \$2 gasoline? Did you like that? Well, you know, you'll have it for a long time if you elect Trump, if you don't, you're going to be boom.

Donald Trump: (11:15)

The damage that Biden and Harris would inflict would endure for many generations, you can't fix it easy, you can't fix it easy. Under my leadership our economy is now grow and get the fastest rate ever recorded, 33.1%. This was announced yesterday, right? It was just announced, they didn't make a big deal out of it. If this were announced with Obama, they'd say, "This is the greatest president ever." You know, he's so great that he left me 142 judges to fill, right? 142.

Donald Trump: (11:51)

You know what if I were a Democrat, and think of it, I'm a Democrat, and my president left me 142 slots of judges, that's why we're going to be at 300 judges, and three Supreme Court judges.

Donald Trump: (12:14)

They said, "Sir, the wind isn't so strong." No, it's about 50 miles an hour. I think it's a minus 20 degree wind chill. They caught wind chill, right? This is a true test, but I love the people of Michigan, we won, we won. It's worth it. It's worth it. It's worth it. It's worth it. We won last time, right? It's worth it. If we didn't win last time, I probably wouldn't even be standing here, I'd get up here and say, "No, thanks. This is [inaudible 00:12:59]." Like the great Pavarotti, the singer, you know, he was a diva, he was the greatest of all divas, he was an incredible talent with the most unbelievable voice. And I've gone to concerts where he would say, "No, no, no, no. I do not feel good, I will sing tonight," and then he'd leave. And then I've gone to some where it was the most unbelievable voice that ever lived. I mean the greatest, right, Pavarotti? He liked me for whatever reason. He was very terrible to other people, to me he was nice, he liked me.

Donald Trump: (13:32)

But he goes, "Donald, Donald, I will not sing tonight. You don't have a thousand people, I will not sing tonight because I do not feel... I will leave tonight, I'll..." and then leave. We'd say, "Ladies and gentlemen, he's just canceled." But when he was great, he was great. But now I feel like him, I say, "Ladies and gentlemen, thank you very much, I'm getting..." No, I don't have that, I'm not a diva.

Donald Trump: (13:54)

While foreign nations are in free fall, we are creating the world's greatest economic powerhouse. We are the economic envy of the world, and now the military envy of the world, we have the greatest new equipment anywhere in the world.

Donald Trump: (14:12)

A recent Gallup poll found that 56% of Americans say they are better off today than they were four years ago under Obama-Biden. And we're rounding the turn on a pandemic, think of that. So, and that's a record. In my first three years, I raised middle-class family incomes \$6,500. That was in a three-year period. Whereas the Biden-Harris agenda was projected, and is projected to, if you go by their crazy plan, Wall Street Journal, you're going to lose \$6,000. They're going to take it out, and they're going to waste it. But it's not six, it's much more than that. And we're going up to a substantial number. That's not including energy. And if you think about energy, when you're at \$2, and your electric bills are nice and low, when they get rid of all our petroleum products and other things, everything, and they go to wind; let's build windmills all over the place, let's litter the landscape, let's have littered the lands...

Donald Trump: (15:17)

You know, when you build a windmill, I'm not against wind, it should be in industrial areas maybe, but it's very expensive, very expensive. And if you want to see a lot of dead birds, all you have to do is go to the bottom of a windmill. If you'd like to see a lot of dead birds, go to the bottom of... they pile up. They don't know what to do with them. I'll tell you, it's crazy. And they're environmentalist. They want wind. And when the wind doesn't blow, "Let's watch President Trump's speech tonight, State of the Union, he's done very nice to State of the Union," with Nancy ripping it up in the back, crazy Nancy.

Donald Trump: (15:53)

"Let's watch President Trump, let's watch his..." and the man, the husband would say, "Darling, I'm sorry we can't. The wind is not blowing today; it's intermittent." They call it intermittent television. We'll have a network, Intermittent Television. No, we have to power our great factories, we have to power our great, these plants, these great plants and factories and you can't do it that way, maybe someday, but right now...

Donald Trump: (16:20)

And solar, I like solar. It's extremely expensive and it doesn't have near the power that you need for what we're talking about, no. And you know, when we do what they want us to do, but China doesn't do it, and Russia doesn't do it, and India doesn't do it, we will be at such a competitive disadvantage we might as well just fold up the tent. We have the number one economy in the world right now by far, by far; and we're not losing it on my watch, I can tell you that!

Donald Trump: (16:52)

Joe Biden, Sleepy Joe, spent 47 years outsourcing your jobs, opening your borders, and sacrificing American blood and treasure in endless foreign-

Donald Trump: (17:03)

... American blood and treasure in endless foreign wars. Michigan lost half of its auto job thanks to Biden's NAFTA and China disasters. You know that. It's amazing, nobody saw the debate the other night, right? Nobody? Did you notice the way I kept saying, "Joe, why didn't you do it?" He'd say, "Well, I would do this, and I would do that, and I would..." I said, "Joe, why didn't you do it? You were there for 47 years, and you just left three and a half years ago. Why didn't you do it, Sleepy Joe, you sleepy guy?" Sleepy.

Donald Trump: (17:32)

You see him now he's got the shades on, comes out, "Hey, hey, hey. Hey, be quiet up there. Be quiet." He said, "They keep clapping up there." They're all our people. We have more people show up. They're our people. He's very agitated. You know how angry he is? He's so angry. You know why he's angry? Because he's losing, that's why he's angry. No, he's very agitated. I don't think he knows he's losing. I don't think he knows anything, actually.

Donald Trump: (18:08)

No, he's very, very angry and agitated. But now he's got the shades, what do they call them? Aviators? But they're too small, they should be bigger. Got the little shades on, doesn't have to work on the eyes. But it is something. Do you see the way our people... They were protecting his bus yesterday because they're nice. They had hundreds of cars. Trump, Trump. Trump, and the American flag. You see Trump and Americans flag. Do you ever notice when you see the other side, I don't even see much of the other side. They have no spirit, they have no enthusiasm, they have no nothing. But you know what? I don't see them, but whenever you see a small group because it's got to be small because there's nobody around. Nobody cares. But you see these groups, you never see an American flag. I always say if you look at a group and you don't see the American flag, you know that's the opposition.

Donald Trump: (19:03)

I say to Congress, and I'm going to do very hard for this because we have to go through a big deal, but I say when somebody burns the American flag they should go to jail for one year. I say that. Even the sister... Oh, look at the sisters. You agree with me. That's great. These beautiful sisters, wow. Well, we're with you, you know that. Little sisters of the poor, I'm with them, and we did a good job. Are you cold? Are you cold right now? Don't be too cold. They go, "No." God will keep you warm, I know that. So beautiful, so beautiful.

Donald Trump: (19:48)

We're going to do that because I thought I could just institute it, maybe do an executive order. They, "Oh, you can't do that, sir. It has to go through a whole big deal," but we're going to do it. We'll get guys like Jim Jordan and some of our great congressmen, we'll get our great congressman. You have some of the great ones right here. We're going to get some of our congressmen and women, and we're going to put in legislation, you burn the American flag... I see it with Antifa they're constantly, yesterday they were burning it. Antifa. You burn the American flag, you go to jail for one year. It's very simple. Okay? I like it.

Donald Trump: (20:29)

Biden embraced the Trans-Pacific Partnership, which would have been a death sentence for your auto industry in your State. If it was okay with you, I canceled it. It never got off the ground for us. I ended the NAFTA nightmare and took the toughest ever action against China, and ended the long nightmare of American economic surrender. Now we have the USMCA, which is great for you, and your companies won't be leaving. Just kicked in, your companies won't be... One thing I had to have. Wait, I have to look this way so I can breathe. The wind is so strong you can't breathe, I've never had that before. It's pouring in. Man, this is a beauty. This is a hell of a day. You guys must love Trump. This place is packed. It feels so good, when I look at them it's perfect, but they didn't set it up right. That's okay. We'll get by it.

Donald Trump: (21:34)

A vote for Biden is a vote to completely eradicate... You will eviscerate your auto industry. It will be terrible. We can't do it. We've worked very hard to bring it back. I met with Prime Minister Abe of Japan, great guy, he's since retired. He had a problem with health, but fantastic man. I said, "Shinzo, you have to send plans to Michigan. You have to send plans to the United States." And he said, "No, no, no. I can not do that. That is a private decision." I said, "Shinzo, you're a powerful man. I'm sure you can do it." "No, no, no." I said, "You have to do it Shinzo, because you're making too many cars sending them here. We want them made in the United States, you have to do it." He says, "Well, I can't." The next day they announced they were five companies moving to Michigan from Japan. That was Japan. He's a great guy, that one, I'll tell you.

Donald Trump: (22:28)

While Biden was giving China your jobs, his family raked in millions and millions of dollars from the Chinese communist party. Think of that. Joe Biden is a corrupt politician who bought and is paid for... Look, he's bought and paid for by China. How about his son? His son walks in... He's supposed to be fair. Now, how the hell can this guy deal with China? His son's like a human vacuum cleaner. "Hey Dad, what country are you going to today?" "China." "Oh, good, maybe I can take in a couple of million." But really, it's not that. It's much more. "Let me follow you, Dad. I'm the vacuum cleaner. Let me follow. I'll give you a 10%. Hey Dad, I'll give you a 10%." He took in a billion and a half, and with no experience he's managing a billion and a half dollars. His big one was he wants China to pay \$10 million a year for recommending service. He's going to recommend. He's going to introduce. I guess he calls it introductory services. He's introducing his father.

Donald Trump: (23:52)

Sister, do you think this is honest? Do you think so? They all said no. That's good enough for me, Sister. I'll tell you. How about Ukraine? The kid, do you have any energy experience? "No." When was the last time you worked? "Well, I was thrown out of the military. I haven't worked at a long time." Oh, I see. But you know something about energy now? Well, we'd love to have you serve on the board of Burisma. Would \$183,000 a month be satisfactory? "No, I'd like you to make an upfront payment of \$3 million." Okay, so we'll give you an upfront payment of \$3 million. We'll give you 183,000 a month. Would you be? "Yes, we'll accept that. But we want very big escalation over the course of a year." Oh, we'll work that out too. This is so corrupt. This is so corrupt.

Donald Trump: (24:41)

And how about [inaudible 00:07:42]? Russia, Russia, Russia. Did you see the laptop from hell? Now Shifty Schiff. Schiff, you know, the world's most dishonest politician, Schiff? Shifty Schiff, he said he thinks the laptop from hell was created by Russia. You know in Russia they probably looked, they said, "Oh no, here we go again." These politicians, a friend of mine said... A great guy, very successful guy. He's not really a friend anymore because he keeps calling me Mr. President. He used to call me, "Hey Don, let's have dinner." Very successful, Richard. "Hey Don, let's have dinner. Let's get together." And you'd talk, and you'd have fun. You know, it's normal, right?

Donald Trump: (25:28)

Now he calls, "Hello Mr. President, sir. How are you? How are you doing? Is everything good?" I said, "Yeah, it's good. Richard, you don't have to call me Mr. President. It's just, I can't..." It's like you lose all your friends because they're intimidated by the office. Does that make sense? You don't have any friends. I have my friends in Michigan. We have our friends in Michigan. Hello, Mr. President. I said, "Richard, call me Donald." "Okay, Donald," do what I said, "Mr. President, thank you very much."

Crowd: (25:59)

Four more years! Four more years!

Donald Trump: (26:01)

Thank you.

Crowd: (26:01)

Four more years! Four more years! Four more years! Four more years! Four more years! Four more years!

Donald Trump: (26:09)

Hey, at least we're having a good time. Is there any place to have a better time than a Trump rally? It's very serious times, but you know when it's cold like this and it's probably less than zero with the wind chill, and with the wind blowing directly. This was a person that works for us that doesn't like me probably very much. But no, it's direct. But we're having a good time. I'm having a good time. Enjoy your contest. It's really a contest to see whether or not we could all stand it, right? And we'll get through it and we'll love it. We'll love it, and I'm loving it. If Biden wins, China wins. When we win, America wins.

Donald Trump: (26:53)

In 2016, Michigan voted to fire this corrupt political establishment and you elected an outsider as your president who is finally putting America first. If I don't sound like a typical Washington politician, it's because I'm not a politician. If I don't always play by the rules of Washington and the Washington establishment, it's because I was elected to fight for you and nobody has ever fought harder for you. Remember this Michigan because you got to vote. The big thing, you got to go vote Tuesday. If you don't vote for me after this deal, I'll tell you. No, I don't want you to do that. I want you because we did a great job, we brought back your car industry. Your car industry was finished. You would've had nothing left.

Donald Trump: (27:47)

If I wasn't president, I really believe everybody would have moved back out to Mexico and these other places. By the way, the USMCA puts you on a whole different footer. You know how I know? Because Mexico and Canada didn't love the deal. They didn't love it. They're not so thrilled, they like the old deal much better. They used to say every 15, "Why don't we just keep the old deal?" No, thank you. You don't have to take my word for it on Biden's 47 years of treachery and betrayal, we have it on tape. You'll see this. Where the hell is it? Oh, there. We only do this for areas that we like because that sucker is expensive. Seriously, just holding it up in this wind. Go ahead. Roll it.

Joe Biden: (28:39)

My problem is I voted for NAFTA. I'm supporting NAFTA because I think it is a positive thing to do. I do not pretend to be an expert on international trade matters.

Speaker 3: (28:51)

Trade agreements like NAFTA and permanent normal trade relations with China, which forced American workers to compete against people making pennies, and [inaudible 00:29:00] has resulted in the loss of 160,000 jobs.

Speaker 2: (29:03)

The president is absolutely right when he says that China has been cheating for 25 years and that Bill Clinton didn't do enough about it, George W. Bush didn't do enough about it, Barack Obama didn't do enough about.

Joe Biden: (29:13)

Rising China is an incredibly positive development for not only China with the United States and the rest of the world. Rising China is a positive, positive development. It is in our self-interest that China continue to prosper. We want to see China rise. China's a great nation, and we should hope for the continued expansion. China is not our enemy. We talk about China as our competitor, we should be helping. The idea that China is going to eat our lunch is bizarre. The idea that they are our competition, that they're going to beat us is bizarre. They're not bad folks, folks. China's not a problem.

Speaker 4: (29:56)

Allowing China into the World Trade Organization, which he supported, extending most favored nation status to China, which he supported. Those steps allowed China to take advantage of the United States by using our own open trade deals against us. Do you think in retrospect that you were naive about China?

Joe Biden: (30:19)

No.

Speaker 4: (30:20)

Doesn't he deserve some credit for that? It's better. The USMCA is better than NAFTA.

Joe Biden: (30:25)

It is better than NAFTA. We have to come together, that's why I'm running. I'm running as a proud Democrat for the Senate. So, vote! Vote! Visit [inaudible 00:13:36].com/Ohio. God bless you.

Speaker 4: (30:43)

Can somebody tell Joe, by the way, it's not a real website, and Joe you're running for President, not Senator, and by the way, that Senator, the Mormon guy, is Mitt Romney, not some Mormon governor. Now, sadly, what we showed you, that's just from a couple of hours today because every time that Joe actually leaves the basement bunker and stays out past 10:00 AM disaster ensues. Here's a quick reminder.

Joe Biden: (31:10)

Look, tomorrow's superstar Tuesday, and I want to thank you all. I tell you what, I'm rushing ahead, aren't I? We hold these truths to be self-evident. All men and women created by... You know the... You know the thing. Do you agree with me? Go to Joe 30330. We choose truth over facts. Play the radio. Make sure the television... Excuse me, make sure you have the record player on at night, the phone. Make sure the kids here weren't. Poor kids are just as bright and just as talented white kids. Donald Trump does pose an excellent strength to this... It's not hypothetical.

Speaker 4: (31:52)

This is pretty serious. By the way, these are way beyond an occasional campaign gaff, and I am beginning... Well, I'm more than a little worried that this man could represent a clear and present danger to this country. He's obviously not capable of leading. He's been hiding the entire campaign and the corrupt media mob is covering for him. Joe wants to be the president of the United States of America. That would be the toughest job in the world, and at times Joe doesn't seem to remember that he's even running for President, or what State he's in, or what day of the week it is. Does anyone really believe that if elected that Joe Biden will actually be in control of anything?

Joe Biden: (32:36)

What kind of country are we going to be? Four more years of George... George... We're going to find ourselves in a position where if Trump gets elected, we're going to be in a different world. Barack and I think it's a right for people to have [inaudible 00:32:53] care. Folks, we got a lot of work to do. I don't need you to get me elected, I need you once I'm elected. I'll lead an effective strategy to mobilize [inaudible 00:16:04].

Donald Trump: (33:17)

Come on, we know.

Crowd: (33:18)

Trump, Trump, Trump, Trump, Trump, Trump, Trump, Trump, Trump, Trump.

Donald Trump: (33:27)

That is something, that is something. I don't know. You know what? Our country's great. We have such great potential. You can't do that. You can't do that. We want to be nice. You know the good news? He's not a nice guy, so I don't feel bad. I don't feel bad at all. One of the biggest issues for Michigan in this election is the subject of refugees. With this weather, you don't have to worry about it. They'll never come. They're never coming. [inaudible 00:33:58] they said, "I'm going back. This is terrible."

Donald Trump: (34:01)

I'm going back. This is terrible.

Donald Trump: (34:16)

It's freezing. I want to go back immediately to Syria. Syria never looked so good. To protect our national security, I suspended the entry of refugees from foreign nations, compromised by terrorism. You know that, if it's okay with you, I'm going to do that. And you see what's happening in France. You see that mess that's going on over there. I called the President with condolences, but they're having a big problem.

Donald Trump: (34:51)

Biden has pledged with Bernie, the manifesto, 700% increase. They've agreed to this in refugees from the most dangerous terrorist spots in the world, Syria, Somalia, Yemen. The Biden plan will turn Michigan, Minnesota, and many other Midwest great states into refugee camps, which I'm sure you're thrilled about. Sure you're thrilled about. He's also vowed to terminate all of the different elements of, look, we have some very strong bans, some very, very strong bans, and he wants to terminate, I got a travel ban that was tough stuff to get it. And it was not easy, but he wants to terminate the travel ban. And we have a travel ban

that works, when we have people that hate us or do have countries that hate us, they come out of regions that are a disaster. We don't want them in our country. We don't want them, but it would have allowed, what they want, they want to allow virtually unlimited immigration into our country. They want to allow virtually unlimited access into our country. They want to, healthcare, education. I mean the whole thing is crazy. It's just crazy.

Donald Trump: [\(36:14\)](#)

There's no way you're putting that guy in. I don't believe it. There's no way. The people of Michigan are too smart and we've come too far together. This place was a mess. This place was a mess four years ago. And frankly, if you governor opened up your state, which she has to do, well Biden, Biden's all about lockdowns. He loves a lockdown. Well, she's tough on everybody but her husband, he can do whatever he wants. I'm not just running against Joe Biden. I'm running against a left wing mob, the left wing media, big tech giants. I'm running against the rhinos. They're probably the worst of all, and a running against the swamp. The swamp is very deep and very vicious or they are not happy with the job we've done.

Donald Trump: [\(37:27\)](#)

And by the way, I don't know if you've been watching what's going on with the election and this isn't even polls anymore, this is like fact, these are people going out and voting. We're doing very, very well. We're leading all over the place. We're supposed to be leading after the great red wave is going to come over the next little while, it's coming, it's building. It's got to be a wave like I think, and this is far beyond the last one. This is going to be a wave like nobody's ever seen before. Tuesday, did you vote? Tuesday, right? Tuesday, Tuesday, super Tuesday we'll call it, right? Tuesday's going to be beautiful, great red wave. But we're leading even before we get there, we're supposed to like, they have all these crazy ballots, millions and millions of ballots. Well, we're leading a lot of places before, we're supposed to be way down, and then we catch up and we win, we nip them, like a race horse, right?

Donald Trump: [\(38:28\)](#)

But we're leading before we get to the race. They're very worried, and they're very worried. They said the black community, the Hispanic community, what's going on? It's voting for Trump. What's going on? They don't get it. What's going on? They don't get it. They still don't get it. People cannot stand the censorship from the media and big tech either. It's one of the reasons we're doing well, because they understand. They no longer feel they're getting the truth from the media. It's a big factor. They've lost confidence in the media. They have no confidence in big tech and they're tired, very tired, of cancel culture. They're tired of being told what to think and what to do. And I'll tell you, it's having a big impact in this race. People get it. People are smart. The backlash against this censorship is driving more and more people to support our campaign.

Donald Trump: [\(39:25\)](#)

Who would have thought this was going to happen? This took place two weeks ago, when they wouldn't look at, where's Hunter, right? There he is. Where's Hunter? No, two weeks ago when they wouldn't look at where's Hunter, because we've officially made his first name Where, right? It's everyone's constantly. That is called the laptop from hell, and they didn't want to look at it. They want nothing to do with it. No matter what they do. Look, the greatest crime, political crime ever in this country, was spying on our campaign that they got caught, right? That was the greatest crime. And let's see what happens. Let's see what happens.

Donald Trump: [\(40:06\)](#)

But this is something that's really big and they don't even want to talk about it. They don't want to write about it. They don't want to talk about it, but you know what the people understand and you get to see it. You have a small handful of young, arrogant, obnoxious, also brilliant young people. They're worth a lot of money. Silicon Valley CEOs. And they're trying to take over our world. Not going to happen. Hey, let's "So this. They said to me, the first election, they said, "Sir, you can't fight big tech and you can't fight the media." And then we won. And I said, "Oh really?" Now they say it again, "You cannot fight big tech and you cannot fight the media." I want to win again, if, for no other reason, for no other reason.

Donald Trump: [\(40:56\)](#)

But you can defeat them. If you have the right ideas, the right policy, if you have the right thoughts and you have people that are smart and they don't go for fake news because it's fake news, I've been calling it, one of the great terms, I hope they give me credit for fake news. That was a great term. Now I call it corrupt news, because it's gone beyond fake. It's totally corrupt. But vote on November 3rd, you vote. We're going to have an election. And you know, I never thought I'd say, because what we did was incredible four years ago, this is more important. This is going to be the, this could be the most important election in the history of our country.

Donald Trump: [\(41:36\)](#)

Because if that side gets in, those maniacs, AOC plus three. Ilhan Omar, Ilhan Omar. They're going to put Ilhan Omar in charge of immigration. She will be in charge of immigration. If these people, they're maniacs, who don't like our country. You think Ilhan Omar, that's one of the reasons we're going to win Minnesota, because of Ilhan Omar. How the hell did she get elected? I guess she's got a little group of people.

Donald Trump: [\(42:14\)](#)

Didn't she harvest? I heard she ballot harvested, didn't she? So where is our Justice Department? Everybody's telling me stories, have a great writer in Minnesota. And he writes stories about her volumes and nothing ever happens to her. Ilhan Omar, she's harvesting ballots. It's illegal, right? They have a story. So where the hell? Why aren't they looking at her?

Donald Trump: [\(42:39\)](#)

If I did that, they'd be looking at me. They'd be looking at anybody here to disgrace. Honestly, it's a disgrace. And AOC, right? AOC, didn't she steal \$2 million out of her campaign? Didn't AOC steal \$2 million out of her campaign? So why aren't they looking at her? Why aren't they looking at her, Justice Department, the Justice Department, they should be looking at. She stole \$2 million out of her campaign, AOC plus three, right? It's unbelievable.

Donald Trump: [\(43:14\)](#)

This election is a choice between the Biden depression, because you will have a depression. He's going to raise your taxes. He's going to put regulations back in. All of those plants that moved in, they're going to close up and say, "We're going back to Japan. These people are crazy," right? Or you can have the greatest economic boom in the history of our country. It's a choice between a deadly Biden lockdown, he wants to lock it down and a safe vaccine and you do it without the vaccine too. But the vaccine is going to make it quicker. It's coming in a matter of weeks, it's going to be distributed immediately. We're going to start with the seniors, but it's going to go very, very quickly, very, very quickly. It's going to be really fantastic. It's going to be, I think you'll see something that's going to be absolutely amazing.

Donald Trump: [\(44:05\)](#)

And thanks to our groundbreaking therapies, here I am, therapy. No, I don't know if it had any impact, but I sure as hell felt good the next morning. I like to say no, it's because I'm in perfect physical health. I'm a perfect physical specimen and I'm very, very young. I feel young. I didn't need therapy, but I said, "Give it to me anyway, just in case." And we've already reduced the fatality rate by 85%. Think of that.

Donald Trump: [\(44:40\)](#)

The Biden Plan is to imprison you in your home. But that's what you're going through right now with this governor. This governor, I got to tell you, your governor, your governor is not doing a good job. She is not doing a good job. I mean, think of it. Your state, we have other states, they're open. Florida, look at Florida. Look at Texas. Look at Arizona, the great job they've done there. They had a spike and they wiped, they focused on the elderly and this and that, all the things, and they're open and they're doing great. Your state is blocked down at it's your governor. You know what's going to happen? On November 4th, she's going to announce, we're going to open up the state.

Donald Trump: [\(45:25\)](#)

See, she thought that the numbers and she, and by the way, North Carolina, right? And let's see, Pennsylvania is shut down. It's shut down, locked down. It's all locked down. On the fourth, which one? Yeah. Well, New York, absolutely. New York's become a ghost town, sister. What they've done, what Cuomo has done

to New York is unbelievable. It's terrible. It's terrible. What they've done in New York, and you take a look at certain things. I mean, and then with crime, take a look at Portland. We want to go into Portland so badly. Our guys would solve the Portland problem in about 12 minutes, right? But we have to be asked because we play nice nowadays. We want to be asked by the governor. We keep asking, "You want us to go in yet?" No sir, let a few more stores burn down. That's Antifa, that's anarchists.

Donald Trump: [\(46:18\)](#)

And you know what? They're easy. They're so easy. They're so easy. Look at what happened to Chicago. Do you know, we're talking about all Democrat run cities, all run by the left or the radical left. And these are the problem areas. The Republican cities, it's fact, they're all doing great. We're doing great, the Republican cities. That's why you can't have a radical left and Joe's not really radical left. He's shot, it doesn't matter. He's shot. Let's face it. I mean, let's face it.

Donald Trump: [\(46:53\)](#)

Oh, by the way, those slips, those are the easy ones. We didn't want to go any worse. They're much worse than that. They're actually, they're so bad that they're not even funny. The Biden lockdown will mean no school, no graduations, no weddings for you, no Thanksgivings, no Easters, no Christmases, no Fourth of July and no future. Other than that, I think he's doing quite a good job, right? Under Biden's lock down, you will be living in a prison state. That's what it is. They want to lock it down. Let's lock our country down for a couple of years and let it go away. And by the way, those are the people that do the worst. They're the ones doing the worst. Europe imposed draconian lockdowns and cases were surging and deaths were surging. But think of it, draconian. Now they have to do it all over again. What the hell are they doing? I think I'm going to go over and explain it to them. But they're locking down parts of Europe again.

Donald Trump: [\(47:52\)](#)

By the way, when you think about it though, in all fairness, look what China has done to the world. Okay? No, no, look, I made a great trade deal with them. They ordered, two weeks ago, they ordered the largest order of corn, the largest order of soybeans, the largest order of beef ever in the history of our country. You know what? It doesn't matter to me anymore. It's almost like, it doesn't matter to me anymore. And obviously they did the big order. It was the biggest order ever. So the farmers love Trump. They should love Trump, with what I did with ethanol.

Donald Trump: [\(48:26\)](#)

And a great poll just came out in Iowa. You saw that right? De Moines Register. Trump is winning by a lot. I've been great. And I got China to give the farmers \$28 billion, because China targeted the farm, and all of that stuff. But look at what China has done to the world. Forget us. It's us and Europe and the world. When you see Europe, is draconian shutdowns, and they're shutting and they're surging. This is all, it all came out of China and they could have stopped it. They stopped it from going to the rest of China. If they stopped it at the Wuhan province, they stopped it, but it came to us and it came to Europe and it went to, 188 countries are suffering. I mean, look at what China, just think of it.

Donald Trump: [\(49:17\)](#)

Look at what China has done to the world. Look at you with the masks and everything else. Look at what, today you should wear them anyway, probably. But seriously. Look at what China, look at what China has done to the world and we're not forgetting it. We're not forgetting it. And the reason they ordered the corn and the reason, you know why? Because they now figured out, we're going to win. We're going to win.

Donald Trump: [\(49:43\)](#)

And if Biden ever won, China will own the United States of America. Because he has no clue. He's not a smart person. And in prime time, he wasn't a smart person. He was always known as a dummy. He was always known as a dummy and that was 20, 25 years ago. And now he's a dummy and a half. Biden will trap you in a dark winter. Remember during the debate, it will be a dark winter. Oh, how inspiring, how wonderful. Harry, let's watch the debate tonight. I want to be inspired by the person running against President Trump. This will be a dark winter. Oh great. That's wonderful. Harry let's vote. Let's vote for Trump, please. I mean, we had the greatest economy in the history of the world. We were beating everybody. China was, we were going like a rocket ship up from China. If you read your books over the last, if you were into this world, for 10 years, they said, 2019, China will eclipse the United States as the number one biggest economy in the world. I was going like this. But then we got hit with the plague from China. We then got hit with the plague, but now-

Donald Trump: [\(51:03\)](#)

... From China. We then got hit with the plague. But now, when you see the number that was released on Thursday, you say, "Wow, Trump was right." And that number could only be... I mean, whoever thought of that? 33%, 33.1% increase. It beat the number? You know, second place was 1952, and the number was less than half. So, we got it going, but you know what? We've gone through a lot. We've gone through a lot. The whole world has gone through a lot. For what? For what? Why have we done it?

Speaker 5: [\(51:35\)](#)

[inaudible 00:00:36].

Donald Trump: [\(51:38\)](#)

So, I'm delivering the great American comeback, and we're not having any lockdowns, okay? That, I can tell you. There's no lockdowns. Joining us today, your congressional candidate, Lisa McClain. Where's Lisa? Where's Lisa. I heard you're doing well. Do well. Are you cold enough? No, you're just fine. Thank you. Good luck. And Michigan GOP chairwoman, who's doing a fantastic job, Laura Cox. Laura? How's it going, Laura? Good? We're going to win? I think so. I hear we're going to win. And Michigan GOP co-chair, Terry Bowman. Terry? Thank you. Thank you, Terry. Good job. We could have picked a little better day.

Donald Trump: [\(52:31\)](#)

For 47 years, Joe Biden viciously attacked African Americans. We know that. He shipped away your jobs, decimated the black middle-class, and flooded your cities with foreign labor, gangs, and drugs. He opened and he openly called... And I think everyone knows this. He openly called young black men "super predators." In 1994, the Crime Bill, he devastated black families in places like Philadelphia, Atlanta, Milwaukee, Detroit. I reversed that injustice with a landmark criminal justice reform. And I'll tell you, nobody else could have gotten it but me. We had a lot of help. Nobody else could have gotten... Obama never even tried. Nobody tried. Biden said that if black Americans don't vote for him, you ain't black, which is a famous, famous thing. But that's not nearly as bad as other things he did. So, I have a message for every African-American voter in Michigan and across America. Tuesday is your chance to show Joe... And you know that, right? Tuesday is our big deal as a country. Show Joe Biden and the Democrat party what you think of their decades of betrayal and abuse.

Audience: [\(53:52\)](#)

USA. USA. USA. USA. USA. USA. USA. USA.

Donald Trump: [\(54:03\)](#)

Tuesday is your chance to show Joe Biden what you think of his decision to mistreat abuse and wrongly imprison So many African-Americans, and that's what he did. That Crime Bill was a disgrace, and you know that's what's happening in Florida? So, we're doing well with African-American... We're doing very well, but a lot of them just aren't showing up because they don't want to vote for this guy. Typically, they vote Democrat. It's changing a lot. It's changing really fast.

Donald Trump: [\(54:33\)](#)

And by the way, John James is a very good guy. I hope you're going to be voting for him. John James, a very good guy. And he's running against the guy... Nobody even knows who he is, Peters. I was there three years. I said, "Who's Peters?" "Oh, he's a Senator. He's a Senator from Michigan." Nobody knows who Peters is. He does nothing. He's a puppet for Schumer. No, you should vote John James. He's a great young guy. The great young man, West Point, a great military background, did well in business, and he wants to do this, and he's doing us a favor. I think he could be a star. And I hope Michigan goes for John James.

Donald Trump: (55:20)

To every black American, I'm asking you for your vote. I'm asking you to send a message to the corrupt Democrat establishment, that it is corrupt. We welcome you to the Republican party. By the way, it happens to be the party of the late, great Abraham Lincoln, right? Can't do better than that. Under our platinum plan, you heard about that, we'll create three million new jobs for black Americans, increase access to capital, and deliver school choice to every family [inaudible 00:55:50]. We invested \$2.5 trillion in the US military. We also passed VA Choice and VA Accountability, which is incredible for our great veterans. We had a 91% approval factor rating the other day from the veterans, highest ever.

Donald Trump: (56:11)

We killed the leader of ISIS. You that who that is? Al-Baghdadi. They've been looking for him for long time. We took out the mass murder of US troops, and many other troops, and many other people, Soleimani is dead also. I withdrew from the last administration's disastrous Iran nuclear deal. I recognized the capital of Israel and opened the American embassy in Jerusalem. I also recognized Israeli sovereignty over the Golan Heights. 52 years, they worked on that. I got it done in two hours. And instead of endless war in the Middle East, peace is breaking out. Countries are lined up. They're all lined up. We're signing them one by one. Biden will plunge America-

Speaker 6: (57:06)

[inaudible 00:57:06].

Donald Trump: (57:06)

What?

Speaker 6: (57:06)

[inaudible 00:57:08].

Donald Trump: (57:13)

Oh. That's very good. Let me see that. Good. Thank you. Thank you, sweetheart. Thank you. Biden will plunge America and the world into one ridiculous war after another. He thinks he's a tough guy. Remember what he said a year ago? "I'd like to take him behind the bar." You know what? Boom. I didn't even have to close. I just, ding, he's gone. He's a tough guy, right? With his sunglasses. His new deal is his sunglasses. His new deal are those sunglasses. He was very agitated, right? See him just [inaudible 00:57:49]. And then, you'd have two cars honks. Honk, honk. We have more in the 10 feet of the front row than he had yesterday. And I hate to say it, Obama doesn't draw any better. They went as a two-some, and they had less people.

Donald Trump: (58:12)

A vote for me and the Republican party is a vote for the American dream. And in conclusion, over the next four years, we will make America... It's getting warmer now. Do you notice? Let's stay here longer. I don't want to... I came here for the worst... Now, it's getting good, and I'm supposed to leave. I'm not leaving. Over the next four years, we will make America into the manufacturing superpower of the world. And we will end our reliance on China. That's already happening. We will hire more police, increase penalties for assault on law enforcement, and we will ban deadly sanctuary cities.

Donald Trump: (59:05)

We will defend the right to life, religious liberty, free speech, and the right to keep and bear arms. We will maintain America's unrivaled military might, and we will ensure peace through strength. We will end surprise medical billing, require price transparency. January 1st it starts. It's going to be incredible. Lower drug prices even more. We're going favored nations. You'll get them down 70%, 80%, and 90%. We go from the highest to the lowest in the world. Protect social security and Medicare, and we will always protect patients with preexisting conditions.

Donald Trump: (59:55)

America will land the first woman on the moon, and the United States will be the first station to land an astronaut on Mars. We will stop the radical indoctrination of our students and restore patriotic education to our schools. We will teach our children to love our country, honor our history, and always respect our great American flag. And we will live by the timeless words of our national motto, "In God, we trust."

Audience: (01:00:33)

In God, we trust.

Donald Trump: (01:00:36)

For years, you had a president who apologized for America. Now, you have a president who is standing up for America and standing up for the great people of Michigan. You didn't see me leave, did you? I'm lucky. You better get out there and vote.

Audience: (01:00:59)

We love you. We love you. We love you. We love you. We love you. We love you. We love you. We love you. We love you.

Donald Trump: (01:00:59)

Thank you very much.

Audience: (01:00:59)

We love you.

Donald Trump: (01:01:15)

I love you too. I do. Two days from now, you have the power, with your vote, to save the American dream, to save our country from what could happen to it. You look at Venezuela, you look at so many other countries. 20 years ago, Venezuela was a strong country. It was one of the richest countries. Today, they have no water. They have no food. They have no medicine. They have nothing. This is the same ideology that you're seeing, trying to come in. We can't let it happen. This country, and I've said it many times, will never be a socialist country. This will never be.

Donald Trump: (01:01:55)

But you have to go out and vote on November 3rd. We must finish the job. Drain the swamp. The swamp is deeper, and stronger, and more vicious than ever, but we've done a hell of a job, and they cannot believe that we're in this position. We're now leading. Look, we're leading in Florida. We're leading in Georgia. We're leading... Forget Texas. We're leading. So, how about Texas? You go to Texas. This guy says, "Yeah, we're against oil." Right? "We're against God. And we're against guns." We're going to take away your guns. So, now, we're in Texas. You can't have any more oil, no more oil wells. Let's take all the oil wells away. So, no oil, no God, no guns. And then they say, "It's a very close race in Texas." I don't think so.

Donald Trump: (01:02:45)

They did that four years ago, and I won in a landslide, right? They said, "Texas is too close to call." The doors close. Donald Trump has won Texas. What the hell happened? They said it with Utah. Remember? They said the guy came in, he came, this character. Nobody ever heard of him. He was supposed to be great. And they kept talking about him. And then, I won by, what, 22 points or something. In fact, crazy Hillary, crooked Hillary came and... Here we go. Watch. Here we go. They always blame me. Whenever that chant starts. All I do is I mention her name.

Audience: (01:03:21)

Lock her up. Lock her up. Lock her up. Lock her up. Lock her up. Lock her up. Lock her up. Lock her up.

Donald Trump: (01:03:28)

I didn't do anything. Well, they said, with your governor, every time I mentioned her name, they say the same thing. And they say, "He is inciting." I'm inciting.

On Tuesday, Michigan is going to make history once again. You made history. And by the way, so I came here a lot, and we ended up winning it. It hadn't been won for many, many years by a Republican. Are you happy with your choice? All right?

Audience: [\(01:03:57\)](#)

Yeah.

Donald Trump: [\(01:04:01\)](#)

All those plants that you have opened and opening, by the way, and you have plenty coming too. You wouldn't have any of them if I weren't your president. I can tell you that, and you have plenty more coming. For generations, America's destiny was made, forged in one in places like Midland, Makena, Lansing, and Grand Rapids. Grand Rapids, that was where I made my last speech, right? I made my last speech. 32,000 people showed up at one o'clock in the morning. And I said, "We're not losing." We had a crowd. You wouldn't believe it. One o'clock in the morning. It was now Election Day because it had gone over. One o'clock, 32,000 people, Grand Rapids. I'll never forget it. And I said, "This doesn't feel like I'm coming in second place." And guess what? We didn't.

Donald Trump: [\(01:04:51\)](#)

Battle Creek and Macomb County. Our American ancestors gave their blood, sweat, and tears to defend our country and our freedom. We stand on the shoulders of American heroes who crossed the oceans, settled the continent, tamed the wilderness, laid down the railroads, raised up the great skyscrapers, won two world wars, defeated fascism and communism, and made America into the single greatest nation in the history of the world. And the best is yet to come.

Audience: [\(01:05:32\)](#)

Is yet to come.

Donald Trump: [\(01:05:32\)](#)

That's true. That's true. Proud citizens like you helped build this country. And together, we are taking back our country. We are returning power to you, the American people. With your help, your devotion, and your drive, we are going to keep on working, we are going to keep on fighting, and we are going to keep on winning, winning, winning.

Audience: [\(01:05:54\)](#)

Winning, winning, winning.

Donald Trump: [\(01:06:01\)](#)

We are one movement, one people, one family, and one glorious nation under God. And together, with the incredible people of Michigan, we have made America powerful again. Our military, our military, so powerful. We have made America wealthy again. Look at what's happening. 401ks are doing very well. We have made America strong again. We have made America proud again. We have made America safe again. And we will make America great again.

Audience: [\(01:06:39\)](#)

Make American great again.

Donald Trump: [\(01:06:39\)](#)

Thank you very much, Michigan. Thank you. Look, it's warm out here now.

Speaker 7: [\(01:06:40\)](#)

(singing) (silence)

Donald Trump: [\(05:40\)](#)

Wow. This is a big crowd. This is a very big crowd. Look at all those cameras over there. Can you show the crowd? Can you show this crowd? They never talk about a crowd. And in reverse, they never talk about Sleepy Joe's crowd either. It's about 12 people just showed up. 12. Look at this crowd. Maybe you could take those cameras to just show over there and over there. This is great. Hello, Pennsylvania. Hello, Pennsylvania. We love Pennsylvania. Great education. And also, hello, Reading. We know it well. We know it well. Three days from now, we are going to win the Commonwealth of Pennsylvania and we are going to win four more great years in the White House.

Donald Trump: [\(06:39\)](#)

I will tell you they're getting a little nervous back there, the Fake News, because Florida is looking very strong. And these are not suppression polls. These are voters they're coming in. Florida is looking very good. North Carolina is looking very good. Ohio is looking beyond good. Ohio. You never hear, "You can't win unless you win the great state of Ohio." Did you ever hear that? Well, Ohio is looking real good. They're all looking good. You know what's looking good? Pennsylvania is looking good. Real good. That great red wave is going to be very beautiful to watch. We're looking good. And if we win Pennsylvania, it's over. It's over. But be careful. You've got big tech. You have the Democrats and they play dirty. You have the RINOs. The RINOs are not good people. You've got them all.

Donald Trump: [\(07:45\)](#)

But we're here and you have your Second Amendment. You have your tax cuts. You have your regulation cuts. You have your fracking. You have your fracking. How about Joe? He goes for a year, "There will be no fracking. I tell you, there will be no fracking." He comes to Pennsylvania, listen, we have a million jobs for fracking. We like \$2 gasoline. It's nice, isn't it? We've got a lot of things. "Well, in that case, let me just change my ..." And he never even gets asked about it by the fake news. Can you believe it? With your support, we will continue to bring back your jobs, cut your taxes, cut your regulations, and ensure more products are proudly stamped with that beautiful term, "Made in the U.S.A." And next year will be the greatest economic year in the history of our country. You see it's already going. You saw what happened. You saw those numbers come out. You have to look very closely.

Donald Trump: [\(08:44\)](#)

A man got on television yesterday and said, "This is probably the greatest economic day in the history of our country," and the papers barely even put it in. It's called suppression, suppression. And Joe Biden will shut down your economy. Well, you're already shut down in Pennsylvania. Hey Governor, you've got to open up. You've got to open up the state, Governor. You've got to open it up. And don't cheat in the ballots, Governor. Don't cheat. Don't cheat. We're going to win. We're going to win. The only way we can lose this state and the numbers are in, you see what's going on, somebody's going to play games. And they just got an extension. What's the extension all about? Wouldn't you like to hear, "November 3rd, we win. We lose. We win. We lose. Whatever." November 3rd, now you have more time, more time. What's going on? That was a very disappointing opinion, but I've had many disappointing opinions from the Supreme Court. I will tell you. Many, many disappointing opinions from the Supreme Court. They talk about we control the Supreme Court. We don't control the Supreme Court. That was a terrible decision.

Donald Trump: [\(09:53\)](#)

Joe Biden will shut down your economy, wipe out your factories, and shut down your state. Ship your jobs to China. Raise your taxes \$4 trillion. The biggest tax increase in the history of our country. And I gave you the biggest tax cut in the history of it. He'll eliminate your private healthcare. 180 million people have the best healthcare. They work so hard and they negotiated with many great companies and have the best healthcare. They want to knock it out. They want you to live on socialized medicine. I don't think you'll be too happy. "Darling, I have a call." "Oh. Go to the hospital room." You'll wait in line for about four days. That'll be nicer, right? And send your state into a deep and catastrophic depression.

Donald Trump: [\(10:49\)](#)

And if you look at the stock market, we've done great. The only headwind in the stock market, it's an election, things can happen. We're doing great. Much better than anyone understands. They're starting to get very depressed. You talk about a depression. They're having a hard time. They're having a hard time with it. But you know what? There's a headwind. Do you know what the headwind is? That there's a possibility if Biden wins you're going to have a stock market collapse the likes of which you've never had. You will have a collapse. So that's our headwind. If we win, if we win on Tuesday, or thank you very much, Supreme Court shortly thereafter, if we win, let me tell you, if we win, you're going to see a stock market that's going to go like a rocket ship. 401ks, your 401Ks.

Speaker 1: [\(11:40\)](#)

Four more years!

Donald Trump: [\(11:40\)](#)

Thank you.

Speaker 1: [\(11:40\)](#)

Four more years! Four more years! Four more years! Four more years!

Donald Trump: [\(11:40\)](#)

Thank you.

Speaker 1: (11:40)

Four more years! Four more years!

Donald Trump: (11:57)

This is a very enthusiastic group, isn't it? This is great. Wow. This doesn't seem like someone who's going to come in second, do you agree? I don't think so. Did you see Biden and Obama before, they made a thing? Honk, honk. Honk, honk, honk. And actually most of them are our supporters trying to cause a little havoc, but that's all right. We don't want that. Biden has vowed to abolish the entire U.S. oil industry. No more fracking, no mining, no heating, no clean coal, and gas prices going up at \$5, \$6, and \$7 a gallon. So when you pull in with your car, you say, "Darling, I think we're going to sell this beautiful SUV. Let's get a compact." Do you remember the compacts? "The gas is too expensive. What has this guy Biden done?" And the bad part is that Biden doesn't have a clue. He's gonzo. We all know it. They just don't want to say it.

Donald Trump: (13:22)

Biden's plan, I don't think he likes me too much, is an economic death sentence for this great commonwealth. It's a death sentence. He'll eradicate your economy. Kamala Harris. Did you ever hear of Kamala? You have to pronounce it Kamala. She makes Bernie Sanders look like a strict conservative. Do you know that? Bernie is a conservative member compared to her. I mean, how that choice was made. And did our great Vice President win that debate easily? That was a big one. Mike is doing a great job. The most liberal Senator even sponsored the Green New Deal, \$100 trillion. It started off at 100 trillion then 106. Now they have it down to six trillion. No, it's not six trillion. And by the way, if it was, you couldn't afford it. But you can afford 100.

Donald Trump: (14:18)

A vote for Biden and Harris is a vote to ban, and you know this, ban fracking, ban mining, close up your individual plants. They've got plants all over the place. I grew up here. They have plants all over. When I say grew up, let me be exact, during college, because they'll say, "He misrepresented. He said he grew up." But Biden represents it. "This is my home." This is not his home. They left. They abandoned you. It wasn't his fault. He was nine years old or something. It was not his fault. But it's not like he's a big Pennsylvania guy. No, he's a Delaware guy. And Delaware is a good place. In fact, it's really good. He likes it so much he never leaves. He never leaves. He made the mistake. He came to Pennsylvania three days ago, because I was here. I was doing three of them. Three in Pennsylvania. Hey, I'm devoting a lot of my percentage of time to Pennsylvania. What do you think? I must like you.

Donald Trump: (15:18)

No, we win Pennsylvania. We're going to win Florida. If we win Pennsylvania, it's over. Let's do it. I felt very badly, I felt guilty, because if you remember four years ago, we were at 98% of the vote. If I lost every single vote, there were X number of votes left, if I lost every single vote, every vote, take them all, I still win. They refused to call it. They refused. They wouldn't call it. I said, "Wait a minute. They have to call it." Because I was at 98, not 99, I was at 98. It stood there for an hour and a half. And I kept saying, "That'd be nice, Pennsylvania. That'd be nice." They refused. And then they said, "Donald Trump has won the state of Wisconsin." And then they said, "Donald Trump has won the state of Michigan." And we won. And then much later, they just refused to give you the credit. So let's turn it around on them, okay? They didn't treat you.

Donald Trump: (16:21)

I kept waiting. I said, "Look at Pennsylvania. Why aren't they going to call it? Why?" They waited for hours and hours. I said, "I'll concede every vote. I'll concede every one and we win." They wouldn't do that. But we won it, and we won it pretty easily. I think we want it pretty easily. And what I've done from the time we won and what I've done since then, what we've done for this state has been incredible, or to be perfectly accurate. For this commonwealth. But what we've done for Pennsylvania has been incredible. You had the best year you've ever had last year and you're heading to the best year you've ever had period, and it's going to be this coming year. Biden would completely destroy Pennsylvania. A vote for me is a vote to remain energy independent. Do you believe it? We can say that. Did you ever think you're going to hear those beautiful words? We're energy independent.

Donald Trump: (17:16)

Our economy is now growing at the fastest rate ever recorded. That was what was announced yesterday. The only problem is, a very, very brilliant gentleman called me up. Not a nice man at all. In fact, he's ruthless and vicious. I love that guy with the beard back there. He goes to a number. Thank you. He's so distinguished. He's so distinguished. I see him at so many rallies. I appreciate it. I think he's great. He's going, "Four more years." Yeah. He's great. But you know what? He got up and he said, very smart, very successful guy, he said, "This could be the biggest announcement in 50 years. 33.1% GDP." That's growth. He said it broke the record. It's the number one in history, of the history of our country.

Donald Trump: (18:03)

... it broke the record, it's the number one in history, in the history of our country, and probably the history of any country, if you want to know the truth. But 33.1% which is far greater than people were anticipating, anybody. So what happens is that this is the biggest announcement but you watch, they won't give you any credit, they'll try not to mention. It's true, the press is playing it down so much. Just like for different reasons they refuse to talk, they refuse to talk about where's Hunter. They refuse to talk about the corruption in Biden's family. We've learned more about the fake news, but this is no longer fake news, this is now corrupt news. This is now corrupt news. We've learned a lot. But we had the greatest number we've ever had.

Donald Trump: (18:52)

I thought I heard that from over there. See, I don't participate in this because look at all the cameras back there, look at them all. You know what they're going to do? "He's trying to incite them." No, I don't have to incite them, they're like intelligent people, they know. They know that when you get thrown out of the military and you have no job for a long time, and then your father becomes Vice President, and then you get \$183,000, right? \$183,000 to sit on a board, probably never went to a board meeting, and supposedly 3 million upfront. And then the mayor of Moscow's wife gives you a check for 3.5 million, and then... And then, you go in Air Force Two and you go to a very nice place known as China, that should have never, ever done what they did. They should have never done. We just signed a great trade deal and the ink wasn't dry, and the plague came in. They should have, they could have stopped it.

Donald Trump: (19:57)

But they go to China, father and son goes to China, and he walks out with \$1.5 billion to manage, which is millions of dollars a year. And then he goes for the big play, 10 million a year, you saw that one? He wants 10 million a year. This is a guy didn't have a job a year before. Goes to China, "We want 10 million a year for introductory," in other words, he'll introduce people to his father. And then you see his father, the big guy, the big guy, they call him, he's not a big guy. He's not a big guy... He's not a big guy. No.

Donald Trump: (20:34)

Do you remember like a year ago, year and a half ago, he said, "I'd like to take him to the back of the barn..." A slight slap. You don't have to close... you didn't close your fist. Now they said, "He's inciting violence." No, no. But when Biden... I thought it was a terrible... Remember that he actually like, "I want to take him to the back of the barn." They didn't say the thing. If I said that, they'd say this is a terrible human being, right? It's all right.

Donald Trump: (21:15)

You know what? In the meantime we have the White House, right? We have the White House. We have the presidency. We have fracking. We have energy. We have manufacturing that they totally gave up. Remember, you'd need a magic wand. In the past five months, we've created a record 11.4 million American jobs, there's never been that many jobs produced in that short a period of time. While foreign nations are in a free fall, and they are, unfortunately, I feel badly for them, but they are. We are creating the world's greatest economic powerhouse. We are going to be more powerful than ever before. We had to stop. We had to close. We saved 2 million lives. Remember they, they don't want to ever talk about that. The model was 2.2 million. That's what they said. We saved 2 million lives, we closed it up. How would you like to be, ma'am, sitting there, we have the greatest economy of the history of this country, in the history of the world.

Donald Trump: (22:12)

We were doing so much better than China, I was throwing tariffs on them, they were paying us billion dollars. I gave \$28 billion to farmers because they were targeted by China. Iowa, Nebraska, they'll remember, they'll remember. I gave them 28 billion with a B, farmers, farms, and ranchers because they were

targeted by China because they thought China thought they could use the farmers to get the deal that they want because I said, "I'm not going to let you rip off the United States, you've done it long enough, for years and years." And I'm not just talking about Obama. I'm talking about other presidents too, they allowed this to happen. They allowed this to happen. So we gave our farmers 28 billion, that's not... all from China. I said, "Please write a letter, say thank you very much, President Xi." A recent Gallup poll found that 56% of Americans say they are better off today than they were four years ago under... Think of that. And that's during, we're rounding the turn, they hate when I say it. You know we're coming up with the vaccines, the therapeutics are incredible. Here I am, I mean, you know. I'm sure I would have been here without the therapeutic because as you can see I'm in perfect physical shape and I'm extremely young. So I'm young and I'm a perfect physical specimen... No, so I'm sure I could have beat it without... But something happened when I took that sucker and it was gone. It was gone. I woke up the next morning and I ripped off my shirt. I said, "Doctor, let me the hell out of here."

Donald Trump: [\(23:56\)](#)

And I was campaigning like... very... Oh, the other side, were they happy? Oh, were they happy? But you know what? When you're President of the United States, you can't lock yourself into a basement at the White House. Got to be President and meet people, right? I can't lock myself into the basement, and they have a very good basement, I can't lock myself into a beautiful bedroom and stay there for a year and a half. The President of the United States is locked in the most magnificent bedroom on the third floor of the White House because we have a pandemic and he's afraid to go out, he's your President. No, no, you got to go out.

Donald Trump: [\(24:35\)](#)

And the doctor came up to me. Great doctors. One thing if you're President you get good doctors, that's the one thing I can tell, and you get plenty of them too, they got more doctors. But they came up, "Sir, you're positive, you just tested positive." I said, "Doctor, tell me something. For what?" "Sir, you have the China plague." He didn't say that, he said, "COVID, sir." COVID, you know it's got about 24 different names, most of them should start with the word China because that's where it came from. They have a word corona, right? The coronavirus. Well, I say what is this a place in Italy? Sounds like an island in Italy. Corona. No, I don't want it, it's the China, it's the China virus, that's what it is.

Donald Trump: [\(25:21\)](#)

But he said, "Sir, you just tested positive for COVID." I said, "Ugh, that's great. Wait a minute, I got about four campaign stops to make in the next couple of days because we got to win this, this is the most important election in the history of our country." And then our great First Lady tested positive. Well, at least those rumors that we don't live together turned out to be false. She lives in a house someplace in Virginia. No. No. She lives with me and she tested... I said, "That's the only good thing about her testing positive because..." But she's strong and knocked it out. But then they said, you know that they said, "Sir, Barron," now, Barron's my 14-year old boy who's very tall and strong, he's very strong, all right? And Barron, they said, "Sir, Barron tested positive." I said, "Huh, that's not good." About 12 minutes later, I said, "How's Barron doing?" "Sir, he's shed it, no problem, he's fine." Get back to school, Governor, tell them they have to get back to school. Got to get back to school. Those young kids they have that strong, we feel strong, they have that very strong immune system. "How is he?" "He's 100%." "Barron, was it bad?" "I don't think I had anything wrong, Dad." That's one of those things, right? That's the way it is. They're young and they're strong and their immune system is good and they should go back to school immediately. Sleepy Joe Biden is a diehard globalist who spent the last 47 years outsourcing your jobs, opening your borders, and sacrificing American blood and treasure in endless foreign wars in countries that most of you have never even heard of before. They're all coming back to soldiers are coming back, you know that. 19 years. So now 19 years and they were policemen, they policed areas, but it's ridiculous what they were doing in this country. Ridiculous. Biden is a Washington vulture who decimated your steel mills, annihilated your coal jobs, clean coal, and supported every disaster sellout trade deal for over half a century. I mean, I know it's the reason why I'm President.

Donald Trump: [\(27:48\)](#)

The real thing that bothered me more than anything else, I thought the wars were crazy. I thought so much was bad, but I saw these trade deals we were making with countries, both ally, and foe, and our allies in many ways treated us worse than the foe, okay. We were treated horribly on trade and we were treated horribly on the military. We had to pay for their military. By the way, those days have ended very substantially you know. Very, very substantially.

Donald Trump: [\(28:17\)](#)

Biden was a cheerleader for NAFTA, one of the worst trade deals ever made, maybe the worst, and China's entry into the world trade organization. That's where China was flat-lined for years and years and then they went up like a rocket ship. You know they're considered a developing nation. As a developing nation, they get a much better deal than we do. I said, "China is not a developing nation. Or you can let them be, then we're a developing nation also." When you think of it, we are a developing nation. And then we won \$7.5 billion recently, we hadn't won anything because the judges within the world trade, the judges treated us with disrespect. But with me, they're respected because I'll say, "We'll pull the hell out of there. We'll pull out." And we won 7.5 billion, all of a sudden we're winning cases.

Donald Trump: [\(29:06\)](#)

I wish our Supreme Court treated us as well, frankly. That was some decision that was made, right? Let's not, let's not listen to the decision, this most important election in the history of our country, November 3rd. Let's not wait November 3rd, let's extend the date. Let's give people more time to put in ballots, right? Why can't they put their ballots in earlier so you have plenty of time, and so we can have a decision on November 3rd, the evening of November 3rd? And you know what's going to happen? Especially with Pennsylvania, man was on television yesterday, "We allow five points for cheating," he said in Pennsylvania, right? Think of that. One of the best pollsters in the country? The one who got it right four years ago. He said, "Trump's going to win Pennsylvania but you have to allow five points for cheating." You know when the cheating is going to take place? From the 3rd to whatever the date is that they gave. No, that's very disappointing. That was a very political decision, I have to say, they have not treated me.

Donald Trump: [\(30:10\)](#)

Pennsylvania lost half of its manufacturing jobs to these calamities of Sleepy Joe Biden. How do you like his new sunglasses? You like them? That's so you don't see the bad surgery on the eyes. No, they're terrible, those... They got to get a little... If you going to use that kind, what are they? Aviation, right? He's got to go at least one or two sizes larger that don't look like... I don't like it. I don't know, he's got the silver deal going, the whole deal. And he's very angry, right? You ever notice? You know what, the word is a... It's agitated. You know why he's agitated, right? Because he's got a problem. "We've got to..." And you just hope he can keep it going, but it's not going to go much longer. That's why crazy Nancy was trying to get the 25th amendment so if he ever got in, we'd get him out.

Donald Trump: [\(31:05\)](#)

And then you have Kamala, that should never be your first woman president. But based on the numbers, the way I look at them, in Pennsylvania I don't think we're going to have to worry about it too much, okay? And Florida and Ohio and lots of others. North Carolina is looking pretty good, did you see that? And this is no longer the fake suppression polls. You know we had a thing, Wisconsin is great and we won it last time, and we had a poll come out, I'm up one, then I'm down one, then I'm up one, then I'm even, you know what this is crazy stuff. But it's, you know, it's within this area.

Donald Trump: [\(31:45\)](#)

I think we doing much better than that, you know. I think, I think we're way ahead. You know, I mean, I don't know if I should be happy or sad, people say, "I don't want to talk to you about it." Then they go vote for Trump you know and we end up winning by a lot. But that's what happened last time. They thought I was going to lose because everyone walking out the exit polls, they'd walk out. "Who are you voting for?" "None of your business." Everybody that said, "None of your business," they were Trump voters.

Donald Trump: [\(32:10\)](#)

Remember at five o'clock in the afternoon, they said, "Trump lost." Well, they forgot to say, you know, they had the largest numbers of it's called something else, but I'm trying to be nice because there's so many young people here. It's not "none of your business", it's a much better word. It's two words that they say. But all those votes were votes for me. So they don't count them. So they said, "Oh, it looks like it's going to be a rough time for Trump." And they were happy as hell. And then the votes came in. It was, that was a brutal evening for a lot of anchors that were crying. "I don't know how this could have happened. Yes, I'm an impartial anchor. I'm an impartial, I go, how did this happen?" The tears are...

Donald Trump: (32:51)

At every turn, Biden twisted his knife into the backs of Pennsylvania workers. While Biden was giving China your jobs, his family was raking in millions of dollars from China, millions and millions of dollars. If Biden wins, China wins. If Biden wins, China will own the US. Just remember that. And with me, it went just the opposite. I will tell you one thing, I can name many countries that would like me to lose. You know they said that Germany, that in Germany, and I have a heritage with Germany, I mean they should like me, but they like Obama much better than they should like Obama. There's no way they can like me. I said, "Pay up." They don't pay their, they're delinquent in NATO. They owe us billions and billions of dollars. Obama never said, "Pay up." I said, "You got to pay up otherwise we have to take our troops out." And then I hear that they like him better, well they should. You know what? If they ever like me better, I'm not doing my job, okay?

Donald Trump: (33:53)

When we win, when America wins so we're going to have winning like you've never seen before. In 2016 Pennsylvania voted to fire this corrupt political establishment and you elected an outsider as President who is finally putting America first. Is that okay, Pennsylvania? And you don't have to take my word for it because on Biden's record of economic treachery, and I only do this for places I like a lot. Thank you. They going to get it started. Is there any [crosstalk 00:34:37]-

Joe Biden: (34:35)

I have never said I oppose fracking.

Donald Trump: (34:40)

You said it on tape.

Joe Biden: (34:42)

Show the tape, put it on your website.

Donald Trump: (34:44)

I'll put it on.

Joe Biden: (34:44)

Put it on the website.

Speaker 2: (34:47)

Would there be any place for fossil fuels, including coal and fracking in a Biden administration?

Joe Biden: (34:54)

No, we would work it out. We would make sure it's eliminated. I guarantee you we're going to end fossil fuel. No more. No, no fracking. I'd gradually move away from fracking.

Speaker 3: (35:06)

And I think it's critically important on day one that we end any fossil fuel leases on public lands.

Speaker 4: (35:14)

What about say stopping fracking? Stopping pipeline infrastructure and-

Joe Biden: (35:20)

Yes.

Speaker 3: (35:20)

There's no question I'm in favor of banning fracking.

Speaker 2: (35:23)

I have one final question-

Donald Trump: (35:25)

Would he close down [crosstalk 00:35:25]-

Speaker 2: (35:25)

... it falls, it falls [crosstalk 00:35:27]-

Joe Biden: (35:25)

I have a transition from their [inaudible 00:35:29], yes.

Donald Trump: (35:31)

Oh, that's a big statement [crosstalk 00:35:31]-

Joe Biden: (35:31)

I would transition. That is a big statement.

Donald Trump: (35:32)

In terms of business that's the biggest statement.

Speaker 2: (35:35)

Okay.

Donald Trump: (35:35)

Because basically [crosstalk 00:00:35:36]-

Speaker 2: (35:37)

We have one final question. Mr. President-

Donald Trump: (35:37)

... what he's saying is he is going to destroy the oil industry. Will you remember that, Texas? Will you remember that, Pennsylvania?

Speaker 2: (35:44)

Okay.

Joe Biden: (35:44)

You know we have to come together that's why I'm running. I'm running as a proud Democrat for the Senate. So vote! Vote! Visit iowa.com/ohio. God bless you.

Speaker 5: (36:03)

Ah, can some-

Joe Biden: (36:03)

God bless you.

Speaker 6: (36:03)

Can somebody tell Joe, by the way, it's not a real website and, Joe, you're running for President, not Senator, and by the way, that Senator, the Mormon guy, is Mitt Romney, not some Mormon governor. Now, sadly, what we showed you, that's just from a couple of hours today because every time that Joe actually leaves the basement bunker and stays out past 10:00 AM, well, disaster ensues. Here's a quick reminder.

Joe Biden: (36:32)

... Tomorrow's super... Thursday and I want to thank you all. I tell you what I'm rushing ahead, aren't I? We hold these truths to be self-evident. All men and women created by... You know the thing. Do you agree with me, go to Joe 3030. We choose truth over facts. Play the radio. Make sure that television... excuse me, make sure you have the record player on at night. Make sure the kids hear words. Poor kids who are just as bright and just as talented white kids. Donald Trump does pose an extra strength for this... It's not hypothetical.

Speaker 6: (37:12)

This is pretty serious. By the way, these are way beyond an occasional campaign gaff. And I am beginning... Well, I'm more than a little worried that this man could represent a clear and present danger to this country. He's obviously not capable of leading. He's been hiding the entire campaign and the corrupt media mob is covering for him. Joe wants to be the President of the United States of America, that would be the toughest job in the world and a times, Joe doesn't seem to remember that he's even running for President, or what state he's in, or what day of the week it is. Does anyone really believe that if elected that Joe Biden will actually be in control of anything?

Joe Biden: (37:57)

What kind of country we're going to be? Four more years of Georgia, Georgia... going to find ourselves in a position where if Trump gets elected, we're going to be, we're going to be in a different world.

Speaker 7: (38:14)

Trick or treat

Speaker 8: (38:14)

Whoa, do we love you.

Speaker 9: (38:15)

Spooky, spooky, spooky, creepy. Creepy Uncle Joe.

Speaker 8: (38:21)

Ah, it's funny. It's Joe.

Speaker 9: (38:23)

Come on, man, candy's for the kids.

Speaker 8: (38:27)

Well, maybe he forgot.

Speaker 9: (38:30)

Wait a minute, you look familiar. Who are you?

Speaker 8: (38:48)

Are we going to let her get away with this?

Speaker 9: (38:50)

She took everything.

Donald Trump: (39:27)

Thank you, thank you. Well, that was quite interesting watching. A little truth to that. Nah, nah, can't... we can't do that to our country. We can't do that to our country. If I don't sound like a typical Washington politician is because I'm not a politician. And if I don't always play by the rules of Washington and the Washington establishment it's because I was elected to fight for you and I fight harder than any president has ever fought for the people of this country.

Donald Trump: (40:07)

One of the most important issues of this election is law and order. You know very well in Pennsylvania what's going on. Joe Biden and his party have spent the entire year inciting violence and hatred against our great police officers. And remember this, it's all Democrat-run cities, radical left Democrats, Democrats. You look at what's going on, all Democrat-run cities. Republicans have no problems, our cities are doing great, but it's all Democrats. This week the City of Philadelphia, I know it well, was ransacked by violent mobs and Biden supporters. More than 50 great police officers were injured and they weren't allowed to do their job. They were standing... You have great police. I know the police departments, everybody's endorsement. Remember the debate. I said, "Name one law enforcement agency or establishment, Joe, that endorsed you." He couldn't name one. Couldn't name one.

Donald Trump: (41:22)

Our opponents stand with the rioters, they stand with the anarchists, they stand with the looters. We stand with the heroes of law enforcement, okay? Got to let them do their job. I'm not just running against Sleepy Joe Biden, I'm running against the left-wing media, the big tech giants, these people back here, and the Washington swamp. I'm also running against some rhinos, we still got some of them left, they're on mouth-to-mouth resuscitation. They just about gone but you don't want them to come back. The rhinos, the rhinos are worse than the angry, angry sicko Democrats, the ones that have gone off the ledge. But you can save your country by voting in record numbers on Tuesday. You got to get out and vote. Look again, it's the most important election, you got to get out and vote.

Donald Trump: (42:15)

The great red wave we talked about, right? Red wave. And you can send a message that they will never forget. This election is a choice between a Biden depression, that's what you're going to have, or a Trump super boom. You're going to boom. You're going to boom. We were there. And even now look through all of this, your 401Ks they had a little hiccup because... Look, they think if he had a chance it's a disaster. You watch, we're going to win.

Donald Trump: (42:49)

First of all, the first call I'm going to get are the people, the leaders in Iran, let's make a deal. Let's make a deal. China they're dying to do something. They all want to talk. I don't want to talk to them. I said, "We've got to get an election over with," and they have to take the chance. Can you imagine Iran, the worst deal, \$150 billion, \$1.8 billion in cash, and they said, "Let's wait till after the election." I said, "I agree with you."

Donald Trump: (43:15)

It's a choice between a Biden lockdown or a safe vaccine that ends the pandemic and it's ending anyway, it's making the turn anyway, but we have the vaccines

are coming and they're coming soon. They're coming very, very soon. We're going to have an incredible economy. Next year. You know last year was the best year that the Commonwealth of Pennsylvania has ever had. I could almost say it with every state, I could say it with any state, it was the best year. We had it closed it down, we saved all those lives and now we opened it and I said, "Super V," right? I actually said V. "ell, now I can say it's a super V. At 33.1 which you won't read about... we will mass distribute the vaccine in just a few short weeks. We have our military all set up. They do soldiers, greatest military in the world. We've totally rebuilt our military in three and a half years.

Donald Trump: [\(44:10\)](#)

The pandemic will quickly be eradicated, and wipe out the China plague. We'll get rid of it once and for all. We're going to get rid of it. Look at what's happening in Europe how bad that is that's so terrible. And they'd always say, "Look at Europe, look at Europe." Well, they're not doing too well. And if you look at our numbers, our numbers are so incredible. And our economy went down much less and it's come back much, much faster. Biden opposed the China travel ban, he opposed the Europe travel ban. I closed it very early and he said I shouldn't do it. Think of this, "He shouldn't do it, he's xenophobic." I think he called me a racist too which I don't like. Look, "He shouldn't do it, he's xenophobic. He's in a xenophobic." He was saying this two months later. Now he runs he said I should have closed it sooner.

Donald Trump: [\(44:58\)](#)

This guy between the fracking and the ban and everything else. And he wants to delay the vaccine and impose a year's long lockdown. Nope, you got to open up, got to open up. We know the disease. We're going to have all of the different things, including the therapeutics which I think might be a cure because something happened to me, I'll tell you what. Something happened. It might be a cure, but the... they call it therapeutics. But what we've done and what we've done in terms of mortality rates are incredible. And we're going to go over that. The Biden lockdown will result in the deaths of Americans from suicide, drug overdoses, deferred medical care, abuse. I mean, you can't do this. You got to open them up. The families have to, the families can't live like this any longer. You can't live like this, we want to open up our country.

Donald Trump: [\(45:50\)](#)

Now, part of the reason they're doing it, a big part probably is political. They want to keep it closed. New York... What's going on with my beautiful New York? I left... I left three and a half years ago and what's happened to New York in terms of crime and all of the problems. It's like a ghost town. What's happened to our great New York? Chicago, what's happened to Chicago? Portland, look at that. We could solve Portland, they're anarchists. We love the anarchist because we can knock them out in about 20 minutes, okay? All the governor has to do... "Call, Governor, call," I've been saying to her, "Call, Governor, just call." Speak to them all the time. We'll come in, we'll take care of the problem. We were going into Seattle. We informed them we're going in, we're just going in. They took over a part of Seattle, can you believe this? They took a... This is the radical left, they took over a part. We said, "We're going in." You know what happened? The night before they held up their hands, they said, "We're leaving now. Thank you very much." We had no choice.

Donald Trump: [\(46:48\)](#)

Biden will imprison. Your people, your families, in your house while letting rioters roam free and loot your streets and loot your store. Under Biden, there will be no school, no graduations, no weddings, no Thanksgiving, no Christmas, no Easter, no 4th of July. There will be no future for our country. Other than that, he's going to do a great job. I guess a total disaster. Everything he's touched has been bad. He's a disaster. Biden will trap you in an endless nightmare of deadly lockdowns and lay-offs. He wants to lockdown. You know the virus is coming back a little bit. What slows up our country. No, can't do that.

Donald Trump: [\(47:34\)](#)

We understand that. We understand we have to protect our elderly. We know exactly what to do. I'm delivering the great American comeback. It's going to be one of the greatest comebacks of all time. And the numbers are far better than we thought. The numbers, you heard the numbers, 33.1. And again, they don't talk about it. If this were Obama, they would say 33.1, he's the greatest president of all, he's so great. He's so great he gave us 142 federal judges to fill. If I were in his... If I were a radical left or a liberal and a president left office and gave 142 federal judgeships, including Court of Appeals, for Donald Trump to fill, who has a very different philosophy, you're no longer a good president, nobody mentions that. But we're going to have, by the time the end of our first term, just our first term, 300, approximately 300 federal judgeships and three Supreme Court Justices.

Donald Trump: [\(48:43\)](#)

And Amy, everybody loves Amy. She just got under the [inaudible 00:12:46]. Just got on. Think of that, three Supreme Court Justices, and think of that. 300. But I say, "Thank you, President Obama, for allowing us to have 142." Because that... you know, usually when a president leaves zero, their nuggets of gold. People want that, you know, it's such an important position, nothing much more important. People say it's the most important thing a president can do. I would say the military maybe, but it's okay. They say it's the most important thing. We're going to have 300. I mean, think of it, it's never happened before.

Donald Trump: [\(49:21\)](#)

You know the job we've done, you are so lucky that I'm your President. So lucky. You are so lucky that we took this journey together. This wonderful, this beautiful journey together. You are so lucky. Pennsylvania, you are so lucky, you better get out and vote on Tuesday. Get out and vote.

Donald Trump: [\(49:42\)](#)

That's very nice. That's very nice though. That's a chant that nobody's ever heard politically. That's really nice, we love you and I love you too, I do.

Donald Trump: [\(50:07\)](#)

I had an easy life before I did this, but you know what? I would never change it because we have done more in the first three and a half years than any administration has ever done for our military, for so many different things. But I appreciate. But you know that's a chant, nobody's ever heard that chant. Even these characters back there, there're a lot of them back here. But that's a chant nobody's ever heard, we love you, we love you. I mean, two guys are back there, they look like they're from the UFC, UFC, and they're crying when they're saying it. They haven't cried in 20 years. They haven't cried since they were a baby and maybe didn't even cry then, but they were crying. I appreciate it. I appreciate it. I do appreciate it.

Donald Trump: [\(50:57\)](#)

If you want a vaccine to kill the virus, a job to support your great family, and freedom to live your life, you must vote Republican. You have to vote Republican.

Donald Trump: [\(51:12\)](#)

So we're joined today by some warriors and I really like them and they've been incredible. Congressman Dan Meuser, Dan, thank you, Dan. Great job. And Congressman Lloyd Smucker. My campaign state chairwoman, someone who's really good, well, let me ask her. How are we doing, Bernie? Where's Bernie? How are we doing? Our Bernie, great, Bernie Comfort, great job you're doing. I'd be... Let me just hold that. I'll let you know about great job within a couple of days. Hopefully, not much longer than that.

Donald Trump: [\(51:56\)](#)

And a man who... I know, I tell ya, he's just... He and I grew up, I like the Yankees, I like the Mets and this guy was some player. Mike Piazza. Mike. Mike, you look good, Mike. They could use you. This guy was great. His father was great. They were... Man, he could hit, he was a natural hitter, he was just a natural-born hitter, and a great catcher, by the way. We forgot that, right? We forgot that he was a great catcher and a great athlete, a great... Thank you, Mike, it's an honor. Thank you, man.

Donald Trump: [\(52:33\)](#)

We have a lot of great champions that are on this campaign. Tremendous champions. Brett Farve was there yesterday. I was in... Yeah. I was in a place called Green Bay, they like him in Green Bay. And we love Mike. Thank you, Mike, very much. What an honor.

Donald Trump: [\(52:51\)](#)

For decades our politicians spent trillions of dollars rebuilding foreign nations and now we're finally rebuilding our nation. I think it's... I think it's time. Biden is a hateful man. You can see it in the way he angrily shouts his speeches. Great agitation. He can never unite us because he's spent five decades in Washington

trying to divide us. For 47 years Joe Biden betrayed black Americans and viciously attacked their communities. In 1994 and that crime bill, that horrible crime bill, he devastated black families, and they know that. And one of the things we're seeing from other states is he's not doing very well with African American votes. They don't like him. I signed landmark criminal justice reform and I announced the platinum plan, which will create 3 million new jobs for black Americans. And deliver school choice for every family in our country. And then he went around in 1994-

Donald Trump: [\(54:02\)](#)

And then he went around in 1994 and around that time, and started calling young black people super predators. Right? Super predators. You can't do that, and they remember that, and that's why he's doing terribly with African Americans. He's doing very badly. He's trying to figure it out. I could say, "Joe, I can figure it out for you, Joe." I achieved the most secure border in history. Our opponents want open borders. Open borders. If you don't have borders, you don't have a country. By the way, the wall is almost complete. 400 plus miles, it will be complete very soon and it's made a difference. We have the most secure southern border we've ever had by far. To protect our security, I suspended the entry of foreign ... and you know what this is all about. You've been seeing what's going on in France lately. It's been terrible. I called up President Macron and I extended our sympathies and best wishes, but they had terrible terrorist attacks over the last few days, and more than one.

Donald Trump: [\(55:06\)](#)

I suspended the entry of foreign refugees from terror afflicted nations. If you don't mind, I don't think ... Biden has pledged a staggering 700% increase in the manifesto that he agreed to with ... I call it the manifesto because that's what it is, with crazy Bernie Sanders. He's a crazy guy. Mike, this guy is one of the greatest loses, Bernie Sanders. He loses with Hillary. He goes back to voting. He loses again. Elizabeth "Pocahontas" Warren, all she had to do ... no. All she had to do was get out two weeks earlier. He would have won ... Bernie would have won everything. Similar ideology, not a good one, but similar. But Bernie goes back and he's supporting now Joe. I don't know. He's a great sport. He's a great loser.

Donald Trump: [\(55:57\)](#)

Mike wouldn't be doing that. Mike would be ripping people apart, wouldn't you, Mike? 700% increase. Think of that. He wants a seven ... they've agreed to it. Not once. They've agreed to it with AOC plus 3. You know what that is? AOC plus 3. One of the three is in Ilhan Omar. That's we're going to win Minnesota.

Donald Trump: [\(56:20\)](#)

700% increase in refugees from those violent terrorists hotspots all over earth, including Syria, Somalia and Yemen. No, thank you. Do I have your approval, Pennsylvania? Do I have your approval? I think so. I think so.

Donald Trump: [\(56:38\)](#)

He vowed to terminate our travel bans on jihadist regions. In other words, "Come on in, everybody. Enjoy the United States. We love you very much." Biden will open the flood gates to radical Islamic terrorism and I am keeping the terrorists the hell out of our country, If you don't mind. If you don't mind. We invested \$2.5 trillion in the United States military, the biggest investment ever made. Our military was totally depleted when I took over, right? It was depleted. Our planes were old, our jet fighters. They used to go to the desert, the graveyards, airplane graveyards, to take parts out of old planes and bring them in. Now we have brand new F35 fighter jets and tankers and submarines and missiles and rockets, and our nuclear has been fixed to a level that you wouldn't believe, and we have the super-duper missiles that go very quickly.

Donald Trump: [\(57:43\)](#)

We were very, very ... hypersonic, they call them, right? Hypersonic. They go rather quickly, seven times the speed of our fastest missile right now. The best in the world. We saved the Philly shipyard and Biden shut it down. Biden shut it down. We also passed VA Choice and VA Accountability for our veterans and we just got a 91% approval rating and he's got a 91% approval rating as a great catcher. He might have higher than that. Hey, you might be 99%. We killed the leader of ISIS, Al-Baghdadi. We took out the mass murder of U.S. troops and many troops all over the world. Soleimani is dead. I withdrew from the last administration's disastrous Iran nuclear deal. "Here's a \$150 billion. Make a short term deal. It's almost expired." If I didn't terminate it, it would have been ... it's getting close to expiring. Short-term deal, basically. Countries, not like you're leasing a store. It's a country. Made a short term deal. \$150 billion and 1.8 billion in cash. You ever see 1.8 billion in cash?

Donald Trump: [\(58:59\)](#)

I recognized the capital of Israel and opened the American embassy in Jerusalem and presidents have wanted to do that for many, many, many decades and they never had the guts to do it. I also recognized Israeli sovereignty over the Golan Heights. They'd been working on that for 52 years. I did it in two hours. It took two hours. Instead of endless war, we are forging peace in the Middle East. You see what's happening? That coming in? No blood in the sand. Did it the opposite way. I said, "How have they done it?" And I said, "Good. Let's do it the opposite way."

Crowd: [\(59:36\)](#)

[inaudible 00:05:39].

Donald Trump: [\(59:36\)](#)

That's very nice. So I've been nominated for ... Now I hear it's four. Nominated. But think of it and not just the Middle East. So we had a case, we're making trade deals with Kosovo and Serbia. Kosovo, Serbia. They've been killing each other for decades. They fight. That's what they do. They kill each other, so many years. So we're doing one deal, another deal, and they come in and tell me they're doing a deal with Kosovo, deal with Serbia. I said, "Wait a minute. They've been killing each other for decades and decades. I don't want to do the deal. Tell them I'm not doing the deal unless they make peace. They have to come in and make economic peace. They have to make peace. They don't have to kill each other." I'm saving lives. You could say, "What does that have to do with us?"

Donald Trump: [\(01:00:32\)](#)

You know how long it took me? About three minutes. I said to my guys, I said, "Tell them I'm not ..." They want to make a deal. Everyone wants to do with us. Everyone now, especially, but everyone wants to do with us. So I went to them, I said, "No, tell them they got to stop killing each other. And good people. Good here, good there. Stop killing them." You know what? Within a short period of time, we made a deal, right? That way we were nominated for a Nobel peace prize. I said, "That one took me about 15 minutes." We made a deal and the leaders came into the Oval Office and they were hugging and kissing and they was so happy with each other. I said, "isn't that nice?" So smart. You say, "Hey, we're making deals. Let's tell them they got to get along." And it was great and a lot of people ... we saved a lot of lives and you know what? Cost us nothing. It didn't do anything. We're saving a lot of good people, lives.

Donald Trump: [\(01:01:24\)](#)

So we got that little ... but they won't give [inaudible 01:01:27]. They won't give it. They just probably talk. But I hear it's an extraordinarily left organization, but if they do ... Somebody said, "You definitely deserve them," and that's true. Obama got one. Remember? He had no idea why. He got elected president, immediately after his election, "We have nominated you for a peace prize," and it was a massive story. When I got nominated, I got nominated for peace in the Middle Eastern, right? I said to my wife, you heard this story. I said, "Darling, I'm going to come home a little early tonight. I'm going to watch the news. We have big news today. I'm going to get the greatest publicity you've ever seen, darling." She said, "What happened?" I said, "Well, it's peace in the Middle East. I got a Nobel peace prize nomination. This is going to be really something, darling." I turned on the fake news.

Donald Trump: [\(01:02:14\)](#)

They talked about a hurricane and they talked about a couple of fires where they should manage their forest much better and you wouldn't have to ... All you have to do manage your fires, you won't have any fires. Right? Then they talked about a couple of other things and they talked about this and that, and after about 15 minutes, the first 15 minutes, it was a half an hour show, free airways from the government, even though it's fake news. I don't know. We have to look at that. Right? But think of it. Look, the cameras are shaking now.

Donald Trump: [\(01:02:43\)](#)

So 15 minutes go by. No mention. Now when Obama got his for no reason, he still doesn't know why he got it. He's walking around, "Why did I get it?" No, it was the biggest story. I remember it now. He was nominated. The guy didn't even do it. He just got to the office. So 15 minutes go by, there's nothing. It's a little embarrassing. I have our great First Lady there. I'm trying to show off. Right? Right? You understand that, Mike. It's a little embarrassing. Now we go into the second 15. She said, "Darling, I don't think they're going to mention it," because they started talking about something for kids, something kids should do in the spring. I said, "I don't think they're going to mention it darling." Then the next day or the next week I got another one and another one but this time we didn't go back home to watch. Too busy. So it's one of those things, right? I've done more in 47 months, then sleepy Joe Biden has done in 47 years.

Donald Trump: [\(01:03:44\)](#)

A vote for Republicans is a vote for the American dream, and remember Abraham Lincoln, the great Abraham Lincoln, was a Republican. Please remember that. Abraham Lincoln, over the last ... long period of time, we've done a job. Over the next four years, we will make America into the manufacturing superpower of the world and we will end our reliance on China. It's already started. We will hire more police, increase penalties for assaults on law enforcement, and we will ban deadly sanctuary cities. Right? We will defend the right to life, free speech, religious liberty, and the right to keep and bear arms. We will defend your second amendment. We will maintain America's unrivaled military might, and we will ensure peace through strength. That's what we're doing. Bring them all in. We will end surprise medical billing, which is a disaster, require price transparency, already signed, and that's bigger than healthcare. You watch. Already signed. January 1st it goes into effect.

Donald Trump: [\(01:05:05\)](#)

Can you imagine this goes into effect, so hard to get, and we have Biden as a president? They'll say, "What a job he's done. What a job he's done." And they go to him, "Sir, you've done a great job on transparency." He says, "What is that?" I did it. I said to my people, "You have to start in January 1st?" But because of statutory provisions, et cetera, so it's January 1st. You remember what I said, price transparency, bigger than healthcare. Wait until you see what I'm talking about. Lower drug prices even more than we already have, but it's going to be favored nations. We have the highest prices in the world and we now will match the lowest prices of the world. The drug companies hate me. They don't like me. Big pharma is not a big fan of mine.

Donald Trump: [\(01:05:47\)](#)

They're spending more money on ads than sleepy Joe. They want me out. They want me out, but ... China wants me out, Iran wants me out, Germany wants me at. They all want me out, but here we are, right? Here we are. We will always protect patients with pre-existing conditions. Remember that. America will land the first woman on the moon and the United States will be the first nation to land an astronaut on Mars. That's where we're going. NASA, again, is the great space center of the world. It was closed and in disrepair when I took over. Now it's the hottest place there is to space, and we get all these rich guys, right? We're getting all these guys, very rich guys. They love sending rockets up. I say, "Go ahead. You can use our property, pay us something."

Donald Trump: [\(01:06:37\)](#)

So they give us a little rent and they pay and they spend a lot of money and those rockets are good. Elon, Bezos likes rockets. They all like rockets. I don't know what it is. I don't know. What about you? Would you like to send a rocket? You made a lot of money, I know. One or two rockets is all you can manage, right?

Donald Trump: [\(01:06:57\)](#)

We will stop the radical indoctrination of our students and restore patriotic education to our school. We will teach our children to love our country, honor our history and always respect our great American flag. We will live by the timeless words of our national motto, In God We Trust. For years, you had a president to apologize for America. Now you have a president who is standing up for America and standing up for the people of Pennsylvania. So get your friends, get your family, get your neighbors, get your boss. Come on, boss, and get out and vote. You got to get out and vote on Tuesday. Get out and vote. The red wave.

Donald Trump: [\(01:07:53\)](#)

On November 3rd we must finish the job and drain the swamp once and for all. It's a vicious swap. It's deeper and darker and worse, but we've done a hell of a job and we're still here and we're doing it and it's driving them crazy. For generations America's destiny was made, forged, and won in places like Bethlehem, Bristol, Allentown, Altoona, Scranton, and Redding, all names we all know for a long time. Our American ancestors gave their blood, sweat and tears to defend our country and to defend our freedom. We stand on the shoulders of American heroes who crossed the oceans, settled a continent, tamed the wilderness, laid down the railroads, raised up the great skyscrapers, won two world wars, defeated fascism and communism, and made America into the single greatest nation in the history of the world, And the best is yet to come. The best is yet to come.

Donald Trump: [\(01:08:58\)](#)

Proud citizens like you helped build this country and together we are taking back our country. We are returning power to you, the American people. With your help, your devotion and your drive, we are going to keep on working, we are going to keep on fighting and we are going to keep on winning, winning, winning.

Donald Trump: [\(01:09:28\)](#)

We one movement, one people, one family, and one glorious nation under God, and together with the incredible people of Pennsylvania, we have made America powerful again, our military. We have made America wealthy again. Look at what's going on. We have made America strong again. We have made America proud again. We have made America safe again and we will make America great again. Thank you, Pennsylvania. Go out and vote. Thank you very much.

Donald Trump: [\(01:13\)](#)

Wow, good crowd. This is a hell of a crowd. Thank you. Thank you. Wow.

Crowd: [\(02:40\)](#)

Four more years, four more years, four more years.

Donald Trump: [\(02:41\)](#)

Well, I just want to say hello, Pennsylvania, and hello, Montoursville. How are you? We love this state. I've done a little traveling in this state today you might have heard, but we save the best for last. Right? It's a great place. I went to school here, went to college here, and it's a great place.

Donald Trump: [\(03:09\)](#)

Three days from now, we are going to win the Commonwealth of Pennsylvania and we are going to win four more great years in the White House and, with your vote, we will continue to bring back your jobs, cut your taxes, cut regulations, support our great military, take care of our veterans and nobody's done it better than we have, work with our police, our police officers, and ensure that more products are proudly stamped with that beautiful phrase "Made in the USA". It's been a long time since you heard that kind of stuff.

Donald Trump: [\(03:54\)](#)

Next year will be the greatest economic year in the history of our country on the assumption you don't quadruple your taxes. Okay? It's the only guy I've ever seen, his old campaign theme, "We will raise your taxes." What the hell kind of a campaign? My whole life I've seen people campaign. I've never heard that one before, but it's a little bit of a different kind of a campaign, wouldn't you say?

Donald Trump: [\(04:22\)](#)

Sleepy Joe Biden will shut down your economy, ship your jobs to China, where he's very well taken care of. You never hear it from them. That's a lot of media. You'll never hear it from the fake media. Raise your taxes \$4 trillion dollars, destroy the suburbs and we're saving the suburbs. I hope the people of the suburbs know that. I hope the people in the suburbs know that. I ended a regulation. If they re-enact it, you won't have suburbs anymore and send your state into a deep and crippling depression. Biden has vowed to abolish American oil and natural gas. You saw that. No fracking, no mining, no coal, no nothing. And gas prices for your beautiful large vans and cars and trucks ... Some of you have trucks that you drive around in because you like that better. I think I'd be one of those. I think I'd be one of those people, but don't you like \$2 gasoline? Isn't that nice? Well, it'll go to \$6, \$7 and then you'll be telling your family, "Let's buy one of those little compacts that we used to buy." Right?

Donald Trump: [\(05:34\)](#)

Biden's plan is an economic death sentence for Pennsylvania. He'll outlaw fracking and what we're going to do, we're going to stop it. We're going to stop it. We have a little thing up there. Where is it? Right there. That cost a lot of money to get. We get that for special ... You're going to see a little bit about fracking. But all of that great stuff, your natural gas in Pennsylvania, and they'll obliterate and extinguish your economy as sure as you're standing and/or sitting. Do you have chairs? Yeah, you do but everybody's standing. That's very nice.

Donald Trump: [\(06:09\)](#)

Today I signed an order and this is semi-breaking news. I did say it at the last stop, but I won't tell you that. But today I signed an order just now on the plane to strongly protect your state's energy and fracking industry. I just signed it. I just signed it. We have an order so that people cannot play with your fracking industry. You know, you have a million people and you are a big contributor to the rest of the country. You're a tremendous contributor to the rest of the country. They can't play with it. Biden said for a year, "There'll be no fracking, no fracking." He must have said it a hundred times. Then he lucks out because Elizabeth Warren refused to get out of the race. So Bernie ... that's the second time. Is Bernie running again, fake news? Could you tell us is Bernie ... Bernie's going to run again in four years. He's going to get it. Actually, we thought it might be Bernie, right? More intelligence although, I don't know, with a policy like that, I don't call that great intelligence. Right, Congressman?

Donald Trump: [\(07:18\)](#)

If Biden and Harris get in, they will terminate this executive order and implement the green new deal conceived and dedicated by AOC who probably never took a course on the environment. Do you think she ever took one little course like 101, Environment 101? I doubt it. It'll change our whole country around. Well, it's not going to happen. It's so ridiculous, \$100 trillion dollars, I don't think so. A vote for Biden and Harris is a vote to ban fracking, ban mining and completely destroy Pennsylvania and it's true, by the way. It's not going to happen.

Donald Trump: [\(07:57\)](#)

First of all, we're going to win. You got to get out and vote. We're going to win. A vote for me is a vote to remain energy ... we're energy independent now. Think of it. Energy independent. Our economy is now growing at the fastest rate ever recorded, 33.1%, and the fake news doesn't want to talk about it. And a friend of mine, a great financier, called up and he said, "Hey, how you doing? This is the greatest number maybe ever put out economically, GDP 33.1. Nobody's ever heard of it and they hardly" ... He said, "I can't believe this isn't a much bigger story." I said, "That's the way it is. They don't want that kind of thing to get out." It's one of the greatest numbers ever revealed in the history of our country. The second number I think was 1952 and it was less than half the 33.1. So we have not a V anymore. We have a Super V and that's where we're going unless somebody comes along and says, "Let's quadruple your taxes. Let's put all those regulations back."

Donald Trump: [\(09:04\)](#)

In the past five months, we've created a record 11.4 million American jobs. That's another ... I mean think of it, it's never been done before and while foreign nations are in a free fall and you see that and we don't want that, but you see what's going on is COVID or the China virus or the China plague. There's about 21 different names. We're creating the world's greatest economic powerhouse and next year will be one of the greatest years, maybe the best year that we've ever had based on what's happening. A recent Gallup poll found, just out, that 56% of Americans say they are better off today than they were four years ago with Obama and Biden.

Donald Trump: [\(09:50\)](#)

And that's rounding the turn, but that's during a pandemic, 56%, that's a record number, 56. You're better off today than you were four years ago with Obama and I watched him today. They draw flies, both of them. I thought maybe they put them together. They drew a couple of horns, honk, honk, honk, and most of them are our people that are taunting. Did anybody see the picture of their crazy bus driving down the highway that's surrounded by like hundreds of cars? And they're all Trump flags all over the place. It's like a hot, it's like a hot thing. See, that's really number one trending. They won't put that. That's number one, trending. They come up with number one, trending. It's not a trend. It's whatever they want to do.

Donald Trump: [\(10:37\)](#)

You look at Big Tech. You look at what's been happening lately, right? You look at the media where they refuse to cover one of the biggest scandals, no, but the biggest scandal is we caught them spying on our campaign. Right? We caught them trying to overthrow a duly elected, commonly known as me, President of the United States. Let's see what happens. Let's see what happens. Very dishonest people.

Crowd: [\(11:03\)](#)

[inaudible 00:11:03].

Donald Trump: [\(11:11\)](#)

You're right. Well, that you're right. You know, there are a lot of people that call that treason. Okay. That's treason. Let's see what happens. If Biden gets in, the economy will collapse. Joe Biden is a diehard globalist who spent the last 47 years outsourcing your jobs, opening your borders and sacrificing American blood and treasure in endless foreign wars in countries that many of you have never even heard of. I didn't hear of too many of them either if you want to know the truth.

Donald Trump: [\(11:43\)](#)

Biden is a Washington vulture who decimated your steel mills, annihilated your coal jobs and supported every disastrous sellout trade deal for over a half a century. You know what's happened. You know what I had to do with the dumped steel all over the place. They're dumping steel. I put big tariffs on it. All of a sudden, the steel mills started doing good. It was a beautiful thing. And we took some of that money, \$28 billion dollars we took, and we gave it to our farmers because they were targeted by China and our farmers like me. Our farmers like me.

Donald Trump: [\(12:16\)](#)

In fact, they just came out with the Des Moines Register poll ... Did you see it? We're way ahead in Iowa. We're way ahead in Florida. We're way ahead in Ohio, way ahead in Ohio. We're doing great in Georgia. Texas, don't even talk, they say Texas is in play. I had the same thing four years ago. Here's a guy he's against oil, he's against guns and he's against God. I don't think that plays well in Texas. And you know where else it doesn't play too well? In a place called Pennsylvania.

Donald Trump: [\(12:55\)](#)

No, think of it. Okay, you have Texas, oil, guns, religion, God, religion. So he's against ... Think of it. And then they say, "It's too close to call." No, we're leading by a lot. Same thing happened last time four years ago, "It's too close to call." It's not too close to call. And then the polls close. Remember last time? The doors close, the polls close, and they say, "Texas, the doors have closed, the polls have closed in Texas. Donald Trump has won the state of Texas." By a lot. Oh, I had many of them. I had many of them. I mean I have them now but actually they're better now than they were four years ago.

Donald Trump: [\(13:36\)](#)

Four years ago, it was like hopeless except for one thing. Nobody believed it and they went out and they voted and all of a sudden they took this thing. Did you see ever see The New York Times? It had a little column, "The chance of winning," and I think it started at like 4%. And then as the evening went by and we won state after state. "Donald Trump has won the state of Florida. Donald Trump has won Georgia. Donald Trump has won South Carolina. Donald Trump has ..."

Donald Trump: [\(14:03\)](#)

Donald Trump has won South Carolina. Donald Trump has won North Carolina. Donald ... We're just running the East Coast, right? And it goes 3%, 6%, 9%. Right? And the chance is 15%, then it started getting into the 50s, then the 60s, and that's where they started to go totally crazy. Remember that convention? Remember the convention hall? And then you had a couple of non-biased news anchors that started to cry. Did anybody see the debate? No, nobody, right? That last debate we had, right? Did you all ... I felt like Perry Mason, because the last question, I said, "You mean you want to get rid of the oil and gas industry?" "No, we would like to transition out of it." I said, "This is the biggest moment." It was like ... You know Perry Mason? It was always that last question, right? No, no, I didn't do it. I didn't. Yes, I did it. I did it.

Donald Trump: [\(14:59\)](#)

That was Sleepy Joe. I said, "This is the biggest moment." And even the anchor, Kristen, she looks up at him, she goes, "Why did you say that?" Obviously being on his side, she can't believe that he said it, but that's because he's not too smart. Biden was a cheerleader for NAFTA and China's entry into the World Trade Organization, which is one of the worst things that ever happened. To us. Not to China. Eliminating half of your manufacturing jobs, many of them came from right here. At every turn, Biden twisted his knife into the backs of Pennsylvania workers. And during that debate, he'd say, "Well, why didn't you do this?" I said, "Why didn't you do it? You just left." "Why didn't you do that?" "Why didn't you do it, Joe?" That was like the easiest debate I've ever had.

Donald Trump: [\(15:45\)](#)

While Biden was giving China your jobs, his family was raking in millions and millions of dollars from the Chinese Communist Party. Joe Biden is a corrupt politician, okay? When his son considered a board of Burisma and get \$183,000 a month ... Now, think of it, right? Think of this. If Biden wins, China wins. When we win, America wins. That's what we're here for. And you don't have to take my word for it because I like this group, and I love this state. I spent a lot of money on that crazy board up there. Why don't you watch this?

Audience: [\(16:25\)](#)

We love you. We love you.

Video: [\(16:29\)](#)

... Joe Biden to respond. I have never said I opposed fracking.

Video: [\(16:32\)](#)

You said it on tape.

Video: [\(16:34\)](#)

I did ... Show the tape, put it on your website.

Video: [\(16:36\)](#)

I'll put it on.

Video: [\(16:37\)](#)

Put it on the website.

Video: [\(16:39\)](#)

Would there be any place for fossil fuels, including coal and fracking in a Biden administration?

Video: [\(16:46\)](#)

No, we would work it out. We would make sure it's eliminated. I guarantee we're going to end fossil fuel. No more, no new fracking. I'd gradually move away from fracking.

Video: [\(16:59\)](#)

And I think it's critically important on day one that we end any fossil fuel leases on public lands.

Video: [\(17:07\)](#)

But what about, say, stopping fracking and stopping new pipeline infrastructure and-

Video: [\(17:11\)](#)

Yeah, yeah, new pipeline, exactly.

Video: [\(17:13\)](#)

There's no question I'm in favor of banning fracking.

Video: [\(17:16\)](#)

I have one final question. It falls-

Video: [\(17:19\)](#)

Would he close down the oil industry?

Video: [\(17:20\)](#)

It falls-

Video: [\(17:20\)](#)

Would you close down the oil industry?

Video: [\(17:20\)](#)

I would transition from the oil industry, yes.

Video: [\(17:23\)](#)

Oh, that's a big statement.

Video: [\(17:24\)](#)

I would transition. That is a big statement.

Video: [\(17:25\)](#)

In terms of business, that's the biggest statement-

Video: [\(17:27\)](#)

Okay, we have one final question, Mr. President.

Video: [\(17:28\)](#)

... because basically what he's saying is he is going to destroy the oil industry. Will you remember that, Texas? Will you remember that, Pennsylvania?

Video: [\(17:41\)](#)

We have to come together. That's why I'm running. I'm running as a proud Democrat for the Senate. So vote. Vote. Visit iwill.com/ohio. God bless you.

Video: [\(17:53\)](#)

Can somebody tell Joe, by the way, it's not a real website. And Joe, you're running for president, not senator. And by the way, that senator, the Mormon guy, is Mitt Romney, not some Mormon governor. Now, sadly, what we showed you, that's just from a couple of hours today because every time that Joe actually leaves the basement bunker and stays out past 10:00 AM, well, disaster ensues. Here's a quick reminder.

Video: [\(18:23\)](#)

Look, tomorrow's Super... Tuesday. And I want to thank you all. I tell you what, I'm rushing ahead, aren't I? We hold these truths to be self-evident, all men and women created by... Go, you know the thing. Do you agree with me? Go to Joe 30330. We choose truth over facts. Play the radio, make sure the television... Excuse me. Make sure you have the record player on at night. The phone, make sure the kids hear words. Poor kids who are just as bright and just as talented as white kids. Donald Trump does pose an [inaudible 00:19:00] to this. It's not hypothetical.

Video: [\(19:04\)](#)

This is pretty serious. By the way, these are way beyond an occasional campaign gaff. And I am beginning... Well, I'm more than a little worried that this man could represent a clear and present danger to this country. He's obviously not capable of leading. He's been hiding the entire campaign, and the corrupt media mob is covering for him. Joe wants to be the President of the United States of America. That would be the toughest job in the world. And at times, Joe doesn't seem to remember that he's even running for president, or what state he's in, or what day of the week it is. Does anyone really believe that if elected, that Joe Biden will actually be in control of anything?

Video: [\(19:49\)](#)

... what kind of country we're going to be. Four more years of George... George, he's going to find ourselves in a position where if Trump gets elected, we're going to be in a different world. I'll lead an effective strategy to mobilize [inaudible 00:20:05] pressure.

Video: [\(20:07\)](#)

Trick or treat.

Video: [\(20:08\)](#)

Ooh, who do we have here?

Video: [\(20:16\)](#)

Spooky, spooky, spooky. Creepy. It's creepy Uncle Joe.

Video: [\(20:22\)](#)

Oh, it's funny. It's Joe.

Video: [\(20:26\)](#)

Come on, man. Candy's for the kids.

Video: [\(20:28\)](#)

Well, maybe he forgot. Wait a minute. You look familiar. Who are you?

Video: [\(20:49\)](#)

Are we going to let him get away with this?

Video: [\(20:51\)](#)

She took everything.

Donald Trump: [\(20:51\)](#)

Be careful. Ah, Joe, this could only happen to me. This could only happen...

Audience: [\(21:14\)](#)

Four more years. Four more years. Four more years. Four more years. Four more years. Four more years.

Donald Trump: [\(21:14\)](#)

Thank you. Thank you. In 2016, Pennsylvania voted to fire this corrupt political establishment, and you elected an outsider's president who is finally putting America first. That's okay, right? And if I don't sound like a typical Washington politician, it's because I'm not a politician. I guess that's why I got elected. If I don't always play by the rules of Washington and the Washington establishment, it's because I was elected to fight for you, and I fight harder for you than any president has ever fought. I believe that. One of the most important issues in this election is law and order. And you know about it well, you see what's going on in your large city. It's not good. Now you have great police, but they're not allowed to do their job.

Donald Trump: [\(22:11\)](#)

This week, violent mobs of Biden supporters ransacked Philadelphia. Now, four members of the city council are pushing very hard to defund the Philadelphia police. They're defunding the police. And they're pushing very hard, and it could happen. It could happen. We're watching. I don't think we'll let it happen. At some point, we can't let it happen. If Biden and Harris are elected, they will pass legislation to slash police funding. They're already trying to do it all over the country. Well, except in Republican cities and states, which are running beautifully without crime. Our opponents stand with the... Take a look at it. The rioters and the anarchists and the looters. We stand, we, we stand with the heroes of law enforcement.

Donald Trump: [\(23:05\)](#)

We've been endorsed by almost every major law enforcement group in the country, Florida, Texas, New York's finest endorse us. First time they've ever endorsed a presidential candidate. The Chicago police, that's not easy to do, they endorsed. We have endorsements from everybody. During the debate, I said, "Joe, what law group, any police group, anybody looking for law and order, did anybody endorse you?" He couldn't answer the question. Then he was bailed out by the anchor, right? He was bailed out. I said, "Joe, say the words, 'law and order.'" He wouldn't do it. He didn't want to lose the radical left. I'm not just running against Joe Biden. I'm running against the left-wing media, the big tech giants, the RINOs, you know what a RINO is, right? Republican-in-name-only. We got a couple of them. There aren't too many of them left. They're on respirators, actually. And the Washington swamp, which is much deeper and much more vicious than we ever thought even possible. On Tuesday, November 3rd, and maybe you do it sooner, but I think this group wants November 3rd, it's called Election Day...

Donald Trump: [\(24:16\)](#)

Of course, now that our United States Supreme Court has delayed everything, it's going to be a very interesting evening. And I wonder what happens during that period of delay with the ballots. I wonder what happens. Are they going to mysteriously find more ballots, Mr. Congressmen? Are they going to find more ballots? Can you imagine what happened? Can you imagine? Just be very careful, be vigilant and watch, and report whatever you see. Because this state, we love it. Went to school here, right? Went to college. We love it. But strange things have been known to happen, especially in Philadelphia. So send them a message that they'll never forget. This election is a choice between a Biden depression and a Trump super boom. We're going to have a boom. We're going to have the greatest economy ever. It's a choice between a deadly Biden lockdown. You know he wants to lock it down. And by the way, tell your governor to open up your state, please.

Donald Trump: [\(25:23\)](#)

Can you believe it? Can you believe it? And open up your schools and get it going. It's terrible. This one, Michigan. How about her? The only one that's allowed to roam free in Michigan is her husband. He can do whatever the hell he wants. Nobody else can. In North Carolina, same thing. They got a great state, great people. They have it locked down. It's just crazy. By the way, on November 4th, he'll announce, "Ladies and gentlemen, we've decided to open up." See, he thinks he's hurting us politically. And then we have a number like 33.1. It might've been 34.1, okay? I don't think that would've made too much of a difference, but he's hurting a lot of people. It's a choice between a deadly lockdown and a safe vaccine that ends the pandemic with or without the vaccine. And we're going to have the vaccine. We have the greatest companies in the world, Pfizer, Johnson & Johnson, Moderna and others.

Donald Trump: [\(26:18\)](#)

And we're weeks away from a vaccine. And we're going to give the vaccine. We're going to have it transported by our military all over, logistics all over the country. And it's going to be great. And it's going to be given to our seniors first. I think they have to get it first. And our frontline workers. Free. Free. You know why it's free? Because it wasn't their fault. It was China's fault. And it will quickly eradicate the China virus. But with or without it, it's going to go away, and we are rounding... It drives them crazy, the fake news media, it's going away. And if you look at Europe, you look what's happening over in Europe, they'd always use that as, "Look at Europe." Well, take a look at Europe, they have a problem, a big problem, and we don't want that to happen.

Donald Trump: [\(27:06\)](#)

Thanks to our groundbreaking therapies, our excess mortality rate is 40% lower than Europe's. And right now, cases are surging in Europe, despite draconian lockdowns, they'd been locking down, and it didn't help them much, that are spreading misery and suffering and destroying those nations. For months, democrats celebrated as left-wing rioters took to the streets by the thousands. You're allowed to riot. They don't ask about masks. You're allowed to riot. You're allowed to go through, loot and burn stores, burn down your main streets, burn down the greatest, beautiful, the most beautiful shopping streets. You can do whatever. They could walk out with televisions. Did you see the guy walking out with dishwashers? He's pushing it along the pavement. And the police had told, "Don't do anything. Stand back, stand back. No, we can't do it." Our opponents do not believe-

Donald Trump: [\(28:02\)](#)

No, we can't do it. Our opponents do not believe in science. They want unlimited power over you and your family. They got to open it up. The so-called experts advising Joe Biden have called for slowing down the vaccine. Can you believe this?

Donald Trump: [\(28:15\)](#)

Now, if it weren't, in my opinion, so political, they just didn't want to have it come out before the election. But everybody knows it's right there, and we're ready to go, but it became a big political thing. And they were actually trying to discourage people from taking it. That's so bad and so stupid and so dangerous. And these are great companies.

Donald Trump: [\(28:37\)](#)

These are the greatest companies in the world. They're not listening to anybody, but there are people. And we do. We have a great... well, soon, very soon be distributed, this great vaccine, but they're willing to hurt our country in order to try and make sure that it doesn't. Because we're not looking for credit. We're looking to save lives. We're looking to help our country, help your state, help our country. That's what we're looking to do. Denying priority to elderly patients.

They want to deny the priority, imposing crippling lockdowns that will cause quote “Really serious pain. They’ve said that. One of the politicians said it, “Really serious pain.”

Donald Trump: [\(29:21\)](#)

The Biden lockdown will imprison you and your home while looters roam free. But you’ve already gone through that, in all fairness. You’re going through it right now. They just don’t open up the state. Congressmen, you got to get going on this. I’ll tell you, you got to get going on this. We have great congressmen here. We got to get going on this.

Donald Trump: [\(29:38\)](#)

Under Biden, there will be no school, no graduations, no weddings, no Thanksgivings, no Easters, no Christmases and no 4th of July. Other than that, you’ve got to have a wonderful life. No, think of this guy, ruined American youth.

Donald Trump: [\(29:55\)](#)

It’s been shown that telehealth has been amazing, with the computers, with the laptops. It’s been great. It’s up like 8000%. The truth is, it’s great. But you know, children, this has been proven now, because we’ve had the ultimate test, children have to go to school. They have to be with other kids. They have to be with classmates, and they don’t catch it. Barron Trump, my very tall son, he’s strong, and he’s young. And the doctor said, “Yes, sir. He tested positive.” I said, “Doctor, tested positive for what?” He said, “For COVID.” He used the COVID word, right? Could he used 21 other words, but he used COVID.

Donald Trump: [\(30:35\)](#)

And I said, “Oh, that’s terrible.” Doctor said, “Don’t worry about it. He’ll be all right.” 12 minutes later, the doctor called, “Barron’s okay now, sir.” He threw it off. Because they’re young. They have great immune systems, stronger than you, or you, or you. That guy, definitely stronger than him.

Donald Trump: [\(30:53\)](#)

And they got to go back to school. Okay? They got to go back to school. Open up. Open up Pennsylvania. Governor. If you want a vaccine to kill the virus, a job to support your family and freedom to live your life the way you want to live your life, vote for a person named President Donald J. Trump. Have you ever heard of him? Of the Republican party.

Donald Trump: [\(31:23\)](#)

So joining us today are some really great, I mean, really great, warriors, and they are Congressman Fred Keller. Fred, thank you. Thank you very much. Central casting. Doing a great job. Thank you. And Congressman Dan Meuser. Dan, thank you very much. Thank you. Great people, great people. They worked with us on the impeachment hoax.

Donald Trump: [\(31:47\)](#)

Now it turned out that it was really a hoax, because they found out that I was right when I spoke to the president, right? I told him, I said, “If you see anything wrong, please call the Attorney General of the United States.” And they had plenty wrong. You look at Biden. He got caught. They call that the laptop from hell. Where’s Hunter? Where is Hunter? Remember the tee-shirt we made, “Where’s Hunter?” Ah, boy, Hunter.

Donald Trump: [\(32:16\)](#)

We also have a fantastic person who is running for a congressional seat and who’s doing very well, I understand, Jim Bognet. Where is Jim? Jim, I hear it’s going well, going good. Get out and vote for this guy. He’s a star. He’s going to be great. And a former Congressman who’s been a right early supporter, a great one, Tom Marino. Thank you, Tom. When are you getting back? Come on back. Okay? Great one, and we have another great one. Nobody ever heard of him. Lou Barletta. These are great people. They’re incredible people. Thank you both. That’s great that you’re here.

Donald Trump: [\(33:02\)](#)

And state treasurer candidate, Stacy Garrity. Stacy. Thank you, Stacy. I hear you’re doing well, Stacy. I think the Republican party is doing very well. I can tell you one thing. They are really worried, because Florida, boom, through the roof. Ohio, through the roof, Georgia is looking phenomenal, Texas, I told you, forget it. It’s great. Texas is so good. Iowa’s looking great. They’re all looking good. North Carolina.

Donald Trump: [\(33:35\)](#)

You know what’s looking really good? Pennsylvania. But get out and vote. Maybe I should say it’s going to be ... No, let me take that back. It’s not looking good. It’s very close. It looks like we’re one or two points behind. It’s always good. It’s always good to think you’re about a point or two behind, right? These professionals tell us. Right?

Donald Trump: [\(33:56\)](#)

I don’t want to tell you we’re doing good. Let’s just say it’s very close. Get out and vote on Tuesday. Just get out and vote. But it’s true. You never know. We are looking good, and I don’t want you to think that. I want you to think it’s going to be close. We’re looking so good. Darling, we don’t have to vote today. It’s looking great. Oh, that’s great.

Donald Trump: [\(34:14\)](#)

Joe Biden has been a disaster for African Americans and Hispanic Americans. I’m fighting for citizens of every race, color and creed. We achieved record low African American, Hispanic, American, and Asian American unemployment rates, record low unemployment rates for anybody with a diploma, without a diploma. Number one [inaudible 00:34:36] class at MIT, women, everything.

Donald Trump: [\(34:40\)](#)

We have historic rates, and then we had to close it up and understand the disease. And what they’ve done is incredible, the ventilators, all of the things that we did. And then we’re opening it up now, and it’s going to be a super-V. They were saying, “Oh, it won’t be a V.” Well, now 33.1. It’s called a super-V. We’re going to have the best economic year in the history of our country next year, unless you elect somebody that wants to do a quadrupling of your taxes. I don’t know. I don’t think that’s going to happen.

Donald Trump: [\(35:12\)](#)

So I signed landmark criminal justice reform, and I announced a platinum plan, which will create three million new jobs for African Americans and also deliver school choice to any parent that wants it, which is so important. They’ve been looking to do that for a long time. To protect our security, I suspended the entry of foreign refugees from terror-afflicted nations, if it’s okay with you. I mean, you don’t mind. We don’t want people from terror-inflicted.

Donald Trump: [\(35:49\)](#)

Think of this. Biden, in the manifesto, that’s the agreement that he made with crazy Bernie Sanders. Although I shouldn’t say that, because we get a lot of the Sanders people. People don’t realize, four years ago, we got a big percentage of Bernie Sanders, because they agree with me on trade. They know everyone takes advantage of the United States on trade. And we are doing great on trade right now.

Donald Trump: [\(36:11\)](#)

Biden wants a 700% increase in refugees from the most violent terrorist hotspots on earth, including Syria, Somalia and Yemen. No thanks, Joe. Thank you very much. We appreciate it, Joe. No thank you. The people of Pennsylvania aren’t thrilled with that. Who the hell is going to vote for this guy?

Donald Trump: [\(36:32\)](#)

They keep saying it’s close. I don’t think it’s close, but get out and vote. It’s close. It’s extremely close. It’ll be extremely close. “Trump wins by 44 points.” No, no it’s close. No, but think of it. He wants to raise your taxes. He wants to let people in from places that you don’t want them. We want to have safety and security. And that’s why when you talk about suburbia. They were saying, women of suburbia ...

Audience: (37:00)

We love you.

Donald Trump: (37:02)

Good. Thank you, darling. Because they want safety, they want security, and they wanted the regulation terminated. You know what? I don't want to go into it. The regulation is a disaster for suburbia. And you know who's going to head up the regulation project is Cory Booker of all people, Cory [inaudible 00:09:20].

Donald Trump: (37:24)

You too can have a development right alongside of your wonderful house. No, it's no good, no good, going to bring a lot of problems. It's already done. I mean, you take a look at throughout the country where it's been done, and I terminated it. They wanted to amend it. Ben Carson's a wonderful guy. Ben came in. He says, "Well, we can ..." He's a wonderful guy. He is. And he ran a good race too. He's a great guy. He's a nice guy. And he's a great guy, and he's done a terrific job, but he came and he said, "We can amend it a little bit and make it tougher." I said, "No, Ben, we got to terminate it."

Donald Trump: (37:57)

And then I hear the women of suburbia don't like me. I think they love me. I think they do. And when I said that the other day, I said, "Women of suburbia, I hope you love me." 60 minutes, she said, "You were begging for the love of women." I said, "No, I wasn't. I was having fun." "But you were begging here." It's true. I say women of suburbia, you must love me after what I did. I cut the regulation. You don't know what the regulation was.

Audience: (38:28)

We love you. We love you. We love you. We love you. We love you.

Donald Trump: (38:34)

I love you too. I love you too. Just get out and vote properly. Just do what's right. You do what's right, we're going to have a big victory. The Biden plan ... I mean, this guy had so many years to do all this stuff. All he does is complain, "You didn't do this." "Oh, really? Why didn't you do it. You just left three-and-a-half years ago."

Donald Trump: (38:50)

The Biden plan will open the floodgates to radical Islamic terrorism. You know that. Just take a look. I called president Macron of France. It's terrible what's been happening over there the last week. You've seen what's been happening. And if you don't mind, I'd rather not have it happen over here. Is that okay? Do I have everybody's approval on that? Huh? Even these two veterans are saying, "We agree with that."

Donald Trump: (39:16)

And I'm keeping the terrorists out of our country. And when they come back in, we're getting them the hell out of our country. Okay? We invested 2.5 trillion, with a T, trillion dollars in the US military when I took over four years ago. Can you believe it?

Donald Trump: (39:34)

Almost four years ago, our military was depleted from all of these Wars and all of this stuff and places so far away and lands that's so far away, and we were depleted. And a very highly overrated general, you've heard me say this, extraordinarily overrated, he came into my office, and he said right at the beginning, "Sir, we have no ammunition."

Donald Trump: (39:56)

I said, "No president should ever have that said to him again." And we built a brand new military, with new planes and new rockets. Hypersonic. That's seven times faster than our very fast one. So fast, you can't see it, can't do anything with it. If it's aimed in the wrong direction, you got problems, I'll tell you. And submarines.

Donald Trump: (40:22)

All of the things we're doing, we've never had anything like it. We are the envy of the world, Russia, China, North Korea. We're the envy of the world. We have the greatest equipment in the world. We used to have planes, fighter jets. They'd go to the desert, where they have what they call the graveyard, the plane graveyard. And they'd take parts of old planes, and bring them in. Now we have brand new F-35 stealth, super-stealth, many others.

Donald Trump: (40:49)

It's amazing. We've rebuilt our military. It's never been so good. Never been. We've never had equipment like this, the best equipment anywhere in the world by far. And we saved a place called the Philadelphia shipyard. I don't think you've ever heard of that. And Biden, if he comes in, will shut it down. He's going to shut it down. He'll shut down a lot of this stuff. We also passed VA choice and VA accountability. That's pretty great. Right? They've been trying to get that done for 40 some odd years.

Donald Trump: (41:18)

Last night, at my direction, the United States military conducted a successful operation to rescue an American hostage who was kidnapped just a short while ago. US special forces brilliantly executed a daring nighttime movement. It was incredible. I've seen it. It was incredible. And we had no casualties, no injuries.

Audience: (41:48)

USA, USA, USA, USA, USA, USA, USA.

Donald Trump: (41:48)

That's great. No, we had no casualties, no injuries, no nothing incredible. These are incredible ...

Donald Trump: (42:03)

... no injuries, no nothing. Incredible. These are incredible people. These are incredible people and they love our country, but they went in and the other side did have a lot of casualties. We got our citizen, our American citizen, out on our way here and it was an incredible operation. People said, "Oh, that can't be done." These guys looked at me like, "Sir, this is easy." It's a different kind of person, right? Different kind of person. We owe a lot to Special Forces. Over the last four years, we've rescued a record 55 hostages and detainees in more than 24 countries, and we don't pay. We don't pay. Once you pay, it'll go up a hundred fold. You can't pay. You have to go get them. Yesterday's operation should serve as a stark warning to terrorists and thugs who try and kidnap our people, kidnap our citizens. You cannot escape the long reach of American justice, and that's what happened.

Donald Trump: (43:05)

We killed the leader of ISIS, Al-Baghdadi. They'd been looking for him for 18 years. We took out the mass murder of U.S. troops and many other troops and a lot of people. Soleimani is dead. Number one terrorist. I withdrew from the last administration's disastrous Iran nuclear deal, \$150 billion. We got nothing, we got nothing. I recognize the capital of Israel and opened the American embassy in Jerusalem. I also recognized Israeli sovereignty over the Golan Heights. 52 years, they'd been negotiating that. I did it in two hours and it was a good thing. Every president wanted to do this stuff, every president. Jerusalem, they all wanted to do it. They all said they were going to do it. They got into office. They never had the guts to pull the trigger and do it.

Donald Trump: (44:03)

I got the building bill too, by the way. You know that story. We've got to build for a tiny fraction of what people thought it would cost. Tiny fraction, but it's too long of a story and it's too cold to be talking about the building. The heck with it, right? Instead of endless wars, we are forging peace in the Middle East. We have already three countries and many more lined up. No more blood in the sand, no more crazy money spent all over the place. No, we did it the opposite way that John Kerry and these people that were not smart. In fact, they were grossly incompetent. You know how I started? I said, "How did Kerry do it?" "This

way.” “Okay, whatever he did, do the opposite.” And it worked. We have a lot of them all lined up here to have peace. We could have peace in the Middle East for nothing and no blood. I talked no blood in the sand, there’s blood all over that sand. There’s no blood in the sand.

Donald Trump: [\(44:55\)](#)

I’m proud to be the first president in decades who has started no new wars. No new wars. But if we ever do start a war, we’ll finish it and we’ll finish it victoriously. We won’t be playing games. A vote for me and the Republican party is a vote to save our beautiful American dream. It’s an American dream and we’ve lost sight of that over a long period of years, if you think. Remember I came out and campaigned? I was up here, I said, “You will say Merry Christmas again.” Right? The department stores. They were saying, “Happy new year, everybody.” The snow and the red and the white, everything perfect. But they didn’t want to say Merry Christmas. I said, “You’re going to say Merry Christmas,” and now they’re all saying Merry Christmas again. We remember the party of the late great Abraham Lincoln, right? The late great Abraham Lincoln.

Donald Trump: [\(45:53\)](#)

Over the next four years, in conclusion, we will make America into the manufacturing superpower of the world and we will end our reliance on China once and for all. We will hire more police, increase penalties for assaults on law enforcement and we will ban deadly sanctuary cities. We will defend the right to life, religious liberty, free speech and the right to keep and bear arms, our second amendment. We will maintain America’s unrivaled military might, and we will ensure peace through strength.

Donald Trump: [\(46:35\)](#)

We will end surprise medical billing, require price transparency, already signed, January 1st goes into effect. Bigger than healthcare, you watch. Lower drug prices, even more, favored nations clause. We paid for years and years. The most expensive by far in the world. Now we’re going to pay the same as the lowest and the drug companies do not like me too much, I will tell you. They’re not a big fan of your president. They can’t even believe I did it. Favored nations. We pay the lowest price in the world, protect social security and Medicare and we will always protect patients with pre-existing conditions. Always. Always. It’s protected.

Donald Trump: [\(47:19\)](#)

America will land the first woman on the moon and the United States will be the first nation to land an astronaut on Mars and NASA is now again the talk of the world. Space center, the talk to the world. It was boarded up, shut up, the runways were ... they had grass growing through the cracks. It’s an amazing place. We let very rich people ... They like sending up rockets. I said, “Let them set up all the rockets they want. Let them pay for it. We’ll lease them their sights and let them go out and have a lot of fun.” They’ll become a little less wealthy and that’s okay. They don’t mind, but they love sending up rockets and we’re doing things that nobody can even believe, and with Space Force, it’s so necessary so we’re very proud of it.

Donald Trump: [\(48:10\)](#)

Mike Pence has done a fantastic job on it. Really done a fantastic job. We will stop the radical indoctrination of our students and restore patriotic education to our school. We will teach our children to love our country, honor our history and always respect our great American flag. We will live by the timeless words of our national motto, In God We Trust.

Donald Trump: [\(48:46\)](#)

For years, you had a president who apologized for America. Now you have a president who is standing up for America and standing up for the great people of Pennsylvania, who I know very well. If we win in Pennsylvania, it’s over. You know that, right? Bet I’m freezing up here, I’m freezing. You better get out and vote. “Sir, you lost by just a few votes in Pennsylvania.” I say, “What the hell did I make that trip for?” They said, “We could cancel if you’d like. It’s been a long day.” I started this day very early. I said, “No, I don’t have the courage to tell these people ...” Not only did we not, we’re giving you the full treatment. We’re giving you the full treatment. I could have done one of those, “Hey folks, how you doing? Everybody good? Good. I’ll see you later.” Nah, we don’t do that. But you get out there and vote because your country’s at stake. You have the power with your vote to save the American dream for your children, for your grandchildren. But you have to get out and vote. On November 3rd, we must finish the job and drain the swamp.

Donald Trump: [\(50:06\)](#)

We’ve done a lot of work on it, but it’s deeper and more vicious than anybody thought. It’s more vicious. Look at what’s happening with these big tech companies. Nobody told me this stuff, but you know what? They can’t believe what we’ve done. We have come through situations. It’s amazing. Look at them. They’re sitting in there. They can’t believe ... One of the reasons I also came as I wanted them to stand there all night in this freezing wind.

Donald Trump: [\(50:38\)](#)

But it is an honor. I’ll tell you what. I know this part of the state and I know it and you have just incredible people. There’s no way I would have had the courage to say, “Let’s not do that. We’ll do it some other time.” There’s no way we do that stuff. We don’t do that stuff. We don’t do that stuff, especially to you. For generations America’s destiny was made, forged, and won in places like Johnstown and Pittsburgh, Erie and Altoona, Bethlehem and Montoursville. That’s a nice name.

Donald Trump: [\(51:11\)](#)

Our American ancestors gave their blood, sweat, and tears to defend our country and our freedom. We stand on the shoulders of American heroes who crossed the oceans, settled a continent, tamed the wilderness, laid down the railroads, raised up those great, beautiful skyscrapers, won two world wars, defeated fascism and communism, and made America into the single greatest nation in the history of the world, and the best is yet to come. Best is yet to come. I mean that too. The potential we have, unless we blow it by putting people that have no clue in charge. He has no clue. He’s shot. He’s shot. Let’s face it. Proud citizens like you helped build this country and together we are taking back our country. We are returning power to you, the American people. That’s what’s happening. With your help, your devotion and your drive, we are going to keep on working. We’re going to keep on fighting and we are going to keep on winning, winning, winning.

Donald Trump: [\(52:27\)](#)

We are one movement, one people, one family, and one glorious nation under God, and together with the incredible people of Pennsylvania, we have made America powerful again. Our military, military. We have made America wealthy again. Look at what’s happening with your 401ks. In the midst of a problem, look at those 401ks. Somebody else you would have had nothing. You would have had a piece of paper. You would have been throwing it away and it’s going up a lot. Our headwind is Joe Biden. That’s the only headwind we have to get it up. He’s a headwind, believe it or not. We have a great new name, Joe Headwind. He’s a headwind on the stock market because if he gets in the market will crash. That’s not what the market wants to hear. We’re going to quadruple taxes. We’re going to drive out every company that’s come back into this land. No, he’s a headwind. He really is.

Donald Trump: [\(53:27\)](#)

We have made America strong again. We have made America proud again. We have made America safe again and we will make America great again. Thank you very much, Pennsylvania. Get out and vote. Thank you very much. Thank you.

Donald Trump: [\(03:32\)](#)

Thank you very much. Thank you very much. Hello, Pennsylvania. Let's go, Pennsylvania. We've got to do the same thing we did four years ago, and I have a feeling... Look at this, I have a feeling we're going to do it. And hello, Butler. Butler, right? Three days from now, we are going to win the Commonwealth of Pennsylvania, and we are going to win four more years in our great and beautiful White House. With your support, we will continue to bring back your jobs, cut your taxes, cut regulations, and ensure more products are stamped, very proudly, with that wonderful term, Made in the USA. Nobody else talks about that. Next year will be the greatest economic year in the history of our country. You saw what happened the other day? They don't like to report it. GDP 33.1, biggest in history. Biggest in history by far. Some people say it's one of the biggest moments for our country economically. They don't like to report it. There's a lot of fake news out there. A lot of fake news.

Audience: [\(05:01\)](#)

We love Trump. We love Trump. We love Trump.

Donald Trump: [\(05:07\)](#)

Thank you.

Audience: [\(05:07\)](#)

We love Trump. We love Trump. We love Trump.

Donald Trump: [\(05:07\)](#)

Thank you.

Audience: [\(05:07\)](#)

We love Trump. We love Trump. We love Trump. We love Trump. We love Trump.

Donald Trump: [\(05:15\)](#)

Joe Biden will shut down your economy, ship your jobs to China, where they pay him a lot of money, raise your taxes \$4 trillion, and send your state into a deep and catastrophic depression. That's what's going to happen. He's going to raise your taxes. He's the only man I've ever seen, he campaigns, "We will raise your taxes." All my life I've seen guys... You study politics, and you say, "I've never seen anyone say, 'We're going to raise your taxes.'" That's his primary theme, "We're going to raise your taxes," and "We'll end fracking," that was the other thing. Remember?

Donald Trump: [\(05:50\)](#)

He'd said it for a year, and then he came to Pennsylvania. They said, "We have a million jobs." "Oh, okay, well, we'll leave fracking." But the people won't let him. His bosses won't let him. Biden has vowed to abolish the entire US oil industry. No fracking, no mining, no natural gas, no heating in the winter, no air conditioning in the summer, no electricity during peak hours. And gas prices, you like that \$2 gas, right? How about \$5, \$6 and \$7? "Darling, let's sell the car. It's a little bit too large. Let's get a compact." Biden's plan is an economic death sentence for Pennsylvania. He will outlaw fracking and eradicate your great economy. You had the greatest year you've ever had last year. And now next year, you're going to have the best. If this happens with the taxes and with the fracking, you're going to have a real problem in Pennsylvania.

Donald Trump: [\(06:46\)](#)

Kamala, Kamala Harris. You have to pronounce her name exactly right, or she gets very upset with you. Although our great vice president beat her very badly in that debate, wouldn't you say? Very badly. By far the most liberal senator in the US Senate. In fact, Bernie Sanders is like a conservative by comparison. She even sponsored the Green New Deal. That's another beauty, the Green New Deal. But I have great news for Pennsylvania. So this has just happened. This is like breaking news. Are you ready for breaking news? Because we have to protect you. Are you ready? Moments ago, I signed an order to protect Pennsylvania fracking and block any effort to undermine energy production in your state. So in other words, if one of these maniacs come along and they say, "We're going to end fracking, we're going to destroy the Commonwealth of Pennsylvania," you can say, "Sorry about that. You have just..." I signed it on that beautiful Marine One. Did you see that?

Donald Trump: [\(08:07\)](#)

I said, "Go right over them." Did you see it go right over you? Whoa. It's a good way to arrive, right? No, I just signed it on the helicopter, I just signed it, and I'm very honored to have done it. So we're protected. So now if they say, "We're going to do this or that," let's just say they're going to have a long fight. Pennsylvania oil and natural gas in the Marcellus Shale contributes \$45 billion to your local economy. I'd say 45 billion's a lot. No, but he said if... oh, so for, what, a year, right? He's on the stage with the super liberals. They had like 27 of them. We only had 17 running for the Republican. You remember? 17 plus one. I was the one. And they said, "No, he doesn't really want it. He just wants to have a good time." No. And by the way, do you consider this a good time, okay? Okay, let me ask you, is there a better place to be anytime, anywhere than a Trump rally, right? We're having a good time. We have a good time.

Donald Trump: [\(09:07\)](#)

You know why I have a good time? Because no president, no administration has done more in the first three and a half years with tax cuts and regulation cuts and rebuilding our military and helping our vets and all of the things we've done. And therefore I have a good time, but we're fighting a very nasty deep state. And if we win, and we're going to, I... I don't know if you see what's going on. Florida, ooh, it's looking very good. They're very concerned. They're saying,

“What’s going on in Florida?” We love Florida. We’re getting a lot of votes down there. This isn’t based on polling, polling where they say, “Let’s see, what are we going to give him today? Let’s put him down like 30. What are we going to do? Suppression. Let’s do a…” No, no, the votes are actually coming in. We’re looking very good in a place called Pennsylvania, but don’t tell everybody. Don’t tell everybody.

Donald Trump: [\(10:05\)](#)

Right, Mike? Have you seen? Our great Congressman. Mike, have you seen? Very good, very good numbers. Very, very good numbers, incredible. But when you have crowds like this, and, honestly, this is my third stop. Can you believe? I have a fourth one. I have a fourth one. Other guys, they go home, “Darling, what are we having for dinner?” I say, “I got to speak in front of another 25,000 tonight.” It’s all right. That’s all right. We got to do what we got to do. We got to get the job done. Just make sure you get out and vote. But Pennsylvania oil and natural gas supports nearly 1 million Pennsylvania jobs. So when Sleepy Joe heard that, he said, “Yeah, of course I like fracking.” But it’s not going to happen. It won’t happen. It’s not real. And it’s one of the state’s top exports, that’s what it is. Energy is your top, or one of your top exports. This is the biggest thing you do.

Donald Trump: [\(11:02\)](#)

If Joe Biden is elected, he will cancel our... And you know that, he’s going to terminate, frankly, a better word, terminate your energy industry and every job because they want to go to wind. They want to go... They don’t even want wind. Honestly, I don’t think they want energy period, close down every factory. I don’t think they want anything. I don’t think they have any idea what they want. I know Joe doesn’t. For a fact, he doesn’t. He has no clue. He is totally shot, okay? You see the new sunglasses, the aviator glasses, right? They should be a little bit larger, covers up those new eyes. A vote for Biden and Harris is a vote to ban fracking, ban mining, and completely destroy Pennsylvania. Otherwise, he’s not bad. A vote for me is a vote to remain energy independent and build the strongest economy in the history of your state and of your country. And our economy is now growing at the fastest rate ever recorded. That was the 33.1% that the fake news doesn’t want to talk about. Think of that, faster than any nation in the world.

Donald Trump: [\(12:18\)](#)

In the past five months, we’ve created a record 11.4 million American jobs. That’s a... Nobody’s... We’ve never done that. We’ve never done it. You know what? We’ve built such a strong foundation, we had the greatest economy in the history of our country, and we had the plague. We had the plague come in from China, and we had to close it up for a little while. And we closed it up, and then... But the foundation was so strong. And that’s why, I don’t know if you saw auto production, housing production, the numbers are through the roof. Many of the numbers are bigger and better. Did you know this, Mike Kelly? The numbers are bigger and better than they were before the plague came in. Okay? It’s pretty amazing, right? It’s pretty amazing. That’s because the foundation... If we didn’t have the foundation, it would be just the opposite. We would’ve been in big trouble. And again, faster than any other nation. While foreign nations are in a total free fall, we’re creating the world’s greatest economic powerhouse. And that’s what we’re doing.

Donald Trump: [\(13:19\)](#)

We’re going to have a greater year next year. I mean, unless somebody comes in and quadruples your taxes, “We’re going to raise taxes.” A recent Gallup poll, this is amazing, just came out, found that 56% of Americans say they’re better off today than they were four years ago under the Obama-Biden administration. And in all fairness, that’s during a pandemic, and we’re rounding the corner of the pandemic, but that’s during a pandemic, think of that.

Audience: [\(13:44\)](#)

Thank you.

Donald Trump: [\(13:44\)](#)

If Biden... Thank you too. I don’t know. Wow, he’s got to have a... They’re back there. Look at that, you can’t even see. You can’t even see. No, it’s like, you can’t even see the end of people. A lot of people. There’s a lot of people here. If Biden gets in, the economy will...

Donald Trump: [\(14:08\)](#)

(silence)

Donald Trump: [\(16:00\)](#)

(silence) The last 47 years outsourcing your jobs, opening your borders and sacrificing American blood and treasure in endless foreign wars, in countries that most of you have never even heard of. Biden is a Washington culture who decimated your steel mills, annihilated your coal jobs, that’s for sure. And supported every disastrous sellout trade deal for a half a century.

Donald Trump: [\(16:53\)](#)

Biden was a cheerleader for NAFTA, the worst trade deal ever made. And for China’s entry into the World Trade Organization, where they are considered at a level where they get all the advantages. We don’t get the advantages. They’re considered a developing nation. I said, “No, no, you’re not going to be a developing nation. We’re a developing nation.” Because if you’re a developing nation, you get all of the advantages. And we were treated very badly. And we said, “Look, we’re going to have to talk about this.”

Donald Trump: [\(17:24\)](#)

We pulled out of the World Health Organization. You know why? No. So we have 325 million people. China has 1.5 billion people. Right. We paid \$500 million a year. They paid \$39 million a year. In addition to that, they had guys, and for this I give them credit, but they had guys that practically ran the place. Right. So they’re paying 39 and we’re paying 500. And we have a smaller population, but we have a stronger economy and we were beating them. For the last 10 years, anybody in business, you heard 2019 China will surpass the United States in the economy. That China was going to be a bigger economy than... 2019, 2019. And then I came along and we were skyrocketing way, way above. They would’ve never caught us. They would have never caught us. Then we got hit with a plague, but now we’re bringing it back into... I talked about a V and the fake news said it won’t happen. It’s a super V.

crowd: [\(18:31\)](#)

Four more years.

Donald Trump: [\(18:31\)](#)

Super V.

crowd: [\(18:32\)](#)

Four more years.

Donald Trump: [\(18:42\)](#)

Thank you.

crowd: [\(18:42\)](#)

Four more years. Four more years.

Donald Trump: [\(18:42\)](#)

Thank you very much.

crowd: [\(18:43\)](#)

Four more years. Four more years. Four more years.

Donald Trump: [\(18:43\)](#)

Thank you. Thank you very much.

crowd: (18:43)

Four more years.

Donald Trump: (18:43)

Now we have a super V. That's even better. They all said, "Oh, it won't be a V. It'll be a K or it'll be an S." They have no idea what the hell they're talking about. They want to make it as bad as possible, but it's a super V. That's what's going to happen. And a big thing in the election, if we win, you're going to see a stock market that roars. We have a headwind and the headwind is we're in an election. If Biden ever got in, you'll go... I mean, can you imagine quadrupling everyone's taxes and all of the regulations put back on?

Donald Trump: (19:13)

And I'm a believer in regulation, but not where it takes you 20 years to build a highway. By the way, we're down to two years. We're going to get it down to one. And it may get rejected. And if it does, that's fine, for safety reasons, for environmental reasons, something. But you're going to know in a year, and you're going to be able to build your highway. And it's so much... You have no idea. We have done... You are so lucky I'm your president.

Donald Trump: (19:41)

You are so lucky. You are so lucky that we've taken this journey together. Right. We've taken this journey, this beautiful journey together. And it is, it's been an amazing journey, but we've accomplished so much. At every turn Biden twisted his knife into the backs of Pennsylvania workers. When sleepy Joe Biden was giving China your jobs, his family was raking in millions and millions of dollars from the Chinese communist party.

crowd: (20:11)

Boo.

Donald Trump: (20:11)

And whether you like it or not, Joe Biden is a corrupt politician. And you see what's happened. And they don't like that. See, what they'll do is they're going to do... Because they don't want any of that to get out, because we've learned a lot about the media. They don't let any of this get out. They don't want any of it to get out.

Donald Trump: (20:28)

Nobody knew this. We have learned more in the last two weeks about the media and about the tech giants, big tech. We've learned a lot. We learned a lot. But you know what? The word spreads. It's very hard for them. Take a look at this. The word spreads. If Biden wins, China wins. When we win, America wins and we produce the greatest economy ever.

Donald Trump: (20:53)

In 2016, Pennsylvania voted to fire this corrupt political establishment. And you elected an outsider as president who is finally putting America first. You mind? You mind? And if I don't sound like a typical Washington politician, it's because I'm not a politician.

Donald Trump: (21:18)

This is one of the reasons I got elected. Like these guys, like my friends, they're good politicians. If I don't always play by the rules of Washington and the Washington establishment, it's because I was elected to fight for you. And I fight harder for you than any president has ever fought. That I can tell you.

Donald Trump: (21:40)

And I'm not just running against Joe Biden. I'm running against the left wing media, the big tech giants, the rhinos. You know what a rhino is? A rhino is Republican in name only. We know too many of them. Right. But they're a dying breed. They can't believe it. They used to make so much money. And now, they're reduced to doing other things. They don't like us too much, but that's okay. That's the way it's supposed to be.

Donald Trump: (22:10)

And the Washington swamp, we are draining. The swamp was very deep and very vicious. On Tuesday, November 3rd, you can send them a message that they will never forget. You don't have to take my word, on Biden's betrayals. So what I do for very special states like Pennsylvania, what I do is we produce a video. Go take a look. It's an expensive video. Take a look.

Speaker 1: (22:38)

We love you Donald Trump.

Speaker 2: (22:38)

Get Biden to [crosstalk 00:22:44].

Joe Biden: (22:45)

I have never said, I oppose fracking.

Donald Trump: (22:46)

You said it on tape.

Joe Biden: (22:48)

I did... Show the tape. Put it on your website.

Donald Trump: (22:51)

I'll put it on.

Joe Biden: (22:52)

Put it on the website.

Speaker 2: (22:53)

Would there be any place for fossil fuels, including coal and fracking in a Biden administration?

Joe Biden: (23:00)

No, we would work it out. We would make sure it's eliminated. I guarantee we're going to use fossil fuel. No more, no new fracking. I'd gradually move away from fracking.

Speaker 3: (23:13)

And I think it's critically important on day one that we end any fossil fuel leases on public lands.

Speaker 4: (23:22)

But Biden, what about say, stopping fracking.

Joe Biden: (23:22)

Yes.

Speaker 4: (23:24)

And stopping pipeline infrastructure?

Joe Biden: (23:25)

Yes, no pipeline. Exactly.

Speaker 3: (23:27)

There's no question, I'm in favor of banning fracking.

Speaker 2: (23:30)

I have one final question, it falls-

Donald Trump: (23:34)

Would he close down the oil industry?

Speaker 2: (23:34)

It falls...

Donald Trump: (23:34)

Would you close down the oil industry?

Speaker 2: (23:34)

It falls...

Joe Biden: (23:35)

I would transition from the oil industry. Yes.

Donald Trump: (23:37)

Oh, that's a big difference.

Joe Biden: (23:38)

I would transition. That is a big different.

Donald Trump: (23:40)

In terms of business, that's a bigger statement.

Speaker 2: (23:42)

Okay. We have one final question. Mr. President.

Donald Trump: (23:42)

Because basically what he's saying is he is going to destroy the oil industry. Will you remember that Texas?

Speaker 2: (23:49)

Okay.

Donald Trump: (23:49)

Will you remember that Pennsylvania?

Joe Biden: (23:55)

No, we have to come together. That's why I'm running. I'm running as a proud Democrat for the Senate. So vote, vote. Visit iwill.com/ohio. God bless you.

Speaker 5: (24:10)

Can somebody tell Joe, by the way, it's not a real website. And Joe, you're running for president, not Senator. And by the way, that Senator, the Mormon guy, is Mitt Romney. Not some Mormon governor. Now, sadly, what we showed you, that's just from a couple of hours today. Because every time that Joe actually leaves the basement bunker and stays out past 10:00 AM, well, disaster ensues. Here's a quick reminder.

Joe Biden: (24:38)

Tomorrow's Superstar Thursday. And I want to thank you all. I tell you what, I'm rushing ahead, aren't I? We hold these truths to be self-evident. All men and women created by the... Go. You know the thing. Do you agree with me? Go to Joe 30330. We choose truth over facts.

Joe Biden: (25:00)

Play the radio, make sure the television... Excuse me, make sure you have the record player on at night, the phone. Make sure the kids hear words. Poor kids are just as bright and just as talented as white kids. Donald Trump does pose an actual strength to this... It's not hypothetical.

Speaker 5: (25:19)

This is pretty serious. By the way, these are way beyond an occasional campaign gaff. And I am beginning... Well, I'm more than a little worry that this man could represent a clear and present danger to this country. He's obviously not capable of leading.

Speaker 5: (25:37)

He's been hiding the entire campaign and the corrupt media mob is covering for him. Joe wants to be the president of the United States of America. That would be the toughest job in the world. And at times, Joe doesn't seem to remember that he's even running for president, or what state he's in, or what day of the week it is. Does anyone really believe that, if elected, that Joe Biden will actually be in control of anything?

Joe Biden: (26:03)

What kind of country are we going to be? Four more years of Georgia. Georgia we're going to find ourselves in a position where, if Trump gets elected, we're going to be in a different world. I'll lead an effective strategy to mobilize [trunalimunumaprzure 00:32:03].

Speaker 5: (26:19)

[inaudible 00:26:25].

Speaker 6: (26:20)

Trick or treat.

Speaker 7: (26:20)

Oh, what do we have here?

Speaker 8: (26:30)

Spooky, spooky, spooky, spooky. Creepy. It's big uncle Joe.

Speaker 7: (26:35)

Oh, it's funny. It's Joe.

Speaker 8: (26:40)

Come on, man. Candy's for the kids.

Speaker 7: (26:45)

Maybe he forgot.

Speaker 8: (26:45)

Wait a minute. You look familiar. Who are you?

Speaker 7: (26:53)

Are we going to let him get away with this?

Speaker 8: (27:05)

She took everything.

crowd: (27:06)

We want Trump. We want Trump. We want Trump. We want Trump. We want Trump. Trump, Trump, Trump, Trump, Trump.

Donald Trump: (27:35)

Thank you very much. There's a lot of truth in that, isn't there? This election is a choice between a Biden depression, which is what will happen, or a Trump boom. There's going to be a boom. It's a choice between a deadly Biden lockdown. And by the way, Governor, open up the state of Pennsylvania. Open them up.

Donald Trump: (28:07)

Open up those schools, open it up. Or a safe vaccine that ends the pandemic. It's ending anyway, but we have the greatest companies in the world and we're literally weeks away. And we're going to mass distribute the vaccine in just a little while. We have our great military doing it and they are set to do this. They're going to do it so quickly. We'll eradicate more quickly the virus. Wipe out the China plague once and for all.

Donald Trump: (28:36)

And it's back to work, back to work, which is what we want. You know what we want? We want normal. We want normal. We want normal. Let's go back, go back seven months. Hello. How are you doing? Biden will delay the vaccine and impose a crushing lockdown on all America. Jimmy wants to lock it down. He has no idea. They'll tell him what to do. He'll do whatever they ask.

Donald Trump: (29:01)

Even on the youngest Americans who are at the lowest risk, like Barron Trump, 14 years old. "Sir, your son just tested positive." I said, "Positive for what, doc?" He didn't say the China plague. Yes, he said, "He's got COVID." So he's 14. He's very tall. You know, Baron, right? He's very tall. But he's strong. And he's got tough... I asked 12 minutes later. How's Baron doing? "Sir, he's fine. It's all gone." I said, "That wasn't too long, Doc. Are you sure he had it?" "Yeah, he had it."

Donald Trump: (29:36)

That's why I say, get the kids back to school. Get them back. Get them back to school. But I had it. I'm sure you didn't hear that. Did you hear that, sir? Did you see the debate the other night? Yes. It was a big debate. They had a lot of people watch it. That was good. That was good. We did a good job of exposing... That was like Perry Mason.

Donald Trump: (30:01)

You know the whole thing about the oil? I said, "Well, wait a minute. Let's talk about this. We're just about ready to go off the air." Even she, she looked, Kristen Walker. She was fair. She wasn't supposed to be, she was fair. She looked at him when he's making a statement about, "Yeah, we're going to transition out of oil. We're going to transition out of this, out of the fracking." And she said, "Why did you say that?" Right. Even I said, "I felt like Perry Mason. In the end, everything's going badly. And then, "I did it. I did it." It was him. I'm going to transition. He didn't have to answer.

Donald Trump: (30:36)

I said, "You mean you're going to get out of oil?" "No, I'm going to transition." "Oh, that's okay. What did you say?" And I just hope you people were listening. Okay. Because that's where it's coming. The Biden lockdown will result in countless deaths from suicide, drug overdose, deferred medical care, all sorts of abuse, all sorts of problems. The cure can never be worse, remember, I've been saying it from the beginning, than the problem itself. You can't do that.

Donald Trump: (31:04)

He will imprison you in your home, letting writers roam free. We call this a protest because the only way you can meet is if you have a protest. They weren't expecting this kind of a protest. Right. If you want to go to church, if you want to go to church, you can't.

Donald Trump: (31:22)

If you want to burn down the stores and run down Main Street and knock people over and do whatever you want to do, that's okay. Because they want to make sure that they can protest. Not with me. Under Biden, there will be no school, no graduations, no weddings, no Thanksgiving, no Easter, no Christmas, no 4th of July. No nothing.

crowd: (31:44)

Boo.

Donald Trump: (31:46)

Other than that, you're going to have a wonderful life. Now, we've got a great future. We have more potential in this country. He made a mistake and I watched him. It was really boring. That's the case. 10 people and Obama came, brought another 10 with them. They have nobody. All you hear is a couple of horns. And most-

Donald Trump: (32:03)

And with them, they have nobody. All you hear is a couple of horns, and most of the horns are from our people. Did you see? And he called them, what did he call them? Ugly people or something, that was terrible. He shouldn't say, it's not politically correct. He's been in this business a long time, 47 years. He shouldn't be saying that. Yeah, but most of the noise is our people. It's like, ah, this is some... You know, in history, there's never been a movement like this. There really hasn't. There's never been anything like this. There's never been. And we have the fake news, 96% against us. Think of it, because you're smart. The smartest people are you, you get it. No, you have them against... Oh, their heads are exploding, as a friend of ours would say. If you want a vaccine to kill the virus, a job to support your great family, and freedom to live your life, then I am asking you to vote for Republican. Vote for Trump. Let's keep it going. We'll keep it going. We'll keep it going.

Donald Trump: (33:10)

We have more potential. But Biden said today, he said, there's never been a better time to run, there's never been a better time to run this country. This country is in great shape. And I'm saying, wait a minute. He's not supposed to be saying that. It was sort of a strange thing, but I don't know if anybody picked it up.

I'm sure if they did, they wouldn't mention it. Oh, if I did, it's a disaster. I have to watch every word. Even pronunciation. If you pronounce a word slightly off, you know, you're talking for five days, one word, it's like, oh... These people are the worst.

Donald Trump: [\(33:43\)](#)

Joining us today are the opposite of the worst. They're warriors, and they've been with me from the beginning. 197 to nothing with the fake impeachment, the impeachment over a phone call. Hello, congratulations on winning. Right? Ukraine. If you see any corruption, please report it to the attorney general of the United States, because they have a lot of corruption in Ukraine. They say, let's impeach him for that. And what a disgrace, honestly. Wasn't that a disgrace? Think of it. The time wasted, the time wasted. But we have some people that fought with me, and on other things too, and we haven't lost. We haven't lost yet.

Donald Trump: [\(34:25\)](#)

We'll start with a man who is great, respected by everybody in Washington and here, and loved by this entire state, Congressman Mike Kelly. A real friend. Great guy, great guy. And another warrior, Guy Reschenthaler. Guy, where's Guy? What happened to your location, Guy? What happened? You're being very nice to a lot of people, Guy, that's very good. Thank you. Great help. And another one, Congressman GT Thompson. GT. Great, thank you. Great job. They're warriors. They really are incredible, and we want to get you a couple of... GT, can we get you a couple of other warriors, do you mind? Congressional candidate, Luke Negron. Luke Negron, [inaudible 00:03:26]. I heard you're doing very well, Luke. Go win, get them and get these people out, get the Nancy Pelosi crowd out. Crazy Nancy. Crazy Nancy. They don't represent your values. They don't.

Donald Trump: [\(35:40\)](#)

Another one who's going to be an absolute star, running against a lamb, a little lamb. Running against a lamb. And this guy is, he's fantastic, I'll tell you. You have to see his record, he's a hero. He's a hero. He's a star. I'm even tweeting him all the time. I said, he's got it. You know, they fixed around and played around with a district, now they're having a problem with ballots. They sent like, thousands of ballots out, and they were wrong. So they said, oh, don't worry about them. Just send them in. They will, do you know where they'll send them to? The Elections Commission. So Sean's got to be careful, but Sean is a star. Sean, Sean Parnell. Sean. He's a star. And he's a tough cookie. Tough cookie. Maybe tough enough, I don't know, this is interesting, Sean may be tough enough to have played football for the great Lou Holtz, who's a friend of mine. Where is Lou Holtz? Come here a little, come here.

Donald Trump: [\(36:51\)](#)

So Lou has been, Lou is a great, great coach and a great guy, and he's an inspiration to a lot of people. He just lost his incredible wife. How many years, Lou, were you with her?

Lou Holtz: [\(37:02\)](#)

59 years.

Donald Trump: [\(37:03\)](#)

59. That's one I'll never be able to top you on, Lou. But he had a great wife who was really brave in what she went through, and he's getting the Presidential Medal of Freedom for just an outstanding life. Want to say something, Lou? Say something, go ahead.

Lou Holtz: [\(37:22\)](#)

I am just so humbled to be here. This crowd, the enthusiasm, the people, are tremendous. The only thing I want to say is, ask yourself if you didn't show up, who would miss you and why. Think what'd happen if President Trump hadn't shown up in the year 2016, and what he has done for this country and how great. Let's just show up on November 3rd or before then to make sure that this country has a chance, because this isn't about Republican/Democrat. It's about right versus wrong, good versus evil, freedom. Thank you.

Donald Trump: [\(38:13\)](#)

Hey, I'm glad I brought him up, huh? That's great. He's a great gentleman. A great man. We're also joined by many members of UAW Local 3303, where are you? They've been great. They have been great. What a group. Thank you, fellas, appreciate it. Thank you, fellas. Appreciate it very much. Great people. We have so many endorsements from so many, but we have almost every law enforcement group is endorsing us. Almost every one. We have a lot. So who's with law enforcement tonight, law enforcement? Yep. Tremendous.

Donald Trump: [\(38:56\)](#)

The sheriffs, Florida, Oklahoma, Texas, Louisiana, New York's finest endorsed, first time they've ever endorsed a presidential candidate, so it's been a great. Chicago, can you imagine Chicago with the police? Police in Chicago, they're having a hard time. They have people that won't let them do their job. They just won't let them do their job. When you see the New York stats go way up, Chicago go way up, and then Portland, we want to go into Portland so badly. Take out the anarchists, it would take us about 25 minutes. You saw what happened in Minneapolis, you know, after a week and a half. They could have called a little quicker, like, about an hour. But remember the CNN, look, the light always goes off whenever... Turn the light on. He's talking about us again. It's all right. Their ratings aren't that good, so it's not like you're losing [inaudible 00:07:49].

Donald Trump: [\(39:50\)](#)

Remember that guy, does the little shave job, right? I was thinking about doing it, but I wanted to remain your president. No, shaved head, he goes... Ali Velshi, right? Ali Velshi? I don't even know who the hell he is, I just have a good memory. Ali Velshi. And he's going, this is a peaceful protest. You know, he's being hit by rocks and stuff. This is a peaceful protest, it's wonderful to see such a peaceful protest. And then they have the camera on him, and behind, you have a city that's burning. It's blocks long. I've never seen fire like that. I always say it looked like Berlin in the worst day of the war. And he's saying this is a peaceful protest. Well, this is a peaceful protest also.

Donald Trump: [\(40:32\)](#)

For 47 years, Joe Biden betrayed, insulted, jailed and attacked Black Americans. He called them super predators. He used the term super predators. He's not a good person, that I can tell you. You know, because some people knew him in prime time. This is no longer prime time, now he's shot. Some people knew him in prime time. He's not. And frankly, if he were, I would never say the things I say about him, but he's not a good person.

Donald Trump: [\(41:04\)](#)

I signed landmark criminal justice reform, and in a second term, will continue fighting for African Americans like never before. And I appreciate the support that I'm getting in the election. It's very early, but I really appreciate it. From African Americans and from Hispanic Americans, the support has been incredible. In Florida, you have to see what's going on. You're going to go home, they're trying to figure out what is going on. I never say we won Florida. I've never said we won anything, you know. But I'll tell you, it's going to be tough for them to catch us. It's going to be very tough. We've had tremendous support from the Black community, from the Hispanic community. It's been incredible. All over, all over, and we appreciate it. But when he's calling and using terms like super predator, which is a term that you can't use, but he used it all over the place...

Donald Trump: [\(41:58\)](#)

To protect our security, I suspended the entry of foreign refugees from terror-afflicted nations. Biden has pledged a staggering 700% increase in refugees from the most violent terrorist hotspots anywhere on Earth. If you don't mind, I'll end that. And that was the deal, the manifesto that he agreed to with Bernie Sanders and AOC plus three, right? So you had Bernie Sanders... This actually took them further left. Bernie wasn't even... A 700% increase. The Biden plan would overwhelm your communities and hospitals and open the floodgates to radical Islamic terrorism. Call France, ask them how are they doing. How are they doing? You saw what's happened. What's happened is a disgrace. I called the president, Macron, good, good friend of mine, great guy, and I just gave our condolences on behalf of our country. But what's going on over there is terrible. So if you don't mind, we'll take a pass. Is that okay?

Donald Trump: [\(42:59\)](#)

You know I passed the ban, right? The ban. And everybody said, oh, what a terrible thing. A lot of them said, what a terrible thing, but let's not fight it. And we won at the Supreme Court a long time ago, and now we keep people out who can't love our country, or people that want to hurt people. We want them out and

Donald Trump: (51:18)

Thank you very much. Over the next four years, we will make America into the manufacturing superpower of the world. And we will end our reliance on China. And we've already started that, long ago actually. We will hire more police, increased penalties for assaults on law enforcement. And we will ban deadly sanctuary cities.

Donald Trump: (51:43)

We will defend the right to life, free speech, religious liberty and the right to keep and bear arms. Second amendment. The second amendment is under siege. Don't worry. As long as I'm here, it's not under siege. And you guys are right there with me. You guys are right there with me.

Donald Trump: (52:07)

We will maintain America's unrivaled military might. That's what we've done. That's what we've done. Like we've never had before. And we will ensure peace through strength. We will end surprise medical billing, require price transparency. Starts January 1st. Bigger than healthcare, you watch. All set to go. January 1st, all signed up.

Donald Trump: (52:33)

Lower drug prices, even more. Favored nations, we're going to go from the highest to the lowest price anywhere in the world. The drug companies are not good fans of President Trump. They don't like me. They're taking out more ads than Sleepy Joe about me. They're saying things about me in those ads and all I'm doing is just give me the lowest price in the world. I don't know. They come up with things. It's not good to do that. I don't know to me, it's good to do that.

Donald Trump: (53:01)

And we will always protect patients with pre-existing conditions. America will land the first woman on the moon and the United States will be the first nation to land an astronaut on Mars. Very excited actually. And don't forget, that's on top of Space Force. With everything else we did. Space Force. We created the first new branch. 75 years, Air Force was the last one. Now we have Space Force. And we never even used to talk about that at the rallies. Right.

Donald Trump: (53:35)

I've actually done more, I really believe that, I think I've done more than I promised. I may be the only politician, if you call me a politician. We've done more than I promised. I think that might be a first. We'll have to check that out. Check that out for us [inaudible 00:05:47].

Donald Trump: (53:48)

Space Force, we needed it. That is something, when I became president, I saw Russia, I saw China. I saw what was going on. I said, "We have to do that too." And I got great help from the Republican Senate and from these gentlemen right here. And we actually had some bipartisan help, believe it or not, which is not easy to get.

Donald Trump: (54:06)

We will stop the radical indoctrination of our students and restore patriotic education to our schools. We will teach our children to love our country, honor our history and always respect our great American flag. And we will live by the timeless words of our national motto, in God we trust.

crowd: (54:33)

In God we trust.

Donald Trump: (54:37)

At the Democrat national convention. Right. The pledge of allegiance, they took the word God out.

crowd: (54:43)

Boo.

Donald Trump: (54:44)

And I watched it. And I said, "They must've made a typo." The problem was that I heard it a second time. And I said, "That was not a typo." And the American public went crazy. And all of a sudden they put it back, but that's where they're coming from. Never going to happen with me, never going to happen with these guys. Right. Never going to happen with our guys. Right fellows?

Donald Trump: (55:11)

For years, you had a president who apologized for America. Now you have a president who is standing up for America and standing up for the great people of Pennsylvania. It's true. For the last four years, you've seen me fight for you. And now I'm relying on you to deliver another historic victory for our country.

Donald Trump: (55:35)

On November 3rd, we must finish the job. Have to go out and vote. Just have to go out and vote. We're going to finish draining the swamp. It's deeper and more vicious than anybody ever thought. Swamp creatures, yeah. It's a great term. Swamp, you know the swamp creatures, we got them all over Washington.

crowd: (55:57)

Drain the swamp. Drain the swamp. Drain the swamp. Drain the swamp. Drain the swamp. Drain the swamp. Drain the swamp. Drain the swamp.

Donald Trump: (56:15)

So get your friends, get your family, get your neighbors, get your coworkers, grab your boss. Come on boss. And you have to get out and vote, November 3rd. On November 3rd. And you want to do that. You want to pick that... We're so well because November 3rd, people, they just want to get out and vote. We're going to have a historic day. I really believe that we're going to have it. Just based on what's going on throughout all these other states. But we win Pennsylvania, we win it all. You know that, right?

Donald Trump: (56:45)

We win Pennsylvania, we win it all. If we win Pennsylvania, it's over. Over. And I told you, Florida's looking so good and Ohio is looking so great. They've always been great. They've always been great. They get it. For generations, America's destiny was made forged. Hello, Fox. No, they're very happy. I think I love them. I might as well wait till they finish up.

Speaker 9: (57:15)

We love you President Trump.

crowd: (57:15)

We love Trump. We love Trump. We love Trump. We love Trump.

Donald Trump: (57:15)

Thank you.

crowd: (57:15)

We love Trump. We love Trump.

Donald Trump: [\(57:15\)](#)
Thank you.

crowd: [\(57:15\)](#)
We love Trump.

Donald Trump: [\(57:41\)](#)
Just such a friendly group. I said and I don't want to interrupt them. They have it. No, that was good. Thank you very much. We do appreciate it. For generations, America's destiny was made, forged and won in places like Johnstown and Pittsburgh, Erie, Altoona, Bethlehem, and right here in Butler. True.

crowd: [\(58:00\)](#)
Yeah.

Donald Trump: [\(58:02\)](#)
Our American ancestors gave their blood, sweat, and tears to defend our country and our freedom. We stand on the shoulders of American heroes who crossed the ocean, settled the continent, tamed the wilderness, laid down the railroads, raised up the skyscrapers, won two World Wars, defeated fascism and communism. And made America into the single greatest nation in the history of the world. And the best is yet to come. The best is yet to come. Truly.

Donald Trump: [\(58:38\)](#)
Proud citizens like you helped build this country. And together we are taking back our country. We are returning power to you, the American people. That's what we're doing. Ultimately, that's what we're doing. Right?

Speaker 10: [\(58:51\)](#)
Thank you.

Donald Trump: [\(58:52\)](#)
With your help, your devotion and your drive. We are going to keep on working. We are going to keep on fighting and we are going to keep on winning, winning, winning. We are one movement, one people, one family, and one glorious nation under God. And together with the incredible people of Pennsylvania, we have made America powerful again. Our great military, our great, great military. We have made America wealthy again. Your 401(k)s are doing great. Your 401(k)s. And if we could get Biden out of the way, you'll see a stock market that goes through the roof. He's a headwind. You know what I call him? I call him Joe Headwind. He's a head... We get him out of the way, you'll see a stock market that goes through the roof. It's already. Could you imagine in the middle of a pandemic we're doing so well?

Speaker 11: [\(59:56\)](#)
Get him out of there.

Donald Trump: [\(59:57\)](#)
We have made America strong again. We have made America proud again. We have made America safe again. And we will make America great again. Thank you, Pennsylvania. Thank you. Thank you very much. Go out and vote. Thank you everybody.

Donald Trump: [\(02:08\)](#)

Thank you very much. Thank you. What an honor. Thank you very much. Thank you. Thank you very much, thank you. We love this section of the world. It's a beautiful section. We appreciate it very much, and I'm thrilled to be back in the great Commonwealth of Pennsylvania, so much. Thank you.

Donald Trump: [\(02:42\)](#)

This is the state where the story of American independence began. It's the state where the American constitution was signed. Think of that. And three days from now, this is the state that will save the American dream. On November 3rd, we're going to win Pennsylvania, and we're going to win four more years in that very beautiful White House. We gather today in a very special place. In the harrowing days of December 1776, when the American revolution seemed lost, General George Washington made his headquarters as this Bucks County farmhouse to plan his famous crossing of the Delaware.

Donald Trump: [\(03:34\)](#)

On Christmas night, he led what remained, and just very little remained, of that rag tag continental army on a daring midnight raid. It was a tough night, it was a violent night. They marched through nine miles of ice and snow, many without boots on their feet, leaving a trail of blood in their wake. At dawn, they seized victory at Trenton. Their sacrifice turned the entire tide of the war. Those soldiers came from every walk of life, but what united them all was their devotion to the principle of self-government. They were determined to live in a country where power belongs to the people. That priceless inheritance is at stake just three days from now, and a great red wave is forming. As sure as you're there, as sure as we're here together, and they see it. They see it at all sides, and there's not a thing they can do about it. This is the fundamental question facing every voter in American. Do you want to be a nation ruled by the corrupt political class, or do you want to be governed by the American people? I ran for office four years ago because I could not sit by and watch any longer as a small group of Washington insiders continued to get rich bleeding America dry.

Donald Trump: [\(05:26\)](#)

They're just bleeding America dry. Think of it. Closing our factories, opening our borders, outsourcing our industries, and letting foreign countries ravage our middle class. Career politicians spend trillions of dollars fighting foreign wars, while letting our own cities crumble and decay. Here in Pennsylvania, you know this bitter and very painful betrayal all too well. Better than most. The corrupt Washington class launched an economic war against this state.

Donald Trump: [\(06:02\)](#)

For decades, they targeted your steel mills, shut down your plants, and sent millions of your jobs overseas, all while lining their pockets with special interest cash, and no one embodies this betrayal and treachery more than Joe Biden. And worst of all, the suppressed media and big tech refuses to cover the crime. They refuse to cover. We've learnt so much over the last two weeks. For 47 years, he supported every disastrous trade deal that enriched his cronies and impoverished your state. He wiped out Pennsylvania Steel. He was the cheerleader of NAFTA, and China's entry into the World Trade organization. Pennsylvania lost 50% of your manufacturing jobs after those Biden disastrous.

Donald Trump: [\(07:29\)](#)

Then Biden pushed the job killing Paris Climate Accord, an economic nightmare for Pennsylvania miners and every worker in our country. He backed TPP, which would have extinguished the American auto industry forever. Forever. These betrayals not only made Biden's donors rich, they made his family rich, and as we know, he profited from the misery of unleashed work and horror given to Pennsylvania workers. He made a lot of money, his family made a lot of money, and nobody knew about it until just recently.

Donald Trump: [\(08:16\)](#)

At the debate, I looked at him and said, "Joe, you were here for 47 years, and you left only three and a half years ago. Why didn't you do these things that you want done? Why didn't you fix it, Joe?" And as you know, because I assume a number of you watched the debate ... but as you know, he just looked at me and shrugged.

Donald Trump: [\(09:07\)](#)

In fact, the anchor looked up and said, "Why did you do it?" She couldn't believe it, and she was on his side. She said, "Why did you do it? Why did you do it and why did you say it?" In 2016, Pennsylvania voted to fire this failed and corrupt political establishment, and you voted for an outsider's president who is finally putting America first.

Donald Trump: [\(09:31\)](#)

And if I don't look like a typical politician, that's very simple. It's because I'm not a politician. If I don't always play by the rules of Washington and the Washington establishment, it's because I was elected to fight for you, and I fought harder for you than any president in the history of our country. From day one, Washington insiders have been trying to stop me because they do not own me and they do not control me.

Donald Trump: [\(10:13\)](#)

They want control. They don't like what I'm doing. They don't like what I've said to the big pharma, the drug companies, the number one lobbyist in the world, number one lobbyist in our country. They didn't like that I instituted Favored Nation so that we now pay the lowest prices in the world for prescription drugs, instead of the highest prices in the world.

Donald Trump: (10:41)

If these corrupt forces succeed in electing Joe Biden, Washington will see to it that another outsider never becomes president again. It'll never happen again, and nobody has done in three and a half years, nobody, no administration, no president, what we've done and what we've accomplished, and it's not even challenged. Nobody even challenges that.

Donald Trump: (11:07)

They'll take back control and they will never, ever give it up. This once in a lifetime opportunity to beat the corrupt politicians will be lost forever, and they know it. They're fighting so hard and they hate what they're seeing because they're not looking at fake suppression polls anymore. Now they're looking at the numbers that are pouring in, and they don't like the numbers that they're seeing in Florida and in Ohio and in North Carolina.

Donald Trump: (11:44)

And we think in Pennsylvania, although those numbers come in late. We think in Pennsylvania. They don't like it. They don't like it, they don't like what they see, and I just want to tell you that we have really, things have worked out so well for our country. Nobody had any idea that anything like this could ever happen. If you look at what's going on over the last four years, we've been building the biggest, strongest, and most secure middle class in human history. We built the most powerful military anywhere in the world.

Donald Trump: (12:41)

And over the next four years, we will make it even stronger. Stronger like nobody thought even possible. Do not be intimidated by our opponents' angry and menacing tone, because if we were, we would never have been able to accomplish what we've accomplished. In truth, they are actually terrified of you, the people. They're terrified. They're terrified that you will discover that you have the power to end their corrupt rule once and for all. We have to do it. When you see what's going on, we have to do it.

Donald Trump: (13:17)

We don't have a choice. Somebody said, "Do you enjoy this?" I said, "It's not a question of enjoyment." Believe it or not I do. I shouldn't. Have to go check something, but I shouldn't. But you know, today we're doing three rallies, tomorrow we're doing five, and the smallest crowd will be 25,000 people. Then on Monday we're doing five or six, and I can't tell you what's going to happen there, but I think we'll just go home and rest. But they don't get to decide this election. This is your choice.

Donald Trump: (13:58)

We have to be very careful. We have to be very, very careful, especially in this state, more than any other state. They say you have to be very, very careful. What happens in Philadelphia, we have to be extremely, everybody has to watch, vigilant. Your decision, your future is at stake. As your president, I don't answer to the special interests. I have no interest in it. I don't take instructions from donors and lobbyists. I don't care about them. I don't care about them.

Donald Trump: (14:29)

I don't take my orders from the media, or as I affectionately call them, the fake news media. And as you know, they've turned out to be far more fake than we ever thought, and they've really turned out to be corrupt. They are corrupt. They are really corrupt. The word fake is not strong enough, especially after what we've seen where stories, major stories, the biggest story anywhere in the world, is absolutely not covered. It's hard to have scandal when you have no coverage, and they work in conjunction with big tech, and they protect each other, and they protect the democrats, because with the democrats, you don't have somebody up talking like I do about them, so they can do whatever they want, and this will only lead to very bad things. I do what is right for America. I do what's right for America. It's made me a lot of enemies in Washington but I wear their opposition as a badge of honor.

Donald Trump: (15:41)

Winston Churchill once said that it was a nation that had the lion heart. I had the luck to give it the roar. I gave it the roar, and there is a roar, and people hear it all over. They heard it four years ago loud and clear. Probably the biggest thing to happen. They talk Brexit, they talk many numerous things, but this is always number one. What happened, 2016? And I will say, 2016 was an incredible earth shaking event, but 2020, and I never thought I'd say this, 2020, what we're doing right now through Tuesday, what we're doing is far bigger.

Donald Trump: (16:27)

It's far bigger. I never thought I'd say it. I never thought four years ago, and you never did either, somebody would say that this is going to be the most important election perhaps in the history of our country. It's really amazing. The greatest threat to American democracy is the concentration of power among a small group of unelected special interests. The big tech CEOs who have been put in a position by us giving a law to them, Section 230. We've given them that power, and you know that can be taken away.

Donald Trump: (17:07)

That can be taken away, and probably has to be taken away. I see it better than all. I see it so obviously. I see it because of what I do on social media. For me, it's very easy to see. I see things that nobody would believe. The corporate media and the mega donors in Washington and Silicon Valley, they're all lining up behind an opponent that's going to do whatever they tell him to do. That sleepy Joe Biden. He could've been the greatest.

Donald Trump: (17:40)

You know, if you look, we look at the amount of money that he has raised. Hundreds of millions. 300 million dollars one month. But I could've been the greatest of all time. I could've been the greatest political fundraiser, because as president all I had to do was call Wall Street, the big banks. I could've called the oil companies, I could've called all of the big companies. Every single one of them, and I know many of them would've given me whatever I wanted, but I chose not to do that, and we did plenty. We have plenty. You can only buy so many commercials. When the air waves are full and you can't buy anymore, I say, "Where are we going to spend it?"

Donald Trump: (18:25)

Although we did spend in our case a lot on ground game, which they, I think, forgot this part. As much money as they have, they're screaming in Florida, "Where's our ground game? Where's our ground ... ?" Well, it takes a long time. You know what? It took us a year and a half to build that ground game, so we'll see how it all works out, but they didn't do that. They decided to go a different route, but they took in massive amounts of money. I could've taken in much more than that.

Donald Trump: (18:52)

They did 350. I could've done that within an hour. The president is calling. He'd like you to send 25 million dollars, please. Who's going to tell me no? Nobody. But the problem is, the problem is when they call in six months needing a favor that's worth billions, it's very hard, especially me being a loyal person, not a dishonest person, but a loyal person, it's very hard for me to say, "No, I don't want to take his call, his or her call, no, I don't want to do it."

Donald Trump: (19:22)

Really, you're compromised. It would've compromised our nation, so I didn't want to do that. Joe Biden works for them. I know them very well. I know them far better than he does. I know him far better than he. Some are friends. Some are actually very surprised when I say, "You don't have to bother, don't worry." I don't think we can buy anymore anyway, right? But he works for them, and when you see those numbers, 300, 350 million, so much they don't know what to do with it, where they're spending 25, 30 million dollars on a congressional race that used to spend 500,000 dollars, you know something's going on, and it's not a good thing, and it's not the way I want to work.

Donald Trump: (20:04)

This was one opportunity to do something special. This isn't a company, this isn't making some money. This is one opportunity to turn our country around, and we're not going to blow it. He works for them. Not for you, and it is I who work for you. I am working for you. It's like, not used to that, too much, but I've gotten used to it, and we have this great opportunity together, and our people tend to vote, in particular this state, you tend to vote on the 3rd.

Donald Trump: [\(20:42\)](#)

I could say, "Go in and early vote, don't wait til Tuesday, vote today, vote tomorrow, vote on Monday." But I'm wasting a lot of time, because you want to go. It's tradition, it's habit. It's the history of this state. Look at what you've done with this state. Look at the history of this state with respect to our country, and you want to go, I won't even say go today, go tomorrow, go the next day, or go on the 3rd. We want election day. Thank you. Election day.

Donald Trump: [\(21:13\)](#)

And we have others like that, too. We have others like that, too. They want election day. It's going to be a great day. The more these corrupt forces oppose me the more I know we are delivering real change, real progress, and historic victories for the American people. We have done great things with the country including our military, our vets. The biggest tax and regulation cuts in history.

Donald Trump: [\(21:42\)](#)

We just received a poll, this was a real poll, not a suppression poll, where the vets gave us a 91% approval rating for the job that we're doing. Think of that. 91%. The highest ever. Over these last four years, we've been building the strongest and most secure middle class in-

Donald Trump: [\(22:03\)](#)

... we've been building the strongest and most secure middle class in human history. We have built the most powerful military in the world by far. Nobody has ever built what we've built. And when I came in, we had a depleted military. We had old planes. We used to get parts by going to the airplane graveyards and taking the old parts out of old planes that were sitting there rusting of the sun. And crazy weather where they store them in the deserts. And that's what we were doing. We had a depleted, a terribly depleted military. And now we have the best equipment anywhere in the world by far, all made in the U.S.A. And as I say, we are the envy of every world, we are the envy of every world power, from China to Russia, North Korea. They look at us and they say, "Wow, what they've done?" New jets, new fighter jets, bombers, tanks, missiles, rockets, nuclear. And just hope to God that we never have to use it. Hope to God we never have to use it. But it's less likely that we'll ever have to use it when we have it. Okay, when we have it.

Donald Trump: [\(23:15\)](#)

We were in very bad shape militarily, a general came to see me, highly overrated general came to see me actually, one of the world's most overrated generals. And he said, "Sir, we have no ammunition." Right at the beginning, you know what I'm talking about because we could have had conflict. He said, "Sir, could you hold it off? We have no ammunition." And I said, "General, no president should ever hear that statement again. We have no ammunition. "Well, now we have so much ammunition. Our problem is, we have no storage. And over the next four years, we will make it even stronger, going to keep us safe. Last night, our brave special forces rescued at American hostage in a far away country.

Audience: [\(24:03\)](#)

U.S.A.! U.S.A.! U.S.A.! U.S.A.!

Donald Trump: [\(24:30\)](#)

They are incredible people. And I was in Fort Bragg yesterday and I met a lot of the incredible, these incredible, talented, strong, both physically and mentally, the strongest, the best in the world. But we had a mission sent to a far away land where they kidnapped an American citizen. And the kidnappers wished they had never done it. And they went in with a large group, zero casualties. We got our American citizen, young man, we got our young man back. But the other side suffered gravely, I can tell you that. Our nation salutes its courageous military, which brilliantly executed this operation. Very few people would have been able to do it. It was very complicated and a very complex, tough area. We celebrate the safe return home of an American hostage. We've got many hostages home. And I pay nothing, nothing, can't pay. Once you pay, you'll have many, many more. We're 40 [inaudible 00:25:48] Robert O'Brien who's doing a tremendous job said to me, "Sir, you're 48 and 0." 48 and 0, think of that, we've brought many, many of them home.

Donald Trump: [\(25:56\)](#)

Some mostly in pretty good shape, some in very, very, bad shape. Specifically, you know who I'm talking about. Came home in very bad shape. But sometimes that happens too. But we've brought many home, but we don't pay. You pay, once you pay, your numbers will go up a thousand fold. We're boldly standing up to China. We achieved the most secure border in American history, our Southern border. We've obtained in just a short period of time, American energy independence. And if it were up to the opposing side, with the Green New Deal, the Green New Dealers.

Audience: [\(26:41\)](#)

Boo!

Donald Trump: [\(26:41\)](#)

AOC plus three and you add Pelosi and Schumer, and you add Joe Biden, who really doesn't understand so [inaudible 00:26:49]. They'll tell him what to do and he'll do whatever they tell them, whatever it takes, he'll say whatever it takes. With the sunglasses, I saw the sunglasses. I said, "I don't think I'm going to do that." But I watched those sunglasses. I don't know, to me it didn't work. We're bringing our jobs, our factories, our wealth, and our troops all back home. They're all coming home. They're all coming home. And instead of endless wars in countries that even you very sophisticated people in some cases have never even heard of, we're achieving one historic peace after another, if you look.

Donald Trump: [\(27:39\)](#)

Middle East, we already have three signed up. We have many countries who want to sign, we're signing them rapidly. And even with Kosovo and Serbia, we're doing a trade deal with each, a routine trade deal. When I heard about it, I said, "Wait a minute, they've been killing for decades. They've been killing and killing for decades each other, fighting all the time." We're doing a trade deal, they want it. They always want us, all of them want us, the whole world wants us. So we're in a great negotiating position. But I said, "Kosovo, Serbia, we're doing a trade deal. You tell them we're not going to do the deal unless they make peace." Then all of a sudden they were hugging in the Oval Office. Great, right?

Donald Trump: [\(28:27\)](#)

And it came through common sense and it came for no money, couldn't make a trade deal. We said, no, we're not going to make the deal unless you two start getting ... you're killing each other for decades and decades, that's all they do is they kill each other. And when I saw the two leaders hugging in the Oval Office and I mean, I think they were exhausted, frankly. I think it was time, it was time, but somebody had to say do it, just seemed to make a lot of sense. I said, "Wait a minute, let's do it." And we did it, so I'm very happy about that.

Donald Trump: [\(29:04\)](#)

And thanks to our administration's unprecedented mobilization. We're now just weeks away from a mass distributing of a safe vaccine. We've got it, we've got great companies, Johnson and Johnson, Moderna, Pfizer, all with a vaccine. All with a different, little different versions of it, some similar, some similar concepts. And many other companies and we're ready, we'll have that, and we will have it. But even if you didn't, and I say, it drives them crazy. We're rounding the turn, we're rounding that turn, we're rounding it. And our economy went down less than any economy anywhere in the world. And it went up faster by far. They keep hearing about Europe, Europe, Europe, well, they're not doing nearly as well. Seniors will be first in line for the vaccine. And the vaccine will be free because it's not their fault. It was China's fault. China did this to us. And our vaccine will eradicate the virus and end the pandemic once and for all. Americans will return to school and to life.

Donald Trump: [\(30:24\)](#)

By slashing red tape and cutting bureaucracy, we're producing this vaccine in record time. If Joe Biden were president, you wouldn't have this vaccine for four years. And he had his chance with the H1N1, he calls it in reverse, swine flu, which was a disaster. We've moved heaven and earth to produce the vaccine ahead of schedule and manufacture hundreds of millions of doses in advance, all ready to be shipped. And we have our military is going to be shipping it. Logistics, we have a general, that's what he does. He delivers troops. He said, "Sir, this is easy. We'll get it done very quickly." It's the most advanced medical operation anywhere in the world and in history. Thanks to the therapies we've accelerated, we have already reduced the mortality rate. 85%, think of the that, down 85%.

Donald Trump: (31:23)

And our excess mortality rate is 40% lower than Europe's. And Europe has done a good job, it's a very brutal thing. Everyone thought Germany was doing great, great, great, they're not doing great. Right now you see what's going on over there with France, again, Spain and Italy. But we're doing great, but we just don't get credit for it. We don't get credit. And I don't want the credit personally, but I want the generals and the admirals, and our great Vice President Mike Pence, who worked so hard. All of the people on the task force and Jared Kushner, what he did, he's here someplace. But he was fantastic on the ventilators. Ventilators are very, very complex.

Donald Trump: (32:16)

Oh, look at that, Jared, and he wants no praise, he couldn't care less. He truly couldn't care. Thank you, Jared. No, we had a tremendous ... just a quick story, we had a tremendous ventilator problem because we weren't equipped for a thing like this. This is once in 100 years, 1918, we're talking about, the Spanish Flu. And we weren't equipped for that. And all of a sudden we're getting calls. We need 40,000 ventilators. Like in New York, they needed far less than that, but they needed many, many ventilators. And other states are calling, we need ventilators. And it's a very complicated piece of equipment, as you can imagine with pipes going down, heavily computerized. And people didn't know what to do, making them on a mass scale like this, hospitals had very few of them.

Donald Trump: (33:11)

And Jared called up some of his genius friends, his brother is one of the most important people in Silicon Valley, smart family. They called up and they had these super brilliant young men come in. I mean, some of them were wearing undershirts, they were wearing a [inaudible 00:33:26]. They're wearing a baseball cap. "How much are you worth?" "About a billion dollars, sir." They had founded companies, sold their companies, but they were brilliant. One of them had roller skates on and they wanted to throw him out of the White House. They said, "Sir, there's a kid here, undershirt and roller skates." I said, "Yeah, he's worth two and half billion dollars." But Jared called a whole group of people down. And to them, to us, to all of us, a ventilator is very complicated. To them it's like the simplest machine they've ever seen.

Donald Trump: (34:02)

And they went to the automobile companies where they had excess plant capacity. And they went to various companies. And we started producing within a short period of time, ventilators. And this story is just never told, and I don't think I've ever told it, not in this detail. We started producing ventilators in a short period of time at a level that nobody thought was ... thousands and thousands ... nobody thought was even possible. And in a relatively short period of time, after that, all of our hospitals were sent tens of thousands of ventilators, tens of thousands of ventilators. Great companies, very big companies, the car companies, very big companies. They did a fantastic job. They'd line up with a small ventilator company, and we make the best ventilators, I mean, they say they're the best.

Donald Trump: (34:53)

And they were sent all over our country. And think of it, and that was done so quickly. But these brilliant young people were able to do it. Regular people could ... I mean, you could never do a thing like this. So we made thousands a month and not one person, think of this, in our country, not one person who needed a ventilator didn't get a ventilator, how incredible is that? But they won't tell that story. That's not me, that's Jared and a whole group of very brilliant people, together with the military and with a lot of great companies. We've had a tremendous relationship. It's the biggest mobilization since World War II. And it was an incredible job. Now what we're doing is we're making ... we continue to make thousands a month and we're sending them to foreign countries who were desperate for ventilators. And would have no idea, there would be no way they could ever get them.

Donald Trump: (35:51)

Including, I mean, we sent them to France and we sent them to Spain, and Italy, but we send them to countries in Africa, who are really having a terrible hard time. And we're sending thousands of them to other countries. And I just think it's a tremendous story. And it's something that we did that we're very proud of. And I did something that nobody talks about. You don't hear about ... you don't hear the word ventilators anymore. You know why you don't hear about it because we solved ... There was a period of time, ventilators, for three, four or five weeks until they sent these super geniuses in. For three, four, five weeks, all you've heard about was ventilators, ventilators, ventilators. Well, we took over something, the cupboards were bare. They were bare, or essentially bare, but they were bare. And the hospitals in the states, the cupboards were bare too. Nobody was prepared for a thing like this. That could have been, they should have been.

Donald Trump: (36:45)

But now all over the world we're sending them and I think it's just a tremendous story, I really do. It's a story that's untold, you'll probably never hear that again. And as soon as we started making all of these thousands of ventilators, you haven't heard the word ventilator just like ... and there's one other quick story. The wall, the wall, the wall, that's all you heard. Trump promised the wall, will he ever give the wall? The wall, the wall. And then now the wall is going to be completed very quickly. We have over 400 miles of wall built. And now you never hear the word wall. They never say, "Oh, he got the wall, he did it." And we built it exactly to the specifications of the border patrol. And they were tough specs, I will tell you. I said, "How about concrete plank?" "No, sir, we need steel, we need rebar and we also need concrete." "Oh, that's great." But we got it built and they have to have vision. They have to have slats because they have to be able to see through what's on the other side.

Donald Trump: (37:44)

You can't have ... once you realize this, I mean, they're right. So we built it to those specs. Very, very ... they've done an incredible job. We're doing 10 miles a week. We'll be finished very soon. But you never hear about the wall anymore. Now if it was a failure, if we couldn't get it done, it would be brutal. It would be a brutal time for your president. Because of our relentless efforts, the recovery rate right now on COVID or the China virus or the China plague is 99.7%, think of that, 99.7%. And I'm here, I'm here, right? I'm here. And these two great people whose property we're using today, what a historic property. And all I know is they said ... we just drove up the road, they've been here a long time, but not as long as George Washington, right, but they've been here a long time. And they said, and you've probably many of you said, do you see the crowds along ... It looks at Broadway, except a slightly more picturesque, slightly more picturesque. But it's thousands and thousands of people lined all the way down to the highways, it's incredible, and they're all waving flags.

Donald Trump: (39:15)

Most importantly, they're all waving flags and they're proud of our nation. And I guess it has something to do with Pennsylvania. I'm going to be here all day today. But no, it's a beautiful site and they were very proud, and thank you very much for everything you've done. We're allowing younger, healthier Americans to resume normal activities while strongly protecting the elderly and those at high risk. And we're making the powerful antibody treatment that I received available to anybody that needs it, free, free. Wasn't their fault. But I had that and I didn't feel good. I said, "What's going on?" And test positive, and I'm the President of the United States, I couldn't bury myself in a basement of the White House as nice as it is. I actually got to see it one time, it's very nice.

Donald Trump: (40:11)

Like you would expect, it's a beautiful basement, it's in the White House. It's a very solid basement. But I couldn't do that. And I couldn't put myself in a beautiful room upstairs, beautiful bedroom, and stay there for a year and a half. I'm the President. And I go to meetings, I'd say "That's a lot of people." And then one day that happens. And I said I wasn't feeling good. And the doctor came in and ... great doctors, great White House doctors, Sean. They came in and they said, "Sir, you've tested positive." I said, "Tested positive for what? And they said, "For COVID, for COVID." He actually used the term COVID, he's more politically correct than I am. I said, "That's not good." But I didn't feel good and we went over to Walter Reed Medical Center, which is phenomenal. I see the work they're doing, young men coming back so badly, and women, so badly wounded.

Donald Trump: (41:08)

I see what they can do, what they can do and nobody can do what they can do. And Johns Hopkins was great. We had a lot of doctors gathered around. But I didn't feel good and they gave me something, Regeneron, and Eli Lilly makes a very similar kind of a thing. The concept is based on antibodies. And I woke up the next morning and I felt so great, I wanted to rip that Superman shirt open. I wanted to come back. I wanted to start doing a new trade deal and campaigning simultaneously. They said, "Sir, how about taking it easy for a couple of days?" But no, it's incredible. What we've been able to do is ... and I don't even know.

Maybe now I'm saying, well, it probably wasn't the drug, it's just that I'm in such perfect physical condition. And I'm very young, if you're young, so I said that.

Donald Trump: [\(42:07\)](#)

And CNN got very upset [inaudible 00:42:10]. Their camera just went off, the light. They got upset. They said, "He is not young and he's not in perfect shape." I said, "I'm a great physical specimen." They didn't like it when I said that. They don't like those kind of things. No, but I don't know, maybe I helped, I don't know. But I can tell you it's incredible what they've been able to do. And I think it did help a lot, frankly, because I got out of there fast. I could have gotten out a lot sooner too. I wanted to go out almost immediately. They said, "Nice and easy, please, sir." But shows you, maybe I serve as an example, First Lady got it also and she's better. She's perfect. And Barron Trump, right? Barron, Barron got it. My young boy, he's 14 years old, my young, tall boy, I say, he's very tall. He's a good guy, good-looking guy and strong. So he has it. They say, "Sir, Barron tested positive also." I said, "Wow.

Donald Trump: [\(43:16\)](#)

Then I go, this was at the beginning, I go, I say to the doctor, like 12 minutes later, "Doctor, how's Barron doing?" "Oh, he's okay, sir, he sloughed it off." You know why, they're young and their immune system works. That's why I say, get back to school, get back to school. Get back to school, open up this state, Governor, open up this state. And don't take advantage of those ballots, Governor, don't do it, don't do it. We will terminate the virus with science, medicine and-

Donald Trump: [\(44:03\)](#)

We will terminate the virus with science, medicine, and groundbreaking therapies and cures. I watched Joe Biden speak yesterday. All he does is talk about COVID, COVID. He's got nothing else to say, "COVID, COVID, COVID." We agree. It's serious and we've done an incredible job. And at some point, they're going to recognize that. I said we've done an A+ job, but I give ourselves a D or maybe an F in terms of public relations, but now I'll start talking about it a little bit.

Donald Trump: [\(44:32\)](#)

When Joe Biden was Vice President, his failed approach on the swine flu was, as I said, a total disaster and his chief of staff said that he had no idea what he was doing. I don't know why this guy said this. And now, they're thinking about bringing him into the administration. I guess, probably this is maybe before the flu came along or something because I'm saying, "Why would he say this?" He goes, quote, "We did every possible thing wrong and 60 million Americans got H1N1," far less lethal, by the way, far less lethal. "And in that period of time, and it's just purely fortuitous that this isn't one of the great mass casualty events in American history." This is Biden's chief of staff. Think of what he said. Where did this guy come? You're going to bring him back? It had nothing to do with anything we did. We didn't do anything right.

Donald Trump: [\(45:32\)](#)

Now, think of this. And then he's saying, "We want to take over what you're doing." Right? He says, "We want to take over." Remember he said, when he first started running, that I did a poor job because I didn't act fast enough. I acted in January. We had almost no deaths. Think of this. And I said, "China is heavily infected. They can't come in." And I went up against Dr. Fauci and others that said, "No, no. You shouldn't do this. You shouldn't do it." I said, "Listen, they're infected, heavily infected. Let's close off China." So I did that. I closed off Europe. I did that and, Fauci will tell you, saved tens of thousands of lives. Much more than that.

Donald Trump: [\(46:12\)](#)

And then when you think, okay, we saved thousands and thousands of lives and then Biden is campaigning. And he was two and a half months later, he said, "We have to get tough," and he called me xenophobic because I closed. Two and a half months later, then he runs and he said, "He should've closed the country earlier." I said, "I don't think he's going to get away with that." And let's see what happens on November 3rd because, if something happens that's wrong where he did, then he did get away with that. Now, here's a guy, not the smartest guy out there and he never was, but now in particular he's not doing so well, but here's somebody that says that I didn't act early enough and, for two and a half months, he was scolding everybody saying that they shouldn't have closed off China, they shouldn't have done and that nothing bad is going to happen.

Donald Trump: [\(47:06\)](#)

But remember the statement from his ... That was his chief of staff made that statement. We mourn for every life lost to the China virus and in their memory and their sacred memory. We truly do. We mourn. It should've never happened. We will defeat the virus and emerge stronger and more unified than ever before. That's all we can say. We're going to be more unified than ever before. Our economy is now surging back faster, better, bigger, and stronger than any nation on earth. We just had the best quarter of economic growth ever recorded, by more than double. A 33.1% increase, more than our great number from 1952. That was the number we [inaudible 00:47:59] but more than double. And you know what? The press is refusing to talk about it. It's not even a major story.

Donald Trump: [\(48:07\)](#)

One of the analysts said today it was the greatest economic number that they have ever seen. GDP up 33.1%. That means it grew 33 ... in a quarter. And the press barely mentions it, not even on the front page of newspapers because that's the game they play. It's suppression. That's why we have to win. We can't let them do this. We have to win. This was according to a certain very important person, Larry Kudlow, who's a terrific guy and other people. Sir, this is the greatest financial number probably ever recorded in our country. Think of that. That's a big statement. And double, more than double a number from 1952 and it's barely covered. And that's only for one reason; because they want us to do very poorly on November 3rd. They don't want to tell the American public about this.

Donald Trump: [\(49:06\)](#)

The one advantage I do have is I do have a way of getting the word out, but it's very tough when they pick it up. Even this, they won't pick this up. I made a statement, strong statement. They won't pick it up because it's good news. They'll fabricate stories. They'll make up false stories. They'll put you number one on Twitter all the time, stories that aren't trending. These stories are so boring. They'll make up ... The Times will write false stories all the time, and yet they won't talk about the Biden corruption. They won't talk about where's Hunter and they won't talk about ... Don't feel bad. The cameras are all off. Don't worry. We just lost the last camera. I'm sorry.

Donald Trump: [\(49:52\)](#)

But they won't talk about the fact that Hunter got \$183,000 a month to sit on a board of Burisma and got perhaps \$3 million up front, who had no job, who had no experience in energy. They won't talk about the fact that the wife of the Mayor of Moscow gave him \$3.5 million. For what? They won't talk about the fact that the father went to China and Air Force to ... where's Hunter? Where's [inaudible 00:50:24]? I put his first name, his real first name is Where. We're going to make it Where. Where's Hunter was with him. And in 10 minutes, he walked out with \$1.5 billion to manage, which is millions of dollars in fees, millions and millions.

Donald Trump: [\(50:40\)](#)

And they won't talk about the fact that he was going for the big one next when China asked for \$10 million a year for introductory purpose. In other words, he was going to introduce people \$10 million a year. This is a payoff. That's all it is. And they won't talk about the fact that the father was the big guy. To me, he's not a big guy. Little guy. He's very slight. Remember when he said a year ago, he said, "I'd like to take him to the back of the barn?" I went like this. I'll take him to the back of the barn. The glasses. Next year will be the greatest economic year in the history of our country, if we don't raise taxes. If Joe Biden is elected, he will delay the vaccine, prolong the pandemic, close down schools and impose a nationwide lockdown. That's what they're talking ... Can you imagine going ... And we're making the greatest comeback of any country by far and they're actually talking ... He's talking about a lockdown. He has no clue, but he's talking about it. That's his only plan, to make you a prisoner in your home, a prisoner in your own country and, under the Biden lockdown, the recovery will be totally killed. The economy will crash. The country can't afford it. The people can't afford it, but country can't. Can you imagine? I mean, your state has to open up, too.

Donald Trump: (52:23)

All Democrat governors, you, Michigan, North Carolina, they're all Democrat governors and they're probably doing it because they want to affect the election. They're probably doing it, by November 4th, they'll announce, "We've decided to open up Pennsylvania. The Commonwealth of Pennsylvania will be opened on November 4th." No, because they can't be so stupid, what they're doing to people. And the countless people that will die from depression and drug overdoses and suicide and abuse and, really, a deferral of medical care. There'll be no school. There'll be no graduations. There'll be no weddings, no Thanksgivings, no Christmas, no Easters, no Fourth of Julys. There'll be nothing.

Speaker 2: (53:13)

No thanks.

Donald Trump: (53:14)

We'll be nothing. And one thing we've learned very recently, everyone likes the computers and the laptop and, oh, we can learn from the computer. You don't have to go. Well, now we've given it the all-time mass test. A child being in a classroom or, if you're older, a campus, even a college campus, but a child being in a classroom cannot be replaced by a computer. It can't. It doesn't work. It's no good. And they're losing potentially years out of their life and it's the important years. It's the development years, but the computers don't work. They're okay, but they're a small percentage and that's come out loud and clear.

Donald Trump: (53:59)

Telehealth, great. It's been incredible. I think it's a 7,000% increase and telehealth has been really great. It's going to have a great future, but not education. They have to be in their classroom with other students and they have to find their way in life. And this is no future for what they're doing in Pennsylvania, what they're doing in other states. This is no future for American youth. It's going to have a longterm impact on them. Biden's plan will destroy America. My plan will destroy the virus and make America greater than it's ever been.

Donald Trump: (54:42)

And the skyrocketing cases in Europe have shown Draconian lockdowns, and that's what they are, they're Draconian, do not stop the virus. They've done it. Italy was so locked down now. It's starting all over again. They just don't. It's a terrible thing that was unleashed on us and we should never forget what happened. We should never, ever forget that China could've stopped it. They stopped it from going into the rest of China, but not from going to Europe, the United States, and the rest of the world. We can never forget it, but the far left is determined to lock down America because what they crave more than anything else is power and control over you.

Donald Trump: (55:24)

Joe Biden has made a corrupt bargain. In exchange for his party's nomination, he has surrendered his party to the radical socialist left-wing extremists, anarchists, looters. Today's left tolerates no challenge and allows no descent. You see that. They have them locked down. That's the ultimate lockdown. You can do horrible things or you can do nothing wrong and they'll put in stories. I'm actually a victim of the opposite. I'm just thinking about when I'm talking to you. They do phony stories that are totally false and they'll put them up and there's nothing you can do. There's nothing you can do except explain it away. If you disagree with them, they try to humiliate you, smear you, and cancel you, cancel culture. Right?

Donald Trump: (56:14)

They control Joe Biden, and he's so easy to control, just like they control every Democrat house member and every senator. They purge newsrooms of reporters who do not swear allegiance to their false narratives. You've seen some reporters are extremely upset. They end up getting absolutely decimated. They censor stories that reveal the corruption of their chosen candidate. This is what's happened now and nobody's ever seen anything like it. Everybody knows that it's ... It's incredible. Nobody's seen anything like it.

Donald Trump: (56:51)

You don't read anything. You go to the Times, there's no story in it. You go to the Washington Post, you go to ABC, you go to NBC, the worst of all in my opinion, NBC. The home of the Apprentice. Made them a lot of money over the years, but they were bad. They were very bad. CBS has been terrible. CNN is just absolutely ridiculous. Thank goodness they have lousy ratings. Thank goodness. And I call it MSDNC. What they do is just absolutely ... It's not even thinkable. It's not even to be believed. They totally close it down and you can't have scandal when nobody's reporting about it. And the level of power is pretty incredible.

Donald Trump: (57:41)

And I heard this four years ago, "Sir, you cannot compete with big tech. You cannot compete." The networks were against us. It was the same group. And then I won. I said, "See, they're not very powerful?" But you know what? They are. And now they're at a level that nobody's ever seen before and they're blatant about it. Now they just say, "We're doing it." New York Times, they apologized to their subscribers because they were losing, after the last election, tens of thousands of subscribers and they wrote a letter of apology. I couldn't believe it. And they really got good for about two weeks and then they got worse than ever. I mean, it's every day, a phony story, after story, after story.

Donald Trump: (58:25)

They have a story about taxes. I don't pay taxes. And I just call my people, "What [inaudible 00:58:33]?" "Oh, no. You've paid many, many millions of taxes, sir, but you prepay your taxes." "Oh. Well, why aren't they mentioning it?" I prepaid millions and millions of dollars of tax. I prepaid. That's worse than paying taxes. I'm prepaying. I say, "Why do we prepay so much?" Because these are estimates when you're negotiating taxes. These are estimates. You're prepaying estimates. How much? Many millions of dollars, millions and millions, but they don't do that. We call them, we tell them and they say, "Well, that's prepaying." Well, prepaid is worse than ... right? I mean, how good is that? We're prepaying, but they don't put that in the story.

Donald Trump: (59:14)

These are very corrupt, very dishonest people. They tell you that writers are peaceful protestors because you're not allowed to have ... I had it yesterday in Minnesota where we were going to have over 25,000 people. And the Governor of Minnesota, radical left Democrat and the Attorney General, they said, "No, the most you can have is 250 people." To my people they said that. And so my people said, "So we're going to close it down." We had thousands of people. I don't know. You probably all saw it last night. We had tens of thousands. We were going to have 25,000, 30,000 people.

Donald Trump: (59:49)

And don't forget, they've done a terrible job in Minnesota where they let Minneapolis burn down. And they could've called us a lot sooner. We went in. Took us about, what, 25 minutes to solve the problem? No, we could've gone in there. We were willing. We called them. We were willing to go there immediately instead of having everybody running away. And they have a very good police ... or they had a very good police force, but they don't let them do what they have to do. And they shut it down. They said, "No, you can't have 25,000, but you can have 250 people." And I said to my people, "No, let's go. Let's speak in front of the 250." What I didn't know is that thousands of people were going, anyway. They just went.

Donald Trump: (01:00:30)

And I think that, had I done a regular rally with ... because we're getting 25,000, 30,000 people. We're getting much more than that in some. Nobody's ever seen anything like this. Laura Ingraham had a show last night. She said, "I've worked for everybody. I've worked for Reagan and nobody's ever seen anything like what's happening." It's a great thing. It's an incredible thing. This is supposed to be a little special speech, but you've never seen anything like this. Nobody's ever seen it. And what happened is, I think because of what they did when they said, "We're going to silence his voice," it turned out to be a much bigger voice, and I think we now are going to ... 1972, Minnesota hasn't been won.

Donald Trump: (01:01:14)

Between Omar, Ilhan Omar, who comes from Minnesota ... I think Omar, a couple of other things, the riots, but I think what happened is they made this into a massive event and people are tired of it. And I think we will win Minnesota. We were very close last time. And we should win it, when they let Minneapolis

burn. We should win it, but I think we're going to win it. And again, 1972 was the last time. Can you believe that? I think we're going to do it. We'll find out. You're going to know in about ... Well, I hope, based on the Supreme Court, they don't delay it too long, this decision yesterday. I will tell you, it was not a good decision. You're allowed to wait days to count and days to have the final count? You're allowed to have time limits beyond November 3rd? So what does this mean? The whole world and our nation is going to be waiting, and waiting, and waiting to hear who won?

Speaker 2: (01:02:13)
[inaudible 01:02:13].

Donald Trump: (01:02:16)

You're going to be waiting for weeks? And a very dangerous thing happens. November 3rd and now you have to wait and wait. And very bad things can happen with ballots during that period of November 3rd to whatever date they gave them. Many, many days. So you're going to be watching on November 3rd. I think it's highly likely you're not going to have a decision because Pennsylvania's very big and, as you know, there was another state, but perhaps other states involved. This is a terrible thing that they've done to our country.

Speaker 3: (01:02:49)
[inaudible 01:02:49].

Donald Trump: (01:02:49)

And that's the United States Supreme Court I'm talking about. That is a terrible, political, horrible decision that they made. We're going to be waiting. November 3rd is going to come and go and we're not going to know. And you're going to have bedlam in our country and you're going to have this period of nine days or seven days or whatever it is. And many bad things ... Ballots are going to be ... "Oh, we just found 10,000 ballots." "Oh, that's good." "We just found another 10,000." This is a horrible thing that the United States Supreme Court has done to our country. And I say it and I say it loud and I say it proud. We have to know who won. We have to know who won. They tell you the police officers are villains. This is the group. And they're heroes. No. These even tell you that your children must be indoctrinated to believe that the heroes who crossed the Delaware were driven by hatred and malice. They change your history. A vote for Joe Biden is a vote to give this radical movement absolute power and unchecked control over every aspect of American life. Joe Biden, who's not ... he's not all there. You should get a little bit of a larger frame, don't you think? No, there. I know those glasses. You've got to get a little ... I'll tell him. He doesn't want to have people look at that surgery on the eyes. It didn't work out.

Donald Trump: (01:04:29)

Joe Biden and the socialist left are absolutely convinced of their own moral superiority. I don't know if he is, but they are. He isn't. Look, let's face it. He's shot. Same [inaudible 01:04:46]. Who said that? Who is that? That was exact timing, right? You copied me from another [inaudible 01:04:56]. While their agenda devastates the poor and ... The American middle class will be devastated. They support crippling shutdowns that crush the blue collar jobs while they stay home and work. They close down your schools, your children while they hire private tutors for their children. They ban you from going to church while they let left-wing extremists burn down your church. You can only meet if it's a protest. So you know what we do? Even in this [inaudible 01:05:32]. I call this a protest. Otherwise, they don't let you meet. You can't go to church, right? You can't go to church. What they're doing to our churches and our synagogues and all of that is just terrible. You see what's going on. Even when the church wants to go into a field and stay apart, they say, "No, you can't do that." It's a terrible thing. They lecture you on the need for open borders that flood your cities with illegal drugs and gangs while they, themselves ...

Donald Trump: (01:06:03)

Borders that flood your cities with illegal drugs and gangs while they themselves live in walled-off compounds. They want to defund your police and confiscate your guns simultaneously, while they themselves are protected with armed guards. No, we will protect your second amendment 100%.

Donald Trump: (01:06:21)

There is only one way to preserve, protect, and defend the American way of life. You must show up on November 3rd, okay? Don't worry about the first or second, because I know you too well. The Biden/Harris economic policies of increasing taxes and regulations, biggest tax increase in the history of our country is what they're proposing. Would pulverize our middle-class. Their plan is projected to hammer the typical American family's income by over \$6,500 a year in the Wall Street Journal. By contrast, I cut taxes and regulations at a level nobody's ever done before, and raised middle-class families incomes' over \$6,000 in just three short years. And that's not including energy, which is a tremendous, what we've done with energy is tremendous. Joe Biden has pledged a \$4 trillion tax hike, socialized medicine, an avalanche of job killing regulations, a return to globalist trade deals. And he vowed the total destruction of the Pennsylvania oil industry and fracking, fracking has gone. Fracking is gone. Man. He said that loud and clear for a year until he realized that he has to win in Pennsylvania. But fracking is dead because they're side it's dead.

Donald Trump: (01:07:55)

You saw AOC go out and say, no, no, no, you can't say that when Biden switched and he never had one question from the press, how could you say it for a year, and then all of a sudden switch when you walk into Pennsylvania. Now, fracking would be dead. Joe Biden's plan to abolish American energy is an economic death sentence for Pennsylvania. A vote for Biden is a vote to ban fracking and to send your state into a nightmare of poverty and depression, that's what's going to happen. It's your single biggest industry by far, probably a million jobs one way or the other and what it would do to our country because our country has low energy costs. You and Texas and others. Think of Texas. He's running in Texas. We're doing very well in Texas, but if you believe the fake news, they'll tell you, "Oh, it's very close." It's not close at all. And it wasn't close four years ago. Think of Texas. It's very close.

Donald Trump: (01:08:51)

He's against oil, he's against guns, and he's against religion. And then they say, "Texas is very close." Think of that, right? He's against oil, guns, and God, Texas is very close, too close to call. I don't think so. I think Texas, Texas is going to be very strong for us. Can you imagine going into Texas, say we're going to take your guns away, and by the way, we're going to close up every oil well that you have. Vote for me, vote for Joe. I don't think so. I don't think so. If Biden wins, there will be no fracking, no oil, no natural gas, no jobs, and no future. Under Biden, gas prices will explode, family incomes will plummet, and the fracking industry will be outlawed forever. Forever. With your vote, I will cut middle-class taxes even more. I mean, we cut them at the highest level in the history of our country, even more, and you saw what it did. That's why we're coming back so quick, because we have a strong foundation, a base.

Donald Trump: (01:10:03)

And I will always defend and promote Pennsylvania energy. And there will be no more lockdowns. We're not going to have lockdowns. We will never lock down again. Joe Biden would appoint the most radical left wing cabinet in history. Beto O'Rourke will be in charge of gun confiscation. Elizabeth Pocahontas Warren will be in charge of the United States Treasury, according to what they say. AOC plus three will run the climate policy. I wonder if she ever even took a course in climate? I don't think so, I didn't say it, you did. This can only happen in Pennsylvania. Don't forget, I went to school here. He likes to throw around the Pennsylvania thing. Look at it differently. He abandoned Pennsylvania. He went to Delaware, but I'm not blaming. He was nine years old or something, you can't blame him for that, right?

Donald Trump: (01:11:05)

But he left Pennsylvania. I went to school in Pennsylvania as you know. Representative Ilhan Omar will be running Homeland Security. How do you like that? Who knows? I just said that one, but you know what? I wouldn't be surprised. Ladies and gentlemen, we're pleased to announce Ilhan Omar to run national security. She's going to run. She's going to be guarding our border, where we just had the best numbers we've ever had by the way. People can come into our country, we want them to come in. They have to come in legally and they have to come in through merit.

Donald Trump: (01:11:43)

Just imagine the insanity that will ensue. If Pelosi is speaker, Schumer is, Crying Chuck, majority leader. Kamala Harris, she makes Bernie Sanders look like a very strict conservative. Kamala, got to say the name exactly right or they excoriate you. So you have Kamala running the White House. Well, she already said that, right? She said that it's the Harris/Biden. He actually said that, that was scary. He said under the Harris, I never did that. I never said under the

Pence/Trump administration. And I love Mike Pence. You know what? But I said, "Mike, that far we can't go." But he said, he may never say, he also said he's running for the US Senate two or three times. He said, "I'm a proud Democrat." This is like three, four times. "I'm a proud Democrat running for the US Senate." And we said, "No, Joe, you're running for president." "Oh, okay."

Donald Trump: [\(01:12:51\)](#)

Is this whole thing, I mean, can you believe that, this could only happen to me. And how are you doing? We're tied. We're tied? How can I be tied? We're tied. He said four times. The other thing he does badly, haven't done it yet, I hope I never do, but he'll be making a speech in Ohio, ladies and gentlemen of Iowa, it's proud to be. The worst is when he's making one in Miami with the palm trees. The beautiful palm trees. "Ladies and gentlemen of Ohio." He's made that many times. And you know what I always say? Winston Churchill was a great, great orator, right? Amazing orator, amazingly, because he was a stutterer in his life. He was a stutter and became a great orator. You could give a speech equal to the best that he's ever made. And if you made the mistake in saying welcome, like we're in Pennsylvania, it's great to be in New York. It doesn't matter how good your speech is, it's over. Just walk off, it's over. But he does it all the time, and nobody even says it. No, he is shot.

Donald Trump: [\(01:14:04\)](#)

Under my leadership, we achieved. And he's not a nice person. You know what? If he were a nice person, they do commercials on me that are so false. Like with the soldiers, that's the biggest insult to me of any thing that's probably ever happened, like with the soldiers and other things. This so falls based on a phony magazine, an Obama type magazine, that's doing badly. They did a commercial, and we notified them. And we had 26 witnesses, real witnesses. And every one of them is furious, but he's not a nice person. So because he's not a nice person, I don't mind saying exactly what I'm saying, which as you know is the truth. He was never considered smart in his prime, but now he's really off. And you can't have him as your president because he'll destroy our country. He'll destroy our country. And it probably won't be him because by the time he gets sworn in, he'll be pretty much like it'll be over.

Donald Trump: [\(01:15:08\)](#)

25th Amendment. Do you think they were talking about me? No, they weren't talking about me. When she brought that up, they're talking about how to get Kamala in there as fast as possible. And nobody treated him worse than her. If you looked the debate, Kamala was failing fast, she was going down like a rock. Normally you pick somebody that's going up. She didn't even make it to Iowa, right? Nobody spoke worse about him, and that's the one that they pick, but they want to get the radical left. They'd love to get her in. And that will be a very, I don't know. I don't know if you can never come back from a thing like that.

Donald Trump: [\(01:15:41\)](#)

I'm not sure that a country, you look at Venezuela, you look at what's going on, where it was the richest, it was so great 20 years ago. Now, they don't have food. They don't have water. They don't have medicine. Under my leadership, we achieved the most secure border in American history, the wall. Biden's planned to admit unlimited low wage foreign workers will slash incomes, surge unemployment, and devastate the middle class, all to enrich the globalist donors. As president, my only special interest is you. That is true. My only special interest. To protect our national security, I also suspended the entry of refugees from foreign nations compromised by terrorism, just call up President Macron as I do often, and ask him what's happening over there? You saw those horrible attacks this last week, more than one. We're keeping radical Islamic terrorists the hell out of our country, if I have your approval.

Donald Trump: [\(01:16:49\)](#)

Biden has pledged a staggering 700% increase in refugees. This is a deal made between Biden and Bernie Sanders. Crazy Bernie, the manifesto we call it. There's a document, a very thick document, naming things that they're all horrible, but they've agreed. 700% increase in refugees from the most dangerous and violent terrorist hotspots anywhere on Earth, including Syria, Somalia, and Yemen. These are some of the most dangerous places in the world. 700% increase. This is agreed to. This isn't like, oh, this is talk. This is a manifesto. It's a document.

Donald Trump: [\(01:17:33\)](#)

He's also vowed to terminate our national security travel bans, allowing for unlimited migration from war zones and terrorist havens. Biden's extreme migration policies will open the flood gates to terrorists, jihadists and violent extremists. You don't have to worry about it, just get out and vote on November 3rd. Under my administration, I had the ban passed, right? And it was approved by the United States Supreme Court. There, they did the right thing. Under my administration, the safest of our families will always come first. That safety, we want safety, has to come first. The Secretary of Defense under President Obama, Robert Gates, said that Joe Biden has been on the wrong side of every foreign policy issue in his lifetime.

Donald Trump: [\(01:18:19\)](#)

President Obama used to say that if you wanted something really screwed up, give it to Joe Biden to handle. This is the guy that we have running. In fact, Obama tried to keep Joe from running. He was very famously quoted as saying, "Joe, you don't have to do this. You don't have to do this, Joe, don't do it. You don't have to do this." I could see that. And then wouldn't endorse him until long after the primaries had ended and Joe has lost. Think of it. He wouldn't endorse him. He was a vice president, wouldn't endorse him. Made all these terrible statements, wouldn't endorse him. And then even after he won, it was months before he endorsed him, because he didn't want to see it happen. I think he's probably the most surprised person on Earth, Obama. And they said, "Sir, Obama's going to start campaigning for him," a couple of days ago. I said, "That's okay. That's good. He campaigned for Hillary. How did that work out?"

Donald Trump: [\(01:19:22\)](#)

And his crowds are extraordinarily small, just so you understand. They're not big. They're like 22 people, 18 people. For months, Joe Biden and Kamala Harris have been inciting violence against police officers and riots, like those carried out by Biden supporters in Philadelphia. Look at what's going on in Philadelphia. They should call us into Philadelphia. We'll solve the problem, or let their police handle the problem. Let their police handle the problem. If elected, the Democrat ticket will pass legislation to end cash bail, create sanctuary cities nationwide, and defund police departments all across America. In a second term, we will increase funding for law enforcement. We will hire more tough one crime prosecutors to put violent offenders behind bars.

Donald Trump: [\(01:20:14\)](#)

For 47 years, Joe Biden betrayed African Americans at every turn. He took your votes. He took you for granted, and then he shipped away your jobs and flooded your cities with cheap foreign labor. He devastated black families with his 1994 crime bill that really locked up tens of thousands of African-American men with unfair sentencing. And he called African American young men, super predators all the time. He would say super predators, a name that has always been something, there has been no name that they've hated more. They hated it with Hillary Clinton and they hate it with Joe Biden. Super predator, the term super predator. That was his term. He forged close relationships with pro segregation lawmakers and his trade deals decimated the black middle class. Joe Biden cares more about refugees living thousands of miles away that he does about Black Americans living in Philadelphia, Milwaukee, Detroit, Baltimore, Oakland. He's done nothing. And then he says to me, "Oh, we should do this." I said, "Joe, again, always, so easy." 47 years. But he left. It was only three and a half years ago. So this wasn't a long time ago.

Donald Trump: [\(01:21:41\)](#)

I reversed the injustice of Biden's crime bill by signing landmark criminal justice reform, prison reform. And under our recently announced platinum plan, we will create three million new jobs for Black Americans, increase access to capital, restore safety to every neighborhood. And we will deliver school choice to every parent in America.

Donald Trump: [\(01:22:08\)](#)

And I'm also fighting every day for Hispanic Americans. This week, I announced our American Dream Plan, and we're doing very well with Hispanic Americans. You see that? They're saying, "What's going on in Florida, right?" They like me and I like them. And we're doing very well with the Black community. They like me now, they're getting to know me better, but I've always liked them. The American Dream Plan, which creates over a half a million new Hispanic owned small businesses and jobs and going to be fantastic for our Hispanic Americans, great people.

Donald Trump: [\(01:22:45\)](#)

My administration is also standing proudly with the people of Cuba, Nicaragua and Venezuela, and their righteous fight for freedom. Biden sided with the brutal

socialist and communist regimes. You said what he did. You said that horrible deal that was made with the United States by Obama and Biden. I don't think Biden probably was too involved, if you want to know the truth, keep him out, but it was a terrible deal. It was like the Iran deal. Here's 150 billion for nothing. As long as I'm president, America will never be a socialist country, will never be.

Donald Trump: [\(01:23:22\)](#)

This year I've laid out the boldest and most ambitious second term agenda in history. We will create 10 million new jobs in the first 10 months, 2021, we will have 10 million jobs over the next four years. We will make America into the manufacturing superpower of the world. We will expand opportunity zones. We will bring home our medical supply chains they're all coming home. And we will end reliance on China once and for all. We will defend religious liberty, the right to life, and the right to keep and bear arms. And we will restore patriotic education to our schools.

Donald Trump: [\(01:24:11\)](#)

In our debate last week, Joe Biden said that America has, "Never, ever lived up to our founding ideals," right? And he said it was an idea, it was just an idea. No, America's a great country. The United States is a great country. It's not an idea. It's a great country. Pennsylvanians know the truth more than most. When you think of the great history of this state, from Washington's crossing and Independence Hall in Philadelphia, to the Quakers who ran the underground railroad. From the union soldiers who lay at the rest and you lay at rest, they lay at rest in Gettysburg. What a place, Gettysburg, one of the most beautiful places and so gruesome for a period of time, never fight uphill my boys, right? He said, "Never fight uphill me boys, never fight uphill." They fought uphill.

Donald Trump: [\(01:25:05\)](#)

To the workers of Bethlehem and Allentown who forged the steel that won World War II. America is the story of everyday citizens who have given everything to help this country live up to the highest ideals. My fellow citizens, you deserve a president who believes in America, a president who loves our country, and a president who loves you. Everybody knows that Joe Biden is not equipped to lead America. To Republicans, Democrats, and independents across this state, across this nation, I am asking for you to honor me with a vote that's going to make our nation greater than ever before. I will continue to fight for you with every breath in my body, and with your support on Tuesday, we will show the world that for our country and for our children and for the incredible people of Pennsylvania, the best is indeed yet to come. Thank you very much. Thank you.

Donald Trump: [\(01:26:23\)](#)

President Donald Trump: [\(02:29\)](#)

Oh, what a crowd. This is some crowd. Wow. This is a big crowd. Well, thank you very much. This is a great crowd. We have a lot of great crowds. It's something happening. You're going to see that on the third, although the Supreme Court would probably like to delay it for a long time it looks like, but we're going to have a tremendous victory. It's going to be a victory like none other. It's the most election of our lives. Hello, Michigan. How are you doing, Michigan? How are you doing? It's cold, but I feel very warm in this group. This a great group. Four days from now, we are going to win this state and we are going on to win four more great years in the White House. We're going to have it. We're going to have it. Unless there's something that we don't see. I'm watching these Biden rallies. It's like there's nobody. Of course, he says that they want to do it that way on purpose. The problem is nobody shows up. They were putting on the screen our rally, that's you, you're all famous, very famous. And his rally, there was nobody. At least he's doing a rally. He got out of the basement so that's good.

President Donald Trump: [\(04:03\)](#)

With your support, we will continue to bring back your jobs, cut your taxes, cut your regulations. Support our great police, support our military, defend our borders, protect the second amendment, which is under siege. Protect always religious liberty and ensure more products are proudly stamped with the wonderful phrase. You know what it is? Made in the USA. That's happening more and more. Thanks to our historic campaign to slash red tape and mobilize industry. We will deliver a safe vaccine to the American people in just a number of weeks, a couple of weeks. It's happening very fast, great companies. The greatest companies of their kind in the world. And we've got plenty of them there too.

President Donald Trump: [\(04:55\)](#)

Seniors will be first. We make seniors first, right? Thank you. Thank you very much. Thank you. They say, "Will you be the first one to take it? You know it's a no-win situation. If I say yes, "They'll say he demanded to be first." If I say no, they'll say, "He had no courage." Now we're going to take care of our seniors first. We're going to take care of our doctors and frontline workers, everybody. And by the way, without it, we're still rounding the corner. We have it, but without it, we round the corner and it will be available free. We're doing the vaccine free. And the reason is that this wasn't your fault. This wasn't anyone's fault. This was China's fault.

President Donald Trump: [\(05:38\)](#)

Just remember it. Our vaccine will eradicate the virus much more quickly and end the pandemic quickly, quickly, quickly, because we want to have our life restored. Just a normal. That's all we want. That's all we want, normal. We just want normal. Bring us back seven months. That's what we want, right? And that's what the whole world wants. Look what's happening in Europe. It's terrible. It's terrible. What China has done to this world and just remember it, just you remember it. And next year will be the greatest economic year in the history of our country. You see what's happening.

President Donald Trump: [\(06:13\)](#)

33.1%. Nobody can blame you. They can't believe it. They don't like talking about it. You know they don't like talking about it. They have a new thing going. It's called ... Thank you. Thank you. You hear that, Ben Carson? You hear that, Ben? I'll tell you. Nobody's ever heard that before politically. Maybe for Ben Carson. I don't know, maybe. I love Ben Carson. Thank you, Ben and Candy. Thank you. Thank you, Candy.

President Donald Trump: [\(06:55\)](#)

Joe Biden is promising a long, dark, painful winter. Did you see him at the debate? Did anybody see the debate by any chance? No, he said, "A long, dark winter." Oh, that's great. That's wonderful. That's just what our country needs is a long, dark winter and a leader that talks about it. I didn't have the privilege of going to my basement in the White House. I didn't have the privilege of going to a beautiful room on the second or third floor and staying there for a year and a half because I'm president of the United States. So I didn't have that. I had to do my job.

President Donald Trump: [\(07:35\)](#)

And I said, "You know, I could catch this thing. And if I do, I do, and I'm going to get better fast." I didn't know I was going to get better that fast. That was pretty good. That was like in and out. And I had a dose. I wasn't feeling great, but I got better. And it used to be they would say, "You have lifetime immunity." You're immune. Now it's different. Because it's me they say, "I'm good for four months." Okay? They brought it down from lifetime to four months, but that's okay. I'll take it. But you know what? You have to do your job. You have to get back. You have to open up your states, right? You have to open up your states.

President Donald Trump: [\(08:13\)](#)

We got to get our governor to open up our state here, don't we? Ah, don't worry. On November 4th, they'll announce all these states, all these Democrat run states will be open. Not me. Not me see. They blame me every time that happens. Every time I mentioned her name, Crooked Hillary's name, Joe Biden's name frankly. And where's Hunter? Where's Hunter? There's Hunter right there. He's out by the truck. Look at him make a couple of bucks Hunter. Hunter's done very well for an unemployed person for years. For years unemployed and then he hit pay dirt. His father became vice president and Joe had pay dirt too. That's part of the problem.

President Donald Trump: [\(09:14\)](#)

I'm delivering the great American comeback. That's what we're doing. We built the greatest economy in the history of the world. Best unemployment numbers, best everything. We had 160 million people employed. We were never even close to that number. And then one day we saved two million lives. We had to close it up. How about that decision? Oh, how horrible to have to make it. We understood the disease. We learned the disease. We have to protect our seniors, especially if they have problems with the heart or diabetes. We opened it up and now we're at a level. I used to talking about the V, this is a super V.

President Donald Trump: [\(09:55\)](#)

This is the biggest number, 33.1. And the news doesn't want to talk about it because it's positive. They only want to talk about negative when it comes to us. But 33.1, the biggest number in our country's history by like double, but it's much more than double. And you'd have to go back to 1952 to get anywhere close, but you know what close is? About a 17-point spread. This election is a matter of economic survival for Michigan because Joe Biden. Look at what they did during their eight years. And you know I said during the debate, 91 to nine, 91 to nine. You know what that means? That was a poll. How did Trump do in the debate? 91% for Trump, nine.

President Donald Trump: [\(10:44\)](#)

Nine sisters. Look at these beautiful sisters, huh? They like Trump, but I liked them. They even have a Trump flag. Look at that Trump flag. That's beautiful. It's so beautiful. And you know we're working very hard with Little Sisters of the Poor, right? You know about that. Your friends. That's great. That's great. It's great to have you. Thank you very much.

President Donald Trump: [\(11:10\)](#)

Joe Biden is going to lock down your state, wipe out your factories, ship out your jobs, bring things to China whatever they can, punish your family with a trillion. Think of this. A trillion dollars times four, \$4 trillion tax hike. We gave you the biggest tax reduction in the history of our country. That's the good news. The bad news is he wants to give you the biggest tax hike in the history of our country.

President Donald Trump: [\(11:40\)](#)

He wants to eliminate private healthcare. We have 180 million people who have private health care. They've fought for it all their lives. They have great, great healthcare. He wants to end it and it's not going to happen. We're not going to let it happen and send your state into a very deep recession. But see, I think it's worse. I think it's depression. I just hate to use the D word. Let me just tell you something. How good have I done in bringing car companies here to Michigan? You went 42 years without a car plant. You were losing all your plants. 12 years ago, I was named Man of the Year of Michigan. Can you believe it? Long before I thought about it.

President Donald Trump: [\(12:20\)](#)

And I got up and I made a speech. I said, "You're losing all your car business. Somebody gave me a list. You lost 32% of your car business to Mexico and other places." And now we're bringing it all back. You have many, many factories now under construction, expansions of existing. You haven't had that ever. And then Biden. And remember this, I only ran because of Biden and Obama. If they did a good job, I wouldn't have run. And I guess I wouldn't have won either, but I wouldn't have run. They did a lousy job. I watched them now. "I'm going to do this. I'm going to do that." What the hell didn't he do it? Why didn't he do it?

President Donald Trump: [\(12:58\)](#)

Sleepy Joe and that was when he was a little bit better, a little bit more awake. He's going to do what he hasn't done in 47 years. I'm going to do it. That was so easy that debate because he hit me with, "I am going to do this." And I just kept saying, Joe, "Why didn't you do it?" And it was three and a half years ago. It wasn't like a long time. It was three and a half years ago. Biden has vowed to abolish the entire US energy industry, right? No fracking. Guy went for a year and a half. No fracking, no fracking and then he goes to Pennsylvania. "Of course, we're going to frack." And the press, the fake news never asks him about it. No energy and you're going to have gas prices.

President Donald Trump: [\(13:41\)](#)

This is not great for selling your beautiful cars. Gas prices of \$6 and \$7. Right now it's nice to be under \$2, isn't it? You never thought you'd see that. You never thought you'd see that. Biden's running made America's most liberal Senator. She makes Bernie look like a conservative. Crazy Bernie is like a conservative compared to her. She even Kamala, you have to pronounce it exactly right, otherwise she gets very upset. Even though she can't pronounce it right. You saw that the other day.

President Donald Trump: [\(14:19\)](#)

I think that was actually, that was on the great Laura Ingraham Show. Actually, I watched that. And I do believe Laura Ingraham is here someplace. Where is Laura? Where is she? Where is Laura? I can't recognize you. Is that a mask? No way. Are you wearing a mask? I've never seen her in a mask. Look at you. Whoa, she's being very politically correct. Whoa, whoa. I've never seen. Laura Ingraham. She's fantastic. Thank you, Laura.

President Donald Trump: [\(14:55\)](#)

Ah yes. I've never seen that before, but even sponsored the ruinous Green New Deal. How about that? Knowing nothing about the environment. It'll cost a \$100 trillion. Does you know what a 100 trillion? Let me put it this way. You could take all the countries in the world, that can't afford it. While I'm president, America will proudly remain energy independent. You know we're independent now. We don't need to be going all over the world. We don't need to be going all over the world.

President Donald Trump: [\(15:23\)](#)

Biden will eradicate the economy. I will eradicate the virus and make the economy better than it's ever been. That's where we were. Now we're doing it again. And let's face it, he's shot. Do you agree with that? I can say that. I'm not a fan of his, never was. He was never known as the smart one in the Senate. He was a touchy-feely guy, a little personality. He had a good personality. Now the personality's gone and a lot of other things are gone. He'll deliver poverty, misery, depression. I will deliver jobs, jobs, jobs, good ones too. Yesterday it was announced that last quarter when our economy, you know when this was announced, it was a tremendous announcement. The problem with it was that we didn't get the kind of coverage that we should've. So in the history, think of it, in the history of our country, GDP went up to 33.1 in the history. And it was hardly mentioned. It's amazing.. a friend of mine, very smart said to me, "Oh, they won't talk about it." It's never been done before, right? "They won't talk about it because they don't want you to win because they're sick and they're corrupt. They don't want you to win."

President Donald Trump: [\(16:37\)](#)

In the last five months, we've created a record 11.4 million jobs. The most jobs in a short period of time ever created. And we also built the greatest economy in history and now we're doing it again. See all those hats? Make America great again again. Make America great again again. But if Biden wins, the recovery will end and a long economic nightmare. Just like he said on the debate, "You're going to have a dark winter." That was really depressing. It was even depressing even though he did so badly in the debate, I was depressed because I said, "It's such a depressing thing he said."

President Donald Trump: [\(17:18\)](#)

I like the last statement the best, right? Wasn't that the best? We said, "That means you don't want oil." "Yes, we are going to get off oil." I said, "I felt like Perry Mason." You know it's always that last question. It's always the last question you know the guy, "Yes, I'm guilty. I'm guilty." And then they end the show or they go to a commercial. I said, "This is the biggest thing that happened tonight." And even Kristen Welker who I thought did a fair job. Okay? I really did. A lot of people thought she was much tougher on me, but that we expect. Okay?

President Donald Trump: [\(17:52\)](#)

And she looked at him and she goes because she's on his side, not his side, she's on a Democrat radical left side, but she still did a relatively fair job. She said, "Why did you say that?" It's like why? Like, "Why the hell did you say that? What the hell is wrong? I'm protecting you all night and now you end the debate. Can we keep it going for another 20 minutes?" No, I didn't want to do that. Joe Biden spent the last 47 years outsourcing new jobs, opening your borders. He wants open borders. You don't have borders, you don't have a country.

President Donald Trump: [\(18:26\)](#)

And sacrificing American blood and treasure in endless foreign wars. We're bringing them all back home, many of them home. Very, very few left. Were bringing them home. Got to fight the military-industrial complex. Eisenhower would talk about it all the time. The military-industrial complex. They don't like

them coming home, but they've been brought home and Afghanistan. 19 years I think as long enough, but we're serving as policemen, right? We got the greatest soldiers in the world. We're serving as policemen. They have to have their own policemen. We have our own policemen. They're the greatest people we have, right? The greatest.

President Donald Trump: [\(19:02\)](#)

They're the greatest people we have, right? The greatest. He's a diehard globalist who cares nothing for the working people. He's never cared for the working people. China's been ripping you off for years, now you know why. He gets paid by China. He repeatedly tried to cut Medicare and Social Security. Over the years, Biden was a cheerleader for NAFTA, sending your auto jobs all over the place, but in particular to Mexico. Mexico is a big auto monster right now. USMCA, we did such a good job on that one.

President Donald Trump: [\(19:36\)](#)

He voted for China's entry into the World Trade Organization. One of the worst things that ever happened to our country. The best thing that ever happened to China. They were flatlined, and then they joined and they went like a rocket ship. Thank you very much, Joe. Great job you did, Joe. Gutting your industries to finance China's rise. You see it. They still have empty buildings around. From your state in particular.

President Donald Trump: [\(20:01\)](#)

Half of all of Michigan auto manufacturing jobs were eliminated. Think of it. You lost 50% of your jobs because of these guys. It's him and his group. And then he says, "We're going to do this." He'll come and say, "Yes, we did this." He did nothing. He destroyed your industry. But I brought it back and you are doing great. And now, amazingly, and I still haven't figured this, one auto production's much higher than it was before the pandemic. Could somebody in the auto business please explain that one to me? Because I'm taking full credit for it, but even I don't get that one. I think you're at 130%. You're at 130%.

President Donald Trump: [\(20:41\)](#)

Look at that sea of people, I hope they can hear me over there. Housing starts and housing sales. It's incredible. But the auto, it's at a number that nobody can believe. You're doing good. In other words, you're all doing good. It's a pandemic and you're doing good. You got to get this governor. You got to get her to open. I am so tired of watching her husband go sailing. He wants to go sailing. He's saying, "Darling, open up this state. I want to go sail." But he was doing it before. And fortunately he got caught. Remember, he got caught? His neighbors turned him in. Can you believe it?

President Donald Trump: [\(21:22\)](#)

At every turn... I don't think she likes me too much. What do you think? Do you think she likes me? I don't think she likes me too much. And I've done a great job for her. You know what, on COVID, the China Virus, I've done a phenomenal job for her.

President Donald Trump: [\(21:37\)](#)

At every turn Biden twisted knife into the back of Michigan workers and workers all over the country. In 2016, Michigan voted to fire this corrupt political establishment and you elected an outsider as president who is finally putting America first, if that's okay. Is that okay? If I don't sound like a typical Washington politician, it's because I'm not a politician. If I don't always play by the rules of Washington and the Washington establishment, it's because I was elected to fight for you and I fight harder than any president has ever fought for the great people of this country.

President Donald Trump: [\(22:27\)](#)

I'm not just running against sleepy Joe Biden, I'm running against the left wing media, the big tech giants. You see how crooked they are. How crooked are they? They made a mistake by not putting it... Here, you have the biggest story there is, corruption by Joe Biden. Forget about the son, by Joe Biden. But the son, the same thing. Look, even if Joe didn't get the 10%, or the 50%, that he was promised, listen to this. The son walks in. He had nothing. He had no experience. He gets a job for 130,000 a month on Burisma, and he gets, they say, a \$3 million upfront payment. That sounds reasonable. Would anybody else take that job? A month. And he knew nothing about energy. Other than that, it sounded fine.

President Donald Trump: [\(23:13\)](#)

Then he goes to China, he picks up \$1.5 billion, he gets fees on that. That's millions of dollars a year. And then they give him three and a half million from Moscow. The mayor of Moscow's wife gives him three and a half million. You don't even hear about this, because they refuse... In fact, they just turned the cameras off. They refuse...

President Donald Trump: [\(23:39\)](#)

You can't have a scandal if they don't report it. So the Times and the Washington Post and all of the fake news, CNN, look, they turned the cameras off. [crosstalk 00:04:50]. It's a terrible thing. They turned the damn cameras off [crosstalk 00:24:04].

President Donald Trump: [\(24:03\)](#)

You know what happened? They go, "We're here live at Joe Biden..." He's doing a thing. There's nobody there. I'm looking. They're showing the sea of people, 25,000 people. They're showing it's like a sea, and the other one their looking and there's nobody there. But they've gone to that rally, and Fox has gone to. I don't know what the hell happened to Fox. What happened to Fox? Boy oh boy.

President Donald Trump: [\(24:31\)](#)

Well, we still have a few great ones at Fox. We still have a few great ones. It's not like it used to be. Biden is the... That's one of the biggest differences between this campaign and the campaign from four years ago. We're doing better now than we ever did. There's more enthusiasm. The crowds are much bigger. There's more enthusiasm. But Fox is the big difference. Somewhere along the line we lost Fox, and that's okay. That's all right. But that's the big difference.

President Donald Trump: [\(25:05\)](#)

The big techs, I'll tell you, the big techs are much worse. When I heard how bad they were and I heard you can't win without them, they're so powerful. And then we won. I said, "Why are they powerful?" Now they've gone totally nuts.

President Donald Trump: [\(25:16\)](#)

Mark Morgan, one of our top people in the border, we've had a great border, he was showing how great the wall is. You know, we're almost finished with the wall and how it's working. And he said the success, you've probably heard this, he said the tremendous success that we've had... And all he's doing is he's not talking as a politician. He's so proud of the job because people aren't getting into our country, murderers and rapists and all, they're not coming into our country anymore.

President Donald Trump: [\(25:41\)](#)

We're working very closely with Mexico. They have 27,000 troops on the border. And Mark Morgan is explaining how great this wall has been. It's going to be finished very soon, much sooner... They're going crazy because they never thought we get it built. That's why they don't talk about it anymore. They don't talk about the wall. They used to talk about it. Now they don't talk about it anymore.

President Donald Trump: [\(26:01\)](#)

But Mark is talking about how incredible the border security... And they took down his tweet and they wanted to close him up. All he's doing is saying we're doing a good job and he's not a politician. He's saying he's doing a good job. They took down his tweet and they got the hell knocked out of them, and they put it back up, I understand. But this is really bad.

President Donald Trump: [\(26:21\)](#)

They don't do that to liberals. They don't do it to liberals. They don't ever do it. They don't touch them. It's very unfair. And a lot of things are happening. Biden is the candidate of anarchists and rioters and looters and gun grabbers, flag burners.

President Donald Trump: [\(26:36\)](#)

We out to put people in jail for a year when they burn our flag. What the hell is that all about? I see them burning a flag. They ought to have, you burn the American flag, you go to jail for one year. It would be amazing.

President Donald Trump: [\(26:54\)](#)

I signed the law. You knock down a statue or a monument, you go to jail for 10 years. It's amazing how that stopped. It's amazing how that stopped, isn't it? But it's the lobbyists, special interests.

President Donald Trump: [\(27:07\)](#)

I'm the candidate of police officers, the middle-class, law-abiding hardworking American patriots, and others. I mean, look, I think I'm the candidate of everybody. I think you got everybody here. I know a couple of rich people. Get them the hell out of here, we don't want them.

President Donald Trump: [\(27:29\)](#)

This election will decide whether we restore the rule of a corrupt political class or whether we declare that in America we are still governed. We are the people. We govern. We govern. We're the boss. We're the people.

President Donald Trump: [\(27:45\)](#)

My opponent supported the job killing Transpacific Partnership. Would have destroyed your automobile business. And I ended it immediately. In fact, crooked Hillary was in favor of it and when she heard me speak about it, she immediately turned against it, but she would have done it.

President Donald Trump: [\(28:01\)](#)

He supported the horrendous South Korea Trade Deal that was supposed to produce 250,000 jobs. And it did, for South Korea. It wasn't so good for us. I read negotiated it. We made it good. We made it good. We kept the 25% chicken tax. You know about the chicken tax, right? That's on the small trucks. And you're doing well with small trucks. That's your best product from a profitability standpoint. It would have been a tremendous crushing blow to the auto workers. And I want to thank the auto workers because despite your leadership... Your leadership stinks, I'll tell you. All they want is their dues. Pay us dues. They want an increase in dues. They like their life. They like this.

President Donald Trump: [\(28:44\)](#)

But the workers, the auto workers, they support me like crazy. The Teamsters, you have this guy Hoffa, he calls up, can you help him with a trucking company, some trucking company, big, beautiful company, great people, many, many thousands of employees. Can you help us with that? And I said, yeah, I can probably do it. I worked it out so that people didn't lose their jobs. It kept the company going. I was very proud of it. I thought it was great.

President Donald Trump: [\(29:09\)](#)

Then I see he's endorsing sleepy Joe Biden. Biden can't get arrested. Although actually that's turning out to be true. He can't get arrested. We got to think about that one. He's endorsing Joe Biden, but you know who's endorsing me? You know who likes me? The teamsters like me, and everybody, all of the workers like me. Maybe he won't run. I don't think he'd win anyway if he ran.

President Donald Trump: [\(29:33\)](#)

Biden even supported the outrageous Fuel Economy Standards. You know that? That's where every little ounce they suck every... For half a glass of gasoline, which we have plenty of right now, we have so much we don't know what the hell to do with it. We had gasoline at one point selling for so little that if you took a barrel of gasoline, they gave you \$36 with the barrel. It only lasted for two hours. But I was thinking about leaving government to go an get into that business.

President Donald Trump: [\(30:03\)](#)

That's when the pandemic came in and all of a sudden people weren't driving cars, et cetera. Little things like that. But we have a lot of gasoline. We have a lot of energy. We have great energy and we believe in all forms of energy. But when they want to turn off our great factories by doing what they're doing, with people like AOC plus three, telling us how we're supposed to run our country.

President Donald Trump: [\(30:25\)](#)

AOC plus three, I don't think she ever went... She went to a college, right? Did she ever take an environmental course? All of a sudden she's saying no more [inaudible 00:30:36] no more [inaudible 00:30:37]. I reversed each and every one of those disasters. Now Biden wants to reinstate it. He wants to re-institute... It took 20, 21 years, many highways and roadways, simple roadways, would take 20 years to get. I have it down to two years. It's going to be one year and they may get rejected for environmental reasons or safety reasons, but now we're building roads. We're doing things that we could never have done before.

President Donald Trump: [\(31:05\)](#)

A vote for Biden is a vote to extinguish, demolish, and wipe out Michigan's auto industry. And many of your other industries. Many of your other industries. A vote for me is to keep and create auto jobs and all sorts of jobs in Michigan, where they belong.

President Donald Trump: [\(31:24\)](#)

I ended the NAFTA nightmare and replaced it with a brand new USMCA. Just kicked in. It just kicked in. You know how I know it's good? Because Mexico and Canada aren't so happy. They said, "Couldn't we keep NAFTA?" I said, "No." They said, "ell, we want to. We demand it." I said, "Okay, that's okay. We're going to put a 25% tariff on every car you send in."

President Donald Trump: [\(31:46\)](#)

They said, "Like I said, wouldn't we like to see the USMCA done?" No. I said to them, "If you want to keep it, you can. But I'm going to tariff the cars that come into this country." So we made a great deal. We made a deal that's good for Michigan and good for every... But just kicked in. Great for the farmers. It'll bring tens of thousands of new jobs to Michigan. It'll bring hundreds of thousands of new jobs to our country. And we won't be ripped off like we were. And it's a big disincentive for a company to go and close up their doors and move to Mexico, move to Canada. Now, if you do that, there's a big price to pay.

President Donald Trump: [\(32:24\)](#)

That's probably the primary reason I ran, if you want to know. I ran it for a lot of reasons. I ran because the last administration was no good, period. I say it all the time, Joe, I wouldn't have run if it wasn't for you. You guys were so bad, I ran.

President Donald Trump: [\(32:40\)](#)

When GM went bankrupt Biden and Obama threw the workers at Delphi Corporation... Any Delphi people here. Are you Delphi? Where's Delphi? I tell you, I guarantee you they're voting for Trump, right? They threw these people under the bus and days ago, I signed an order to restore the pensions and all of the other things for workers, not only Delphi, in Wisconsin, Ohio, and Michigan, who were treated very unfairly, right?

President Donald Trump: [\(33:18\)](#)

Good. I figured if we had none here, I would have just said to hell with it. That's good. All right, you're going to be taken care of. They were promised by Obama. They were promised by Biden, actually, but then Biden realized he didn't understand the deal. He wasn't smart. He tried. He tried. Joe tried. He's having a hard time.

President Donald Trump: [\(33:40\)](#)

I tell you, I see these people and the level of viciousness. You see this character in 16 minutes, screaming, Savannah Guthrie screaming, screaming, all of them screaming. And then I see sleepy Joe walk out. "What flavor ice cream is it?" He looks down. He actually had a hard time with that question.

President Donald Trump: [\(34:03\)](#)

I said, they don't ask me questions like that. They don't do it. How about when they give them the questions? That's worse, when he reads them off. They give him a question. This is the people I deal with all the time. They're crazy maniacs. I deal with them all the time. They ask me things that are just terrible.

President Donald Trump: [\(34:19\)](#)

I've been doing this for a long time. They asked me very, very dangerous, horrible questions. And with him, it's like, they give him the questions in advance and he puts it on a teleprompter. Just like that. They give him a question. Then he goes, "Could you move that a little closer?"

President Donald Trump: [\(34:37\)](#)

And when I see that, I said, that means that he has the questions. Not since the Hillary Clinton scandal, when she got... Remember? Who now that wonderful person that did it, Donna Brazile, is now working for Fox. So that was a great hire. That was a great hire. Let's hire Donna Brazile, who got fired by CNN and gets hired by Fox. What's that all about? Do you think there's some changes going on at Fox? I don't think so. I don't think so. Let's hire the person that cheated with Hillary Clinton.

President Donald Trump: [\(35:09\)](#)

Joe Biden is a corrupt politician. The Biden family is looking more and more like a crime family and they don't want to. It's called the laptop from hell. The laptop from hell. They took millions of dollars from the Chinese Communists while Vice-President Biden shipped Michigan jobs to China. How the hell can you have somebody fighting for you against China? And he's getting money. Him and his family are getting millions and millions of dollars from China.

President Donald Trump: [\(35:40\)](#)

Yesterday, press reports, I don't know about this, but press reports came out yesterday, said the Biden family is under FBI investigation for a long time for money laundering. For money laundering. If Biden wins, China... How do you have it where they're getting millions and millions of dollars from Communist China, and then he's going to be your president and he's going to make a deal like I do? Nobody has done what I've done, including GS Steel, where they were dumping steel. And I charged them a tariff of 25%, and our steel companies came back. And the 25% was just the beginning. But our steel companies come back. I mean, they all came back.

President Donald Trump: [\(36:23\)](#)

When we win, Michigan wins. When we win, America wins. And that's what I want. That's all I want. That's all I want. I had a very good life before this. People think this is easy. You make a telephone call and these really dishonest people they impeach you on a perfect call. "How you doing? Congratulations on your win." A man, I never even spoke to. "I'd like to congratulate you on your win." He just became the President of Ukraine. Let's impeach him for that. These people are sick.

President Donald Trump: [\(36:53\)](#)

But you know, the Republicans stuck together. 197 to nothing in Congress. 52 and a half. 52 and a half. A half. Does anybody know who the half was? Biden didn't know. Remember? He said, "The man from Utah. What's his name?" He didn't know. He forgot the name of the man. He's only worked with him for about 35 years. Something going on up there.

President Donald Trump: [\(37:22\)](#)

He won't be there long. He's not going to be there at all because our country will be destroyed. Honestly, we can't play games. We can't play games. We have the potential. We have more potential as a country than we've ever had. We can't have a guy like this in there. The guy doesn't have a clue. He doesn't. And they'll say things that are unbelievable. He'll say things about me. They do an ad about me that is so false. And you can't do a thing about it. And we put them a notice, we said it was false. It was all false. We put them a very strong legal notice. They keep it going. They figure, what the hell, the thing's over with in five days, why should we change it?

President Donald Trump: [\(38:02\)](#)

I'm telling you, those are bad people. That's why...

President Donald Trump: [\(38:03\)](#)

Why should we change it? I'm telling you, those are bad people. That's why I say, "I'm just going to tell you the truth." I'll tell you the truth, but here's the differences. This is the truth. He's shot. Okay? He's shot. And it's not because of his age because at 78 or whatever it is, I know a lot of people that are 85, I know a person 92, Bernie Marcus, 92, Home Depot. He's perfect. In fact, I tell him I think he's sharper now than he was 45 years ago, if you want to know. No, it's not the age. They say age. It's not the age. A lot of people in their 80s, even their 90s are sharp. This guy is mentally shy.

President Donald Trump: [\(38:39\)](#)

One of the biggest issues for Michigan, other than that, let's keep it going, is this election, is... And you know what? One of your very big is the whole refugee situation, right? I know it's a big deal here. To protect our national security, earlier this week, I suspended the entry of refugees from foreign nations compromised by terrorism. So you saw what's going on in France, right? You saw that. And they had another big attack last night, a really bad one. If it's okay with you, if it's okay with the great people of Michigan, you got to give me approval, we are keeping radical Islamic terrorists the hell out of our country. I remember I was in the campaign and I'm running against this guy named Ben Carson. And he was tough. He was tough. No, he was. He was tough. And he made a statement somewhat similar to that. And everybody said, "Oh, he's going to have to leave the campaign." I said, "No, he's not. His poll numbers just went way up, I'll bet." Next day, what did they go up? Like seven, eight, nine points. I said, "See?" Then I had to start really worrying about this guy. He went up. Everyone said you had to leave. Right, Candy? He has to leave the campaign. I said, "No, no, it's actually going to be good for him." We don't want to be used. We don't want to be taken advantage of. And I got passed. I got passed a ban. It's a ban on people coming in from certain countries that are horrible countries where they hate us and the people hate us. Right?

President Donald Trump: [\(40:22\)](#)

And one of the reasons we're going to go, I'm going there later, we have a governor and attorney general, we have 25,000 people want to go in Minnesota. Right? One of the reasons we're going to win... And they want us to have 250 people. Well, that's a slight difference. We have 25,000 people, but they have a rule you can't have more than 250 people for a political event. So they're scamming us. So you know what? That maybe will give us the final victory. We haven't won Minnesota since 1972. Okay? That's a long time, which will tell you the odds. That's not good odds. But we're very popular because I helped with that disaster in Minneapolis. We got the guys in there. And what did it take? About 25 minutes, it was over. They should have called a long time before they went through two weeks of hell. And that's what we do. The federal governments are always prepared to come in. If you had problems, the federal government is always prepared to come in. We will extinguish those problems very, very quickly.

President Donald Trump: [\(41:25\)](#)

And we'll always come in. And some people say, "It's not politically correct to say that." Yeah, it's politically correct. I thought it was a beautiful sight. They lined up. This is after a week and a half of terror. Remember, you had that idiot anchor from CNN standing, "This has been a friendly protest." And over his shoulder, it looked like Berlin in its worst day during the war. The worst day they ever had. But no, they told us we could only have 250 people. So they thought I'd cancel. "Oh, this is really great. Trump will cancel." No. I'm going to go and I'll have 250. That's like the first row. I'll have 250 people and they'll have a lot of people outside, but I don't want them to stand outside. It's colder there than it is now. But it's very cold and very horrible because the president of the United States is going to Minnesota to talk to people and they're suppressing it. And they think that's good, but I don't. That shows weak leadership by the governor and very unfair leadership by the attorney general.

President Donald Trump: [\(42:30\)](#)

One thing I'll say about that attorney general, I have to say this, he was the first one, he and a couple of people, he was sitting down being interviewed by George Stephanopoulos or somebody. And he said, no, and he was a vice chairman of the Democrat party. And you know who I'm talking about. And he said,

“Trump is going to win.” This was right after I came down the escalator with our future first lady. Right? That beautiful trip. Beautiful. No. And he said, “Trump is going to win.” “No, no, no. You’re kidding. Why? Why?” “No, no, Trump is going to win.” So I realized then he’s a very smart person. He turned out to be right about that one. Didn’t he, Nigel? The great Nigel.

President Donald Trump: [\(43:17\)](#)

We’re working to help the Chaldean Christian community also, by the way. We’re working to help them. We’re working to help them. Are you Chaldean? Oh wow. Good. Oh, good. All right. No, we’re working to help. We’re going to help. We’re going to help. We’ve been working on it for 25 years, just like I did with Israel and so many other things. These guys, they talk, talk, talk, nothing ever gets done. Chaldean American, what are you going to show me there? You opened your jacket. Look at this. Oh. Now I like the Chaldeans even more. Oh, that’s good. You know what? They have great support. They have great support. They have great support. Good. Thank you very much. They do have great support. But hey look, it’s a wild life.

President Donald Trump: [\(44:23\)](#)

Biden has pledged a staggering 700, this is with Bernie Sanders and the manifesto, we call it. That’s the deal with Bernie, Crazy Bernie. And I mean, he lost twice now. Guy’s the greatest loser I’ve ever seen. No, he loses. He doesn’t even complain about it. Just goes back into Congress, he votes. He holds up his hand, radical, anything radical. The guy, I’ve never seen a guy like that. He got treated very badly by the Democrats with Hillary, then he runs again. Is Bernie Sanders going to run again in four years? Does anybody? I don’t know. He’s all right. I’ll tell you one thing, he fights like hell, right? Who would have been easier? Him or Sleepy Joe? I don’t know. No, he has a smaller base, but they have energy. Joe has a bigger base, but there’s zero energy, right? Now, we have a really big base and we have more energy than anybody. Right?

President Donald Trump: [\(45:22\)](#)

A 700% increase in refugees from the most dangerous terrorist spots anywhere in the world, including Syria, Somalia, where Omar, Omar, that’s the other reason I’m going to win. Omar. Ilhan. Ilhan Omar. She loves our country very much. And Yemen, right? No, she’s going to help me win. She’s going to protest when I go up there. And I’ll say, “Thank you very much. Every time you protest, it’s got to add about 25% of the vote.” She’s telling us how to run our country. And she doesn’t love our country, that I can tell you. The Biden plan will turn Michigan into a refugee camp. If you look at what they want to do, this is agreed to with Bernie Sanders in that group, a 700% increase. A lot of you people would say, “No, thank you.” He has also vowed to terminate our national security travel bans, allowing unlimited migration from deadly war zones and terrorist havens. You’re all sitting here saying, “I think I’m changing my vote. I think we’ll go with Trump.”

President Donald Trump: [\(46:29\)](#)

That I even have to do this, I will say this, and it’s terrible but before this COVID, there’s about 24 names, right? China plague, China virus, but we have about 20. Well, let’s just call it the China virus. Before the China virus came, we were going to have the easiest campaign in history. I was up so much. Now I got to work, right? I have to work. And that’s okay. Actually, I think people respect it even more. They respect it even more. But it has, it’s affected politics and leadership all over the world. I mean, people that were very popular all over. Because it’s uphill. But we’ve handled it well. Our people have done an incredible job. Our generals. I mean, look at the vaccines. Hey, excuse me, look at me. I go in, “Sister, I wasn’t feeling too good.” And they gave me something called Regeneron. The next morning, sister, I woke up and it was like God touched my shoulder. Right? I said, “Let me at them.” I said, “Give me a trade deal for Michigan. I want to go and renegotiate a trade there.”

President Donald Trump: [\(47:45\)](#)

No, what they’ve done is incredible in a short period of time, six months. I mean, they’d never even heard of this drug. And now Eli Lilly’s also doing something similar. We have things coming out that are amazing. And even the Times wrote today people are getting better. People are getting better because of what’s happening. And for the Times to write that, that’s a very, very hard thing for them to write. You would’ve thought they would’ve waited a few days, actually. Let’s wait. Let’s put out that story on the 4th of November. And you know that everything’s COVID covered. You know that. You turn on the news. COVID, COVID, COVID, COVID, COVID.

President Donald Trump: [\(48:19\)](#)

And cases are up. Why are cases up? Because we test more than anybody in history. I mean, we have tests on top of tests. We’d like another test. We got 19 different versions. And we test much more than India. They have 1.5 billion people. And many countries don’t test at all. Many countries don’t test at all. But we test more. But deaths are way down. And people are getting better. But I’m an example of it. My wife is an example of it. First lady. And Baron Trump, young, very young, 14. He’s my very tall 14 year old boy. He’s tall. He’s a tall guy. But he’s a strong guy. And he tested, the doctor said, “Sir, Baron has tested positive.” The doctors here, Sean, great doctor, said, “He’s tested positive.” I said, “Positive for what?” Said, “COVID.” I said, “Oh, that’s terrible.” He said, “No, he’ll be okay.” Like 15 minutes later, “How’s Baron doing, Doc?” “Oh, it’s okay. He’s fine now.” No, they have strong immune. Now they’ll say, “He exaggerated the time.” They’re so sick. They’re so sick.

President Donald Trump: [\(49:32\)](#)

You know what I said? I got myself into trouble with that also. Great gentlemen from England. I said that refugees are coming in and they’ll promise him more than they give our citizens. They said, “We’re going to give you healthcare. We’re going to give you a free education. And every refugee that comes in will get a free Rolls Royce.” And CNN went crazy. They said, “President Trump lied. They’re not getting a Rolls Royce.” It’s true. They took it very seriously. You can’t be sarcastic. You can’t have a little bit of fun. Because if you do, you look very bad. No, they said, “It’s not true about the Rolls Royce.” But at 800,000 a pop, I would say probably not. No, CNN took that very seriously.

President Donald Trump: [\(50:20\)](#)

Joe Biden’s plan will delay the vaccine, postpone therapies, crash the economy, and shut down our entire country. Under the Biden lockdown, countless Americans will die from suicide, drug overdose, deferred medical care. So many things happen, abuse. I mean, what’s happening? There will be no school, no graduations, no weddings, no Thanksgivings, no Christmas, no 4th of July. There’ll be no nothing. There’ll be no future. Other than that, it’s quite a good plan, I think. Biden doesn’t have a clue. Look, the cure cannot be worse than the problem itself. Always remember that.

President Donald Trump: [\(51:06\)](#)

Biden wants to keep everyone locked up, even young Americans who are at extremely low risk from the virus. He wants to steal the dreams and the futures of our youngest citizens. And when a child loses a year of his life because he’s locked in, and one thing we have found, telehealth has been great and a lot of the ... But when you’re looking at a laptop, it’s not nearly as good as sitting in a classroom. That has been determined. It’s not good. It’s not the same. And we’re keeping these kids away from school and that’s something. I mean, it’s great in some instances and telehealth is one of them. But when it comes to school, we’ve learned very strongly, it’s not the same. Which is why I’m going to win. We’re going to win with a record number. I think there’s a vote out there that is incredible.

President Donald Trump: [\(51:58\)](#)

Let me ask you a question. Who has voted by ballot or who has voted so far? Okay. Who is going to vote on Tuesday? Good. It’s a funny thing. We tell our people, “Go out and vote.” We’re not big into the ballot world. We sort of don’t like it. Okay? Because too many tricks get played like they find Trump ballots in a wastepaper basket, they find them in dumpsters, they found some in the river. Lovely. Look, all those ballots. Oh, they happen to be Trump ballots. Now they’re finding them all over the place. 500 incorrect applications get sent to Virginia. The beauty was they sent many ballots to a certain state. They were only defective in one way. They didn’t have the name Trump on it. In other words, if you wanted to vote for Trump, what do you do? I guess you’re supposed to write it out? Then they’ll say, “You can’t do that.” No, it’s a crooked deal. It’s a crooked deal. It’s a very sad thing. We like going to vote.

President Donald Trump: [\(52:55\)](#)

And the other thing, funny, they don’t want to vote. I could say, “Go to vote on Saturday, on Sunday or Monday.” They really want to vote on election day. I like it. And we are going to have a red wave the likes of which has never been seen. And let me give the Democrats the bad news. Their vote is under what they thought they needed.

Crowd: [\(53:33\)](#)

Four more years. Four more years. Four more years. Four more years. Four more years. Four more years.

President Donald Trump: [\(53:33\)](#)

Thank you. But their votes are under, they're not performing like they should. They'll probably drop some of the ballots and sign them real quick. I could just see the governor of Nevada. I'm sure he never did this but, "Get me some ballots. We're losing, here." Because they don't want to have any signature verification in Nevada. The governor, he was a political guy. He ran the political club. So he's a beauty. So they don't want to have any verification of a signature. So if they're losing, they'll say, "Get me some ballots real quick. I'll sign them myself." No.

President Donald Trump: [\(54:08\)](#)

I went to vote. I voted. And I went into a place in Palm Beach and I said ... The woman said, "Sir, may I please see your identification?" It's true. But I wanted that. I mean, I wanted. So I took out a passport. "Sir, do you have any other form of identification?" I said, "Are you serious?" I said, "No." But I did. I gave her something else. And I sat and I filled out the form. I mean, there was no way you could cheat. There was no way. I mean, it was really good. It was really professional. And other people that come in, it was so nice. And we should have voter ID, by the way, voter ID. The whole country.

President Donald Trump: [\(54:48\)](#)

And thanks to our relentless efforts, only 3% of ER visits nationwide, right? Are related to the virus. So 3% of hospital rooms, emergency rooms, 3% are related right now exactly, just came out last night, 3% to the virus. A lot of people, you read about cases, but now they're young people, they're college students, they're younger than college students. But they love the word case because cases have gone up. They don't say that it's a 14 year old kid or that it's a 20 year old student. I mean, you go under 70 and you go under certain ages and it's 99.9%. It's a whole different thing. But they don't like to talk. But I see it's always cases are up and people go crazy. No, you live with it and you know what to do. We understand it now. You got to understand it. But we're making that beautiful turn. And the vaccines are coming.

President Donald Trump: [\(55:49\)](#)

Due to our groundbreaking therapies, the fatality rate is down 85%. Think of that. And our excess mortality rate is 42% lower than Europe. They kept saying, "Germany, Germany, Germany." First of all, they have different ways of counting. In Germany, if you have a bad heart and you're ready to die, or if you have cancer and you're going to be dying soon and you catch COVID, that happens, we mark it down to COVID. Our doctors get more money if somebody dies from COVID. You know that, right? I mean, our doctors, they're very smart people. So what they do is they say, "I'm sorry, but everybody dies of COVID." But in Germany and other places, if you have a heart attack or if you have cancer, you're terminally ill, you catch COVID, they say you died of cancer. You died of heart attack. With us, when in doubt, choose COVID.

President Donald Trump: [\(56:39\)](#)

It's true. No, it's true. Now they'll say, "Oh, it's terrible what he said." But that's true. It's like \$2,000 more. So you get more money. This could only happen to us where cases are now surging. And if you look at Europe, they're surging despite these draconian lockdowns. They have it locked down and they're surging. So what happens-

President Donald Trump: [\(57:03\)](#)

... the lockdown, and they're surging. So what happens is if you get it, stay away. If you get it, you're going to get better and then you're going to be immune and it's a whole thing and it goes away, but the vaccines will help. But don't take my word for it because we have a video and I wanted to show you a little video, we only do this to people we really like because this thing cost a lot of money. So we have a very little and very quick video, but it's very descriptive and it talks a little bit about sleepy Joe. Okay.

Gov. Gavin Newsom: [\(57:31\)](#)

Fact is every time I've called the President, he's quickly gotten on the line. When we asked to get support for that mercy ship in Southern California, he was able to direct that in real time.

Gov. Andrew Cuomo: [\(57:42\)](#)

What the federal government did working with states was a phenomenal accomplishment.

Gov. Gavin Newsom: [\(57:47\)](#)

We got 2000 of these field medical sites that are almost all operational now in the state because of his support, and those are the facts.

Gov. Andrew Cuomo: [\(57:58\)](#)

His team has been on it. I know a team when they're on it and I know a team when they're not on it. His team is on it. They've been responsive late at night, early in the morning.

Gov. Phil Murphy: [\(58:10\)](#)

We are working very well with FEMA Region 2 and with the Army Corps of Engineers building four field hospitals. And that was the decision the President himself took and I'm grateful for it.

Gov. Andrew Cuomo: [\(58:20\)](#)

These were just extraordinary efforts and acts of mobilization and the federal government stepped up, we needed help and they were there.

Gov. Gavin Newsom: [\(58:32\)](#)

He said everything that I could have hoped for. And we had a very long conversation and every single thing he said, they followed through on it.

Gov. Michelle Lujan Grisham: [\(58:42\)](#)

We've got to have doubled the number of ventilators that we requested to that area of the state. And in fact, we got them in, frankly, short order.

Gov. Andrew Cuomo: [\(58:51\)](#)

Have we lost anymore because we didn't have a bed, or we didn't have a ventilator, or we didn't have healthcare staff? No.

Gov. Gavin Newsom: [\(59:01\)](#)

The President was extending support for new swabs. So a conversation, commitment, promise made promise kept.

Joe Biden: [\(59:17\)](#)

My problem is I voted for NAFTA.

Joe Biden: [\(59:19\)](#)

I'm supporting NAFTA because I think it is a positive thing to do. And I do not pretend to be an expert on international trade matters.

Sen. Bernie Sanders: [\(59:29\)](#)

Trade agreements like NAFTA and permanent normal trade relations with China, which forced the merch and workers to compete against people making pennies an hour has resulted in the loss of 160,000 jobs.

John King: [\(59:41\)](#)

The President is absolutely right when he says that China has been cheating for 25 years and that Bill Clinton didn't do enough about it, George W. Bush didn't

do enough about it, Barack Obama didn't do enough about it.

Joe Biden: [\(59:51\)](#)

Rising China is an incredibly positive development for not only China, but the United States and the rest of the world.

Joe Biden: [\(59:59\)](#)

Rising China is a positive, positive development.

Joe Biden: [\(01:00:03\)](#)

It is in our self-interest that China continue to prosper.

Joe Biden: [\(01:00:07\)](#)

We want to see China rise.

Joe Biden: [\(01:00:09\)](#)

China's a great nation and we should hope for the continued expansion.

Joe Biden: [\(01:00:14\)](#)

China is not our enemy.

Joe Biden: [\(01:00:16\)](#)

We talk about China as our competitor, we should be helping.

Joe Biden: [\(01:00:20\)](#)

The idea that China is going to eat our lunch is bizarre

Joe Biden: [\(01:00:23\)](#)

The idea that they are our competition and they're going to beat us is bizarre. They're not bad folks, folks.

Joe Biden: [\(01:00:32\)](#)

China's not a problem.

Jake Taper: [\(01:00:34\)](#)

Allowing China into the World Trade Organization, which you supported, extending most favored nation status to China, which you supported, those steps allowed China to take advantage of the United States by using our own open trade deals against us. Do you think in retrospect that you were naive about China?

Joe Biden: [\(01:00:56\)](#)

No.

Jake Taper: [\(01:00:58\)](#)

But doesn't he deserve some credit for that? It's better, the USMCA is better than NAFTA.

Joe Biden: [\(01:01:02\)](#)

It is better than NAFTA.

Laura Ingram: [\(01:01:05\)](#)

Now, to be fair, maybe Biden's not telling us because he's forgotten his own plans. Watch Biden's staff quickly swoop in to shuffle him along during a quickie escape the basement trip to Pennsylvania.

Joe Biden: [\(01:01:24\)](#)

Okay here's the deal, one of the things that is important is that... Keep in mind, although they're going to vote on... [inaudible 01:01:36], I think today.

Laura Ingram: [\(01:01:40\)](#)

That was terrifying.

Joe Biden: [\(01:01:41\)](#)

What kind of country we going to be four more years of George... we going to find ourselves in a position where if Trump gets elected, we're going to be in a different world.

President Donald Trump: [\(01:01:53\)](#)

I don't know. I don't know. I don't know what to tell you. Thank you very much. Thank you very much. But that said it all, that's easier than talking for half hour. It says [inaudible 00:05:26], clue where he is. Where joined by [inaudible 01:02:32] Ben Carson and is incredible wife Candy, Candy Carson. Thank you very much. Thank you Ben [inaudible 01:02:39] great job he does. What a [inaudible 01:02:40] man. Congressional candidate [inaudible 00:05:44], I hear he's doing great. Paul Young, Paul. That's great, Paul, I hear it's going good, you're winning. I'm hearing good things, you're going to win. And Erik Esshaki. Erik, thank you Erik. Thank you very much. Good luck, Erik, heard you're doing really... We need these two guys, please vote for them. And Michigan GOP Chair, Laura Cox, thank you. Are we winning Laura? I see we're up, we're just up in the poll by three points. Good, so carry it in. I mean three points, how the hell you beat this guy by three points. Is that a win? I don't know. Hey, if it's one vote, we'll take it, right? We got to win. We got to win. Michigan is very important. Michigan, it's very important for Michigan that we win.

President Donald Trump: [\(01:03:38\)](#)

For 47 years, Joe Biden betrayed the African-American community. Biden devastated black families with his disastrous 1994 Crime Bill that came up very much in the debate. He called young black men, "Super predators," and he did it all the time. I gave former prisoners a second chance by signing our landmark Criminal Justice Reform that Biden couldn't do and Obama couldn't do. Joe Biden flooded black neighborhoods with illegal foreign labor and I'm providing black neighborhoods with billions of dollars in thanks with our Opportunity Zones, which have turned out to be incredible. Tim Scott, Opportunity Zones have been incredible, what they've done for communities and for Hispanic, black workers. Under our Platinum Plan we'll create 3 million new jobs for black Americans, restore safety to every neighborhood and we'll deliver school choice to every parent in America. Right? Good.

President Donald Trump: [\(01:04:43\)](#)

And in conclusion, I just want to say, it's been an honor to be with you, this is incredible. It's cold out here, it's cold, I'd say it's a little cold. But over the years, and over the next four years, we will make America into the manufacturing superpower of the world and we will end the reliance on China once and for all, that's already started. We will hire more police, increased penalties for assaults on law enforcement, and we will ban deadly sanctuary cities. We will end the big tech monopoly and restore freedom of speech. We will defend religious liberty, the right to life and the right to keep and bear arms. We will maintain America's unrivaled military might and we will ensure peace through strength.

President Donald Trump: [\(01:05:40\)](#)

We will end surprise medical billing, require price transparency, lower drug prices even more. We have done something nobody's done, 52 years, last year, drug

prices went down, but now they're going to go down at a very high rate because we're doing favored nations. The drug companies don't like me too much, I will tell you. We will protect Social Security and Medicare and we will always protect patients with pre-existing conditions.

President Donald Trump: [\(01:06:14\)](#)

America will land the first woman on the moon and the United States will be the first nation to land an astronaut on Mars. We will stop the radical indoctrination of our students and restore patriotic education to our schools. We will teach our children to love our country, honor our history, and always respect our great American Flag. And we will live by the timeless words of our national motto, "In God we trust."

President Donald Trump: [\(01:06:53\)](#)

For years, you had a president who apologized for America, now you have a president who is standing up for America and standing up for the great people of Michigan. See now, a lot of times migrants... and standing up for the great people of Morrow, Ohio, Ohio? No it's Michigan, that's happened seven times. You can't do that, you can't let that happen, you can't let that happen. We did not come this far and fight this hard only to surrender our country back to the Washington swamp. So get your friends, get your family, get your neighbors and get out to vote, get out to vote. Got to do it. Got a big day, Tuesday. Don't even do it on Monday, my people said, "Oh, let them go Monday, Sunday. Don't worry about it, just do it like you like to do it. Just do it. Tuesday's good.

President Donald Trump: [\(01:07:50\)](#)

On November 3rd, we must finish the job and drain the swamp once and for all, nobody ever said it was going to be that deep. Nobody ever said it was going to be that deep and that vicious, but we're knocking the hell out of them, they don't know what the hell is going on [inaudible 01:08:05]. It's been tough for them too, they never had a thing like this. From Midland to Mackinac, from Lansing to Grand Rapids, and from Battle Creek to right here in Waterford Township, nice, we inherit the legacy of Michigan patriots who gave their blood, sweat, and tears for this beloved nation. This is the state where Henry Ford invented the assembly line, think of that. It's the place where General Motors, Chrysler and Kellogg's revolutionized entire industries, what a state. Michigan gave us Motown, the Mustang, and the unrivaled might of the American Midwest. We made America into the single greatest nation in the history of the world and the best is yet to come. Proud citizens like you helped build this country and together we are taking back our country, we are returning power to you, the American people. It's what I said I was going to do. With your help, your devotion, your drive, we are going to keep on working, we are going to keep on fighting, and we are going to keep on winning, winning, winning. We are one movement, one people, one family, and one glorious nation under God and together with the incredible people of Michigan, we have made America powerful again. We have made America wealthy again. We have made America strong again. We have made America proud again. We have made America safe again. And we will make America great again. Thank you, Michigan, go out and vote. Thank you.

Donald Trump: [\(01:29\)](#)

All right. Thank you very much. Thank you very much. Appreciate it, and hello, Rochester. Great to be with you. Four days from now, we're going to win the state of Minnesota. I did not forget you because we were given a very, very hard time by your so-called leaders, but they're not very good leaders as you found out during the riots, and we're going to win four more years at our great White House. Thank you. As you know, there are at least 25,000 people who wanted to be here tonight. We just saw a lot of them. Wanted to pay our respects. They were here for a long time. They waited and waited, and then the governor did bad things. Your far-left Democrat Attorney General, Keith Ellison, and your Democrat governor tried to shut down our rally, silence the people of Minnesota and take away your freedom and your rights. They thought he would cancel. A word they are very familiar with, cancel. Cancel culture. But I said, "No way, I will never abandon the people of Minnesota. I will come up. I will come up."

Donald Trump: [\(03:00\)](#)

Thousands and thousands of people over there with cars. We flew over cars that go miles long. What a shame. They waited here for a long time. I want to thank the thousands of people outside who were barred from entry by radical Democrats. You are American patriots. Thank you very much. When large numbers of rioters and vandals sacked the city of Minneapolis earlier this year, Keith Ellison did not ask them to submit a permit. He told the throngs of violent demonstrators, "By all means, exercise your first amendment rights." He said that prior to them ripping down your city. Keith Ellison sided with flag-burning extremists over law-abiding Americans. He treats you like second class citizens. He believes that the pro-American voters have fewer rights than anti-American demonstrators. Keith Ellison and Joe Biden want to imprison you in your homes while letting anarchists, agitators and vandals roam free as they destroy your cities and states.

Donald Trump: [\(04:16\)](#)

The Democrat party wants you to be banned from peaceful assembly while they allow their supporters to burn down a police precinct right here. Biden and the far left incite violence with their vile anti-police rhetoric, and the fact that they're weak people, very, very weak people. They allow rioters to lay waste to the public streets that financed... And they were financed by you with your hard-earned taxpayer dollars. The radical left is determined to obliterate the middle-class. They think they can take your money, attack your values, indoctrinate your children and silence your voices. But on November 3rd, I hope you're listening, Minnesota, because this is what you've had to put up with for a long time. The people of our nation are going to be heard like never before. It's already begun. People are already starting to find out what's happening because they're going to show up and vote in record numbers. You have already started to see what's going on. They're getting very concerned. We're not just running against Sleepy Joe Biden.

Donald Trump: [\(05:40\)](#)

We're running against the arrogant far-left political class. They want one set of rules for you and no rules for themselves. Biden and the left wing Democrats treat law enforcement like criminals, and they treat criminals like heroes. They lecture you on morality while they support sanctuary cities that get innocent Americans robbed, raped, maimed, and murdered. They ban you from going to church while they let left wing extremists burned down the church. They support crippling shutdowns that crush blue collar jobs while their own jobs remain totally exempt. They keep your kids out of school while their families hire private tutors. They flood your cities with illegal drugs and gangs while they live inside walled off compounds. They want to destroy and work hard to destroy the suburbs, which I'm protecting, and terminating horrible rules and regulations that only pertain to the suburbs while they move into gated communities with armed guards.

Donald Trump: [\(06:59\)](#)

These wealthy liberal hypocrites want to defund the police and take your guns while they are protected by armed guards. There's only one way to defend your dignity. There's only one way to defend your family and your country. There's only one way to preserve, protect, and defend the American way of life. You must show up and vote on November 3rd. In the second term, we will increase funding for law enforcement. We will hire more tough on crime prosecutors to put violent offenders behind bars. We will finish and win the war against MS-13 killers. We've taken thousands out of our country and brought them back where they came from. We will put them all out of business. We will completely dismantle antifa, and we will reclaim our streets for law-abiding Americans of every race, color, religion, and creed.

Donald Trump: [\(08:11\)](#)

These are streets that have been run by Democrats, not Republicans, and it's taken too long for them to gain control of those streets. We will do all of this, and so much more, only with your vote. You have a very important vote, and this state in particular. 1972. This is a state. You've been poorly run for too long. You want law and order also. On November 3rd, vote to defeat Joe Biden and save your great American dream and save your wonderful American freedom. Biden is a grimy, sleazy and corrupt career politician. We found that out. A lot of people have known it for a long time. Who's done nothing but betray you for 47 years. All he's done in that time is sell out to lobbyists, sell out to China. China owns him. Sell out to big pharma and sell out to foreign countries.

Donald Trump: [\(09:18\)](#)

He will look you in the eye and then turn right around and stab you in the back and be totally protected by the mainstream media. The only thing he cares about is political power, and he will use that power to hurt you and to enrich his cronies and his friends, and most of all, to enrich his family. A vote for Joe Biden is a vote to put far-left radicals like Keith Ellison and Ilhan Omar and AOC plus three. And gun grabber Beto O'Rourke wants to take your guns away, wants to destroy your Second Amendment, [inaudible 00:10:03] positions controlling the entire federal government. And then they want to pack the courts. They want to pack those courts, the Supreme Court. They want to put radical Justices who will confiscate your guns, terminate your religious liberty, erase all of your borders and stifle life. If you want strong borders, strong families, safe communities, and a thriving economy, then I am asking you to go out on November 3rd and vote for your all time favorite president. One of-

Crowd: [\(10:43\)](#)

Four more years! Four more years! Four more years! Four more years!

Donald Trump: [\(10:56\)](#)

Thank you. One of the most crucial issues for Minnesota in this election is the subject of refugees. This is a vital matter of national security to protect our country. I issued a directive suspending the entry of refugees from foreign nations compromised by terrorism, terrorism like you've never seen before, including from Syria, Somalia, and Yemen. We're keeping radical Islamic terrorists out of our country. I spoke to President Macron of France yesterday and put out my warmest sympathy for what they've been through over the last four days with terrorist attacks, the likes of which few have seen. Biden has pledged a staggering 700% increase in refugees from the most dangerous and violent terrorist hotspots anywhere in the world. He has also vowed to terminate our national security travel bans, which I fought very hard to get, which I won in the Supreme Court, allowing for unlimited migration from war zones and terrorist havens. He said, "Bring them in." Biden's deadly migration policies will overwhelm Minnesota and overwhelm taxpayers and open the flood gates to terrorists, jihadists, and violent extremists. Under my administration, the safety of our families will always come first. America first, our families first.

Donald Trump: [\(12:40\)](#)

With your support, we will continue to bring back your jobs, cut your taxes, cut regulations, support our great police, support our military, defend our borders, protect our Second Amendment, which is totally under siege, but don't worry. As long as I'm here, nothing's happening with it. Protect religious liberty and ensure more products are proudly stamped with the very wonderful and beautiful phrase, Made in the USA. Yesterday it was announced that last quarter, our economy grew at the fastest rate ever recorded in the history of our country, 33.1%. People were shocked. I wasn't. Biggest increase in the history of our country by far. 1952, but it was a rate less than half. We are creating an economic powerhouse, a super power the likes of which the world has never seen before. We are building the biggest, strongest and most prosperous middle-class in human history. I am fighting for higher wages, more jobs, more opportunity, and we will keep it right there and we will bring it right here to the USA where it belongs.

Crowd: [\(14:03\)](#)

USA! USA! USA! USA! USA! USA! USA! USA! USA!

Donald Trump: [\(14:15\)](#)

Joe Biden has never succeeded before. Barack Obama said that if you want to see things screwed up, just ask Joe Biden to do it. Joe Biden will ship your factories to China, impose a \$4 trillion tax hike, eliminate private healthcare, abolish the entire oil industry and fracking, and send your state into a crippling depression. Biden's anti-energy, anti-worker policies would be a nightmare for Latino and African American workers all across our land. Biden will also continue his 47 years of cruelly betraying African Americans. He called them super predators in 1994, ripped apart their communities and did everything in his power to wipe out the black middle-class. They understand it better than anybody, and I think you'll probably see that at the voter booth. They understand what he's done better than anybody. "Super predators," he said. Now Biden wants to wipe out the entire U.S. economy for black Americans, Hispanic Americans, and all Americans. He has no idea what he's doing. He wants to give you the largest tax increase in the history of our country, by far.

Donald Trump: [\(15:38\)](#)

Joe Biden's plan will delay the vaccine, postpone therapies, crash the economy and shut down our entire country. Under the Biden lockdown, which he talks about and cherishes, countless Americans will die from suicide, drug overdoses and deferred medical care at a level like you haven't seen before. There will be no school, no graduations, no weddings, no Thanksgiving, no Christmas, no 4th of July, no Easter, no nothing. There will be no future for America's youth. Under my plan, we will deliver a safe vaccine to the American people in just a matter of weeks, and it will be something that will be very, very special. We are rounding the turn on the pandemic with or without vaccine. We have the vaccine. It's going to come, but even without it, we're rounding the turn. Seniors will be first in line to get it, and it will be available free. It wasn't their fault. It wasn't our fault. It was the fault of China, who should have kept it within their limits.

Donald Trump: [\(16:50\)](#)

Our vaccine will eradicate the virus and the pandemic, and it will end, quickly restore normal life, that's what we want is normal life. Take us back seven months. Normal life. Record setting everything in a normal life. Next year will be the greatest economic year in the history of our country. We will wipe out the China plague once and for all. We're joined today by Congressman Jim Hagedorn and Congressman Tom Emmer. Thank you, fellas. Thank you very much. Thank you very much. Thanks, Jim, Tom. They're great warriors. They've been with me all the way. And congressional candidate, somebody that's really outstanding. I think you two agree, right? You two agree. Michelle Fischbach. Great job. I saw you in the debate. You did a fantastic job. Thank you, Michelle. Great job. State Senator Paul Gazelka. Paul, thank you. Thank you, Paul. State Representative Kurt Daudt. Thank you. Thank you. Thank you, Kurt. Like your hat. And GOP chair, Jennifer Carnahan. Thank you, Jennifer. Are we doing well, Jennifer?

Crowd: [\(18:11\)](#)

We're going to win.

Donald Trump: [\(18:11\)](#)

I think we're going to win. 1972, and you have been treated very, very badly. In addition, friend of mine, Mike Lindell. Thank you very much. Thank you, Mike. Thank you very much. Great job. Great job. And former... Oh, this is a big one, really. Matt Birk, Minnesota Viking superstar. Really, huh? Look at him. You look like you could play tomorrow. Thank you very much, Matt. Great honor to meet you. Another vital issue in this race is the Minnesota Iron Range. I brought it back to life. It was dead. It was closed. It was sealed and you weren't going to use it for anything. As vice president, Joe Biden tried to obliterate the Iron Range. Seven plants were idled. The rest were closing very shortly and they were bad. There was barely a whimper. I brought the Iron Range roaring back to life. I have friends that live in Minnesota. They said it was so unfair.

Donald Trump: [\(19:11\)](#)

When it was closed. A man came up to me. I don't know who he was, but he was a strong, big, powerful man, and he was crying and he said, "They've taken my life away when they closed the Iron Range." Well, I opened it. That was the most convincing of all. Everybody wanted me to do it. But when I saw him, I said, "There's no doubt about it." It's fully opened and ready and really doing phenomenally and it has the best iron, they say, anywhere in the world, but you had it closed. So it's great.

Donald Trump: [\(19:39\)](#)

Congratulations. Congratulations. It was my honor. That area's now thriving. It's thriving. It was desolate. It's now thriving. Nine Democrat mayors in the Iron Range have endorsed me because they know Biden will shut down the Iron Range forever. By the way, they will shut it down as fast as I opened it up and they'll shut it down permanently the next time. They said, "We made a mistake. We didn't do it through legislature. We made a mistake." They will shut it down permanently. So I hope you remember that. I just hope you remember that, especially on November 3rd.

Donald Trump: [\(20:17\)](#)

Under my leadership, we achieved the most secure border in American history. Biden's plan to admit unlimited low-wage foreign workers will slash income, surge unemployment, and devastate your middle-class, all to enrich his globalist donors. He raises money like crazy because he's making deals. They're giving him millions of dollars. I could raise much more than him, but I don't want to be compromised. I won't be compromised and we don't need the money. We don't need the money. That's how they've raised all of that money, because they're making deals with Wall Street. As President, I will only advance immigration policies that put American workers and families first. You, the American people, are my only special interests. That's why I did this.

Donald Trump: [\(21:05\)](#)

I had a very nice life before doing this, I have to tell you. I will continue fighting for you harder than anyone has ever done before. The forgotten men and women of our country will never, ever be forgotten again, and you know that, and you saw that. Four years ago we had a very, very exciting time. This is even more exciting, and frankly, this is a more important election, and I never thought I'd be saying that. A vote for me and the Republican party is a vote for the American dream. So Minnesota, that very important time has finally arrived. This is it. This is the history of our nation. This is a very, very big moment for our

country. This Tuesday or sooner, get out and vote. Every one of you. Remember what your governor did this evening, and it's a small thing, but a horrible thing to thousands and thousands of people that are outside that could be here.

Donald Trump: [\(22:08\)](#)

We could all be together. A horrible thing that they did. Your state and your country depend on you. We depend on your vote. We depend on your loyalty and you have my loyalty. That you know, and that you found out. Together we are going to make history. On November 3rd, we're going to make history and this will be very special for Minnesota. People have been talking about it for years, but it never quite works out. Even with me, we lost by half a point. One more stop. I should've come one more time. Just one more time, but you know what? It's not going to matter because we're going to have an even bigger victory on November 3rd. So I want to thank you. God bless you. God bless Minnesota and God bless America. Thank you for being here. We appreciate it. Thank you. Thank you, everybody. Thank you, Tom. Thank you, Mike. Thank you, everybody. Nice seeing you, Matt. Good job. Thank you, everybody.

President Donald Trump: [\(01:56\)](#)

Wow. Thank you. What a crowd. What a beautiful crowd. Look at that, you can't even see the end of it. What a great crowd. Thank you very much. Hello, Wisconsin. We're back. We're back. We're going to win. We're going to win this state. We win this state, you know what? It's over, if we win Wisconsin. I've treated Wisconsin very well. Four days from now, we're going to win this state and we're going to win four more beautiful years in the White House. With your support, we will continue to bring back your jobs, cut your taxes, cut regulations, support our great police, defend our borders. Without borders, we don't have a country, do we?

President Donald Trump: [\(02:46\)](#)

Protect our second amendment, protect religious liberty and ensure more products are proudly stamped with those beautiful words, "Made in the USA." They're starting to do that. You remember, I used to say four years ago, "We're going to bring back the words Merry Christmas." We did, right? Merry Christmas. Those big department stores, they liked happy New Year. I said, "No, you can say them both, but you can't do one without the other." Merry Christmas is back. You notice that right? And pretty soon we're going to be there. Joe Biden will shut down your state's economy, wipe out your factories, ship your jobs to China.

Crowd: [\(03:28\)](#)

Boo.

President Donald Trump: [\(03:31\)](#)

To China, that's paid him off by the way. China that's paid him off. You know that, right? Although you don't get too much news, but you get enough, you know what's going on. They don't like giving you the news. Punish your family with a \$4 trillion tax hike, eliminate private healthcare. 180 million people have private health care, they want to take it away. And send your state into a catastrophic... Do you want to use the word recession or depression? Because the word is depression. Biden has vowed to eliminate the entire US oil industry, no fracking, no energy and gas prices going five, six, \$7 for a gallon. How do you like \$2 gasoline, good? There'll be no heating in the winter, no air conditioning in the summer and no electricity whenever the hell you want it. Right now, you have it made. You're so lucky. You are so lucky I'm your president. And your team is doing a good job, right? They're doing a good job, right? They are doing a good job. And while I'm president, America will proudly remain energy independent. How does that sound? First time, you're energy independent. We're the biggest in the world, nobody close. Biden will deliver poverty, misery, depression. I will deliver jobs, jobs, jobs, and the greatest economy in the history of our country. That's going to be next year, you see it. Yesterday it was announced, last quarter, our economy grew at the astonishing speed, 33.1%. The largest GDP growth ever recorded. And not just by a little bit, by more than double. Right? And that was in 1952, but more than double. Think of it. It's never been anything like that, for any country. Not only ours, for any country. In the past five months, we've created a record 11.4 million American jobs. We have a super V. I used to talk about the V. This is no longer V, this is a super V. This is despite the fact that the Democrat governors have States shut down, right? Gee, does that sound-

Crowd: [\(05:57\)](#)

Boo.

President Donald Trump: [\(05:57\)](#)

Hey, does that sound familiar to you? Middle-class family income is up more than \$6,000 under my administration, far greater than the past administration. I mean, that was not up. That was doing very poorly. We created the greatest economy in history, and now we're doing it again. Make America Great Again, again. We did it once. That hat, see that hat is now obsolete. It's called Make America Great Again, again. In a very recent poll Gallup, they said 56% of Americans said they were doing better today than they were four years ago. And we're rounding the turn on a pandemic and it's 56. And it's the highest number they've ever recorded, so we're doing something right.

President Donald Trump: [\(06:50\)](#)

Joe Biden has spent the last 47 years outsourcing your jobs, opening your borders and sacrificing American blood and treasure in endless foreign wars, in countries that most of you have never even heard of. I mean, think of it. And you know, at the debate... Did anybody see the debate by any chance? During the debate, he'd say, "Well, we're going to do this." I said, "Joe, why didn't you do it?" "We're going to do that. We're going to do this to that, this and that." "Joe, why didn't you do it, Joe?" That was an easy debate. 91% to 9%, they said. That was good. That's like a great football game. No, I said, "But Joe..." I said, "Joe, why didn't you do it?" "Well, I don't know exactly." And then the last question was a disaster. Basically, he said, no more oil, no more fracking, no more anything. I said, "Did he say that?"

President Donald Trump: [\(07:48\)](#)

And I just said, "We just left a great place..." You know that. It was a little cold there. This is like warm by comparison. This is a pleasure. This is a pleasure. That was cold. I said, "Let's cut this a little bit shorter," but we have a big crowd. We had a big crowd. No matter where we go, we have these massive crowds. And I'm going up to Minnesota. We're going to Minnesota, which we have a chance. Not since 1972, think of it. So those are odds that aren't good, but they like us up there, with the Iron Range, all the things I've done for them up there. And helping them when the rioters and anarchist attacked. We took over and we did a great job. But they should have called us two weeks earlier, in all fairness, and they called. If they called us, federal government, if they called us two weeks earlier, that would have been nice. You would have had no problem. It took us about what? 25 minutes to solve the problem, right? Boom, they just marched.

President Donald Trump: [\(08:47\)](#)

But we're going and governor just informed us though, that... So we have 25,000 people, 25,000 people, that's lot. You got a lot here. 25,000 people in

Minnesota. They said we can only have 250 people. So they were hoping I'd say, "Oh, well, we can't do that. Let's turn around." No, we're going to go. We're going to go. It'll be a very interesting trip. Even if we see 250 people... Can I be honest with you? Everybody understands, you can't play those games. That could very well, aside from Omar... Omar's our secret weapon. Ilhan Omar, that's our secret weapon in Minnesota. No, she doesn't love our country. I don't like people that don't love our country, I don't. And the other, and you know all about this because you've had your things, the other is we want law and order. We've got to have law and order. You look at what's going on in Philadelphia, we can't have that. You have to let the police do what they do. I mean, they have to do their job.

President Donald Trump: [\(09:56\)](#)

When I watched that, again Democrats, it's all Democrats, when I watched that and people are looting stores and you have the anarchists, the rioters, but they're looting stores. They're walking out with dishwashers. They're walking out, guy has a dishwasher, he couldn't even... He's pushing it. Their washer... I mean, they have television sets and they're walking and the police are standing there. And those police don't want to be standing there. They don't want to do that. They want to be able to do their job, but they're not. And you can't have that. We need law and order, as we had right here, as we did a very good job right here. We got the endorsement of everybody. Everybody in your state, every law enforcement group in your state endorsed us. I think every law enforcement group in the country endorsed us.

President Donald Trump: [\(10:46\)](#)

I asked sleepy Joe, during one of the debates, I said, "Joe, who endorsed you from law enforcement?" And he couldn't answer the question. Now possibly that happened, but he's got a very bad memory too. He can't... He was going, "Now, let me think. Give me about 20 minutes, I'll figure it out." I doubt he has any. I doubt he has any. I think we have everybody. We have everybody, Florida, Texas, Oklahoma. Chicago endorsed us. Isn't that nice? Chicago, with all the problems they have. And they have a great group of people from law enforcement. They could stop those problems. I mean, you see what's going on there. New York has gone through the roof, New York's finest. We have New York's finest, these are incredible police. They could do the job, but they have to be allowed to do the job. And they endorsed me. First time in the history of the police force in New York, that they endorsed a presidential candidate, so it was pretty cool.

President Donald Trump: [\(11:46\)](#)

So Joe Biden tried to cut Medicare, during the course of his terms and he worked very hard on cutting social. You wouldn't believe that, right? And we actually put it up. We put it on... Where is that screen? For places that we really like, we use the screen. It's very expensive. You'll see. Biden was a cheerleader for NAFTA, which is the worst trade deal ever made and China's entry into the World Trade Organization. Which of course Wisconsin, 130 minimum manufacturing jobs. At every turn, Biden betrayed American workers and twisted his knife into the back of Wisconsin workers. You suffered as much as anybody. Biden's also spent half a century, really a half a century, betraying Black Americans. He devastated Black families with the 1994 Crime Bill. And he called Black youth, "Super predators," a term that's a terrible term. Super predators over and over again. And then he wonders why they're not doing well with the Black vote. The Black votes not turning out for him.

President Donald Trump: [\(12:55\)](#)

See, now we don't have to go by the fake polls. Now you see what's happening. He's not doing well with the Black vote. You know why? Because they remember that, and they remember 1994 and they remember him calling everybody a super predator. And that's a term that they don't like. That's a term that nobody would like. But they're not showing up to vote, and others aren't either. We're doing great in Florida. We're doing great in Ohio. We're doing great in... North Carolina was fantastic. I think we're doing really good in Pennsylvania. We're doing very good in Pennsylvania. I think we're doing good all over the place, you want to know the truth. I think we're doing good all over. We're doing great here. I think they just said here we're either tied or one up or tied or one down.

President Donald Trump: [\(13:45\)](#)

It's like essentially tied. I don't know how the hell I can be tied with this guy. He's shot. He's shot. They said, "Sir, you're tied in Wisconsin." Normally that means because we have like a hidden voter, people that don't want to talk about it, they just go out and vote for Trump. I never knew. Should I be complimented by that? "We don't want to talk about it. Leave us alone. We're voting for Trump." Right? So when you tied, that's a good thing. But they said, "Sir, we're tied." And I said, "That's interesting." And then the fake Washington post, ABC, right? Did you see that?

Crowd: [\(14:17\)](#)

Boo.

President Donald Trump: [\(14:18\)](#)

So, we are tied. I was up here two days ago. We gave a great speech. That was a cold one. We gave a speech on a racetrack. We got a lot of people and it was freezing, but I got through that. There was no way that I leave early or the great people of Wisconsin, because you don't know about that. There was no way. Anyway, this pole, so we're tied. Let's say we're tied, one up, one down, we're right, boom. Very close, I think we're going to take it, easily actually. I think we're going to take it... Because we're going to have a turnout, probably on Tuesday. Our people like to vote, they like to vote on Tuesday, not even on Sunday or Monday, but [inaudible 00:14:56]. So Washington Post and ABC, it's called Washington Post-ABC Poll, they come out 17 down. "Donald Trump is 17 down in Wisconsin."

Crowd: [\(15:06\)](#)

Boo.

President Donald Trump: [\(15:07\)](#)

I said, Wait a minute, I just left a crowd of 25,000 people or more. They were going crazy. That wasn't a second place crowd." We know second place crowds. That was not a second place crowd. And they did it to me four years ago with crooked Hillary. They had me, "He's down 12," two weeks to go. You remember? Washington Post-ABC, crooked as hell. It's called suppression polls. You know what it does? It suppresses the vote. You get depressed. You like Trump. You know, "I like the president, but let's..." And in the case four years ago, "I like Donald Trump. He's going to do a good job."

President Donald Trump: [\(15:46\)](#)

We did more than we said we were going to do. We did more than any administration has ever done in the first three and a half years. But it's a suppression thing. So when it came out 12 down, we actually wrote them legal letters and everything and then they changed the vote. Can you believe it? They change it, where we were one down, but that was the day before the election. Two weeks to go, 12 down. But this one was 17 down in your state and I said, "I could be three down. I could also be three up."

Crowd: [\(16:30\)](#)

Four more years. Four more years. Four more years. Four more years. Four more years. Four more years.

President Donald Trump: [\(16:31\)](#)

I could be three down. I could be four down. I could also be three up or four up. One thing I know, I'm not 17 down. So I called up the best pollster, a guy, it doesn't matter, let's just call him John. His first name's John. I said, "John, can I ask you a question? I just left Wisconsin. We had a tremendous crowd. It was like a love fest. And then I wake up..." True. "And then I wake up like two days later and I see a poll, Washington Post, it's all over the place..." They love it, all the fake news. Look at all of them back, they're fake.

Crowd: [\(17:00\)](#)

Boo.

President Donald Trump: [\(17:03\)](#)

Among the most dishonest people in the world. Now they have a new thing, they don't report. They don't report on criminality, like with the Biden crime family. They don't want to report. But fortunately, we have guys like Ron Johnson that are willing to say it like it is. It's true. It's actually very true, what I just

said. He's fantastic, but we'll get to him later. Your senator is fantastic. So you take a look and I said, "I'm not 17 now." And he's a really smart guy, he says, "No, you're not." I said, "But don't they have to pay a price, like they did it 12 down, four years ago." And then I said, "Isn't it a bad thing?" He said, "Yeah, but they want you to lose." I said, "Well, why don't they make it that I'm three or two down, or make it believable?" "No, no. Three down or two down's no good. Because if they go three down, two down, four, even five..." I said, "Make it five." He said, "No, no good. Because that means you have a chance, that might even bring people out." They want to...

President Donald Trump: [\(18:03\)](#)

... Because that means you have a chance. That might even bring people out. They want to make it so bad. And they said, "No." They're very smart people. They're very vicious people. And they purposely make these polls phony. They're phony polls. And he said, "The only way they really can do it, they have to make it so that the people here think you're 17 down and they don't go and vote because they say it's hopeless." Five down, four down, three down means, gee, he has a chance. 17 down means, darling, let's go to dinner, let's have a wonderful dinner. And then we'll come home and watch the President lose, but we're not going to lose. We're going to win. We're going to win. True. True story.

President Donald Trump: [\(18:42\)](#)

Isn't that some story? Isn't that sad? And he knows the people. He said, "No, this is the way they do it." And then they came with another state where I was 10 down that I'm going to actually win the state. It's a terrible thing. We have tremendous dishonesty in polling, but not only polling. I mean, the stories. And now there's something that happened. We call it freedom of the press, right? This is the opposite of freedom of the press, because they now suppress.

President Donald Trump: [\(19:07\)](#)

It's now suppression of the press, because now they have stories and they don't want to have ... you cannot get a story out on Biden criminality. We have the laptop from hell. We have the worst things anyone's ever seen, and they just won't write about it. And that includes big tech. So you know what I'm doing? Here's who I'm facing, a corrupt Democrat party that spied on my campaign and we caught them. They spied on the campaign.

Audience: [\(19:45\)](#)

Lock them up. Lock him up. Lock him up. Lock him up. Lock him up. Lock him up. Lock him up. Lock him up.

President Donald Trump: [\(19:46\)](#)

Thank you. See, I never do anything to encourage it. Because they say, "He led the chant. Lock him up, lock him up. He led the chant against crooked Hillary." All she did was get rid of 33,000 emails once she got a subpoena from Congress. She deleted them. She acid washed them, and then she took a hammer to a telephones and she beat the hell out of the phone. I've gotten rid of a lot of phones, I've never hit them with a hammer. Has anybody hit the phone with a hammer? I don't know. Well, we'll have to tell that to Ron Johnson. We can put that. That is a strange event, Ron. I bet you never hit your phone with a hammer. No, it's called you throw it out, right? You throw out your phone, you start all over again.

President Donald Trump: [\(20:33\)](#)

No, we've got a corrupt bunch of people, but think of it. I'm all up here alone. Think of this. I have the Democrats impeach me for making a phone call. No, I make a phone call to a man I never met. The new President of Ukraine. "Congratulations, congratulations." It was a perfect phone call. Everybody said it. 297 to nothing in the house, the Republicans voted, right? It's like this perfect phone call, congratulate> Everyone said to me, "Please call him, he just won." You know I'm busy, right? I say, "Okay, I'll call him." Get the president. Nice guy. "Congratulations, ba, ba, ba. By the way, if you see any crime," because it we're supposed to ... we have a crime because it's a lot of corruption there, "Please report it to the Attorney General of the United States." Oh, we should impeach him.

President Donald Trump: [\(21:20\)](#)

I got impeached over a perfect phone call, but they didn't know we had the call essentially recorded. Thank goodness we had, because they were making up stories, right? They died when they heard we had it transcribed by very professional people. They died because it had already been way down the track by the time they found that out, I had to do that. We called up, we said, "Do you mind if we put your phone call on public record?" They said, "Why would that be? It was just a congratulatory call." I said, "Well, you'll find out." These are bad people.

President Donald Trump: [\(21:51\)](#)

So here's where we have. We have the Democrats. Now we have big tech. Now we also have the rhinos. Now the rhinos in many ways are worse than all of them. And most of the rhinos I beat because they were all representing one of the 17, because we had 18 running, but they were ... who most of whom I get along with. Some of them I don't like, I can tell you the good ones and the bad ones, but I beat all of these guys. And they ended up being rhinos and bad people. And here we are. And we're President. I think we're going to have something that's even better than what we did four years ago. I really believe that. I really believe it. Because you don't have crowds like this and be on the losing side. You leave here, he said, "Gee, that doesn't sound like a second place. You can't even see the end of the crowd. That doesn't look like a second place finisher." So when you hear about suppression, you have some very nice people up there, about two of them. But when you hear that, that's right, I know every one of them there, some of them are great, actually, but we're going to have a big victory.

President Donald Trump: [\(22:57\)](#)

And this election is the most important election of our lifetime. This is a more important election than the last one, and I never thought I'd say it because they have gone so far radical left that we have to make this final step. And we're going to be normalizing our country, really normalizing our country.

President Donald Trump: [\(23:19\)](#)

And you know what else normalizes it? Success. I'll tell you, before the plague came in from China, they should have never let it happen. But before the plague came in from China, I was getting calls from people that you would least expect. It was time. We had the best numbers, the best employment, the best everything, the stock market all time high, everything was the best. And they were like, "Let's talk," and it was happening. Then we got hit with the plague. Success brings this country together, and we're going to have success next year. We're going to have success next year.

President Donald Trump: [\(23:57\)](#)

The most successful year Wisconsin ever had was last year. You're going to have a year. I mean, unless some guy gets in that wants to quadruple your taxes, which he wants to do. He's the only guy I've ever seen, "We will raise your taxes." All my life I've seen politicians say, we're going to cut your taxes. He's the only guy ever campaigning on. He's going to increase your taxes. In 2016, Wisconsin voted to fire this corrupt political establishment. And you elected an outsider as President who is finally putting America first.

President Donald Trump: [\(24:35\)](#)

If I don't sound like a typical politician is because I'm not a politician, if that's okay. And if I don't always play by the rules of Washington and the Washington establishment, it's because I was elected to fight for you. And I fight harder for you than any President at any time in the history of our country.

Audience: [\(25:01\)](#)

We love you. We love you. We love you. We love you. We love you. We love you. We love you. We love you.

President Donald Trump: [\(25:15\)](#)

That's so nice. Thank you. That's a chant that has never been heard politically. Nobody's ever ... even these people, they have ... there's never been a time. We like Ronald Reagan. We like people, but they've never had that chant, so it's an honor. Don't keep it going too long, because I'll start to cry. I'll get a little. And we can't tell President Xi of China that the President was crying because they said they loved him. Right?

President Donald Trump: [\(25:41\)](#)

And the fake news would report it, "President Trump broke down in tears, as they shouted," somehow it doesn't work for us. Right? We can't do that. Right.

Look at him. He goes, “No way, you can’t do it.” No, we appreciate it. It is. It’s a chant that nobody’s ever heard before. It started happening like six weeks ago. And I said, “Man, that’s very unusual,” but it’s a beautiful chant and I appreciate it.

President Donald Trump: [\(26:05\)](#)

I’m not just running against sleepy Joe Biden. I’m running against the left wing media, the big tech giants and the Washington swamp, and it’s deep and vicious. And they can’t believe what’s happening. They can’t believe it. They would have taken most people out. Almost anybody would have been taken out.

President Donald Trump: [\(26:24\)](#)

And I have been helped a lot by that man right there named Ron Johnson. I have. It’s true. He’s a tough guy and he’s a smart guy. And I knew it earlier than anybody else. I knew it. I had a meeting with Ron Johnson and we were going to have a very complex tax. Most people had no idea what we were even talking about. He understood it so good. I mean, so he really understood it. So I knew a long time ago, what you had. Don’t lose him. Don’t ever lose him.

President Donald Trump: [\(26:51\)](#)

You need to show up in record numbers and deliver a blistering defeat to these corrupt forces. And they are corrupt as hell. They’re trying to take over our country, and we caught them. They’re coming for your guns. They’re coming for your jobs, and they’re coming for your freedom. Think about it. Your vote will stop them on November 3rd, get out there. You got to vote. It’s the most important issue. One of the most truly important issues.

President Donald Trump: [\(27:22\)](#)

You don’t like to even mention it, but as law and order. And I mentioned that to Biden during one of the debates, I said, “Hey, Joe, say the words law and order, can you do it?” He wouldn’t do it because he didn’t want to lose the radical left. He didn’t want to lose them. Joe Biden and his party have spent the entire year inciting violence and hatred against our police officers. He refuses to say, you got to stop it. You cannot run through Portland to destroy the city.

President Donald Trump: [\(27:48\)](#)

I mean, it’s been going on. We could stop it in 30 minutes. In Seattle, I said, “I don’t care. We waited and waited. The Governor never called. We waited. I said, “You got to go in.” They took over a part of the city. I mean, this is even ... to even talk about this, who would think of this? Seattle. And we were going in and we told them, “We’re coming in the morning,” and you know what they did? That evening they raised their hand and they left. That was the end of it. And a lot of people are paying a big price, by the way, but they raised their hands and they left.

President Donald Trump: [\(28:17\)](#)

Or the statues. We signed a law, you knock down statutes ... They were knocking down statues all over the country. You knock down statues, you go to jail for 10 years. It’s an old law. It’s amazing how we haven’t seen too much trouble with statutes. There were groups that formed. They wanted to do it. They wanted, and then they said, “Let’s get the hell out of here.” 10 years, 10 years. It says 10 years in prison, old law that we reenacted. You could never get that passed today with this crazy group, Nancy Pelosi and crying Chuck Schumer.

President Donald Trump: [\(28:54\)](#)

Crying Chuck Schumer and Nancy would never pass anything like that. They’d say, “No, you’re allowed to rip down anything you want.” We have a DC mayor that set up a commission, to talk about all of the things, cancel culture let’s talk about. They don’t like the Washington monument. They want it renamed or taken down. This was their recommendation. But don’t worry about it. We’re not doing, I promise you. They don’t like the Thomas Jefferson Memorial because they don’t like it. They don’t even know why. Tell me why. And they don’t like even the Lincoln Memorial, right? They don’t like the Lincoln.

President Donald Trump: [\(29:30\)](#)

So they wanted recommendations to change the name or take them down. And I said, “I think this commission should be immediately disbanded because it’s not going anywhere.” But they are. I mean, this is a fact. Take down the Washington monument. These people are stone cold crazy. You have to go out and you have to vote.

President Donald Trump: [\(29:50\)](#)

Biden stands with the rioters and looters, and Biden wouldn’t say anything about the report. They asked him about the report, he didn’t want to comment. “I have no comment.” Do you want to take down the Washington monument? “I have no comment on that.” Oy yoy yoy, he has no clue. He never had much of a clue. Now we know he ...

President Donald Trump: [\(30:09\)](#)

I stand with the heroes of law enforcement. These are great people. We have to help them. If Biden wins, the rioters in the streets, they’ll be running your Federal government. There’ll be running your government. No city, no family and no community will be safe. The Biden-Harris. How about Harris? Kamala. Kamala. And you have to say her name right or she gets very upset, right? Even though she doesn’t say it right.

President Donald Trump: [\(30:45\)](#)

But the Biden-Harris plan would end cash bail releasing 400,000 dangerous criminals immediately onto your streets, murderers and rapists. What’s going on is crazy. When the violent mob came to a place known as Kenosha, did you ever hear of Kenosha? Because I did. Remember what I did? If I didn’t activate immediately, Kenosha would not be there any longer. They were going to take it down. Biden opposed sending in the National Guard and I insisted on it. And I frankly wish the Governor asked me sooner, but at least he asked me, but we came in and that was over at about another 15 minutes, right? That didn’t take long. That didn’t take long. And we saved Kenosha. So you still have Kenosha.

President Donald Trump: [\(31:36\)](#)

They knocked down and they burned a couple of buildings down. I went, I met with the people, and really good people. What was there 100 years? It was a photography store, was 100 years. They burned down the store, but it’s going to get rebuilt. But we stopped it. That whole area would have been burned to the ground. So we came in and it was so easy too. It’s easy, but you sometimes have to meet force with force. You can’t just stand back, sit back and watch it take place like they did in Minneapolis. Then we went in and it took place very quickly.

President Donald Trump: [\(32:08\)](#)

Usually if it takes like more than a half an hour to wipe the whole thing out, I say, you’re not doing a very good job. Biden’s running mate, the most liberal Senator in America, even urged their supporters to donate to a fund that bailed out the rioters, took them right out of jail, including a cop killer or an attempted cop killer.

President Donald Trump: [\(32:30\)](#)

Biden wants to lock down your homes. He’s ready to lock it down. I mean, you guys are already in a lock down, so you might not notice it as much. Hey, Governor, you got to open up your state here. You got to open it up. You’ve got to open up your state. Got to open it up.

President Donald Trump: [\(32:52\)](#)

It’s sad. It’s sad, you got to go back. You understand? You’re going to socially distance. You’re going to do all the things you want to do. But I mean, we’re having these outdoor rallies. They say outdoor. Outdoor, normally would go into an arena. I actually like this stuff better. Although sometimes it’s snowing and sleet. I loved that last stop, but it was, the rain was pouring like sideways. It was going, “Sss,” that stuff. That’s when you say, I love the indoor arenas, but I like these. With a day like this it’s so beautiful. It’s great. Is there any place better to be that a Trump rally? No, seriously. It’s great.

President Donald Trump: [\(33:34\)](#)

But this election is a choice between a Trump super boom or a Biden depression. That’s what it is. And it’s also between opening up and keeping it closed. You see what’s happening in Europe? They’re trying it again. They’re going to close up. They closed up and they destroyed their economy. Our economy is so much

better, so much stronger. Went down so much less. And now it's come up faster than any country in the world. But ours is between a safe vaccine, which is coming very shortly, it's momentarily, or a devastating lockdown. That's what Biden wants to do because he has no choice.

President Donald Trump: [\(34:12\)](#)

He will not call the shots. He will not call the shots, and everybody knows it. Thanks to our historic campaign to slash red tape and mobilize industry, we will deliver a safe vaccine to the American people in literally over the next few weeks we think, over the next few weeks. There was a lot of pressure. There was a lot of pressure on everybody, including on the FDA, not to let this happen before the election.

President Donald Trump: [\(34:39\)](#)

So let me tell you, if Biden was in charge of this vaccine, just like the swine flu. He was in charge of H1N1, right? Which he can never get right. He can't remember it. It's always messed up. Sometime he does N1H1. And I say, "No." But it's the swine flu. I said, "Just call it the swine flu. It's easier." Right? It's the same thing. Call it the swine flu. That was a catastrophe. And his own Chief of Staff said it was the dumbest run thing they've ever done. And the lethality is much less than what this was and is, was, and sort of was because we have therapeutics now that are incredible. In fact, here I am. I'm here, right?

President Donald Trump: [\(35:21\)](#)

They gave me a shot, Regeneron it's called, and now there's Eli Lilly now have the antibody stuff. And I'd like to say it had no impact, but I wasn't feeling good. I like to say, because of my physical power, my strength, my young age. I made the case. I made the case. CNN got very angry. I said, "I'm not concerned." No, I said, "When I got better, I got better quick."

Audience: [\(35:45\)](#)

Superman. Superman. Superman. Superman. Superman.

President Donald Trump: [\(35:54\)](#)

No, CNN got very angry. Fake news. CNN is totally fake. I said, "No, I beat it because I'm in perfect physical shape," and I'm a very young ...

President Donald Trump: [\(36:03\)](#)

I beat it because I'm in perfect physical shape, and I'm a very young person. Well, our First Lady got it. She got better. Barron got it. He got better so fast, we didn't even know. We said, the doctor said, "Sir, Barron has tested positive." I said, "For what?" He's very young and very tall. He's seriously tall. He's a good kid, but he's a strong kid, but he's a kid and the immune systems, so they said, Dr. Shaw, and he's great. He's White House physician. He said, "Barron tested positive." I said, "For what?" He said, "For COVID." There's like 30 different names. I happened to call it the China plague or the China virus, because it's more accurate. Right?

President Donald Trump: [\(36:52\)](#)

About 14 minutes later, I said, "How's Barron doing? "Well, he's recovered, fully." I said, "Barron, were you feeling bad?" "I didn't know anything, Dad. What was wrong, Dad?" By the way, speaking to that, get back to school. Get back to school. Okay? Get back to school, right? Look, Ron [inaudible 00:37:13] agrees. Seniors be the first in line to get it, and we will, we're making it available free, because it's not your fault that this thing happened. The vaccine, by the way, with or without the vaccine, we're rounding the turn, but the vaccine makes it go faster. The vaccines are going to be out very soon. Very, very soon. Our vaccine will eradicate the virus and the pandemic, quickly restore normal life. I just want normal life. You do too.

President Donald Trump: [\(37:41\)](#)

All we want is normal life. I'm looking up to the sky. A friend of mine said, "You're the most famous man in the world." I said, "No, I'm not. No, I'm not." "No," he said, "No, who's more famous than you. You are the most famous man in the world. What are you talking about? Who's more famous?" I said, "Jesus Christ." I don't want to take any chances. I looked up and I said, "It's not even close." All right. But, next year will be the greatest economic year in the history of our country. Joe Biden's plan will delay the vaccine, postpone therapies, crash the economy and lock down the entire country. He doesn't mind locking down the country. The country could not stand it. You know, we locked it down shortly. We did it. We figured it out. We protect our elderly people, et cetera, but he thinks it's fine.

President Donald Trump: [\(38:46\)](#)

He loves that whole deal. I'll tell you. All he talks about is COVID. He gets up today. He's talking COVID, COVID, COVID, COVID, COVID, COVID, COVID. The truth is, we have done an incredible job with the ventilators, the vaccines, the therapeutics, but all he does, because he's got nothing else he can talk about, because no administration in the history of our country has done what we've done. I say it all the time. In the first three and a half years, what we've done with tax cuts and regulation cuts and rebuilding our military, which was totally depleted and a disaster. What we've done with our military, and so many other things, you know them all. Nobody's done, and they never even questioned me.

President Donald Trump: [\(39:28\)](#)

The fake news with all the cameras, it's never like where they come, "Oh, you shouldn't have said that." Nobody's done ... You think of it, Space Force. We could name, right, we could name so many different things. Under the Biden lockdown, countless Americans will die from suicide, drug overdoses, deferred medical care, and you'll have no school, no graduations, no weddings, no Thanksgiving, no Christmas, no 4th of July, no future. Other than that, he's doing a fantastic job. Biden wants to keep everyone locked up, even young Americans who are extremely low risk, like we talked about. He wants to steal the dreams and the future of our young people. One thing we've learned, the the computers are great and the laptops, everything's great.

President Donald Trump: [\(40:25\)](#)

For telehealth, it's been great, where people can stay in, and that's really been, I think it's up like 7000% or something. It's a great thing. But you know, for school learning, it's terrible. It doesn't work. It can't compare to a class or a campus. They're trying so hard to say, "Oh gee, this is wonderful." It doesn't compare. It's well-documented. You're taking a large percentage of a young life out of play. It's a terrible thing you're doing to young kids. It's a terrible thing that's happening with the parents too, because the kid's at school and the parents are working now. The parents don't know what to do. Many of their jobs are gone, anyway. Now, you got to open up your state. You got to do it fast. You got to do it fast.

President Donald Trump: [\(41:14\)](#)

Thanks to our relentless efforts, only 3% of the emergency room visits nationwide are related to the virus. Think of that. 3%, because you know what it is? They only talk about cases. The reason we have so many cases, because we test. If I tested half, they said, "Test, test, test." We test more than any country in the world, by far. We have the best tests. These are things that we never even had six months ago. Now, if I said, "Let's cut the testing down in half, you'd have half. Everyone would say, "Oh, the cases are way down." Right? But, you know what? It's good because we know if there's a problem, et cetera, et cetera. We know if there's a hotspot. But that's exactly what it is. I mean, but what we do and what we've done so well, other therapies, and if you think of it, the fatality rate is down 85% and more now. Think of that.

President Donald Trump: [\(42:07\)](#)

But, they talk about cases because when you hear 3% of the emergency rooms are devoted ... It's supposed to be 100%, and the hospitals are going to close. They don't know what's going on. It's been amazing what we've been able to do, but you don't hear them talking about death. You hear them talking about, because as a percentage, what we've done compared to other countries is incredible. Now, especially with the explosion that you see taking place over in Europe. We've done a great job, and I'll tell you what, our Vice President has been fantastic. You compare Vice-Presidents and if you don't mind, I'll take the one we have. Okay?

President Donald Trump: [\(42:47\)](#)

You talk about a victory at a debate. That was one of the greatest victories at a debate I've ever seen. That one wasn't even close. Our excess mortality rate is 42% lower than Europe's. Think of that. Where cases are now surging, despite very powerful lockdowns that they've been put. In. They've had very powerful

lockdowns. But don't take my word for it. I want to just show you something on a screen. Okay? Very special people get this. We have a video on our fight against the China virus and a couple of other quick things. Again, we only do this for extremely important states, and people. And Go ahead

Speaker 1: [\(43:26\)](#)

The fact is, every time I've called the president, he's quickly gotten on the line. When we asked to get support for that mercy ship in Southern California, he was able to direct that in real time.

Speaker 2: [\(43:39\)](#)

What the federal government did working with states, was a phenomenal accomplishment.

Speaker 3: [\(43:45\)](#)

We got 2000 of these field medical sites that are up, almost all operational now, in the state because of his support, and those are the facts.

Speaker 4: [\(43:55\)](#)

His team has been on it. I know a team when they're on it. I know a team when they're not on it. His team is on it. They've been responsive, late at night, early in the morning.

Speaker 3: [\(44:08\)](#)

We are working very well with FEMA Region 2, and with the Army Corps of Engineers, building four field hospitals. That was the decision the president himself took, and I'm grateful for it.

Speaker 4: [\(44:18\)](#)

These were just extraordinary efforts and acts of mobilization and the federal government stepped up. We needed help and they were there.

Speaker 5: [\(44:30\)](#)

He said everything that I could have hoped for. We had a very long conversation and every single thing he said, they followed through on.

Speaker 6: [\(44:40\)](#)

We've got to have double the number of ventilators that we requested for that area of the state. In fact, we got them in frankly, short order.

Speaker 4: [\(44:48\)](#)

Have we lost anyone because we didn't have a bed or we didn't have a ventilator? Well, we didn't have healthcare staff? No.

Speaker 7: [\(44:58\)](#)

The president was extending support for new swabs. A conversation, commitment, a promise made, promise kept.

Speaker 8: [\(45:15\)](#)

My problem is, I voted for NAFTA. I'm supporting NAFTA because I think it is the positive thing to do. I do not pretend to be an expert on international trade matters.

Speaker 9: [\(45:26\)](#)

Trade agreements, like NAFTA and permanent normal trade relations with China, which forced American workers to compete against people who making pennies an hour, has resulted in the loss of 160,000 jobs.

Speaker 10: [\(45:38\)](#)

The president is absolutely right, when he says that China has been cheating for 25 years and that Bill Clinton didn't didn't do enough about it. George W. Bush didn't do enough about it. Barack Obama didn't do enough about it.

Speaker 11: [\(45:48\)](#)

Rising China is an incredibly positive development for not only China, but the United States and the rest of the world. Rising China is positive, positive development. It is in our self-interest that China continue to prosper. We want to see China rise.

Speaker 12: [\(46:07\)](#)

China's a great nation, and we should hope for the continued expansion.

Speaker 13: [\(46:11\)](#)

China is not our enemy.

Speaker 14: [\(46:13\)](#)

We talk about China as our competitor. We should be helping.

Speaker 15: [\(46:20\)](#)

The idea that China is going to eat our lunch is bizarre.

Speaker 16: [\(46:27\)](#)

The idea that they are the competition. They're not bad folks, folks. China's not a problem.

Speaker 17: [\(46:31\)](#)

Allowing China into the World Trade Organization, which he supported, extending Most Favored Nation Status to China, which he supported. Those steps allowed China to take advantage of the United States by using our own open trade deals against us.

Speaker 18: [\(46:52\)](#)

Do you think, in retrospect, that you were naive about China?

Joe Biden: [\(46:54\)](#)

No.

Speaker 18: [\(46:55\)](#)

But, doesn't he deserve some credit for that? It's better. The USMCA is better than NAFTA.

Joe Biden: [\(47:00\)](#)

It is better than NAFTA.

Speaker 19: [\(47:02\)](#)

Now, to be fair, maybe Biden's not telling us, because he's forgotten his own plans. Watch Biden's staff quickly swoop in to shuffle him along. During a quickie escape, the basement trip to Pennsylvania.

Speaker 20: (47:19)

Here's the deal. One of the things that that is important, is that, keep in mind, although they're going to vote on [inaudible 00:47:37].

Speaker 19: (47:37)

That was terrifying.

Joe Biden: (47:38)

What kind of country are going to be? Four more years of George, George ... we're going to find ourselves in a position where if Trump gets elected, we're going to be in a different world.

President Donald Trump: (47:50)

You know, I like that, because I save a lot of words. You can never duplicate what you see up there, but you see the governors. Then, they'll say, although some of them have been actually very good, but we've done a great job and you see it there. That's what their real feeling is. But when they get up to a mic, "Well, I don't know if he's done that good." Now, we've done a great job. If you want a vaccine to kill the virus, a job to support your family, and freedom to live your life to the fullest, you have to vote republican. It's so important. You have to vote Republican. We're joined today with some really great people and a man that's right at the top of that list for me, is Senator Ron Johnson. Thank you, Ron. I'm telling you, you're lucky to have him. He's a fantastic man. He's done an incredible job and he's got a lot of courage too. In Washington, he's respected by everybody. Also, Congressman Glenn Grothman. Glenn? There's Glenn. Thank you, Glenn. Mike Gallagher. Thanks, Mike. Great job. Great guys. Somebody that's done a really good job for us, GOP chairman, Andrew Hitt. Thank you. Thank you, Andrew. How are we doing Andrew?

Andrew Hitt: (49:24)

Doing great, Sir.

President Donald Trump: (49:24)

All right. Because we don't, we're not going to fire you so damn ... You'll be out of here, Andrew. No, I think we're doing great. Yeah, I think we're doing great. I also want to thank a legendary champion and a Green Bay Packer, personified Hall of Famer, Brett Farve, for his endorsement. I got, he's a tough guy. He's great. But, two days ago I saw that he endorsed me and I just want to thank him. He's a hell of a champion. He's a great champion. I look at some of his records. You don't even realize it, but when you look at passing yards and touchdowns, and one thing about him, tough as hell and great and really talented. I want to thank Brett Farve. Thank you very much

President Donald Trump: (50:12)

For decades, our politicians spent trillions of dollars rebuilding foreign nations. Now we are rebuilding, if it's okay with you, our nation. I ended the NAFTA nightmare and replaced it with a brand new USMCA. Wisconsin dairy farmers were decimated under the Obama and Biden plan. Just think about it. I only ran because of them. I said that during the debate. I said, "Joe, never thought of this, I ran because of you people, because you did such a bad job." He had no response to that. With the USMCA, are dairy exports to Canada are expected to surge by more than 100%. Okay? Just went into effect and we're not going to be losing our companies to Mexico and Canada. We're not going to have our companies close up and get rid of everybody, fire everybody. And move and do the same product in Mexico.

President Donald Trump: (51:10)

You saw that. It's probably the number one reason I ran. I couldn't stand watching it and it's going to be, now, they're going to pay a tremendous economic price if they do that. Joe Biden is a corrupt politician. They took millions of dollars from the Chinese Communist Party, while Vice President Biden shipped your jobs to China. How the hell can he negotiate with China with the money they take. The news, they don't want to cover it. The fake media, the lame stream media and the companies, right? These wonderful companies that obviously don't love our country. It's suppression. They don't want to cover it. If Biden wins, China wins. His son walks in and takes out one and a half billion dollars to manage millions of dollars a year. They walk in.

Speaker 21: (51:58)

Where's Hunter?

President Donald Trump: (51:58)

Where's Hunter? He wants to know, where's Hunter? We haven't found him. He's still looking for his laptop from hell. That's where he is. "Where's my laptop?" "Hunter, you left it at a repair shop. You'd never picked it up." You know what they go? "Russia did it. Russia, Russia, Russia, Ron it's Russia. I know it's Russia." I saw Adam Schiff, watermelon head, like this. "I believe that Russia caused his problem. Russia." Yeah. Yeah. Here we go. Russia, Russia, Russia. We have a great head of DNI. He said, "No, it had nothing to do with Russia." Put out a very strong statement, nothing to do. If it does, we let it know. We let Russia know. But this is pure, disgusting, evil stuff that goes on. Your tech companies don't want to put it on you. Even the New York Post, which had real courage by the way, and they endorsed me two days ago. That's [inaudible 00:52:59] But, they had real courage. They took down the New York Post site. Can you believe it? The New York Post, the oldest newspaper in the country, fourth largest of the country. They took down the site. Now, we got to get to the bottom of it. We will, with guys like Kim, we will. When we win, Wisconsin wins. When we win, America wins, and that's what's happening. Under my leadership, we achieved the most secure border in US history. We have now built over 400 miles of wall. We'll soon be finished. They don't talk about the wall anymore. They don't tell you. It used to kill me. I'd go through with, and fight them and we'd close up and we'd do all sorts of things. They would go after me. Once the wall started, once they saw we had all that money lined up to get it done. The impact it's had is incredible. It's not completed yet, but it will be very soon. I built it exactly as Border Patrol and ICE wanted it. Exactly. I said, "What about concrete?"

President Donald Trump: (54:03)

... And ICE wanted it exactly. I said, "What about concrete plank?" They said, "Sir, that's no good. Have to see through." "Well, how about this? And how about that?" I know it all. That's what I like. They said, "Sir, we want steel. We, then, want concrete inside the steel, and then, we'd like rebar." I said, "Can you think of a more expensive way, maybe?"

President Donald Trump: (54:22)

But we gave it. And then, we want on top an anti-climb, you know the thing on top? I said, "Why are we doing that? That's very expensive. The piece of steel on top is four feet deep." They said, "Sir, that's called anti-climb. It's harder to climb." I gave them everything. Now, they have no excuse. I don't want to have any excuses. And our numbers on the border are phenomenal, the best we've ever had. Joe Biden has pledged to open borders, mass amnesty, nationwide catch-and-release. You know what that is? That's when you catch a criminal, murderer, rapist, you let the criminal go. We argued about this during the debate. He said, "They all come back for a trial." No, they don't come back, Joe. Only the ones, I said, with very low IQs, come back. You have a trial in two-and-a-half years for murder, you have to come back.

President Donald Trump: (55:12)

We release them, and I ended it. It's all ended. Okay. You think that was easy? It's not easy doing this stuff. It looks easy, but it's not. Sanctuary cities from coast to coast. They want to have sanctuary cities all over the place, and free healthcare for illegal aliens, which will bankrupt your Medicare and your social security. You will not have social security if you do that or Medicare. We all have a big heart. I do. I want to take care of everybody. The problem is you have millions of people pouring in from all over the world if you do this. As your president, I will protect your borders, I will protect your families, and I will always protect your Medicare and your social security. And I've always said it.

President Donald Trump: (55:53)

Biden and Bernie Sanders, crazy Bernie, one of the greatest losers of all time, this guy. No, but I meant that in a nice way. He lost, and he went back to the Senate and voted radical left, that he lost again. Elizabeth Pocahontas Warren, all she had to do is get out a couple of days early. He would have won every one of those days, but she decided not to do that. I don't think she likes Bernie, okay? But Biden will increase refugees. This was agreed with Bernie and the group

and AOC plus three, right? Highly educated person on the environment AOC. Have you ever taken a class on the environment? I don't think so. Increase refugees by 700% from terror hotspots. So, think of that, as 700... This was agreed to. I don't think Bernie was that bad. I think, actually, Bernie went further left after they made the deal. And I'm keeping radical Islamic terrorists the hell out of our country. Okay? If it's okay with you.

President Donald Trump: [\(56:57\)](#)

Look at what's gone on in France over the four days, what's happened in France. We invested \$2.5 trillion in the US military, including nearly \$6 billion to save the historic shipyard, Marinette Marine. And even more money for combat vehicle manufacturing in Oshkosh. Marinette's doing a great job. I went to Marinette four or five months ago, looked at what they were doing. We gave the contract to them, which costs me a lot of states, but that's okay. But we gave that to Marinette. They do a great job. They do a great job. They were ready to close. A \$6 billion contract, and it's going to be extended. They make the most beautiful ship. You have to say, it looks like a super yacht except it's got weapons all over it. And I would say, "Paint it gleaming white and call it a yacht. But the weapons sort of throw you off a little bit." You have more guns and things on that. I've never seen anything like it.

Speaker 22: [\(57:59\)](#)

[crosstalk 00:00:58:00].

President Donald Trump: [\(57:59\)](#)

Anyway, but they're fantastic. Biden will close the shipyard down. He would close it down. He will cut your military spending. We need it. And also, it's all made in the USA. It's jobs. It's great. Best stuff. And you know what? Two and a half trillion dollars. We're the envy of the world. We're the envy of Russia and China. Nobody has the equipment that we have, nobody. Stealth fighter jets, F-35s. Can't see them. Tanks, we have tanks. We have submarines. We have everything. What we've done... And nuclear, we've upgraded our nuclear. We have new nuclear. And all you do is one thing. You pray that we never have to use it. Okay? That's the big thing.

President Donald Trump: [\(58:40\)](#)

But having it and having it in tippy-top condition is the best way that we will never, ever have to use it. It's the best way. The last administration's cruel VA policies resulted in deadly wait lists under Biden and Obama. 300,000 veterans died on a waiting list. To fix this travesty, we passed Veterans' Choice and VA Accountability, accountability for firing bad people that don't love our vets and take care of our vets, which you could not do under any circumstances, civil service, unions, whatever. And now, you can do it. Jim, you're not treating our vets right. Get the hell out of here. You're fired. Okay, go. All right. Now, our vets, instead of waiting for weeks, sometimes, to see a doctor, they go to a private doctor. We pay the bill. And it's actually, it's probably less expensive.

Audience: [\(59:41\)](#)

Yeah.

President Donald Trump: [\(59:42\)](#)

It's probably less expensive, but much more importantly, we take care of our vets. You had vets getting online. By the time they saw the doctor, they became terminally ill. They actually have become terminally ill waiting for so long. So, now, they get out, immediately see a doctor. And recently, we just got a 91% approval rating for the way we're running the VA, the vets, from the vets. We killed the leader of ISIS, al-Baghdadi. We took out the world's top terrorists. Soleimani is dead. Number one terrorist in the world. I went through from the last administration's disastrous Iran nuclear deal, \$150 billion for nothing. You know what? They gave \$150 billion, John Kerry. He's another genius. What a deal that was. I recognized the capital of Israel and opened the American embassy in Germany. Presidents have been talking about doing that forever, forever, many, many presidents. They campaigned on it, and then, they wouldn't do it. And I understand why. It was not easy to do.

Speaker 23: [\(01:00:54\)](#)

Praise the Lord.

President Donald Trump: [\(01:00:54\)](#)

We had tremendous, tremendous pressure on us not to do it, but I did it. I did it. I just didn't take anybody's phone call, that's all. I also recognized Israeli sovereignty over the Golan Heights. They've been working on that for 52 years. I got it done in two hours. And instead of never-ending wars, we are forging peace all throughout the Middle East for no money and no blood all over the sand, no blood. Got countries lined up, want to make a deal. They all want to come in. After all these years. On the other side and everybody, they all said, "You could never do it this way." No, you could never do it the way they've wanted to do it for decades and decades.

Speaker 24: [\(01:01:36\)](#)

[inaudible 01:01:36].

President Donald Trump: [\(01:01:37\)](#)

I've done more in 47 months than Joe Biden has done in 47 years. A vote for Republicans is a vote for the American dream. And remember, the Republican party is the party of the late, great Abraham Lincoln. Right? Got to remember that. People forget that. Over the next four years, we will make America into the manufacturing superpower of the world. And we will end our reliance on China, which has already started. We will hire more police, increase penalties for assaults on law enforcement. And we will ban deadly sanctuary cities. They're dead. They're gone. We will end the big tech monopoly and restore freedom of speech. We will defend the right to life, religious liberty, and the right to keep and bear arms. We will maintain America's unrivaled military might, and we will ensure peace through strength.

President Donald Trump: [\(01:02:47\)](#)

We will end surprise medical billing, require price transparency, already signed, starts January 1st, will be bigger than healthcare. You watch. Lower drug prices even more. And there'll be down 50%, 60%, 70% because I've invoked favored nations. The drug companies, big pharma, they call it, does not like me too much. They have more ads than sleepy Joe has against me. Every time you see one of those ads, remember, your drug, they're just plummeting. Those prices are coming down. And we will always protect patients with pre-existing conditions, right? All right? America will land the first woman on the moon, and the United States will be the first nation to land an astronaut on Mars. We will stop the radical indoctrination of our students and restore patriotic education in our schools. And we will teach our children to love our country, honor our history, and always respect our great American flag. And we will live by the timeless words of our national motto, "In God, we trust."

Audience: [\(01:04:09\)](#)

In God, we trust.

President Donald Trump: [\(01:04:14\)](#)

For years, you had a president who apologized for America. Now, you have a president who is standing up for America and standing up for the great people of Wisconsin. I am. For some reason, I like you. You know why I like you? Because we had a victory. They didn't think I was going to win. And we kept waiting for Pennsylvania. It was obvious I was going to win, but the fake news didn't want to call it because that would have meant the end. And then, out of the blue comes, "Donald Trump has won the state of Wisconsin [crosstalk 00:10:48]."

President Donald Trump: [\(01:04:51\)](#)

Along with Ron, Donald Trump. I was a very pretty sound. And that was it. That was it. You were the one. You got us over the top. You better do it again. So, get your friends, get your family, get your neighbors, and get out to vote. Got to get out to vote on November 3rd, or previous to November 3rd, just get out the vote. Whichever way you want to do it, whatever way you want to do it, you got to get out to vote. This is a very serious... We're doing.

Speaker 25: [\(01:05:19\)](#)

We love you.

President Donald Trump: [\(01:05:19\)](#)
Thank you.

Audience: [\(01:05:19\)](#)
We love you. We love you. We love you. We love you. We love you. We love you. We love you. We love you.

President Donald Trump: [\(01:05:30\)](#)
Thank you. Thank you very much, everyone. I appreciate it. On November 3rd, we must finish the job and drain the rest of the swamp. We've drained lot of them. From Madison to Milwaukee, from Janesville to Kenosha, and from La Crosse to right here in Green Bay. I love Green Bay. But I love Kenosha too because we did a great job there. We showed them something, right? We showed them how to stop them. That was sort of easy, but I love Kenosha. We inherit the legacy of Wisconsin Patriots who gave their blood, sweat, and tears for this beloved nation. We stand on the shoulders of American heroes who crossed the oceans, settled the continent, tamed the wilderness, laid down the railroads, raised up the great, great skyscrapers, won two world wars, defeated fascism and communism, and made America into the single greatest nation in the history of the world. And the best is yet to come. It is. The best is yet to come.

President Donald Trump: [\(01:06:43\)](#)
Proud citizens like you helped build this country, and together, we are taking back our country. We are returning power to you, the American people. With your help, and we are doing that. Have you noticed? A lot of things are changing very fast in DC. We need this final step. This final step. It's going to be something. But with your devotion and your drive, we are going to keep on working. We are going to keep on fighting, and we are going to keep on winning, winning, winning.

Audience: [\(01:07:23\)](#)
Winning, winning, winning.

President Donald Trump: [\(01:07:27\)](#)
We are one movement, one people, one family, and one glorious nation under God. And together with the incredible people of Wisconsin, we have made America powerful again. Our military is so powerful. We have made America wealthy again. Look at what's happening to our country. We have made America strong again. We're doing it with our credible law enforcement and everyone else. We have made America proud again. We have made America safe again. And we will make America great again.

Audience: [\(01:08:13\)](#)
American great again.

President Donald Trump: [\(01:08:13\)](#)
Thank you. Thank you, Wisconsin. Thank you. Thank you, Green Bay. Get out and vote, please. Get out and vote. Most important election of your lifetime. Thank you, everybody, very much. Thank you.

Melania Trump: [\(01:59\)](#)

Hello, Florida. It is wonderful to be here in our home state. Thank you for taking the time to be here and for supporting the administration. We love you too. For those of you who are still deciding who to vote for on Tuesday, I hope that what I have to say would prove to you that a vote for President Trump is a vote for a better America. In a time when hate, negativity, and fear are the messages the media streams into our homes and the large tech companies are protecting political censorship, we need to remember what is really important. My husband's administration is focused on the future. The health and safety of the American people, the education and wellbeing of our children, the safety and security of our streets and communities, and the protection of our fundamental family values.

Melania Trump: [\(03:37\)](#)

Under Donald's leadership, we have blocked out the noise and focused on you, the American people. Under my husband's leadership, our nation is respected again, our borders are safer, we have won wars, and we have stayed out of new conflicts. We have made historic peace deals in the Middle East. We didn't just talk about it, we moved our embassy to Jerusalem. The president stands with our friend, Israel, more than any other president before. Our allies are now doing their fair share globally. Our economy soared and unemployment shrunk. Our military is stronger than ever. Opportunities for women and especially working mothers expanded in our work force. Healthcare for every citizen remains a priority for him. And as you have seen over these past years, he won't stop until he gets it done.

Melania Trump: [\(05:13\)](#)

We have a law an order president. Donald fights to protect and support all our people. He also fully supports our men and women in uniform while others are calling to defund them. We have faith in our judges and our legal system to rule justly. We respect our heritage and we condemn all hate. We should always learn from our past. And it is more important than ever that we never forget it. Under this president, our American values and ideals are protected, cherished, and upheld. We have had three incredible years of making America great again. In early 2020, our ...

Crowd: [\(06:46\)](#)

Four more years. Four more years. Four more years. Four more years. Four more years. Four more years. Four more years. Four more years.

Melania Trump: [\(06:47\)](#)

In early 2020, our nation began feeling the effects of a global pandemic, a virus that invaded our nation. And no one really understood. Now, because of our amazing medical capabilities and resources, we are in the process of developing powerful therapeutics and vaccine. A vaccine is not a partisan issue. If you are not supporting the safe production of a vaccine, you're not supporting the health and safety of the American people. There is no room to play politics on this topic in the midst of pandemic. I want to take this moment to say thank you to the many amazing frontline workers who are with us today. Thank you for all that you are doing. You keep our most vulnerable citizens safe. Our administration fully supports you and will continue to work tirelessly to ensure that you are equipped with all the medical supplies you need. This administration also continue working to develop safer procedures and practices so that children can get back in the classroom. So that businesses can continue reopening and people can start earning an income again. This president and his team are focused on not only destroying the virus and building back the economy, they're focused on the creating ways for people to safely stop isolating and start gathering with friends again on a safe distances. This is about mental health as much as it is physical. We are a country of hope, not a country of fear or weakness. And we have a leader who shows us that every single day. President Trump chooses to move this country forward. This country deserves a president with proven results, not empty words and promises. On Tuesday, the direction our country will take is in your own hands. I ask that you join us in continuing to put America first. Together, we will overcome this pandemic and continue building the brightest future for generations to come.

Melania Trump: [\(10:12\)](#)

Thank you. God bless you all. God bless your families. It is now my pleasure to welcome the president of the United States, Donald J. Trump.

Crowd: [\(10:32\)](#)

We love you. We love you. We love you. We love you. We love you. We love you. We love you.

Donald Trump: [\(11:27\)](#)

Wow. Thank you very much. That was a little bit of a surprise. That was a surprise. Thank you, Melania. Good job. They love our first lady. They love our first lady. And America is blessed to have you. Thank you very much, honey. That was great. So I'm thrilled to be here in my, our, home state, Florida. I love this state and I love the people of this state. And five days from now, we are going to win Florida and we are going to win four more years in the White House. And we're going on to win a record share of the Hispanic American vote. You see what's happening.

Donald Trump: [\(12:24\)](#)

Ah, they're very concerned back there. The fake news, they are so concerned. Melania, you don't know too much about them. You've seen enough. But they are very unhappy. You know what's happening, don't you? You see what's happening? We've led Florida every single day. What's going on? This is a terrible thing for them. Actually, it's a good thing for them. They just don't know it. They haven't quite figured that out yet. No, we're doing incredibly in Florida. We're doing incredibly all over. And this isn't based on polls, this is based on facts. This is based on votes that are coming in. But you have to get out and vote. We are creating the greatest red wave in the history of our country.

Donald Trump: (13:12)

Oh, it's been amazing. We'll talk about it a little while. I want to get some of the little introductions and introductory things out, but we have to talk about what's going on in our country with the big tech, the power of big tech. They're incredible. They're incredible. No, no, no. I heard about the power for a long time. The power of big tech. I heard about it four years ago. "Sir, big tech is against you. They're tremendously powerful. You can't beat them." Then we had the election and we won. I said, "Oh, how did that happen?" And the fake news media, 94% of the stories about us are negative. Think of it. Think of it. 64% of the stories about Sleepy Joe are positive. How the hell do you have a positive story about this guy? How do you have a positive story about him?

Donald Trump: (14:04)

This election is a choice between my plan to deliver historic. And you know what this is going to be, right? Historic. This is historic prosperity. Another major tax cut to go along with the biggest tax cut in the history of our country. And record job growth. And Joe Biden's plan is to deliver punishing lockdown. She's going to lock you down. And Florida's all opened up. You have a great governor. Did he speak too long today or not? No? No, I watched him on the plane. I said, "Oh, look, there's Ron." They have the little thing in the box. I said, "Oh look, there's Ron. He's speaking." He looked like he was up there a long time. She said yes. He's a great governor. You have a great governor. He's a great guy.

Donald Trump: (14:58)

They want to give you massive tax hikes. The first time that I've ever seen ... I've been with politics all my life, essentially. Only doing this for a few years on this side of it. But we've done well, haven't we? What do you think? A senator came into my office, said, "Sir." An older guy, nice guy, pro, total pro. "Sir, I've been in nine races and I've won seven of them. So now I'm a United States Senator." I said, "Senator, I've been in one race and I've won one. Now we want to win two. But I won one. But it was the presidency." We took them all by surprise, didn't we? We took them by surprise. They're still trying to recover.

Donald Trump: (15:44)

And you will have a crippling depression, the likes of which you've never seen, if Sleepy Joe becomes your president. And your 401Ks, throw them out the window because you know what's going to happen. And you know our stock market has a big headwind. The headwind is if he wins, and we are doing great. You see the number today? 33.1 GDP. The biggest in the history of our country by almost triple, right? Almost triple. Now it's very much bigger than any GDP we've ever had. You have to go back to the 1950s, and then it's less than half. This is the greatest number, 33.1%. If you asked me two weeks ago, I would've said I'll take 12%. 12% would have been very nice. Nobody ever heard of 12%. 33.1. And let me tell you what they're going to do. I never even thought of this one. They won't even talk about it. This is the biggest event in business in 50 years. Nobody's ever seen a number like this. This is bigger than any nation. No nation has a number like that.

Donald Trump: (16:52)

Other nations right now, they're ... Look, we were compared to Europe. Germany is doing so well, France is doing so well, everyone's doing so well. No, they're not doing well. And you take a look at what's going on. And we want the best for them, we're on their team. We want to work with them and everything else, but they're not doing well. They're spiking up big, they're shutting down, they're locking down. I disagree with that because we're never going to lockdown again. We locked down, we understood the disease. And now we're open for business. And that's what it is. And that's what it is. This explosive economic growth is four times greater than what the experts expected. They expected a number that would be like 7%, 8%.

Donald Trump: (17:35)

But here's what's going to happen. You're going to go back home. You're going to say, "That was incredible. Melania was unbelievable. The governor was incredible. I've never heard anybody speak like that. Trump was okay too. But we have no choice. We have to vote for Trump because it's between Trump and Sleepy Joe. And anybody beats Sleepy Joe." I can take a couple of these guys, they're friends of mine. They're not good people. They're better than Joe. I will tell you. Now, do you believe what I'm running against? I'm running against the worst candidate in the history of presidential politics. I don't care. Win, lose, or draw. This is the worst candidate in the history. He shouldn't be there. Because Pocahontas kept going instead of getting out. Then it would have been against Bernie, which would have been fine too. You know what? You would have had a more energetic base if we had Bernie. That's one thing. Because I don't know if they have a base.

Donald Trump: (18:34)

Here's what's happened. He goes for a speech. They're showing you thousands. And look, as far as all the way back to that building, as far as the eye can see. And Biden is leaving his basement today, he took the lid off. You know what he does? He takes the lid off, runs to the closest part of Delaware, like if he can get a little piece of Pennsylvania. People in Pennsylvania are wise to him. They know all about his no fracking, no fracking, no fracking. Then he gets to Pennsylvania. He learns it's a million jobs. And by the way, Pennsylvania, they give us that you can fire up your factories. They give us the energy. And it's inexpensive energy. So he goes to Pennsylvania. All of a sudden, he changes. "Yeah, so I have nothing against fracking." And the press doesn't call him out on it. Right? And they don't call them out on where's Hunter? They don't call him out, where's Hunter? Where's Hunter? Is Hunter in the crowd? They don't call him out. They don't call him out on where's Hunter?

Donald Trump: (19:44)

It's crazy. It's crazy. Some people said, I get a call from all the experts, right? Guys that ran for president six, seven, eight times. Never got past the first round, but they're calling me up, "Sir, you shouldn't be speaking about Hunter. You shouldn't be saying bad things about Biden because nobody cares." I disagree. Maybe that's why I'm here and they're not. But they say, "Talk about your economic success. Talk about 33.1%, the greatest in history." Now, look, if I do, I mean, how many times can I say it? I'll say it five or six times during the speech. 33.1.

Donald Trump: (20:45)

But you look at that and you look at Tucker Carlson, what he did the other night. Great. Great. And followed up by Sean and followed up by Laura. And the next day, nothing at all, right? Nothing. Nothing in the New York Times, the fake New York Times. Hey, how about Anonymous? Did we see Anonymous? A low staffer. Anonymous turned out to be a guy. I'm trying to figure out, I don't know who the hell this guy is. So the New York Times said, "A senior white house official." Nobody knew who he was. Look, we are in big trouble with the press. They are truly the enemy of the people. They are the enemy of the people.

Donald Trump: (21:39)

So this guy goes out, this low life. Well, I never saw him. I think he has a picture of me standing there like I do with thousands of people. This low life goes out and he writes a book. By the way, when he left, he had nothing but praise for the Trump. Oh, it's incredible. Incredible. Then somebody gets him at the New York Times, the fake New York Times. And all of a sudden, he becomes nasty and he writes. And they say, "A top White House official." Well, he was a staffer, low, had nothing to do with the White House. He had nothing to do. And he goes in, and you know what? There should be major criminal liability for some scum like this.

Donald Trump: (22:19)

And for a year, everybody walks into my office, Secretary of State Pompeo. I could name every one of them, all good people. I'm looking at them and say, "I wonder if that could be the one." And it turns out to be this low life that nobody knows who the hell he is. He had nothing to do with us. I don't think I ever met him. And I might've met him. I think somebody said he has a picture of me standing someplace. This is a disgrace to our country. It shouldn't happen. And he should be prosecuted. Are you listening to me back in Washington? He should be prosecuted along with the New York Times because it was a story made up, it was fake news made up by the New York Times. And you know who he works for now? CNN. He works for CNN Right there. See the camera right there with the light that just went off? See that, honey? That red light just went off. Fake news, CNN.

Donald Trump: (23:18)

And Anderson Cooper asked him, "Are you Anonymous?" And he lied to him. He said, "No," essentially. Said, "No, I'm not." And he works for CNN. I would think CNN would be firing him for that, but this is a real low life. You know who else he works for? Google. He works for Google. I think Google should fire

him very quickly because bad things are going to happen to him. But think of what he does to our government. Right? It's like a horrible, treasonous, horrible thing that you can do this and you can get away with it.

Donald Trump: [\(24:04\)](#)

Weekly jobless claims, this is boring but it's really good, just hit a seven month low. In other words, from the beginning of the pandemic seven months ago. We're going to have next year the best year we've ever had economically. And it's true. Biden is holding back the stock market because it's an election, crazy things can happen. Maybe 100% of the people in Florida decide not to vote. You never know. But we have a headwind. So it's gone down a little bit over the last few days because you're coming close. And it could be. We're going to win this election so big. You watch. You watch. We're going to win so big. And that's the only reason the market's going down. The market's going down because if he gets in, seriously, you're going to have one of the worst depressions we've ever had. You're going to have. And John Roberts from Fox is back there. And I think he agrees. And John Roberts is very unhappy because he doesn't want-

Donald Trump: [\(25:03\)](#)

He agrees. And John Roberts is very unhappy because he doesn't want his 401K to go down the tubes. No, John's treated us very fairly. Not perfect. He's not perfect, I will say, but he's been overall pretty good. He's pretty good. So, CNN, Google, we got to do something about all of it. New York Times is fake. It's fake. They write so many fake stories. Thanks to our policies, America is experiencing the fastest and biggest recovery. We're having the best recovery anywhere in the world. No other country, small or large is recovering like us. Think of that. In the past five months, we've created a record 11.4 million American jobs, the fastest job growth in the history of our country. Our job growth has been 23 times faster than the first five months under Obama/Biden recovery, which was, by the way, the worst recovery since the Great Depression. You do know that, right?

Donald Trump: [\(26:07\)](#)

And just so you know, because all Biden does is talks about COVID. Right? He doesn't call it the China virus. You know why? Because China has him paid off. He can't use that term. They gave his son one and a half billion to manage. He makes millions of dollars a year, I assume. Right? The smartest guys in Wall Street said, "No, sir, that could not have happened. We can't get it." No, took him about, what, 10 minutes? He walked in, he walked out with one and a half billion. Hey, maybe he's not so stupid after all. Right? That's the only thing. I thought he was so dumb. Maybe he's not as dumb as we think. Look, he cannot take on China. I didn't say anything. I didn't say... The biggest story, no, the second biggest story, the worst was when they spied on my campaign and they got caught. That's the biggest political corruption story in the history of our country, but this could very well be second. And we have what's called the laptop from hell, the laptop from hell. From what I've understood, you only have seen a tiny portion of it, but you know what the press is now doing? They're blaming Russia. It's Russia did it. Russia is the one that created the laptop. And Russia brought it into that little shop to have it fixed. Russia. I think Russia's looking at us, they're saying, "Those people are stone cold crazy. This is..." No, it was Russia's fault. They said it. Loud and clear. It was Russia, Russia, Russia. Aren't we tired of this crap?

Donald Trump: [\(28:03\)](#)

I saw a Schiff the other day, two days ago, watermelon, he looks like a watermelon head. Right? Remember he lied in the halls of Congress. He read my conversation with the president of Ukraine, but it wasn't my conversation. Hey, how great do we love those people that took down the language, professional military people, word for word for word. If I didn't have it, it would have been my word against shifty Schiff. Right? Eight times he said quid pro quo. Think of what that means. Eight times you've asked for the same thing. After the third time, the guy on the other side would say, "He's got some serious problems." I don't even know him. I called him to say congratulations on becoming president of Ukraine, and for that, I got impeached.

Donald Trump: [\(28:51\)](#)

But you know what we have, we have a lot of great Republicans, and I hope you're going to be voting for those Republicans, also. Great Republicans. We have one of them here, Mark Meadows. Has anyone ever heard of Mark Meadows? Took me three years to get them out of Congress and become chief of staff. He's great. He's here. He was one of our great ones. And you know who helped me a lot? Honestly, in fact, I said, "Don't run for governor, Ron. Stay exactly where..." He was a Congressman, your governor. Right? There he is. Look at Mark. He's out there working with the phone. He's got the phone going. He uses two at one time. Right? But your governor was another one. He stood up... He's Harvard and Yale. Do you know that? Your governor. He doesn't talk about it. He doesn't talk about it. But he would be on television defending me and fighting for me. There was a group...

Donald Trump: [\(29:45\)](#)

Jim Jordan. Did anyone ever hear of Jim Jordan? Jim Jordan, 128 and one. Jim was an NCA wrestling champion. One of the best, one of the best. He was a great one. He was a great one. And when you win like he won, he won everything. When you win like that, it's also right here. It's muscle, but it's got to be muscle attached to a lot of brain. Right? You guys know, the athletes know it. But Jim was great, but Ron was fantastic, your governor. He asked me, he said, "Would you support me for governor?" I said, "No, not really. I'd rather have you stay right where you are. You're doing a good job of defending me." But think of it, what we had to do, and we got 197 to nothing in the House. Think of that. 197 to nothing. And then we went to the Senate, and we had 52 and a half to a half. You know who the half? But that's okay.

Donald Trump: [\(30:38\)](#)

That was the guy that Sleepy Joe Biden he couldn't remember his name. Remember he said the guy from... The guy from, isn't he the governor from that place? Utah. Utah. I don't know his name. I can't remember his name. It was Romney. No, Sleepy Joe's a little bit off. Let's face it, Sleepy Joe is shot. And I'm not a fan of his, and he's not a nice guy. If he was a nice guy I couldn't say these things. He's not a nice guy. Now he doesn't remember whether or not he used to be a nice guy. He was never considered smart. He was a touchy feely guy. You know those guys? Touchy feely. But not a nice guy. Not a smart guy. Our incredible First Lady is sitting here right now, and she's saying to herself, "I wonder if all rallies are like this." No, most of them are a little bit different, but that's okay. You know why, honey? We're in Florida. This is like home. This is home. Right? This is home. We say it like it is. We say it like it is. We created the greatest economy in history, and now we are doing it again. See, oh, that hat, that beautiful hat? Let's make America great again. Right? We're going to make a new one. Let's make America great again, again. We did it. We did it. Now we're doing it again. My First Lady wants to do it again. Under my leadership, the Florida tourism industry and hospitality industry will come roaring back very soon. It's ready to happen. We're making the turn.

Donald Trump: [\(32:32\)](#)

We've got the vaccines coming very soon. The FDA has worked miracles. They had no choice, they had... This would have taken, if Joe was in charge, you wouldn't have a vaccine for four years. I was going to say he was in charge of the swine flu. He calls it N1H1. It's actually H1N1. I say, "Joe, it's not. It's H1. H comes..." It's easy because H comes before N. I said, "Joe, Joe, that's what it is." I said, "Just go with swine flu. You don't have to call it... The numbers are too complicated." Three days ago he said, "I'm a proud Democrat running for the United States Senate, and I hope I have your support." Look, we can't games. You've seen enough. Haven't you seen enough? This is crazy.

Donald Trump: [\(33:24\)](#)

But based on the early numbers I've seen, I think you understand exactly what I'm talking about. We have the potential. We have the greatest country in the world, but we have the potential to go to places that we've never been in a positive manner. The potential of our country is so incredible, and you see it happening already. You look at Germany, you look at all of these countries, they're now locked down, they've got a lot of problems. You look at our numbers, look at our recovery, fastest recovery. We went down, the least economically went down by [inaudible 00:08:57]. As much as it's painful and terrible, we went down the least. We've done an incredible job. It was projected that we would lose 2.2 million people. Right? The projections were 2.2 million. By the way, we shouldn't have lost one person. China should have never let this happen, they should have never let it escape, and we will not forget. We will not forget.

Donald Trump: [\(34:22\)](#)

Biden's agenda will devastate the Hispanic-American community. He betrayed Hispanic-Americans for 47 years. He's been very bad to the Hispanic-Americans, and what is happening with those poll numbers? I have the highest numbers. We are now, according to the polls I'm shown, which our real polls, we are now beating the Democrats for the first time ever with Hispanic-Americans. First time ever. First time ever. And I've always loved them, and I think they've

always loved me. First time ever. First time ever. And the fakers back there are going crazy. And now Biden wants to close your small businesses and confiscate your guns. Second Amendment. Don't worry about it, your Second Amendment.

Donald Trump: [\(35:18\)](#)

We're letting far left rioters, looters, and vandals roam free. Look what he's doing in Philadelphia. Look what's happening. Those are people that he supported. He couldn't even come out against them yesterday. They asked him a question, he said, "What's Philadelphia? Where is it? Where is it?" He didn't know what state it was in. Other than that, he's doing a wonderful job. Could you imagine losing to this guy? Could you imagine? Our First Lady will have to say, "Darling, I don't know. This is impossible." But you have to be very careful when you say that. Whenever I say anything that even uses the word losing, the fake news said, "He is thinking about losing. This is a big story. President Trump thinks she's going to lose." No, I don't. I don't. I think you're going to lose, and I think you've lost all credibility.

Donald Trump: [\(36:09\)](#)

And our elegant First Lady sits and she says, "What the hell is happening again?" This election is a choice between the American dream and a socialist nightmare. That's what it is. It's socialism. I used to say Venezuela on steroids. This would be, if they got in, a very, very, very large version of Venezuela, and it can happen with the Green New Deal and all these crazy... Look, AOC plus three, I heard she's very insulted that I call her AOC. I'm not. I call her AOC plus three. That's the three characters that... Ilhan Omar. I'm going to win Minnesota because of Ilhan Omar. She tells us how to run our country. She's telling us how to run our country. I don't think so. Ilhan Omar. So, we're going to win the state of Minnesota for two reasons, her and the fact that when Minneapolis had their problem, they should've called us sooner.

Donald Trump: [\(37:32\)](#)

But when they called us, how long did it take? 25 minutes? It was extinguished. We could have done it the first hour instead of waiting for a week and a half. But the governors, they have to call, and I give the governor credit. He eventually called, He eventually called. They should call us, I'll tell you, Oregon. They should call us in Portland. Oh, would I love to go in with the anarchists. They would last 15 minutes. Our guys, you got to hold them back. They want to... "Let us in, sir. We'd like to go in." I meet them. I see troops. "Sir, we'd like to go into Oregon. We'll take care of it." I say, "Just calm down. Just calm down." It wouldn't take them long. It would take them about 15... How long? And then we'd, well, we'd do things, and then, eventually, they' end up going home about 10 years later, back home to mom and dad where they started in the basement. Antifa.

Donald Trump: [\(38:23\)](#)

You know Antifa? So, Biden called it an idea. He said, "Antifa's just an idea." I said, "No, when you get hit over the head behind your back with a baseball bat, that's not an idea. That's not an idea." Didn't he call the United States, he called the United States an idea, too. I said, "No, no, it's not an idea. The United States is a great nation. That's what it is. It's not an idea." He called us an idea, so he puts us in the same category as Antifa. As long as I am president, America will never be a socialist country, and I say it all the Time. This election will decide whether our children will be condemned to the misery of socialism or whether they will inherit the glorious legacy of American freedom. This election will decide whether the Biden Harris...

Donald Trump: [\(39:24\)](#)

How about her? How about her? I'll tell you what, when our great vice president Mike Pence debated her, it was a total... You know the expression, if it were a fight, they would have ended it. Within two days they were saying, the fake news, "She did magnificently well against Mike Pence." No, no. No. That's what happens. You do great, great, great. Two days later, you realize they have it down that you lost now. Mike did fantastically. He's a great vice president. He works very hard. I'll tell you one thing. His kids are in the military, and they're teachers. I guarantee you one thing, Mike Pence has not made hundreds of millions of dollars by scamming foreign countries, because that's what they've done. They've made hundreds of millions of dollars, and nobody wants to talk about it.

Donald Trump: [\(40:23\)](#)

Look at that. Oh, are they doing that on purpose? Are they friend or foe? I don't know. Actually, it felt good. I felt water on my face. I said, "Where the hell is that coming from?" They may be doing that on purpose. Let's find out if they're friend or foe, and if their foe, let's take care of those sons of bitches. Look at that. Are you okay? Oh, look, they're hitting the press. That's okay. Oh, there go the cameras. There goes a million dollars worth of equipment. Look at that. Wow. That's cool, actually. And I'll tell the media, "I have nothing to do with that," but it is cooling. I'm feeling a little... It's amazing. It's amazing. And I say it all the time, because we've liked Ronald Reagan, we've liked a lot of... Mostly they're stiff. Mostly. Generally speaking, they don't do the job. Right? But we've had good ones like Ronald Reagan. He's the one I think about. But nobody ever chanted... First of all, he'd never get a crowd like this. He'd have two or 300 people, they'd be in a ballroom. That was like the norm.

Donald Trump: [\(41:47\)](#)

You got to see yesterday. We had 35, 40,000 people. We were in Arizona the day before, two days before. We were in Pennsylvania. We did three in Pennsylvania, one bigger than the next, like this. And you know what's common? The love. It's all the same. The love is incredible. Love for our country. It's the love for our country. But there's never been a chance we love you... I'm watching this guy here. He looks like he could take on anybody in the world. He's a big, strong guy. I don't think he's ever cried in his life before, and I see him wiping away tears. We love you. We love you. This guy, he hasn't cried since he was a baby and probably didn't cry then either, and now he's crying. No, there has never been that chance before, and I appreciate it. And I'm crying. That's why I ended early. I'm crying, except I don't want them to say, "You're president broke down in tears today." I don't know. That's not cool. We don't want President Xi of China to say, "Gee, I just saw something that surprises me."

Donald Trump: [\(42:54\)](#)

We've taken billions and billions of dollars out of China. We gave 28 billion to our farmers, 28, right out of China. I don't want to have... But then the plague came in, right? Then the plague came in. That [inaudible 00:43:08] everything... We made a great deal with China. The ink wasn't dry before the plague came in, so it's a whole different feeling. I will say, three weeks ago, they ordered more corn, more soy beans, more beef than at any time in the history of this country, so they obviously think I'm going to win. They obviously think we're going to win, and they want to make us happy, but we're not happy because that should have been stopped. And it's not. Here, all over the world, you see what's going on. Europe. It's so sad, but you see what's going on. 188 countries all over the world.

Donald Trump: [\(43:43\)](#)

What China has done to this world, what they've done... People come up to me, they're clothed and masks and stuff and this... Hello, president. Hello. I said, "Look at this, what China has done to our country. What China..." I may do that. You better be careful. What China has done to this country, which it's not the first time either. Oh, they're paying. They're paying. But you can never pay for 200,000 more lives. You can never pay for that. Yeah, we can make them pay plenty, but a 210,000 lives. But it would have been two million lives. It's incredible the job that we've done and that the American people have done. This could have been two million lives. They said 2.2 million lives. No, they're going to pay.

Donald Trump: [\(44:48\)](#)

We believe in safe streets, secure communities, and we believe in law and order, not like in Philadelphia. And they can't let that happen. They can't let the looters run wild. They can't do it. You can't. You either have law and order or you don't. Philadelphia can't do what they're doing, and they have good police in Philadelphia. They like Trump. I can tell you. I've been endorsed by every law enforcement group. New York's finest, they endorsed me. They've never endorsed a presidential candidate. New York's finest endorsed me. It was a great honor because I grew up with New York's finest. And they are, they're incredible people. They're not being allowed to do their job. They've been way... He cut back a billion dollars, he took back, and now crime is way up. And it's not even the money, they're not being allowed... They're incredible people. Tough as hell, fair, they love our country. They're not being allowed in New York to do our job. Between the governor and the mayor, they're being just absolutely...

Donald Trump: [\(45:46\)](#)

And they want to leave. They want to get out. They have plenty of other opportunity. They don't need the danger. It's a dangerous job for all police. But we've been endorsed by New York. We were endorsed by Chicago police. The Chicago police, that's... Right? We've been endorsed by all of your sheriffs. You have

sheriffs. You have great tough sheriffs. I know many of them, but the sheriffs, we had a big ceremony two months ago in Florida. Ron was there. You were endorsed. We got a doors by the sheriffs. All law enforcement all over Florida. And I asked Sleepy Joe at the debate, I said, "Joe, name one law enforcement agency, just one, in the whole country that endorsed you." He couldn't do it. Remember? Then Chris Wallace saved him. I had two people. I was going against Chris Wallace and him.

Donald Trump: [\(46:36\)](#)

Chris was much tougher. Actually, Chris was tougher than Joe. And then I said, "Joe, say the words law and order." No. "Say the words law and honor, Joe. Say them." And then Chris Wallace, "He doesn't have to do that." Oh, okay, Chris. Thanks. No, I like Chris's father a lot better than I like him. Mike Wallace, the great Mike Wallace. He did me on 60 Minutes. It was a great... It was one of the few good pieces. He was a tough guy. Chris tries to be like him, but he doesn't have what it takes. But Mike Wallace was a tough, tough guy. And he did me on 60 Minutes, and it was a great piece. He's never recovered from that originally, but he passed away. He was a great guy and a great, great reporter, I'll tell you. And he was a friend of mine. He was a friend of mine. That didn't mean much to Chris.

Donald Trump: [\(47:25\)](#)

All we want is fairness. Right? And I will tell you, Kristen Welker, I thought she was very good. I really do. She shouldn't have been because she was far left. Her family is a supporter of Democrats. Her father's a big supporter of Democrat. She's a supporter of Democrats. Should have been very unfair. I think she went out of her way. And most people say she wasn't really fair to me, but she was because she always gave me a 10 seconds. She said, "Okay." See, Chris should have done that, "You have 10 seconds." 10 seconds to me is like an eternity.

Donald Trump: [\(47:56\)](#)

We did a lot of damage in that 10 seconds, including to get him to admit that he doesn't want oil. He doesn't want oil. I said, "Texas and Pennsylvania and Ohio, are you listening? Are you listening?" And you'll see they were listening on November 3rd. I'm sorry you'll have to wait till November 3rd. Texas, Pennsylvania, Ohio, Oklahoma, North Dakota, they're all listening. And you're listening because you don't want your energy prices to go through the roof. Right? And Michigan was listening because they want to produce cars and they don't want to spend all that money on energy where they're producing all of those factories that I got to go back to Michigan and go back to Ohio and go back to North Carolina and start brand new.

Donald Trump: [\(48:41\)](#)

And I'd see Prime Minister Abe of Japan. I'd say, "Prime minister, we're tired of taking your millions of cars. You got to let us have factories." Well, we can't do that. This is a private decision. No, no, it's not. You got to do it. But that is not government. I said, "You're a powerful man, Shinzo." He just retired. Unfortunately, he got ill, but he was a great man. He was great prime minister. Great guy, too." But I said, "Shinzo, you have to do it. I'm sorry. We're not going to take your cars. You got to make them in this country, in our country." And he said, "I can't do that, but let me work on it." The following morning, five major Japanese companies announced they were coming to America, and they did. I called him up, I said, "Shinzo, I know you had nothing to do with it, but thank you anyway." No, they run it tough over in Japan and China and these other places. Tuesday, your vote is going to save our country. Most important election we've ever had. We are going to defeat the Marxists and the socialist and the rioters and the flag burdens and the left wing extremists. We are going to defeat the anarchists, their anarchy. With your support, we will fight for American workers, we will defend our Second Amendment. Don't worry, it's very safe. If Biden got in, your Second Amendment is gone.

Donald Trump: [\(50:03\)](#)

If Biden got in, your Second Amendment is gone so fast. You know that. Support our police. Protect our borders. Expand school choice. So important. Ensure more products are proudly stamped with that beautiful phrase, "Made in the USA." That's what's going to happen.

Donald Trump: [\(50:23\)](#)

My plan for America will deliver a safe vaccine. You're going to have it in a few weeks. It's coming very quickly. Great companies. Johnson & Johnson. Moderna, Pfizer, many, many companies. You're going to have it. Seniors will be first in line to get it, and we will make it available to everybody free. It's not your fault. It's not your fault. We're protecting our seniors. If you're a senior and if you have a heart condition, if you have any kind of a certain type, especially diabetes, you're in big trouble if you get hit by the China virus. Big, big trouble. So we're going to make that vaccine. We're going to make it free, and it's coming from great, great firms. Our vaccine will eradicate the virus, and by the way, we have it. But whether we have it or not, it's rounding the turn. It's rounding the turn.

Donald Trump: [\(51:13\)](#)

Hey. Excuse me. I'm sure you didn't hear. Nobody heard this, right? I had it. Did you know that? I had to get back on the trail? I said, "This is not good timing." And I got better very quickly. First Lady had it. She had it, and she got better very quickly. But I'll tell you who had it also. The doctor went to the First Lady and myself and said, "Barron has tested positive." I said, "Excuse me, doctor, tested positive for what?" "He's got COVID." I said, "Okay." Then about 12 minutes later, I said, "Doctor, Doctor, how's Barron doing?" He's our very tall son. Very tall. Has anybody noticed he's slightly tall? He's 14 and I'm saying, "Hello, Barron." Now he's great, but he's strong. But I said like 12 minutes later, Dr. Sean... Great doctor. We have great doctors. One thing, when you are president, you got a lot of doctors. Johns Hopkins, I want to thank them. Walter Reed Medical Center, incredible.

Donald Trump: [\(52:28\)](#)

I mean, Dr. Ronny is now a Congressman from Texas. How about that? Dr. Ronny, he was before Sean, and Sean is now, and Sean has been great. But Sean came up along with other doctors, that Barron had it. About 12 seconds later, I said, "How's Barron doing?" "Oh, he's okay. He shed it. It's gone." It was gone like in two minutes. I said, "Hey, how come that doesn't happen with me?" But I wasn't bad. It was like a day, but they gave me a drug, Moderna. Who the hell knows? This was a very... Moderna makes it. I'll tell you makes really a great version, they say. Eli Lilly, right? Regeneron. And they gave it to me, and I woke up the next morning and I felt I could have taken the toughest, meanest person in this group. Regeneron.

Donald Trump: [\(53:17\)](#)

Now, I don't know whether or not it worked. I like to think it had no impact. I made a statement. I said, "Well, I'm in no trouble, because I'm young and I'm in perfect physical shape. I'm a perfect physical specimen." And CNN went crazy. "He's not young and he's not in perfect..." They can't take a joke. No, but I was better. I was better quickly. I was better very quickly. We reduced the fatality rate 85%, and now we have the lowest infection fatality rate anywhere in the world by far thanks to our unrelenting efforts. And by the way, remdesivir was also approved. It's supposed to have a great effect. I mean, I said, "Give me whatever the hell you have. Just give it to me." I wasn't choosy. You know, the First Lady, "I don't want anything. I don't want..." She's very particular, right? If I say, "Take an aspirin. You'll feel better." "No, no. I don't want an aspirin." Right? She doesn't want that.

Donald Trump: [\(54:21\)](#)

Only 3% of hospitalizations are right now China virus. So think of that. So our hospitals are ready if something should happen, but that's what... I appreciate that. He said, "We trust you." You can. We are doing the greatest job of this, except with one thing, publicity. Our public relations, we're spending too much time working and not enough time talking, but no matter what you say to these people, it won't make any difference. And because of the advances in treatment we pioneered, the survival rate is far over 99% for many groups. It's 99.9% And for under 70, it's unbelievably high. For over 70, now it's getting very good.

Donald Trump: [\(55:11\)](#)

And the drug they gave me, what we're doing is we're going to make that available, including the very similar drug, it's antibody, a very similar drug from Eli Lilly. We're going to make that available to anybody that needs it should they get the China virus. We're going to make it available free. So if anybody is going to need it, if anybody's going to need it.

Donald Trump: [\(55:39\)](#)

Joe Biden's plan will delay the vaccine, postpone therapies, prolong the pandemic, crush our economy. Crush our economy. We can't do this. Destroy the Florida tourism industry, and lock down our entire country. We'll be locked down. Under Biden's lockdown, countless Americans will die from suicide, drug

overdoses, deferred medical care, abuse. The thing that's happening to families is ... The cure, remember, I said it right in the video, the cure can not be worse than the problem itself.

Donald Trump: [\(56:16\)](#)

And you have Michigan locked down. You have all Democrat governors. You know what's going to happen? On November 4, the day after the election, they're going to open it up. They're doing it for political reasons, because it's so bad for their state, and they think our numbers are going to look a little worse. California's pretty much locked down. New York's got to open. New York is becoming a very unsafe ghost town. Governor, open up the state, governor. Open up the state. You'll see our governor, he's going to make a few words in a couple of minutes. Governor from New York is going to be with us in a little while. Are you surprised to see that? You'll see what I mean. There will be no school, no graduations, no weddings, no Thanksgivings, no Christmases, no 4th of July. There will be nothing. They will allow you nothing. Other than that, he's doing a wonderful job.

Donald Trump: [\(57:08\)](#)

Europe imposed crushing lockdowns, and today Spain is more than two times more new cases per capita than the United States. France has over three times, and Belgium has over seven times what we have. And I don't want that. I don't want that. I don't want that to happen to them. We're helping them. We're sending them thousands and thousands of ventilators. We've become the ventilator king. We're making thousands of ventilators a month. We're sending them to Europe and all over the world, sending a lot to Africa. They'll never be able to get them. They'll never be able to make them. We've done an incredible job. Incredible job.

Donald Trump: [\(57:45\)](#)

European lockdowns are not stopping the virus, but they're creating misery, poverty, suffering, and death. You see the riots in the street of Italy today, in the streets of Italy? And the riots they're having in France. The people are tired. They can't do it anymore. They can't do it anymore. They're losing their businesses. They're losing their jobs. They go back and the business is closed for nine months. We can't do it anymore. They can't do it. We know the disease. We social distance. We do all of the things that you have to do. If you get close, wear a mask. Always controversial. It's not controversial to me. You get close, you wear a mask. Social distance. Social distance. You know the bottom line, though? You're going to get better. You're going to get better. If I can get better, anybody can get better. And I got better fast. They were so happy. They couldn't believe it. That was probably the happiest day that they've had in years.

Donald Trump: [\(58:43\)](#)

And then I came out of the hospital to wave to the people, the supporters. I heard ... These really beautiful rooms. Walter Reed is incredible. The best. The best. And rooms, the glass, heavy glass panels over the windows. And through all of that heavy glass, brick and mortar, I could hear people screaming outside a half a mile away. And they were fans of mine with flags, Trump flags. "We love our president." And they were there for two days. They stayed there all night. I mean, these people were incredible. And I said to my incredible Secret Service people, there's one of them, Bobby. I know I'm not supposed to say it. Bobby, I love you, Bobby. I said, "Bobby, I want to go over and see them." "No problem, sir." He ripped on that mask. He wouldn't even think about that. I said, "Let's go over and see them, Bobby." By that time I was in good shape. I wanted to get out here with you.

Donald Trump: [\(59:39\)](#)

But we drove in front of those people, and we waved, and the people were so happy. It was incredible. It was. It was a love fest. They were so happy. And I got back and they were saying, "What a terrible thing to do." No. We got to take care of our people, right? We got to stay with our people, including Secret Service, who does an incredible job. Thank you. Thank you, Bobby. The man. The man. Thank you, Bobby. Thank you, Secret Service. They do a great job.

Donald Trump: [\(01:00:14\)](#)

For half a century, Joe Biden has been outsourcing your jobs, opening your borders, and sacrificing American blood and treasure in endless foreign wars. In 2016, Florida voted to fire the depraved political establishment, and you elected an outsider as your president, who is finally, if you don't mind, putting America first. That's what we're doing.

Donald Trump: [\(01:00:43\)](#)

Joe Biden is a corrupt politician that the fake news will not write about. They won't write the story. They won't write it, and big tech won't write it. They won't write the story. There's the outside of the New York Post, who just endorsed me by the way, thank you very much, so fourth largest paper in the country. Got a lot of great endorsements. We got a lot of great ... Jack Nicklaus. You know Jack? But he can do [inaudible 01:01:11] Jack. 78 tournaments he won, and he won 18 majors. Think of that, how great that is. That means under pressure ... You need people like that, right? People that can win under pressure. Jack. But Jack gave me a beautiful endorsement. We got endorsements from a lot of newspapers all over. We got a lot of endorsements. If Biden wins, thank you very much. If Biden wins, China wins. When we win, Florida wins and America wins. It's very simple.

Donald Trump: [\(01:01:41\)](#)

And if I don't sound like a typical Washington politician, it's because I'm not a politician. And I don't always play by the rules of Washington and the Washington establishment. It's because I was elected to fight for you, and I have fought for you harder than any president has ever fought for the people they love. Never.

Kayleigh McEnany: [\(01:02:11\)](#)

Four more years. Four more years. Four more years. Four more years. Four more years. Four more years. Four more years. Four more years.

Donald Trump: [\(01:02:33\)](#)

Thank you very much. There's a lot of people ... Look where that crowd is. Would you like to change places with some people in the back? I don't think so. Thank you. Thank you. That's incredible. What a crowd. But they're all like this. I tell you, no matter where you go, 35,000, 45,000. They never mention it. They never mention. But with Biden, they never mention it either. I said, "Show the crowd." You know what? They have circles. Someday, I'm going to hire the guy that does those circles. No, because it's really good. Big, thick, nice circles. They're perfectly done. It's the best part of his campaign, the circles. And usually he's got five of them. Usually he can't fill them up with people, so he puts the fake news in the circles.

Donald Trump: [\(01:03:16\)](#)

And then they don't ask him questions. Or how about the question they asked him the other day? He's walking out with ice cream. "Sir, what flavor ice cream is it?" "I don't know. It's vanilla, I think." Then they asked him a real question, he ran into the car, went back to the basement. Does he have the lid on again today? Almost every day. How do you put the lid? You know, when you do the lid, he did it like five, six days recently, that's like 50% of the campaign. Now they try and say it's because of COVID. They say the fact that he has nobody at all show up is because of COVID. No, it's because nobody shows up.

Donald Trump: [\(01:03:54\)](#)

And I think that's the ultimate poll, and based on the numbers that we're getting, we're going to do really well on Tuesday. We'll see. Who knows? It's an election. And if we do win, you're going to see a stock market that goes through the roof. Your 401ks are going to go up by 50% quickly. You watch. I'm telling you. We know. I know all those guys. They're just petrified at the thought of having massive tax increases, regulation increases. They said, "We've been through that. It wasn't good." That's why they had no growth. That's why they had no recovery. Slowest ever. Remember I said that. Slowest since 1929. That's a long time.

Donald Trump: [\(01:04:35\)](#)

Not only is Joe Biden corrupt, he's unfit. He has no plan to end the epidemic. It's all talk, no action, like I said at the debate. 91% to 9%. You know what that means? They did polls afterwards. 91%. A respected poll, 91% said ... I have to do it. I have to brag. You know why? They'll never do it. Do you know the expression? If you can't get anybody else to do it, do it yourself. No. 91% to 9%. I'm trying to figure out who was the nine. I want to find who these people were. No, it was just a ridiculous. Ridiculous. I think they could have done better, but you know, you never know. Again, this is why. You never know.

Donald Trump: [\(01:05:18\)](#)

His policies would create a depression, and he wants you to surrender our country. That's what he wants to do. He wants you to surrender our country to China, to all of these other countries that have taken total advantage of us. It's really the reason I'm here. If it weren't for the horrible trade deals with South Korea, with our allies, you know, our allies in many ways treat us worse than the enemy. The enemy, at least we have our guard up. Our allies, what they've done to us in terms of military protection and trade is disgraceful.

Donald Trump: [\(01:05:51\)](#)

And when they come out and they say they like Barack Hussein Obama much more than they like Trump, that means I'm doing my job. You see, Germany said it the other day, and I have roots in Germany. But Germany said it the other day, they like Barack Hussein Obama. And they should, because Germany is delinquent in their NATO payments. Very delinquent. They're at a half a level, and they're very rich. They can do whatever they want. It's not like they don't have the money. And I call them out. I say, "If you don't pay, we're going to start taking our troops out." And these people go crazy. They go crazy. You watch. Oh, we've already started to do it. They'll pay.

Donald Trump: [\(01:06:34\)](#)

But I just want to play you a video from a ... I was so impressed. It's a little bit ... We only do this for people that we love. We have these very expensive boards that come along, and this is largely a woman that comes from this area. Her husband happens to be a Major League Baseball player. Do you know who I'm talking about? He's a handsome guy, but she's far more beautiful, and he's on Tampa Bay, so he's right now a little depressed. I don't know if he's here or not, but if he is, I want to talk to him and say you did a great job. Kayleigh, please come up here, Kayleigh, and play the video, please. Play the video.

Kayleigh McEnany: [\(01:07:15\)](#)

Joe Biden censored zero times notably. No, because we're taking our message directly to the American people. We'll be making five rally stops a day. Five. Thousands show up. Literally we had 25,000 people show up in Omaha. These are historic crowds. The President takes his message directly to the American people, and shame on Jack Dorsey. As the New York Post noted today, this is a mob artist. This is a shakedown effort to say, "Delete the Hunter Biden story. The media won't report on it. Social media will censor it. Delete it, or we will censor the fourth newspaper in the United States. We will block them from social media. Big tech needs to be handled, and this president, a second term, will do just that, because there needs to be equity. There needs to be a lack of censorship. This is what happens in North Korea, not in the United States of America.

Kayleigh McEnany: [\(01:08:06\)](#)

Yeah. Look. The American people have a very clear choice when it comes to COVID. You can vote on Joe Biden or you will be locked down. Your schools will be closed. Your churches will be closed. You won't have social gatherings. It will be a lockdown versus President Trump, where we are safely reopening this country. Americans deserve jobs. They deserve freedom. Joe Biden's modeling his strategy, which is lock down in the basement, but this president has surged therapeutics and testing and a vaccine in record time. We can control this, but at the same time, we can open this country and not lock down like Joe Biden will do.

Kayleigh McEnany: [\(01:08:41\)](#)

That's right. It's their livelihood. These are small businesses. People who have worked their entire lives to open these shops, these businesses, and then on top of that, you have 30 police officers who are injured on the first night of the riots. One run over by a car. Chants to stuff police officers in trunks. A vehicle with explosive devices. Let me be crystal clear why this is happening. It's because Democrats have enabled the mob. When they attack our police officers verbally, it ends up that they end up being attacked physically. It's called, what Jim Comey said, the Ferguson effect. And we're seeing it play out yet again.

Speaker 1: [\(01:09:14\)](#)

So as we have 70 new infections a day and 29 states have hit highs, is the President's approach herd immunity?

Kayleigh McEnany: [\(01:09:23\)](#)

No, the president's approach is therapeutics, which by the way, have given us the lowest case fatality rate in the world, far lower than Europe's. Right now, when you look across the hospitals in the United States, the percentage of COVID patients in hospital beds is 6%. It's because this president did things right. You have a 99% survival rate under 70, and above 70, because of our therapeutics, it's very close to that because of what this president did, tearing down bureaucratic barriers, tearing down regulations, paving the way for therapeutics. We have done this right, and the Europe-United States comparison tells that story.

Speaker 1: [\(01:09:59\)](#)

All right. Kayleigh McEnany.

Speaker 2: [\(01:10:01\)](#)

The fact is, every time I've called the President, he's quickly gotten on the line. When we asked to get support for that mercy ship in Southern California, he was able to direct that in real time.

Speaker 3: [\(01:10:11\)](#)

What the federal government did working with states was a phenomenal accomplishment.

Speaker 2: [\(01:10:17\)](#)

We got 2000 of these field medical sites that are up, almost all operational now in the state because of his support. And those are the facts.

Speaker 4: [\(01:10:28\)](#)

His team has been on it. I know a team when they're on it, and I know a team when they're not on it. His team is on it. They've been responsive late at night, early in the morning.

Speaker 5: [\(01:10:40\)](#)

We are working very well with FEMA Region 2 and with the Army Corps of Engineers, building four field hospitals. That was a decision the President himself took, and I'm grateful for it.

Speaker 6: [\(01:10:50\)](#)

These were just extraordinary efforts and acts of mobilization, and the federal government stepped up. We needed help and they were there.

Speaker 7: [\(01:11:02\)](#)

He said everything that I could have hoped for. And we had a very long conversation, and every single thing he said, they followed through on.

Speaker 8: [\(01:11:12\)](#)

We've got to have double the number of ventilators that we requested for that area of the state. And in fact, we got them in, frankly, short order.

Speaker 6: [\(01:11:21\)](#)

Have we lost anyone because we didn't have a bed or we didn't have a ventilator or we didn't have healthcare staff? No.

Speaker 9: [\(01:11:30\)](#)

The President was extending support for new swabs. So conversation, commitment, a promise made, promise kept.

Speaker 10: [\(01:11:43\)](#)

Now, to be fair, maybe Biden's not telling us because he's forgotten his own plants. Watch Biden's staff quickly swoop in to shuffle them along during a quickie escape the basement trip to Pennsylvania.

Joe Biden: [\(01:12:00\)](#)

Here's the deal. One of the things that is important is that ... Keep in mind, although they're going to vote on that, I think today-

Speaker 11: [\(01:12:18\)](#)

That was terrifying.

Joe Biden: [\(01:12:19\)](#)

What kind of country are we going to be? Four more years of Georgia, going to find ourselves in a position where if Trump gets elected, we're going to be in a different world.

Donald Trump: [\(01:12:40\)](#)

I mean, who's going to say it better than Kayleigh? So I want to congratulate you. This is our great looking couple. We almost had the Dodgers. Are they that good a team? They're pretty good, right? Well, you're pretty good too, and you're a great couple, and that's a beautiful baby. Thank you very much. See? She's smart. She's smart. She picked a major league ball player. You know what it is to get the major leagues and stuff. You got to be in shape. You can't look like these guys out here. No, she's great. But did anybody say, especially on the pandemic, has anybody said it better than that? That was this morning on Fox, Fox and Friends. And I got to tell you, that group, that threesome, they're great, right? They're great, right? That's a great group in the morning. But she said it on Fox and Friends. Ainsley, Steve, and Brian has been really great, right? Brian's been great. No, they treat us good.

Donald Trump: [\(01:13:59\)](#)

We're thrilled to be joined by your governor, who I know is up here speaking, but I'm going to introduce him a second time because we love him and he's done a great job, and he loves the people of Florida. Ron DeSantis. Ron. And your Lieutenant Governor, who is a fantastic woman, and she loves her state, Jeanette Nuñez. And we have some warriors you know that used to work with Ron, and without them, maybe I wouldn't be standing here. Remember, 197 to nothing. Congressman Michael Waltz. Michael. He knows more about ... Where is Michael? Michael. You get married yet, Michael? Please get married quickly. You'll be so depressed, Michael. If you don't, you're going to be very, very depressed. Thank you. Thank you. You better do it quick. She's out of here, Michael.

Donald Trump: [\(01:15:00\)](#)

He's out of here Michael. Another great friend of mine and a warrior, Gus Bilirakis. Thank you Gus. Great job. Great job. Great job. Thank you. Thank you. And Greg Stube. Greg, thank you very much. Greg, great job you're doing, Greg. These people are tough. I'll tell you what. We have some incredible people in Washington. Attorney General Ashley Moody, who's doing a phenomenal job. Thank you, Ashley, for everything. Doing a fantastic job. Florida House Speaker Chris Sprowls. Chris. And so young. Florida GOP Chair Joe Gruters. Joe, where are your Joe? Where's Joe? Joe, how are we doing Joe? You'll be out of here so fast if we don't win this election. He'll be gone. We are doing well. Yep. We're going to win. If we don't win, our country will have trouble. And vote for the Congressman and vote for the Republicans. They want to do what's right. They want to do what's right and you know it's the right thing to do. We have Congressional candidate Scott Franklin and Ana Paulina Luna. Great, I put something up. They have my full endorsement. Great going.

Donald Trump: [\(01:16:41\)](#)

I hear you're both doing very well. Win please. Doing very well. Great, great. Under my administration, we're reversing the damage that Joe Biden and his group have done over a 47 year period. We're bringing the pharmaceutical industry back here and back to regions of Puerto Rico. They took it out of Puerto Rico, devastating Puerto Rico. Joe Biden voted to eliminate those jobs and to send them to China and we're reversing that and we've been reversing it now for over two years and it's moving very rapidly. Last month, I also announced \$13 billion in disaster relief for Puerto Rico. They got hit hard. They're in a little path that causes problems. You know that right? Lot of hurricane problems. Speaking of hurricanes, you have a lot of hurricane problems too, and I'm always there. Ron, am I always there? Ron calls up, "Sir, I'd like to speak to you." What is it about? Another hurricane? Yes. How many billion do you need, Ron? But I'm always there. And Rick, I'll tell you what, Rick Scott's been great. He's been great. And Marco Rubio has been great. He's been great, Marco.

Donald Trump: [\(01:17:56\)](#)

Very strong guys, strong leaders. Good guys, too. Really good guys. Marco and Rick, you have great people here, great leadership. Under my leadership, we achieved the most secure border in United States history. And we have now built over 400 miles of wall. And we'll have it finished very shortly. It'll be finished very soon. You don't hear about it anymore. You used to hear when they didn't think I'd be able to pull it off and that was a tough one. They were willing to close up the country over the wall. So I had a party, totally strong party, bad politics, but strong party. Bad policy, but they didn't want a wall. But I made a really terrible mistake. I should have said instead of we will build a wall, I should have said, "We will not build a wall," and they would have given me all the money. They would've said, "We demand that you build it immediately."

Donald Trump: [\(01:18:53\)](#)

But then they said, "Walls don't work." And I said, "No walls work and wheels work. Those are the two things that work." Everything else gets obsolete in about 15 minutes after it's discovered. Biden wants to terminate our travel bans and surge refugees from the most dangerous places in the world. He will open the flood gates to radical Islamic terrorism. And you saw what happened three days ago, the beheading in France, and today it happened again. And we give our warmest regards to President McCrone, a friend of ours, a friend of mine, a friend of the first lady. They're two great people. First lady of France is a great woman. Under the Biden plan, the horrifying attacks in France will come to our cities and our towns. And I don't want to speak too loudly about this and I knock on wood. This is real wood. This is real wood. I can tell anything having to do with the White House and the president's real wood somewhere. Oh yeah, here, let me knock on this piece. That's definitely.

Donald Trump: [\(01:20:06\)](#)

Look at what's happened long time, right. I don't want to say long time. And the first call I get after we win, the first call I get will be from Iran. They're going to want to make a deal because their country has been devastated. They have been unable to give money to terrorist organizations that they've given routinely for years. Their GDP is down 27% this year, which is the highest anybody's ever seen of any country in one year. Think of it. We're up 33.1 and they're down 27 and they're going to want to make a deal and we want to make a deal if we can. We want them to be a great country, but they cannot have a nuclear weapon. They cannot have a nuclear weapon. And we're going to help them. We're going to help them. We're going to go with them and help them and do whatever we have to do and I hope happens, but I believe that.

Donald Trump: [\(01:20:58\)](#)

And I even said, "Don't deal with them now. They're going to want to see what happens with Sleepy Joe," because if he won, China will own us. Iran will make another crazy deal where they give them 150 billion or 1.8 billion in cash. Think of that. We have so many things that what we've done, the deals that we've made. It's very scary to see. I watch it and I say, "There has to be something wrong because nobody can be that stupid. Nobody can be that stupid." Under my leadership, we're keeping the terrorist, extremist, and violent criminals the hell out of our country if that's okay, if that's okay with you. Some of you might object because you have that nice liberal point of view, but if that's okay with you, we'll keep them the hell out. We invested \$2.5 trillion in the US military, including 11.2 million. Figure this, \$11.2 million right here MacDill Air Force Base. Has anybody heard of MacDill? Has anybody in the audience? Mr. Congressman, you're the one that got it in [inaudible 00:07:05]. Waltz. And we also passed veteran's choice and veteran's accountability. They all said it was impossible.

Donald Trump: [\(01:22:15\)](#)

They said it was impossible. And we took 100% of the ISIS caliphate, destroyed it. And we killed the leader of ISIS, al-Baghdadi, who they were looking for for 17 years. Al-Baghdadi is dead. And then we took out the world's number one terrorist by far, the worst in 50 years, Qasem Soleimani is dead. He killed many of our soldiers. He killed many soldiers from many continents, most feared man in the Middle East. He's gone. I withdrew from the last administration's

horrible Iran nuclear deal. I recognized the capital of Israel and opened the American embassy in Jerusalem and got the building built for a tiny fraction. You know that story, right? Tiny fraction. I called up our great ambassador, David Friedman. I said, "David, let's see if we can get it open." They wanted to spend \$2 billion to build an embassy and it would have never happened. I said, "David, go around. Do we have any land that we own? We're the government. We own everything, right, even in other countries. See what we have." He calls me back the following day.

Donald Trump: [\(01:23:37\)](#)

He says, "Sir, we own a great piece, much better than the piece they were going to buy." We didn't buy it because I didn't like it. I didn't like the location. Does that make sense because I'm in the real estate business? I didn't like location. Location's very important. I said, "See what we have." He said, "Sir, we have a piece that's much bigger. It's in a much better location and it has a building." Now remember, we're going to spend between a billion and \$2 billion. I said, "Well, what's the building?" He said, "The building is a building that's basically unoccupied. It's pretty big. We could fix it up." I said, "How much?" He said, "Let me get back to you." He gets back to me two days later. Sir, I think we could do it for 390,000, right. Right. Do you understand that Mr. Congress? So I said, "It's the first time I've ever done this." I said, "David, that doesn't sound good. It sounds too cheap. Make it a little more, make it 500."

Donald Trump: [\(01:24:26\)](#)

And we did. We did it for 500,000 and it's Jerusalem. And a friend of mine, Ron Baron, he's so proud of a wall opposite the elevator. Every time I walk in he shows me Jerusalem stone. I go crazy. Ron, I don't care. I said, "David, you're in Jerusalem. It's very expensive in New York. Can you get Jerusalem stone?" He said, "Yes we can. We have it. We can buy it for nothing." I said, "Good. Make the building out of Jerusalem stone." So he made it out of Jerusalem stone. We had it opened four months later for \$500,000. Not only would it have cost more than \$2 million, you wouldn't have that building built for 25 years. So we did something a little different. We got something done for a tiny, tiny fraction of what it was supposed to cost. And we had it open in three and a half, four months. And it's now our embassy. It's a great embassy and it's recognized. Jerusalem is the capital of Israel. Sort of a great story.

Donald Trump: [\(01:25:24\)](#)

And I also recognized Israeli sovereignty over the Golan Heights. They've been working on that for 52 years. We got it done in two hours and it's not easy. And every president wanted to do those two things for many, many decades, but they couldn't. And I understand why they couldn't. A lot of pressure, a lot of pressure against. And instead of never ending wars in the Middle East, we're forging peace deals all over the place. You see it. No blood in the sand, no blood in the sand. No cause. Biden and Obama made a pathetic one-sided deal with the Castro dictatorship. My opponent stands with socialists and communists. I stand with the proud people of Cuba and Nicaragua and Venezuela in their righteous struggle for freedom and we're winning. We're winning it. It's going to be easy. We're winning. The last administration also negotiated the terrible Obama Biden Santos deal with Colombian drug cartels, surrendering to the Narco terrorists.

Donald Trump: [\(01:26:31\)](#)

You know what that means? That means drugs. Our first lady sits on our commission. She chairs the commission of drugs and on drugs in America and how to get rid of it. It's a blue ribbon commission, right. And we're down 19%. We had a little setback with the recent problem with the China virus, but it's getting back under control, but she's taking it down 19. She and the commission have taken it down 19%. And she doesn't want it mentioned. She doesn't want to talk about it. She doesn't want to talk about it. See if it would be sitting in her position, I'd be holding a news conference. I have done an incredible job. No, I'm only kidding. I'm only kidding. I'm only kidding. But she has done an incredible job. Thank you honey. Thank you. Thank you very much. Under my administration, we worked with Colombian officials to seize or disrupt 227 tons of poisonous narcotics since April alone. The fact is I've done more in 47 months than Sleepy Joe Biden has done in 47 years. It's true.

Donald Trump: [\(01:27:49\)](#)

It's true. No administration in the first 3 and a half years has done what this administration has done. We've rebuilt our military. We've done the biggest tax cut in history, biggest regulation cut in history. What we've done is incredible, even environmentally. I'll tell you what. We're not going to go over a list, we'd be here all day, but no administration. And the fake news doesn't even call me on it. Usually, if you make a statement, they think it's 1% off. It's a headline the next day. In the coming weeks, we will distribute a vaccine, defeat the virus, and complete the great American comeback. We're in the process. A vote for Republicans like these people right down here is a vote for the great American dream. That's what it is. I remember Abraham Lincoln, the great, the legendary Abraham Lincoln was a Republican. Would you please remember that? Nobody knows that. They know it now because I like to say it. Over the next four years, we will make America into the manufacturing superpower of the world and we will end our reliance on China once and for all. It's already started. We will hire more police, increase penalties for assaults on law enforcement, and we will ban deadly sanctuary cities. We will defend religious liberty, free speech, and the right to keep and bear arms. Your 2nd Amendment will be defended. We will maintain America's unrivaled military might, and we will ensure peace through strength. And I told you, we spent two and a half trillion with a T, trillion dollars, trillion on our military. We have to finest rockets, the finest missiles, the finest jets, F-35s. We have the finest tanks and submarines and ships all made in the USA. And our nuclear stockpile, we are in a position like no other country in the world. We are the envy of every country, Russia, China, North Korea. No country in the world has what we have. And just a lot of religious people in this audience, pray to God that we never have to use it. And it's more likely that we won't have to use it now that we have it, but just hope that we never have to use it.

Donald Trump: [\(01:30:20\)](#)

We will end surprise medical billing, require price transparency, lower drug prices even more, and we will always protect patients with pre-existing conditions. America will land the first woman on the moon and the United States will be the first nation to land an astronaut on Mars. That's already happening. We will stop the radical indoctrination of our students and restore patriotic education to our schools. We will teach our children to love our country, honor our history, and always respect our great American flag. And we will live by the timeless words of our national motto in God we trust. For years, you had a president who apologized for America. Now, you have a president who's standing up for America and standing up for the great people of Florida. So get your friends, get your family, get your neighbors, get your boss. Pull them out of their chair. Come on, boss. And you got to get out and vote. There's never been an election more important. On November 3rd, we must finish the job and drain the rest of the swamp. We've done a lot of it.

Donald Trump: [\(01:31:50\)](#)

From Pensacola to Miami, from Orlando to Jacksonville, and from Tallahassee to right here in Tampa, we inherit the legacy of... You know it, right? We inherit the incredible legacy of Florida Patriots who gave their blood, sweat, and tears for this beloved nation. We stand on the shoulders of American heroes who crossed the oceans, blazed the trails, settled the continent, tamed the wilderness, laid down the railroads, dug out the Panama Canal, raised up the great skyscrapers, won two world wars, defeated fascism and communism. And from right here in this beautiful state, landed our brave American astronauts on the face of the moon. You've done a lot. We made America into the single greatest nation in the history of the world and the best is yet to come.

Donald Trump: [\(01:32:56\)](#)

Proud citizens like you helped build this country and together we are taking back our country. We are returning power to you, the American people. With your help, your devotion, and your drive, we are going to keep on working, we are going to keep on fighting, and we are going to keep on winning, winning, winning. We're winning. We are winning again. We are winning again. We are one movement, one people, one family, and one glorious nation under God. And together with the incredible people of Florida, we have made America powerful again. We have made America wealthy again. We have made America strong again. We have made America proud again. We have made America safe again, and we will make America great again. Thank you, Florida. Get out and vote. Thank you.

President Donald J. Trump: [\(00:08\)](#)

Wow. Thank you very much. And hello, Goodyear. Hello, Phoenix. Six days, can you believe this? Six days from now we are going to win Arizona and we are going to win four more years in our great, beautiful White House. A vote for me is a vote for massive tax cuts, regulation cuts, fair trade, strong borders, our Second Amendment, we will save our Second Amendment, and American energy independence. It's a vote to support our police, our military, stand up to China, which we've been doing. They gave \$28 billion to our farmers. That's very nice. Thank you very much, China. And ensure more products that are proudly stamped with that beautiful phrase, "Made in the U.S.A."

President Donald J. Trump: [\(01:18\)](#)

We will deliver record prosperity, epic job growth, and a safe vaccine that eradicates the virus, the China Plague is what it is, and quickly end the pandemic. Normal life, which is what we want, we just want normal life, like we had seven months ago. We'll fully resume, and next year we will be the greatest economic power. We are going to be stronger than we've ever been before. And you see that all happening. Next year will be the best economic year in our country's history. And last year was, and then we were interrupted. We were interrupted. It's called Make America Great Again, Again. A vote for Joe Biden, Sleepy Joe, is a vote for the biggest tax hike in history. I've never seen this before, a man who's campaigning on the fact that he's going to raise your taxes. I have seen.

Speaker 1: [\(02:24\)](#)

Lock him up! Lock him up! Lock him up! Lock him up! Lock him up! Lock him up! Lock him up! Lock him up! Lock him up! Lock him up!

President Donald J. Trump: [\(02:37\)](#)

They're going to crush, regulations, it will be crushing. You have no idea what they want to do. We've took off more regulations than any administration in the history of our country. They are going to put those regulations back, and all they do is cause waste and a lot of other problems, slash Medicare and social security, and they want to abolish American energy. You know what he said, "No fracking." He said, "No fracking." Until he went to Pennsylvania, then he said, "Maybe we can frack." His people won't let them frack and Joe doesn't have any clue where he is. You know that. "Where am I? Where am I? What state am I in?" He's only got it wrong about seven times. "Where am I? Is this Arizona or is this Nevada? Where am I? Tell me, where am I? Is this Iowa? Oh, oh, oh, oh, it's very hot. I know where I am. This is Florida, isn't it?" "No, Joe. No Joe."

President Donald J. Trump: [\(03:41\)](#)

A vote for Biden is a vote for open borders, offshoring jobs, shredding the Second Amendment, confiscating your guns, and eliminating private healthcare. 180 million people on private healthcare. It's called bye-bye. And they love their private healthcare. Biden and the Democrat socialists will delay the vaccine, prolong the pandemic, shutter your schools and shut down our country. And your state is open, right? Your state is nice and open. Your state is nice and open. Thank you. Your Governor did a good job. I don't know if you appreciate it, but he did a good job. You had a spike, and he just did what he had to do. And your state is fully open. Good job. He may be here. He may be in this crowd of about 25,000 people. He may be here. I may get lucky and introduce them in a little while. He is here. He's a great Governor.

President Donald J. Trump: [\(04:42\)](#)

This election is a choice between the American dream and a socialist nightmare. As long as I am President, America will never, ever be a socialist country. I am fighting for the dreams of all Americans, including millions of truly amazing, and they like me, my poll numbers are through the roof with, Hispanic Americans, right? Through the roof. I always knew they liked me. It's a big story. They say, "What's going on?" I just saw it. "What's going on with Trump and the Hispanics? What's going on with Trump? His poll numbers." They're getting very nervous. Our poll numbers are looking very good. We had one little upset this morning. We're doing very well in Wisconsin, right? I was there yesterday. We had 25,000 people at least. And I will tell you, it was cold. I did three of these yesterday.

Speaker 1: [\(05:51\)](#)

We love you! We love you! We love you! We love you! We love you!

President Donald J. Trump: [\(05:51\)](#)

Don't make me cry. Don't make me cry. They'll say, "The president was crying." I don't know. I don't know if I want a President that cries. But it's okay. But that's the phrase, one of the greatest men in the country right here, did you ever hear that phrase before? I don't think so. Oh, we have Mike Lee here too. And we have Rand Paul here and Sergio, and the King of Europe we have right here. Rand, did you ever hear that phrase for a politician? Rand would like that phrase, I can tell you right now.

Speaker 1: [\(06:43\)](#)

Latinos love you! Latinos love you! Latinos love you! Latinos love you!

President Donald J. Trump: [\(06:46\)](#)

So we've got some great polls and we are getting great polls. We are doing great in Florida. Doing great in North Carolina. Doing great I think in Pennsylvania, I think. I think it's going to be great. We won it last time. First time in many years, a Republican won. We've done good. Brought a lot of business there. They had a lot of business went back to Pennsylvania, so I think they appreciate it, but haven't seen the numbers. They vote late. They vote on Tuesday. That's what they like. I like that too. But we're doing good all over. We're doing good in Wisconsin. We have a poll. We're one up in Wisconsin. Don't clap yet. Today, the fake Washington Post, ABC, you'd think they come out that he's four down, he's five down. "17 down in Wisconsin." I don't think so. I had the same fraudsters

here four years ago, they had me 12 down a week before the election, right? Remember that, I was 12 down? ABC, Washington Post, I mean, just dishonest people. And we sent them a legal letter and by the time we got to the election, we were even. I wonder what happened. But they interviewed slightly more Democrats and Republicans. We looked at it. I think there's some kind of a law that you have to do that. They interviewed a few more, a number that you wouldn't even believe.

Speaker 1: [\(08:05\)](#)
CNN sucks! CNN sucks!

President Donald J. Trump: [\(08:05\)](#)
I agree.

Speaker 1: [\(08:05\)](#)
CNN sucks! CNN sucks! CNN sucks!

President Donald J. Trump: [\(08:07\)](#)
I agree. I agree. But they're all in that bag. ABC, terrible. NBC is probably the worst of all. It's called Concast. C-O-N, not Com. C-O-N, Concast, because they're cons. It's a big con job. It's a big con job. They spend all that money for public relations, and then I talk about them, that's the end of the public relations. Con job. How did you guys do today, please, on Section 230. Mike Lee, how are you doing? You know what? What they're doing is a disgrace. Joe Biden is a corrupt politician and they refuse to talk about it. You've got to do it. You've got to do it. I mean, it's crazy. They're getting away, what the big tech is getting away with. They will not allow anybody to even discuss it. With me, they write false stories, they can do whatever they want. Section 230, Rand. I hope you're all looking at it, okay? I hope you're all looking at it. Because there was a lot of stuff today.

President Donald J. Trump: [\(09:18\)](#)
They were up there and they were very nervous in front of the Senate. They were very nervous. I have to tell you that. They were shaken up a little bit, because without Section 230, they don't even exist. They don't even exist. For 47 years, Joe Biden betrayed the American people and he betrayed Hispanic Americans. Over the last four years, I've been delivering for Hispanic Americans like never before. And Hispanic American unemployment reached an all time low prior to the pandemic.

Speaker 1: [\(09:59\)](#)
Latinos for Trump! Latinos for Trump! Latinos for Trump! Latinos for Trump! Latinos for Trump!

President Donald J. Trump: [\(09:59\)](#)
It's crazy. I love you too. Nobody knows what happened. The fake news, look at all of them back there. That's a lot of fake news back there. Look at that. Those red lights just went off. Anytime I refer to them, they turn the light off very quickly. They don't want to have it broadcast when I call CNN bad names. Hispanic American families saw their net worth skyrocket by 64%. And I'm sitting in the hottest sun I've ever felt. This is hot. My last stop also in your great state, it had a different problem. The sun was hot. I've never seen wind like that. It's lucky I don't need teleprompters like Sleepy Joe because the teleprompters were falling down. They were going all over the place. I was getting a headache. I'm trying to look. But I have a good memory. I remember things unlike the sleepy one. He's in a lid again. Did you know that, fellas? He's in lid. This guy's in a lid every single day. Lid, that refers to a garbage can. They put the lid on the can. He's in his basement.

President Donald J. Trump: [\(11:23\)](#)
By the way, I'd like to be in a basement. I'd like to be in some place. I'd like to be in a beautiful bedroom, nice for a year and a half, two years, never come out of the White House. But I'm your President, I have to. I have to come out. I have to meet people. I have to meet people. We have to meet people. And I said, "This could be a little bit shaky, to meet a lot of people, but we have no choice." And you probably haven't heard, but I caught it. I caught it. Did anybody know that? I caught it. And then you get better and you're immune. And they say, "You're immune for a year." They used to say you're immune forever, but when I got it, I said, "I'm immune." They said, "It's only for four months." I don't know what happened. They said, "You're immune for a lifetime," right? Remember? Until I had it. Once I had it, now it's only up to four months.

President Donald J. Trump: [\(12:14\)](#)
But I got better. Great doctors at the White House. We have great doctors. Great doctors all over the country. I had doctors from all over the country. One thing I learned quickly, when you're the President and you're not feeling too good, I didn't feel great, you have more doctors than you've ever seen in your life before. It was like a public place. And they were gathered around my bed. They said, "What's the problem?" I said, "I don't know, doc, but I'm not feeling too good. And I've got to get back on the trail." You know what the trail is, right? The campaign trail. "I've got to get back on the trail. Get me the hell out of here, doc." John's Hopkins was great. We have all the great hospitals represented. And I'll tell you, Walter Reed is incredible. I've seen what they do to the soldiers. They come back so badly wounded and they fix them.

Speaker 1: [\(13:02\)](#)
Vets for Trump!

President Donald J. Trump: [\(13:02\)](#)
Thank you. Thank you. Walter Reed is so great, but they're all around and they're saying, "Sir, I think you're going to have to take it easy for a little while." Then they gave me something called Regeneron. Did you ever hear of Regeneron? And we're going to make it available to everybody that needs it free. Free, right? Free. Antibodies. And all I know, and I don't want to give any credit to this drug, I want to say it was me, because I'm in perfect physical condition, and I'm very young. I'm very young and I'm in perfect physical shape. Perfect. I said that jokingly. I said that a couple of weeks ago. CNN, fake news CNN, went crazy. "He's not in perfect shape and he's not young." They went crazy. They thought it was horrible. A horrible, horrible statement.

President Donald J. Trump: [\(13:58\)](#)
No, we did a great job, and I would like to say that the antibody, what they gave me, didn't help, but it probably did, because I woke up the next morning and I felt like Superman. I wanted to rip my shirt off, just like Clark Kent. Anybody ever hear of Clark Kent? Just like the legendary Clark Kent.

Speaker 1: [\(14:18\)](#)
Super-Trump! Super-Trump! Super-Trump! Super-Trump! Super-Trump! Super-Trump!

President Donald J. Trump: [\(14:27\)](#)
We're going to win the election. You know that. We're going to win. This is much more so than four years ago. I'm looking at some of our great Senators. We're going to win this election. We're going to have a great victory. And a lot of people want to go out on Tuesday, they don't want to go out early. It's called the Great Red Wave. Wait until you see. They always say, "Sir, could you please ask them to go out on Monday, Sunday?" Because you could go out now, you can vote, right? But I said, "They don't really want that." They want to make it a little more convenient for you, but when those boosts open up, you're going to see something that probably has never seen before. You've never seen. In Florida, they're not doing well. They had to get that lead. That lead's going to be taken over I think very, very quickly.

President Donald J. Trump: [\(15:22\)](#)
The biggest problem we have is if they cheat with the ballots. That's my biggest problem. That's the only thing I worry about. If they cheat with the ballots, right? If they cheat with the ballots. And they did find some in a garbage can from the military, military ballots. It had the name Trump written, they wanted to go for Trump. They found them in a garbage can, hundreds of thousands every day. You don't wake up and not read a story about it. Every day there's cheating with the ballots. And you have governors, Democrat Governors, that are players, wise guys. Wise guys and it's a disgrace. In Nevada, we like Nevada, but

you've got a Governor There that's a player. And even if you want to speak, they make it very hard to find a location. But we found one and 50,000 people showed up a couple of weeks ago. Latino home ownership is now at an all time high, all time high.

President Donald J. Trump: [\(16:26\)](#)

By the way, if you look at new houses, if you look at automobile production, it's hard to believe, it literally is superseding what we had prior to the pandemic, and nobody is even imagining that. To bring even greater opportunity and prosperity to Latinos and the Latino community, and I say the Latinos and I say the Hispanics, and I have a lot of friends, I say, "What do you like better?" They said, "You can call us anything." The Latino community in Arizona and around the country, today, I'm announcing the American Dream Plan. Over the next four years, the American Dream Plan will bring more than two million new jobs to Hispanic communities, create over a half a million new Hispanic owned, small businesses, which will end up being large businesses if I know you, and I know you well, great business people, great natural business people, expand opportunities for federal contracting, it's going to be much easier for you to get some of those jobs, and increase access to capital by hundreds of billions of dollars.

President Donald J. Trump: [\(17:37\)](#)

You're going to be in great shape. You're going to say, "I liked him very much." No, if Sleepy Joe gets in, they're going to ask him about it. He's not going to have a clue. He's not going to be able to tell you this. More Hispanic Americans be able to buy a home, to afford quality health insurance, and to raise their families in a beautiful, safe neighborhood. And I will provide school choice to every parent in America, school choice. Joe Biden would obliterate everything Hispanic Americans have worked for, wiping out your small businesses with lock downs and regulations, gutting your police departments, and devastating your families with massive tax hikes.

President Donald J. Trump: [\(18:26\)](#)

He will attack Catholic organizations. By the way, Hispanics, generally speaking, don't like that too much. And ban charter schools fund, extreme late term abortion, and surrender your country to the violent socialist mob. And you see that happening. How about Portland, right? You know how quick we can fix that? Mike Lee, we can fix that in about, what, 30 minutes, right? The Governor has to call up. He said, "Maybe a little bit less." That's why we're going to win a record share of the Hispanic vote this election day. We are going to win a number that's never been ...

President Donald J. Trump: [\(19:03\)](#)

... election day, we are going to win a number that's never been won by a Republican, and maybe, maybe we're going to beat the Democrats, that will be incredible. That means you're on your way to great business. In 2016, Arizona voted to fire our failed and corrupt political establishment and you elected an outsider as President who is finally putting America first. Taken a long time and if I don't sound like a typical Washington politician, it's because I'm not a politician. And if I don't always play by the rules of the Washington establishment it's because I was elected to fight for you harder than any President has ever fought for their constituents before. To show you how corrupt the Washington media is, I was just, and did you see this? This was just revealed.

President Donald J. Trump: [\(20:08\)](#)

It was just revealed that, you know anonymous, you know this anonymous that everybody's been looking for? That law enforcement could have found early if they wanted to, but everybody was looking for anonymous, turned out to be a low level staffer, a sleazebag who's never worked in the white house. Anonymous was a nobody, a disgruntled employee who was quickly removed from his job a long time ago for, they tell me in competence, I don't know what for, but they tell me in competence, you know where he works now? He works at CNN, can you believe it?

President Donald J. Trump: [\(20:43\)](#)

He works at CNN. He wrote a phony book, if you heard about anonymous, it was like somebody that was right next to me. I thought it might've been Hope Hicks. I thought I might've been Jared, I thought a might've been Mike Lee from the great state of Utah. I was extremely worried about Rand Paul, maybe it was Rand. I say, low level, low life that I don't know. I have no idea who he is other than I got to see him a little while ago on television and I think they threw them out a long time ago. His phony book was just based on fake articles and left wing outlets. He worked with the, listen to this, the fake news, New York Times.

Speaker 2: [\(21:35\)](#)

Boo!

President Donald J. Trump: [\(21:36\)](#)

And he's an employee of Google, he works for Google, isn't that nice? Google, the people that you guys are looking at right now, the whole thing was just one more giant hoax from the Washington swamp and a corrupt special interest group. I'll tell you what, this guy, in my opinion, he should be prosecuted. He should be prosecuted.

Speaker 2: [\(22:09\)](#)

Drain the swamp! Drain the swamp! Drain the swamp! Drain the swamp! Drain the swamp! Drain the swap! Drain the swamp!

President Donald J. Trump: [\(22:10\)](#)

The left wing media and the swamp are doing everything in their power to try and stop us and by the way, we're here and they're not, and their heads are exploding, their heads are exploding. The media has been peddling their lies for the last four years and they've had a lot to say, but in the meantime, here we are, and we're going to win the greatest election and you know what? This election is more important than any election in the history of our country, including the last one and I never thought I'd say that. But you get the last word on November 3rd. You can ensure that when the results pour in, the corrupt media, are you guys ready for this? Look at all of them. Look at all of those corrupt people.

President Donald J. Trump: [\(23:08\)](#)

Look at all of those corrupt people. The corrupt media, I used to call them the fake news, I thought it was one of the great terms I made, but it's not strong enough. The corrupt media is bowing their heads in shame, not cheering for sleepy Joe. I can't imagine why they want him, I mean, I can't figure it. That one I can't figure, but it's up to you. This is your country and you have to save and create a great, beautiful pathway for your country. Get out and vote. You're going to show up in record numbers, vote for America and against the corrupt media and against the swamp. And nobody ever told me the swamp was that deep or that vicious, swamp creatures, they are. And some of the worst creatures in the swamp are the rhinos, we got some rhinos. But they are a dying breed, they are a dying breed. They're getting a little tired, they're getting a little tired of calling it wrong, it's incredible.

President Donald J. Trump: [\(24:10\)](#)

Under Biden's cruel and senseless lockdowns countless Americans will die from suicide, drug overdose, deferred medical care, alcoholism, abuse, so many different things. The cure cannot be worse than the problem itself, we would say that, we talked about that Rand, right? Rand knows, that's what happens, what happens to a society, what happens to a country. You take a look at Michigan where she has everybody locked down, we won a case in the Supreme Court, Michigan, the constitutionality we wanted, they said it was unconstitutional but in the meantime, she goes on with the appeals. The only one that's free to roam in Michigan is her husband, he's the only one. He's allowed to go boating and do whatever he wants. We got to open up Pennsylvania, we got to open up North Carolina, we got to open up California, got to open up New York.

President Donald J. Trump: [\(25:13\)](#)

If I lived in California, New York, Illinois, I'd vote for Trump. And you know what I used to say? And this comes so well, our relationship because of criminal justice reform and prison reform and all the other things with the African American community, I used to say, what the hell do you have to lose? And they agreed with me and we're doing incredible. The relationship, what we've done is incredible. What we've done is incredible. But I say the same thing to the people living in New York, California, Illinois, automatic wins for the Democrats, I say, "Vote for Trump. We'll cut your taxes. We'll get you back. We'll bring it back." I say, "What the hell do you have to lose? Vote for Trump." It's tough when you have those three big States, it's automatically put into it, it doesn't matter who runs.

President Donald J. Trump: [\(26:09\)](#)

No matter who, if we brought back the late great Abraham Lincoln, New York, California, Illinois. So we got to run the gauntlet. We got to run the coast, right? And that's what happened last time, we won Florida and we won South Carolina and we won Georgia, we won North Carolina. Remember that was going to be their firewall. That didn't work out too well for them. And we won Pennsylvania and we just ran the coast, didn't we? That was one of the most exciting evenings Mike Lee, right? Mike Lee, Utah. And we won Utah, right? And we won them all. We won them all. They said there is no way to 270, remember 270, you need 270. There is no way for Donald Trump, this was at 5 o'clock before the polls. There is no way for Donald Trump to get to 270, we're wasting our time. I said, "I don't think so." But they turned out to be right, we couldn't get to 270, but we did get to 306.

President Donald J. Trump: [\(27:15\)](#)

There is no way, remember that? We won Ohio, Ohio is great, won by eight points. They thought we were going to tie, they thought it was going to be close and they called immediately, Donald Trump has won the state of Ohio. And then they said, "Not only won, he's won by eight points." That was the beginning. They said, "What's going on here?" We're going to have a bigger surprise in six days, Tuesday. If you vote for Biden, it means no kids in school, no graduations, no weddings, no Thanksgiving, no Christmas, and no 4th of July together, other than that, you'll have a wonderful life. Can't see anybody, but that's all right, you'll have a wonderful life. He wants everyone to, and again, it's not him. I'm using this but it's not him.

Speaker 3: [\(28:14\)](#)

He's a puppet for them!

President Donald J. Trump: [\(28:15\)](#)

Who said puppet? He is a puppet, he's a puppet but he's a beauty, I'll tell you. Look, look, look, I shouldn't say this because it's very disrespectful, but I don't care because he's not a nice guy. We have some historians here, true American historians here. He is the worst candidate ever to run in the history of a Presidential election, he is. He's the worst. That's why there's tremendous pressure on me. I wish he was a good candidate. At least if you lost, you could say, "Hey, you lost to a good candidate." How the hell do you lose to a guy like this? I don't care, I don't care. We're going to win. We got to win! You're going to lose your country if we don't win. The worst in Presidential politics, now you're going to lose your country, it'll be a disaster. He's not going to be running things, you have Kamala. If you don't pronounce her name exactly right she gets very angry at you. And you know what she does when she gets angry? She starts laughing like she did on 60 minutes. Uncontrollable laughs. That means she's angry.

President Donald J. Trump: [\(29:33\)](#)

Sleepy Joe wants to keep everyone locked down forever, including young people, which will cause enormous harm to Hispanic Americans, African Americans, Asian Americans, women, men, everybody. The Biden plan will crush you and your family, my plan will crush the virus and we're going to be stronger, stronger than ever. Our country will be stronger than ever before. Biden is the candidate of layoffs, lockdowns, and misery. I am the candidate of jobs, vaccines and prosperity. Our early and aggressive action saved over 2 million American lives. We saw it, we had to make a decision, we closed it up, we understood it. Remember, it was supposed to be 2.2 million people we're going to die. We started doing ventilators, we didn't have ventilators, we became the King of ventilators, all over the world we're now sending ventilators, all over the world.

President Donald J. Trump: [\(30:37\)](#)

We did a great job. We weren't acknowledged. We have governors saying what a great job we did. Everybody was saying what a great job. We did a great job, wasn't acknowledged and that's okay. But the generals, the admirals, Mike Pence, all of these people that worked on this, they should be acknowledged. We did a job. Remember, Joe Biden with the H1N1, which he always reverses. H1N1, right? He goes, "N1H1," I said, "No, Joe it's the other way." The Swine Flu, right? It's the Swine Flu. He was a disaster, his chief of staff said they didn't know what the hell they were doing. And now he's always telling me I should have acted quicker except when I closed our country to China, because it was so heavily affected and Europe, he was totally against it. He said I'm xenophobic. I said, "Do me a favor? Give me a definition, Joe." He couldn't do that because he had no idea what it meant. But here are some of the governors talking about what a great job we've all done, we've done but what a great job we've done in fighting the China virus.

Speaker 4: [\(31:51\)](#)

Called the President. He's quickly gotten on the line. When we asked to get support for that mercysip in Southern California, he was able to direct that in real time.

Speaker 5: [\(32:00\)](#)

What the federal government did working with States was a phenomenal accomplishment.

Speaker 4: [\(32:06\)](#)

We got 2,000 of these field medical sites that are up, almost all operational now in the state because of his support and those are the facts.

Speaker 6: [\(32:16\)](#)

His team has been on it. I know a team when they're on it and I know a team when they're not on it. His team is on it. They've been responsive late at night, early in the morning.

Speaker 7: [\(32:29\)](#)

We are working very well with FEMA region two, and with the Army Core of Engineers building four field hospitals, that was a decision the President himself took and I'm grateful for it.

Speaker 8: [\(32:39\)](#)

These were just extraordinary efforts and acts of mobilization and the federal government stepped up. We needed help, and they were there.

Speaker 9: [\(32:50\)](#)

He said everything that I could have hoped for and we had a very long conversation and every single thing he said, they followed through on.

Speaker 10: [\(33:00\)](#)

We've got to have double the number of ventilators that we requested for that area of the state and in fact, we got them in frankly, short order.

Speaker 11: [\(33:09\)](#)

Have we lost anyone because we didn't have a bed or we didn't have a ventilator or we didn't have healthcare staff? No.

Speaker 12: [\(33:19\)](#)

The President was extending support for new swabs. So conversation, commitment, a promise made, promise kept.

Speaker 13: [\(33:31\)](#)

Now, to be fair, maybe Biden's not telling us because he's forgotten his own planes. Watch Biden's staff quickly swoop in to shuffle them along during a quickie, escape the basement trip to Pennsylvania.

Joe Biden: [\(33:48\)](#)

Okay. Here's the deal, one of the things that's important is ... Keep in mind, all those are going to vote on ...

Speaker 13: [\(33:58\)](#)

That was terrifying.

Joe Biden: (34:07)

What kind of country we are going to be? Four more years we're going to find ourselves in a position where if Trump gets elected, we're going to be in a different world.

Speaker 14: (34:20)

56% of Americans said that they were better off today than they were four years ago would have been under the Obama/Biden administration. So why should people who feel that they are better off today under the Trump administration vote for you?

Joe Biden: (34:33)

Well if they think that they probably shouldn't. They think 54% of American people are better off economically today than they were in our administration? Well, their memory is not very good quite frankly.

Speaker 15: (34:45)

A few moments later.

Joe Biden: (34:48)

I'm running as a proud Democrat for the senate, so vote! Vote! Visit [inaudible 00:34:58].com/ohio. We got in trouble when we were running against the Senator who was a Mormon, the governor, okay? Well, their memory is not very good, quite frankly.

President Donald J. Trump: (35:06)

It saves a lot of words. In fact, I can go home now. Goodbye everybody.

Speaker 2: (35:19)

We love you! We love you! We love you! We love you! We love you! We love you!

President Donald J. Trump: (35:19)

Thank you.

Speaker 2: (35:19)

We love you! We love you! We love you!

President Donald J. Trump: (35:31)

We only bring those very expensive boards to a very special group of people, it's quite costly but it does save a lot of talk, doesn't it? Joe Biden has surrendered his party to the rage, filled Socialists and Marxists and left wing extremists. The Democrats know that Biden is just a vessel to implement their Socialist take over and that's what they're trying to do, we can't let that happen. That's why his running mate is the number one most Liberal member of the U.S. Senate, a sponsor of this insane, green new deal, \$100 trillion, \$100 trillion. If we had the greatest 100 years in history, we couldn't pay \$100 trillion dollars. This was made up by AOC plus three, who, I don't know if she's ever even studied the environment, has she ever taken a course on the environment? I doubt it. Biden and his party has spent the entire year inciting violence and hatred against our police, our great police. Last night, the city of Philadelphia was ransacked by violent mobs of Biden supporters for a second night in a row.

Speaker 2: (36:46)

Boo!

President Donald J. Trump: (36:46)

We could have stopped that, that one we could have stopped in 12 minutes. Stores were looted, nearly a dozen people were shot, and dozens of officers were injured, it would have been so easy, we're waiting for a call. We'll send in the federal government, have to get a call, we'll send in the federal government, we'll solve that problem so quickly. In Seattle, they took over a big part of the city, we said, "Finally, we have to go in." We didn't have the permit, we're doing it anyway. We let them know what going in. As soon as we let them go, "We're going in tomorrow morning," we told them, as soon as we did that, they held up their hands and they said, "We're going home."

President Donald J. Trump: (37:26)

In Minneapolis, we went in a week and a half later and I give the governor some credit, he said, "Let's go." But it should have been a week earlier, a week and a half earlier and they formed a line and it ended in 25 minutes, it was all over. Minneapolis. That's why we're going to win the great state of Minnesota. We're going to win Minnesota because of that. For two reasons we're going to win because of that and Ilhan Omar, we're going to win because of her too.

Speaker 2: (37:55)

Boo!

President Donald J. Trump: (37:57)

How the hell did she get elected? She does not like our country, I can tell you. Biden and Harris ...

President Donald J. Trump: (38:03)

She does not like our country I can tell you. Biden and Harris stand with the rioters and the vandals. I stand with the heroes of law enforcement. And I think I've been endorsed by almost every major police group in the United States. And during the debate, I asked him, I said, "Joe, who endorsed you? Any of the law enforcement groups?" He couldn't name one. He couldn't name one. Then I said, "Joe, say the words, law enforcement. Say the words, law and order." He wouldn't do it. He wouldn't do it. Number one, he couldn't remember the two words in conjunction, but more importantly, he didn't want to lose the radical left because if he says those words, he loses the radical left.

President Donald J. Trump: (38:47)

This election day, you must stop the anti-American radicals. I mean, these are radicals. From delivering the far left in thundering defeat, you have to deliver them a defeat like they haven't seen before. Not just a little one. We don't want to win this close. Joe Biden is a corrupt politician. Last night, we learned that Joe was intimately involved in the Biden family's corrupt business deals with China while he shipped American jobs to China by the thousands. If Biden wins, China wins. When we win, you win. Arizona wins and America wins. And you know that as big as that story was last night, not one mention on social media, not one mention in big tech, not one mention in any of the major outlets, not one mention on any of the networks. Only Fox had it. Fox had it. Tucker did a good job. Sean did a good job. Laura did a good job. Not one mention. So it's not freedom of the press. It's you know what we have? Suppression of the press. This is no longer freedom of the press. This is suppression of the press. And we have some very powerful people right here. We cannot let this go on. It's suppression. It's unthinkable what's going on. And yet they'll write the littlest thing if somebody else does anything or doesn't have to do it, they make up fake stories.

President Donald J. Trump: (40:36)

We're thrilled to be joined by somebody that's done a great job and been your great governor, Doug Ducey. Done a great job. Thank you, Doug. Great job.

President Donald J. Trump: (40:53)

A woman who's running for the Senate. Currently a Senator respected by everybody. Her opponent wants to terminate your Second Amendment. Martha McSally. Martha. Great. Martha. Martha, go ahead. Martha, come up just fast. Fast. Fast. Come on quick. You got one minute, one minute, Martha's sake. They don't want to hear this, Martha. Com on let's go quick, quick, quick, quick. Come on. Let's go.

Martha McSally: [\(41:33\)](#)

I'm coming. Thank you, President Trump. Arizona, we are ground zero to save the country. We have six days and just a few hours. President Trump and the country are counting on us to send him back to the White House for four more years. Everything is on the line and my race is about the Senate majority. Everything I wore the uniform for and all you veterans did is on the line. Everything is on the line. We've got to bring it home, Arizona.

Martha McSally: [\(42:04\)](#)

In my race will decide the direction of the country the radical left can take over in the Senate. So if you want someone who's going to be Joe Biden and Chuck Schumer's 51st vote to take away our freedoms and our Second Amendment rights and all the things the president talk about, then you got a guy named Mark Kelly. But if you want to fighter, if you want to continue to have a fighter who is proud to work with President Trump for the great American comeback and strong military and secure our borders and your Second Amendment rights, then I'm your girl, Arizona. I'm your girl. Vote Trump-McSally and let's save the country. God bless you, sir.

President Donald J. Trump: [\(42:44\)](#)

Thank you. Thank you, Martha. Thank you. Very important. And you know, you can think of a lot of things, but think about your Second Amendment. His sole function is to terminate your Second Amendment, and all of them, that's what they want to do and they're in lockstep.

President Donald J. Trump: [\(42:59\)](#)

A friend of mine, a great Senator, somebody that has extraordinary common sense. That's one of the reasons he's a successful man at what he does. Senator Rand Paul. Come on up, Rand. Look at him. Look at this guy. Come on up. Come on.

Rand Paul: [\(43:29\)](#)

Thank you. Here's to immunity.

President Donald J. Trump: [\(43:33\)](#)

Two immune people.

Rand Paul: [\(43:37\)](#)

I've got a message for independents and libertarians. My message is this. If you hate war like I hate war, if you want America to be supporting America, not spending our money overseas and wasting lives overseas in unwinnable endless wars, you need to support the president who said this in his State of the Union, he said, "Great nations don't fight perpetual wars."

President Donald J. Trump: [\(44:09\)](#)

Thank you. That's right.

Rand Paul: [\(44:09\)](#)

I have a message for African-Americans across our country. Biden and Clinton failed you. The Biden Clinton crime bill locked up a generation unfairly, locked up a generation of young black men. Joe Biden said, "Lock them up. They're super predators. Throw away the key." Joe Biden is responsible for decimating our black community. When Mike Lee and I went to talk to the president about the First Step Act, my wife was involved. We talked about how unfair it is. Look at all the families out there. Can anybody say your family's immune from the scourge of drugs? You haven't had a kid or a cousin or a nephew or somebody that got hooked on drugs?

Rand Paul: [\(45:06\)](#)

This president and I tried with President Obama and we got nowhere, but this president passed the First Step Act that let these people that were serving 30 years in jail for nonviolent crimes, he set their freedom. And I have a message for those of you who are sick and tired of both Republican and Democrat presidents sending your money overseas to countries that hate us. President Trump says, and I say, not one penny more for these countries that hate us.

President Donald J. Trump: [\(45:52\)](#)

Thank you, Rand. What a good guy.

Crowd: [\(45:52\)](#)

USA, USA, USA, USA, USA, USA, USA, USA, USA, USA.

President Donald J. Trump: [\(46:07\)](#)

Great job, Rand. Thank you very much.

President Donald J. Trump: [\(46:09\)](#)

We have another great Senator from the State of Utah and he's a smart one, he's a good one, he's a respected one. Mike Lee, come on up. Come on, Mike.

Mike Lee: [\(46:22\)](#)

[foreign language 00:08:31]. To my Catholic friends, think about a couple of things as you approach the [inaudible 00:46:54] and your friends do. Think about Amy Coney Barrett, and think about the Little Sisters of the Poor. To my Protestant and evangelical friends, we have to remember this by the grace of our Lord and Savior, Jesus Christ, that we've had four years of prosperity and peace. To my Mormon friends, my Latter-day Saints friends think of him as [inaudible 00:00:47:25]. He seeks not the praise of the world or the fake news, but he seeks the wellbeing and peace of the American people. Are you ready to stand with me and millions and millions of others who want four more years?

Crowd: [\(47:44\)](#)

Yes.

Mike Lee: [\(47:44\)](#)

[foreign language 00:09:48].

President Donald J. Trump: [\(47:53\)](#)

Thank you, Mike. Good job. Thank you very much, Rand and Mike. What a job. Thank you. That's why they're successful senators and respected by everybody. Thank you.

President Donald J. Trump: [\(48:20\)](#)

We have another great friend. I think he's going to be replacing Nancy Pelosi soon. I really believe that. House Minority Leader, Kevin McCarthy. Come up, Kevin. Where's Kevin? He's going to replace craziness. He's an incredible guy. My friend.

Kevin McCarthy: [\(48:47\)](#)

Thank you, sir. All right. We got one mission. We're going to elect the man who kept more promises than he ever made. When we elect him, we're going to have a house that defends him, that stands for America. And when that day comes, I want you all to come to the swearing in. It'll be before we swear in the president again, but the reason why I want you to come, I want you to watch Nancy Pelosi hand me that gavel. I promise you this, I won't bang her with it, but I'll bang the end to the socialism and yes to America.

Kevin McCarthy: [\(49:55\)](#)

It's all up to you. If you asked me the one state that determines our future, it's Arizona. I will promise you this. I've never seen a man work harder. I've never

seen a man fight harder and he's never asked anything, but to make America first. Thank you and God bless.

President Donald J. Trump: [\(50:20\)](#)

Thank you. Wow. Kevin McCarthy. Thank you, Kevin. Beautiful. Really beautiful. Thank you.

Crowd: [\(50:32\)](#)

We love you. We love you. We love you.

President Donald J. Trump: [\(50:53\)](#)

So two people that have fought hard, love your state, they're tough. They're brilliant and they are warriors, Andy Biggs and Debbie Lesko. Where are you? Look at you. Thanks, Andy. Thanks, Debbie.

President Donald J. Trump: [\(51:13\)](#)

A friend of mine, a lot of people say one of the most powerful men in Europe, Nigel Farage. Come on up, Nigel. He's a very non-controversial person too. That's all he's got. Come on, Nigel. He's very shy.

Nigel Farage: [\(51:42\)](#)

Oh, I'm known controversial and shy compared to you. I got to say four years ago, I was honored to come to America to bring the Brexit message. The message that you can beat the establishment. And that is what Donald Trump did. He beat the pollsters. He beat the media. He beat all the predictions and here's the worst bit they've never forgiven him for it. They've never ever forgiven him, they have spent four years trying to de-legitimize him. Four years of the Russia hoax, four years of a false impeachment. Most human beings under that barrage would've given up. This is the single most resilient and bravest person I have ever met in my life.

Nigel Farage: [\(52:43\)](#)

And when you vote next week, you are not just voting for who the president of the United States of America is, vital though that question may be, you are voting for the leader of the free world. You are voting for the only current leader in the free world who has got the guts to stand up and fight for the nation states, to fight for patriotism, to fight against globalism. You'll be voting for the only leader in the Western world with a real courage to stand up to the Chinese communist party. You'll be voting for decency, plain speaking and a man who in four years, hasn't just cut your taxes. Hasn't just improved the economy. But a man who right now is bringing Israel together with Arab nations in a way that nobody ever believed was possible, and that's what he's done. And I wish you God's speed. I really do.

President Donald J. Trump: [\(54:12\)](#)

Thank you, Nigel. That's something. Wow. I'm glad I called him up. Thank you very much, Nigel. That's something. He's responsible for a lot of things that have happened over in Europe. Very positive things too. Thank you very much.

President Donald J. Trump: [\(54:28\)](#)

A friend of mine who is a brilliant, brilliant gentleman, he loves fights. He just loves fighting. He's somebody that's made a lot of money with fighting. A lot of people say, "Oh, let's not fight," but he disagrees. He owns that he's the head of the UFC. You know what that is? Dana White. The great Dana White. Thank you, Dana. Thank you. This guy is something, I'll tell you. What a job he's done.

President Donald J. Trump: [\(54:58\)](#)

State treasurer, Kimberly Yee. Kimberly. Kimberly. Where's Kimberly? Thank you, Kimberly. Good job, you're doing. How are the finances? Okay? You're doing well? Good.

President Donald J. Trump: [\(55:12\)](#)

Maricopa County Supervisor, Clint Hickman. Thank you, Clint. Good job, Clint.

President Donald J. Trump: [\(55:24\)](#)

GOP chair, she's tough, she's smart and she's with us and she's always been with us. She works hard. Kelli Ward.

President Donald J. Trump: [\(55:35\)](#)

He's great. He's great.

President Donald J. Trump: [\(55:39\)](#)

So thank you all very much. That was very interesting. I didn't think I'd have anyone speak, but it was one after another I'm glad they did it, right? That was great. We don't usually do that. Usually it gets a little boring when people speak and this group was a hell of a group. Thank you all. Thank you all very much.

President Donald J. Trump: [\(55:56\)](#)

Together, we built the greatest economy in history and now we're doing it again. We increased middle-class family income over \$5,000, more than five times the gains under the last administration. After the virus arrived, we passed \$3 trillion of economic relief and saved over 50 million jobs, many in your state, many, many in your state. We've experienced the smallest contraction and the fastest recovery economically by far of any major nation in the world. That's a big thing. And our numbers are going to be coming out very shortly, very soon. GDP, and the Fed in Atlanta just made a prediction, they said 35%. Now, I'll take 25 right now. 35 would be many times larger than the largest number we've ever had. GDP, the all-important GDP, 35 is what they predict and let's see what happens. And it'll be three days before the election. So I'll make you a deal. If the number's a bad number, you don't have to-

President Donald J. Trump: [\(57:03\)](#)

... election. So I'll make you a deal, if the number's a bad number, you don't have to vote for me. Okay? But I think it's going to be incredible. If you look at housing starts, if you look at automobile and all the productivity that we've had, if you looked at hiring, 11.4 million people over a short period of time. Under my leadership, we achieved the most secure border in US history. And we built over 400 miles of new wall, including 200 miles right here in the State of Arizona, 200 miles. It goes down very deep and it goes up very high. There are two reasons it goes down deep. One is to hold it up, and the other is for tunnels. You never had it so good. And your numbers are fantastic.

President Donald J. Trump: [\(57:48\)](#)

Joe Biden has pledged to open borders. He even said, "Maybe we'll rip down the wall." I don't think that's going to happen. He wants open borders. If you don't have borders, you don't have a country. His plan would completely eliminate our borders, by implementing nationwide catch and release. You catch them, killer, a rapist, whoever it is, and you release them into our country. And then in the debate, he said, "Oh, but they come back for trial." No, they don't, Joe. They don't come back. You don't see them again. This would trigger a tsunami of illegal immigration from every corner, all over the world.

Speaker 16: [\(58:23\)](#)

That's right.

President Donald J. Trump: [\(58:23\)](#)

He's also pledged to, and you know what he wants to do, give free healthcare and mass amnesty for all illegal border crosses, bankrupting your Medicare and your social security systems. I don't think so. And we all have a heart. We want to take care of people, but everybody all over the world would pour into our country. We wouldn't be able to do it. Under Biden's plan, you'll have no borders, no healthcare, no middle-class. You'll have no country, frankly. We invested \$2.5 trillion in the US military, including nearly \$1 billion to build the world's most advanced guided missiles. Guess where we're building them? Right here in Arizona. Right? We also passed the VA Choice and VA Accountability, things said that, "You'll never get them done, sir. You'll never get it done." We got them

both done. Accountability, where we can fire bad people that work at the VA, that don't love our vets. We take care of our vets and now they don't have to wait for two weeks, three weeks, five weeks, seven weeks.

President Donald J. Trump: [\(59:33\)](#)

Now they go, and if they can't get good service... We have great doctors in the VA. But if you can't get the service, you go to a local doctor, a local hospital, we take care of the bill. We have a 91% approval rating now, the highest ever by far with our guys. We took 100% of the ISIS caliphate and we killed the leader of ISIS, al-Baghdadi. We took out the world's top terrorist. Soleimani is dead. I withdrew from the last administration's disastrous Iran nuclear deal. \$150 billion for nothing, for nothing. I recognized the capital of Israel and opened the American embassy in Jerusalem and even got it built. And even got it built. Right? I even got it built. Got it built for, supposed to cost \$2 billion, we did it for 500,000, a slight cost underrun. That was called the cost underrun. You don't see that in government too much. I also recognized Israeli sovereignty over the Golan Heights. They've been working on that for 52 years. I got it done in about two hours. Every president promised these things, but they never got them done.

President Donald J. Trump: [\(01:00:54\)](#)

There's a lot of pressure on people when you have that Jerusalem, Golan Heights, a lot of pressure, but we got them done. And instead of never ending wars, we are forging peace in the Middle East. We are forging peace. And I've said this, and I've said it a lot, but I meet it with every breath, I've done more in 47 months than sleepy Joe Biden has done in 47 years and it's true. A vote for Republicans is a vote for safe communities, great jobs and the American dream. Abraham Lincoln was a great Republican, and [inaudible 01:01:32] remember that. I can be more presidential than any president other than possibly Abraham Lincoln, when he's wearing the hat. That's a tough one. No, he was a great Republican.

President Donald J. Trump: [\(01:01:43\)](#)

Over the next four years, in conclusion, we will make America into the manufacturing superpower of the world and we will end our reliance on China once and for all. That's already started. We will make our medical supplies right here in the United States, right here in Arizona. We will hire more police, increase penalties for assaults on law enforcement. And we will ban deadly sanctuary cities. We will defend religious liberty free speech, the right to life and the right to keep and bear arms, Second Amendment. We will maintain America's unrivaled military might, and we will ensure peace through strength. That's what we have. And the 2.5 trillion, all made in the USA, we have the finest missiles and rockets and tanks and submarines and jets, the F-35 stealth. You can't see it.

President Donald J. Trump: [\(01:02:56\)](#)

"Sir, you can't see it. That makes it good." I said, "I think that makes it good. What do I know?" But I know if you're the opponent and you can't see the jet, you know what? You got a little advantage there. Now we have the best in the world and our nuclear arsenal has been refurbished and restocked and hope to God, we never have to use it. We will end surprise medical billing, require price transparency. Already completed, goes into effect... Bigger than healthcare, you watch on January 1st. Lower drug prices, even more. First year in 52 years, that drug prices, prescription went down, when I instituted what's called a favored-nations clause. We pay the most in the world. We're now going to be tied for the lowest price in the world. We will protect your social security and your Medicare. And we will always protect patients with pre-existing conditions.

President Donald J. Trump: [\(01:03:54\)](#)

America will land the first woman on the moon and the United States will be the first nation to land an astronaut on Mars. And NASA is now again the preeminent space station. There's nothing like what we have. What a job they've all done, including our great Vice President, Mike Pence. We will stop the radical indoctrination of our students and restore patriotic education to our schools. We will teach our children to love our country, honor our history and always respect our great American flag. And we will live by the timeless words of our national motto, "In God we trust." For years, you had a president who apologized for America. Now, you have a president who is standing up for America and standing up for the people of Arizona. From tombstone to Tucson, right? Tucson, does anybody come from Tucson? My friend comes from Tucson. From Mesa to Yuma, from Prescott to right here in Goodyear. Good year.

President Donald J. Trump: [\(01:05:24\)](#)

We inherit the legacy of red blooded American patriots, who poured out their heart, sweat and soul to secure our liberty and defend our freedom. This great state was settled by some of the toughest men and strongest women ever to walk the face of this great, wonderful, beautiful planet. Arizona's where Wyatt Earp and Doc Holiday became American legends. It's where the great American West became the American dream. And Arizona is the state where generations of pioneers and prospectors, miners and ranchers, cowboys, and cattle hands, marshals and lawman, tamed the frontier, braved the blazing sun, like I'm doing right now, and showed the entire world how the west was won. They helped make America into the greatest nation in the history of the world. And the best is yet to come. Proud citizens like you helped build this country and together we are taking back our country. We are returning power to you, the American people. With your help, your devotion and your drive, we are going to keep on working. We are going to keep on fighting and we are going to keep on winning, winning, winning. We are one movement, one people, one family, and one glorious nation under God. And together with the incredible people of Arizona... Go out and vote. Go out and vote. We have made America powerful again. We have made America wealthy again. We have made America strong again. We have made America proud again, proud. We have made America safe again. And we will make America great again. Thank you very much. Thank you, Arizona. Go out and vote. Thank you.

Donald Trump: [\(00:00\)](#)
That's a lot of people. Wow.

Crowd: [\(00:00\)](#)
USA, USA, USA, USA, USA-

Donald Trump: [\(01:55\)](#)
Thank you very much. This is quite a crowd. This is quite a crowd. Thank you very much. Hello, Arizona. Hello, Arizona, and hello to everybody right here in Nevada. I love Nevada too. You got Nevada. We have Arizona. How many people are from Arizona? How many people are from Nevada? Not bad, not bad. That's not bad. Six days from now, we are going to win Arizona. We are going to win Nevada, and we are going to win four more years in our great White House.

Crowd: [\(02:56\)](#)
Four more years, four more years, four more years, four more years, four more years.

Donald Trump: [\(02:56\)](#)
Ah, look at the fake news back there. There's a lot of them. There's a lot of them. I got a poll this morning. We're one up in Wisconsin, right? We were there last night. It was very cold. It was very cold, but we had a great time. A tremendous crowd like this, a tremendous crowd. Then, tonight I hear, last night that I heard, but this morning I get a fake poll. We're one up in a real poll. We're even, or whatever, but we'll end up winning it. But I get a poll, ABC, Washington posts, they're fakes. Trump 17 down in Wisconsin. 17. Think of it. Think of it.

Donald Trump: [\(03:41\)](#)
They tried it last time, four years ago too, and that didn't work out too well. It's just unbelievable how dishonest the media is. I say it because there they are, just very dishonest people. Very dishonest. To vote for me, is a vote for massive middle class tax cuts, regulation cuts, fair trade, strong borders and American energy independence. It's a vote to support our police, support our military, defend our Second Amendment, which is siege, stand up to China and ensure more products are proudly stamped with that beautiful phrase. You know what the phrase is? Made in the USA.

Donald Trump: [\(04:34\)](#)
We will deliver record prosperity, epic job growth, and a safe vaccine is coming very quickly. You're going to have it momentarily that eradicates the virus and we're rounding the turn regardless. You know that. We've got the vaccine. I say, regardless, they'll say, "Well, maybe you don't." We have it. Great companies, and quickly ends the pandemic. Should have never come here from China. They should have never let it out. We'll never forget. All over the world, all over the world. You see what's happening in Europe, all over the world. Normal life will fully resume. That's what we want, right? Normal life. Normal life.

Donald Trump: [\(05:13\)](#)
Next year will be the greatest economic year in the history of our country. A vote for Sleepy Joe Biden, and he is a sleepy guy. I tell you what. It's a powerful party and the party is totally joined with a fake news radio, the lame stream media right there. They're totally joined with the big tech. I don't know. Section 230. Does anyone know what Section 230? You do. Section 230, I think what? Tremendous corruption on behalf of the Biden. Tremendous. Do you know you can't find it anywhere in the media, other than the New York Post, which I'm very proud of, and they endorsed me the other day too, by the way.

Donald Trump: [\(06:01\)](#)
But, you can't find it anywhere in the media. Anywhere. It's not on any of the, it's not in Facebook. They have trending. They always put me trending. They'll give you 25 things I've done over my life. They make it negative, always negative trending. But Sleepy Joe Biden, with all the corruption, all the theft, all the money they took out of these countries, that we end up paying for in spades. You can't find it on big tech and you can't find it at the Washington Post, the New York Times, because they're crooked, they're dishonest, and we caught him. We caught him, just like we caught him spying on our campaign. Just like we caught him spying on our campaign.

Crowd: [\(06:52\)](#)
USA, USA, USA, USA, USA, USA, USA, USA.

Donald Trump: [\(06:55\)](#)
We caught him spying.

Crowd: [\(07:07\)](#)
USA, USA, USA. We want Trump. We want Trump.

Donald Trump: [\(07:09\)](#)
A vote for Biden is a vote for the biggest tax hike in the history of our country. This is the only guy I've ever seen ... He's campaigning because he has no clue. He's shot. Just so you understand. I'll say it, because I've said, "Hey, I've seen enough. I've seen enough. Here's a guy, gets caught and the media doesn't want to write about it." You know what? They call it? Not freedom of the press, suppression of the press. We don't have freedom of the press. You know what? We

don't have ... you understand that? We don't have freedom of the press. We have suppression of the press. There's never been a time when it's more obvious than right now. Is that right? Is that right, Charlie?

Donald Trump: (07:51)

Hi, Dan. He wants crushing regulation. By the way, he doesn't want them. He has no idea where he is. They carried him off the stage yesterday. Give me a break. His people grabbed him, "Get him off, get him off." He's trying to make it to the finish line. I mean, it's honestly, it's a disgrace. The whole thing is a con job. He should have never been the candidate. You know what? They have a corrupt party and all of this work being done by big tech and being done by the media, that should be considered a major, massive, billion dollar campaign contribution because that's what it is. They slashed Medicare and Social Security. He wants to knock out your Medicare, your Social Security, and he wants to abolish a thing called American energy.

Donald Trump: (08:43)

You see that, right? No fracking. There will be no fracking. No. For a year, he's going no fracking. He gets the nomination. He goes to Pennsylvania. They tell him, "Joe, you have to change." "Okay. What do you want to say?" "I love fracking. Say, I love." He goes from no fracking, to I love fracking. A vote for Sleepy Joe Biden is a vote for open borders, off-shoring jobs, shredding your Second Amendment, which is totally under siege, by the way. You're so lucky I'm your president.

Crowd: (09:15)

USA, USA, USA, USA, USA, USA, USA, USA.

Donald Trump: (09:34)

Thank you. Thank you. What a nice group. By the way, we are substantially up in a state known as Arizona. You know about that, right? Substantially. I hear we're up in Nevada. Is that right? Michael? We're up in Nevada. We're a little concerned with all those ballots floating around in Nevada, got a lot of ballots floating around in Nevada. You got a lot of ballots floating around in Nevada. Hey, you know, it's windy as hell out here. I said, "Is it windy? Should I bring a hat?" Because, I don't Love my hair flopping around. One thing, at least they figured out after three years than it is mine. If it wasn't, I would have found out about it today.

Donald Trump: (10:19)

Should I put on a hat?. Should I put it on? Like Nice hat. I want to know, who has worn this hat before? That's all I want to know. It's pretty nasty. Am I allowed to do it? I'll do it, if you want. Otherwise ... what a guy. Yes? Better? Nice hat. We're going to change your hat. We made America great again. We created the greatest economy in the history of the world, and then we had the plague come in from China, and now we're doing it again. Our numbers are unbelievable. By the way, you're going to have a very big number. I even say, hold off in your vote until it happens, because a lot of you want to wait until Tuesday anyway, which is going to be a great, great red wave.

Donald Trump: (11:25)

But you know what? Before that happens, I don't know what it is, but the Atlanta fed just predicted a very big number, biggest in the history of our country. You're going to have GDP coming out. It's going to be announced. It's going to be announced probably on the first, maybe a day before the first. If that number is not big, you don't even have to vote for me. Okay? I think it's going to be, maybe, the biggest number in the history of our country. GDP. That's your big number Right? I'm taking a chance when I say that you don't even have to vote for me. Okay? Who here, is voting for Trump.

Donald Trump: (12:16)

Thank you. Thank you. Good of you to get out now. Is anybody sending in a ballot, or you're going in and doing it the old-fashioned way? That's what I did. I just did that. But whatever you do, you have to go out and vote. Who here, is going to vote for Sleepy Joe Biden. I had a leader of a country call up. He's a very tough leader, tough as hell. They're going to figure it out, maybe. Although they wouldn't, if it was right, if it was good, they were not going to report it. He said, "I hope Biden doesn't win because he's always slipping." That was an interesting thing he said.

Donald Trump: (12:50)

This is a killer. Says, "I hope he doesn't win, because he's always sleeping." Here. I thought he was being funny. I said, "You happen to be right about that." This election is a choice between a Trump super-recovery and a Biden depression. You will have a depression, the likes of which you haven't seen before, maybe 1929. He wants to raise your taxes, put regulations back on. Remember this. Get rid of your Second Amendment. Remember this. Remember this. Pro-life, anybody pro-life? There's so many differences. This is the single biggest election, in my opinion, and I never thought I'd say it, in the history of our country.

Donald Trump: (13:33)

This is the biggest. The biggest in the history of our country. It's a choice between a Trump boom and a Biden lockdown. He'll close it up. He'll close it up. It's really something. We talk about the American dream. We had the American dream. It was all coming together. There was going to be, believe it or not, unity. I was getting calls from people, you wouldn't believe it, and then we had this thing can come in. It came in and it came in very ... The invisible enemy came in and we went back to work and we saved 2 million people. It was going to be 2.2 million people. We say, maybe more than that, but it's a choice between the American dream and a socialist nightmare. That's what it is. The reason it's such an important, is because, you've heard me say it many times, our country will never be a socialist country, and that's where they want to take us.

Donald Trump: (14:33)

That's where they want to take us. I'm fighting for the dreams of all Americans, including millions of truly amazing Hispanic-Americans. Who's Hispanic? Who's Hispanic? Oh, they're shocked. They don't believe it. The polls with Hispanics are through the roof. They're reporting on it. I said, "I never had a problem. I always liked Hispanic," but they're really, they're getting to understand me and the incredible progress that we've made. The polls with Hispanic-Americans are the highest ever, in the history of our country for a Republican. But it could be that we're going to top them, and once we top them, you're going to forget about them because we've really gotten along. The poll, by the way, who saw the debate the other day? Did anybody. Anybody watch it?

Donald Trump: (15:25)

You see the poll? 91 to nine. That's I don't know [inaudible 00:15:31] 91 to nine. That's not bad. I got angry at the media. I thought it should have been better than that. I felt like Perry Mason, because he admitted right in the end, his last name. I said, "Does that mean you don't like oil, Joe?" Ah, ah, well, ah, ah." No, it's Perry Mason. Do you ever watch? Colombo? How about Colombo? It's the same thing. Right at the end, does that mean, oh did he blow it? They've been working for five days and then they had to go to Pennsylvania where fracking's a big deal, right? How about Texas? You think they like him in Texas? No oil. Think of this. No oil, no guns. Second Amendment. No God, religion. Then I hear, Trump has a one point lead in Texas. I don't think so. You know, I used to hear this four years ago, all the time.

Donald Trump: (16:20)

He cannot win the great state of Ohio. He must win it. We won by eight points. Trump has never done this before. He cannot win Texas, under no circumstances. He can not win Texas. We won. I don't know, by a lot, whatever it was. Remember Utah? We had the guy from Utah. He was a specialist in Utah. He was going to win Utah. He came in third. Even crooked Hillary beat that guy. Remember, he shaved his head. Nice shaved head. Nice guy. Do you remember his name? Yeah, I remember his name. He's one of the others, another rhino. We have, we're against a lot.

Crowd: (16:59)

Four more years. Four more years-

Donald Trump: (17:02)

Jesus. I didn't start it. I didn't start it.

Crowd: (17:10)

Donald Trump, Donald Trump, Donald Trump-

Donald Trump: (17:11)

I'm an innocent bystander. Every time that starts, "He started it," so I always act extremely innocent. They start ... All I have to do is mention her name, crooked disgraceful, deplorable, irredeemable. They said, deplorable and irredeemable. Who have thought her speech would have turned out to be, she came out, she said, "Deplorable," but she also said irredeemable. To show you what I know, I said, "Oh, she used the word irredeemable about our people." But it was deplorable that caught on. Right? But, whoever her speech-writer is, I don't want him or her. That was a disaster, but I never thought it was going to be that bad. The next day I showed up at a rally. Everybody said, "I'm a deplorable, I'm a deplorable."

Donald Trump: (17:59)

Oh boy. But she was a lot smarter than Sleepy Joe, but they've got a little bit different kind of a thing going right now. They're more desperate. They're more desperate. They're totally desperate, because they have a candidate ... I mean, let's not kid ourselves. They took him off the stage yesterday. You saw that, right? He called me George. He thought I was George Bush. He called me George. It's unbelievable. I didn't know if I was happy or if I wasn't, because he called me ... I mean, and his wife was sitting right next to him and she's looking like, "Huh?" [inaudible 00:18:42] You could see she was under great, great stress. For the last four years ... by the way, these suckers are moving like hell. I think, let's go off those. Isn't it nice to have a president that doesn't need a teleprompter? Right?

Donald Trump: (19:04)

They are moving like crazy. They are moving like crazy. And that's okay with me.

Audience: (19:11)

We love Trump. We love Trump. We love Trump. We love Trump. We love Trump. We love Trump.

Donald Trump: (19:28)

Thank you. Thank you. Thank you. Thank you and I love you. I do. I love you. I love you. You know, that's a phrase and they say it, I think even the fake news would admit it. Nobody's ever heard, "We all liked Ronald Reagan." But nobody ever said, "We love you. We love you. We love you." And he wouldn't get crowds like this. If Ronald Reagan who I consider to be top-notch. If he came here, he'd have a couple hundred people legitimately. He'd go into a ballroom someplace inside. He'd go into a ballroom and it'd have two, 300 people. And that's what the standard was. We're having 25, 30, 35, 40, 45,000 people.

Donald Trump: (20:11)

And I'd leave some of these crowds, we were packed in Florida and all these places. And I'd leave some of the crowds and I'd look at that. Look at that. You can't even see the end. You can't even see. If they were legitimate, they never show it on camera. They never show it on camera. Get the mic turned up. Turn it on. They never ever show it. They don't like to show it. You know what they do show? Barack Hussein Obama yesterday. They made the mistake. The camera's slipped and they showed his crowd. He had about 20 people that there. Barack Hussein.

Donald Trump: (20:50)

Which was about 10 people more than Sleepy Joe had yesterday. You know he saw. We were in Pennsylvania. Right? You saw that. And we had three rallies all in Pennsylvania. It was incredible. Thousands and thousands and thousands of people. And Joe was in his basement and he saw it, and his handlers much more importantly saw it. They say, "Sleepy Joe, we have to get you out of here. We got to move you in there. I mean, it's not looking good." Because you know they put a lid on. You know a lid for a garbage cans. That's where it comes from. They put a lid on and he has a lid today again. The guy's got lids every damn day.

Donald Trump: (21:28)

And then he said he doesn't want to have big crowds. Really? Because of COVID. He's such a great citizen. He's such a great guy. Then why did he cheat so much with Hunter? Where's Hunter, by the way? Where's Hunter? Where is Hunter? Remember we did the T-shirt where's Hunter? It's all I got. Now we have it's called the laptop from hell. The laptop from hell. It's the greatest laptop I've ever seen. This thing is gold. It's gold, except for the news that doesn't want to look at it. They refuse to look at it. This is the laptop from hell.

Donald Trump: (22:12)

It's the worst. Nobody's ever seen anything like it, except for Anthony Wiener, that was a long time. I would rate Anthony's maybe even worse. I don't know. Anthony, that was not good. For the last four years I've been delivering the Hispanic Americans a message like they haven't heard for a long time. I'm fighting for school choice. Right, right? School choice, big deal.

Donald Trump: (22:39)

Safe neighborhoods. Hispanic-owned small businesses. We have great, great business people here. I know some of them. I've helped some of them [inaudible 00:22:51] incredible, oh these people don't know what the hell they're doing. Let me recover my ears for one second. Who did this microphone, don't pay them. You know I have a reputation for not paying and it's a false reputation. When somebody does a lousy job like a microphone that's no good or like teleprompters that fly with the wind. I say, don't pay him. But we love our incredible Hispanic American members of law enforcement that we have a lot of them here today. We achieved the lowest Hispanic in America, right? The lowest Hispanic American unemployment ever recorded, not even close. And we're getting back to those numbers again. The last number of months, 11.4 million, a record. People were hired. Joe Biden would obliterate every single thing that we've done. He's looking to do that. He's looking to obliterate our tax cuts. He wants to. So we gave tax cuts, the biggest in history. He wants to end the tax cuts. He wants to end the child tax credits, a thousand dollars per child. He wants to end up them.

Donald Trump: (24:17)

Wiping out your small businesses with lockdowns, regulations, gutting your police departments and devastating your families with the massive tax hikes. I said it's the biggest in history. It's not going to happen. You know why it's not going to happen? Because he's not going to win. We can't have win. He will attack religious liberty and his running mate, the most liberal member of Congress, she makes Bernie Sanders look like a super conservative. Okay? I don't think she's for the people of Arizona or Nevada.

Donald Trump: (24:54)

And we want to know who are their judicial nominees? Who are they? Who are you going to put on the court? You know they want to pack the courts, right? How do you like our nominee Amy? Right? Biden wants to ban charter schools, fund extreme late-term abortion. You know he wants to fund late-term even beyond late-term. You saw the governor of Virginia, the child is born and then they make a decision as to execution of the child. You saw that. The governor of Virginia and Biden, Biden totally supports him and surrender your country to the violent socialists mob.

Donald Trump: (25:39)

Take a look at Philadelphia last night, take a look. And we offered to go in. We'd stop that in two minutes. We offered to go in and they said, "Stand back. Stand back to the police." The police want to do their job. They don't want that to happen. They're good. I think they endorsed me too. Everybody. All police departments endorse me. That's why we are going to win a record share of Hispanic Americans, of African Americans, of Asian Americans. We're going to win a historic share of women.

Donald Trump: (26:10)

Remember, last time? "He will not get women." Remember? "He will not get women." Well, it didn't work out that way. Right? "The end of the night, I don't know what happened. He got a lot of women." We did very well with women. You know why? Women are very smart. They want security. They want safety. If they're from suburbia, the suburban women, they give me a hard time on suburban women, the fake news. You know what they want? They want security and they don't want their neighborhood destroyed. And I ended the regulation that would destroy their neighborhood.

Donald Trump: (26:51)

But I'm not just running against Joe Biden, I'm running against a left-wing mob and the left-wing media, the big tech giants. And I'm also running against the RINOs. Do you know what a RINO is? A RINO may be the lowest form of human life. I actually sort of liked the others better than the RINOs. You know why? Wow. That plane's about four-days-old and we have all brand new equipment at F-35s and everything. We're the envy of the world. You know what? We are the envy. Do you know about that, Dan? Look at the sucker. He's tried to show off to the president. Yeah, that's one of ours. I've got to be sure about that. Got to be careful.

Donald Trump: (27:51)

And they have nothing, but disdain for you and for your values. They lecture you on open borders. By the way, we don't have borders. They want to have open borders, you know? We're just now completing the wall. The wall will be finished very soon. Mexico will be paying for the wall by the way. They lecture you on everything. If a country doesn't... I love that sound. I love it. You don't know what I went through to get those suckers up there. I had to get that money from the Democrats. Oh, look at that. Look, look, look. Oh, look at that. They gave the president the little display. Wow. How about that? How about that.

Donald Trump: (28:46)

I wonder if the fake news caught that. Did you see that camera? Because they never turn the camera. They don't want to show anything that's good. Wow. That was something, huh? So they were trying to get our attention with the independent over here and he got my attention, even though he was very high, but that was beautiful. Nobody in the world has the equipment than we have. Listen to that. Ah, I love it.

Donald Trump: (29:10)

You don't know hard it is to get Democrats to pay for that stuff. They don't realize how important it is. They support crippling lockdowns while their jobs remain totally exempt. They keep your kids out of school and you know what they want to teach you in school? We don't teach that in school. We've ended that. Their families, they have private tutors. They want to take away your guns. Your second amendment. Your second amendment is so under siege, but we're going to keep your second amendment. Nothing's going to be changing.

Donald Trump: (29:51)

I don't see the people of Arizona or Nevada, about 19% of the people here are from Nevada. Oh, don't worry. I just left them Nevada by the way. I'll be back there very soon. And they all have armed guards. We got to tell these people don't have armed guards. They don't want you to have guards. From now on, no more armed guards. Let's outlaw armed guards. You like that, right?

Donald Trump: (30:13)

How about Nancy Pelosi? She goes into San Francisco and she wants to get her beautiful hair redone. And she ends up with a total Trump supporter as the owner of the beauty parlor. I like that woman. I've got to go and have my hair done by that woman. She was great. Man is it windy. [inaudible 00:30:43] I think it's from the F-35 that we just saw. With your vote, you can send a wealthy liberal hypocrites a message that they'll never forget. Under Biden's cruel and census lockdowns, countless Americans will die and you know this. From suicide drugs, deferred medical care.

Donald Trump: (31:08)

There's so many different things. The cure cannot be worse than the problem itself. And Arizona you're opened up, but Nevada, get your governor to open up your state please. Get them to open up your state. Nevada, get them to open. Get them to open it up. If you vote for Biden, your kids will not be in school. He wants to shut it down. He was saying the other day just, did you see? "Oh, we'll shut it down." Let me tell you it is devastating for our nation. And we did just the right thing. We closed it down. We understood the disease. It affects as an example, me. Guess who had it? I had it. I'm sure none of you heard that story.

Donald Trump: (31:58)

In fact, this rally. Usually we set up the rallies. We don't call them rallies anymore, we call them friendly protests because you're allowed to protest, but you're not allowed to go to church. You're not allowed to have dinner with your friends. You can't do anything. Right? You can't do anything. So we call everything a protest, this way we have no problem. No, we have states where you can only protest. You can't do anything else. So we cancel rallies then I had the idea. I said, "Wait a minute. Let's just go to protest." We had a lot of people. We had a good time. With Sleepy Joe, that'd be no graduations, no weddings, no Thanksgiving. They're already talking about no Thanksgiving. And in California you have a special mask. You cannot under any circumstances take it off. You have to eat through the mask. Right? Right, Charlie. It's a very complex mechanism. And they don't realize those germs, they go through it like nothing. They look at you with that contraption and they say, "That's an easy one, I'll go right through with the food." Now how about California though? Where you're supposed to eat with the mask. You can't take it off.

Donald Trump: (33:10)

You see, people? And boy you know when you have spaghetti and meat sauce, that mask is not looking. You walk out, it looks like you got into a fight with Dana White. Where's Dana? You fought one of Dana White. I saw Dana White. Does anybody know who Dana White is? It looks like you got into a fight with one of his fighters, right? Now, you don't have Christmas. You don't have the 4th of July. Now, we got to get back to normal, but you got to open up the states.

Donald Trump: (33:41)

By the way, just so you know, on November 4th, they'll announce your state is open. And on November 4th, all of a sudden the COVID, COVID, COVID. You turn on television, we have great numbers. We have some incredible numbers. You know, mortality is way down and way better than Europe and other places. All sorts of things are happening with therapies, the therapeutics, cures, I think maybe a cure. I wasn't feeling great. And I was surrounded by doctors and they gave me something and the next day, I felt I could take this guy in a fight like no problem, no problem.

Donald Trump: (34:22)

But Sleepy Joe, I don't think Sleepy Joe would be a good fighter. Do you? I asked Dana before. One gentle little touch to the face and he's down. He's down and he wouldn't get up very quickly either, would he? Joe Biden's only idea, remember he said, "I'd like to take him to the back of the barn."

Donald Trump: (34:39)

Okay. Have I ever said that to him? That'd say, "He practices violence. The president practices violence." No, that's right. Remember he said? "I would take him to the back." That's like if you have to fight somebody, that's your dream fight. Right? Sleepy Joe. This guy never leaves. You know, he never leaves. They have something because I'm doing three, four of these a day and you think that's easy, right? The sun is blazing. The wind is going crazy. I did one last night in Michigan, it was about 30 degrees and it was raining and the rain was going sideways like one of these jobs.

Donald Trump: (35:24)

But we had an incredible crowd of people because you know, they're all great. They're all like us, the same. They love our country, that's what they do. They love our country. I brought so many auto plants to Michigan. If I don't win Michigan, that would be a tough one. And look what we've done for this one here. Look, both of you, both of you for both of your states. The Biden [inaudible 00:35:51] These guys. Yeah, that's right. You can. No, it's probably a RINO is operating the thing. They're having a bad day today. They're having a bad day, but we're having a good day. Thank you. It's all right. Don't worry. Hey fellas, don't worry about it. It's okay. Don't worry about it.

Donald Trump: (36:23)

The Biden plan will crush you, will crush your family. We will crush the virus and you will have an economy the likes of which we've never had before, better than last year. You had your best year ever last year. This is going to be better and you see where we're going. It's a super V. It's a super V. Since the China virus arrived, we've air lifted amounts of material the likes of which nobody has done since the second World War. It's one of the greatest ever. Nobody has done since the second World War.

Donald Trump: (37:03)

We pioneered groundbreaking therapies and I'm telling you we're down 85%. Think of that. Think of that. Down 85%. Nobody has any idea what that means

and that's all been done within a short period of time. And you know, I say it. So I had it, my wife had it, our great first lady. Does everybody like our first lady? She's great. She made a speech yesterday in Pennsylvania and they loved her. She made a speech. She's a very elegant woman. She gets it almost as hard as I do. They go after her and she's cool. She's very cool. She goes, "Oh, that's okay. No problem."

Donald Trump: [\(37:44\)](#)

Me, I want to go get them. I want to. She goes, "That's no problem. That's no problem." She's got a very extreme confidence somehow. She's just, "That's okay. It's all right." She says, "That's their problem, not my problem." How cool is that, right? But she did a great job. She got-

Donald Trump: [\(38:03\)](#)

How cool is that, right? But she did a great job. She got actually great reviews. She made a speech in Pennsylvania and it was fantastic. She's a great first lady. She really loves you. She loves our country. But she had it. She got better. I had it. I got better. But Barron had it. Barron. Barron is my young son who happens to be very tall. He's tall. Hi, Barron. How you doing? Barron's 14. When you're six-foot-five and you're 14, that's pretty tall. I walk out of the helicopter with Barron. "Hi, Barron. You having a good time?" But he's strong.

Donald Trump: [\(38:36\)](#)

The doctor, Sean, he's a great doctor. He goes... He's the White House doctor... "Sir, Barron has tested positive, sir, sorry to inform you." I say, "Oh, that's bad. What does that mean? Positive for what?" He goes, "For COVID." You know, we have about 30 names, China virus, the Plague, whatever you want to... the plague from China. We have to be accurate. "Barron has tested positive." And I said, "That's too bad." Like two minutes later I said, "How's Barron doing?" "Oh, it's okay. It's all gone."

Donald Trump: [\(39:07\)](#)

99.9%, right? You know, they have strong immune systems, much stronger than our immune system. Much, much stronger. I'm working to make the breakthrough treatment that I received. And what we're going to do is we're making it, because I had a thing called Regeneron. We're going to make it available to anybody that needs it, free. Free. And I do suggest it. Now, I don't know if it helped me or is it just a power?

Donald Trump: [\(39:38\)](#)

You know, I made a statement. I made a statement and they took it very seriously. CNN, fake news, total fake news. And I got better very quickly. And I said, "Well, I should, because I'm a perfect physical specimen and I'm very young." They went crazy. "He is not young, and he is not a perfect specimen." They went crazy. They went crazy. They have no sense of humor whatsoever, do they, huh?

Donald Trump: [\(40:06\)](#)

Thanks to our relentless efforts, 97% of all emergency room visits, 97% are for something other than the virus. Think of that. Because we understand it now. We understand it. People are getting better. And, you know, you're immune. That's why I could jump right there... See those men? I'll kiss the men. I'm not into that, but I will kiss every man there and kiss every woman there, if you don't mind, also. They won't catch anything. And you know what? I won't catch, because they say...

Donald Trump: [\(40:37\)](#)

And until I came along, they said, "If you have it, you get better. You're immune for life." But when I said, "I had it. I got better," they said, "You've only got four months." They've changed the whole medical standard. If it was anybody else, it was good for life, right? But with me, they said I'm now good for four months. Nah, I think a much longer period, but who the hell knows? Well, we'll know soon enough.

Donald Trump: [\(41:03\)](#)

We're on track to deliver 100-million doses of a really great, safe vaccine. And we have some of the greatest companies in the world. They're right at the doorstep. And if I weren't president, if you had Sleepy Joe as your president, it would have taken you four years to have a vaccine. You would have never had a vaccine. What we did with the FDA, they said, "Sir we'll need approximately two years." I said, "How about one week?" We moved up the schedule, and yet very, very safe. We will vanquish the virus and emerge stronger than ever before. Our country will be stronger than ever before.

Donald Trump: [\(41:42\)](#)

And what I did, only because of you and the double state with a double treatment, we spent a lot of money. We now have a new little thing. We have a big board that shows different things. And here's some of the governors talking about the incredible job we did on COVID or the China virus. Take a look.

Gov. Gavin Newsom (prerecorded): [\(42:00\)](#)

The fact is, every time I've called the President...

Gov. Gavin Newsom (prerecorded): [\(42:01\)](#)

(silence).

Gov. Andrew Cuomo (prerecorded): [\(42:51\)](#)

... efforts and acts of mobilization. And the federal government stepped up.

Female Voice: [\(42:58\)](#)

Okay, I can hear it now. I can hear it.

Gov. Andrew Cuomo (prerecorded): [\(43:00\)](#)

We needed help and they were there.

Gov. Gavin Newsom (prerecorded): [\(43:00\)](#)

He said everything that I could have hoped for. And we had a very long conversation, and every single thing he said, they followed through on.

Gov. Michelle Lujan Grisham (prerecorded): [\(43:11\)](#)

We've got to have double the number of ventilators that we requested for that area of the state. And, in fact, we got them in, frankly, short order.

Gov. Andrew Cuomo (prerecorded): [\(43:19\)](#)

Have we lost anyone because we didn't have a bed or we didn't have a ventilator or we didn't have healthcare staff? No.

Gov. Gavin Newsom (prerecorded): [\(43:29\)](#)

The President was extending support for new swabs. So, conversation, commitment, a promise made, promise kept.

Laura Ingram (prerecorded): [\(43:37\)](#)

Now, to be fair, maybe Biden's not telling us because he's forgotten his own plans. Watch Biden's staff quickly swoop in to shuffle him along during a quickly escape-the-basement trip to Pennsylvania.

Former VP Joe Biden (prerecorded): [\(43:59\)](#)

Here's the deal. One of the things that is important is that... Keep in mind, although they're going to vote on Barrett, I think, today...

Laura Ingram (prerecorded): [\(44:17\)](#)

That was terrifying.

Former VP Joe Biden (prerecorded): [\(44:17\)](#)

What kind of country are we going to be? Four more years of George... George, he... We're going to find ourselves in a position where, if Trump gets elected, we're going to be in a different world.

Kyle Inskip: [\(44:30\)](#)

56% of Americans said that they were better off today than they were four years ago. It would have been under the Obama/Biden administration, so why should people who feel that they are better off today under the Trump administration vote for you?

Former VP Joe Biden (prerecorded): [\(44:43\)](#)

Well, if they think that, they probably shouldn't. If they think 54% of the American people are better off economically today than they were four years ago under our administration, well, their memory's not very good, quite frankly.

Sponge Bob Square Pants Announcer (prerecorded): [\(44:56\)](#)

A few moments later...

Former VP Joe Biden (prerecorded): [\(44:59\)](#)

I'm running as a proud Democrat for the Senate. So vote! Vote! Visit Iowa.com/Ohio. We got in trouble when we were running against the senator who is a Mormon. The governor, okay? Well, their memory's not very good, quite frankly.

Crowd: [\(45:16\)](#)

Four more years! Four more years! Four more years! Four more years! Four more years! Four more years! Four more years!

Donald Trump: [\(45:16\)](#)

You know, we have a great, great country, but we have a country with tremendous potential, a country that can be greater than ever before. We can't do this to ourselves. We can't. And I personally don't think he's a nice person, but that's okay. I don't think he's a nice guy. If he was a nice guy, I probably wouldn't have put those clips up. But those clips are just a few of many, many, many clips. This happened over the last couple of days. You can't do it.

Donald Trump: [\(46:15\)](#)

For instance, if he were here with you today and said, "I want to thank the people of Ohio for being with us"... He's done that seven different times. And once you do that, it's over. You just walk off the stage. You can never make a good speech after that. Nobody's going to go home and say, "That was a great speech, except for the fact that he called us the wrong state." Joe Biden his surrendered his party to the rage-filled socialists, Marxists, and left-wing extremists, and that's what you're going to have, and you can't let it happen.

Donald Trump: [\(46:47\)](#)

The Democrats have spent the entire year inciting violence, hatred and hatred against our police, our police. Without our police, we have very little. Last night, the City of Philadelphia was ransacked by violent mobs and Biden-supported people. These were all Biden-supported people, and he wouldn't even call them out this morning. They said, "Please call them out." He doesn't want to get involved because he doesn't want to lose the radical left. Stores were looted, police cars were burned, and dozens of officers, great officers, were injured. Biden and Harris stand up and they stand with the riders and the vandals. I stand with the heroes of law enforcement.

Donald Trump: [\(47:40\)](#)

It took generations to build the America we know and love. But if the radical left gains power, it will take them only a short period of time to destroy it. This Election Day, you must stop the anti-American, crazy radicals. They are crazy. That's why I say this is the most important election in the history of our country. I never thought I'd say it, because we had a time four years ago, but they've gone absolutely insane.

Donald Trump: [\(48:14\)](#)

Joe Biden is a corrupt politician, but big tech will not allow that to be said and the media will not say it. What he has done is horrible. The money from China, from Ukraine, from Russia. The wife of the Mayor of Moscow gave him three-and-a-half million to son. The son had no job, no nothing, got three-and-a-half million dollars. They put up on the board of Burisma \$183,000 a month and, I understand, a \$3-million upfront payment. I think they could have had him for less.

Donald Trump: [\(48:54\)](#)

China gave him one and a half billion dollars to manage, even though he's never managed money before. And I asked people on Wall Street, "Is that common?" They said, "It's not common. Even for us, they don't do that." And that was after a meeting that lasted 10 minutes. Flew in with his father on Air Force Two. Flew back with 1.5 billion to manage from China.

Donald Trump: [\(49:18\)](#)

And then the big one, and I guess this one maybe got caught. And I give a lot of credit for last night. Tucker Carlson did a great job last night, [inaudible 00:11:33], because he was willing to call it out. By the way, follow up. Sean Hannity did a phenomenal job. You look at Sean Hannity. And Laura did a phenomenal... They're getting that word out. The great Lou Dobbs, Jesse. You know, we have a lot of good support, but the problem is, we got to have more. Because look at all those people up there. Look at them. Every one of them... You know, they turn their camera off if I even talk about this. Think of it. They turn their camera off. If I mention Biden corruption, they turn their camera off. And yet they'll do stories about me left and right, stuff that's so untrue. Nah, it's unbelievable. Pretty unbelievable.

Donald Trump: [\(50:18\)](#)

It's been a lot of fun being your president. I got impeached over a telephone call. "Congratulations on your victory," President of Ukraine. But we had good stick with the Republicans. The Republicans stood by. In Congress, 197 to nothing. How about that? That's pretty good. Last night in that hour-long interview, the Biden family business partner revealed the depth and extent of Biden corruption. And you know, if you walk out... you're vice president and your son walks out with hundreds of millions of dollars, and he's got no real capability, I would say that's corrupt. I would say it's corrupt. But Joe got a piece, right? For the big guy, right?

Donald Trump: [\(51:02\)](#)

They said, "We're going to keep 10% for the big guy." They call him the big guy. I don't think so. Joe is personally involved in establishing corrupt business dealings with China. At the same time, he was letting China plunder our jobs and destroy our businesses, our factories, our workers. Another report showed that the executive of a Chinese company that paid the Bidens at least \$5 million was under surveillance by the U.S. Government as a likely Chinese spy. This is all down, documented.

Donald Trump: [\(51:38\)](#)

They won't repeat it. Could you imagine if I did this? No, seriously, could you imagine? I had a conversation, "Congratulations on your victory." I'd never met the President of the Ukraine. I called him up. One of my great people, thank you very much, said, "Please call him and congratulate him." I said, "Who is he?" "President of Ukraine." And I got impeached. Think of it. And we went through hell for six months, our country.

Donald Trump: [\(52:01\)](#)

And they spied on my campaign. Before I won, they spied. And after I won, they spied. And let's see what happens to him. Let's all see. And by the way, Obama and Biden knew all about it. Obama and Biden knew all about it. If Biden wins, China wins, because China will own the USA. He's going to own it. They're going to own it. President Xi, I know him well. He has not got the same problems that Biden has. He is a very sharp guy, very smart guy, very cunning

guy. He'll own the United States. I've charged billions and billions and billions of dollars in tariffs. I gave \$28 billion, thank you very much, China, to our farmers because they were targeted.

Donald Trump: [\(52:57\)](#)

When we win, you win. Arizona wins, Nevada wins, and America wins. We're thrilled to be joined tonight by some really great friends of mine, and they're warriors and they're fighting hard. Your governor, Doug Ducey, he got you opened up. He got you opened up. Where is Doug? Where is Doug? You look good, Doug. He got you opened up. You're open. Thank you very much. And I hear we're doing well, Doug? We're doing good? I'm going to be so angry at you, Doug, if I don't get the... I'll call Doug, "Doug, how are we doing?" Well, he won by about 17 points. I'd say that's not so bad. Right? Thank you, Doug. Great job. Great governor.

Donald Trump: [\(53:43\)](#)

Somebody who's done a fantastic job in the Senate, and she's respected by everybody there, including me. She could fly those planes very easily that we just saw overhead, Senator Martha McSally. Great, great. So you know, Martha's opponent wants to get rid of your Second Amendment. I don't think so. You know, if you talk about nothing else, he wants to get... His whole thing is he wants to get rid of your Second Amendment. They want to take your guns away. You can't let it happen. Will you please win? You got to win, okay? She's tremendous. And you could fly those planes, right? She's the only one in this whole group that can.

Donald Trump: [\(54:33\)](#)

Congressman Paul Gosar. Congressman, great job. Great job by a warrior. He's a warrior. Thank you. Great job. We're doing okay, right? I hear we're doing good. Thank you. Congressional candidate Daniel Rodimer. Daniel Rodimer, he's a really smart guy, but don't mess with him. He was a professional wrestler. He's a big... You're a big dude, but I hear you doing well. I hear you're really doing well. That's good. Well, we're with your 100%. You know that, right? And Jim Marchant. Jim, congratulations. I hear you're doing well, too, you and Daniel. He's doing good, Dan? I think so, right? I hear good? Two winners. Arizona GOP Chair, who I've liked right from the beginning, Kelly Ward. Kelly. Now, if we lose, I won't like her anymore and I'm going to say, "You're fired Kelly. I'm sorry." But I hear we're doing well, Kelly, right? Really well. Yeah.

Donald Trump: [\(55:47\)](#)

You have no idea. When you watch this in the fake news, you watch it and you say, "Oh, man." But the real numbers are we're substantially up. And also we're up in Nevada. We're worried about the governor, because he's a political... he headed the political club. That's some club in Nevada. They send out millions of ballots, you know. They found some in the garbage can with the name Trump on it, military ones. The name Trump was on it. I said, "What's that happening?" But we got to be careful with the ballots. We do have law enforcement watching in your state. You know that. We have law enforcement, because it's illegal to do bad things.

Donald Trump: [\(56:25\)](#)

Nevada GOP Chair Michael McDonald. Michael. Michael, it's good? Going good, right? That's really good. And we have somebody else who's been a friend of mine for a long time, respected by everybody, former Nevada Attorney General Adam Laxalt. Thanks, Adam. You are something. We're doing okay, right? You've got the cheating? You're watching the cheaters and all those people that send in the phony ballots, the triple... No, you had Virginia. They sent in 500,000 phony...

Donald Trump: [\(57:03\)](#)

You had Virginia. They sent in 500,000 phony applications. They had another one, thousands of ballots were printed. They had one problem. They forgot to put the name President Donald Trump on the ballot. That causes a little problem. History says you don't win too many of those. No, it's very, very dishonest what's happening, but hopefully the courts will protect us. They have to protect us. We had a big win actually yesterday in Wisconsin, you know that, where the United States Supreme court said, "I'm sorry, we have an election. You have to get it in. You have to get it in." Some of these people, in Nevada, they want to have the election. They want to have the count weeks after November 3rd. So let's all wait for the Governor to count them up good, and how many is he going to add during that two weeks, right?

Donald Trump: [\(57:50\)](#)

A man who I've known for a long time, he's an incredible guy, he's a tough guy, he's respected like you wouldn't believe, made a lot of money with something that he truly loves, UFC President Dana White. He's incredible. This guy, what a job he does. If there was ever a case for loving what you do, he sees these fighters, they want to rip you apart, and he goes up and he likes them a lot, right? They're your friends. Dana's fantastic, and he has done a fantastic job with some of the highest ratings on television. Dana White, UFC. I'm glad he likes me. And another friend of mine who was treated very, very poorly by big tech, but he's smarter than all of them, and he figured this out a long time ago. And he's got a very successful book that just came out. Charlie Kirk. Everybody knows Charlie. Great, Charlie. Thank you, Charlie.

Donald Trump: [\(58:55\)](#)

Under my leadership, we achieved the most secure border in U.S. history. We built almost 400 miles. I'll tell you what, the wall, they kept saying, the Democrats, "We don't need a wall. We need drones." Drones, all they wanted, they talked about drones, so that we can watch thousands of people pour into our border. Actually, we're all set. We have drones. We have such technology within this wall. We got exactly the wall that the Border Patrol wanted. I negotiated with them, but they didn't want to talk about it. They wanted steel. They wanted concrete inside the steel. They wanted rebar inside the concrete. We got everything. And they wanted wires all over the place to hook up the technology. And the Democrats said, "A wall is obsolete." I said, "The wall will never be obsolete."

Donald Trump: [\(59:43\)](#)

And you know the other thing that will never be obsolete, right? Walls and wheels, right? Everything else is obsolete about 15 minutes after it's developed. Joe Biden has pledged to have open borders. He even said maybe we'll take down the wall, one of the biggest projects in the history of our country. His plan would completely obliterate so many of the things that you want. He would do things that you would never have, that you would never accept. He will do things that are so far left that we're not going to talk about them today. He will do things that will destroy our country. This would trigger a tsunami of illegal immigration. They want to have free healthcare for all. Free education for all. Everybody gets a lawyer. That's just what we want, is a new lawyer. Everybody, everybody gets a lawyer.

Donald Trump: [\(01:00:44\)](#)

No, we can't have it. We can't have what he has. He's also pledged, and he pledges this strong, but the good news about him, he can pledge and about five hours later, he will have no idea what the hell he pledged. But Washington Democrats continue to attack our wonderful members of I.C.E. and the Border Patrol, more than half of whom are Hispanic Americans, and many of them are here today. And I'm very proud to receive the endorsement from some of the toughest people on earth. In fact, I think they could actually go to Dana and some of them could be nice, good fighters for Dana. National Ice Council, the union representing our incredible I.C.E. officers, and a man who has been a friend of mine for a long time, he's the Head Council President just got the endorsement, Chris Crane. Where is Chris? Where is Chris? Where is he? You're looking good dress, Chris.

Donald Trump: [\(01:01:45\)](#)

Could some of your people maybe fight in the UFC? I don't know. What do you think, Dana? Could his people from I.C.E.? They like to fight. I think they could. Dana wants to have them. Give them a try out. Thank you for all and thank you for your service, Chris. You do a fantastic job. And the Border Patrol, they do a fantastic job. These guys, Dana, they go into a nest and they start swinging. I don't want that job. You don't want it. Nobody up here wants it. They go up. And you know what? We have moved out, Chris, thousands and thousands of hardened criminals, horrible criminals, MS-13. We moved them the hell out of our country because of I.C.E., killers. As president, I have always said I will always stand, Chris, for the heroes of I.C.E. and for Border patrol. So say it to everybody, tell everybody hello. Give them a big hello from me. Incredible people.

Donald Trump: [\(01:02:41\)](#)

We invested \$2.5 trillion in the U.S. Military, including nearly \$1 billion to build the world's most advanced guided missile. You know where it's being built? Right here in Arizona. We also passed VA Choice and VA Accountability. We killed the leader of ISIS, al-Baghdadi, and we then took out the world's number one terrorist. Soleimani is dead. He's dead. I withdrew from the last administration's disastrous Iran Nuclear Deal. I recognize the capital of Israel and opened the American Embassy in Jerusalem. And I also recognized Israeli sovereignty over the Golan Heights. And instead of having these horrible, ridiculous, endless wars in the Middle East, we're making peace. You see what's going on? Everyone's getting together. There's no blood in the sand. And I was nominated for three Nobel Peace Prizes. For all different things, believe in or not.

Donald Trump: [\(01:04:11\)](#)

Kosovo, Serbia. We're doing trade deal with Kosovo, Serbia. They were killing each other for many, many years, for decades and decades, they're killing each other. Two countries, they're killing each other. I said, "So we're doing a deal with them, a deal with them. What are we doing? I'm not doing any deals unless they get together. They've got to get together. What do we want to have people kill each other for?" We made a deal with about 15 minutes, and they were in the Oval Office, hugging and kissing, and saying how much they love each other. And it's going to last, believe it or not. I really believe that will last. But it was just so natural. Here we are, they want to make trade with us more than we want it with them. They want to make a trade with us. Everybody wants the United States, especially now. So I said, "You know what? We'll make a deal, but you guys have to stop killing each other. Don't be crazy. It's nice. Get along." And they're getting along. They're getting along.

Donald Trump: [\(01:05:00\)](#)

A vote for Republicans is a vote for safe communities and a vote for the American dream. A vote for the American dream. And always remember, Abraham Lincoln, the great Abraham Lincoln, was a Republican. We have to bring that up, because most people don't know that. And I can be more presidential than any President that's ever, with the exception of perhaps Abraham Lincoln when he's wearing the hat. You know, that. When he's wearing the hat, he's very tough to beat. Over the next four years, we will make America into the manufacturing superpower of the world, and we will add our reliance on China once and for all. We'll make it right here in Arizona. We will expand opportunities zones, reduce your taxes, obliterate your regulations like we've done, nobody has ever done what we've done to regulations, and provide school choice to every parent in America. We will hire more police, increase penalties for assaults on law enforcement, and we will ban deadly sanctuary cities.

Donald Trump: [\(01:06:17\)](#)

We will defend religious liberty, free speech, the right to life, and the right to keep and bear arms. We will maintain America's unrivaled military might. Nobody has the equipment that we do. We are the envy of the world militarily. Nobody has done, and when I came the first week I was told by one of the world's most overrated generals, "Sir, we have no ammunition." Now we have so much ammunition, we don't know what the hell to do with it. All made in the U.S.A. And we will ensure peace through strength. Right? Do you like that?

Speaker 1: [\(01:07:11\)](#)

U.S.A.! U.S.A.! U.S.A.! U.S.A.! U.S.A.! U.S.A.! U.S.A.!

Donald Trump: [\(01:07:13\)](#)

Thank you. We will add surprise medical billing, require price transparency, lower drug prices. Look, we took drug prices, last year was the first year in 52 years where prices went down. I'm very proud of that. But it was just a little bit. They didn't go up, but they went down. First time. But now I've invoked Favored Nations. We pay more than any other nation in the world by far. The drug companies hate me. Big Pharma hates me. They are spending so much. And what I did is I made it Favored Nations. We're the most expensive by far in the world. We now go down to the least expensive, tied, with the least expensive in the world. It'll have a 50%, 60%, 70%, 80% reduction in drug prices. And I am not liked very much by those drug companies. So when you see those ads, one after another, they make Sleepy Joe look like peanuts compared to the drug companies. Nobody has more money. Nobody's more powerful in terms of lobby.

Donald Trump: [\(01:08:13\)](#)

But I had no choice. I had to do it. I have to do what's right. I don't care. I mean, I have to do what's right. We will protect your social security and your Medicare, which Joe Biden, you saw that, Joe Biden tried to obliterate. And we will always protect patients with pre-existing conditions. America will land the first woman on the moon and the United States will be the first nation to land an astronaut on Mars. Maybe we'll make that a woman too. Maybe we should make that a woman too. What do you think, Michael? He said, "Make it Nancy Pelosi." Who said that? That's pretty good. I have to admit. Who? Stand up, please. Look at this guy. That's pretty good. I didn't say that. I'm just repeating it. They say, "He incites trouble. He loves trouble." No, I don't. Thank you very much. That was very good. Are you a comedian professionally? Great.

Donald Trump: [\(01:09:31\)](#)

We will stop the radical indoctrination of our students and restore patriotic education, finally. It's already happening to our schools. We will teach our children to love our country, honor our history, and always respect our great American flag. Right? And we will live by the timeless words of our national motto, "In God we trust." They tried to take the word God out of the Pledge of Allegiance. You saw that. They did it once, they said, "Oh, they made a typo." Then they did it a second time, they said, "That's not a typo." And then they had the wrath of the American public against them and they put it back. But that's where they're coming from. For years, you had a President who apologized for America. Now you have a President who is standing up for America and standing up for the great people of Arizona and Nevada. And Nevada. I've got to have those people. They're great. They've been great. Thank you.

Speaker 1: [\(01:10:40\)](#)

We love you! We love you! We love you! We love you! We love you! We love you!

Donald Trump: [\(01:10:40\)](#)

Thank you.

Speaker 1: [\(01:10:40\)](#)

We love you! We love you! We love you! We love you! We love you!

Donald Trump: [\(01:10:57\)](#)

You have to stop. I'll start trying. They'll say, "The President was crying today. The President broke down into tears as they screamed, 'We love you!'" From Tombstone to Prescott, from Phoenix, it's lucky I have a good memory, because you can't see this sucker, it's lucky I have a memory. Would that be bad? You are so lucky people that I took you on this journey with me. I say that to all my people. I say it to all my people, "The press, absolutely, they're disgusting." I said to all my people, "You're so lucky, Charlie. You're so lucky. I took you on this journey." I say to all my people, "Where's Hope? Is she here? Hope? Where the hell is Hope? Does anyone know Hope? Look at Hope. They're so lucky. Look at that group of people. There's Jared, he's making peace in the Middle East. That's only cares about, is peace in the Middle East. Peace in the Middle East. He's a brilliant guy.

Donald Trump: [\(01:12:05\)](#)

I'll tell you, you don't get guys like that, but he's done a great job. And you have, Jared. You have done an incredible job. And he's done it the exact opposite of what they've been doing for 40 years. Great job. Mesa to Yuma and from Phoenix to right here in Bullhead. That sucker is moving so much I see Bullhead. I'm trying to go up. Is my head moving up and down like this? You did a great job of anchoring these things, fellas, a great job. You did a great job. All you have to do is put another two stripes on it, you'll be fine. But we inherit the legacy of American patriots who poured out their hearts, sweat, and soul to secure our liberty and to defend our freedom. This great state was settled by some of the toughest men and strongest women ever to walk on Earth.

Donald Trump: [\(01:13:06\)](#)

Arizona is where Wyatt Earp and Doc Holiday, how about that, became American legends. It's where the great American West became the American dream, and Arizona is the state where generations of pioneers and prospectors, miners, ranchers, cowboys, and cattle hands, marshals and lawmen tamed the frontier,

braved the blazing sun that I'm braving today. I'm just as brave as they are. I'm setting up here. I'll be like a lobster tomorrow, And showed the entire world how the West was won. They helped make America into the greatest nation in the history of the world. And the best is yet to come. Proud citizens like you helped build this country, and together we are taking back our country. We are taking it back. Don't ever let a bad thing happen on Tuesday. Don't let it happen. We can't Let it happen. Can't let it happen. We're so proud of our country, we can't let it happen.

Donald Trump: [\(01:14:17\)](#)

When that goes, when it goes, you look at Venezuela, this would be a massive version of Venezuela, and it can happen, because the ideology is the same. It can happen. Don't let it happen. We're returning power to you, the American people, and with your help, your devotion, and your drive, we are going to keep on working, we are going to keep on fighting, and we are going to keep on winning, winning, winning. We are one movement, one people, one family, and one glorious nation under God. And together with the incredible people of Arizona, and Nevada, and Nevada, we'll never forget Nevada, we're going to have a tremendous win, are we going to win in Nevada, please? We've got a lot of people here, a lot of people, a lot of people from Nevada too. We have made America powerful again, our military. We have made America wealthy again. We have made America strong again. We have made America proud again. We have made America safe again. And we will make America great again. Thank you very much. Go out and vote. Go out and vote. Thank you, everybody.

Donald Trump: [\(02:39\)](#)

Thank you. That's a lot of people. That's a lot of people. Look at that. That's incredible. I hope the fake news media is turning their cameras way, way back there. That's incredible. Hello, Omaha. And I have to also say, because a lot of people are here from Iowa. Hello, Iowa. Okay. Wait a minute. Who's from Iowa? Raise, go. Who's from Omaha?

Donald Trump: [\(03:08\)](#)

You know what? We're going to be in Iowa soon. We'll do that one separately. That's a big difference. Seven days from now, we're going to win Nebraska, and we're going to win four more years in the great White House. That's beautiful, beautiful White House. This is... Look at this. I can't believe this. 29,000 people can you believe it? 29,000.

Donald Trump: [\(03:37\)](#)

You know, we have to win both Nebraska's, you know that right? You have two, you're cut. We're going to win both. This election is a choice between the Trump super recovery, which is what we're having, or a Biden depression, sad to say. And some bad news just came out on Biden. But I won't tell you about that. You'll find that out tomorrow.

Donald Trump: [\(04:15\)](#)

Look at you. Man, that's something. Biden has pledged the biggest tax hike in the history of our country. First man, that I've ever seen campaign on the fact, "I'm going to raise your taxes." What's going on? I gave working families, record-setting tax cuts, and in my second term, I will cut middle class taxes, very substantially more. By the way, a lot of things are going on. You're seeing those poll numbers, they're going through the roof. I hate to tell.

Donald Trump: [\(04:54\)](#)

Where is the fake news? It's over there? Oh, that's a lot of cameras. No, it's going up. They're very concerned. They're very, very concerned. All over. Florida is looking great. Now, Nebraska we know is looking great. Okay? I mean, in theory, I didn't really have to be here, but it's nice to be with your friends. With your vote we will continue to bring back our jobs, support our police, defend our second amendment, which is under siege, secure our borders, maintain American energy independence, expand school choice, and ensure more products are proudly stamped with the phrase, that beautiful phrase, beautiful phrase, made in the USA, right?

Donald Trump: [\(05:50\)](#)

I will deliver record prosperity, epic job growth, and a safe vaccine that eradicates the virus and quickly ends the pandemic. We're making that final turn. They don't want to hear it. We're making that turn. You know that right? We're going to have the vaccine anyway with, or without it, we're making the turn. Normal life will fully resume. That's all we want. We want normal life, normal life, go back seven months, we'll take normal life, greatest economy we ever had. We want normal life and next year will be the greatest economic year in the history of our country. That's where we're heading. Super V. Joe Biden doesn't even respect you enough to campaign. He never came here, right? Did he come here? Oh. All right, so that's the end of that. I'll see you guys, I don't have... Moments ago, we learned about the other reason Joe Biden has been hiding in his basement, in a national television interview... Do you want me to tell you the rest? The Biden family's business partner revealed shocking, disturbing, and explosive information about Joe Biden's corrupt and illicit foreign business dealings while he was Vice President.

Donald Trump: [\(07:17\)](#)

The business partner made clear that Biden's denial of involvement in his son's corrupt business dealings was a blatant lie with proof. He stated with firsthand knowledge, that Vice President Biden was directly and personally involved in establishing corrupt business dealings with China and getting money for it. This all happened at the same time as Biden was letting China steal American jobs and plunder American wealth. You saw that for eight years. If Biden wins, China wins, and China will own the USA. If Biden wins he will do bad things. By the way, he's not a good guy. Just so you understand.

Donald Trump: [\(08:20\)](#)

Is there any place you would rather be than a Trump rally on about a 10 degree evening? 10 degrees. Yeah, it's cold out here, but that's okay. You know, we just left Wisconsin? It was cold. And we left Michigan, it was cold and raining. And I said, "I won't put on a hat because I'm going to show you how tough we are." That was a tough one. It was pouring. It was pouring and it was freezing. And it's the coldest right here. Right? It's a little later. It's an honor to be with you I have to say. When we win, you win, Nebraska wins, and all of America wins, and that's the way we want it.

Donald Trump: [\(09:10\)](#)

Joe Biden has spent the last 47 years, think of it, 47. 47 years outsourcing your jobs, opening your borders, and sacrificing American blood and treasure in endless foreign, ridiculous wars. Countries you've never even heard of. In 2016, Nebraska voted to fire this corrupt political establishment, and you elected an outsider as president who finally put America first. And if I don't sound like a typical Washington politician it's because I'm not a politician.

Donald Trump: [\(09:53\)](#)

If I don't always play by the rules of the Washington establishment, it's because I was elected to fight for you. And I fought harder for you than any president who's ever held this wonderful, beautiful office. That I can tell you. This election is a matter of economic survival for Omaha and for communities all across our country. Joe Biden's agenda, and I'm not sure it's only Biden's agenda, let's face it. It's not his agenda. It sounds nice, Biden's agenda. The guys shot. He's shot. He's so gonzo. You saw him yesterday, they took him away.

Donald Trump: [\(10:37\)](#)

I was in Pennsylvania with these tremendous, crowds like this, tremendous rallies; and he had the lid on, right? You know, the lid, like from a garbage can, they call it the lid. They saw what was happening, because I went to three of them. I did three of them yesterday in Pennsylvania. So he went from Delaware to the closest point where Pennsylvania hits Delaware, which was about five minutes away from his basement. He made a speech, just before that he called me George. He said, "George," I think he was talking about Georgia. His wife was sitting next to him and you could see she was not happy.

Donald Trump: [\(11:17\)](#)

But it's hard to correct him, the camera's on, but he called me George. Then he did the little speech and it wasn't good. They sort of just moved him out. They took him away, his own people, brush him off. They took them off stage. This is not what you can have. We have the greatest country in the world. We have more potential than any country in the world. We can't play games. We can't play games.

Donald Trump: [\(11:41\)](#)

So the Democrats, let's say the Democrats, the radical left Democrats, they have an extreme agenda. He's just a vehicle. He'll be there for about four weeks or so. Then you'll have Kamala, Kamala. That will not be the first woman president. You're going to have a woman president, maybe soon, maybe soon, but you're not going to have a Kamala. Can't be Kamala. She's further left by far than crazy Bernie. Bernie is like a conservative compared to her, but Biden's extreme agenda includes a radical vision to destroy suburbs across our nation. How are your suburbs doing? Don't ask. Are they good? They won't be good for longer, if they get it. And to completely dismantle law enforcement and cripple police departments nationwide, you know what's going on. You see it better than anybody. You don't have to take my word for it. Biden's plan to destroy suburbs and police just take a look, roll the tape. We do this view on this freezing cold night.

Speaker 2: [\(12:50\)](#)

The suburbs today are not the suburbs of half a century ago. The suburbs are far more diverse than the cities, but they're being targeted. Being targeted for what? Federalized, centralized government control by the left.

Speaker 3: [\(13:05\)](#)

Democrats want to abolish the suburbs. They are too clean and nice, and therefore by definition, they are racist. The Biden campaign has highly specific plans on how to do this. It's called Affirmatively Furthering Fair Housing. It's a HUD regulation. It was written during the Obama administration, Biden's advisors plan to enforce it. Towns will be ordered to abolish zoning for single family housing, because single family homes, needless to say are racist. Low-income federally subsidized apartments will go up in the suburbs.

Joe Biden: [\(13:36\)](#)

We'll also build 1.5 million new energy efficient homes and public housing units.

Speaker 2: [\(13:46\)](#)

Thankfully Trump repealed this rule back in July, but now the left is backing an even more radical plan. It was a bill put forward by Senator Cory Booker to push low-income housing developments into the suburbs. This would be a federal takeover of local zoning laws in essence.

Speaker 4: [\(14:03\)](#)

... federal takeover of local zoning laws in essence and Biden, he fully supports it.

Donald Trump: [\(14:10\)](#)

The prior administration piled up more than 600 major new regulations, a cruel and punishing regulatory burden that cost the average American an additional \$2,300 per year. Think of that. The average American, \$2,300, regulation, hitting low-income Americans by far the hardest. Our historic regulatory relief is providing the average American household an extra \$3,100 every single year.

Speaker 2: [\(14:44\)](#)

I've had the luxury of enjoying the benefit of the tax cuts. The tax cuts allowed me to grow my businesses.

Speaker 5: [\(14:50\)](#)

I believe that if you take into account the Trump tax cut, you take into account the drop in unemployment and particularly unemployment for African-Americans, the lowest it's ever been in history.

Speaker 6: [\(15:05\)](#)

How's the economy right now?

Speaker 7: [\(15:06\)](#)

We're loving it.

Speaker 8: [\(15:07\)](#)

Kennedy credits the Trump tax cuts and deregulation for her company's growth.

Speaker 9: [\(15:12\)](#)

It's the first time in 10 years that it's booming again.

Speaker 10: [\(15:15\)](#)

The tax cuts that were imposed did wonders for the middle class.

Donald Trump: [\(15:22\)](#)

I will cut taxes even further for hard working moms and dads. I will not raise taxes. I will cut them.

Speaker 11: [\(15:30\)](#)

First thing I do is going to repeal this Trump tax cut.

Crowd: [\(15:32\)](#)

Boo!

Speaker 12: [\(15:40\)](#)

Do you believe there is systemic racism in law enforcement?

Speaker 11: [\(15:44\)](#)

Absolutely.

Speaker 13: [\(15:44\)](#)

I've been a police officer for nearly 32 years. Joe Biden does not have the backs of police officers.

Speaker 14: [\(15:50\)](#)

Joe Biden staffers, they gave money to a fund to help bail out accused criminals.

Speaker 15: (15:56)

Joe Biden's silence is encouraging the rioters.

Speaker 16: (15:59)

Kamala Harris is working to help the instigators, the criminals get out of jail.

Speaker 17: (16:03)

If Joe Biden's elected, it just going to continue.

Speaker 18: (16:06)

Everyone beware because they're not going to stop.

Speaker 19: (16:11)

Only person who defended the police is Trump.

Speaker 20: (16:13)

I have had overwhelming support from police my whole career up until this year.

Speaker 21: (16:18)

We can reduce the responsibilities assigned to the police and redirect some of the funding for police. Can we agree that we can redirect some of the funding?

Speaker 11: (16:26)

Yes, absolutely.

Speaker 22: (16:27)

In Joe Biden's America, we'll all be in danger. If you support the police and you want to be safe in your home and you want your children safe, support Donald Trump.

Donald Trump: (16:39)

Thank you. Thank you very much. Well, that's pretty effective. You know what that costs to bring to you tonight?

Crowd: (16:51)

Four more years!

Donald Trump: (17:00)

Thank you.

Crowd: (17:01)

Four more years!

Donald Trump: (17:01)

Thank you.

Crowd: (17:01)

Four more years! Four more years!

Donald Trump: (17:01)

Thank you very much.

Crowd: (17:01)

Four more years!

Donald Trump: (17:01)

Thank you very much. Pretty effective, right? You see it. It saves me a lot of words. I can sit here, watch. I say, "See?" No, he's not the right guy. He's not the right guy. He's not right for this country. He's not the guy for this country. This election is a choice between the American dream, which is what we want and a socialist nightmare, which is where you would head if you ever did that, which I don't believe you'll do. It's a choice between a Trump boom and a Biden lockdown. He wants to lock it all down. No. We closed it up. We understand the disease. It's a terrible thing. Should never have been allowed to come here from China. Should never have been allowed.

Donald Trump: (17:44)

Joe Biden will delay the vaccine, postpone therapies, prolong the pandemic, shutter your schools, right? Shutter your schools, destroy your small businesses and shut down our country. We're not doing that. Look, we are setting records, 11.4 million people. It's all opened up. We understand it. And we are doing a job. We are literally setting records on employment. Look at housing, look at automobile production. Look at how you're doing in Nebraska. Look at how you're doing in Nebraska.

Donald Trump: (18:21)

Biden even wants to lock down young and healthy Americans yet for those under the age of 50, I hate to say this, under the age of 50. How many are under the age of 50? Pretty young. Well, I have good news for you. 99.99, okay, you know what that means? That means you're in good shape. That's what that means. But you notice the fake news now, right? All they talk about is COVID, COVID, COVID, COVID, COVID and we've made such progress. It's incredible. Excuse me. I'm here. Right? I'm here. Right?

Donald Trump: (19:07)

I mean, I wasn't exactly feeling great. It's been a long time. I wasn't exactly feeling great. Man, I met with great doctors. One thing when you're president, you got plenty of doctors. We have one of them here tonight, I think. Right? We have our great White House doctors traveling. Sean, he's become very famous. Where is Sean? He's become ... Oh, is that Sean. Look at Sean. Look at him. Wow. You know, he's got a big ego. He loves it when I mention his name. No, he's a great doctor. They were great doctors from Johns Hopkins and from Walter Reed and everything else. And what we know today is like so different than what we knew six months ago. Incredible.

Donald Trump: (19:52)

The progress they've made and with the vaccines, which are coming immediately, even without, we're turning that corner. You know, at some point we're turning that corner and it's been pretty amazing. Florida had a rough time. Boom, it stepped back. It's all the way down. Texas, all the way down. Arizona, great governors, all the way down. Biden's cruel and senseless lock downs would cause countless deaths from suicide, drug overdose and delayed medical care, alcohol. I've been so many, so many different problems. Remember, I'd say the cure can not be worse than the problem itself. That's what you have.

Donald Trump: (20:34)

When I banned traveled from China, remember he said now. He says, "Oh, we should have done it sooner." Except when I banned it. For two and a half months,

he said he shouldn't do that. He's xenophobic. Right? And now he says, "Oh, I should've done it earlier." And he had a thing called the swine flu. It was a disaster, much less lethal. It was a disaster. He was a disaster. He's still a disaster actually.

Donald Trump: [\(20:59\)](#)

If we listen to Joe, countless more people would have died. They were anticipating it could be 2.2 million. You don't hear that, 2.2 million. And you know the number. It's still one is too many as far as I'm concerned. One is too many. It shouldn't have happened. One is too many, but it could have been 2.2. It could have been more than that. Biden was willing to sacrifice your lives on the altar of open borders. He wants open borders. Without borders, you don't have a country. By the way, the wall is now over 400 miles long and we're building 10 miles a week and it's very soon going to be finished. So we have the strongest southern border we've ever had. And we want people to come into our country, but they have to come in legally and they have to come in through Marin.

Donald Trump: [\(21:54\)](#)

Biden has no plan, no idea, no clue. He has no clue. That's for sure. And he just wants to lock up and throw away the keys, letting rioters and looters run wild. And you know, it's interesting. They call them peaceful protestors. They burn down your cities. They do things that nobody's seen before all in radical left Democrat run cities and states, but cities, all of them, all of them. And every time we go in, we were going to go into Seattle. We let them know we're coming in. The night before we came in, they gave up, they left. They took over a piece of Seattle. That wasn't going to last.

Donald Trump: [\(22:34\)](#)

Minneapolis, the same thing. We went into Minneapolis. We went in, you know, we have to be asked in theory, by the state. We went into Minneapolis and it all ended. It took about, what do you think? 25 minutes or so. It was just boom, right down the street. Now, the Republican run cities are doing very well. The Republican run cities. And I hope you agree because I know he's here, but you have a very good Republican governor. You do know that, yeah? Whoa. Listen to that. Good. Good. Hi, Pete. Good. You know, I'm glad they did that. You know, I want to do the ... Otherwise, I just wouldn't introduce you later. You know, keep it quiet. They like you, Pete.

Donald Trump: [\(23:19\)](#)

The Biden plan will crush you and crush your family. My plan will crush the virus and you will see economic benefits like we've never seen in our country before. That's what we're having. When the China plague arrived, we moved heaven and earth to fight the disease. We airlifted medical supplies, pioneered groundbreaking therapies, reduced the fatality rate 85%. Think of that and saved over two million lives. Our excess mortality rate has been 42% less than Europe. You hear about Europe, 42% less, much better than Europe.

Donald Trump: [\(23:59\)](#)

I'm working to make the breakthrough treatment that I received. I did. I had this thing called Regeneron. I don't know. I'd like to say it had nothing to do. I'd like to say my immune system is just like Baron Trump. You know, first lady had it. I had it. Baron had it. They said, "Sir, Baron has tested positive." Like 12 minutes later, I said, "How's Baron doing?" "Oh, he's okay now, sir. He threw it away." He just took that, threw it away, you know? They're young and they have strong immune systems, but I'd like to say the treatment didn't do anything for me. Doctor, do you hear that? I just threw it away like Baron.

Donald Trump: [\(24:39\)](#)

But you know what? I wasn't going to take my chance. I said, "You have something, give it to me." And it was effective because I woke up the next morning after being with these doctors, they wanted to touch every single part of your body and I didn't like it. Twelve of them. Each one was a specialist, right? Every single one, but they were great. No, they were great. But I woke up the next morning and I tell you, I felt like, "Get me out of here. It was amazing." So, I really think this thing was great. It's great. I think it was great.

Donald Trump: [\(25:15\)](#)

And you know, I don't have the luxury of staying in a basement. I'm president of the United States. I don't. I can't be staying. I really can't. You can't stay. I had a lot of meetings. I meet a lot of people. As president, I have that obligation. So we have basements in the White House I could stay. We have beautiful bedrooms upstairs at the White House I could stay for a year and a half. I can't do that. I have to be working for you. And if something happens, it happens. And I get, you know, they came in, they said, "Sir, you've tested positive." I said, "Tested positive for what?" Then you go into one of the 27 different names, corona, this, this, this, China virus, the China plague, the China plague. That's what I tested positive for. But it was amazing. And it was actually an experience.

Donald Trump: [\(26:04\)](#)

And until I came along, you were supposed to have lifetime immunity. Right? I said, "Well, I'm recovered. I feel great. And I'm immune." I could jump right into this road. I could kiss every man and woman, every man and woman. But because it was me, the press said, "No, it's not for a lifetime. It's only for four months. Immunity is only now for four months." They brought it down, right? It was always going to be for a lifetime, now it's four months. So what are you going to do? What are you going to do? It's one of those things, but I guarantee you this. On November 4th, you won't be hearing as much about this. It's going to be ... right now, it's, COVID, COVID, COVID no matter what happens. COVID, COVID.

Donald Trump: [\(26:42\)](#)

And on November 4th, you'll probably try and find some information about it. No, we're rounding the turn. We're rounding that beautiful turn and it's going to be very good. The vaccines all going to make it go away a lot faster and they're going to be great. The greatest companies, the greatest companies of their kind in the world, they're doing it. Really good. Johnson & Johnson, Moderna, they really are great. Pfizer.

Donald Trump: [\(27:07\)](#)

Thanks to our relentless efforts, 97% of all current emergency room visits are for something other than the virus. Think of that, 97%. We're in great shape. And in the one areas, the Midwest, a little areas in the Midwest, certain areas that are heated up right now, they'll go down. They'll go down very quickly. There'll be down within two weeks they're figuring. They'll go down just like they did in Florida, Texas, Arizona and so many others. We're on track to deliver 100 million doses of a safe vaccine and a great vaccine. And that's all set. We're all set logistically. Our military is going to deliver it. It'll be done very quickly. We will vanquish the vaccine and we will get rid of this whole thing. We will get rid of this virus. It'll be very, you watch, it's going to happen very quickly and we're going to have our country back. And the whole world-

Donald Trump: [\(28:03\)](#)

... and we're going to have our country back and the whole world is going to be coming back. This was a terrible, terrible thing that happened, terrible thing that happened. Terrible thing that happened. Joe Biden has made a corrupt bargain, in exchange for his party's nomination he has handed control of his party over to the rage filled socialist, Marxists, and left wing extremists. And could we put another name in there? Starts with a C, communist, yes. No, we got a couple of them too, unfortunately. If Biden wins, the flag burning extremists on the streets will be running your government, it's not going to happen.

Donald Trump: [\(28:41\)](#)

By the way, just so you know, we are so far... You listen to the fakers back there, look at them. You listen to the fake news, we are so far ahead, this is going to be bigger than four years ago. By the way, get out and vote, that the only thing I'm standing here freezing, I ask you one little favor, get that hell out and vote. The great red wave. At least you're down there with each other, I'm all up here and that wind is blowing.

Donald Trump: [\(29:21\)](#)

This election day you must stop the anti-American radicals and, really, I mean, that's what they are, they're radicals. We can solve these problems so quickly if the governments would just say, "Would you please come in federal government?" We'd stop it in a matter of minutes, it goes so fast. The radical's delivering Joe Biden, you have to do this, you have to deliver them a message, the far left, a thundering defeat at the ballot box on November 3rd. It's got to be a big one, we've got to win big. And we're going to win big, I watching them and they're getting... Like three weeks ago, I don't know, they were doing these fake polls and they felt very good. And then a week ago they were feeling okay, they're not feeling so good right now. They're saying, "These are not good numbers."

Donald Trump: (30:09)

Was that one of the greatest evenings ever four years ago? And you know, the difference is, and I say this is easier, there's more... Look at this crowd, I mean, we had big crowds, we didn't have crowds like this. Look at this crowd 29,000. You have 29,000 people in Omaha, that's pretty good. And you're all on television. Say, "Hello." You're on national television. See all the red lights? That means the cameras are going, that means those cameras are going. 29,000 people, they say, 29,000. Yeah.

Donald Trump: (30:53)

You know who spoke today? President Barack Hussein Obama. He had 12 people in seven cars, did you hear the... No, he draws flies. I've never seen... He draws... He had no people, I thought he'd have some people. And he bought Bon Jovi along, you know what happened to Bon Jovi? They increased the crowd by 22 people, can you believe that? And then Joe spoke and that crowd left and we have 29,000 people here and we had a tremendous crowd in Michigan, had a tremendous crowd in Wisconsin. And they're trying to figure out like, if Trump is getting these crowds and if Biden's getting like 12 people, you know the circles, he fills in the circles, they got like five of them. And a lot of times they put reporters in there cause they have no people.

Donald Trump: (31:47)

But today he tried to blame that on COVID also. He said, "No, no, we don't seek large crowds," because of the virus, right? They don't want the large crowd. That's not the reason, okay? That's not the reason. It's a hell of an excuse, but it's not the reason.

Donald Trump: (32:05)

We're thrilled to be joined by the man we were just talking about, he's a friend of mine, he loves his state, he loves his country and he's a great governor, Pete Ricketts. Pete, Great job. Great job. What a good guy. What a good man. How's your state doing, Pete?

Gov. Pete Ricketts: (32:23)

It's wonderful, [inaudible 00:04:24].

Donald Trump: (32:24)

All right, good. How are we doing? By the way, we're going to be okay here, right?

Gov. Pete Ricketts: (32:27)

[inaudible 00:32:29].

Donald Trump: (32:29)

He says, "Good." Good, thank you very much, Pete. And his brother Todd, another one really good. Now there's only two people that are better, Joe and Marlene. Now Todd is great, but they will both admit Joe and Marlene are better, right? And you're here. Hi Joe. I like the hat, Hi Joe. You got to be proud of your boys, they're doing a great job, thank you very much. Thank you very much, great family.

Donald Trump: (32:53)

Here as well are Senators, Deb Fischer, who's fantastic. She is my favorite Senator from the State of Nebraska, by far, by far. She's fantastic. She is. I'll tell you what she calls me, it doesn't stop. Between her and Joni Ernst from Iowa, who I think is here, where's Joni? Joni. Joni. They call, "Sir, we need help with ethanol. Sir, we need help with corn. We need..." It's always... But you know what? That's what a great Senator, that's what a great Representative is supposed to do, right? Joni, thank you very much. And I heard you doing very well, I just saw some very nice numbers. And Deb, you don't have to worry about numbers, right? You don't have to worry about numbers. I'm with you all the time. Thank you both. And yeah, it looks very good in Iowa. Thank you very much. Good.

Donald Trump: (33:57)

Add Representatives, Jeff Fortenberry, a warrior, where's Jeff? Thank you, Jeff. Great guy. Don Bacon. Whoa, what's this? Wow. Wow. Well, I like him too, but I don't know if I like him that much. That's very good. I'll tell you, you better get me on Omaha, you understand that? Now I know, I wouldn't have asked him, but now I'm going to say, "Make sure we win this side too," right? Good. How are we doing Don, I hear good. Good, huh?

Rep. Don Bacon: (34:42)

We're doing [inaudible 00:34:42].

Donald Trump: (34:43)

Good. I'm very impressed, that's about as good as I've heard in a long time. And Adrian Smith. Adrian, great job. Great job. Great to have you here. It's a great group of people and these are warriors, they fought with me a lot. They fought with me, we keep winning over there, but it's not easy, right? But it gets easier and easier all the time. Thank you very much, I appreciate it.

Donald Trump: (35:12)

For decades, our politicians spent trillions and trillions of dollars rebuilding foreign nations, fighting foreign Wars, and defending foreign borders, but now we are finally protecting our nation, rebuilding our cities and we are bringing our jobs, our factories, and our troops back home to the USA. Our troops are coming home. Thank you. No, our troops are coming back home, that's enough. 19 years in Afghanistan and we have it worked in they're coming home and it's a great thing. And they're home from Syria, they're home, I left some because we kept the oil, if you don't mind, there was some oil and we captured it, we kept it. And coming home from Iraq. It's enough, it's enough, we want to have them all home. We have a lot of other countries too, we were in many, many, many countries, most of which you've never even heard of, right? You never even heard of, it's ridiculous. And, by the way, making our military stronger by far than ever before. I ended the NAFTA nightmare and proudly signed the brand new USMCA, which is turning out to be phenomenal, it's a great deal. It's a great deal, just kicked in now. And you know what? Companies will not be leaving Nebraska and Iowa and all of our places, there is a very big disincentive for them to do that.

Donald Trump: (36:50)

When China targeted our farmers, I delivered \$28 billion to our incredible farmers here in Nebraska, and Iowa, and all across the country. Don't forget to tell the people of Iowa that, please. \$28 billion, I said to the Secretary, Sonny Perdue, of Agriculture. Sonny is great. I said, "Sonny, how much were the farmers targeted?" And he said, "\$12 billion, sir and \$16 billion," two years, 12 and 16. I said, "28, good." So I tariffed \$28 billion, took it from China and distributed it to our farmers, nobody else is going to do that.

Donald Trump: (37:32)

In fact, some people say our farmers do better now than they did when they actually had to farm. But we did, we had the biggest order of corn two weeks ago in the history of our country, the biggest order of soybeans, and the biggest beef order, right? Two weeks ago. Joe Biden's running mate, the most liberal member of the US Senate, you know who that is, sponsors the insane Green New Deal, \$100 trillion, you too can have no windows in your buildings. Which would wipe out the ethanol industry, Joni, it would totally wipe out that industry. We worked hard on that industry and then now in good shape. Devastating Nebraska and devastating Iowa, as president I will always defend ethanol, okay? All right? Does Nebraska like ethanol too, by the way? Okay good, I need that little assurance. I need that little bit of assurance.

Donald Trump: (38:40)

Under my leadership, we achieved the most secure border in us history, our Southern border, largely because of the wall. My opponent's insane immigration plan would completely eliminate US borders. Open borders they want to have, let's have open borders so everyone can just pour it like they used to. He would make every community into a sanctuary city for violent criminals. So we invested \$2.5 trillion, a lot of it right here from this state and from Joni, from Iowa, \$2.5 trillion, new equipment, our military is in the best shape it's ever been in, we have the greatest equipment anywhere in the world. We are the envy of every other country: Russia, China, North Korea. We have the best missiles, and rockets, and tanks, and planes, and fighter jets, F-35s, submarines, and our nuclear weapons are now renovated and/or new and fixed, and we only hope to God we never have to use them. Hope to God.

Donald Trump: [\(39:51\)](#)

Our military was very much in bad shape. It was depleted. It was depleted. It was exhausted, it was ridiculous. We killed the leader of ISIS, al-Baghdadi, they were looking for him for a long time. And we took out the world's top terrorist, Soleimani is dead. I withdrew from the last administration's disastrous and ridiculous Iran Nuclear Deal, \$150 billion we paid, for nothing. And \$1.8 billion in cash, I'm more impressed with that. What do you think, pop? I think I'm more impressed, \$ 150 billion or \$1.8 billion in cash, I think I'm more impressed with the cash. You ever hear everything like that? That's what we gave to Iran for nothing, we got nothing.

Donald Trump: [\(40:40\)](#)

I recognized the true capital of Israel and opened the American Embassy in Jerusalem. And I also recognized Israeli sovereignty over the Golan Heights, think on that. They kept that they worked on that for 52 years, I got it done in two hours. And instead of never ending Wars in the Middle East, you see what's happening, already three countries, we have five lined up and we're going to have another, it's going to be... it's an easy one, it's a lot easier than you would think. They worked on this for 35 years, they had the wrong people, they had the wrong concepts.

Donald Trump: [\(41:21\)](#)

But I got nominated for three Nobel Peace Prizes, can you believe it? Can you believe it? And for all different regions, like Kosovo and Serbia were doing deals, trade deals, just normally we're doing trade deals, I said, "Wait a minute, aren't they always fighting each other?"

Donald Trump: [\(41:40\)](#)

"Yeah."

Donald Trump: [\(41:40\)](#)

"Aren't they always killing each other?"

Donald Trump: [\(41:42\)](#)

"Yeah, for many decades, sir, how did you know?" I said, "I know, they're killing... They fight each other all the time. Tell him we're not going to do any business with them. They want our business, right? And we're not going to do any business unless we make a deal where they stop killing each other." And you know what? It took about 20 minutes. They've been fighting for 40 years, I think they'd been fighting for 400 years, you want to know the truth, but-

Donald Trump: [\(42:03\)](#)

I think they've been fighting for 400 years, you want to know the truth, but they've been fighting for a long time. They want to make a deal. All of a sudden, two months ago, they're in the Oval Office hugging and kissing and [inaudible 00:00:14]. That was easy, Joe. Right? That was easy. It just makes sense. I just said, "Hey, why don't we get them together? I mean, we're going to do these two deals. Tell them to stop fighting, and we save a lot of lives. That's a good thing." But we're forging peace in the Middle East without blood all over the sand, and we're not spending money. You're doing it either... Something very nice is we're pulling out.

Donald Trump: [\(42:36\)](#)

A vote for Republicans is a vote for the American dream. It's a vote for acknowledgement that Abraham Lincoln was a Republican. Is that nice? People don't know that. A lot of people don't know that. So in conclusion, over the next four years, we will make America into the manufacturing superpower of the world, and we will end our reliance on China. And that's already begun, largely already begun. We will hire more police, increased penalties for assaults on law enforcement, and we will ban deadly sanctuary cities. We will defend religious liberty, free speech, the right to life, and the right to keep and bear arms.

Donald Trump: [\(43:27\)](#)

We will maintain America's unrivaled military might, and we will ensure peace through strength. And that's what we have now, with what we have. We will end surprise medical billing, require price transparency. That's bigger than healthcare. You watch. Already signed, kicks in on January 1st. Lower drug prices even more. We signed favored nations. That means we're going to get the lowest price anywhere in the world. Right now, we're by far the highest. And we will always protect patients with pre-existing conditions. America will land the first woman on the moon, and the United States will be the first nation to land an astronaut on Mars. And NASA is the number one space center anywhere in the world again. It was a mess three and a half years ago. We will stop the radical indoctrination of our students, and restore patriotic education to our school.

Donald Trump: [\(44:35\)](#)

We will teach our children to love our country, honor our history, and always respect our great American flag. And we will live by the timeless words of our national motto, "In God We Trust." For years, you had a president who apologized to America. Now you have a president who is standing up for America, and standing up for the great people of Nebraska and Iowa. So get your friends, get your family, get your neighbors, and get your coworkers. Get your boss and say, "Boss, get out of here, boss. Get out and vote. You got to vote." The red wave is coming. The great red wave. Now we're doing very well. Those early ballots...

Donald Trump: [\(45:38\)](#)

You know the whole ballot hoax. You see what's going on. There's so many bad things happening, but we're doing very well. You know, we're supposed to be a little behind, and they were a little bit above. But that wave comes, and now we go to the front of everything. I think we're going to win everything. We didn't come this far and fight this hard to surrender our country back to the corrupt Washington swamp. So on November 3rd, we must finish the job that we started. We have done a job like nobody. There has been no administration, nobody, and it's us all together. There has been... No administration has done in the first three and a half years what this administration has done. Not even close. Not even close. Not even close.

Donald Trump: [\(46:34\)](#)

From Norfolk to Hastings, from Grand Island to Lincoln, and from Scottsbluff to right here in Omaha, we inherit the legacy of Nebraska patriots who gave their blood, sweat, and tears for this beloved nation. We stand on the shoulders of American heroes who crossed the ocean, settled the continent, tamed the wilderness, laid down the railroads, raised up the great skyscrapers, won two World Wars, defeated fascism and communism, and made America the single greatest nation in the history of the world. And the best is yet to come. Proud citizens like you helped build this country, and together, we are taking back our country. We are returning power to you, the American people. With your help, your devotion and your drive, we are going to keep on working. We're going to keep on fighting, and we're going to keep on winning, winning, winning. We are one movement, one people, one family, and one glorious nation under God, and together with the incredible people of Nebraska and Iowa, we have made America powerful again. We have made America wealthy again. We have made America strong again. We have made America proud again. We have made America safe again, and we will make America great again. Thank you Nebraska. Thank you Iowa. Thank you both. Thank you. Get out and vote.

Donald Trump: [\(02:01\)](#)

Wow. That's so great. I want to start off by saying a very big hello, Wisconsin. It's great to be with you. And I'll also say this. I have never spoken where I had so many people behind me. I have a whole stadium behind. I want to just thank everybody. This is a great turnout. They wanted a bigger space. They got a bigger space. Because seven days from now, we are going to win this state and we are going to four more incredible years in the White House. Thank you. This election is a choice between a Trump super recovery or a Biden depression. That's what you're going to have with the raise of taxes, the biggest tax increase in our history. It's ridiculous. It's a choice between a Trump boom or a Biden lockdown. Let's lock it all down. And by the way, speaking of lockdowns, let's get your governor to open it up. Let's get him to open it up.

Donald Trump: [\(03:12\)](#)

It's a choice between our plan to cut your taxes or even, and I have to tell you, we've given you the biggest tax cut in the history of our country. You know that, biggest regulation cut in the history of our country. And sleepy Joe Biden, his plan is to raise your taxes at a level that our country has never raised taxes before. Somehow that doesn't work too well. Do you agree? I don't think so. I don't think so. I've never heard of it before, but that's okay. You can't hear of everything, right? All my life I've watched people want to cut taxes. Here's a guy, he's running on a basis of let's raise everybody's taxes.

Donald Trump: [\(03:55\)](#)

Next week, Wisconsin is going to answer the call of history once again. We had a great victory here. Didn't we have a great? Remember that four years ago? They said, "Donald Trump has won the state of Wisconsin." It's been a long time since a Republican did that, but we're actually much higher now than we were then. We have a campaign that's actually more enthusiastic. And that was, I would say, that had to be number one in history four years ago. But you know what? This is going to be the most important election in the history of our country. Because you see what's happening, the radical lefts, and you're going to defeat Biden and dark money donors and corrupt special interests. One of the most important issues in this election is law and order. We say it. Law and order.

Donald Trump: [\(04:48\)](#)

Joe Biden is party incite violence and hatred against our police officers. And we're not doing that. No, we're not doing that. Remember the debate, the first debate. Which one did you like better, the first one or the second one? He says, "Both." That's a fan. He said, "My man is there." Yeah. Did anybody see the last one? Anybody watching? Seems to have had a very big impact. We learned a lot about him. Number one, he's against oil, gas, probably likes wind, but wind is very intermittent. Let's watch the President tonight on television. I'm sorry, darling, the wind's not blowing.

Donald Trump: [\(05:31\)](#)

Last night, Philadelphia was torn up by Biden supporting radicals. 30 police officers, Philadelphia police officers, great people, they were injured, some badly. Biden stands with the riders and I stand with the heroes of law enforcement. And you know what? They can do their job very easily. Just let them do their job. The Biden Harris plan would end cash bail. You know, they want to have cash bail so everyone just walks around. No matter what they do, ends cash bail, free 400,000 dangerous criminals. It would slash police budgets all over the country. It would tie the hands of every police officer in the country and they would appoint anti-police prosecutors in every community in America. I don't think that's for Wisconsin. We know each other well.

Donald Trump: [\(06:24\)](#)

Biden is soft and weak and too scared to be President. He doesn't want to be President. Let's face it. You know, you got his bad body language there. This man knows body language better than any man I know. That's a lot of bad body language from Joe. You know, he got out yesterday. You saw that? Because we're making speeches all over Pennsylvania. He got out and he got out of Delaware and he said, "What's the closest point to Pennsylvania?" And it was just a few minutes from his basement. And he went and made a speech. And that was a mistake because they had to take him off the stage because he didn't know where the hell he was. Right? That didn't work out too well. No, because he had a lid, you know, like a garbage can. You put it in the can. It's a lid. It's called a lid. But he doesn't want to be President. One thing about this job, you got to want it. You got to want it. This is tough. This is tough. And doing this, I don't usually say it, but I say it, doing this...

Audience: [\(07:35\)](#)

Four more years! Four more years!

Donald Trump: [\(07:48\)](#)

And unlike Biden, who's made a fortune in politics, what a fortune. The press is not allowed to write about that though. But Biden made a fortune. You know what? This is costing me billions of dollars. And you know, I could not be happier because we have done things that nobody else could have done in the first three and a half years. There's been no administration that's done what we've done in the first three and a half years with our military, with our vets, with regulations, with cutting taxes. Biden's running mate, the most liberal member in the U.S. Senate. She makes Bernie Sanders look like he's a conservative. Even urge their supporters to donate to a fund to bail out writers in Minneapolis, where they had such problems until the National Guard went in and they stopped it. Would you say that was about, what, 22 minutes? It was all over.

Donald Trump: [\(08:44\)](#)

Including an attempted cop killer, they wanted to bail him out. The policies will set cop killers free. We believe if you murder a police officer, you should get the death penalty. And I know you're a state that believes. You murder a police officer. You saw a month ago. The two young officers sitting in a car and the guy comes up. No, you do that stuff and you can't get away with it. When the violent mob came to Kenosha, you know, Kenosha? Everybody know Kenosha? Biden opposed sending in the National Guard. We sent in the National Guard and we saved Kenosha. We save Kenosha. Kenosha wouldn't be standing. And I got a lot

of credit. Thank you to the sheriff and so many others for their support. They've actually come out and supported me. Thank you very much. Where's the sheriff? Is he around here some place? What a hell of a sheriff. Thank you very much. That's great. I appreciate it, too. That's the first time you ever did it. I appreciate it. Thank you very much. Fantastic. Good man. Good man.

Donald Trump: [\(09:54\)](#)

It took generations to build the America that we know and love. But if the radical left gain power, it would take them only a matter of months to burn it down, tear it down or destroy it. I'm the only one standing between you and the left wing mob. I hate to tell you. There aren't too many of us, but we're standing, and your second amendment and many other things, right?

Donald Trump: [\(10:19\)](#)

Biden has not only declared war on police. I mean, you know, it really is. My father taught me a long time. Don't use the word cops because the word cops, that's a little slang. Always call them police. So I never used it. You know, I see cops, but sometimes it's not bad. Sheriff, let me ask you. Cops or police or doesn't it matter? If it's done with the heart, who cares, right? Right? If it's done with a heart. So like I said, he declared war on the cops, and it's not working out too well.

Donald Trump: [\(10:50\)](#)

You're going to see something. You're going to see a giant red wave on Tuesday. You're going to see a red wave like they've never seen before. And they saw a very big one. I'll tell you what, they got a glimpse on four years ago. And remember they said, "Where did these people come from? Where did they come from?" They're great Americans. They don't want anything. They just want that level playing field. And they came out and they voted. And this is going to be bigger. This is going to be bigger. And they know it. They know it. They know it. They don't like to report it. They see what's happening. They see what's happening, Mike. Don't they? They get it. It's going to be very big and it's going to be beautiful.

Donald Trump: [\(11:33\)](#)

And it doesn't have to start on Tuesday. It could start earlier, early voting. You want to be there. You know these ballots. You see? Was I right about the ballots? It's messed up like you wouldn't believe. Now they say, "We'd like to get the ballots and maybe get them within a few days of the election. And we'll take 10 days to count them up." Oh good. Let's let the whole world wait while you count your ballots. And you know what happens while they're counting them? They're dumping more ballots in there. Okay? Where did they come from? No. We had a great ruling right here. We had a great ruling. Right? Got that yesterday. Supreme Court said, "Nope, that's your date. That's the [inaudible 00:00:12:14]. November 3rd. That's your date." Right?

Donald Trump: [\(12:18\)](#)

But sleepy Joe declared war on American workers and Biden spent the last 47 years outsourcing your jobs. You got hit hard. Opening your borders, you don't have borders, you don't have a country. And sacrificing American blood and treasure and endless foreign, ridiculous wars. Countries, most of you, including even most of the people, they never even heard of these countries. We're bringing them all back home. You know that, right? They're all coming back home. Afghanistan, Iraq, keeping some in Syria. If you don't mind, we're keeping the oil. You know, they should have done that with Iraq. Remember I said, "Don't go into Iraq. But if you go in, at least keep the oil." We didn't keep the oil.

Donald Trump: [\(13:03\)](#)

Biden was a cheerleader for NAFTA, China's entry into the world trade organization. He repeatedly tried to slash Medicare and social security. He's a shill in a sense for foreign countries. You got to take a look at this guy's record. Of course, right now he has no idea where he is, so that's an entirely different problem. That's a very big, different problem. Look, we have to say it like it is. Hey, we have the greatest country in the world and we have potential like no country has, and we can't play games. We can't play games. We can't. And besides that, he's not a nice guy. Okay? Just so you know, he was never a nice guy. So I feel better. If he was a nice guy, I wouldn't say it.

Audience: [\(13:47\)](#)

USA! USA! USA!

Donald Trump: [\(13:56\)](#)

Thank you very much. Thank you. Decade after decade, Biden twisted his knife into the back of Wisconsin workers, but workers throughout the United States, you don't have to take my word for it, for a special group of people, the people of Wisconsin. I spent a lot of money on this crazy video. Look at this. And you're going to see it. I hope that people back here can see it. Can you see it too? I hope. Oh, that's terrible. All right. You'll take my word for it. Go ahead. Play.

Speaker 2: [\(14:33\)](#)

My problem is I voted for NAFTA. I'm supporting NAFTA because I think it is a positive thing to do. And I do not pretend to be an expert on international trade matters.

Speaker 3: [\(14:44\)](#)

Trade agreements, like NAFTA and permanent normal trade relations with China, which forced American workers to compete against people who are making pennies, and [inaudible 00:14:53] has resulted in the loss of 160,000 jobs.

Speaker 4: [\(14:57\)](#)

The President is absolutely right when he says that China has been cheating for 25 years and that Bill Clinton doing didn't do enough about-

Speaker 5: [\(15:03\)](#)

That China has been cheating for 25 years, and that Bill Clinton didn't do enough about it, George W. Bush didn't do enough about it, Barack Obama didn't do enough about it.

Joe Biden: [\(15:06\)](#)

A rising China is an incredibly positive development for not only China, but the United States and the rest of the world. A rising in China is a positive, positive development. It is in our self-interest that China continue to prosper. We want to see China rise. China's a great nation and we should hope for the continued expansion. China is not our enemy. We talk about China as our competitor, we should be helping. The idea that China is going to eat our lunch is bizarre. The idea that they are our competition, they're going to beat us is bizarre. They're not bad folks, folks. China's not problem.

Speaker 5: [\(15:50\)](#)

Allowing China into the World Trade Organization, which you supported, extending most favored nation status to China, which you supported, that those steps allow China to take advantage of the United States by using our own open trade deals against us. Do you think in retrospect that you were naive about China?

Joe Biden: [\(16:12\)](#)

No.

Speaker 6: [\(16:13\)](#)

But doesn't he deserve some credit for that? It's better. The USMCA is better than NAFTA.

Joe Biden: [\(16:18\)](#)

It is better than NAFTA. I never said I oppose fracking.

Donald Trump: (16:26)

You said it on tape.

Joe Biden: (16:27)

I didn't. Show the tape. Put it on your website.

Donald Trump: (16:30)

I'll put it on.

Joe Biden: (16:31)

Put it on the website.

Kristen Welker: (16:32)

Would there be any place for fossil fuels, including coal and fracking in a Biden administration?

Joe Biden: (16:39)

No, we would work it out. We would make sure it's eliminated. I guarantee you we're going to end fossil fuel. No more, no new fracking. I'd gradually move away from fracking.

Kamala Harris: (16:52)

And I think it's critically important on day one that we end any fossil fuel leases on public lands.

Speaker 7: (17:00)

What about safe stopping and fracking, and stopping pipeline infrastructure and-

Joe Biden: (17:03)

Yes, yes, no pipelining. Exactly.

Kamala Harris: (17:06)

There's no question I'm in favor of banning fracking.

Kristen Welker: (17:09)

I have one final question-

Donald Trump: (17:12)

Would he close down the oil industry? Would you close down the oil industry?

Joe Biden: (17:14)

I would transition from the oil industry, yes. I would transition.

Donald Trump: (17:20)

Oh, that's a big statement. That is a big statement in terms of business, that's the biggest statement because basically what he's saying is he is going to destroy the oil industry. Will you remember that Texas? We remember that Pennsylvania, Oklahoma.

Kristen Welker: (17:30)

Vice president.

Speaker 8: (17:37)

Now to be fair, maybe Biden's not telling us because he's forgotten his own plans. Watch Biden's staff quickly swoop in to shuffle him along during a quickie escape the basement trip to Pennsylvania.

Joe Biden: (17:54)

Here's the deal. One of the things that is important is that keep in mind, although they're going to vote on I think today.

Speaker 8: (18:12)

That was terrifying.

Joe Biden: (18:13)

What kind of country are we going to be? Four more years of George, we're going to find ourselves in a position where if Trump gets elected, we're going to be in a different world.

Donald Trump: (18:30)

That was yesterday. That was all yesterday. So that took place yesterday. Every day we could put up another treat. The whole thing is ridiculous. The whole thing. Until the plague came in from China, I didn't even have a race. And then it came in and we did a great job. We saved millions of lives. two million lives, 2.2 million it was supposed to be. And this guy, "Oh, don't ban it." He's xenophobic, right? Don't ban China. Don't China. And this is in January or very early on, very, very early. Everybody said don't ban. I'm not blaming anybody, but they all said don't ban.

Donald Trump: (19:10)

I said it's a heavily infected country. It's starting from there. I banned China. Then I banned Europe with all of the problems they were having with Spain and Italy and France and everybody. And I banned Europe and two and a half months later, he was saying, don't ban and then he runs for president. He lucks out because Pocahontas decided to stay in. So she took a lot of votes away from Bernie. Not too many. She didn't do too well, but she took enough away that he ends up winning on Super Tuesday. Right?

Donald Trump: (19:43)

And all of a sudden I got this guy running and he starts complaining that I should have moved faster, but he was two and a half months behind. And I said that's going to be hard to explain, but I have to explain it to people. One thing nice is when you put this thing up here, saves you a lot of words, right? It saves you a lot of words. And then the other thing, remember for a year, "We will not frack." Now it affects you because of your energy costs and all of the things that affects everybody.

Donald Trump: (20:11)

We're right now energy independence. It's a great thing. First time. Can you imagine Texas, Pennsylvania, the different places, Ohio, so many places, so many places, North Dakota? Can you imagine? Take Texas. I mean, he's against oil, he's against guns and he's against religion. Right? Other than that, he's wonderful. He's just perfect. And then they say, "It's a very close race in Texas." I don't think so. You're against oil, guns and God. You don't have a close race in Texas. I don't think so.

Donald Trump: (20:55)

But they said the same thing years ago that, "Texas is too close to call. It's going to be a very, very tough race for Donald Trump." Then it was Donald, right? Now they call me president out of respect I'm sure for the office. "It will be a very, very, very tough race. I mean, the polls have closed in Texas. Donald Trump

has won the state of Texas.” It was like all in one thing. They don’t do that unless you have a landslide. Now they do the same thing again. Well, this time, at least they say I have a little lead. How can you have a little lead when I’m the oil person Louie needed to fire up your factories?

Donald Trump: [\(21:37\)](#)

They don’t even know how to do it. They have AOC plus three. They say, “Okay, we’ll get rid of all fossil fuels.” We have a problem in Wisconsin. We’re doing very well. We have a lot of factories. We have a lot of plants. How are we going to fire them up? She has no clue. She has no clue. I don’t even think she studied it. Maybe in high school she studied it, but probably not in college. Did she go to college? Tell me. Did she? Because I don’t know. I don’t know her background, but it is not heavy into the environment.

Donald Trump: [\(22:08\)](#)

All of a sudden she comes up with the Green New Deal and these people all did because they have to because the radical left wants them. The Green New Deal will cost \$100 trillion. If we have a hundred perfect years, the greatest years of the history of our country, we can’t make it with a 100 trillion spent on the Green New Deal. In 2016, Wisconsin voted to fire this corrupt political establishment and you elected an outsider’s president who is finally putting America first. And if I don’t sound like a typical Washington politician, it’s because I’m not a politician. It’s one of the reasons I was elected if I was a politician I probably wouldn’t have been elected, right?

Donald Trump: [\(23:04\)](#)

If I don’t always play by the rules of Washington and the Washington establishment, it’s because I was elected to fight for you. And I’m fighting for you harder than any president has ever fought for you. Together, we’ll continue to fight for American workers, support our police, defend our second amendment, which is under siege, but don’t worry about it. Don’t worry about it. It’s fine. But it is under siege. Secure our borders. And you know the wall is up to over 400 miles right now. We have a very secure border. Over four. We’re going to have it finished very soon.

Donald Trump: [\(23:46\)](#)

They don’t talk about it anymore. You know they used to go, “He will never get it built.” Because that was like you couldn’t. The Democrat party was so against it, they said it was obsolete. Used drones so we can watch everybody pour into the border. Right? Let’s send a drone up there, right? Walls and wheels, right? Walls and wheels never get obsolete. That’s about the only two things I know of that don’t get obsolete. Everything else is obsolete about 15 minutes after you figure it out.

Donald Trump: [\(24:12\)](#)

And ensure more products are proudly stamped with that wonderful, beautiful phrase made in the USA, right? We will deliver record prosperity, epic job growth at a safe vaccine that eradicates the virus and quickly ends this pandemic. And you know with the fake news, everything is COVID, COVID, COVID, COVID. I had it. Here I am, right? Now. I had it. The First Lady had it Barron had it, but Barron had it for about 12 seconds. Young, young immune system, young.

Donald Trump: [\(24:51\)](#)

No, it’s COVID. You turn on the news, COVID, COVID. You know when they’re going to stop talking about it so much? November 4th year. You’re right. November 4th. I know. It’s a whole crazy thing. I mean, it’s too complicated to explain. These people are very corrupt, very dishonest, but they’ve got a lot of problems. On November 4th, you’ll hear we’re doing extremely well and you’ll see. You’ll see. They used to always say that Europe, look at Europe, look at Europe. Well, first of all, they count their cases totally differently, but look at Europe. Well, they have a big spike and you know what? It’s going to go down and we had a spike in Miami.

Donald Trump: [\(25:31\)](#)

We had a spike in Texas, Arizona. It’s all way down to very low numbers, but I’ll tell you all they want to talk about is COVID. But the good news on the fourth, they’ll stop talking. You watch. They’ll stop talking. You get out that red wave, just get out. We have to win this election. This is the most important election we’ve ever had. We can’t let this radical left socialist group take over. And I’ve been saying it now for a long time, because I see it. There’s this inclination by a group of people, our country will never be a socialist nation. We will never become a socialist nation.

Donald Trump: [\(26:15\)](#)

Normal life will fully resume. That’s all we want is normal life. Seven months ago, right? We had the greatest economy in the history of our country. Everybody was doing well. Best numbers we’ve ever had. And next year will be the greatest economic year in the history of our country. You see what’s happening. You see how it’s being built up. And by the way, I’d love to do stimulus, but Crazy Nancy doesn’t want to do it. She wants to get bailout money for her Democrat run states that are high crime and doing badly.

Donald Trump: [\(26:49\)](#)

And I spoke for Wisconsin when I said, “No, thank you, Nancy. Have a good time.” We’ll get big stimulus right after the election’s over. Hopefully we can take back the House too. It’ll be nice. Get rid of her. Get rid of her as speaker. We’ll get Kevin there and Kevin would be good. You know who Kevin is? Kevin McCarthy. If Biden and the Democrat socialists are elected, you know what’s going on with your regulations? I’ve got your regulations down to a level, but we can go further. We have statutory requirements. We’re going further.

Donald Trump: [\(27:26\)](#)

They’ll bury really your family and yourself and regulations, terminate religious liberty, dissolve our borders, indoctrinate our children with that really bad stuff that they want to teach in schools, which we’ve largely ended. But it can be started again and destroy the suburbs beyond repair. Suburban women, you’re going to love me. You better love me. Did you see 60 minutes the other night? I always joke. I say “Suburban women, I’m getting rid of the regulation.” You know there’s a regulation that essentially destroyed the suburbs. Okay? It would have.

Donald Trump: [\(28:04\)](#)

You know who is in charge of it, who would have been? Cory Booker. Good luck, Cory. He’s another beauty. We deal with some real beauties, but we had a regulation where they can build low-income housing and projects in a neighborhood near you. Right in the neighborhood near you in the suburbs. Right? So the fake news was saying, “We think that Donald Trump is having problems with suburban women.” I said, “Why? Because I’m going to stop crime from going to the suburbs?” Because you know Antifa and the anarchists, they view the suburbs is next. That’s what they would like. Right? So the suburban woman wants law and order, they want safety and they don’t want a regulation that’s going to destroy the suburbs.

Donald Trump: [\(28:49\)](#)

And then I listened to these people talk about how so four years ago they talked about the same thing. They said, “Women will not be voting for Donald Trump.” And then after about four hours and they declared total victory for Trump, they said, “He cannot get to 270. He cannot.” This was in the afternoon and for about six months before that, by the way. Didn’t just start. “Donald Trump cannot get.” You need 270, right? “Cannot get to 270. He cannot get.” And they were right. We got 306.

Donald Trump: [\(29:24\)](#)

Well, we picked up a place called Wisconsin that helped a little bit. That wasn’t high on the list of victories. Now it is, but we just know it just came out. We’re leading by three points. That’s good. They won’t report that. They won’t report that. They’ll look at 30 polls. They’ll look at 30 polls. Some of them are totally fixed. Some of them are sickos, right? They look at polls where they interview 38% Democrats, 21% Republicans. I said that, “Doesn’t sound like too fair to me.” And they’ll say, “Trump is done by five.” Well, if I’m down by five, when they’re doing 38 to 21, that means I’m winning in-

Donald Trump: [\(30:03\)](#)

When they’re doing 38 to 21. That means I’m winning in a landslide. What kind of polls are these? No, seriously. What kinds of polls are these? These people are crazy. Joe Biden will delay the vaccine, postpone therapies, prolong the pandemic, shutter your schools. Open your schools, please. Bankrupt your small businesses, and shut down our country. He will destroy our country. And by the way, the cure cannot be worse than the problem itself. I said that a long time

ago. Except when I originally said. I had no... I felt it. I felt it was bad. I just felt it was an instinct. It can't be worse than the problem itself. So the shutdown, with alcoholism, with drugs, with abuse, with suicides, with all the things that happen, it's worse. You can't do this. You've got to get your governors to open up. There aren't many of them. There aren't many of them there aren't many of them now, but you've got to... One of the reasons, this is another one. We'll go to the fourth, November 4th.

Donald Trump: [\(31:03\)](#)

They'll be announcing, "We're opening our state." One of them, stupidly, like three weeks ago announced, "Yeah, we think we're going to open probably around November 4th." How about that genius? You'll all be open around a couple of days after the election. Biden even wants to lock down young and healthy Americans, yet for those under age 50 the recovery rate is 99.98%. Think of that. 99.98%. And for school kids it's better than that. Biden's cruel and senseless lockdowns would cause countless deaths from suicide and from all of the problems we have, and we would have problems. And economic, people lose their jobs. They lose their jobs, their small businesses go out or they work for small businesses or big businesses that go out. We've got to open up our states. We've got to tell your governor, we got to open up our states. Does anybody like your governor? Do you like him? Okay, let's have a... Who likes the governor? Is he going to win reelection?

Crowd: [\(32:12\)](#)

No.

Donald Trump: [\(32:14\)](#)

Who does not like the governor? All right. Interesting. Lots of love, governor. Got to open up. A lot of governors that did this. You know Michigan, the only one that it was allowed to go around and roam was her husband. He was allowed to go fishing and sailing. Nobody else was, they had to stay locked up in their house. But we won a Supreme Court case against them. They found it unconstitutional that she locked down the state of Michigan. I just left Michigan. I gave a speech in 32 degree weather in the rain.

Donald Trump: [\(32:53\)](#)

And they're great people and they're strong people, so I said, "You know what I'll do? I won't put on a hat and I'll just stand there in the rain and I'll freeze and I'll make a speech." But I'll tell, you there was such love. It was incredible. We're winning Michigan, too. We're winning Michigan. I had a nice hat on, I was going to put it on. And they were waiting for four or five hours. I said, "I feel so guilty." I was on time, but they get there very early, like probably some of you. You got here very early. All these front rowers I know got here. I know the front rowers get here very early. We have it where they get three, four days in advance. Were you here three, four days? No.

Donald Trump: [\(33:35\)](#)

You promise you voted for Trump, right? She's great. We have great people. We've never had... And four years ago we had the most enthusiastic campaign anyone's ever seen, probably there ever was this. This campaign, and I never thought I'd say it, has more enthusiasm, more support than we did four years ago, because four years ago I was a business guy. I was successful, I was very successful. I came and I said I was going to do... Go ahead. Go ahead. Get it out of your system.

Crowd: [\(34:27\)](#)

Four more years! Four more years! Four more years! Four more years!

Donald Trump: [\(34:27\)](#)

So four years ago I came and I saw trade. Probably trade was the big... It just drove me crazy. We're losing all our factories, closing all our factories. They're moving to Mexico, they're making it in China, they're doing all these things. A lot of places moved up to Canada. Canada was very tough on us. And I saw this, that's probably the main reason I ran. But I saw it all happening. It was so easy to see. I saw it all happening, and that's probably the main reason I ran. But four years ago I was just saying, "I'm going to cut your taxes. I'm going to cut regulations. I'm going to rebuild your military. I'm going to do all the things I said." And actually I did more, because Space Force. We opened up Space Force.

Donald Trump: [\(35:06\)](#)

I never said I was going to do that. I learned that after watching Russia and China and everything else. I learned that after I was here. One of these people right back there said, "He may be the only politician that actually did more than he promised during the campaign." I believe that's true. So we have actually more enthusiasm because I did everything. I said the wall. The wall was just very expensive. The border patrol wanted a certain way, very expensive. They're right, they wanted vision, they wanted steel, they wanted rebar, they wanted concrete inside. And I said, "You know what? I'll do it. I want to do it the way you want it. I don't want to give you any excuses for doing a bad job on the border." Gee, if you only would've built the wall right. But all of the things that I said, I did. Everything I said, I did.

Donald Trump: [\(35:58\)](#)

And that gives this campaign more energy than a guy that was successful that said, "Hey, I'm going to do a lot of things." Because you've been hearing that for years from politicians, and they don't do it. They don't get the job. As I said about Biden the other night at the debate, "Joe, you're all talk and no action." And it's true. And I'd looked at him and I'd say, "Joe, why didn't you do it?" He'd say, "Well, we should've done this. We should've done that." I said, "Joe, you've been there for 47 years and you left three and a half years ago. It's not like you left 30 years ago. You left three and a half years ago. And I only ran because of you, Joe. Because if you and Obama did a good job I wouldn't have run, there would've been no reason. And if I did, I probably wouldn't have been able to win."

Donald Trump: [\(36:46\)](#)

So I only ran... It was quite insulting to him, but that's the way it is. Biden had no plan, no idea. He didn't have a clue. He just wants to lock up this country. He really does. He's going to lock it up. If one guy walks up and says, "Sir, I think we should close up our country." "Okay, that sounds good to me." While letting rioters and looters run wild, or as Joe calls them peaceful protestors. I call you protesters. You know why? Because there's a legal definition. You can't have a political rally. They did that to keep me out. So I said, "Oh I see, you're protesters." The only thing you can do is protest, because they wanted to protect anarchists, rioters people that were burning down your stores. So you have the absolute right to protest. So I call this a friendly protest, okay? Officially. Not a rally. This is not a rally, it's a friendly protest. Okay, now we've gotten over the legal hurdle, haven't we? These people don't believe in science. They believe in whatever gives them power and whatever gives them control.

Donald Trump: [\(37:53\)](#)

The Biden plan will crush you and crush your family. We will crush the virus and make our success, make this country more successful than it's ever been. We have that kind of potential. We have the foundation set. You see what's happening, you see the kind of numbers we're doing. We're going to make our country more successful, quickly, than it's ever been. When the China plague arrived we moved heaven and earth to fight the disease. We airlifted medical supplies, pioneered groundbreaking therapies, reduced the fatality rate 85%. Think of that. 85%. And now it's actually higher than that. Well, here I am. I'm here, right? I said, "Give me that stuff. Whatever the hell it is, doctor, I want it." The next day I woke up and I felt like Superman. I said, "Get me the hell out of here. I have to go to Wisconsin tonight."

Donald Trump: [\(38:52\)](#)

And saved over 2 million lives. Our excess mortality rate has been 42% less than Europe's. Think of that, 42%. And we're working with Europe very closely. Look, they have a problem. It should've never been allowed to leave China, ever. It should have never been allowed. Once it got Wuhan, Wuhan province, it never got out, but it came to the USA and Europe and the rest of the world. I'm working to make the breakthrough treatment I received, so what we're doing is we're going to make the Regeneron and Eli Lilly, a great company, has a similar antibody drug. And we're going to make that available to people that need it, free. All I know is I didn't feel great. And after I took that, I woke up the next morning, and I'll tell you, I felt like I could take on the world. I said, "Let me out of..."

Donald Trump: [\(39:49\)](#)

And here we are standing here, freezing. Thanks to our relentless efforts, 97% of all current emergency rooms visits are for something other than the virus. You don't hear these numbers from the fake news. Think of that, 97%. And we're on track to deliver 100 million doses of safe vaccine. And I say, we're turning the corner. We're turning the corner. We're rounding, like this racetrack. Look at this, it's perfect.

Donald Trump: [\(40:17\)](#)

We're rounding the curve. We will vanquish the virus. And by the way, we're going to have the vaccine. Johnson & Johnson, Pfizer, Moderna. great companies, and others too. We have the vaccine. We're going to have it very soon. Very soon. We're going to deliver it. But without it, also, we're rounding the curve, we're rounding the corner. It's happening. We're going to emerge stronger than ever before. Biden's made a corrupt bargain, and the Democrats. In exchange for his party's nomination he is handed control of his party over to a rage-filled socialists and Marxists and the left wing extremists. You see it in Portland. How about Portland? We could solve that problem in I'd say a half an hour. Anarchists, you know what happens to them, right? They go back home to mom and dad. And they also stay in the basement, that's what they have in common with Joe.

Donald Trump: [\(41:16\)](#)

Joe, in that one clip. That was yesterday, that took place. That was what happened. He was in the basement. He heard that we were doing really well in Pennsylvania, which we are. We're at least two or three points up. Doesn't sound like much. You know what happens with us? They'll say, "He's three points up," and then you win by like 10. Got a lot of hidden votes out there. I don't know if I'm supposed to be complimented by that and not, but there are hidden votes. They don't want to talk. They are all action, they call that all action. If Biden wins, the flag burning radicals on the streets will be running for... You know that. They'll be running your government, there'll be running your government. This is Election Day, you must stop the anti-American radicals by delivering Joe Biden and those far left Democrats, all Democrats, a thundering defeat. This has to be a big defeat so we can end it. Just end it.

Donald Trump: [\(42:13\)](#)

And Joe Biden, as you see, is a corrupt politician. He wants to send your jobs to China while his family rakes in millions from the Chinese Communist Party. Millions. And he gets money from Ukraine, he gets money from Russia. How about Ukraine? His son sits on the board. No energy experience, no nothing. Didn't have a job. Father becomes vice-president, he becomes in charge of Ukraine. Son goes on the board of Barisma. Goes on the board of Barisma, \$183,000 a month. Would you say that's good? Would you say that's good? If Biden wins, China wins, China will own the USA if this happens, and they don't want me to win. They don't want me. We charge them tens of billions of dollars worth of tariffs. We never took 25 cents from China.

Donald Trump: [\(43:02\)](#)

And now we gave out... Where is Hunter? She's going, "Where is hunter?" Where is hunter? By the way, come to think of it, how about the laptop from hell? Let's call it the laptop from hell. And then you see shifting Schiff, "It was Russia that created the laptop. It was Russia." Shifty Schiff. He says there with a straight face, watermelon shaped head, like a watermelon. "It was Russia." I said, "Oh no, here we go again." When we win, you win, Wisconsin wins, and America wins. That's what's going to happen. We're joined today by members of Wisconsin Manufacturers & Commerce. They really helped us with this location. And we were going to be out at the airport but the governor made it very difficult so I said, "That's all right, get a location. Friendly people." And they really are, your state's chamber of commerce, and I want to thank them very much. Where are you folks? Where are you guys? What a group of people. Where? Where The hell are you? I met you at the airport. There they are. Good job you did. Thank you very much, I appreciate it. Good job.

Donald Trump: [\(44:20\)](#)

I said, "How are we doing?" They said, "Sir, you're going to win easy." That's pretty good. They slightly know the area. I'm thrilled to receive their first ever presidential endorsement. They've been around a long time and they gave us their... We've got a lot of endorsements. Got a lot of newspaper endorsements today, too. A lot of them, all over the country. And virtually every law enforcement group has given us the endorsement, even New York's finest. They've never endorsed a presidential candidate and they went be given back... We've got to respect our law enforcement. We've got to let them do what they have to do. Also with us is candidate for congress, Derrick Van Orden. Terrific. Where's Derrick? Derrick, good luck. I hear good things.

Donald Trump: [\(45:03\)](#)

... Orden, who's terrific. Where's Derrick? Derrick, good luck. I hear good things Derrick. I hear good things. Derrick Van Orden, please vote for him. Win. His competition is not good. Not good. And also state GOP Chairman, Andrew Hitt. Andrew, thank you. Are we winning Andrew, please? If we don't win, we're going to fire you so fast. Ah, I hear good. Yeah, just get out that vote. Get out the vote.

Donald Trump: [\(45:31\)](#)

Together we built the greatest economy in history, and now we're doing it again. Make America Great Again Again. Right? Again Again. See all those hats? Those hats are obsolete. It's Make America Great Again Again. We increased middle-class family income over \$6,000 more than five times the gains made under the last administration. Think of that. In a short period of time, African American, Hispanic American, Asian American, unemployment reached their lowest levels ever recorded. Since April, we created a record 11.4 million jobs. I ended the NAFTA nightmare and proudly signed the brand new USMCA into law. That's going to be a big deal. Just kicked in.

Donald Trump: [\(46:20\)](#)

Wisconsin dairy farms were decimated under the Obama and Biden nightmare. They were decimated, and now you are doing very well, and you know Canada took advantage of you very much. You know that right? Not anymore. Under the USMCA our dairy exports to Canada are expected to surge by at least 100%. And we got rid of the tariffs. You know the tariffs? You know they used to charge you. You didn't know this. You like the song, O Canada. Right? Yeah, hockey game, nice song. O Canada, their national anthem. Right? By the way, they stand for our national anthem. Our people have to stand for our national anthem. They have to stand.

Donald Trump: [\(47:02\)](#)

But Canada treated us badly, 287% tariff. Can you believe that? Think of it. I learned about that I said, "It's time to get out of that crazy NAFTA." NAFTA was a terrible thing. When GM went bankrupt Biden and Obama threw the workers of Delphi Corporation to the wolves. Their pensions were wiped out. I signed an order to restore the pensions of Delphi and others, and healthcare benefits promised the workers. These are workers in Michigan, Ohio, and Wisconsin that got really promised a lot of things and it never happened. We took care of it. I will never let anyone rip off our great American worker. Took care of it. They were treated very badly with a lot of promises from Biden and Obama.

Donald Trump: [\(47:49\)](#)

By the way, did you see this? Did you see the people they get for the crowds? Obama was up. He drew flies today, flies. He drew nobody. You know the cars are honking. Right? Honk, honk, honk. Let's go home. I never saw anything like this. They have cars. They have like 12 cars. Now they have circles. They had to have bigger circles for cars together. I never saw anything like it. Obama has no crowd. I thought he had like a crowd. Right? He doesn't have anything.

Donald Trump: [\(48:18\)](#)

The only one that has smaller crowds is sleepy Joe Biden. He's got nobody, and the press doesn't like covering our crowds. We have the opposite. We have so many people. They don't like it. But they never show that nobody... Joe was speaking yesterday. There was nobody there before they carried him off the stage. Think of it. He got nervous speaking to nobody. But that wasn't nervous. That was another problem.

Donald Trump: [\(48:43\)](#)

Under my leadership, we achieved the most secure border in U.S. history. My opponent's insane immigration plan completely eliminates U.S. borders by implementing nationwide catch and release. You know what that is. You catch a criminal, murderer, rapist. You catch them and you have to release them into the United States. Then within two or three years they're supposed to come back for a trial. We had an argument during the debate. I said, "Sleepy Joe, they don't come back." "Yes they do. They proudly come back." No, no, Joe. They're murderers. They don't come back Joe. I turned out to be right, but you know.

Donald Trump: [\(49:21\)](#)

He would make every community into a sanctuary city for violent criminals. We invested \$2.5 trillion in the U.S. military. You know that, right? You are a big beneficiary this state. A lot of business in this state, including nearly \$6 billion to save the historic shipyard, Marinette Marine. You know that, right? And they're great. I was there four or five months ago. I was watching. They build beautiful, beautiful ... It looks like a yacht with lots of weapons on it. The only difference is you got rockets all over the damn thing, but it is beautiful.

Donald Trump: [\(49:56\)](#)

We killed the leader of ISIS, al-Baghdadi. We took out the world's number one terrorist. Soleimani is dead. We took out 100% of the ISIS caliphate [inaudible 00:05:12]. When I took over it was a mess. I withdrew from the last administration's disastrous Iran nuclear deal, \$150 billion, 1.8 billion in cash. You know what we got? Nothing. I recognized the true capital of Israel and opened the American Embassy in Jerusalem. Instead of never-ending wars, we are forging peace in the Middle East. We're doing it. It's like working out really well. Three countries already, and many are lined up. They're all wanting to get in.

Donald Trump: [\(50:49\)](#)

A vote for Republicans is a vote for the American Dream. We are the party of Abraham Lincoln. It's a vote for the American Dream. In conclusion, over the next four years we will make America into the manufacturing superpower of the world, and we will end our reliance on China once and for all. It's already happening. We will make our medical supplies right here in the United States, right here in Wisconsin. We will hire more police, increase penalties for assaults on law enforcement, and we will ban deadly sanctuary cities. You don't want the sanctuary cities.

Donald Trump: [\(51:32\)](#)

We will defend the right to life, religious liberty, free speech, and the right to keep and bear arms. It's very important. Supreme Court, you got to do that. You got to remember. A lot of people think that's why I got elected because of the Supreme Court. And we've got already three great justices and Amy yesterday. By the end of the first term we'll have close to three, maybe more, but approximately 300 federal judges, including court of appeals judges. A record. It's a record.

Donald Trump: [\(52:10\)](#)

We will maintain America's unrivaled military might, and we will ensure peace through strength. So the two-and-a-half trillion dollars, the greatest rockets and missiles, hydrosonic. The greatest in the world. They go seven times faster than what we have today. We have tanks. We have planes. We have bombers. We have submarines. We've rebuilt our military. We have the greatest equipment, the greatest military force in the world. Russia, China, everybody, they are envious. Nobody thought we could do this, and we've done it all. A lot of it's made right here, but all made in the USA. All made in the USA. Our nuclear is now in tippy-top shape, and just hope, just hope, that we never have to use it. That's all.

Donald Trump: [\(53:10\)](#)

We will end surprise medical billing, require price transparency. Already signed. January 1st it goes into effect. Lower drug prices even further, favored nations. Nobody can believe I did it, and we're going to get the lowest prices in the world. And we will always protect patients with pre-existing conditions. America will land the first woman on the moon, and the United States will be the first nation to land an astronaut on Mars. NASA right now is the talk of the world as a space center. Again, it was closed and a mess when I took over. We will stop the radical indoctrination of our students and restore patriotic education to our schools. We will teach our children to love our country, honor our history, and always respect our great American flag. And we will live by the timeless words of our national motto, In God We Trust. Right? For years, you had a president who apologized for America. Now you have a president who is standing up for America and standing up for the great people of Wisconsin. That's what we're doing. So get your friends, get your family, get your neighbors, get your coworkers, even grab your boss if you have to. Come on boss, you got to go out and get out and vote. You got to get out and vote. Got to get out. This is a thing you got to do. Just remember the great red wave. It's now just starting to form, and they know it's coming. They know it's coming. We didn't come this far and fight this hard to surrender our country back to the corrupt Washington swamp.

Donald Trump: [\(55:08\)](#)

On November 3rd we must finish the job, drain the swamp. Go out and vote. Could be before November 3rd. Go out and vote. From Green Bay to La Crosse, from Madison to Milwaukee, and from Janesville to right here in West Salem, we inherit the legacy of red-blooded American patriots who poured out their heart, sweat, and soul to secure our liberty and defend our freedom. We stand on the shoulders of American heroes who crossed the oceans, settled a continent, tamed the wilderness, laid down the railroads, raised up the great skyscrapers, won two world wars, defeated Fascism and Communism, and made America the single greatest nation in the history of the world. And the best is yet to come.

Donald Trump: [\(56:06\)](#)

Proud citizens like you helped build this country, and together we are taking back our country. We are returning power to you the American people. With your help, your devotion, and your drive, we are going to keep on working, we are going to keep on fighting, and we are going to keep on winning, winning, winning. We are one movement, one people, one family, and one glorious nation under God, and together with the incredible people of Wisconsin we have made America powerful again. We have made America wealthy again. We have made America strong again. We have made America proud again. We have made America safe again. And we will make America great again. Thank you Wisconsin. Thank you very much. Get out and vote. Thank you very much.

Donald Trump: [\(04:15\)](#)

Wow. Thank you very much. Thank you. I feel so guilty you're waiting out here in the rain. They gave me a hat. I said, "You know, they've been waiting out here for hours. I shouldn't put on a hat," right? They even said, "Sir, we have the car, it's going to take you from the beautiful Air Force One," isn't that a beauty? But, "They're going to take you from Air Force One." I said, "I got to walk it." I mean, these people are tough. They're from Lansing, they're from Michigan, I got to walk it. I got to walk it. Don't give me the umbrella, I'm soaking wet already.

Donald Trump: [\(04:55\)](#)

But hello Lansing. Hello, Michigan. This was the scene of a great victory. Remember that? Four years ago, "Donald Trump has won the state of Michigan." That was big. It hadn't been done in decades, but I don't know if you saw the poll that just came out, we're up three in Michigan. I think we're up a lot more, you know, they give you the fake polls. I think we're up a lot more. We're going to have a great red wave people that want to go out and vote. They want to go out and they want to touch. They want to vote. It's a great red wave. It's happening in Florida. We're up in Florida, up four, up four.

Donald Trump: [\(05:44\)](#)

I'm watching these guys, they way talk, "The poll, oh," they're down 25 in Michigan. I said, "No, we're going to win Michigan." No. No, I kid when I say 25, but they put numbers, they're called suppression, suppression polls. They make you like, feel badly, so you said to your wife, or you said your husband, "Darling, let's go out to dinner and then we'll come back. We love our president, but you know, the polls say he can win." Well, right now we're leading in almost everywhere. The real ... We're leading almost everywhere

Donald Trump: [\(06:20\)](#)

Now I've got to say, I'm working my ass off here. Sleepy, Joe, the guy goes to his basement. He's got another lid. He goes to the basement, the lid, right? That's the garbage can, they put a lid on you. No, yesterday we had three big ones, really big. In Pennsylvania was incredible. The crowds were incredible, like this, they're all packed. They got people outside, I see people in the streets. It's crazy.

Donald Trump: [\(06:52\)](#)

I always say to my people, "Why don't you just get a bigger airport? Get a bigger ..." Well, these are better than the arenas because our rallies are bigger than they've ever been, and the arenas, even if it's 18,000 people, we've had 40, 45 50. You can't hold them. And you know what's nice? You get out of the plane, you say a few words, you go back to the plane, you say, "Bye-bye. Vote for me." But that's actually what Democrats do. They say, "Vote for me," and they're lovely to you for a few months before the election, and after the election, it's ... They're gone.

Donald Trump: [\(07:27\)](#)

Nobody's done for Michigan what I have, you have car plants being built all over, and you didn't have a plan built in 42 years. You have them all over. I tell Japan, I tell Germany, "No, we're not interested, go and build plants," and I always suggest to Michigan because I have to tell you, I think of cars, I think of Michigan.

Donald Trump: [\(07:47\)](#)

When I got the Man of the Year, I got Man of the Year at Michigan, a long time ago, like 12 years ago, nothing to do with politics. They wrote, "Man of the Year." I came here and I gave a big lecture on the fact, I said, "Mexico is stealing your plants. They're going to Canada, they going to ..." you lost 32% of your car production. I said, "What the hell is going on?" It turned out to be quite a controversial acceptance, but I felt that, it's probably the number one reason that I'm standing here because of trade and have we turned that around.

Donald Trump: [\(08:19\)](#)

Seven days from now, we're going to win the great state of Michigan, and we're going to win four more years in the White House. By the way, there has never been a campaign ...

Donald Trump: [\(08:47\)](#)

There has never been a campaign, in the history of this country ... First of all, there's never been a movement like this, there's never been. But there's been a campaign, and we had the record. You know, the record was four years ago that has had more enthusiasm or bigger crowds than there's ever been. Don't forget, they may have a crowd that's a big crowd the night before an election, you know? But not really. There's never been. This is ... Thank you. Thank you, that's really nice.

Donald Trump: [\(09:24\)](#)

A phrase, I really, I say, I don't think they'll find it because look at all of them back there. Look at them. Look, oh! Hello, John Roberts. He's been very nice to us. John Roberts has been very nice to us. Thank you John. But John has never been a phrase, "We love you," in the history of politics. I don't care where you go and it happens, and I love you too. I do. I love you too. That's why we're here.

Donald Trump: [\(09:56\)](#)

But there's never been anything like this in terms of enthusiasm, in terms of crowds. I saw Obama this morning. He had a couple of cars, they're honking their horn, and then I saw sleepy Joe, so he came out yesterday, right? And you're going to see this. He came out yesterday and he made a speech and then they had a rip off the stage because he had lost it because he's gone.

Donald Trump: [\(10:19\)](#)

Once again, Michigan is going to answer the call of history and show the world that sleepy Joe Biden, his dark money donors and his corrupt special interests, and by the way, there's never been anything like this. He goes into a country and the family walks out with billions of dollars, millions and millions of dollars.

Donald Trump: [\(10:43\)](#)

Then the press isn't allowed to report. The press doesn't report it. They don't cover it. The New York Times, The Washington Post, they don't cover it. CNN ...

Donald Trump: [\(10:54\)](#)

You know, I introduced the great justice of the Supreme court last night, right? They say, it's the most important thing a president can do. I say maybe military, but regardless, we've rebuilt our military like nobody would ever believe. But you know what? It's one of the most important ... Especially because this turns the court, they had a whole thing, the most important thing in 50 years, and CNN and MSDNC didn't cover, they didn't cover it. They wouldn't cover. They just couldn't. Even though their ratings go through the roof. 60 Minutes had very good ratings the other night, a fake report, but the ratings go through the roof.

Donald Trump: [\(11:35\)](#)

But they didn't cover my introduction. Can you believe that? My introduction of a woman that's going to be there hopefully for 50 years, as far as I'm concerned. And last night we did, we made history and we confirmed Amy Coney Barrett to the United States Supreme Court, and Justice Barrett will defend our rights, will defend our liberties and our God given freedom. She's going to be fantastic and she's a terrific person.

Donald Trump: [\(12:08\)](#)

Joe Biden, Kamala, do you like Kamala? Do you like her to be your vice-president? I don't know. If he gets elected, three weeks into his presidency, they'll say, "Kamala, you're ready? Let's go." That's why they're talking about the ... That's why they're talking about the 25th amendment, right? Three weeks. Three weeks in, Joe's shot, "Let's go Kamala, are you get ready?" Most liberal person in the Senate.

Donald Trump: [\(12:36\)](#)

She makes Bernie Sanders look like a serious conservative. This will not be ... We can't let it happen. This will not be the first woman president. You can have a woman president, but this will not be the first woman president. That's a lot of cameras back there. That's right.

Donald Trump: [\(13:06\)](#)

They're all screaming, Ivanka. You know, Ivanka? You know, she's great. She just loves to ... She's out campaigning today, doing really well. But she could be very happy, her husband's here, Jared Kushner, he's making peace in the middle East. He's here. Where's Jared? Where's Jared? We got to find him. He's never around too much. He doesn't want any accolades, but he's done something nobody else has done, he's leading peace in the middle East without blood. Find Jared. He doesn't want to be outside, he's Mr. Inside, but he's smart.

Donald Trump: [\(13:45\)](#)

But Ivanka she'd be very happy just being a home with the kids and we got her working, and you know who's making a speech today? The first lady, she's out in Pennsylvania. People love our first lady. Our first lady is doing a great job. I mean, she got the plague from China. So did I. So did Barron. Barron recovered in about 12 minutes. "How are you feeling Barron?" "Okay." "What was the problem Barron?" "I don't know, I didn't think I had a problem."

Donald Trump: [\(14:17\)](#)

The doctor told me, "Sir, your son has tested positive." I see him like 12 seconds later, "Doctor, how's he doing?" "He's he's all better." Doctor did you give him one of those miracle cures?" "No, sir. He just recovered." Hey, young kids have a very strong immune system. Nobody even knew it. Get your children back to school, get them back to school.

Donald Trump: [\(14:45\)](#)

I mean your governor's a disaster. They got to open up this state, and she's got to keep her husband away from sailing and fishing. The only one that's free in your state is her husband. No, it's no good. That's no good. You can't do it. Joe Biden, Kamala Harris. Of course, she has it the reverse. She's got the, "In the Harris ..." And he actually said it didn't he? "In the Harris-Biden."

Donald Trump: [\(15:17\)](#)

You know, I have a great vice president and we all do. I want to give him tremendous credit, but I will never say, "In the Pence-Trump administration," I will never say that. But he says it. That's because he doesn't have any clue where he is. You saw that and the radical Democrats want to pack the Supreme Court with far left Justices who won't shred our constitution, abolish the second amendment, terminate religious liberty, shield violent criminals, and regulate your economy into oblivion. You will have a depression.

Donald Trump: [\(15:52\)](#)

If he gets in, he's going to raise your taxes at a level that nobody's ever seen. He is the first candidate I've ever seen who is running on a promise that, "I will raise your taxes." I've never heard that one. I've been involved in followed and studied politics for a long time. He'll be the first one. "I will raise your taxes massively." It's going to be the biggest tax increase in history. I've never heard of that one before, I like running against that guy.

Donald Trump: [\(16:22\)](#)

This election is a matter of economic survival for Michigan. Look what I've done, we've all done together for this state. This state, you're building cars again, and if your union leaders weren't in the pockets of the Democrats, because we get the vote, but they got these guys that just ... They come to the White House, They're so nice to me, nice to me, but they go for the Democrats every time for a certain reason. Someday, we'll talk about it. But the people, the workers, are for us. So the workers for me.

Donald Trump: [\(16:56\)](#)

Biden's plan to abolish the entire us oil industry, you saw that? Will cripple our nation and send us into an absolute deep depression. You see what he did with fracking? "There will be no fracking. There will be no ..." No, he doesn't say it that way. He goes, "There will be no fracking. There will be no fracking." But he said it for like a year, and then he got to Pennsylvania where we're leading, but we're going to put it ... See that big, beautiful screen. We'll have it up there. It saves me a lot of words, that screen is great. It costs a fortune. We only bring it to very important location like Michigan.

Donald Trump: [\(17:37\)](#)

But then you can hear it in his own words. You don't say, "Oh, the president's exaggerating." No, he said, "No fracking, no fracking. No fracking." Then he goes to Pennsylvania, a million jobs, fracking. It's a big part of their economy. A big part of your economy from the standpoint of energy, right? And gas. How do you like the gasoline prices at \$2, right? It's amazing.

Donald Trump: [\(17:59\)](#)

As they go up, you produce fewer and fewer cars. Well, I got you down to the lowest level, you are so lucky I'm President. I'm going to give another major tax cut after already having passed the largest tax cut in the history of our country. We were giving a very big middle income tax cut.

Donald Trump: [\(18:18\)](#)

Joe Biden spent the last 47 years outsourcing your jobs, opening your borders and sacrificing American blood and treasure in endless ridiculous foreign wars in countries you've never even heard of for the most part. They're all coming back. You know that? They've been coming back, but our soldiers are all coming back.

Donald Trump: [\(18:39\)](#)

We're all over the place. We're all over that. We're in places that even the top people in the country have never heard of these places. Biden was a cheerleader

for NAFTA. You got killed by NAFTA. A catastrophe for the auto industry and for your state. Following NAFTA, one third of the auto jobs left and they went to Mexico and Canada, but they went to Mexico.

Donald Trump: [\(19:06\)](#)

Biden, enthusiastically voted for China's entry into the World Trade Organization fueling the rise of China on the backs of Michigan workers. What China has done, there has been nothing, nothing, nobody, no country, there has been no country that has ripped us off for 25 years, 30 years like China. Hundreds of billions of dollars a year flows into China and I put big fat, beautiful tariffs on China. We took in tens of billions of dollars. Nobody else did it.

Donald Trump: [\(19:44\)](#)

And when they targeted our farmers, I told the farmers, "Don't worry about it," and we gave him 28 billion, which is the amount they were targeted. We don't have too many farmers in this crowd. We gave him \$28 billion, our farmers, everybody's happy with that. You got about three farmers here, but you got a lot of manufacturers. Remember when ...

Donald Trump: [\(20:03\)](#)

... But you got a lot of manufacturers. Remember when Obama said there'll be no more manufacturing? You'd need a magic wand? Well, we had 700,000 manufacturing jobs. You'd need a magic wand. Altogether, half of all auto manufacturing jobs in Michigan were wiped out, think of that. After the Biden-backed NAFTA and China disasters, China became powerful because of the World Trade Organization. It became powerful, a terrible, terrible thing for our country. And then Biden goes around saying, well, no, China's good for us. No, no, no. They haven't been.

Donald Trump: [\(20:37\)](#)

How have they been? No, I don't think so good. And then the plague on top of everything else, we got the plague sent in. He repeatedly tried to slash Medicare and Social Security. People didn't even know. Decade after decade, Biden has twisted his knife into the back of Michigan workers, and workers all over the United States. You don't have to take my word for it. We have Joe on tape. Please roll the tape.

Joe Biden: [\(21:08\)](#)

My problem is I voted for NAFTA. I'm supporting NAFTA because I think it is a positive thing to do, and I do not pretend to be an expert on international trade matters.

Bernie Sanders: [\(21:20\)](#)

Trade agreements like NAFTA and permanent normal trade relations with China, which forced American workers to compete against people who are making pennies an hour has resulted in the loss of 160,000 jobs.

John King: [\(21:32\)](#)

The president is absolutely right when he says that China has been cheating for 25 years and that Bill Clinton didn't do enough about it, George W. Bush didn't do enough about it, Barack Obama didn't do enough about it.

Joe Biden: [\(21:42\)](#)

A rising China is an incredibly positive development for not only China, but the United States and the rest of the world. A rising China is a positive, positive development. It is in our self-interest that China continue to prosper. We want to see China rise. China's a great nation and we should hope for the continued expansion. China is not our enemy. We talk about China as our competitor, we should be helping. The idea that China is going to eat our lunch is bizarre. The idea they are our competition, they're going to beat us is bizarre. They're not bad folks, folks.

Joe Biden: [\(22:23\)](#)

China's not a problem.

Speaker 1: [\(22:25\)](#)

Allowing China into the World Trade Organization, which you supported, extending most favored nation status to China, which you supported, those steps allowed China to take advantage of the United States by using our own open trade deals against us.

Joe Biden: [\(22:45\)](#)

No.

Speaker 1: [\(22:45\)](#)

Do you think in retrospect that you were naive about China?

Joe Biden: [\(22:48\)](#)

No.

Speaker 1: [\(22:49\)](#)

Doesn't he deserve some credit for that? It's better. The USMCA is better than NAFTA.

Joe Biden: [\(22:53\)](#)

It is better than NAFTA.

Joe Biden: [\(22:57\)](#)

I have never said I oppose fracking.

Donald Trump: [\(23:01\)](#)

You said it on tape.

Joe Biden: [\(23:02\)](#)

I did ... Show the tape, put it on your website.

Donald Trump: [\(23:05\)](#)

I'll put it on.

Joe Biden: [\(23:05\)](#)

Put it on the website.

Dana Bash: [\(23:08\)](#)

Would there be any place for fossil fuels, including coal and fracking in a Biden administration?

Joe Biden: [\(23:15\)](#)

No, we would work it out. We would make sure it's eliminated. I guaranteed we're going to end fossil fuel. No more, no new fracking. I'd gradually move away from fracking.

Kamala Harris: [\(23:28\)](#)

And I think it's critically important on day one that we end any fossil fuel leases on public lands.

Speaker 2: (23:35)

What about states stopping fracking and stopping pipeline infrastructure?

Joe Biden: (23:39)

Yeah. New pipeline, exactly.

Kamala Harris: (23:41)

There's no question I'm in favor of banning fracking.

Speaker 3: (23:44)

I have one final question ...

Donald Trump: (23:45)

Would he close down the oil industry? Would you close down the oil industry?

Joe Biden: (23:49)

I'll have a transition from their oil industry, yes. I will transition.

Donald Trump: (23:53)

That's a big statement.

Joe Biden: (23:53)

That is a big statement.

Donald Trump: (23:54)

In terms of business, that's the biggest statement because ...

Speaker 3: (23:58)

Okay. We have one final question.

Donald Trump: (23:58)

... Basically what he is going to destroy the oil industry. Will you remember that Texas? Will you remember that Pennsylvania, Oklahoma?

Speaker 3: (24:05)

Vice president.

Bernie Sanders: (24:10)

Well, may I ask you a question, Joe?

Joe Biden: (24:12)

Yeah.

Bernie Sanders: (24:12)

You're right here with me.

Joe Biden: (24:13)

Yeah.

Bernie Sanders: (24:13)

Have you been on the floor of the Senate? You were in the Senate for a few years.

Joe Biden: (24:17)

Yeah.

Bernie Sanders: (24:18)

Time and time again talking about the necessity with pride about cutting Social Security, cutting Medicare, cutting veterans programs?

Joe Biden: (24:27)

No.

Bernie Sanders: (24:27)

You never said that?

Joe Biden: (24:28)

No.

Joe Biden: (24:29)

When I argued that we should freeze federal spending, I meant Social Security as well. I meant Medicare and Medicaid. I meant veterans. I meant every single solitary thing in the government.

Joe Biden: (24:42)

Look, here's the deal ...

Bernie Sanders: (24:43)

You're an artist. Why don't you just tell the truth here? We all make mistakes.

Joe Biden: (24:46)

I am telling the truth.

Joe Biden: (24:46)

And I not only tried it once, I tried it twice, I tried it a third time and I tried it a fourth time.

Bernie Sanders: (24:52)

Joe, let me repeat it again. I want you just to be straight with the American people. I am saying that you have been on the floor of the Senate time and time again talking about the need to cut Social Security, Medicare and veterans programs. Is that true or is that not true?

Joe Biden: (25:13)

No, it's not true.

Bernie Sanders: (25:13)
That is not true?

Joe Biden: (25:13)
That is not true.

Joe Biden: (25:14)
I meant veterans. I meant every single solitary thing in the government. Everything was on the table. I did not support any of those cuts in Social Security or in veterans.

Bernie Sanders: (25:24)
Whoa, Whoa. Everything was on the table. All right, you're right. You just said it, including in your judgment cuts to Social Security and veterans.

Joe Biden: (25:33)
In order to get the kinds of changes we need on other things related ...

Bernie Sanders: (25:38)
Joe, but you just ...

Joe Biden: (25:39)
But we did not cut it. I did not vote for it.

Bernie Sanders: (25:40)
I know because people like me helped stop that. Although I would say to the American people go to YouTube, it's all over the place. Joe said it many, many times. I'm surprised you can defend or change your mind on it, but you can't deny the reality.

Laura Ingram: (25:57)
Now to be fair, maybe Biden's not telling us because he's forgotten his own plans. Watch Biden's staff quickly swoop in to shuffle him along during a quickie escape the basement trip to Pennsylvania.

Joe Biden: (26:13)
Here's the deal, one of the things that that is important is that keep in mind, although they're going to vote on that, I think, today.

Laura Ingram: (26:32)
That was terrifying.

Joe Biden: (26:33)
What kind of country we're going to be, four more years of George, George ... Going to find ourselves in a position where if Trump gets elected, we're going to be in a different world.

Donald Trump: (26:54)
The whole thing is crazy. Is that crazy? Is that craziest race? There's that craziest race. Our country cannot be put in that position. We have too much going, too much potential.

Crowd: (27:11)
Four more years! Four more years! Four more years! Four more years! Four more years! Four more years! Four more years!

Donald Trump: (27:23)
We cannot be put in that position, so you got to do what's right. Because one thing we know President Xi of China is not like that. President Putin of Russia. There's nobody been tougher than Russia. Nobody had been tougher than me to Russia. They want me to lose so badly. He's not like that. Kim Jong Un. Remember, we're going to be in a war with North Korea. What happened? What happened to the war? Kim Jong Un not like that. They're top of the game. And most of the leaders, top of the game. We can't have that. We can say, hey Xi, that's wonderful.

Donald Trump: (27:56)
But we can't have that. We can't have that. We have too much potential. We're going to have the greatest year ever next year. We had the greatest year we've ever had. We had to stop it. We learned about the disease. We saved two million lives. Remember, it was going to be 2.2 million people were going to die. That was the model. We saved two million lives. And now we understand we protect our seniors, but we can't have that. In 2016, Michigan voted. That's a lot of people. Look at it as far as. I'm hearing the sound. It sounds like it's from 20 miles away.

Donald Trump: (28:38)
It almost is. Thank you. In 2016, Michigan voted to fire this corrupt political establishment and you elected an outsider as president who is finally putting America first. We're putting it first. And a lot of times, because I'd become friendly with many of the presidents and prime ministers, kings and queens, dictators, I must tell you, dictators. But I've become friendly with a lot of them. And they say two things, it's incredible what you've done with the economy. They always say that. They always say it, no matter what.

Donald Trump: (29:19)
They say we have done the most incredible job and they always start off by congratulating me. The next question is they want to buy our military equipment because we make the best equipment anywhere in the world. And sadly, with many of these nations who are not that friendly, we have to say no. Does that make sense? Does that make sense? Anyway, I don't sound like a politician because I'm not a politician. I never wanted to be a politician. I became a politician for one very specific reason because we're doing a job in the history of our country in the first three and a half years, nobody has done what we, what we, and this administration has been able to do with regulations, with taxes, with rebuilding our military, with strengthening our borders.

Donald Trump: (30:09)
By the way, our border, the strongest it's ever been. We're building 10 miles a week. The wall is almost finished. They don't want to talk about the wall. Remember that's all they talked about was the wall. The wall is never going to get built. It's never going to get built. Then I got it built. That's almost completed. They don't want to talk about it. And Mexico is paying for the wall. Remember that please. If I don't always play by the rules of Washington and the Washington establishment, it's because I was elected to fight for you and I fight harder than any president has ever fought before.

Donald Trump: (30:50)
One of the biggest issues for Michigan, as you know, is this race. And then this whole thing, it's the race. It's all the subject of refugees and what's happening with refugees and where are they coming from. Biden as pledged, and you saw what happened the other day in France. Biden has pledged a 700% increase. This was done in the manifesto with Bernie Sanders. Crazy Bernie. He's crazy. Is he crazy or what? But we love him because we got a big pile of his people last time with crooked Hillary. And they're going to come again because we're right on trade.

Donald Trump: (31:28)
One thing Bernie Sanders understood, our country was being ripped off on trade by our allies and our foes, okay, by everybody. And he got it. He couldn't do anything about it, but his people came over, large percentages of people. People find that hard to believe, but they understood trade. Biden has pledged a 700%

increase. This is in conjunction with crazy Bernie and AOC plus three, who knows less about this stuff than any human being on earth. But she does have a good line of crap. A 700% increase in refugees from the most dangerous terror hotspots on the planet, including Syria, Somalia.

Donald Trump: [\(32:12\)](#)

When I think of Somalia, I think of Omar, Omar, Ilhan, Ilhan Omar, who truly does not like our country. We are going to win Minnesota because of Omar, because of Omar. She likes telling us what we should do, how we should run our country. Isn't that nice? Omar. No, we're going to win. She hates our country and we're going to win also because the national guard went in, should've been called a lot sooner. But the national guard went into Minneapolis and it was a beautiful sight. It took what? 22 minutes? It was over after a week and a half of destroying Minneapolis.

Donald Trump: [\(32:58\)](#)

So I think between Ilhan Omar, Ilhan Omar and really what happened with respect. We stopped it. They should've called us a week and a half early. We're going to win Minnesota first time since, think of that, first time, I don't want to guarantee. I don't want to guarantee anything. I'm a little bit superstitious, but I want to tell you, they like us. They like us in Minnesota and how the hell she gets elected I cannot understand it. His policies will turn Michigan into a refugee camp. It's true. She goes, I know. You're right about that. Who said that?

Donald Trump: [\(33:38\)](#)

Right? She just said, I know. Everybody knows. He's also vowed to terminate our national security travel bans. I got a travel ban. I said I want to ban. I took a lot of heat. You remember that right at the beginning. Because if it's okay with you, I don't want to have people that want to blow up our country. I don't want to have people that want to kill our people. So we instituted a travel ban and it was rejected by the first court, rejected by the second court. Ultimately, it was approved by the US Supreme court. We have a travel ban.

Donald Trump: [\(34:09\)](#)

And now if we have countries that want to do harm to us, if we have people that want to do harm, we say stay the hell out. It's very easy. We got a travel ban. And we're not going to open the flood gates to radical Islamic terrorism. We're not doing it. I've ended the influx of refugees from terrorists regions, you know that, and I'm keeping the jihadists and the violent extremist the hell out of our country, if that's okay. Now maybe you want them, I don't know. Maybe you want them. Maybe Michigan, let's take a vote. Would anybody like them to come to the wonderful state of Michigan?

Crowd: [\(34:51\)](#)

No!

Donald Trump: [\(34:51\)](#)

Okay. I thought I knew you pretty well. No, it's not easy doing this stuff, and it's very unpopular. People go after you, but you have to do it. You have to do ... Ultimately, I do what's right, and people understand it. People understand it. Together, we will continue to protect American families, fight for American workers, support our police, defend our second amendment, which has been under siege. If I were not your president, you wouldn't have a second amendment right now. Secure our borders and ensure more products are proudly stamped with the beautiful phrase made in the USA.

Donald Trump: [\(35:40\)](#)

And by the way, do I look soaking wet? Because the media is going to get on me. They're going to say, he looked like hell today. He didn't look good. His hair was terrible. It was all horrible. He looked bad. He looked bad. He looked like he was sweating. Does he have a fever? No, it's 32 degrees out here and it's freezing and it's raining, and I'm just trying to keep up with the tough people of Michigan. That's all. See, I was going to ask you permission to put the hat on. No. Here, take it. That's a good hat. It'll be on eBay. It'll be on eBay tonight. We will deliver record prosperity, epic job growth, and a safe vaccine that eradicates the virus and quickly ends the pandemic. And we've done things that nobody believed we could do. And the vaccines are coming right around the corner. And if I weren't here, it would have taken two, three, four years before you had this stuff. It's happening now, greatest companies in the world doing it. Normal life will fully resume, and that's what we want. We want normal life, normal life. Take us back. Take us back seven months ago. We want normal life.

Donald Trump: [\(37:05\)](#)

We had the greatest economy in the history of our country. That's what we want, normal life. Just think of it. That's all we want. If we didn't have the plague come in from China, it wasn't even going to be like we had an election. The only bad part is I probably wouldn't be standing out here in the freezing rain with you. I'd be home in the White House, doing whatever the hell I was doing. I wouldn't be out here. And we're going to do other great places after this. You know that, right? This is stop number one. I'll get off the plane, at least you with the first stop.

Donald Trump: [\(37:38\)](#)

Because I'll get off the plane, and they'll say, he looks like hell. What happened to our president? Look at these people. What happened to our president? He looks terrible. This election is a choice between a Trump super recovery or a Biden depression. You're going to have a depression, your 401(k)s down the tubes. Look how great our stock market, had a little blip yesterday because Nancy Pelosi will not approve stimulus. That's all. But it's a choice between a Trump boom or a Biden lockdown, but you're already locked down. I mean, this state, we got to get her going.

Donald Trump: [\(38:21\)](#)

I don't know. We got to get her going. I don't think she likes me too much.

Crowd: [\(38:26\)](#)

Lock her up! Lock her up! Lock her up! Lock her up! Lock her up! Lock her up! Lock her up! Lock her up! Lock her up! Lock her up!

Donald Trump: [\(38:41\)](#)

See, I don't comment to that because every time if I make just even a little bit of a nod, they say the president led them on. Now I don't have to leave you on. Even a little nod, they say the president said, right? They asked me that question are crazy 60 Minutes. Wasn't she rude? She just kept asking me questions. And then they interviewed sleepy Joe, and it was like, everybody just fell asleep. And they got great ratings. That's unfortunate. They got such good ratings that they'll want to do it again and again.

Donald Trump: [\(39:14\)](#)

But no, wasn't that terrible, the difference? One is anger, craziness, fire coming out of her eyes. I look, she sits down. She said, are you prepared for tough questions? I said, just be fair. Just be fair. No, no. I mean tough questions. And I ... This is the way it starts. With Biden, it's hello, Mr. Vice President. How about did you see the reporters out? He was walking around with ice cream. What flavor is it? I don't know. I don't know. No, he knew. He said he had vanilla and I said, I don't get ... See those killers back there. I don't get soft questions like that, but I was being interviewed by somebody.

Donald Trump: [\(40:03\)](#)

I had a group of-

Donald Trump: [\(40:03\)](#)

But I was being interviewed by somebody. I had a group of terrible, terrible people. Sometimes I'll do an interview just to see if it's so bad, because I can do very good. I can answer the question. I take all the smiling, all the fun. I just boom, boom, boom. Nobody can do that. Boom, boom, gave him a perfect interview. And then I realized it's hopeless with these people. And I looked at him, and we're in the Oval Office. I say, "You know, you're very unfair. You're very dishonest. You're corrupt people. But you know what? We're in the Oval Office. I'm here, and you're not." I'm here, and you're not. And I sent them on their way, and then I read the article the next day. It was terrible. It bore no relationship to what I told them, but these are minor details. It's a shame. You know, if we had an honest media, this country would come together so fast. It's true.

Donald Trump: (40:58)

We have, not all of them, but they're some of the most corrupt people on earth. They are. And you see it, you see it with the Biden corruption. They don't even want it. They won't cover it. They won't talk about it, and that includes Big Tech, section 230. Section 230. Does anybody know about Section [230 00:01:18]? It's a choice between our plan to kill the virus or Biden's plan to kill the American dream. That's what he wants to do. He wants to lock you all up. Let's stay locked up. So I caught it, but I said, "Hey, I mean, I was given options. I could've stayed in the basement of the White House for a year and a half, but I'm your president. I can't do that. I can't do that. I can't stay in the basement of the White House. I can't stay in a beautiful bedroom upstairs for a year and a half. I'm your president." And I'd go to meetings, and there'd be a lot of people at those meetings.

Donald Trump: (41:53)

And they'd say, "This perhaps is dangerous. I don't know, this perhaps..." And then one day, "Sir, our great White House physician, White House doctor, he's here today." Sean, where's Sean? Is he around? He's become more famous than I am, White House doctor. I saw so many doctors when I was in that bed. I said, "Doctor, I don't feel good." I had more great doctors, more talent than you've ever seen. They were lying around that. I told this story, they're lying. 12, 12 doctors, Johns Hopkins, all of them. Walter Reed is so incredible. The medical military hospital, the doctors, they really are great, but there were a lot of them. I said, "I don't feel great, Doc. I got to be honest with you. It's been a long time, but I don't feel great." And they grabbed me, every one of them. They grabbed different parts of my body, and they all were specialists.

Donald Trump: (42:43)

They were specialists. And the bottom line is I took something... Regeneron, which we'll make it available to everybody that needs it, free. And Eli Lilly makes something very similar, and we have things that we didn't even know about. Think about six months ago. And I don't know if it was the strength of me. I'd like to give me full credit. I don't want to give the drug... I was telling somebody the other day, "I don't want to give the drug any credit." I want to say, "Because I am a very young person that's in perfect physical shape, I took that virus and I woke up the next morning and I felt like Superman." It's true.

Donald Trump: (43:28)

I wanted to get out of there. I said, "Doctors, get me the hell out of there. Get me out." But it's true. No, great doctors. But we know things that we didn't know. We didn't know. We had no idea about much of this stuff. And you see mortality rate, you see where that is now. And people go in, you get better. They say you have immunity, that you can go in. I could jump... See this crowd right here? I could jump right in. I could give every woman and every man... I'd even kiss the men. I could give every woman and every man right here a kiss, and I wouldn't catch it. I have immunity. And until I came along, you used to hear, "You have immunity for life," right?

Donald Trump: (44:06)

As soon as I had it and got better, they were not too happy about that. And they said, "The speed... This guy got better." But you know what? As soon as I had it, I got better. I said I had immunity. It was supposed to be for life. When it was me, they said it's only good for four months. Okay. Anybody else, it's for life. With Trump, they said it was four months. So they brought it down now, immunity, from life to four months. And you know now with them, you can't watch anything else. You turn on... COVID, COVID, COVID, COVID, COVID, COVID, COVID, COVID, COVID, COVID, COVID. Well, we have a spike in cases. You ever notice, they don't use the word death. They use the word cases, cases. Like, "Barron Trump is a case." He has sniffles. He was sniffing. One Kleenex, that's all he needed. One, and he was better. But he's a case.

Donald Trump: (44:55)

He's a case, Barron Trump. Young people cases... And you know why we have so many cases? Because we test more, so we go around and they're... By the way, we're testing very young people, too. We're testing people in school. We're testing everybody. In many ways, I hate it. In many ways, I hate it. We test everybody, and because of that... Now, if I tested half... If I said, "We are going to cut our testing down in half," they'd go crazy, because the cases would go down in approximately half. And then we're going to cut it down in half once again. And there are other countries that don't do testing, and they show very few cases. I mean, it's a very simple thing, but overall it's good to have the testing. We find out where it is, and there are a lot of things. But they use it to make us look bad, but here's the story. It's COVID, COVID, COVID. You can't watch anything else. On November 4th, you won't be hearing so much about it.

Donald Trump: (45:49)

November 4th. On November 4th, you'll hear, "It's getting better. It's getting better." You watch. No, no, they're doing heavy COVID because they want to scare people, and people get it. I'll tell you, they understand these people better than... You are smarter than most of the political people in this world. [inaudible 00:46:11] very smart. No, November 4th, you'll see there's a big difference. And I'll tell you what. You know what else is going to happen on November 4th? Your governor, your governor at the urging of her husband who has abused our system very badly, the only man allowed in the state of Michigan, the only man allowed to go sailing is her husband. Now, your governor, I don't think she likes me too much. Hey. Hey, hey, hey. I'm the one... It was our people that helped her out with her problem. I mean, we'll have to see if it's a problem. People are entitled to say, "Maybe it was a problem [inaudible 00:06:48]." It was our people, my people, our people, that helped her out, and then she blamed me for it. She blamed me, and it was our people that helped her. I don't get it. How did you put her there? How did you put... How's John James doing? Good? That's good. Oh, he's... I didn't even know he was here. John. Wow, is that nice? Wow. I didn't even know. See, I'm thinking about you and I don't even know you're here, John. I picked him out of a group of people they all had loaded up with money. John had money, he's successful. Where he was really successful is in the military. He could pilot a helicopter better than anybody, I hear. And I said, "Who the hell is that guy?" It's true. I saw John. I saw John. That's in honor of John.

Donald Trump: (47:55)

No, no, no. Here's what happened, real quick. I saw John. I saw four people, a different position... He's running for a different thing. He did great, by the way, but I saw four rich guys. And I saw John and I said, "Go back." The world's greatest invention. Not television, TiVo, because without TiVo, television is useless. So I say, "Who is that?" I don't know, I think his name's John James. I said, "Do me a favor. Go back." Now, the other guys had a lot of money. They were spending a lot of money. I think four guys, four guys... I said, "That guy... I'm pretty good at this stuff. That guy can be a star."

Donald Trump: (48:38)

I called him. I spoke to him. I endorsed him. The four rich guys will never talk to me again, but that's okay. They were [gonezo 00:08:48]. That was the end of them. And he ran a phenomenal race. And now I'm hearing, John, that you're actually leading. He's running against the guy, Peters. Think of it. John James is running against a Senator, US Senator, that nobody has ever heard of before, even in Washington. Peters. I said, "Who the hell is Peters?" He's a Senator from Michigan. Nobody's ever heard of him. I'll tell you what. If one thing comes out of this small group of thousands of people, vote for John James.

Donald Trump: (49:25)

He's a great guy, but I'm going to introduce him in a second. If Biden and the Democrat socialists are elected, they will dismantle your police departments, dissolve our borders, indoctrinate your children, and destroy the suburbs. You know, they were talking about suburban women don't like Donald Trump. I said, "I think they do. I think they do." I got rid of a regulation that will destroy the suburbs. I got rid of it. I said, "Ben Carson, let's do it, Ben," and we did it. Nobody else would do it. And if Biden ever got in, if he ever came in, it would come back and you could forget about the suburbs. And one thing I know about suburban women... Well, I was supposed to do badly with women the last time, remember? At the end, they called it that night. They said, "Donald Trump..." At the beginning, they said, "No, he won't win because he doesn't do well with women."

Donald Trump: (50:19)

I said, "Really? Tell me about that." And then... This guy goes, "only Rosie O'Donnell". Who said that? You? What are you, a comedian or something? So they said, "Donald Trump, it will be a very short evening." They were very happy about that, and then we started winning. We won Florida, we won Georgia. We won South Carolina and North Carolina. We ran all three. Then we won Michigan. We won Michigan. We won Wisconsin. You know, they were coming. We won Pennsylvania. Anyway, at the end of the evening, they were analyzing it. They said, "You know what? Donald Trump did great with women." [inaudible 00:51:06]

Donald Trump: [\(51:06\)](#)

And that's going to happen again, because women, suburban or otherwise, they want security. They want security. They want safety. They want law and order. They have to have law and order, and we're going to do great. And I love women, and I can't help it. They're the greatest. I love them much more than the men, much more than the men. So I'm saving suburbia. I'm getting your kids back to school. Get your kids back to school. You know, we won that big Supreme Court case against your governor, so what the hell happened? Why isn't it open? It's still not open. You know, we sued. We won the case. What are they appealing? She's appealing the case. Hey Governor, let your state open. Get your kids back to school, Governor. Not a good governor. And you know what else? I'm also getting your husbands... They want to get back to work. They want to get back to work. We're getting your husbands back to work, and everybody wants it.

Donald Trump: [\(52:07\)](#)

And the cure can never be worse than the problem itself. And let me tell you, when she keeps everybody locked up like a prison, your drugs and alcohol and abuse and suicide, and so many things, so many bad things are happening. She's got to get it back. And this goes for Pennsylvania. You have a Democrat. All Democrats... You have a Democrat governor. Goes for North Carolina. We're doing great in both. We're winning both of those states. You have a governor in each one, and you have a couple of others. Look at what's going on in New York with Cuomo. It's horrible. It's like a ghost town, and the crime is way up. And California has to open up. California has to open up. I mean, what are you going to do? I see people today, store owners, they don't know what to do. They're going to be arrested if they open up their little small business. They can't survive. It's a horrible thing that's going on. Get your states opened up. And this governor should get her state opened up.

Donald Trump: [\(53:06\)](#)

The last administration nearly extinguished the US auto industry from the job... Killing it, almost. The job-killing Trans-Pacific Partnership, and I ended it. I stopped it. To their horrendous Korea trade deal, that was a Hillary Clinton special. Remember, she said, "We will produce 250,000 jobs if we sign this deal," and she was right for South Korea. They produced the... They got them. You didn't get them. To the outrageous fuel economy standards where they're making it impossible to build a car in this country. It's outrageous. We sued California. We sued a lot of people, because we can build a better car, a safer car, a more important car for a lot less money. Think of that. Better, better looking, safer, little heavier, for a little bit more fuel, a little bit more. You're talking about a glass, a little bit more fuel. And that will take 10 and 15 and 20-year old versions off, you know, the gas guzzlers, out of the...

Donald Trump: [\(54:09\)](#)

Overall, environmentally, it'll be so good. And we're suing California. Think of it, a better car, a safer car, and you'll save \$3,500 a car. And we actually have a lawsuit on this. We're going to build better, cheaper, safer, and we actually have a lawsuit. I mean, it's not even believable. Over a little glass of... Because the difference between an engine that works and doesn't work is a half a glass of fuel, and we have plenty, as we've proven. We're the number one in the world. We have plenty of gasoline. We have plenty of gasoline, and it would be great for your car business. And frankly, your car business, they ought to get in gear, because they're so afraid of the environmentalists. You know, they're so afraid. Oh, I don't know. I mean, they're willing to spend thousands more to build a car.

Donald Trump: [\(54:59\)](#)

I say, fellas, are you sure? There are a couple of them that are very smart that like what I say. I'll tell you who the smart ones are some day. I reversed each and every one of those Obama-Biden disasters, and now Biden wants to reinstate all of them. Everything that we've knocked out in terms of regulations that would take 20 years to build a highway, we have it down to 2 years. To get the approvals would take 20 years, even longer. We have it down to 2. I want to get it down to 1, and it may get rejected for environmental or safety reasons. I want to get it down to 1. But you have to see what we've done is a miracle, and that's one of the reasons it's been so successful. I also ended the NAFTA nightmare and replaced it with the brand new USMCA. And the USMCA is expected to create tens of thousands of auto jobs that include powerful productions to keep your auto lines going. Wait till you see what happens. It's just kicking in right now, and one of the biggest beneficiaries will be a state named Michigan.

Donald Trump: [\(56:04\)](#)

And when General Motors went bankrupt, Biden and Obama threw the workers of the Delphi corporation to the wolves. Anybody from Delphi here? Because somebody, if you're here, you got to like Trump, because we're working on getting their pensions taken care of, because they were taken advantage of. You know about that. I signed an order to restore the pensions and healthcare benefits promise to workers in Wisconsin, Ohio, and Michigan. So they were treated very badly, and so were you. I will never let anyone rip off our great American worker. I will not do it. Joe Biden's made a corrupt bargain exchange for his party's nomination. He has handed control of his party over to the rage-filled socialists, Marxists, and left-wing extremists. If Biden wins, the flag-burning radicals on the streets will be running your government, like in Portland. The anarchists, the Antifa. Hey, Antifa...

Donald Trump: [\(57:05\)](#)

You ever notice, they never want to go after Antifa? Nobody wants to take on it. They all want to go after anybody, but they don't want... And I keep saying, "Well, how are we doing with Antifa, the anarchists?" This Election Day, you must stop the anti-American radicals by delivering Joe Biden and the far left a thundering defeat. We have to make this... You have to get out there on Monday, Tuesday, Sunday, I don't care, today. You have to get out there and vote. Most of you are going to vote because you believe in voting, like I do. I just left. I just voted two days ago. I voted. I went to a booth, and they actually asked me, "Sir, may I please have your identification?" But no, they're right in doing it. I gave her a passport. "Sir, do you have additional identification?" [inaudible 00:57:53] Come on, what are you doing? You're going to embarrass me here. This is crazy. No, she was great.

Donald Trump: [\(57:58\)](#)

I mean, I'll tell you what. There's no cheating with that. You go to a place, they want identification, they want this. You fill out your form, they walk you over to a machine, you put it in. I mean, these ballots, it's turning out to be exactly what I said. You see what's going on. Who's sending them? Where are they going? Who's sending them back? Who's signing them? Now they want to have unverified signature. One of the governors wants to have no signature at all, just send it back. What a horrible thing, especially since I see so... You know, I watched it so closely this time when I voted. It was so professional. You go in, and most of these people, the Red Wave, generally speaking, you go... If not Tuesday, Monday, whatever, how many people are going to vote? How many people?

Donald Trump: [\(58:46\)](#)

How many people have already voted? All right, good. You're sort of a late state. That's good. That's good. Pennsylvania's a very... They all vote that last day, but they go. They want to go to a polling booth. You're like that. Everybody, look. This is the most important election in the history of our country, or I wouldn't be standing here like this. Everybody, you got to go out and vote. You got to go out and vote. Joe Biden is a corrupt politician. You've seen that. He wants to send your jobs to China while his family rakes in millions of dollars from the Chinese Communist Party and other places. If Biden wins, China wins. And by the way, China will own the United States. You saw that clip up there. They will own it. China's wonderful. There has never been anyone or anything or any country that has ripped us off like China. We will win, you will win, Michigan will win, and America will win. You got to go and vote.

Donald Trump: [\(59:58\)](#)

So, we're joined today by some great warriors. I introduced one, but I'll introduce-

Donald Trump: [\(01:00:03\)](#)

... some great warriors. I introduced one, but I'll introduce him again, because he's so important, and that's John, but representatives Jack Bergman, John Moolenaar, Tim Walberg. They're incredible. I'll tell you what, they have been with me right from the beginning, right fellas? They like you, they like you. Michigan House Speaker, Lee Chatfield. Lee. Young guy, Lee. A young guy. RNC Chairwoman, who by the way, ran my Michigan campaign four years ago, Ronna McDaniel. She ran it so good that when we won, I said, "I have the person, the head of the Republican Party," I said, "I want to get somebody." I said, "You know what I'll do? Get me the woman that won Michigan. What the hell is her name?" Her name's Ronna. Good. She would call me, I'd come. I'd make a speech, I'd leave. Call me the next day.

Donald Trump: [\(01:01:09\)](#)

"Sir, you have to come back. You have to come back. You have to come back." I said, "Look, I'll do it one more time." Because Michigan, hadn't been one in

36 years. I said, "Look, I'll do it one more time. That's it." I came back. She said, "That's it, sir. Don't worry about it." I left. Two days later, I get a one more phone call. "Sir, one more visit." And we did. Do you know, Michigan was the last stop that I made. I made it in Grand Rapids, Michigan. It was one o'clock in the morning. Crooked Hillary had come in with Barack Hussein Obama. And they came in together with Bill Clinton actually and all of them. And it was unscheduled. Meaning they found out they had a problem, right? It was unscheduled. They got here at seven o'clock. They had 500 people. I got here at one o'clock in the morning. Started speaking at one in the morning in Grand Rapids. We had 32,000 people. True.

Donald Trump: [\(01:02:09\)](#)

And remember, think of this, it was now election day. So it's now election day. In fact, I got home, and our future first lady said to me, "Are you crazy?" You know, I get it. I got home at four in the morning, but Ronna did a fantastic job. Right? Congressmen are we doing okay? Are we winning here?. The great John James is going to win?

Donald Trump: [\(01:02:41\)](#)

Michigan GOP chair Laura Cox is terrific. Thank you. Thank you. How are we doing Laura? Are we up? They said two points. That's not enough. We've got to get a little more than that. They said two points today. The great Ted Nugent. Ted. Ted. Great, Ted. He's the only one really dressed properly. Thank you, Ted, very good. Great job. We appreciate it Ted. The president of the Police Officers Association of Michigan, Jim Tignanelli. Jim. He's like central casting. Jim, central casting.

Donald Trump: [\(01:03:24\)](#)

Candidates for Congress. Some really good ones. Paul Young. Paul Young. Good, Paul. You're doing well, I hear. Good, Paul. And the next US Senator, from the great state of Michigan, the legendary John Jay. I'll tell you, he's working so hard. Just keep working. John, keep working. We built the greatest economy in history, and now we are doing it again. We increased middle-class family income over \$6,000 more than five times, again, think of this five times again, in all eight years under the last administration. African American unemployment, Hispanic American unemployment, and Asian American unemployment all reached their lowest levels, ever recorded. Think of that, what we had going and we had to close it up and now we're opening it again to record.

Donald Trump: [\(01:04:26\)](#)

Since April, we created a record 11. 4 million jobs. For decades, our politicians spent trillions of dollars rebuilding foreign nations, fighting foreign wars and defending foreign borders. But now we are finally protecting our nation, rebuilding our cities and we are bringing our jobs, our factories, and our troops back home to the USA. Under my leadership, we achieved the most secure border in United States history. That's what we've done. It's an amazing thing what we've done. My opponent's insane immigration plan would completely eliminate US borders. They don't want to have borders. Without a border, you don't have a country. By implementing a nationwide catch and release. You catch a criminal, murderer, rapist and you release them into our country. And then he's supposed to come back for a trial in two years.

Donald Trump: [\(01:05:25\)](#)

And we had the argument during the debate. Did anybody see the debate the other night now? It was quite a debate. He would make every community into a sanctuary city for violent criminals. My administration is finding the illegal immigrant and the criminals gang members, the MS-13 killers, and we are either putting them in jail or sending them back home. And their home has to take them. They didn't used to take them. We invested \$2.5 trillion into the US military. Much of it's spent in Michigan and we have the finest, greatest equipment anywhere in the world. We are the envy of the world. Russia, China, there's no country. We are the envy of the world. The best equipment to the world, all made in the USA.

Donald Trump: [\(01:06:16\)](#)

We also pass VA choice and VA accountability. We killed the leader of ISIS al-Baghdadi and we took out the world's top terrorist, Soleimani is dead. I withdrew from the last administration's disastrous Iran nuclear deal, 150 billion, 1.8 billion in cash. What a stupid deal. And the first call I get, if we win, we got to win, first call I get will be from Iran. They're going to want to make a deal so badly, because their economy is in tatters. I recognize the true capital of Israel and opened the American Embassy in Jerusalem. And instead of never-ending wars, we are forging peace in the middle East. A vote for Republicans is a vote for the American dream. That's what it is. Abraham Lincoln. Abraham Lincoln was a Republican.

Donald Trump: [\(01:07:20\)](#)

Over the next four years, we will make America into the manufacturing superpower of the world, this state right here. And we will end our reliance on China once and for all. We will hire more police, increase penalties for assaults on law enforcement, and we will ban deadly sanctuary cities. We will uphold religious liberty, free speech and the right to keep and bear arms. We will maintain America's unrivaled. military might, and we will ensure peace through strength. Our military is now the strongest it's ever been by far.

Donald Trump: [\(01:08:07\)](#)

When I first came in, they told me, "Sir, we have no ammunition." That's a true story. And no president should ever hear that again. We will end surprise medical billing, require price transparency, already signed January 1st, lower drug prices, even more, and we will always protect patients with pre-existing conditions. We will stop the radical indoctrination of our students and restore patriotic education to our school. We will teach our children to love our country, honor our history and always respect our great American flag. And we will live by the timeless words of our national motto, In God We Trust.

Donald Trump: [\(01:09:05\)](#)

For years, you had a president who apologized for America. Now you have a president who is standing up for America and standing up for the great people of Michigan. See, now Biden would do that, and he'd say for the great people of... How many times did he do that? Seven? Standing up for the great people of Iowa. "Sir, sir, it's Michigan." There's no recovery from that, right? When you do that, you just walk off the stage, right? I always say the great Winston Churchill, he was a great orator, even if Winston Churchill did it, he would just walk off the stage. But he didn't do that. But sleepy Joe does it a lot. So get your friends, get your family, get your neighbors, get your co-workers. Don't let the radicals win. Get out and vote.

Donald Trump: [\(01:10:05\)](#)

Most important election, I believe. And I never thought I'd say this, because of what happened four years ago, this is the most important election in the history of our country. On November 3rd, we must finish the job and drain the swamp once and for all. We've got a long way, from Midland to Mackinaw, from Pontiac to Battle Creek, great things, and from Detroit to right here in Lansing, we stand on the shoulders of Michigan patriots, who gave their blood, sweat, and tears for this beloved nation. This is the state where Henry Ford invented the assembly line. Think of that. So much, so much has been done in Michigan. It's the place where General Motors, Chrysler and Kellogg revolutionized entire industries. Think of that.

Donald Trump: [\(01:11:03\)](#)

Michigan gave us Motown, the Mustang and the unrivaled might of the American Midwest, the American Midwest. We got it all. I think I got every single vote in the America, I like the Midwest. We made America into the single greatest nation in the history of the world. And the best is yet to come. That's true. Proud citizens like you helped build this country, and together we are taking back our country. We are returning power to you, the American people. With your help, your devotion and your drive, we are going to keep on working. We are going to keep on fighting and we are going to keep on winning, winning, winning. We are one movement, one people, one family, and one glorious nation under God. And together, with the incredible people of Michigan, we have made America powerful again, our military. We have made America wealthy again, 401ks, keep them nice and hot. I don't want to see you throw them out. These things aren't worth anything. Your 401ks are just about at an all-time high. We have made America strong again. We have made America proud again. We have made America safe again, and we will make America great again. Thank you Michigan, go out and vote. Go out and vote.

President Donald J. Trump: [\(00:15\)](#)

Thank you very much. Hello. Oh wow. We tried to come in here very low-key. We wanted to make a low key appearance. Did anybody notice the helicopter flying a little low and real slow? No? Greatest pilots in the world. Greatest equipment in the world. That's what we have greatest equipment in the world, but the greatest pilots, nobody can do what our pilots can do. Right, Mike? Hello, Pennsylvania. Hello, Pennsylvania. Eight days from now. Can you believe it? Eight days. Started off four years ago. Remember our meetings and it was a love fest right from the beginning, wasn't it? And now it's more so. You know what? It's more so than it was four years ago. And they're going to be finding that out very soon. They're going to be finding it out. You know, I have the ratings right over here.

President Donald J. Trump: [\(01:43\)](#)

Poll numbers. Thank you. Thank you very much. Joe Biden, sleepy Joe Biden said a little while ago, he was in a lid. You know what a lid is, a garbage can. They put the lid on it, they put the lid... And he saw, we had two of these today, they were fantastic. Different parts of the Commonwealth of Pennsylvania. And we had two of them, ann sleepy Joe was down there and they said, "You got to get out of this basement." So he traveled from Delaware to a little tiny corner of Pennsylvania, right next to Delaware. And he made a speech. And he said that he doesn't do these kind of rallies, because of COVID. No, he doesn't do them because nobody shows up. That's why. Nobody shows up.

President Donald J. Trump: [\(02:39\)](#)

COVID, COVID, COVID. That's all they talk about the fake news. COVID, COVID, COVID. That's all they talk about what progress we've made on it too. We understand it. We know we have to protect our seniors, especially when they have heart, when they have diabetes problems and we are protecting them. We have best testing in the world. That's why we show so many cases, because we do more testing than anybody else, but we're doing great. And ooh, excuse me. Here I am. I'm here for you.

President Donald J. Trump: [\(03:13\)](#)

I didn't feel so good one day. One day I didn't feel exactly great, Mike, a great Congressman, but I didn't feel exactly great. And I said, "What's the story, doc, sir?"

President Donald J. Trump: [\(03:25\)](#)

"You've tested positive." I said, "Positive for what, doc, tell me." And I say this, a president, If you're doing your job, you can't stay in a basement of the White House. You can't stay in a basement. You can't stay in a beautiful bedroom upstairs. You can't do that. You got to do your job. And I'd have many days, I'd say, "I've met a lot of people today. There's got to be something going." But one day they came back and these doctors were so great. And there were a lot of them. There's so many doctors. When you're president, there's so many doctors and I had 12 doctors, can you believe it? I've never had 12. I've had one or two, but I've never had 12. And each one was a specialist in different parts of the body. And they would grab my body and I hated it. I hated it.

President Donald J. Trump: [\(04:09\)](#)

I said, "Get your hands off me doctors. But let's make me feel good." And we took something that was incredible Regeneron. And I don't know, maybe I would have just been perfect just by doing nothing, but who the hell wants to take a chance. And I woke up the next morning and I felt like Superman. Get me back. Get me back. Get me back. And the first lady had it. First lady had it and she did great. She's great. And she is popular too. People like her. They love Melania. But she had it. Doesn't complain about things. And then of course Barron had it. Now with Baron, young, strong immune system. He had it. I said, "What's the story, doc, with Barron, sir?"

President Donald J. Trump: [\(00:05\)](#)

"Sir, he tested positive." Like 15 minutes later, "How's Baron doing?" "Sir, it's gone." So you have to get back to school. We have to get back to school, Pennsylvania. You know, you have a governor who doesn't want us to do anything in Pennsylvania, because did you see the poll just came out? We're up two and another one, we're up four. Because you watch, I have a whole list of the polls that just came out. But eight days from now, we're going to win the Commonwealth of Pennsylvania. And we're going to win four more years in our great White House.

President Donald J. Trump: [\(00:59\)](#)

Just a few hours from now, the Senate will vote to confirm Judge Amy Coney Barrett to the United States Supreme Court. That was a good choice. Wasn't it? I've never seen anything. I'm glad she's not running for President. I'd much rather go against sleepy Joe, much easier. No, she's fantastic. A fantastic person, fantastic woman, a great student. Her professor, her great professor at Notre Dame said, and he's been teaching a long time, a lot of great legal minds he's taught, he said, she's the single greatest student he's ever had. That was good enough for me. That was it. Highly respected person. He's a highly respected man. He said, "Sir, she's the greatest student I've ever had." Judge Barrett is one of our nation's most brilliant legal minds. She'll defend our rights, our liberties and our God given freedoms. And you saw that.

President Donald J. Trump: [\(01:53\)](#)

And we were all watching in great amusement as she was so-called grilled by the opposition. That was easy, right? That was easy. That was like one of our great football teams from the area, plenty of them, playing a high school football team. That was really something. Judge Barrett will be the third Supreme Court Justice along with almost 300, right around the number, by the time we end the first term, I'll have 300, maybe a little more, maybe a little less, federal judges that we've confirmed to uphold our laws and our constitution. And part of that was that Barack Hussein Obama allowed me to have 142. We started with 142 empties. I don't think anybody's ever had one. You don't do that. But he left me 142. Couldn't get them confirmed.

President Donald J. Trump: [\(02:50\)](#)

To this day, Joe Biden refuses to release his list of names. You know, it's more than just the packing the court. He's got to say who is he going to put on, because we can't have radical left justices that are going to destroy our nation. And we will be very, very careful as to who we choose. You know, I left a list of 45. I had a list of 25 and now I added 20 names, all top scholars, top, top scholars. And Amy was one of them. I took Amy off. And the fact is you have no idea. A lot of people say I won because of the Supreme Court, because they didn't know who I'd pick, and I gave a list, and I said, "I'll pick somebody like this." And then they said, "That's not good enough. You got to pick somebody in that list." So ultimately it's a list of 25, all great scholars, all people that believe in something known as the Constitution, if that's okay.

President Donald J. Trump: [\(03:49\)](#)

I don't think his list will. And they say that that was a big part of the reason that we won the election four years ago. And he has to do the same thing. He's got to not only agree to not pack the court, or you can't put them on, it would be terrible, terrible for our nation. Even Justice Ginsburg said, "You can't do that." Nine is the right number. We have a Senate. We have a House, a lot of people. Nine is the right number. Nine great people, that's the right number. But he's got to agree to not pack the court. But he's got to agree to give us a list of five or 10 or 20 or 30 or 40. Got to have people to pick from. And if you don't have that list, you can't vote for him.

President Donald J. Trump: [\(04:28\)](#)

And you can't vote for him for another reason, because during the debate, I'm sure nobody watched the debate. Did anybody watch the debate? The last question was like Perry Mason, was just like Perry Mason. It was at the end. He was doing great. This guy was doing so wonderful. Not really. Meaning he was getting through. And then the last one I said, "So you don't want oil, Joe?" "Well yes, we want to get ourself off of oil." And how about Kristen? Who I thought treated me good. I really did. I thought she, compared to Chris Wallace, much better, right? Chris Wallace, I was fighting two people. But no, I thought she treated us good. And frankly, she went in and she said, "Why did you say that?" To him, and that's when he really blew it.

President Donald J. Trump: [\(05:18\)](#)

So basically he's not going to allow you to frack. And you have a million jobs and energy jobs, probably more than that. And it's a big part of our nation what you do. People don't realize that about Pennsylvania, but fracking is a very big deal. Who are you pointing to? Oh. Oh. Oh. Look at that. Oh boy. The coal miners, right? The coal miners. Dig must dig. Dig we must. Clean coal. I don't call it coal. I call it clean coal. They can do more with coal now. Thank you very much. Remember when Hillary, she said we will stop all coal miners. We will never dig coal again. And then four weeks later, she ended up in West Virginia. That did not work out well for her. That was not good. Remember, she was trying to explain that she was just kidding. Just like he's doing, just like sleepy Joe's doing. He was just kidding. But he's down. We just had a poll come out. We're plus two now, you know. But we should be a lot more than that. I'm not happy with plus two. I don't like plus two. It's an honor. You do a great job. Dig we must. Dig we must. And we brought it back. We're selling now coal to Vietnam and many, many places from... Are you coal miners from Pennsylvania? Good. Good. That's good. Well, you're not going to be voting for Joe Biden, that I can tell you. Not like he's a sophisticated environmentalist. He was told to do this.

President Donald J. Trump: [\(07:03\)](#)

Our opponents agenda is one of doom and gloom and depression, decline and despair. Our agenda is one of unlimited optimism. We want to be optimistic. Remember during the debate, he said, "It will be a dark winter." No, it's going to be a beautiful winter. It's going to be a beautiful spring. Okay? Our country's coming back stronger than anybody would have thought. And you have to get your governor to open up your state, what this guy is doing. You know, we had one site where we had a site, it was a big site, beautiful site, and he made sure that they didn't do it. We had to go around scouting out for sites on our first, this is my third one, all in Pennsylvania. But this governor, but we're going to remember it.

President Donald J. Trump: [\(07:48\)](#)

But the problem is how is he going to be the one when he tries to play games with sites that counts ballots, right? He counts ballots. It's the governor. And then they sued us because they didn't want to have poll watchers. You know what a poll watcher is? They watch you count the votes. What's wrong with that if you're doing it straight? So we're in court and we had a Pennsylvania judge who said, "Oh, you shouldn't have poll watchers." Can you believe that? We actually lost the first case, but we'll go up and we'll end up in the Supreme Court.

President Donald J. Trump: [\(08:20\)](#)

The other thing they want to be able to drag out the election long beyond the third. Well, in all fairness, this is a very important place, right? And we can't drag it out. We don't want to drag out any longer. So we are in lots of court having to do with this and having to do with many states, about five of them. And so far, we've had a lot of good victories. They will continue because we're not going to let this election be taken away from us. That's the only way they're going to win it. We're not going to let them have it.

President Donald J. Trump: [\(08:52\)](#)

For the last half century, 47 years, Joe Biden has been outsourcing your jobs, opening your borders and sacrificing American blood and treasure in ridiculous, endless foreign wars, countries you've never even heard of for the most part. Now Joe Biden is trying to ban fracking and deliver an economic death sentence for Pennsylvania's energy sector. You can't allow this to happen. But here's the thing. For a year, I watched him saying, "There will be no fracking," right? We saw with the Democrats, right? The radical left Democrats. They're all screaming, "No fracking." Every one of them, they couldn't scream loud enough. And he gets the nomination because Elizabeth Warren Pocahontas refused to get out. No, had she gotten out, then crazy Bernie would have been our opponent. But I think I like Joe better because there's no energy. I liked him. No. Bernie had a little energy, small base, lots of energy.

President Donald J. Trump: [\(09:46\)](#)

And we had a lot of his people. You know, a lot of them with crooked Hillary, Bernie. I won't use it because they have very young people here. He gets taken advantage of by Hillary. And then he gets taken advantage of by the Democrats the last time, with mostly Elizabeth Warren and the others. They ganged up on him. And he goes back and he goes into the Senate. I think he's the greatest loser. He's a really good, he's a good loser. He's a good sport. Crazy Bernie. And in the last week's debate, Joe Biden confirmed his plan to abolish the entire U.S. oil industry. That's right. And that's why Kristen said, "Why are you doing this?" Because she's on his side, you know, because that's NBC owned by Comcast, C-O-N, not C-O-M, C-O-N. So she's on his side. She's saying, "Why are you doing this?"

President Donald J. Trump: [\(10:40\)](#)

If you really look, it's almost pleading, "Sir, why are you doing this?" And I'm saying, just be quiet, Kristen. No, that's what happens. That's right. That's what happened to Perry Mason. Remember, the guy was always great, great, great. Then at the end, I did it. I did it. That was sleepy Joe. That's happened. You don't need a President like that. That means no fracking, no natural gas, no coal, no jobs, no energy, no Pennsylvania families being well taken care of. Fracking is saving Pennsylvania families \$2,500 a year, at least. And it's saving families all over the country. We are energy independent and you're a big part of it. And they want to end that. They want to go to wind. Do you love the wind? Nice windmill right alongside of your house. Your house is now worthless. You know, when those windmills go up and they're near your house, I know a lot about wind, it cost many, many, many times the energy that we're talking about, many, many times, like 32 cents versus 3 cents, whether it's natural gas or other things, but many, many times.

President Donald J. Trump: [\(11:50\)](#)

But you put up a windmill, if you want to see a bird graveyard, go under a windmill sometime. It kills your birds. Got a lot of problems. Okay? And it needs subsidy, massive subsidy. You don't want to be giving subsidy to energy when there's no reason to do it. So he wants wind and he wants solar. I like solar too, but it still isn't developed. And solar's not going to power your big, powerful plants, which we have to have in order to compete and beat the rest of the world. It's just not going to do it and neither is wind. And neither is wind. He will eradicate Pennsylvania energy production and send your state into a crippling depression. That's what it's going to be because energy is such a big... People just don't know that, Mike, about Pennsylvania. It's a big, big energy state. Be amazed.

President Donald J. Trump: [\(12:40\)](#)

You know, it's funny, Texas, so he's against oil, he's against guns, second amendment, and he's against God. And then they say, President Trump is four points up in Texas. And the governor calls me from Texas, great guy, Greg, he said, "Sir, that's not true. You're up a lot," but they don't say that. But think of it. You're against oil. We're in Texas. You're against oil. You're against God. You're against guns in Texas, guns in Texas. Trump is up four points. It's a very close race. No, no same thing here because you have the same thing. And you could really say the same thing almost to a little bit lesser extent, but the Texas was just amazing. So that's why I said at the end, Texas and Pennsylvania, I hope you're looking and I hope you're listening. And that goes for Ohio. And it goes for Oklahoma. And it goes for a lot of other places.

President Donald J. Trump: [\(13:40\)](#)

So, you know, we had polls because the fake news is always giving fake numbers. They're called, they're really called suppression, suppression polls. So here they are, all brand new. Rasmussen, have you ever of Rasmussen? Very highly regarded poll. So over there we were at 53 and 52, that means it's hard to lose you when you're at 53 or 52. So Rasmussen, and that's national. That's not what I'm doing. I go to places, like Hillary used to campaign in California when it doesn't matter. Although if I were California, I'd vote for Trump because the place is going to hell, I would vote for Trump. I would vote for Trump. Taxes are too high. Crime is too high.

President Donald J. Trump: [\(14:27\)](#)

New York, taxes are too high. People are fleeing. Crime is too high. I put out vote for Trump. Remember? African-American, I said the same thing, vote for Trump. What the hell do you have to lose? That was last election. Now we are doing so incredibly well with the African American, the black community, and the Hispanic community. No, it's unbelievable. They get it. Because we did criminal justice reform. We did prison reform. We did the historically black colleges and universities. What we've done, opportunity zones with the great Tim Scott, Senator from South Carolina, we've done so much. And now the black community is strong with us. We had a poll today at 40. 40. Nobody knows what that means. Nobody knows what that means. That's a number that nobody's heard of with respect to the Republican. We should be much higher than that.

President Donald J. Trump: [\(15:22\)](#)

Joe Biden is a diehard globalist who wiped out your steel mills, closed down your factories, killed your coal jobs, outsourced your industries and supported every terrible and disastrous trade deal. For more than 47 years, he was a cheerleader for NAFTA, one of the worst trade deals ever made. By the way, USMCA just kicked in. It's great. USMCA is a great. It just kicked in. Your companies aren't going to be moving to Mexico or Canada anymore. That I can tell you. Biden enthusiastically voted for China's entry into the World Trade Organization, decimating your manufacturing-

President Donald J. Trump: [\(16:02\)](#)

The World Trade Organization, decimating your manufacturing and enriching China at your expense. And you were really one of the biggest victims. This state, you lost 50% of your manufacturing jobs after Biden's NAFTA and China disasters. They were disasters. He signed it along with other people, but he was one of the people that pushed it. Decade after decade, vote after vote, sleepy Joe Biden has betrayed Pennsylvania, you know that. He repeatedly tried to cut social security and Medicare, you didn't know that until a week ago when we started showing you the clips. And that was, Bernie Sanders is the one that exposed him on that. Now, after years of economic treachery, he wants to ban fracking and he's going to.

President Donald J. Trump: [\(16:46\)](#)

And what about his running mate? His wonderful running mate. They asked her about fracking. She's only said about 300 times, there will never be fracking. Now she's said, "No, Joe wants it." But she said it was the Harris-Biden administration. That's the first time I've ever heard of that one. She came first. No, she's nothing special. She never was. I can't believe she was picked actually. Nobody treated him worse than her. Plus she was a disaster. Her poll numbers were going so bad, she left before Iowa, right before the vote. Her poll, she started off at 12 and then she went to 10, went to eight, went to seven, went to five, went to four, went to two, went to one, went to zero. Then she said, "I think I'm going to get out of the race." And she treated him so badly, what she called him and everything else. And then he said, "I'd like to announce that I'm going to pick Kamala to be my running mate." You can have them both.

President Donald J. Trump: [\(17:46\)](#)

You don't have to take my word. We have Joe on tape. Now I only do this when a location is very important to me, because this thing costs a fortune putting up this tape, okay? But look at this crowd, so you can watch what Joe says. Go ahead, please roll the video.

Joe Biden: [\(18:06\)](#)

My problem is I voted for NAFTA. I'm supporting NAFTA because I think it is a positive thing to do. And I do not pretend to be an expert on international trade matters.

Speaker 1: [\(18:17\)](#)

When you ran for president and when Barack Obama ran for president, you both said you would renegotiate NAFTA. You didn't.

Bernie Sanders: [\(18:24\)](#)

Trade agreements like NAFTA and permanent normal trade relations with China, which forced American workers to compete against people who are making pennies an hour has resulted in the loss of 160,000 jobs.

Speaker 2: [\(18:36\)](#)

The president is absolutely right when he says that China has been cheating for 25 years and that Bill Clinton didn't do enough about it. George W. Bush didn't do enough about it. Barack Obama didn't do enough about it.

Barack Obama: [\(18:46\)](#)

How exactly are you going to negotiate then? What magic wand do you have?

Joe Biden: [\(18:51\)](#)

A rising China is an incredibly positive development for not only China but the United States and the rest of the world. The rising China is a positive, positive development. It is in our self-interest that China continue to prosper. We want to see China rise. China's a great nation. And we should hope for the continued expansion. China is not our enemy. We talk about China as our competitor, we should be helping. The idea that China is going to eat our lunch is bizarre. The idea that they are our competition, they are going to beat us is bizarre. China is going to eat our lunch, c'mon man. They're not bad folks, folks. China's not a problem.

Speaker 2: [\(19:39\)](#)

Allowing China into the World Trade Organization, which he supported, extending most favored nation status to China, which you supported, those steps allowed China to take advantage of the United States by using our own open trade deals against us. Do you think in retrospect that you were naive about China?

Joe Biden: [\(20:01\)](#)

No.

President Donald J. Trump: [\(20:03\)](#)

Today we're finally ending the NAFTA nightmare and signing into law the brand new US, Mexico, Canada Agreement. Very special.

Speaker 3: [\(20:12\)](#)

Listen, it's hard to overstate the importance of the USMCA. This is the single biggest bi-partisan legislative victory for this president and this administration. It is a huge deal.

Speaker 4: [\(20:24\)](#)

Wage growth is better than it has been since 2009. That means it is better than it has been for seven out of eight of the years that Obama was president.

President Donald J. Trump: [\(20:32\)](#)

The new USMCA has powerful protections to keep auto manufacturing jobs. Since the election, we've created 41,000 brand new motor vehicle and parts jobs.

Speaker 4: [\(20:45\)](#)

But does he deserve some credit for that? It's better, the USMCA is better than NAFTA.

Joe Biden: [\(20:50\)](#)

It is better than NAFTA.

Joe Biden: [\(20:51\)](#)

I never said I oppose fracking.

President Donald J. Trump: [\(20:57\)](#)

You said it on tape.

Joe Biden: [\(20:59\)](#)

Show the tape, put it on your website.

President Donald J. Trump: [\(21:02\)](#)

I'll put it on.

Joe Biden: [\(21:02\)](#)

Put it on the website.

Speaker 5: [\(21:05\)](#)

Would there be any place for fossil fuels, including coal and fracking in a Biden administration?

Joe Biden: [\(21:12\)](#)

No, we would work it out. We would make sure it's eliminated.

Joe Biden: [\(21:17\)](#)

I guarantee we're going to end fossil fuel. No more, no new fracking. I'd gradually move away from fracking.

Kamala Harris: [\(21:28\)](#)

And I think it's critically important on day one that we end any fossil fuel leases on public lands.

Speaker 6: [\(21:36\)](#)

What about, say, stopping fracking and stopping pipeline infrastructure?

Joe Biden: [\(21:39\)](#)

Yes, no pipeline. Exactly.

Joe Biden: [\(21:43\)](#)

They want to do the same thing I want to do. They want to phase out fossil fuels and we're going to phase out fossil fuels.

Kamala Harris: [\(21:49\)](#)

There's no question, I'm in favor of banning fracking.

Speaker 5: [\(21:52\)](#)

I have one final question.

President Donald J. Trump: [\(21:53\)](#)

Would he close down the oil industry?

Joe Biden: [\(21:57\)](#)

By the way, I would transition from the oil industry, yes.

President Donald J. Trump: [\(22:00\)](#)

[crosstalk 00:22:00] Oh, a transition. In terms of business, that's the biggest industry, because basically what he says, he is going to destroy the oil industry. Will you remember that, Texas? Will you remember that, Pennsylvania, Oklahoma? So you never heard me say that, that I could tell you. Now isn't that great? It's a very expensive deal, but it saves me a lot of work because there's nothing does it better than that, right? A vote for Biden is a vote to offshore your jobs, ban fracking and deliver economic ruin to Pennsylvania and to your families. In 2016, Pennsylvania voted to fire this corrupt far left political establishment. And you elected an outsider as president who is finally putting America first.

President Donald J. Trump: [\(23:22\)](#)

With your vote, we will continue to fight for American workers, lower drug prices. You know what we're doing on drug prices? The first year in 52 years where drug prices came down, prescription drugs last year, but we're doing favored nations so we pay the lowest in the world. Right now, we pay the highest and the drug companies don't like me too much, I can tell you that. They're spending more on advertising than sleepy Joe. Support our police protect our second amendment, which is under siege. Defend our borders, maintain energy independence, and ensure more products are proudly stamped with that beautiful phrase, Made in the USA, right? We will deliver record prosperity, epic job growth, a safe vaccine that quickly ends the pandemic and we're rounding the turn. They hate it when I say it. With or without we have the vaccine, it's going to be great.

President Donald J. Trump: [\(24:18\)](#)

We have numerous companies, all great ones, but we're rounding that turn anyway, we're rounding the turn. We understand the disease. We closed it up. The greatest economy in history, we closed it up. We saved 2 million lives. You remember it was going to be 2.2 million lives. We saved 2 million lives and we're rounding the turn. Normal life, that's what we want. Normal life will fully resume. We'll never forget what China did to this country and what China did to the world. And next year will be the greatest economic year in the history of our country. And that's where we're heading. If you look at the job numbers, automobile numbers, if you're looking at housing, I gave working families record setting tax cuts. And in my second term, I will cut middle-class taxes even further. I gave you the largest tax cut, the largest tax cut in history. This is the craziest campaign, right? So all my life I watched politicians running. They always say, we are going to cut your taxes, right? We are going to cut your tax.

President Donald J. Trump: [\(25:24\)](#)

I got a guy running now who's sort of shot. He goes, we will raise your taxes. I said, what the hell? I said, did he just say that? Yeah, he's going to give you the biggest tax cut in the history of our country, including regulations and all the other stuff, which made it so good for us. This election is a choice between a Trump super recovery or a Biden super depression. And that's what you're going to have. You're going to have a depression, if you go with this guy. It's a

choice between a boom and a locked down. He wants to lock down your country. You're already locked down with your governor. Wolf, Governor Wolf. There's a beauty for you.

President Donald J. Trump: [\(26:08\)](#)

Sure, Governor, we trust you to count our ballots, Governor. We trust you. And it's a choice between the rule of the people or the rule of the corrupt political class. If Joe Biden and the Democrat socialists, and that's where you're heading. And I always said, this country will never be a socialist country, never, ever. But if Joe Biden and his Democrat socialists are elected, they will delay the vaccine, delay the therapies, prolong the pandemic, close your schools. They're already closed. Open them up, open up those schools and shut down our economy. And we're coming back with numbers like nobody has ever seen before.

President Donald J. Trump: [\(26:54\)](#)

I tell this last week, the end of last week, the Atlanta fed projected GDP for the third quarter, just, it's going to be announced just before November 3rd of 35%, nothing ever even close. I think your record is 8%, 8%, 9%. 35% and he wants to close it down, not a good idea. Joe. Biden says he has a plan for the virus and he doesn't. He just copied. You see what he did. He copied our plans. It's the same plan. He copied our plan. Everything he's proposed, my administration has already done, including mass production of rapid tests and PP, we've done.

President Donald J. Trump: [\(27:35\)](#)

And what we've done with the ventilators is incredible because we weren't prepared with ventilators. Our hospitals didn't have them. Our governments didn't have them. My federal government did. We went into a production of ventilators, the likes of which they've never seen anything like it since the end of World War II. Biden doesn't know how to defeat a pandemic. His own chief of staff said that when he managed the H1N1, which he always reverses. And of those under the age of 50 recover and most recovered very quickly. But Biden wants to keep them locked down in their homes while letting rioters and looters run wild. In Pennsylvania, you can't go to church. You can't go to restaurants, you can't do anything, right? But if you want to have a nice little riot, if you want to have a protest, that's why we call everything a friendly protest. That way we're allowed to be.

President Donald J. Trump: [\(28:32\)](#)

Think of it. You can't go to church, but if you want to burn down Center City, we have no problem with it. I'll tell you, bringing our country back. But if you think it's easy with these people we have to deal with? The Biden lockdown would crush America, and my plan will crush the virus. And we're going to have a boom like you've never seen before. Like you've never seen before.

President Donald J. Trump: [\(28:57\)](#)

When the China virus arrived, we moved heaven and earth to fight the disease. We banned all sorts of things. Everything we could ban. We airlifted medical supplies, built hospitals from scratch. Look what we did in New York, the convention center, 2,800 beds that we put in the ship. Unfortunately, Governor Cuomo barely used it. If he would have used it for our great seniors, he wouldn't have caused the death of 11,000 people, seniors and 40,000 people overall. Slash red tape, pioneered groundbreaking therapies, reduced the fatality rate 85%. Think of that. Think of it. I mean, look at Regeneron for me. And by the way, we're going to make Regeneron available to anybody that feels they want it, need it. Same as I had. Free. Free.

President Donald J. Trump: [\(29:48\)](#)

And the vaccines that are being produced, it's not your fault. It's China's fault. We're not forgetting. And the vaccine is going to be free. It's going to be distributed free to everybody. We will deliver 100 million doses of a safe vaccine before the end of the year. It may be quite a bit sooner than that. Seniors will be the first in line for the vaccine and our frontline workers too. I will break through every obstacle, which we've already done, use every resource and I will not rest until we eradicate this disease that should have never come to our shores or to the shores of the rest of the world. It should have never come. Never forget. We will vanquish the virus and we will emerge better, stronger and more unified than ever before.

President Donald J. Trump: [\(30:38\)](#)

If Biden and the Democrat socialists are elected, they will raise your taxes to a level that you've never seen before. Bury you in regulations, dismantle your police departments, dissolve our borders. They don't want borders. They want open borders. Even said, maybe we'll take down the wall, which is now almost complete. You know, the wall is almost complete. Just what the border patrol ... I said, give me the best. Give me your specs. I said, let me use concrete plank. I want to use concrete plank. It's quick and it's cheap. They said, Sir, we can't do that. We need steel, concrete and then rebar. I said, that's great. We gave them everything they wanted. We're now beyond 400 miles and it will be finished very soon.

President Donald J. Trump: [\(31:26\)](#)

It's amazing. It used to be all about the wall. They never thought I'd get it built. It used to be all about the wall because we had the Democrats would do anything, not to have ... Remember all the work and every day front page, the wall will not happen. It will not happen. Now that it's almost finished and you don't hear about the wall anymore, right? They don't talk about ... The fake news media doesn't talk about it. Look at how many there are over there too. That's a lot of valuable equipment. That's a lot of valuable equipment. And Mexico is paying for the wall, by the way, in case you had any question, that's the other thing. So now they know it's built, then they said, but Mexico will not be paying for. I said, no, no. Mexico is paying.

President Donald J. Trump: [\(32:03\)](#)

Then they said, but Mexico will not be paying. I said, "No, no. Mexico is paying for the wall, okay." But they'll figure that out very soon. They'll confiscate your guns, terminate religious liberty and destroy the suburbs. Women of the suburbs, you must love me, I can tell you. I'm saving you something. I'm saving, I got rid of the regulation that was going to destroy your suburbs, unless you like crime, which you don't like, right? They were doing a new thing, about three, four weeks ago. They said, "Suburban women don't like Trump. He's losing suburban." I said, "Why?" Wait. But that's only because I know two things about suburban women. They don't want a regulation that is brutal, that's going to build low-income housing next to their house. Okay. They don't want that. A project, we call it a project and they don't want crime in the suburbs.

President Donald J. Trump: [\(32:53\)](#)

Antifa says, that's the next place they want to head. They're not heading to the suburbs. You know what? As soon as I say those words, they want law, order. They want safety. They want to have their families be safe. Then they say about, I think we're going to do very well with suburban women. We have a lot of suburban women, right here. We got rid of a regulation and Ben Carson, a great guy, said, "Well, sir, you know, it'd be a lot easier if we just amended it, made it a little less onerous. It's horrible. It's horrible with your zoning, and they've changed his zoning and you can do whatever you want and ruin everything." I said, "No, Ben, let's terminate it.

President Donald J. Trump: [\(33:34\)](#)

"Well, but if we do, it'll be easier." "No, Ben let's terminate it. Let's just terminate it." I said, "Do it." He said, "That's a tough one, but we'll do it" We terminated it. It's gone. Now. If Sleepy Joe comes back, you know who's going to be a judge of it? Cory Booker's going to be a judge. Corey Booker, the mayor of, the former mayor of Newark, New Jersey, who never lived in Newark. I don't know how he got away with that one, Mike. Never lived there. They will send to you, cancel you and indoctrinate your children with anti- American lies. But we don't let that. We don't let that happen. You saw that two weeks ago. Joe Biden has made a corrupt bargain in exchange for his party's nomination.

President Donald J. Trump: [\(34:15\)](#)

He has handed control of his party over to the rage-filled socialists, Marxists, and left-wing extremists. Right? Because Joe doesn't have a clue. Let's not kid ourselves. Joe, how you doing, Joe? Not well. Oh, I got to tell you, wait, wait, wait. The poll's right? Winning 52% and 53%, not bad, right? That's national. That's almost, as crazy as it is, it doesn't mean anything. Nevada, Trump is up by two. Texas, trump is up by four, much more than four. Remember guns, oil and God, I'm on their side. He's on the other side. Let me ask you, maybe even more so that if a candidate is running in Texas and he said we are against oil, I think that's it. Right? But, now add guns to it and now add religion. That's what they're doing.

President Donald J. Trump: [\(35:16\)](#)

They're closing your churches. Your churches are all closed. It's terrible. It really is terrible. Ohio. We're up big. Ohio, the great state of Iowa. We have great people in Ohio. Jim Jordan, do we like Jim Jordan everyone? NCAA wrestling, champ. People don't know that about Jim. You know about Jim. NCAA wrestling, real tough guy and a great guy. Florida, we're up four. Just came out. Just came out. Rasmussen. Georgia, we're up very nicely. Four or five, but we're really up much more than that. Don't forget if we're up four, add another four or five, six, seven to it. I'm not sure I'm proud of it, but people don't want to talk about it. Right? They don't want to talk, but they vote. They vote. Arizona. We're up in Arizona. We're up in Iowa. We're up big in Montana. Well, Montana, we're up really big. We're up in Utah and we're up 22 points in West Virginia, West Virginia.

President Donald J. Trump: [\(36:14\)](#)

But you don't hear this when you watch, because there's suppression. They want to give you a negative stuff. There's suppression. They're very dishonest people, but that's okay. They were dishonest last time too. Worst sexually, right? Like you got to get out, you got to get out and vote. We got to put this thing away. We win Pennsylvania, we win the whole ballgame. We win the ballgame. You're known as a late voting state, right? Very late, which is a good thing. Who is going to vote soon? Who is going to vote on November 3rd. One of the few, right? Yeah. You don't like a ballot sent out and then thrown into a garbage. You're known for it. It's called smart people. Who is going to vote for Sleepy Joe Biden? Only if you have the courage. Only if you have the courage to raise your hand. Please don't do it. Who is going to vote for President Trump?

President Donald J. Trump: [\(37:24\)](#)

All right. Now we're going to have a big ... They call it the great red wave and they're waiting for it. All these ballots came pouring in. These crazy ballots are pouring in from all over. They send the ballots out. Nobody knows who's sending them, who's receiving them, who's signing them. You know, they want to have a thing in Nevada where you don't have to prove signature, minor things like that. Right? But they're going to have a wave, and they're all saying about the red wave, but I think the great red wave is going to be much bigger than people have any understanding about, I think.

President Donald J. Trump: [\(37:56\)](#)

But, you hear those numbers. You don't hear those numbers, when you watch the fake news. It's depression. They want to make you nice and depressed. You take your wife or husband, you say, "I really like the president, but he can't win because I listen to fake CNN or I listen to Fox. Fox, by the way, Fox has the worst polls of all of them. They had four years ago ... They have the worst. I said, "They have the worst." You hear that, John Roberts, who I like a lot. They have the worst ... He's right there. Hi John. They have the worst pollster of anybody. Fox is terrible. They got it so wrong last time. But, you listen to these polls and you say, "Let's go to dinner, darling," and then we'll go home, and sadly we'll watch television. But you know what happened four years ago? Everyone said, "No, we're not going to dinner. We're going to vote." Right?

President Donald J. Trump: [\(38:46\)](#)

Hillary, with her statement about the Deplorable, right? The Deplorable. Well, the Deplorable decided to vote. That was incredible. Was that incredible when she said that? Who would have thought that was so bad? It was the pros. She actually said a worse word than that, right? The Irredeemables. Remember, she said the Deplorable and the Irredeemables. I thought Irredeemable was worse than a deplorable. Right? But it didn't catch on. The thing that caught on was deplorable. The next day, I was making a speech like this and it came out, it came out, we are deplorable. They came out by the millions. That shirt sold like crazy.

Crowd: [\(39:22\)](#)

President Trump, President Trump, President Trump, President Trump, President Trump, President Trump.

President Donald J. Trump: [\(39:34\)](#)

The fake news, every time that happens, and now it's happening with Biden because that's a crime family, frankly. But every time that happens, where they say lock her up, lock him, they always blame me, and I have nothing to do with it. I'd mentioned the name and the place goes crazy. They said, "You incited that." I said, "I didn't even talk about it." You see that fake show last night, 60 minutes? I did a good job. That was a very hostile attack by a woman that do nothing. If Biden wins, the flag-burning radicals on the streets will be running your government. You know that. Look at Portland. We want to go into Portland. We did a great job. If you look at Seattle, we said, "We're going in," and the night before they said, "Okay, we're leaving now," because we have to be asked in. The federal government has to be asked in.

President Donald J. Trump: [\(40:22\)](#)

Then we did a great job in Minnesota. Minneapolis, I mean, they should have told us to go there a week and a half early. It would have been nice. It would have saved a lot of destruction. Remember the CNN anchor, Velshi? He said, "We are here." They don't want to talk about riots because it's bad for them. "We are here at a peaceful demonstration and behind him, right over, the entire city is burning down. Right? They had a fire that looked like Berlin on its worst day. The whole place was burning down, and then he said "The military has formed," what was, it was a great group of people. You saw that, the National Guard. It was one, two, three. All of a sudden they started. One line, two lines, and they just marched forward, that tear gas.

President Donald J. Trump: [\(41:07\)](#)

Didn't Velshi get hit on the knee with tear gas, and he went down? They said, "He's down." Velshi, I don't even know who the hell Velshi is. I just remember, did a little shave job with his head. I was thinking about doing it. I was going to do a little bit, but I decided against it. I didn't want to go down 25 points in the poll. Ali Velshi, he got hit on the knee with tear gas, right, and he went down. He was not the bravest guy, but I'll never forget the scene of him saying, "This is a friendly protest," and behind, I'm telling you, I never saw a fire like that. It was the craziest thing, but we did a great job. We sent him the National Guard and the National Guard, it was over in what, a half hour, max?

President Donald J. Trump: [\(41:47\)](#)

They just started walking. World's most expensive uniforms. Their helmet costs, like a giant computer. They just, and there was something very nice about it after watching what went on for a week and a half, but all of it, we could solve it all. All they have to do is ask us. The federal government is waiting and it's always run by Democrats. New York problem run by Democrats, Chicago problem. How do you like her as a mayor? Isn't she wonderful? Run by Democrats, all run by Democrats. This election day, the people of Pennsylvania need to defy the corrupt media, the big tech machines, and you look at what they're doing. They're protecting. They won't write anything negative about a man who is corrupt. They won't write. There is nothing they will allow to go in and the forces trying to keep you down and hold you back, it's the most incredible thing going to give great credit to the New York Post to endorse me today, by the way.

President Donald J. Trump: [\(42:48\)](#)

Because, they're the only one with the courage to do it, and they're out there. It's great, what they're doing. You must stop the anti-American radicals from doing what they're doing. You can't let the Democrats and Joe Biden have a far-left victory. This has to be a thundering defeat. Not just a defeat. It has to be a rebuke, a rebuke of socialism and as corrupt as he is, and all the things ... His son is like a vacuum cleaner. "Let me follow you into China, Dad. Dad, I'm going to be managing one and a half billion dollars." "Have you ever done it before, son?" "No, I haven't Dad. I have no idea." They've never done a deal like that. China doesn't do that. They will give other people money to manage. But, the scary part is that remember, the big guy gets 10%, right?

President Donald J. Trump: [\(43:43\)](#)

The big guy, he's the big guy. I don't think he's the big guy. The big guy gets 10%. The big one with China, was they wanted \$10 million a year for introductory purposes. \$10 million year. I wonder what that was all about. That sounds like a reasonable number. Then Ukraine, 183,000 a month to sit on a board of an energy company with a questionable reputation. Sit on the board, and he has absolutely no knowledge of energy. This young person sitting right here, very young, knows more about energy than Where's Hunter. I call Hunter, his real first name is Where. Where's Hunter? Remember we made the t-shirt.

President Donald J. Trump: [\(44:27\)](#)

Joe wants to send your jobs to China, while his family rakes in millions and millions of dollars from the Chinese Communist Party. Oh, they want him to win. Can you imagine, I'm charging them billions of dollars in tariffs. Joe said he would take those tariffs off of [inaudible 00:44:45]. Billions, I gave 28 billion to

the farmers in Iowa, Nebraska, all of the farmers because they were targeted, and Joe wants to take the tariffs off. I gave him ... Remember, 25% dumped steel that were killing our steel companies. 25%. Our steel companies had been doing great now. If Biden wins, China wins. When we win, America wins. If I don't sound like a typical Washington politician, it's because I'm not a politician, if that's okay.

President Donald J. Trump: [\(45:17\)](#)

I don't always play by the rules of the Washington establishment, is because I was elected to fight for you harder than anyone has ever fought for you before. You think this is fun? I had our good life before this. I had a nice, beautiful ... I could go anywhere. I could do anything.

Crowd: [\(45:40\)](#)

We love you. We love you. We love you.

President Donald J. Trump: [\(45:41\)](#)

Thank you.

Crowd: [\(45:48\)](#)

We love you. We love you. We love you.

President Donald J. Trump: [\(45:52\)](#)

Thank you very much. That's a chant, they say they've never, ever heard in politics. I won't repeat the chant because I don't want to cry. I'll start crying. Now, they'll say. "President Trump broke down in tears today." We are joined today by a couple of warriors, real warriors and great people. These are people that have been with me day and night fighting this movement, this horrible left, radical, left movement. Congressman John Joyce, Congressman GT Thompson, great people and a man who is so popular. He was with me the other night, different location. It was about 30 degrees out and he refused to put on a jacket. By the end of the evening. I think he regretted it, but he's never say, he's a powerful guy. He's a great guy. He loves everybody, and they love him. Mike Kelly, Congressman Kelly. Right?

President Donald J. Trump: [\(46:58\)](#)

As well as state Senator Judy Ward. Thank you, Judy. Thank you. Thank you, very much. Thank you, Judy. Great job, you're doing. We built the greatest economy in history and now we're doing it again. Make America great again, again, right? Remember? Make America great again, again. We did it and now we've got to do it again and it's happening much faster than anybody could have believed. We increased middle-class family income over \$6,000, more than five times the gains in all eight years under the last administration. That's really something, right? Did you see the crowd that President Obama had today? Nobody, nobody showed up. I thought they'd have a little crowd. Didn't quite have a crowd like this. No, nobody showed up. They said, "He's going to start campaigning." I said, "Who?" "Barack Hussein Obama." I said, "Oh, I said, is that good or bad?" Because, he campaigned harder than Hillary the last time. How did that work out? It didn't work out. But, he went to a few locations. He's averaging about 25 people. He's averaging very little. It's disappointing. African-American unemployment-

President Donald J. Trump: [\(48:03\)](#)

He's averaging very little. It's disappointing. African-American unemployment, Hispanic-American unemployment, Asian-American unemployment, people with diplomas from high school, without diplomas from high school, college diplomas, MIT, first in your class, everybody was employed. Women. Women had the best they've had in 71 years. All reached their lowest levels ever recorded. Since April, we created a record, never happened before, 11.4 million jobs, just April. We achieved the most secure border because of the wall, largely.

President Donald J. Trump: [\(48:37\)](#)

Mexico has 27,000 troops at our border protecting it for us. I said, you got to do that. Good man, president of Mexico, good man. My opponent's insane immigration plan would eliminate us borders by implementing nationwide catch and release. That's where you catch a killer and you release them into our country. And we say, come back in four years. You have a court case and remember Joe at the debate, he said, they come back. They don't come back. Only the ones with the extraordinarily low IQ come back. Nobody comes back. They don't come back. We never took that one up.

President Donald J. Trump: [\(49:10\)](#)

But remember we had a little argument about it. He said, they come back. They don't come back. Making every community a sanctuary city for violent criminals. We're not going to do that. They want sanctuary cities for violent criminals. The Biden-Harris plan would also increase refugees 700% from the most dangerous places in the world. They pledged to terminate all national security travel bans. I have a travel ban. It was very tough. People didn't like it. I said, no thank you. I don't want people that want to come into our country and blow up our stores and our streets and our people.

President Donald J. Trump: [\(49:45\)](#)

And I put in a very strong travel ban and we won in court. We won at the United States Supreme Court. You don't mind. We keep out radical Islamic terrorists. We keep them out. We invested \$2.5 trillion in our US military, 2.5 trillion with a T. With a T. See, Joe would say, we invested \$2.5 million. Said, no, it's trillion. Oh, it is? Oh, I didn't know. You know, the worst is when he constantly is saying that number one, he's running for the US Senate. I'm a proud Democrat running for the US Senate. Thank you very much. That's only happened three times.

President Donald J. Trump: [\(50:36\)](#)

But the worst of all is when he says like tonight, it's great to be in the state of Ohio. No, no, Joe you're in Pennsylvania. No, no. It's Ohio, isn't it? Or when he was in Idaho and he said, Iowa. It's great to be in Iowa. No, no. It's Idaho. Potatoes, [inaudible 00:50:58] by potato, Idaho potato. Or when he's in Miami with the trees, beautiful palm trees, and he says, he's in Vermont. It's great to be in the state of Vermont. And you have palm trees all over the place. And I always say, if you ever do that when you speak, I haven't done it yet think of it in four and a half years.

President Donald J. Trump: [\(51:18\)](#)

If you ever do that, just walk off the stage because there's nothing you can do to make up for it. You can be the great Winston Churchill. He was a great orator, Winston Churchill. Wouldn't make any difference. They'd say the speech was a disaster. We also passed VA Choice and VA Accountability. And exactly one year ago today we killed the leader of ISIS, blood thirsty al-Baghdadi. And we took out the number one terrorist in the world, Soleimani is dead. I withdrew from the last administration's disastrous Iran nuclear deal. Think of it, 1.5.

President Donald J. Trump: [\(52:03\)](#)

Think of it, gave 1.8 billion in cash, \$150 billion for nothing. We got nothing in that deal. In fact, the deal would be almost terminating now, short term deal. What were they thinking of? John Kerry. Remember he went into a bicycle race. He broke his arm and his leg. I kept saying, leave the table, leave the table, get up and negotiate tough. Leave the table. So he left, went in a bicycle race. He didn't come back for two months. Should have stayed out much longer than that. What a deal that was. And we terminated it. And Iran now is having a very bad time.

President Donald J. Trump: [\(52:38\)](#)

And the first person that's going to call me after we win, the heads of Iran, because they are losing a fortune and I don't want that to happen, but they can not have a nuclear weapon. They cannot have it. They'll call and make a deal. I said, you better wait. You better wait until after the election. Let's do it right. I recognize the true capital visual and opened the American embassy in Jerusalem. Every president said they were going to do it. Every president for decades and decades said they were going to do it. Wasn't that easy. It was tough. Once you get in there, there's a lot of opposition you get to doing it.

President Donald J. Trump: [\(53:16\)](#)

But we did it. We got it done after many, many years. Instead of never ending wars, we're forging peace in the Middle East, no cost and no blood. No cost and no blood. Now it's amazing. Amazing. You saw three countries now and we have countries lined up to get in the deal and they all said, you couldn't do it this

way. I reversed it because it wasn't working. I reversed it. And we just did Sudan, UAE, Bahrain. And there's a lot of countries. They'll all be in there. They'll all be in. No blood in the sand. No blood, Mike. No blood in the sand. No costs, no nothing.

President Donald J. Trump: [\(53:56\)](#)

They've been fighting that stuff for so many years. They all want to see if they can do something. A vote for Republicans is a vote, and I mean truly a vote for the Republican, it's a vote for the American dream, if you think about it. It's the American dream. It's the American dream. We're the party of Abraham Lincoln. A lot of people don't know that. The great Abraham Lincoln, the man that I've always competed against. I said, I can be more presidential than any president ever, except for the possible exception of Abraham Lincoln when he's wearing the hat.

President Donald J. Trump: [\(54:34\)](#)

That's tough. I can be actually. It'd be easy. Much easier than what I do. It'd be much easier, but we wouldn't have quite this audience, which goes back to a point where you can't even see it. I'd love to have the cameras show it, but they don't want to do that. They don't want to do that. They don't want to show it. I don't want to show this crowd because it'll look like we're having too much success and they don't want that. So in conclusion, over the next four years, we will make America into the manufacturing superpower of the world, and we will end our reliance on China.

President Donald J. Trump: [\(55:07\)](#)

We're already doing it. We will hire more police, increase penalties for assaults on law enforcement, and we will ban deadly sanctuary cities. We will uphold religious liberty, free speech and the right to keep and bear arms, second amendment. Your second amendment under siege, but we've got it. We've got it okay for you. We will end surprise medical billing, require price transparency, a big deal. It's already signed, goes into effect on January 1st, bigger than healthcare, you watch. Lower drug prices even more and we will always protect patients with pre-existing conditions, always.

President Donald J. Trump: [\(55:54\)](#)

Right? They agree. We will stop the radical indoctrination of our students and restore patriotic education to our schools. We're already doing it. We will teach our children to love our country, honor our history and always respect our great American flag, always. And we will live by the timeless words of our national motto, in God we trust. For years, you had a president who apologized for America. Now you have a president who is standing up for America and standing up for the great people of Pennsylvania standing up. For the last four years, you have seen me fight for you, and now I am relying on you to deliver another historic victory for our country.

President Donald J. Trump: [\(56:59\)](#)

On November 3rd or sooner, we must finish the job and drain the swamp. It's deeper and more vicious than we thought. But we got him on the run. Boy, do we have them on the run. Think of it, they spied on our campaign. It's our campaign. They spied what they did to us and this new one is just incredible. I say, it's number two. Number one, they spied our campaign and then they tried to harm a duly elected president and then they talk about peaceful transition. Now what we did and the fact that we were able to catch them and fight them and beat them and we know everything about them, watch what happens.

President Donald J. Trump: [\(57:40\)](#)

Just watch what happens. Get your friends, get your family, get your neighbors, get your coworkers and get out to vote. You got to vote. We got to get out to vote. From Allentown to Altoona, from Erie to Eastern and from Pittsburgh to right here in Martinsburg, we stand with the [inaudible 00:58:05]. You like this location should, right? We stand on the shoulders of Pennsylvania patriots who gave their blood, sweat, and tears for this beloved nation. This is the state where our founding fathers declared American independence. Think of Pennsylvania. Think of what you've done.

President Donald J. Trump: [\(58:27\)](#)

Think of how important it is. It's where the army weathered its brutal winter at Valley forge, Valley forge, where general George Washington, they will not be touching The Washington Monument, I promise. Led his man on a daring mission across the Delaware and where our union was saved by the heroes of Gettysburg. What history. This is the place where generations of tough, strong Pennsylvania workers mined the coal, worked the railroads and forged the steel that made America into the greatest and most powerful nation in the history of the world.

President Donald J. Trump: [\(59:08\)](#)

And we are making it stronger and stronger every single day. Proud citizens like you helped build this country and together we are taking back our country. We are returning power to you, the American people. With your help, your devotion and your drive, we are going to keep on working, we are going to keep on fighting and we are going to keep on winning, winning, winning. We are one movement, one people, one family, and one glorious nation under God and together with the incredible people of Pennsylvania, we have made America powerful again.

President Donald J. Trump: [\(59:56\)](#)

Our military, never been a military like we have. We have made America wealthy again, 401(k)s, stock market. We have made America strong again. We have made America proud again. We have made America safe again.

Donald Trump: [\(00:11\)](#)

Thank you. This is a big crowd. That's a lot of people. That's a lot of people let's see here. Early in the day... That's a lot of people. They've got themselves a big, big surprise coming, don't they huh? It's like four years ago, except now we've done it all so now you know. You know before I'd come in and say, "We're going to do this. We're going to give you tax cuts. We're going to rebuild your military. We're going to give you regulation cuts, the biggest in history." But now we've done it all so now you know.

Donald Trump: [\(02:20\)](#)

It's not just talk. The others all talk, no action. This is not talk. We've done it. We've done so much. Hello, Pennsylvania. Eight days from now, we are going to win the Commonwealth of Pennsylvania and we're going to win four more great years in the White House. Our opponent Sleepy Joe Biden, you heard it the other night at the debate. Did anybody see the debate? That's where he said that there will be no fracking, right? No energy. How about a million jobs from Pennsylvania? Forget about it.

Donald Trump: [\(03:18\)](#)

His agenda is one of doom and gloom and depression and despair. He's right now locked in his basement. He's put the lid on. You know the lid on the garbage can. That's what they [inaudible 00:03:29]. Somebody said he's going to make his way out. You know he sees we had a tremendous crowd before. We have another one of these and you know those ... Well, I love you too. I don't know who she is, but she sounds very nice. She sounds very nice. Thank you very much. Thank you very much.

Donald Trump: [\(04:00\)](#)

No, no, he saw what went on two hours ago at another location in Pennsylvania and he said, "We better get out." I don't think he said it. His people said, his handlers they said, "Listen, Sleepy Joe, we got to get you out of the basement." So they just announced, you know this morning they announced they're putting the lid. You know the lid? And I hear it's for five days, five days. That's 50% of the campaign. Now but they just announced we had a tremendous, I mean just a lot of love, right? And they just announced he's leaving to make his speech. You know where he's going to make it? In Delaware. He always makes it in Delaware.

Donald Trump: [\(04:38\)](#)

About three minutes from his basement. They got to get him out. That's why. They got to get him out. They see what's happening. You know our polls are through the roof and the fake news. Look at all those people there. They don't like to report it. They don't like to report it. Our agenda is one of unlimited optimism, opportunity, growth, patriotism, prosperity, and true American pride. That's what we have. That's what we have. You heard him the other night. "This is going to be a dark winter." No, it's not going to be a dark winter. It's going to be a great winter. It's got to be a great spring.

Donald Trump: [\(05:22\)](#)

For the last half century, Joe Biden's been outsourcing your jobs right here in Pennsylvania. You were one of the biggest victims of it. Opening your borders and sacrificing American blood and treasure in endless foreign wars. They just never ended. Countries you've never even heard of. And we're bringing them all back. Our boys and young women are coming all back. Now Biden is trying to ban fracking. You heard it the other night. Oh, it was so nice. He almost made it through the debate. I was a little surprised. Wasn't great, but he was fine. And then we talk the energy question and he forgot. He forgot.

Donald Trump: [\(06:09\)](#)

Now we want to wean ourselves off energy. Oh, that's not so good. And I said, "Texas, are you listening?" Pennsylvania, are you listening? Now he's going to ban fracking because he has no choice. His party wants to ban it. He's going to ban fracking and deliver an economic death sentence for Pennsylvania and for many other places in our country. And frankly it affects not just places that frack and oil territory, you know who it affects? Everybody having to do with paying an energy bill. How about the \$2 gasoline for your car? That's not bad, right? Remember? Remember what it used to be? 5.50 and nobody saw an end in sight.

Donald Trump: [\(06:51\)](#)

We have it to two and even sometimes below, at the same time we saved our great companies, our energy. We're number one in the world now, by far number one in the world. And Pennsylvania is a big, big part of it. In last week's debate, Joe Biden confirmed his plan to abolish the entire U.S. oil industry. I said, "You mean no more oil, Joe?" "Well, that's what I mean."

Donald Trump: [\(07:18\)](#)

I felt Like Perry, Mason. You ever watched Perry Mason? That last little. It was always the last minute. "I did it. I did it. Yes I did it. I was Perry Mason. No oil, Joe? She even said, "Why did you say that?" Right? Kristen, who was very good. Actually, I thought she was good. A lot of people thought she was tough. I thought she was very good. I thought she was good. I mean, considering that it was sort of supposed to be two on one from day one. Right? We've had that from the beginning, haven't we huh? And here we are. Here we are.

Donald Trump: [\(07:56\)](#)

No, I thought she was good. But she said that, right? She said, "Why did you say that? Why?" And that's when he really got into trouble. That means no fracking, no natural gas, no jobs, no energy for Pennsylvania families. He will eradicate your energy and send Pennsylvania into a crippling depression. And that's what you'll have. If this guy gets in with the biggest tax cuts. Look, I gave you the biggest tax cuts in history. He wants to give you the biggest tax

increase in history. Once they raise your taxes by the most ever ... Think of this. All my life I've been watching politicians. "We will give you a tax cut. We will cut your taxes. We won't cut them. We won't cut them."

Donald Trump: (08:42)

This guy is running against me. "We will raise your taxes." Who the hell ever heard of that? I never heard of it. This could only happen to me. And then you have Biden's running mate. How about her, Kamala? She's considered America's by far most liberal senator. She's more liberal than Crazy Bernie, can you believe it? Even sponsored the \$100 trillion Green New Deal, which will destroy our country. Totally destroy it. No planes, no cars. No cows, right? No cows. Cows are next. They took it out, but only temporarily they'll do it. They don't like cattle of any kind. And it's a plan for economic suicide. 100 trillion. If our country did great every year for a hundred years, we'd lose a fortune at a 100 trillion. You couldn't make that much no matter how well we did if everything was going on all 12 cylinders. 100 made up by AOC plus three, a great student of the environment. I don't think she ever took an environmental course in college. She did go to college, right? AOC plus three, I heard she was very upset that I was calling her AOC plus three, three years her friends. Her three friends that know less than she knows.

Donald Trump: (10:08)

Joe Biden is a diehard globalist who wiped out your steel mills, closed down your factories, killed your coal jobs, outsourced your industries. And supported every horrible, terrible, ridiculous trade deal for over a half a century. Think of it. 47 years plus. He was a cheerleader for NAFTA, the worst trade deal ever made and I ended it. Remember I used to say, "We're going to end" and everyone smiled. They said, "Hey, look, give it a shot." I got it done. Nobody thought I could get that done.

Donald Trump: (10:46)

And USMCA just kicked in and it's incredible for our country, less for their countries, but that's okay. They're happy sort of. Not too happy. He enthusiastically voted for China's entry into the World Trade Organization. That was the beginning of the China rise. That was a disaster. They were flatlined for years and years and then boom. Thank you very much, Joe. I appreciate it, Joe. Joe and others decimating your manufacturing and enriching China at your expense. You know that.

Donald Trump: (11:17)

You know that China's considered a third world country and for purposes of that it's considered a developing country so they have all sorts of advantages over us in this horrible, horrible World Trade Organization. But we just won a seven in a half billion dollar lawsuit because they know I'll pull so fast out of that mess. That is such an unfair deal. And all of a sudden we're winning. All of a sudden we're winning cases. Seven and a half billion. Seven and a half billion. They're not happy about it.

Donald Trump: (11:54)

Now but think of it. They're considered a developing nation. I said, "So we're a developing nation too. We're developing. They're developing, we're developing. They get big advantages." Nobody ever says, Obama never said anything. Sleepy Joe never said that. I'm the one that figured it out. I said, "How come they're getting all these great deals?" "Well, sir, they're considered a developing nation. Whereas the United States is considered developed." And I said, "We're not developed. You got to be kidding me. We're not developed." We want to be a developing nation also.

Donald Trump: (12:22)

And so having a big dispute, World Trade. Well, World Health, right? So we were paying 500 million a year. China was paying 39 million a year. China had more access and more power within the realm than we did. So I said, "Let me ask you a question.: Number one, they were wrong on almost everything. I don't want to knock them, but they were wrong on the pandemic. They called a lot of shots wrong, almost everything. They were in China's pocket. I said, "Just out of curiosity, let's get down to dollars. Why are we, 325 million people, why are we paying 500 million and why is China paying 39 million? And China has more power within than we do." So if you don't mind, I withdrew from the World Trade from the World Health. From World Health. I withdrew from World Health.

Donald Trump: (13:21)

And I promise you one thing, if we ever go back, we can go back from which less money. That I can tell you. You don't pay 500. No, but seriously. So they have 1.5 billion people. They're paying 39, right? We have 325. We're paying 500. Other than that, it's a wonderful transaction. I say, "Oh, we have hundreds." I could talk to you all day about it. We have hundreds of things just like that.

Donald Trump: (13:45)

Pennsylvania lost 50% of its manufacturing jobs after Biden's NAFTA and this China disaster that we signed. Decade after decade, vote after vote, Biden betrayed Pennsylvania. He betrayed our country through sheer stupidity. Even his Secretary of State who was also Secretary of Defense said, "He never made the right decision on foreign events, on foreign deals on foreign anything. He never made the right decision on economics. The guy doesn't know what the hell he's doing." Do you finally understand this? He repeatedly tried to cut social security and Medicare. I think we have it. It costs a hell of a lot of money. We're only doing this for very important groups.

Donald Trump: (14:36)

See that screen up there? It costs a lot of money. Look at these cranes over there holding up the flags. I love that. I hope that'd being donated by the crane company for the good publicity they're going to get. But that's a lot of holding up the flags, but you know what? Our flag deserves a lot of power, doesn't it? Now after years of economic treachery, Sleepy Joe Biden wants to ban fracking. And that's what he is. We have the tapes. Remember he said, "Oh, play the tape." This guy went for a full year. "We will ban fracking. We will ban fracking" like a hundred times. I could have this thing running for hours. I'll just show you a couple.

Donald Trump: (15:29)

When it goes on. Cecil B. Demille. When it goes on, right? I'll just show you a couple. But he went for a whole year, "We will ban fracking, ban fracking." Then he got lucky. Elizabeth Warren decided that she wanted to hurt her person where the philosophies are the same. So she stayed in. Think of it. Elizabeth Pocahontas Warren. All she had to do is get out before Super Tuesday and Joe would not have won any state, right? Wouldn't have won a state. She took the votes away from Crazy Bernie and you know Bernie is the best sportsman I've ever seen. He loses all the time and he's happy.

Donald Trump: (16:06)

He goes back into Congress ... Is Bernie running again in four years? Does anyone know? The press? Look, I'll ask the fake news. Well, they'll give you a fake answer. No, it's true. He's a tremendous loser. He is a tremendous loser, but he did us some big favors. You know, we had a lot of Bernie's people come with us last time because they agree with me on trade. They couldn't have done what we did, but they know that we were being taken advantage of by foreign countries. Many of whom are allies. You know they keep saying, "We don't treat our allies right." Well, they don't treat us right, either. Got to remember that they don't treat us right.

Donald Trump: (16:42)

You don't have to take my word about his record. Just take a look at this magnificent tape that we made for you, for the people of Pennsylvania. And it really pertains to you so much. Go ahead.

Joe Biden: (16:54)

My problem is I voted for NAFTA. I'm supporting NAFTA because I think it is a positive thing to do. And I do not pretend to be an expert on international trade matters.

Speaker 1: (17:06)

When you ran for president and when Barack Obama ran for president, you both said you would renegotiate NAFTA. You didn't.

Bernie Sanders: [\(17:12\)](#)

Trade agreements like NAFTA and Permanent Normal Trade Relations with China, which forced the American workers to compete against people who are making pennies an hour has resulted in the loss of 160,000 jobs.

Speaker 2: [\(17:25\)](#)

The president is absolutely right when he says that China has been cheating for 25 years and that Bill Clinton didn't do enough about it. George W. Bush didn't do enough about it. Barack Obama didn't do enough about it.

Barack Obama: [\(17:35\)](#)

How exactly are you going to negotiate that? What magic wand do you have?

Joe Biden: [\(17:40\)](#)

A rising in China is an incredibly positive development for not only China, but the United States and the of rest of the world. A rising is a positive, positive development. It is in our self-interest that China continue to prosper. We want to see China rise. China's a great nation and we should hope for the continued expansion. China is not our enemy. We talk about China as our competitor, we should be helping.

Joe Biden: [\(18:11\)](#)

The idea that China is going to eat our lunch is bizarre. The idea that they are competition, they're going to beat us is bizarre. China is going to eat our lunch? Come on, man. They're not bad folks, folks. China's not a problem.

Speaker 1: [\(18:27\)](#)

Allowing China into the World Trade Organization, which you supported extending most favored nation status to China, which you supported, that those steps allowed China to take advantage of the United States by using our own open trade deals against us. Do you I think in retrospect that you were naive about China?

Joe Biden: [\(18:50\)](#)

No.

Donald Trump: [\(18:51\)](#)

Today we're finally ending the NAFTA nightmare and signing into law the brand new US-Mexico-Canada Agreement, very special.

Speaker 3: [\(19:01\)](#)

Listen, it's hard to overstate the importance of USMCA. This is the single biggest bipartisan legislative victory for this president and this administration. It is a huge deal.

Speaker 1: [\(19:13\)](#)

Wage growth is better than it has been since 2009. That means it is better than it has been for seven out of eight of the years that Obama was president.

Donald Trump: [\(19:21\)](#)

The new USMCA has powerful protections to keep auto manufacturing jobs. Since the election, we've created 41,000 brand new motor vehicle and parts jobs.

Speaker 1: [\(19:34\)](#)

But doesn't he deserve some credit for that? It's better. The USMCA is better than NAFTA.

Joe Biden: [\(19:39\)](#)

It is better than NAFTA.

Kristen Welker: [\(19:40\)](#)

... Senator Biden to respond.

Joe Biden: [\(19:44\)](#)

I never said I oppose fracking.

Donald Trump: [\(19:46\)](#)

You said it on tape.

Joe Biden: [\(19:48\)](#)

I didn't. Show the tape. Put it on your website.

Donald Trump: [\(19:50\)](#)

I'll put it on.

Joe Biden: [\(19:51\)](#)

Put it on the website.

Speaker 4: [\(19:54\)](#)

Would there be any place for fossil fuels, including coal and fracking in a Biden administration?

Joe Biden: [\(20:01\)](#)

No, we were working it out. We would make sure it's eliminated. I guarantee you we're going to end fossil fuel. No more, no new fracking. I'd gradually move away from fracking.

Kamala Harris: [\(20:17\)](#)

And I think it's critically important on day one that we end any fossil fuel leases on public lands.

Speaker 5: [\(20:24\)](#)

What about safe stopping fracking and stopping pipeline infrastructure?

Joe Biden: [\(20:29\)](#)

No pipelining. Exactly. They want to do the same thing I want to do. They want to phase out fossil fuels and we're going to phase out for fossil fuels.

Kamala Harris: [\(20:38\)](#)

There's no question I'm in favor of banning fracking.

Kristen Welker: [\(20:41\)](#)

I have one final question-

Donald Trump: [\(20:42\)](#)

Would he close down the oil industry? Would you close down the oil industry?

Joe Biden: [\(20:45\)](#)

By the way, I would transition from the oil industry, yes.

Donald Trump: [\(20:48\)](#)

Oh, that's a big statement. That is a big statement. In terms of business, that's the biggest statement because basically what he's saying is he is going to destroy the oil industry. Will you remember that Texas? Will you remember that Pennsylvania, Oklahoma? Goodbye, Pennsylvania. Thank you very much. Make sure you vote properly. No, I'm kidding. What do I have to speak about? Okay? He's going to destroy your economy. I mean, he said it and then he lies. He goes and says for a year, "There will be no fracking. And then he goes and he says, "There'll be fracking" because he comes here, somebody explains that you have a million jobs in fracking. And he goes, "Oh, I didn't know that. Oh, well, I never said that." For a year he said it many, many times. We only put four or five versions of it up. We could have kept you here all day.

Donald Trump: [\(22:06\)](#)

And by the way, Barack Hussein Obama showed up too. You know how many people he's drawing at these rallies? He's drawing flies, flies. 20, 30, 40. Not quite this crowd. Oh, did you see the other day? You see the other day, Mr. Congressmen? A great Congressman. He had 41 people, but the press never shows that. They show him speaking. Now with me, I want the opposite. I want them to show this crowd in the middle of the day on a Monday. What a beautiful, raining. I mean, It's amazing. Right? Middle of the day. It's incredible. No, he has 41 people, they're 22 people and he gets up and then they say, "Oh, he's so rhetorically good." I never thought he was a good speaker personally. I really never did. Then they say he's so handsome. He's so handsome. Oh, okay-

Donald Trump: [\(23:03\)](#)

... he's so handsome. He's so handsome. Oh, okay. All right. But they don't want to show ... you know what they don't want to show? They don't want to show this crowd. They don't want to show the crowd. You know what? They don't want to show this crowd for the exact opposite reason because this is amazing. You know what, honestly, no matter where we go, Wisconsin, Ohio, North Carolina, we have crowds nobody's ever seen, in the history of politics there has ... and I say it, knowing, going, oh, that'll change it. In the history of politics, and you know, we have Pennsylvania Dutch.

Donald Trump: [\(23:40\)](#)

Don't tell anyone, you know, they're great people. They're great people, but they're not known for going out and voting for a lot of ... Don't tell anybody, but the Pennsylvania Dutch are voting en masse. They're voting.

Donald Trump: [\(23:55\)](#)

I heard that the other day. They said, "We can't have a man who sleeps," they work hard. We can't have a guy that sleeps all day in a basement. We can't. We like Trump. We like Trump. That's great. Thank you. There's a little relationship there. You know, a long time ago, a little relationship there, hard workers, incredible craftsman. You've done work for me over the years, I'll tell you, they can throw up a barn in about two days.

Donald Trump: [\(24:27\)](#)

They can throw it up, and they use the wooden cogs, they don't use screws because they want to make everything themselves. Right? And that is the most beautiful place. Really, you do great work. Thank you very much. We appreciate it.

Donald Trump: [\(24:38\)](#)

In 2016, Pennsylvania voted to fire this corrupt far-left political establishment, and you elected an outsider as president who is finally putting America first. With your vote, we will continue to fight for American workers, nobody's ever fought harder, lower drug prices. I instituted a favored nations laws. The drug companies do not like me. You're going to have a 60, 70, 80% drop in drugs. Last year was the first year at 52 years, that drug prices went down. They went down very little, but they went down, in 52 years, but that's the peanut stuff.

Donald Trump: [\(25:20\)](#)

The big stuff is favored nations. They are not happy. Big pharma, most powerful lobbyists. They spend money like it's water. They are spending more money on me right now than sleepy Joe and commercials, big pharma because we pay the highest prices in the world, and I said, "I want a favored nations," where we matched ... We match now the lowest country in the world. So we go from the highest to the lowest because I instituted something that nobody thought anybody would ever do.

Donald Trump: [\(25:56\)](#)

And they want to make a deal. They all get paid like 30 million a year. They're very smart. I used to say, "If you don't cut your drug prices, I'm going to institute favorite nations." "Oh, we don't mind that, sir. We don't mind that. We don't mind that." When I did it, they went crazy. They're good poker players, but they want to make a deal. So let's see. Maybe we'll make a deal. Maybe we won't. But in the meantime, you have favorite nations.

Donald Trump: [\(26:19\)](#)

I'm telling you, I see the great Jeffery Lord there. Is that Jeffery Lord? You're going to drop ... Jeffrey, formerly of CNN, and then he became a Trump guy and CNN said, "We got to get this guy off. We got to get him the hell out of there." You look good, Jeffrey. You look good. He's been a great guy, actually. He was in a hostile territory for a long time, but he knew what was right. He always knew I was right. Thank you very much Jeffery.

Donald Trump: [\(26:47\)](#)

We want to support our police, protect our great second amendment, defend our borders and ensure more products are proudly stamped with that beautiful phrase made in the USA. We're doing that. Remember when I campaigned four years ago? I said, we will be saying Merry Christmas again. We do, we do. Remember?

Donald Trump: [\(27:13\)](#)

The department stores, they didn't like Merry Christmas, that was not politically correct. Oh yeah. They learned, and they'd say, "Happy New Year," and they'd have the card and the snow, and the whole thing. But they wouldn't say, "Merry Christmas." They're all saying Merry Christmas again. That's the way we have done. I told you that we will deliver a record prosperity, epic job growth and a safe vaccine that quickly ends the pandemic, which is ending with or without, and we have the vaccines. They've going to be very ... Nobody would have them. It would be years before you had them. What I did with the FDA, and the FDA has been terrific, but it was called a slightly speedier process, okay? And totally safe.

Donald Trump: [\(27:54\)](#)

We will have the vaccine like momentarily and we're all set to distribute it before the end of the year, maybe substantially before, but it's going good. But we are going to get ourselves back to normal life. I said, normal life. Where we were seven months ago, we had the greatest economy in the world. We had the greatest economy in the world. We want to get back to exactly that and we're in a super V right now.

Donald Trump: [\(28:20\)](#)

You see the numbers, the housing numbers, the automobile numbers, all the numbers, the way they're coming back at a level that nobody's ... the job numbers, 11.4 million jobs in a short period of time, we will be back very quickly and we'll never forget what China did to us. That was ... No, we will never, ever forget.

Donald Trump: [\(28:39\)](#)

You know, I signed a great trade deal with China. They ordered the largest ... It's the largest order of corn, the largest order of soybeans, beef, cattle ever a few weeks ago because they want to keep us happy. They want to keep us happy. But you know what? We're not happy. We're not happy. What they did to us. They

could have stopped it. They stopped it from going into China, the rest of China, Wuhan, and they stopped it, but they didn't stop it from going out to the world. That includes us in Europe and every other place, 188 countries, they didn't ...

Donald Trump: [\(29:12\)](#)

Next year will be the greatest economic year in the history of our country. You see it all happening and watch, Pennsylvania is a late voting state, by the way. You vote late, and I love that. I love that. I like voting a little late because you can see what we're doing. We've done an incredible job with a lot of different things, but you're going to have a GDP number, the Atlanta Fed said, now the highest I think was 8%, 9%. It was not ... It was high. They project a 35% increase in GDP. Nobody's ever had that.

Donald Trump: [\(29:49\)](#)

I'll take 25% right now. Okay? They projected a 35, and that number will come out on November 1st, right before the election. So if you'd like to wait, everybody here is sure about Trump. But if you happen to be a little bit nervous, just wait. We're going to have a 35% or a 25%, but it's going to be magnificent because we are doing great. It's the greatest comeback anywhere in the world economically, and we went down the least of any country in the world. So remember that.

Donald Trump: [\(30:19\)](#)

I gave working families, record-setting tax cuts, the largest tax cuts in history. In my second term, I will cut middle class taxes, even more. We're cutting the middle income taxes, very substantially. We're doing another cut and what it does, to be honest, it brings more business. It brings more jobs. You have to see, in terms of what we did for business, companies are pouring into the United States. Joe wants to take all of the regulations that we took off, 20 years to build a highway with environmental and all, 20 years.

Donald Trump: [\(30:55\)](#)

No they want to take them and they want to put them all back. Now we have it down to two years to build a highway and it could be one, and it may be that you don't build it because of environmental or safety, and that's okay, but you're going to know fast. You're going to know fast and you will build it. But you're going to know fast. 20 years, we have much worse than 20 years. We have highways that have taken 21, 22, 23 years, and then never got approved.

Donald Trump: [\(31:19\)](#)

How about that? You go work on something for most of your adult life, and then they reject it at some environmental board, three to two. No, we're going to do it in a year. We're getting it down to a number that's ... and by the way, it's going to be much less expensive, much better. We have highways that started as a straight road from here to here that ended up like this, that caused a hundred times more, much more because it took so many years and we're not doing that anymore. We'll put it in. We'll either get it approved or not get it approved. It's a big impact. That's one of the reasons that our foundations are so strong. That's one of the reasons that we can make a comeback. Nobody else can make a comeback like us. We have the greatest country in the world.

Donald Trump: [\(32:06\)](#)

Thank you. Thank you. So we gave you the biggest tax cut in history, by far, and Biden is proposing the biggest tax hike in history, which, that will lead to a depression like you've never seen. This is a terrible thing.

Donald Trump: [\(32:42\)](#)

By the way, this is the most important election in the history of our country, remember that because you have a radical left movement that wants to make us a large scale, very large scale version of Venezuela or so many other countries with the same philosophy.

Donald Trump: [\(32:59\)](#)

And it can happen. You know, 18 years ago, Venezuela was a very rich, beautiful, powerful place. Now they don't have food, they don't have water, they don't have medicine. They have nothing, nothing. They have oil. It's worthless. The whole thing is like, what's happened? This would be a very, very large scale version of the same thing. It can happen.

Donald Trump: [\(33:18\)](#)

When you see these people and what they want to do, it's the same thing. It's all the same thing. It doesn't matter the size, we're much bigger, but it'll happen. We can't let it happen. This is the most important, and I never thought I'd say it because what we did altogether, most of we're with us, four years ago nobody thought that anything could ever be more important as an election than that. This is now the most important election we've ever had.

Donald Trump: [\(33:45\)](#)

It's a choice between a Trump super recovery and a Biden depression, and it will be in depression. It's a choice between a Trump boom and a Biden lockdown. He wants to lock down the country. We understand the disease. We have to take care of our older, wonderful people, our elderly, especially if they have heart problems, a diabetes problem in particular, different problems. We do that.

Donald Trump: [\(34:13\)](#)

But look, I mean, I got it and I'm here, right? I'm here. We have great medicines now. Great therapeutics, and the first lady got it and she's doing great. But you know? You know who else got it? Barron. My very tall son got it. He's definitely tall. He's very young, he's very tall and he's strong. The doctor said, "Sir, I here to inform you, Barron has tested positive." I said, "Tested positive for what?" They go, "Corona." You know, there's about 30 different names for this. I call it the China virus because that's where it came from. The China plague. No, "Barron has tested ..." And I said, "Wow, that's too bad." "Well, he's going to be good, sir." 99.9, right? 99.9. So I said, "How are you feeling Barron?" "Good. Why what's the problem?" He didn't even know. I saw the doctor like two minutes later, "How's Barron doing?" "Oh, he's okay, sir. He's fine." I said, "What do you mean he's fine?" "It's gone."

Donald Trump: [\(35:20\)](#)

The young kids, they have a strong immune system, I've gained such respect for them. They have a much stronger system than we do, whether we like it or not. So it's one of those things, but we have to do that, and it's incredible, but we have made such strides. It's absolutely an amazing thing what we've done in a period of seven months because I'm the president of the United ... Thank you very much. I'm the president of the United States. I can't lock myself in the basement of the White House. I can't.

Donald Trump: [\(35:48\)](#)

I can't lock myself in a beautiful bedroom in the White House upstairs. I can't do it. I can't do it because we have things to do. We have people to meet and I'll have meetings. Sometimes I'd have meetings with a lot of people that were pretty much unavoidable if you're the President. I mean, you can go and just lock yourself away. You can't do that.

Donald Trump: [\(36:07\)](#)

I'd leave those meetings, and I'd say, even with Gold Star Families, they're looking forward for months and months and they lost their son or their daughter, or their husband or their wife, and you can't cancel that. I say, "Boy," and I'm not referring to that, in so many of the meetings I'd have, I'd say, "That's a little risky," right? "That's a little risky." Then one day you get it and that's okay, you get better.

Donald Trump: [\(36:31\)](#)

We have such great, I think, cures. Regeneron, I mean, to me, that was like a cure. I don't know, maybe it would have been fine without it, but let's say I didn't want to take a chance, if I have my choice, I'll do whatever ... I often tell them. I tell the story about when you're president, you have a lot of doctors and I had 12, and the best, these great ... Sean the White House doctor is fantastic. He really is. They're great, talented people, and the Walter Reed Hospital is incredible.

Donald Trump: [\(37:00\)](#)

I see what they do to our young, incredible soldiers that come back with horrific injuries and they do their job, and John's Hopkins and I'm sitting in bed and

I'm saying, "I don't feel so good doctors." I say, "Where are you all from?" And I get a list of the who's who of the world, right? These 12 guys. They each ... He says. And they each ... Thank you very much. I think that's a compliment.

Donald Trump: [\(37:28\)](#)

But they each have like a specialty and I'm sitting around and I'm sitting around, and I'm laying there and I want to get the hell out, but I'm not feeling the best I've ever felt, I've been used to that. All of a sudden, the hands go all over my body. I got these 12 guys. They examine every part of your body, you wouldn't believe it. I said, "Get the hell out of here. I want to get out of here."

Donald Trump: [\(37:50\)](#)

But I took Regeneron, and the next morning I felt like Superman. I felt, boom. Boom. I said, "I got to get back. I got to get back. You don't want a president that's laying in the hospital saying, "Ahh."" We got to get back, right? And people get back. 99.9, I mean, you know? And this state has to open up. The Commonwealth of Pennsylvania, got to get it open.

Donald Trump: [\(38:20\)](#)

You have a governor who, by the way, has made it ...

Donald Trump: [\(38:26\)](#)

A governor named Wolf. I'll remember, I'll remember. You know, on my last site, he got them to close it up. We've had a lot of problems getting sites. They believe in freedom of speech, of course. But we've had a lot of problems with this guy because on the last one, we had to move around different sites. He was watching. They don't want to ... They don't want us to speak.

Donald Trump: [\(38:47\)](#)

This is the guy who's in charge of ballots, in this state. So what do you think he's going to do with the ballots, right? And this is the guy that we just sued because they don't want to have poll watches in Philadelphia. So why don't they want to have poll watchers? What's wrong with people watching the votes. They don't have. They don't want to poll watches.

Donald Trump: [\(39:08\)](#)

If Joe Biden and the Democrat socialists are elected, they will delay the vaccine, delay the therapies, prolong the pandemic and close your schools and shut down your country. I hate to say it. You are shut down anyway, Pennsylvania, Pennsylvania, you're going to have to either get a new governor or he's going to have to open it up. Don't worry. On November 4th, on November 4th, he will announce, "We have decided to open up Pennsylvania." No, that's true.

Donald Trump: [\(39:34\)](#)

I had the same thing in Michigan. We actually sued Michigan and the constitution, they opened it up. They said it's unconstitutional what she was doing. She was running it like a prison camp, except for one person who was it? Her husband. Her husband gets caught going out boating and all sorts of stuff. He was the only one that was allowed to do whatever he wanted.

Donald Trump: [\(39:54\)](#)

But no, she ran into ... it was terrible what was happening in Michigan. And by the way, we're up in Michigan. We're leading ... I have here. I have here, and the only reason I'm doing this, remember I used to do it all the time for years ago? I got to start doing it again because they give you fake poll numbers.

Donald Trump: [\(40:12\)](#)

So [inaudible 00:17:12], which was very accurate, a great poll, had us at 53, and 52. We're at 52%. history says that at 52%, you don't lose, right? We're at 52%. They don't want to report it. Any poll that comes out positive, they don't put it on. I've been told by pollsters, "Why don't you get it out? It's a great poll." Sir, we do get it out. They will not report it. These people that are most dishonest people.

Donald Trump: [\(40:41\)](#)

So ready, different polls. We're leading in Nevada. We're leading big in Texas. You hear that? We're leading big in Ohio. Remember you must win Ohio. In fact, I hear they left Ohio. They've given up Ohio. We're leading big in Ohio. Jim Jordan is a good guy, right? We're leading by four points in Florida. You didn't hear that did you?

Donald Trump: [\(41:12\)](#)

We're leading by infinity in Utah and West Virginia, we're leading by, forget it. I won't even ... We're leading by a lot in Utah. We're leading by 20 points in West Virginia, 20. In Georgia, we're leading by four points. I think it's much more. By the way, four points. Then we have Jeffrey, right? The hidden voter. A lot of you people are hidden voters.

Donald Trump: [\(41:35\)](#)

They'll say, "Who are you voting for?" "Leave me alone. Just leave me alone." That's what happened. Remember they thought that I lost because the exit polls, and people would ask about, they're calling them, "Most in history." By the way, the most of the history, they'd leave the poll, they voted, four years ago and it'd say, "Who did you vote for?" You know, these arrogant, stupid people. "Who did you vote for?" "It's none of your business." So they'd mark it a blank.

Donald Trump: [\(42:03\)](#)

Then another one, "Who did you vote for?" Some of them would say, "I voted for Hillary Clinton. Is that okay?" And they did, they voted for me. They said, "I voted for crooked Hillary Clinton. Okay, is that all right?" So they'd say, "Okay, Hillary Clinton." "Who did you vote for?" "None of your business." There's another word. There's another two words that are much more effective. Who do you vote for? "Mm-mm (negative)."

Donald Trump: [\(42:24\)](#)

But I won't say. If I do that, the campaign is over, right? She's saying, "Don't say it, please, sir." I promise. I've learned. I've learned. We can't even kid. With these guys, we can't kid. There's a lot of them though, there are a lot of them in a rainy day in Pennsylvania, the middle of the day.

Donald Trump: [\(42:43\)](#)

So what happened is I was told, a number of people called, "Sir, I'm sorry to tell you that it's looking very, very bad." "Oh wow. Why?" And I had gotten home from Michigan, made a speech at one o'clock in the morning it started, so it's election day, with 32,000 people. She had made a speech primetime seven o'clock and she had 500. I said, "Why are we going to lose Michigan?" Hadn't been won in decades by a Republican. I said, "I think we're going to win."

Donald Trump: [\(43:12\)](#)

But anyway, we get back and we did. We won Michigan. We're leading Michigan, again, by the way, according to this. We're leading a lot of places that they don't talk about it. They don't want to talk about it. It's suppression. They want to convince you. They want to depress you. They want to suppress you. They want you to think, "Gee, let's not vote. We love our president, but let's not vote because he's not going to win."

Donald Trump: [\(43:35\)](#)

Well, they tried that last time and it didn't work and it's going to work even ... I mean, our numbers are much better this time than last time, but you still got to vote. I almost hate to tell you because you'll say, "Oh, now I don't have to vote. He's winning," right? No, you got to go out and vote.

Donald Trump: [\(43:52\)](#)

But I'll never forget that that evening where I was told, "Sir, no, sir, I'm sorry, but not looking good," because they took all those people, which was like 42% that said, "It's none of your business," essentially, in different forms, and they didn't count them. They didn't realize that every one of those people that said that

was our people. Then all of a sudden I get a call like an hour and a half later from a real pro who's with me right backstage, Bill. He goes, "Sir, these are great numbers. Sir, you're going to win Florida. Sir, you're going to win North Carolina. Sir, you're going to win Pennsylvania." He's a political [inaudible 00:44:30].

Donald Trump: [\(44:34\)](#)

You know, when I got the first call from a great person, but I felt badly because we worked so hard. When I got the first call, I went in to see our great first lady who is a great person. I said, "First lady, first lady," and I said, "First lady," sometimes referred to as Melania, I said, "You know, it's not looking good. It's not looking good first lady. We worked hard."

Donald Trump: [\(44:59\)](#)

It's funny. I thought it wasn't going to make it. But one thing, unlike Joe, where he goes into a basement, if he loses and who knows what happens, right? It's called an election. He should be ashamed of himself because he didn't work. No, seriously, he didn't work. One thing, I did five, six, and sometimes seven of these in one day, those last few days. During the regular time I do two or three. Today, I'm doing three of these, a tremendous crowd waiting for us in another part. This is the second one.

Donald Trump: [\(45:34\)](#)

So when they told me that information, you know, you feel badly, but I didn't feel bad because I left it ... You know, the athletes, they say, "We left it all in the field. It was all left." I did six or seven that day, six or seven of these. This is not like talking in front of 10 people, right? There's a lot of people here, and I did them from early in the morning till one o'clock in the morning, the next day, which is election day. So I didn't feel ...

Donald Trump: [\(45:58\)](#)

But then what happened, so I told the first lady, I said, "Not looking good." She said, "Do you mean ..."

Donald Trump: [\(46:03\)](#)

... told the First Lady, I said, "Not looking good." She said, "Do you mean we lost?" I said, "It looks like it." Then I go in about an hour later, "First lady, I got news for you. I think we're going to win." Because they didn't ... Isn't it sort of an amazing thing? But they didn't say that they had this tremendous record set of numbers. When you leave, people usually say, "I voted for this one, that one, I voted." But we had a record set of numbers, Jeffrey, we had a record set where they just said, "It's none of your business. We don't want to tell you." And all of them were our votes. And this was the only guy that figured it out. So, we had one of the most exciting evenings in the history of this world, let alone this country. It was all over the world.

Donald Trump: [\(46:44\)](#)

And we're about to go into an evening, in eight days, can you believe that? We're about to go into an evening, that I think is going to have a similar result and maybe even a bigger margin, but a similar result. And the same thing is happening. A good writer, very good writer, a writer on politics, but a lot of things, Byron York, right? Would you rate him good, right? I think he's good. But I saw him this morning and he wrote something that they were asking him, who's going to win? He said, "I don't know." Because they only show these fake polls. He said, "I don't know, but I cover this," he's great political guy. And he said, "I go around and I cover this whole thing. And I'm not only talking about the rallies that Trump has, because he sets them up." We have to take the space and we have to do. We're organically, there are rallies of boats, thousands of boats, all over the place and cars and tractors and trucks. Trucks, thousands of them.

Donald Trump: [\(47:46\)](#)

He said, "There's never been anything like this." He said, "I've never seen anything like this politically. There's such a spirit, like I've never seen." He said, "You have these organic and Trump has nothing to do with them. But they're rallies where truckers get a thousand trucks." In Iowa, they had like 2000 tractors on this massive field. He said, "I've never seen anything like this. So I can't really tell you, but I have never seen." And how about these rallies? Nobody's ever had rallies like this. You might have a rally like this. You might have a rally like this on the night before the election, right? The night before the election, but you'd never have rallies. These are massive, every one, Ohio was so big. Ohio, if you would've added up inside and outside, you had at least 50,000 people, Wisconsin, the same kind of thing.

Donald Trump: [\(48:34\)](#)

But he said, "Forget those, I'm talking about where they just organically form, nothing to do with Trump." And it's an amazing thing, right? It's an amazing thing. It's an amazing ... So, we have a spirit and enthusiasm, which is the most important thing. We have a spirit and enthusiasm, that's even far greater than four years ago. We had a lot, we had a record, but have much more, because we've done so much. Nobody, no administration has done in the first three and a half years, what we've done. When you think, we've rebuilt our military, we've gotten the big tax cuts, we've gotten the biggest regulation cuts in history.

Donald Trump: [\(49:14\)](#)

I mean, so many things, Right to Try. I'm just thinking, Right to Try, where you can now as a patient, you're terminally ill. You couldn't get anything, you'd have to travel all over the world. Most people didn't have money. They'd go home and they'd die. Now, we have Right to Try, where you can get these advanced treatments that haven't been fully approved. You're terminally ill, very hard to get. They've been trying to do it for 40 years. What we've done for the vets, what we've done for the vets, 91% approval rate.

Donald Trump: [\(49:47\)](#)

So, there's more enthusiasm now by far, and we had, look, we were known as, that was the most enthusiastic anybody has ever seen a political campaign. The deplorables, remember Hillary? The deplorables. I heard that speech. She said a second word, irredeemable, right? She said, "The deplorables and the irredeemables." I thought irredeemables was worse, but that one didn't catch on. Little did she know, whoever wrote that speech? I want no part of them, because the next day, I am a deplorable. I'm a proud deplorable." Right? It was the craziest thing, but there has never been a campaign like that. This one has much more enthusiasm. The differences before I was a guy who was successful, who was saying, "We're going to do this and this and this." But you're listening and you say, "Okay, now we've done." We have done, according to two of those people, by the way, that I see there, we have done more than we promised. Like Space Force, we did Space Force, I never talked about Space Force, right?

Donald Trump: [\(50:52\)](#)

Think of it. We have now Space Force, a sixth branch of the new ... of the military. It's been 75 years since that happened, the Air Force, right? Now, I realized when I was in office that we needed it, because I saw Russia and I saw China, in particular. And I saw them and I said, "Well, we need this." And it's very hard to get, and we got it. We did much more than we even talked about doing. But the main thing is, we did it, we got it done. And that's why there's even more enthusiasm now than there was four years ago. That's a long speech. Let's get back to the teleprompter. Should we get back to the teleprompter or just keep going? Isn't it nice to have a president that doesn't need a teleprompter?

Donald Trump: [\(51:44\)](#)

How about when they give sleepy Joe, the questions. They give him the questions. We're going to ask you these ... And then, they give him answers. And he's reading the answers, reporter, "Sir, could you please ask what flavor of ice cream you like?" They never asked me a question like that. "What flavor do you have, sir?" "I have ..." He wasn't actually sure, actually. "I have vanilla and chocolate." I said, "They never asked me a question like that." Even crazy 60 minutes, did you see it last night? She was so hostile to me and with him it was softball, but you know what he did? Yesterday he called me, he called me George yesterday. He didn't remember my name, I'm insulted by it. I didn't know, was I supposed to be happy or was I supposed to be sad? He called me George. And then, I hear the reporter sort of said, "No, no. No, it's not George. Donald." We can't have this slip, our country is too important.

Donald Trump: [\(52:46\)](#)

President Xi is a hundred percent charm. Putin, a hundred percent charm. Kim Jong-un, North Korea, a hundred percent charm. We can't have this. This is not a game we're playing. If Biden and the Democrats socialists are elected, they will raise your taxes, bury your regulations. They will bury you in regulations. Dismantle your police departments, you see that. Dissolve our borders, wall is 400 miles long now, it's almost complete. Almost complete. And it's everything that border patrol wanted. We gave them their ultimate wishlist. We said, "Let me see what you want. How about concrete plank?" I like concrete plank, it's

cheap. They said, "No Sir, we have to see through it. We like steel because it's stronger than concrete, but we'd like concrete also." So, we have the bars and then we have concrete in the bars. "And then sir, we'd like rebar in the middle." So we have rebar in the middle. No, it's really incredible and it's had a tremendous impact. It's the safest border we've ever had now, which is very good timing.

Donald Trump: [\(53:54\)](#)

And Mexico is paying for the wall, by the way. For those of you ... You don't hear anything about the wall anymore? It used to be like, when they thought I couldn't get it done, it was every day. "He is not going to be able to get it done." Remember Pelosi was fighting us, like crazy. Saying, "Walls are obsolete. We don't need walls. We need drones to watch the people pour into our country. We need a drone a thousand feet up, so that we can watch people pour right in." No, we have drones too, and they work off the wall, okay? That's a good combination. But they were just going wild. And then once I got the financing and the this and the that, and then I won court cases all over the place, we started doing 10 miles a day. So, we're up to over 400 miles, we'll be finished very soon. But you don't hear about it anymore. They don't talk about the wall anymore.

Donald Trump: [\(54:43\)](#)

They want to confiscate your guns, terminate religious liberty and pack the Supreme Court with radical Justices, who will shred the Second Amendment. You better get out and vote and to defend our God-given freedoms. I nominated Amy Coney Barrett, right? She's going to be great. She's going to be great. She's going to be there for a long time. She's going to be there for a long time. And they vote on her today. Tonight, today. The Democrats would say, "That's a terrible thing." They'd do the same. First, it was not terrible. Justice Ginsburg said, "No, he's the president for four years. If somebody comes up in the fourth year, what's the difference?" She said that. Of course, she was referring to Clinton or Obama, I guess, right? She perhaps wouldn't have said it if it was me, but she did say it. And that's the way it is. And they would do the same. Can you imagine Schumer crying to Chuck saying, "You know, we think it's highly unethical to appoint a Supreme Court Justice, radical left Supreme Court Justice, because it's the fourth year. And we think, therefore, we won't do it." Can you imagine that? They would do it. The only difference is they do it faster than we did it. Okay.

Donald Trump: [\(55:58\)](#)

Joe Biden has made a corrupt bargain in exchange for his party's nomination. He is handed control of his party over to the socialist, Marxists and left wing extremists. And if Biden wins, the flag burning radicals on the streets will be running your government, just like in Portland. We want to go in ... We stopped them in Minnesota, Minneapolis, we stopped them. Wasn't that a beautiful sight? We should have been allowed to do it a lot sooner. In Seattle, we let them know we're coming in and the following, like two hours later, they walked away. We were all set to go in, I was sort of unhappy that they left. They took over a big chunk of Seattle, remember that? But we let them after a while, because the state is supposed to ask us and they weren't going to. But we told them, "I'm sorry. Where's Hunter? Where is Hunter?" He's making ... he's trying to make a deal with a foreign country to pay him 10 million. Where's Hunter? Remember the tee-shirt, where's Hunter? I was right. Thank you very much for that [inaudible 00:57:02]. This can only happen in Pennsylvania, right? I was here for school. So, they don't talk about Hunter the news now, you know that, right? I give a lot of credit to the New York post to endorse me on their cover today, I'm not going to ... But they don't talk about Hunter, because they're not allowed to, because we don't really have freedom of the press. We don't, okay. We don't have it. They have totally taken this horrible scandal, the second biggest scandal in the history of our country. The first biggest was they spied on my campaign. That's the biggest and they got caught, but the second is this and won't even talk about it. They won't talk about it. And the tech giants will shut everybody down and you don't even hear. Here's a guy, had no job, and now all of a sudden he's making millions and millions of dollars a year and they don't want to talk about it. And they know it's wrong, but that's called the opposite of freedom of the press. That's called the opposite and they should be ashamed of themselves.

Donald Trump: [\(58:15\)](#)

And the beautiful thing? Is that we have a voice and we're allowed to talk to people. Lots of people. And two of those red lights just went off. No, I mean, they're suppressing, you talk about suppression. They're suppressing something I've never seen. Honestly, nobody has ever seen anything like this. Even I, I mean, I'm not a big fan, I think the press is incredible, I think it should be incredible. It's got such potential to be incredible, it would be so good for our country. But even me, I never heard of anything like what's going on, where you're not even allowed to write. New York Times, I don't know if they've ever written a story about it. Washington Post, they totally don't write. Here's a guy who stole tens of millions. He had no energy experience, zero. He knew less than this very young woman up here. Do you know anything about energy? Because if you do, you know more than him.

Donald Trump: [\(59:23\)](#)

No, he had no experience whatsoever. He was dismissed very ceremonially. I mean, look, he was, well, whatever you want to call it, it was a very sad, it was a sad dismissal. So, he gets out of Kuwait, he gets out of the military, had no job, nothing. And his father becomes vice-president, and he gets a job on Burisma. Burisma, right? And it's a very, it's got a questionable reputation place. It's an energy company, gets \$183,000 a month, plus they say \$3 million upfront to be on the board of a company. Nobody gets that. So, he's on the board of Burisma, He then goes and he gets three and a half, think of this, three and a half million dollars from the wife of the mayor of Moscow. He gets three and a half million, then he goes to China. He's he's like a human vacuum cleaner. He follows his father.

Donald Trump: [\(01:00:27\)](#)

Then he goes to China, gets a billion and a half to manage, even though he's never heard of managing money, he knows nothing about it. And it gets millions of dollars in fees. And then, he goes for the big quinnella, but that's where it sort of ended. He asked China to pay him \$10 million a year because he wants to do introductions. It was an introductory fee, 10 million a year. And I think that's probably at someplace where they got caught. But this is pure corruption and Joe got a piece of it, because they said 10% goes to the big guy. Now, unless they have another big guy. He's not a big guy to me, he doesn't look too big. He looks like a big guy. No, he doesn't look like a big guy, but 10% goes to the big guy. He had another one, worth 50%. And they consider that off limits, you can't talk. Can you imagine if that were me or my kids? I mean, it would be the biggest scandal. It's a disgrace. And what they do is they shut it down. They will not write anything about it.

Donald Trump: [\(01:01:25\)](#)

I never thought a thing like that could happen. I never thought it could happen. In a way, it's a bigger story than the corruption of Biden itself. Joe Biden took five days off before the debate because he wanted to practice and he's still lost, like by a lot. You don't want a president who takes five days off to study for a debate. I mean, you do it every day, what are you supposed to study for? Really, when you think about it. And now, he's taking at least another four or five days off. But no, but I did hear the breaking news today was he's going to make the speeches. I told you, I want to go hear, it's so exciting. So exciting. When you're a president, you can't take a day off, you got to work. You got to work. You got to work really hard for the American people, you got to work.

Donald Trump: [\(01:02:19\)](#)

And if sleepy Joe ever got in, he wouldn't be in charge. The radical left will be in charge of the party. They will do, including fracking, there won't be any fracking. You can forget the frackers out there, enjoy your life, but it won't be in the life of fracking. That's all over the country, not just in Pennsylvania, because it will be run by the radical left and the green new deal, which I thought at first was a hoax. I thought it was like the Russia hoax. Okay. I thought it was a hoax. And it wasn't, I don't think they believe it, it's so crazy. A hundred trillion dollars. This election day, the people of Pennsylvania must stop the anti-American radicals by delivering Joe Biden in the far-left Democrats, a thundering defeat at the ballot box. At the ballot box. Got to do it.

Donald Trump: [\(01:03:08\)](#)

Whether you like hearing it or not, Joe Biden is a corrupt politician. He's a corrupt politician. You don't do that with these countries. We could do it, it would be so easy. It's like they raise all this money, \$300 million, and they're saying, "Oh, Trump is being outraced." I would be the greatest fundraiser, all I have to do is call all the Wall Street guys, call all the guys, call everybody. I would get five, 10, 15, 20, 25 million, every time I made a phone call, but you know what? I could never basically deal with those companies properly again. So I don't do it. And we don't need the money, we got a lot of money for this stuff. We got another eight days to go. They had like \$200 million, a lot of it's small money, \$61 average, small money. That's never happened to a Republican before, but this way you don't have to sell soul.

Donald Trump: [\(01:03:57\)](#)

When somebody gives you a lot of money, it's not to say quid pro quo. I'm sure Joe would never do a thing like that, you know? But the fact is, he's making

deals. He's making deals. I could do it much easier, because I'm much better at it, if I wanted to be. And think of it, I'm the President of the United States, calling the head of Goldman Sachs, "Goldman Sachs!" They said, "Who?" I know, I know them all. "I want you to give me \$25 million, I'm running the campaign, please give me 25 million." They never report this stuff. And they would say, "Where do we send the check? We can have it there in one hour, sir." But I don't want to do that because I'm compromised. Once you do that, you're compromised. They're compromised. They're compromised.

Donald Trump: [\(01:04:40\)](#)

The Democrats want to destroy your energy jobs in Pennsylvania, while they're collecting from families. But in Joe's case, all of this money that we talked about, on boards and everything else, it's a terrible thing. Foreign companies. He wants to send your jobs to China, while his family rakes in millions of dollars from the Chinese communist party, that's what it is. I gave up a fortune to run for president, which is true. I lost a fortune on this deal. This is ... I lost, I mean like billions, between what I lose and what I didn't make, I lost a hell of a lot of money. And you know what? It's the greatest decision I've ever made, because we are doing things that nobody else has ever been able to do. We're helping a lot of people. We're helping a lot of people.

Donald Trump: [\(01:05:34\)](#)

Joe Biden made a fortune by serving you as vice-president. He made a fortune. Biden will sell the Oval Office, just like he sold the vice-presidency. The corruption ... She said, "He already had." Yeah, in advance, that's right. The corruption of politicians like Biden and it is corruption, is exactly why I ran for president. I really, I ran for trade, I hated the trade deals. I saw that years ago in Michigan, they gave me the man of the year award. I said, "Why are you allowing them to take all of your car companies and moving them to Mexico and Canada? 32% of our companies were taken out. I said, "Why are you doing that?" So, it was for a lot of reasons, this one, but it was also for trade. Trade was so crazy. And now, the trade is really good.

Donald Trump: [\(01:06:19\)](#)

Biden is the candidate of big media, big tech, big donors. I mean, you think about it, here I am, here I stand, right? I am with you, I stand here. Here's who I have against me, the Democrat party, the rhinos from the Republican party, I call them the stupid people, they're the stupid. Most of whom I beat because they all represented one of the candidates in the Republican party. Then they went sour. I guess I beat him really badly, they've never forgotten. But the rhinos, big tech. I have everybody against. I have rhinos, big tech, I have very bad Republicans. Actually, sometimes the bad Republicans are worse than the Democrats. I will admit. And we have big tech. And I stand here by myself and I say, "I am the only thing between you and chaos. I am the only thing between you and your Second Amendment. I am the only thing between you and pro-life. I'm the only thing, I'm the only thing."

Donald Trump: [\(01:07:24\)](#)

I'm by myself. I'm all by myself. Now, we have some good Republicans, but I'm all ... but we have some Republicans that also go ... It's a strange thing, right? How some of them, they just go off the track and they always have, this is not unique to us. They always have, for some reason. We have some great ones, but we have some bad ones too. If I don't sound like a typical Washington politician, it's because I'm not a politician, if you haven't noticed. And if I don't always play by the rules of Washington and the Washington establishment, it's because I was elected to fight for you. And I have fought harder for you than any president has every fought for you.

Donald Trump: [\(01:08:10\)](#)

So we're joined by a couple of real warriors and I'd like to introduce them. Congressman Scott Perry. Scott, thank you very much. Warrior. Congressman Lloyd Smucker [inaudible 00:22:25], two great guys, really fighters they're warriors. We had some great fights that we've won, haven't we? We have some great people in the Republican Party. Candidate for Pennsylvania, state treasurer, Stacy Garrity, Stacy. Vote for Stacy. You doing well, Stacy? Good? I heard you're doing great. And Chris Cox, Bikers for Trump, did you ever hear of ... who is this guy? He was good. I went ... Chris says, thousands of bikers, I don't know why the hell the bikers like me so much, but then like me.

Donald Trump: [\(01:09:02\)](#)

I don't know why the hell the bikers like me so much, but they like me. Chris told me I might be at 99 to a hundred percent, but Chris is great. And no matter where I go, I have these bikes, thousands and thousands of bikes, I never saw. And I'd say, "Come on in, can you come in?" There's no room for them, right? They didn't want to come in. They said, "Sir, we're not here to listen to you speak. We're here just to protect you. We want to protect you." Think of that. Right? Now when they say Big Joe, that doesn't work. But that guy is big. Thank you very much, Chris. Great job you're doing and I appreciate it.

Donald Trump: [\(01:09:36\)](#)

No, it's true. He said, "No, sir. We're here for ..." And I felt so safe after these guys, tough guys, definitely tough. And they're sitting on those Harleys mostly, I guess, right? They're [inaudible 01:09:45]. They felt good. That was never my deal, okay? I like the limousine better, I don't know why. But you know, they're going boom, boom and I never felt safer. It's true. There was just a tremendous love that we had right from the beginning, right? Four years ago, right from the beginning. And it stayed that way, too. We're with them all the way. We built the greatest economy in history and now we're doing it again. We increased middle-class family income over \$6,000, more than five times the gains in all eight years under the previous administration. African-American unemployment, Hispanic-American unemployment, Asian-American unemployment, unemployment for young people that didn't have a high school education. They didn't have a diploma. They had a diploma. They had a diploma from MIT where they were first in their class. It didn't make any difference. Women did so great. Women, women, women did great.

Donald Trump: [\(01:10:51\)](#)

They all reached the lowest levels ever recorded. Since April, we created a record 11.4 million jobs. And under my leadership, we achieved the most secure border in U.S. history. That's beautiful. Walls help. Walls work, don't they? Remember? They said the wall is obsolete. I said no, a wall's not obsolete and a wheel is obsolete. Everything else is obsolete. My opponent's insane immigration plan would eliminate U.S. borders by implementing nationwide catch and release. And I actually heard he said, "We want to take down the wall." Do you believe this? Take down the wall. We will never let that happen. We got to win this election. This is the most important ... We got to win this election. Now they want to take down the wall. His plan, I don't think ... You know what, I don't think Border Patrol would let them. Okay? You want to know the truth? I think Border Patrol would say, "Mr. President, we're not letting you get anywhere near this wall, Mr. President." His plan would also make every community into a sanctuary city for violent criminals. The Biden/Harris ... How do you like Harris?

Donald Trump: [\(01:12:06\)](#)

The Biden/Harris plan would also increase refugees 700%. This was the manifesto that was agreed to with crazy Bernie and Biden. Biden and crazy Bernie agreed to the ... We call it the manifesto. 700% increase, the most dangerous places in the world they would come in, 700%. I have a ban, I was criticized for the ban. I said, "No. If a country hates us, and if their people hate us, and if they want to do bad things to us, we're going to have a ban." Everybody criticized me, but I won and the United States will benefit. And now we don't let them in. If it's okay by the great people of Pennsylvania, we don't let them into our country. We want people that will love us and work with us and be a great help to us. That's what we want. We have a ban. It was very controversial when I put it in, but it's not so controversial. All you have to do is look what happened the other day in Paris and you'll see that it's not so controversial anymore.

Donald Trump: [\(01:13:10\)](#)

People are very happy that we have it. And we keep a lot of very bad people out of our country and nobody else would do that. Nobody else would do that, Chris, I guarantee you that. Nobody else would do it. They pledged to terminate all national security travel bans. They want to end the ban, opening the floodgates to radical Islamic terrorism. No thank you. I'm keeping the terrorists, jihadists, and violent extremists, those terrible extremists, the hell out of our country, if that's okay. We invested \$2.5 trillion in the U.S. military. By the way, all made in the USA. We have the greatest equipment, the greatest missiles. We have the greatest rockets. We have the greatest jet fighter planes F-35. We have the greatest equipment anywhere in the world. Our nuclear arsenal is totally rebuilt or new. Hope to God we never have to use any of this equipment. Just hope we never have to ... By having it, it's less likely we'll have to use it. That's the way it is.

Donald Trump: [\(01:14:14\)](#)

That's the way it is. But we have the greatest. When I came in, a highly overrated general, one of the most highly overrated generals there are said, "Sir, we don't have any ammunition." Because we could have had a conflict, as you remember at the beginning. He said, "Sir, we don't have any ammunition." I said,

“No president should ever hear that again.” And now we have so much ammunition. You won’t believe how much ammunition. He also passed VA Choice and VA Accountability. Everyone said impossible to get it done. And exactly one year ago today, we killed the leader of ISIS, al-Baghdadi. And we took out the world’s top terrorist. Soleimani is dead. Soleimani is dead. Killed a lot of people, Soleimani. I withdrew from the last administration’s disastrous Iran Nuclear Deal, \$150 billion, \$1.8 billion in cash. How about that? That’s a lot of cash. \$1.8 billion, nobody’s ever even heard of such a thing. \$1.8 billion, five planeloads of cash. I recognized the true capital of Israel and opened the American embassy in Jerusalem.

Donald Trump: [\(01:15:35\)](#)

Every president for decades, they campaigned on that. Every president... Look at that, that’s [inaudible 00:06:43]. Every president for decades campaigned, they said, “Not so easy to do.” But I did it and I got the building built, right? Fast. We got it built for a tiny, tiny little fraction of what it was supposed to cost. Instead of never-ending wars, we are forging peace in the Middle East. You saw what just happened. You saw what just happened, right? Sudan yesterday, Sudan, UAE, United Arab Emirates, right? Bahrain. And we have them stacked up, stacked up. They want to come in and we did it the exact reverse as they’ve been trying to do for 40 years. I said, “That one doesn’t work.” And it’s all working out very well and there’s no blood in the sand and they want to come in. A vote for Republicans is a vote for the American Dream. It’s very simple. It is a vote for the American Dream. The Republican party is the party of Abraham Lincoln, right?

Donald Trump: [\(01:16:44\)](#)

I always say, when they start saying this or that, I say, “No, no. It’s very easy to be presidential.” I can be more presidential than any president in history with the possible exception of Abraham Lincoln when he’s wearing the hat, right? Actually, doing this is much tougher than being presidential, doing what I do is much tougher. And if I was presidential, perfectly presidential, there’d be about three people like Obama had the other day, three people. And in conclusion, over the next four years, we will make America into the manufacturing superpower of the world. And we will end our reliance on China, which is already beginning. We will hire more police, increase penalties for assaults on law enforcement, and we will ban deadly sanctuary cities. We will uphold religious liberty, free speech, and the right to keep and bear arms. We will hold up our Second Amendment. Second Amendment. We will end surprise medical billing, require price transparency. The biggest thing is price transparency. You will see, it goes into effect, already signed. I’ve signed it January 1st.

Donald Trump: [\(01:18:06\)](#)

The biggest thing, lower drug prices. As I told you, favored nations clauses, biggest decrease in the history. Wait till you see that when that kicks in. And we will always protect patients with pre-existing conditions, always. We will stop the radical indoctrination of our students and restore patriotic education to our schools. We will teach our children to love our country, honor our history, and always respect our great American flag, always. And we will live by the timeless words of our national motto In God We Trust. For years, you had a president who apologized for America. Now you have a president who is standing up for America and standing up for the great people of Pennsylvania. I’m standing up. For the last four years, you’ve seen me fight for you and now I am relying on you to deliver a historic victory for our country, bigger even than four years ago. Got to vote. By the way, could I ask you... Pennsylvania’s known as a very late-voting state, which is good, which is fine. Very late voting like, Election Day.

Donald Trump: [\(01:19:45\)](#)

Very unusual actually, but I understand it. You want to make sure your vote is counted. You don’t want the ballot hoax. Because when you see it, they’ll have so many problems. You know, they throw away ballots if it has the name Trump on it, boom. They printed ballot, some ballots, I think 25,000, were printed for certain states. It was missing one little thing, the name Trump, so a lot of bad things happened. But Pennsylvania’s smart, you vote late. Who has voted? Raise your hand. Yeah, that’s what happens. This is going to be a red wave. Who is going to vote? This is going to be... And I’m glad you saw the last debate. Did you hear the number one thing on Google was how do I change my vote? Did you know that? How do I change my vote? Something like hashtag, did you hear that, hashtag, how do I change my vote? They watched the debate. Remember? I wanted that debate to move way up because a lot of people voted by this crazy ballot deal. Wait till you see the mess that thing’s going to be in.

Donald Trump: [\(01:20:48\)](#)

Well, even your state, they can count them after the election is over. This is major state. They want to count them. They don’t want poll watchers and they want to be able to count votes after the election is over. What does that mean? We’re going to wait? The whole country is going to wait? We’ll see how it all ends up. It’s all in court. It’s all a hoax. And let me tell you something, the Democrats know how crooked it is, they know. And then they talk about, he’s not for freedom. He’s not for freedom. Our president is not for freedom and he’s not looking for an easy transition and safe... What about the transition that I had, where you spied on my campaign and you tried to take down the President of the United States? That didn’t work out too well. But they want a friendly transition, right Jeffrey? A friendly... But the only problem is, look at the transition they gave us. They fought us tooth and nail for years. Russia, Russia, Russia, \$48 million spent on Mueller, that whole hoax, \$48 million. No collusion, right?

Donald Trump: [\(01:21:53\)](#)

No collusion. \$48 million. Now they want a friendly, friendly... First of all, here’s the main thing, let’s not lose and then we don’t have to worry about it. Let’s just win. We won’t lose, so there’s nothing to talk about. Let’s leave it that way. No, we want everything to be done properly and we want it to be done absolutely by the book. And we want to go absolutely by our great Constitution. But you know what? When they start talking about this friendly, wonderful transition, and then you see what they put us through, it’s really very hypocritical, isn’t it? On November 3rd, we must finish the job and drain that very deep and very nasty swamp once and for all. Get your friends, get your family, get your neighbors, and get your coworkers, even get your boss. Say, “Boss, I want to get you out to vote.” But get out and vote, most important election ever. I really believe that. I never thought I’d say it. If you would’ve told me I was going to say that two years ago, three years ago, four years ago, I would have not believed it.

Donald Trump: [\(01:23:05\)](#)

From Erie to Eastern, from Pittsburgh to Harrisburg, and from Lebanon to right here in Lancaster. We stand on the shoulders of Pennsylvania patriots who gave their blood, sweat, and tears for this beloved nation. This is the state where Founding Fathers declared American independence. Think of it, what you did. Think of Pennsylvania. Think of it relative to our country. So much has happened, so many important events. It’s where the army weathered its brutal winter at Valley Forge, where General George Washington... Don’t worry, we will not be taking down the Washington Monument, [inaudible 00:14:52]. Cancel culture. Congressman, there’ll be no cancel culture. Now can you believe that? They actually had a commission, the D.C. mayor. One of the recommendations is, Lincoln, Jefferson, Washington Memorials, let’s take them out. And they didn’t like Mount Rushmore either, okay? It’s blowing right up now. Not going to happen. No, we stopped it. You know, I signed a document. You play with any of our statues or monuments, 10 years in prison.

Donald Trump: [\(01:24:34\)](#)

It’s amazing how that stopped. All of a sudden Jeffrey, it just stopped, right? You don’t see it anymore. Where General George Washington led his men on a daring mission across the Delaware and when our union was saved by the great heroes of Gettysburg. Gettysburg, think of it, Gettysburg. What a place. Never fight uphill, boys. Right? That was Robert E. Lee, he said, “Never fight uphill.” He heard they were fighting uphill, but they didn’t have cell phones in those days. They tried to get them to stop, but they fought uphill, that didn’t work out. Think of that though, Gettysburg, the history. This is the place where generations of tough, strong, Pennsylvania workers mind the call, work the railroads, forge the steel that made America into the greatest, most powerful nation in the history of the world and where we are making it far greater than it ever was. We are making it far greater. This nation will be greater than it ever was. And I so believe that. I so believe that.

Donald Trump: [\(01:25:41\)](#)

Proud citizens like you, helped build this country. And together we are taking back our country. We are returning power to you, the American people, that’s what’s happening. And they don’t like that in Washington. With your help, your devotion, and your drive, we are going to keep on working. We are going to keep on fighting, and we are going to keep on winning, winning, winning. We are one movement, one people, one family, and one glorious nation under God, and together with the incredible people of Pennsylvania, we have made America powerful again, our military. We have made America wealthy again, your sock rockets, your 401ks. We have made America strong again. We have made America proud again. We have made America safe again. And we will make America great again. Thank you, Pennsylvania. Thank you. Thank you very much.

Donald Trump: [\(00:58\)](#)

Thank you very much, Allentown. Thank you very much, Allentown. I know it well. Eight days, you believe that? Eight days from now, we're going to win the Commonwealth of Pennsylvania, and we are going to win four more great years in the White House. I want to begin today by discussing an issue of existential importance to Pennsylvania. Very, very important. Last week, sleepy Joe Biden made perhaps the most shocking admission ever uttered in the history of presidential debates. In other words, he blew it on live television. 91 to nine, did you see that? 91. And you know what that means? 91 to nine, but we won't talk about that [inaudible 00:01:53] fake news.

Donald Trump: [\(01:57\)](#)

Joe Biden confirmed his plan to abolish the entire US oil industry. That means no fracking, no jobs, no energy for Pennsylvania families, Texas, all the other [crosstalk 00:02:08]. He wants to go wind, let's go wind. Let's go have brownouts and blackouts all over Pennsylvania, all over the country. He wants to go wind, he wants to go with windmills that are made in Germany and China and send big, big carbon into the air when they're making them, you know that, right? From a different continent, but that's okay.

Donald Trump: [\(02:32\)](#)

Biden's plan is an economic death sentence for Pennsylvania's energy sector. I mean, I think you all know that. Did you see it though? Do you believe it? And even the anchor, who I thought did a very good job, by the way, Kristin, I thought she did a very good job. She said, "Why do you say that?" Do you remember that? "Why are you saying that? Why do you say that?" He will eradicate your energy and send Pennsylvania into a crippling depression. Somehow, that doesn't sound good, Mr. Congressman [inaudible 00:03:04]. The Biden energy shut down, and he wants to shut down the whole country and we're rounding the turn. All they want to talk about is COVID. By the way, on November 4th, you won't be hearing so much about it. COVID, COVID, COVID. COVID! Today, let's talk about COVID. All over Europe. Europe's spike, they don't talk about that.

Donald Trump: [\(03:26\)](#)

Now we're rounding the turn and we have the vaccines coming out very soon, years ahead of schedule. If he would have done it, like he did the H1N1 swine flu, one of the worst handled, that was an epidemic. It was a disaster, he had no idea what the hell he was doing, but you know that. The Biden energy shutdown would inflict deep pain and misery on Pennsylvania, mass layoffs, constant blackouts and brownouts, soaring gas prices. Nice to have that \$2 gasoline, isn't it? Surging energy bills, no air conditioning in the summer, no heat during the winter, and no electricity during peak hours. "Let's watch President Trump on television. I'm sorry. We won't be able to do it. The wind isn't blowing today, darling, we won't be able." No, it doesn't power those big factories that were opening up all over the country.

Donald Trump: [\(04:21\)](#)

Biden's running mate, Kamala Harris. Did you see her last night on television with the laugh? She was laughing at a horrible question about her and she just laughed, she found it so funny. She's the most liberal Senator by far. She's most liberal than crazy Bernie. Even sponsored the \$100 trillion Green New Deal. The Green New Deal. I don't think so. The Green New Deal would be an economic disaster for our nation. Certainly for this state. Biden and Harris have a pledge to join and rejoin the Paris... Look, do you know about Paris? The Paris Climate Accord. One of the great disasters of all time. Just call up France, "How's Paris doing?" Shipping your energy jobs to foreign polluters all over China, all over the rest of the world. And it was hard bringing them back, we brought our jobs back. A lot of our jobs are coming back now. They're coming back now. Speaking about jobs, I want to thank the people that own this plant. You have a governor named Tom Wolf, I guess, Tom Wolf. This thing was set up just a few hours ago, that's why it's so incredible that people across the street, trying to get in. This was set up because your governor made it almost impossible for us to find any site. Normally we would have had an airport, we would've gotten in, we would have had a... I mean, this is really a nice place. No, I want to thank the trucking company, they're great, they're supporters. Well, we just found it a little while ago because they were shut out. We had a deal, it was a deal and they broke the deal, headed by governor Tom Wolf, who's got your whole Commonwealth shut down. Whole Commonwealth is shut down. Although probably on November 4th, it'll open. They'll announce it November 4th. Did you see the one governor said, "No, I think we should be open by around November 4th." Thank you, [inaudible 00:06:36]. No, they think they're going to inflict harm in bad numbers, our numbers are so good, our comeback numbers are the best anywhere in the world. Doesn't matter. But you know what, it does inflict tremendous harm on the people that are shut out of their jobs, that are going to lose their jobs with suicides and drugs and alcohol and all the problems. So Tom Wolf, next time, give us a little notice governor. And I'll remember it, Tom, I'm going to remember it, Tom. "Hello, Mr. President, this is Governor Wolf. I need help. I need help." You know what, these people are bad. We go out of our way, regardless, Republican, Democrat, when they have a problem, but he shut us out and he tried shutting us out of two other venues. We have three of these today in Pennsylvania. Three of these. And these just came out. I have to say, because I watch... In the fake news, there has never been anything like what's happening now. But these just came out, so Rasmussen just came out, "Trump is leading." That's been one of the most accurate [inaudible 00:00:07:49]. You don't read it. In fact, a pollster called us yesterday, said, "You have really good numbers." But they won't accept them, when we put them out, they don't put them out. Unless they're negative, the press doesn't put them out. This is serious. And how about big tech? How about the Biden scandal? And they're not even covering it. They don't want to talk about. And by the way, that's a real scandal. And the press doesn't want to write about it, except for the New York Post, the press won't write about it and big tech won't take it.

Speaker 1: [\(08:26\)](#)

Lock him up!

Donald Trump: [\(08:37\)](#)

People have no idea what's going to happen in Pennsylvania, that I can tell you. I know Pennsylvania. Don't forget, I went to school in Pennsylvania. I went to school in Pennsylvania. College and I know it much better than he does. He's always talking about, "I grew up in Pennsylvania." He grew up nowhere. He

didn't grow up. No, did you watch him on 60 Minutes last night? Did you see yesterday when he called me George? No, I don't know if I like George. No, not George. What a mess. No, he called me George. I don't know if I should be insulted or happy about it. I'm sort of insulted that's the first time that's happened to me in a long time. Now, but the polls just came out. So it just came out. So let me tell you the real polls, okay. Because we feel we're winning almost easily, but you don't hear that. I watched television today, purposely to see what was going on. So it started... CNN is the worst. But I hear the guy... I hear AT&T is finally getting smart, and they're going to fire the head of CNN. That's what I hear. [crosstalk 00:09:55]. That's what I hear. Zucker. But you know what? Look at this. So Rasmussen was very accurate last time, one of the top two or three. Rasmussen, "Trump approval rating, 53 and 52." 53%.

Donald Trump: [\(10:18\)](#)

So in another poll, we're leading in Nevada. That's nice. We're, one up in Nevada, we're way up in Texas, despite what you keep hearing. Five up in Texas. I think we're much more than that if you listen to the Governor of Texas, who's Greg. In Ohio, we're way up. By four or five points, five points. In Florida, we have it down as four up in Florida, that's a lot for Florida. So in Florida, Rasmussen, that's a Rasmussen but these are all different. That's a Rasmussen. 50 to 46, we're plus four in Florida. You don't hear these numbers, right? You hear these guys get on television, "Florida is going to be very tough." No, we're winning in Florida. We have crowds. We're winning in Florida. But you don't hear it.

Donald Trump: [\(11:07\)](#)

We're nicely up, five up in Georgia, Landmark. It's called Landmark. Five up in Georgia. You don't hear that. I heard today, "He's losing in..." No, we're not losing in Georgia, we're going to win by much more than five. In Arizona were nicely up, really nicely up. Very good. We're winning big in Iowa, but we should be with what I do for the farmers. Got them \$28 million from China. In Montana, we're so far up, they shouldn't even have the election. Likewise, in Utah, so far up. We're plus 12, plus 15. And in West Virginia, we're 20 up, 20 points up.

Donald Trump: [\(11:59\)](#)

These just came out. They came out today. And then at a head to head with sleepy Joe Biden on a national basis, I am really into the states, because you know you run... Remember Hillary used to complain, but I never did a national. Winning, I think winning the overall vote is almost easier than the electoral college. But you remember last year, she'd complain. She used to campaign in the wrong states. The year... But they probably learned, but in the national poll were leading against sleepy Joe Biden, we're leading. And that's a Rasmussen poll. Head to head. No, we're leading head to head against sleepy Joe. So I just thought I'd do that.

Donald Trump: [\(12:40\)](#)

Remember in the old days, four years ago, I used to read the polls. I'd drive them crazy and they'd say, "Oh, that's not right." I turned out to be right. So I want you to hear it. I saw on television now, it's the only way we get it on because they don't put it on, they're fake and they're corrupt people. They're fake. They're corrupt. I mean, I never watched CNN, but I had to see it this morning to see. So I watched them for a little while, I watched MSDNC, owned by Comcast. MSDNC. And you watch these polls and you say, "Oh, this is terrible." They're fake polls. They're fake. They're total fake. These are real polls. We're going to win in Florida. We're going to win in Pennsylvania, I think. I mean, look at this venue, you have thousands of people across the street that couldn't get in. They couldn't get in, because honestly, secret service wasn't that well equipped. They didn't expect... Because we just set this place up. We just set it up, and think of it. So we have a venue and the governor that counts the ballots... The governor count the ballots, and we're watching you, governor, very closely in Philadelphia. We're watching you. A lot of bad things happen there with the counting of the votes. We're watching you Governor Wolf, very closely, we're watching you.

Donald Trump: [\(14:10\)](#)

But the same guy that makes it impossible for us to get a venue, we just got this thing literally hours ago. And to have people across the street trying to get in is amazing. I mean, it's amazing. Which tells you, and I don't know if you saw the Ohio route, we had 35, 40,000 people. Thank you very much.

Speaker 1: [\(14:47\)](#)

We love Trump!

Donald Trump: [\(14:47\)](#)

Nah, forget it.

Speaker 1: [\(14:47\)](#)

We love Trump!

Donald Trump: [\(14:51\)](#)

Thank you! Now, one of them a guest this morning. I really watched it for this reason. I mean, I had a good look. It started off, "COVID, COVID, COVID. Don't go and vote. Don't go and vote." You know who's not voting? The Democrats, they're not voting. If you look at some of these early polls, so we're supposed to be way down in the initial week because it's the fake ballots, right? The phony ballots that are all crooked as hell. And then we catch up, but we have states we're were leading in early voting. That's trouble because we win everything from here on in. We win everything. Just get out there and vote, or if you have an absentee, send it in. But you know what, there's nothing like getting out and voting. And I did it two days ago. I went and voted. And it was so good.

Donald Trump: [\(15:37\)](#)

I went in Florida, at Palm beach I said, "Okay, I'm here to vote." And the woman was fantastic, "Sir, do you have identification?" I said, "Just happen to have my passport." "Sir, do you have any additional identification?" "I do. I do." She says, "Thank you." And she was good. I mean, "She was doing what you have to do. She was good. She was totally good."

Speaker 1: [\(16:06\)](#)

[crosstalk 00:16:00].

Donald Trump: [\(16:06\)](#)

I hear this guy back here. So, she did a great job. And you know what, it was a beautiful thing. Because there's no way you can cheat. I mean that, then they said, "Here, do this. And here, sir, you can..." They give you a booth, you sit down, you do what you have to do. You get up, they fold it, they put it in. Then you put it in the machine yourself. They don't want to touch it. It was so professional. There's no way you can cheat with these ballots. Who's sending them, who's receiving them, who's bringing them back, who's signing them. It's ridiculous. It's the only way we can lose, in my opinion, is massive fraud.

Donald Trump: [\(16:46\)](#)

And that's what's happening because all over the country, you're seeing it. Thousands and thousands of ballots. How about the military ballots that were thrown into a garbage can with the name Trump on it? So all we can say is law enforcement is watching Nevada, it's watching Philadelphia, and Pennsylvania, by the way, but Philadelphia in particular, because they had a lot of strange things happen over the years in Philadelphia. And we're watching your Philadelphia and we're watching at the highest level.

Donald Trump: [\(17:22\)](#)

And we're watching the Democrat governor who's got his state shut down, a great state, North Carolina, he's got it shut down. We're watching North Carolina. We're watching Michigan. Oh, that's another one, we're leading by two points in Michigan. Hadn't been won in decades until I won it four years ago. We're leading in Michigan, and we should be, I brought a lot of car business in, brought a lot of car plants in. They hadn't had a plant built in 42 years or something, and we brought a lot of plants in. You hear that jet? You hear them? That's a brand new, beautiful F-35 jet. Stealth, that's why you can't see it. That's super stealth actually.

Donald Trump: [\(18:08\)](#)

Joe Biden is a diehard globalist who wiped out your steel mills. You know it better than almost any place in this country. Closed down your factories, killed your coal jobs, outsourced your industries and supported every terrible and disastrous trade deal for the whole... I mean, for 47 years this guy's been there. You saw in the debate, did anybody watch the debate by any chance? Did you see? My standard answer, "Joe, you've been there for 47 years, what did you do? And you left three and a half years ago, Joe, so it's not like it was 25 years ago. You left. Why didn't you do it, Joe?"

Donald Trump: [\(18:51\)](#)

He's talking about, "Oh, I would have done this with the pandemic." And yet he had the worst... His Chief of Staff said that he, and himself, the Chief, they were grossly incompetent. They had no idea what to do. And now they're telling us how to handle a much more lethal problem. Amazing. I wonder if that Chief of Staff is still around? He probably said it when he assumed Joe couldn't win. When Joe ran, because he was always 1% Joe, we used to call him 1% Joe, and then he ran and now he's at 50%. You know where he's at 50%? Right up there, he's at 50. And he ends up when he... Tell me his politics is strange game.

Donald Trump: [\(19:34\)](#)

He was a cheerleader for NAFTA, which was a disaster for your state. And he enthusiastically voted for China's entry into the World Trade Organization, decimating your manufacturing and enriching China. It's really what made China. He voted for it. Pennsylvania lost almost 50% of its manufacturing jobs after Biden's NAFTA and China disasters. And it wasn't only him, but it was the thinking. That was the thinking. That's what they want. Decade after decade, vote after vote, Joe Biden, sleepy Joe has betrayed Pennsylvania. How the hell can you vote for him? Is this a serious... How can you vote for this guy? Congressmen? How do you vote for this guy?

Donald Trump: [\(20:19\)](#)

Look, he almost got through the debate. I wouldn't say he was Winston Churchill, but it was okay. And then we got him, at the last question I said, "Do you mean you're against oil?" "Yes, I'd wean it out." I said, "Pennsylvania, Texas, are you watching?" You have no choice. Okay. If you stop fracking, which he's against, you don't remember? He says, "I'm against fracking. I will ban..." He did this for over a year. We only have about a hundred clips, we're going to play some of them for you. But here's the thing, I don't want to play them all, we don't have enough time in the day.

Donald Trump: [\(21:04\)](#)

But you don't have to take my word for it because you know what, because it's Pennsylvania, I did a special television, like Cecil B DeMille, I did a really special little treatment for you, the late, great Cecil B DeMille. Here's Joe on two things, security and fracking. You're not even going to believe it. Where is your screen. This screen cost us a fortune so I hope you enjoy it.

Speaker 2: [\(21:31\)](#)

My problem is, I voted for NAFTA.

Speaker 3: [\(21:33\)](#)

I'm supporting NAFTA because I think it is a positive thing to do. And I do not pretend to be an expert on international trade matters.

Speaker 4: [\(21:42\)](#)

When you ran for president and when Barack Obama ran for president, you both said you would renegotiate NAFTA. You didn't.

Speaker 5: [\(21:49\)](#)

Trade agreements like NAFTA and permanent normal trade relations with China, which forced American workers to compete against people who were making pennies an hour, has resulted in the loss of 160,000 jobs.

Speaker 6: [\(22:01\)](#)

The President is absolutely right when he said...

Speaker 5: [\(22:03\)](#)

60,000 jobs.

Speaker 6: [\(22:03\)](#)

The president is absolutely right when he says that China has been cheating for 25 years and that Bill Clinton doing didn't do enough about it, George W. Bush didn't do enough about it, Barack Obama didn't do enough about it.

Donald Trump: [\(22:10\)](#)

That was easy.

Obama: [\(22:11\)](#)

How exactly are you going to negotiate that? What magic wand do you have?

Biden: [\(22:17\)](#)

Arising China is an incredibly positive development for not only China, but the United States and the rest of the world. Rising China is a positive, positive development. It is in our self-interest that China continue to prosper. We want to see China rise. China's a great nation and we should hope for the continued expansion. China is not our enemy. We talk about China as our competitor. We should be helping. The idea that China is going to eat our lunch is bizarre. The idea that they are our competition, that they're going to beat us, is bizarre. China is going to eat our lunch. Come on, man. They're not bad folks, folks. China's not a problem.

Speaker 6: [\(23:04\)](#)

Allowing China into the world trade organization, which you supported, extending most favored nation status to China, which you supported, those steps allowed China to take advantage of the United States by using our own open trade deals against us. Do you think in retrospect that you were naive about China?

Biden: [\(23:27\)](#)

No.

Donald Trump: [\(23:28\)](#)

Today, we're finally ending the NAFTA nightmare and signing into law the brand new US, Mexico, Canada agreement. Very special.

Speaker 7: [\(23:37\)](#)

Listen, it's hard to overstate the importance of the USMCA. This is the single biggest bipartisan legislative victory for this president and this administration. It is a huge deal.

Speaker 6: [\(23:49\)](#)

Wage growth is better than it has been since 2009. That means it is better than it has been for seven out of eight of the years that Obama was president.

Donald Trump: [\(23:58\)](#)

The new USMCA has powerful protections to keep auto manufacturing jobs. Since the election, we've created 41,000 brand new motor vehicle and parts jobs.

Speaker 6: (24:10)

But doesn't he deserve some credit for that? It's better. The USMCA is better than NAFTA.

Biden: (24:15)

It is better than NAFTA. I have never said I oppose fracking.

Donald Trump: (24:22)

You said it on tape.

Biden: (24:24)

I did. Show the tape, put it on your website.

Donald Trump: (24:27)

I'll put it on.

Biden: (24:27)

Put it on the website.

Speaker 8: (24:30)

Would there be any place for fossil fuels, including coal and fracking, in a Biden administration?

Biden: (24:37)

No, we would work it out. We would make sure it's eliminated. I guarantee you we're going to end fossil fuels. No more. No new fracking. I gradually move away from fracking.

Kamala Harris: (24:53)

And I think it's critically important on day one that we end any fossil fuel leases on public lands.

Speaker 9: (24:59)

But what about, say stopping fracking and stopping pipeline infrastructure.

Biden: (25:06)

Yes. Yes. Exactly. They want to do the same thing I want to do. They want to phase out fossil fuels and we're going to phase out fossil fuels.

Kamala Harris: (25:14)

There's no question I'm in favor of banning fracking.

Speaker 8: (25:17)

I have one final question.

Donald Trump: (25:18)

Would he close down the oil industry? Would you close down the oil industry?

Biden: (25:22)

No way. I would transition from the oil industry, yes.

Donald Trump: (25:26)

Oh, that's a big statement.

Biden: (25:26)

It is a big statement.

Donald Trump: (25:27)

In terms of business, that's the biggest statement because basically what he's saying is he is going to destroy the oil industry. Will you remember that Texas? Will you remember that Pennsylvania, Oklahoma?

Donald Trump: (25:38)

So will you remember that Pennsylvania, please? By the way, who's voted here so far? Oh, that's good. Because Pennsylvania is a very late voting state, which I like actually. For obvious reasons I like that. So that's also okay. Who has not voted yet? Who doesn't intend to vote? Who's not going to vote? You better say that. You'd be in big trouble in this crowd. So who is going to vote for Trump? See, that's why I brought all that expensive equipment because it's easier than me saying it, right. Huh? No, it's great. That's something brand new, just a couple of days in. We only bring it to certain locations, okay. And even though we got shut out of our main by your governor, that governor. We brought it here, but isn't that very descriptive?

Donald Trump: (27:08)

Isn't that better than me telling you he said this and he said that? There it is. He also said, by the way, he's going to cut your Social Security. You saw that yesterday, right. In 2016, Pennsylvania voted to fire this corrupt political establishment and you elected an outsider as your president who is finally putting America first. America first. With your vote, we will continue to fight the America... Look, we're going to fight. We are going to ready. We are going to fight for the American workers and we're going to lower drug prices, support your police. We're going to support your police. We're going to protect your second amendment, which is totally under seize, but don't worry about it. As long as I'm your president, you don't have to worry about your 2nd Amendment. Look at what I've done so far. It's been under siege, I can tell you that.

Donald Trump: (28:03)

We're going to defend our voters. They don't want to have borders. They want to have open borders. The wall is almost complete, right. And we have the strongest border we've ever had. Right now, they want to have open borders. And if you have open borders, you don't have a country. You don't have borders, you don't have a country.

Speaker 9: (28:22)

Build that wall. Build that wall. Build that wall. Build that wall. Build that wall. Build that wall.

Donald Trump: (28:22)

Thank you. Yep. Almost finished. Very shortly it's going to be finished. We just hit 400 miles. Oh boy, that's a lot. And this is a wall that's exactly what border patrol and all of the law enforcement people wanted. We built them. I said, "Could you take it easy? This is getting a little expensive." Loaded up. It's loaded up with equipment and wires and everything else in addition to the wall, because as you know, the Democrats say, "Walls are obsolete, right." I said, "No walls and wheels will never be obsolete. Walls and wheels." Everything else is going to be obsolete. And we want to ensure that more products are proudly stamped with the phrase, that beautiful phrase made in the USA, right. Made in the USA.

Donald Trump: (29:20)

We are going to deliver record prosperity, epic job growth. We're doing it already. 11.4 million jobs over the last few months. There's never been a time in our

history where we put that many people to work that quickly. Groundbreaking therapies and safe vaccines that quickly end the pandemic. It's ending anyway. We're rounding the turn. It's ending anyway, but the vaccines are going to be incredible. They'll be very quick. If somebody else were president, you'd get a vaccine in about four years from now. Normal life, that's what we want, right. Normal life. We want normal life. We just want normal life. It's happening very quickly. And next year will be the greatest economic year in the history of our country. I gave working families record-setting tax cuts, biggest tax cut in the history of this country. And this guy's running on tax increases. I never saw it. I said it yesterday, where I was with a great group.

Donald Trump: (30:17)

I was in New Hampshire. We should do very well there unless you watch television. He will not win. Then you get polls like you're leading. And I say, "Why do they keep saying that?" Because you know what they are? They're suppression polls. They make you depressed. And by being depressed, you say, "Darling, we really like our president a lot, but let's just go have dinner and then we'll come home and we'll come home early and watch the results." And that didn't happen four years ago. You said, "Darling, he may not win based on television, but let's go vote anyway." And then they had in probably the most exciting evening maybe in the history of television, right. It sure beats any sporting contest, even ESPN admitted that. There's never been anything like this. Then you went Donald Trump has won the state of Florida, right. Remember? And they said, "Donald Trump has just won the state of Ohio."

Donald Trump: (31:15)

So with Ohio, I mean, we went for a year. You have to win Ohio. You cannot win unless you win Ohio. And they go, "Donald Trump has just won the state of Ohio," but here was the problem, won by eight points. That was the biggest victory. They couldn't believe it. And they said, "There's something going on here, but I'm sure this is just..." Remember with the hand John King, the hand shaking. Hand started getting a little shaky. No, it got a little bit shaky. And then we won North Carolina. We won, excuse me, a place called Pennsylvania.

Donald Trump: (31:59)

There is no way. Beginning of the evening, there is no way for Donald Trump to get to 270, right. And they were right. I got the 306. 306 to 223. 306 to 223. That was some evening. I'll tell you what. I hate to say it and I never thought I'd say it because what happened there was legendary. This is a more important... This is going to be the most important election in our country's history. So get out and vote. In my second term, I will cut middle-class taxes even more. We have a big tax cut. And Sleepy Joe Biden has pledged the biggest tax hike in history. Did anybody see 60 Minutes last night? Did anybody see 60 Minutes? Which is a total joke of a show, but you saw I released the thing early so they got the full, but it was okay. But did you see his performance on that show? The only thing almost as bad was Kamala with the laugh. That's so funny. She kept laughing. I said, "Is there something wrong with her too?"

Donald Trump: (33:23)

She will not be the first woman president. You can't let that happen. Can't let that happen. I said, "Is there something wrong with her?" She kept laughing at very serious questions. But how about this? Mike was great. But how about this? They asked me, she says, "Are you ready for tough questions?" I thought she was kidding because how do you say. I said, "Just treat me fair." No, no, no. This is tough questions. And I said, "They do." And I said, "Let's see what you have." And it was just question, question, kill. Always going for the kill. She's a zippo, but always going for the kill. And then did you see the interview with him? Oh, it was so soft. They're trying to protect. They try so hard. That's right. You saw the other day. He's walking out with ice cream. Mr. Vice President, what flavor is it?

Donald Trump: (34:27)

I think it's vanilla and chocolate. I said, "I don't get questions like that, right." Now, Pennsylvania gets it. By the way, we win Pennsylvania, we win the whole thing. You've got to go out there. Big deal, right. Congressman. This election is a choice between a Trump super recovery. We're having a super V it's called. Nobody even thought. We are doing numbers and wait until you see that number on GDP. I don't know what it is. The Fed said it may be a 35% increase in GDP, the Atlanta Fed. They came out last week. You saw that? I'll take 25% right now. I'll take 15 right now. I think the record was seven or eight, but they said it could be 35%. You see car sales through the roof, housing starts through the roof. There's great things going on, but a tax increased by Biden, all the things he wants to do, regulations.

Donald Trump: (35:26)

He wants to put back all the regulations, which were terrible. It would take 20 years to get a highway approved, 20 years. A job killer is right. It's a job killer. So you'd have that against a Biden depression. Let me tell you, if he gets in with what he wants to do, you will have a depression the likes of which we've never seen in this country outside of perhaps 1929. It's a choice between a Trump boom or a Biden lockdown. He wants to lock down the country again. No, we understand the disease. Well, you guys I don't even talk to you. You're already on lock down. Are you going to ever open up? Congressman, are you going to get this guy, this clown to open it up? Make sure he can't get a site. Make sure when the president comes into Pennsylvania, make sure he can't get a site. He cannot get a site. I don't want him here. We had one, they shut it down. We had two, they had three, but I like this place. This is quiet intimate.

Donald Trump: (36:28)

My guys did a good job with about four hours notice. They had like... No, but think of it. Think of it though. I said it before. So he doesn't want us to have a site. No freedom of speech, right. He doesn't want us to have a site, but this is the guy that's counting our balance. Doesn't work? It doesn't work. So be very vigilant and watch. Be pole watchers. Watch. Did you see where they fought us because they didn't want poll watchers? They took us to court and we had a bad decision. We had judge, this judge. So we'll appeal it, but this judge, obviously, I won't get too into that. But he said, "No, you can't have poll watchers." So he's saying we can't even watch as they count the ballots, but we're going to appeal it and we'll end up winning.

Donald Trump: (37:15)

We'll end up winning. Can you believe it? We can't have poll watchers the judge said. They fought us on that. They didn't want people watching them count. Whoever heard of a thing like this? Before I came along, nobody would have sued. That's why Romney got almost zero. When Romney in Philadelphia, remember he got almost zero votes. How did he get zero votes in a city? But we watch and we'll sue and we'll keep doing it and we'll keep having law enforcement right alongside of us. If Joe Biden and his Democrat socialists are elected, they will delay the vaccine, delay therapies, prolong the pandemic, close your schools. Your schools have to open, and shut down our country. Guy doesn't have a clue. This guy doesn't have a clue. Have you seen what this? I mean, we can't play with the country. The only thing I can tell you for sure, President Xi from China, President Putin from Russia, Kim Jong-Un North Korea, and I could name 40 others. They're sharp as a tack.

Donald Trump: (38:23)

They don't want to deal with Sleepy Joe. One of them said to me, one of the leaders said, "Well, I hope you win because we don't want to deal with somebody that sleeps all the time." Do you believe him? No, he just announced a lid. He announced another lid. Somebody could say, "Oh, this is brilliant. This preventive defense." First of all, did you ever see preventive defense? It always loses. A team shuts down the other team for three and a half quarters. They're leading by six, then they go prevent defense. They lose all the time, right? Two touchdowns scored on them. They shut a team down for the whole game. Then they go, "Let's go prevent." Well, I don't know if he's doing that. I don't think so. I think he's doing it because he can't answer questions, really.

Donald Trump: (39:11)

When these clowns back here, bad corrupt people, when they ask him questions, he cannot answer the simplest question. How about where they gave him questions on a teleprompter? They said, "Here are the questions." And they wrote out the answers to him and he's responding. Can you imagine I have the press here. Sir, what about this? What about that? What about? I won't tell you some of the tough ones because there are some questions that never work out well, no matter how you answer them. They can make whatever. They'll take the answer that could be perfect, and they'll make... So they'll ask a question, and then they said, let's say, "Oh, well that means they gave them the questions." Whoever heard of this before? And then the way the tech fakers close section 230 anybody, they closed down because the government gave them special protection.

Donald Trump: (40:04)

The way they closed down anybody. They banned the New York Post from being on. Can you believe it, the New York Post? Fourth largest. No, it's amazing. In an interview that aired last night, Biden said he opposes letting young Americans resume their lives, even though most are at extremely low risk, 99.99. Now as

an example, I had it and here I am. My wife had it, first lady had it. But the legendary Barron Trump had it. They say, "Sir, your son Barron tested positive." I said, "Oh, that's terrible." 14 minutes later, how's Barron? Oh, he's better. He's fine because they're stronger than us. They have an immune system. I don't know what the hell it is, but how's he doing? 15 minutes later. How's he doing? He's fine, sir. Barron, are you're feeling okay? Nothing wrong with me, dad. I think he had the sniffles barely. 99.98% of those under the age 50 fully recover. But Sleepy Joe wants to keep the whole country on lockdown, keep them in their homes while letting rioters and looters run wild. We call these protests. This is not a meeting. We call them protests. You know why? Because the only thing you can do in Pennsylvania is a protest. You can't go to church. You can't pray to your God. You can't be with your pastors, your priests, your rabbis, you can't be none of that. You can't do anything. You can't go shopping. You can't open your stores, but if you want to protest and burn the hell out of your city, no problem, you can do that. So when I was told a couple of months ago about Pennsylvania and others. Minnesota we're going to win too. We're going to win Minnesota because we saved Minneapolis.

Donald Trump: [\(42:04\)](#)

I sent in the National Guard, took about a half an hour, but we're going to win that. But when you think about it, you can't do anything. And then they have this little clause unless you are protesting. I said, "Good. So these are no longer rallies. They are friendly protests." When the China virus arrived, we moved heaven and earth to fight the disease. We banned travel from China and Europe. Sleepy Joe didn't want to. He said, "Oh, you shouldn't do that. You're xenophobic." Right. He called me racist. He called me everything. That was in January. Two months later, he still thought he was right, and then he had to apologize. And then he runs and then he said, "Trump should have done it earlier." Except he would know, think of it. How does he get out of that one? And the fake news doesn't want to report that. So in January I wanted to do it, but in March he thought I should have never done it. Same with Pelosi. She was dancing in the streets. Nancy Pelosi, Crazy Nancy, crazy. She's crazy as a bedbug.

Donald Trump: [\(43:12\)](#)

How about when she went to the beauty parlor and the woman that owned the beauty parlor is a Trump supporter. Can you believe it? Craziness. Oh, what a group. We have a good chance of taking back the House. I'll tell you. We have a good chance. Of course, she is crazy. We airlifted medical supplies, built hospitals from scratch, slashed red tape, pioneered groundbreaking therapies. I wish Cuomo in New York would have used the convention center for seniors. If Cuomo would have you used the convention center for seniors and the big ship. We sent the big hospitals ship in, sitting there practically empty all the time. If he would've used the ship and if he would have used the convention center for seniors, you would have had no problem there.

Donald Trump: [\(44:03\)](#)

... years we would have had, nope, you would have had no problem there.

Donald Trump: [\(44:05\)](#)

We reduced the fatality rate, 85%. Think of that. That's because of what we've come up with over the last little while. As I said before, here I am right. And saved over 2 million American lives.

Donald Trump: [\(44:19\)](#)

So when this first came, people were projecting that it could be as bad as 2.2 million. Right? I think we saved by shutting down, by doing what we did, by learning the disease, and now we have therapies, therapeutics, we have all of the different things. The vaccines coming. I really think we saved 2 million lives. They never say that. The fake news will never say that. And we will deliver 100 million doses of a safe vaccine before the end of the year. Seniors will be first in line for the vaccine because they're the most vulnerable, as you know. We learned that.

Donald Trump: [\(44:53\)](#)

We must take the virus seriously. We must keep our people safe. But we must not give into panic and fear. They want me to say everybody, everybody, please. We don't want to do that.

Donald Trump: [\(45:09\)](#)

Oh, happy birthday, darling.

Donald Trump: [\(45:14\)](#)

Most importantly, we're protecting the elderly and those with underlying conditions with extreme vigilance. This has been my top priority from the beginning. So we understand this horrible disease sent by China, came over by China. Remember that? Don't forget that place. I will break through every... Oh, do they want Sleepy Joe to win? When does China want Sleepy Joe to win? They own him. They own Sleepy Joe. Did you see his email where they want \$10 million a year, a year for introductory purposes. You know who they're going to introduce him to, Sleepy Joe. So the son never made 25 cents. All of a sudden Biden becomes vice-president and now he's making millions of dollars a year. Unbelievable. And Biden, they got, Biden got a lot of it. Look, he got 10%. right? It went to the big man. I don't consider him a big man, but went to the big man, 10%. and the press doesn't want to talk about it. [inaudible 00:46:15]

Donald Trump: [\(46:19\)](#)

But we won't rest until we eradicate this disease once and for all. Little, I'm telling you it's happening. We will vanquish the virus. We will overcome the pandemic. And we will emerge better, stronger, and more unified than ever.

Donald Trump: [\(46:39\)](#)

And by the way, there are people that want to get out. And there are people that feel more comfortable staying at home. That's okay. Stay. Don't feel that, stay, it's okay.

Donald Trump: [\(46:47\)](#)

But if Biden and the Democrat socialists are elected, they will raise your taxes to a level that you've never seen before. Quadruple. He's the only candidate history whose primary platform is I will raise your taxes. Can you believe this? I'm running against this. I am running against the worst candidate in the history of presidential politics. I am. I really believe that. And think of it, think of it, and I have to be very careful the way I say this. You know why? If I say, if I lose, they go back. We have breaking news. President Trump thinks he's going to lose. They did it once before. I told the same little anecdote and they go back and they'll say, President Trump thinks he's going to... So, I have to be very careful.

Donald Trump: [\(47:33\)](#)

But can you imagine, can you even imagine losing to a guy like this? Actually, I wish he was a good and even a great candidate, because if something happened, you feel a little better. But could you imagine, he can't remember my name, no. I'm not that big of an ego guy. He should be here, but I'm the candidate like, that's good candidate. And I happen to be president. He could not remember my name yesterday. This is what you're putting in office. I don't think he's going to make it. I don't think he's going to make it.

Donald Trump: [\(48:08\)](#)

Ladies and gentlemen, the Vice President Biden will be doing a lid today. No, he was doing the lid till Thursday. Hey media is it till Thursday, he's doing the lid? Thursday. In other words, he's taking 40% of his campaign. He's going to lid. I don't know. I don't know.

Donald Trump: [\(48:27\)](#)

Look, you know what? You could run. See this beautiful, whatever the hell is made out of, plastic. Right? See this beautiful thing. You could run that. You got the Democrats, you got the fake news media as their partner, and you have big tech. They're all partners. And then you have the rhinos. You have the rhinos, you have the bad Republicans. You have the sicko rhinos, right? That I've beaten so badly over the years. You know the rhinos, the people that do the ads and stuff. Every one of those guys just about I beaten because they all represented a client in the primaries. And instead of saying, "Hey, he did a good job. He's a smart guy. He did a great job." They said, "Let's go against him." But every one of those guys take a look, real garbage, not smart people, but he wants to terminate religious liberty, destroy the suburbs. He'll destroy.

Donald Trump: [\(49:15\)](#)

I am saving the suburbs. I'm getting rid of a regulation. I'm getting rid of a regulation that will move a project next to your beautiful house. Congratulations. You like having a nice project next to your house, I don't think so. And with it comes plenty of crime. That's why they keep saying, we don't know. We think he's not doing well with suburban women. I think I'm doing great with suburban women.

Donald Trump: [\(49:44\)](#)

I am saving the suburbs. I'm saving this suburbs. How can I do badly? Look, here's what I know about suburban women. First of all, they're great. They love our country. But here's what I know. They want two things. They want to leave their house alone. They don't want a five story project next to them, or could be higher. They want to leave their house alone, very important. You know what else, they want security. Okay. They don't want to have Antifa and anarchists running through the streets. Okay. So if they agree with what I just said, I have a feeling they're going to be voting for Trump.

Donald Trump: [\(50:22\)](#)

It was the same time, last I remember. They said he will not get the women's vote. He will not get the women's vote. And then at the end of the evening, you remember how great I did. Right? One of my best group, women. So I said, "Am I that bad? Am I that bad?" He will not receive the women's vote. You know, Jim, this should be over very quickly. Donald Trump. At that time, it was just Donald, no president. Donald Trump will not be able to get the women vote. The end of the evening, they said, "Man, did he do well with the women vote? What the hell happened?" So true.

Donald Trump: [\(51:05\)](#)

And then Biden's going to pack the Supreme Court with radical justices who will shred your second amendment and pro-life. And so many other things, he were shredded it. To defend our God-given freedoms. How do you like Amy, by the way, isn't Amy great?

Donald Trump: [\(51:22\)](#)

I nominated Amy Coney Barrett to the Supreme Court of the United States. And tonight she will be confirmed by the Senate. And become the newest member of the Supreme Court. It's a big deal. He wants to pack the court, maybe 16, maybe 18, maybe 20. Why don't you put a couple of hundred people in there. He wants to pack up the court with radical left judges. And I've been saying, I'd go a step further. I have a list of 45 great people. Great people. They believe in a thing called the constitution. Little things like that.

Donald Trump: [\(52:05\)](#)

He's got to tell us who he might put on because you can't vote for him unless you know. Because you can't have radical left judges who are looking to destroy our country. This election day, the people of Pennsylvania must stop the anti-American radicals, delivering Joe Biden and the far left. You have to do this, a thundering defeat. You have to deliver them a thundering, beautiful, big, solid defeat. You better get out there and vote.

Donald Trump: [\(52:34\)](#)

When I saw the few hands of the people that voted, that's in Pennsylvania, for some reason you always vote very late. I guess you're like me, you feel like voting in a booth, pressing a little button, right? Having somebody check to see that it really is you. There is something nice about it, right? But no, but Pennsylvania, I think more than any other place they want vote late. So I'm really happy to see this, because you know what a lot has been learned in the last few days. The debate learned a lot. We learned a lot about fracking, about energy, about the fact that he's not all there.

Donald Trump: [\(53:09\)](#)

No, that debate was important. It had a lot like Super Bowl type ratings, right? I'm glad they didn't tell me that before I went onstage. But that debate was great. And we learned.

Donald Trump: [\(53:21\)](#)

Other things we learned when this Savannah Guthrie, who is just terrible. No, she was coming out of her chair. She was asking me. She was crazed. She was crazed. And I did a nice job. Savannah take it easy, just relax. Just relax. Don't let the hatred show. But we learned a lot. You learned a lot and I'm glad you're getting ready to vote. And we've got a blow them out. This is the whole ball game. We got to blow them out.

Donald Trump: [\(53:56\)](#)

And maybe above all else, Joe Biden, as you know is a corrupt politician. They've known that for a long time. Now, they'll never put that on air. They will say, "Cut the cameras. He called Joe Biden corrupt. Cut. Cut. We have to protect Joe." They have big benefits with Joe. If Joe gets in, they get a lot of benefits that they won't get with me.

Donald Trump: [\(54:16\)](#)

He wants to destroy your energy jobs in Pennsylvania while his own son collected \$183 a month, \$183,000 a month. So Hunter has no energy experience. He has no job. He has no income. His father becomes vice-president and here's just a few of the things he gets. \$183,000 a month. Would anybody like that job? For a very bad type reputation, big energy company from Ukraine, right? He gets three and a half million dollars from Russia. From the wife of the mayor of Moscow, three and a half million dollars. What the hell did he do for that? He had no income, no job, no nothing. And then come the beauties. He got \$1.5 billion to manage, because he's a great manager of money. He had no job, no money, no nothing. \$1.5 billion to manage, which is millions and millions of dollars from China.

Donald Trump: [\(55:22\)](#)

I said to a friend of mine, the biggest on Wall Street, very smart guy. I said, "Is that possible to get that?" He said, "It's not possible for my firm to get it." He got one and took him approximately 10 minutes in dealing with the Chinese.

Donald Trump: [\(55:34\)](#)

And then they will go for the big one, \$10 million a year for introductory purposes. And when I say it, they go, "But you have no proof." No, we do. We have stuff all over. But then they have a new excuse, a new excuse, Russia. It was Russia. Right here we go, again. Three years of it. Adam Schiff, the watermelon head, right? Upon information. I believe. I believe that the laptop from hell was created by Russia. I'll tell you. Boy, some of these foreign countries, they must think Shifty Schiff, they must think we are nuts. Think of it. After go through all that. No collusion. They spent \$48 million, no collusion. By people that hated me. If they had a stamp that had an R on it, they would have said, it's collusion. Smart people. 18 crazy Democrats that were smart, vicious, violent. No collusion. 48 million they spent.

Donald Trump: [\(56:45\)](#)

And now we hear about the laptop. The laptop from hell, that he brought in to be fixed. He forgot. That was a very expensive repair job. He didn't pick it up. By the time he picked it up, it was too late. But here's the thing. And they say, it's Russia, Russia, Russia. I hope... Does anybody here believe it was Russia? You know who doesn't believe it even more than you is the fake news media, but they'll write it all the time. It's a con job.

Donald Trump: [\(57:18\)](#)

It was the greatest crime in the history of our country. And this could be the second. We caught them spying on my campaign. It was a treasonous act and we caught them. We have them. Let's see what happens. We have very nice people. We have very nice people that don't want to do anything before the election. Very nice. Very nice people. It's okay to do it to me, but it's not okay to do it to other people.

Donald Trump: [\(57:44\)](#)

If Biden wins, China wins. And if China has anything to do with this whole deal, if he wins, let me tell you, China will own the United States of America. They will own it.

Donald Trump: [\(57:57\)](#)

When we win, you win, Pennsylvania wins, and America wins. We're going to have a big victory.

Donald Trump: [\(58:05\)](#)

I don't think China likes me much. And I've charged them tens of billions of dollars, billions and billions of dollars in taxes and in all sorts of things, tariffs. And I gave 28 billion to the farmers. There aren't a lot of farmers here, I guess, right? Are you a farmer? Did you get a check? He's a farmer. I got one farmer here.

Donald Trump: [\(58:24\)](#)

But no, but I gave it to the farmers because they were targeted by China. \$28 billion, two years, '12 and '16. \$28 billion, I gave to our farmers because they were targeted. Nobody else would do that. What you would like is I charged a big tax on the dumped steel, right? They would dumping steel all over the place. Destroying your steel companies. I put a 25% tariff on that. And your steel companies started doing well again. It was very nice. Sleepy Joe won't do that. In fact, Sleepy Joe said, we made it good deal with China, unfortunately the ink wasn't dry before the plague came in. But I never took the tariffs off, nobody understands that. Never took it off. I wouldn't take those tariffs away. Sleepy Joe said, "One of the first things I do is take the tariffs off." Do you think China would like to see him get it? Boy, oh boy. They would love to see it.

Donald Trump: [\(59:17\)](#)

If I don't sound like a typical Washington politician, it's because I'm not a politician. If I don't always play by the rules of the Washington establishment, it's because I was elected to fight for you harder than anyone ever before.

Donald Trump: [\(59:40\)](#)

So we have a couple of warriors here. They're great people. They're congressmen. And man did they fight for me. Congressman Dan Muser. Dan, thank you very much, Dan. A former Congressman, I'm sure you never heard of him. His name is Lou Barletta. And Lou Barletta is strongly against taking the statues of Christopher Columbus down. Would you say that's right? Lou's not a big fan of that. Right? And congressional candidate, who's supposed to be fantastic, and a star, Lisa Scheller. Good. That's great, Lisa. And somebody who's done a fantastic job, campaign chair, Bernie Comfort. Bernie, Bernie. Hey Bernie, how are we doing? Looks good. Looks good. Looks very good. Harder to judge because you go in so late, but it's looking good.

Donald Trump: [\(01:00:47\)](#)

The places where they've casting and where they're casting their vote, that's not any more polling. You sort of know. They are really looking good. Bernie, you got to win. You don't win I'll fire you so fast, you have no idea.

Donald Trump: [\(01:00:59\)](#)

I especially want to recognize the incredible truckers for Trump who were here tonight. Truckers. We love you guys. They're truckers for Trump, they're incredible people actually. I don't know how they do it. Those are long hours driving down those highways. That's long, that's not easy.

Donald Trump: [\(01:01:35\)](#)

And we got them some pretty good legislation that other people wouldn't get them because they just don't do those things. But we got them some pretty good legislation. So thank you very much, fellas. We appreciate it. The women and the men.

Donald Trump: [\(01:01:47\)](#)

Under my leadership, we achieved the most secure border in United States history. My opponents insane immigration plan would eliminate us borders entirely by implementing nationwide catch and release. They want to have catch and release. You know what catch and release is, you catch them, they're a murderer, they're a rapist, and you release them. You know where you're releasing them? Into our country.

Donald Trump: [\(01:02:10\)](#)

Then Biden at the debate. He said, "No, no it's okay because they come back for court." Nobody comes back. They don't come back. No, I ended catch and release. I didn't like catching a murderer and releasing them. Now that wasn't. We keep them out. We're keeping them out. You can come into our country, but you have to come in legally and you have to come in through merit. His plan would also make every community into a sanctuary city for violent criminals. Somebody like your governor, Tom Wolf would probably love it. You got to speak to him about this. He can't do this kind of stuff. Called freedom of speech. Right? The Biden Harris plan would also increase refugees coming into our country by more than 700%. It would be the highest level anywhere in the world. That's Bernie, that's Crazy Bernie. They pled to terminate all national security travel bans, opening the flood gates to radical Islamic terrorism. No, thank you. If you don't mind, Joe. No, thank you. You saw what happened a few days ago in Paris, right? You saw that horrible attack. I'm keeping the terrorist, jihadist, and violent extremists, the hell out of our country. Is that okay? Do the truckers agree? Do the truckers agree? I think so. I think I have the truckers vote. That's nice.

Donald Trump: [\(01:03:41\)](#)

By the way, nice trucks. You think I could hop into one of them and drive it away. I'd love to just drive the hell out of here. Just get the hell out of this. I had such a good life. My life was great. And then I said, "Let's do this, darling, this will be a lot of fun." But you know what? I'm so happy with it because nobody has ever done so much in the first three and a half years. No one [inaudible 01:04:07].

Donald Trump: [\(01:04:10\)](#)

We invested 2.5 trillion with a T trillion dollars. Now Biden would say 2.5 million. 2,500.

Speaker 10: [\(01:04:27\)](#)

We love you. We love you.

Donald Trump: [\(01:04:27\)](#)

Thank you. And I love you too. Thank you. I guess that's why we're all doing it together, right? When you get right down to it. We have a great country. We have to save our country. Most important election.

Donald Trump: [\(01:04:41\)](#)

But we invested \$2.5 trillion in the U.S. military. And we a thing called the Philadelphia Shipyard. Have you ever heard of it? We saved it. Anybody work there? We saved the Philadelphia Shipyard. We didn't want to lose it. We also pass VA Choice and VA Accountability. Nobody said it was possible. For the vets.

Donald Trump: [\(01:05:03\)](#)

And we just got a 91% approval rating from the vets, the highest ever. Remember all for years, you'd always see vets stories, how badly they were treated. Now you go see a doctor. We pay the bill. If you can't, because we have great doctors there actually. But a lot of times it would take weeks before you could see a doctor. Now you go to a private doctor, we pay the bill. Nobody thought we could do that.

Donald Trump: [\(01:05:23\)](#)

Exactly, one year ago today we killed the leader of ISIS, al-Baghdadi. And we took out the world's number one, terrorist Soleimani is dead. And we took 100% of the ISIS caliphate. You know that 100%.

Donald Trump: [\(01:05:50\)](#)

I withdrew from the last administration's disastrous Iran Nuclear Deal. One of the worst stupidest deals. This was John Kerry who liked to go bicycle riding. Remember? That's the only thing that stopped him from finishing the deal sooner.

Donald Trump: [\(01:06:03\)](#)

That's the only thing that stopped him from finishing the deal sooner. They paid \$150 billion, \$1.8 billion in green, in cash, for nothing, for an agreement that expires very shortly if we didn't terminate it. Time flies, right? For a short term agreement, they gave him \$150 billion. The first call I get when we win will be from the head of Iran, let's make a deal. Their economy is crashing. They will call and I want them to do well, but they can not have a nuclear weapon if it's okay with you. If it's okay with you, they can not have a nuclear weapon. Do we agree with that, Congressmen? But we want them to do well, but it will be the first call. I said, "We don't want to negotiate."

Donald Trump: [\(01:06:47\)](#)

They got to see what happens, because they dream, also. China dreams, every country's dreaming about it, Germany. There was a poll that Barack Hussein Obama is more popular in Germany than I am. But I agree with that. If I win those polls, then I'm not doing my job, right? When you think about it, no, they rip us. Everybody rips us. I recognize the true capital of Israel and open the American embassy in Jerusalem.

Donald Trump: [\(01:07:16\)](#)

That was promised for decades and decades by every single president running for office promised that, and nobody did it, but me. Instead of... right? I've been... I'm the only one. Instead of never ending Wars, we are forging peace in the Middle East. Three countries and they're lined up. They're lined up so beautiful to see. No blood in the sand, much less expensive. Now, we just got yesterday, Sudan, you saw that. Got Bahrain, UAE, now, great. They're lined up. They're all set.

Donald Trump: [\(01:07:53\)](#)

You know what? They're tired. They're tired of fighting all the time. Fight... they're tired. We're bringing our soldiers back from Afghanistan. All coming back. Many have already come back. A vote for Republicans... 19 years is enough. Do you agree? 19. A vote for Republicans is a vote for safe communities, great jobs, and the American dream, so vote for the American dream.

Donald Trump: [\(01:08:18\)](#)

In conclusion, I hate to leave you, but in conclusion, over the next four years, we will make America into the manufacturing superpower of the world and we will end our reliance on China once and for all. It's already happening. We will hire more police, increase penalties for assaults on law enforcement, and we will ban deadly sanctuary cities.

Donald Trump: [\(01:08:47\)](#)

We will uphold religious liberty, free speech and the right to keep and bear arms. Second amendment. We will maintain America's unrivaled military mind. We've never had... I said 2.5 trillion. We have the greatest tanks and rockets and missiles and jets, F-35 superstealth, and tankers, and submarines, and our nuclear weapons are now tippy-top and hope to God you never have to use them. But we are the envy of the world. We are the envy of the world. Russia, China, North Korea, no matter where you go, our weapons are the envy of the world. Hope to God we never have to use it.

Donald Trump: [\(01:09:36\)](#)

But we will ensure peace through strength. We will maintain American energy independence. We're independent. Can you believe that? We have energy independence. First time. We will end surprise medical billing, require price transparency, already signed, ready to go January 1st. Lower drug prices even more. We have favored nations. We get the lowest in the world. Now we're the highest, we go down to the lowest, the drug companies don't exactly love me too much. Big pharma. They are doing more commercials than me than Biden times five. We will always protect patients with pre-existing conditions.

Donald Trump: [\(01:10:21\)](#)

We will stop the radical indoctrination of our students and restore patriotic education to our schools. We will teach our children to love our country, honor our history, and always respect our great American flag. We will live by the timeless words of our national motto, in God we trust. In God we trust. They wanted to take the word God out of their Pledge of Allegiance, you saw that. I watched that. I said, "They must've made typo." They didn't have in God, they didn't have God. They took the word God out. I said, "What's..." Then when I watched it a second time, same thing happened. I said, "This is serious." Then our country got very angry and it was incredible how quickly God got put back into... right? I put back Pledge of Allegiance.

Crowd Together: [\(01:11:29\)](#)

God loves Trump.

Donald Trump: [\(01:11:37\)](#)

Thank you. For years, you had a president who apologized for America. Now you have a president who is standing up for America and standing up for Pennsylvania. A man named Byron York, he's a great writer. I find him to be a great writer. They know him very well. He did an article today. They were saying, "Who's going to win?" He said, "I don't know." You have these incredible rallies. I'm not just talking about Trump rallies that just form. Car rallies, boat rallies... They just form without... By the way, trucker rallies, they have trucker rallies. It was very interesting. He said, and it's true, "They're organic. They just happen." They had a big one yesterday on Long Island. They had a big one in New York city. He said, "It's very intriguing." You had a big one here. No, he said, "Yeah, I don't know." He said, "You better be careful. You better be careful." Because he's never seen anything like it. I'm not even talking about the rallies that we do. I'm talking about these are rallies in Iowa. They had thousands of tractors. They had tractors. The boat rallies are incredible.

Donald Trump: [\(01:12:53\)](#)

For the last four years, you have seen me fight for you, and now I am relying on you to deliver another historic victory for our country. On November 3rd, We must finish the job and drain the swamp once and for all. We did it, but nobody told me this swamp was that deep and that dirty and that vicious. You get impeached for a perfect phone call. They impeach you for a perfect phone call. By the way, they had the laptop, as I call it, the laptop from hell. Based on that laptop, they should have never impeached, right? But they didn't want to reveal a little thing like that. No, it was great. We had great loyalty from the Republican party. Great, great loyalty. It was really great. Get your friends, get your family, get your neighbors, and get your coworkers and get the hell out to vote, please.

Donald Trump: [\(01:13:50\)](#)

You know what? It's going to be all over the country, not just in Pennsylvania. It's going to be a great red wave. There already talking about it. Boom. It's got to be a lot bigger than people understand. That's what Byron was talking about. He said, "I don't know, that's never been..." There's never been anything. There have never been rallies like this. There have never... We were in Ohio. We're in Wisconsin. Yesterday, we were in New Hampshire. It was, I'm telling you, you had to see the biggest rallies that anyone's ever seen. They go quickly. We give 24 hours notice, press a button. We're going to be in New Hampshire. We're going to be in Ohio, Wisconsin. We're going to be someplace and boom. You have tens of thousands of people. There's never been that before.

Donald Trump: [\(01:14:41\)](#)

Sleepy Joe goes out, there's like four people show up. They have no people. They can't even fill up the circles. You know the circles? Barack Hussein Obama went out over the last three, four days. He's drawing flies, flies. Now nobody's going. Obama's out and they will never show it. They don't turn... See here, they never show the extent of it. They have the opposite. They never show it. They should show it because nobody is showing up to watch Barack Hussein Obama. See the red lights? See those red lights, all those red lights? That means you're on live. Are you ready? They just turned them off because I was insulting. Look, they just went off. Can you believe it?

Donald Trump: [\(01:15:28\)](#)

They're tormented, the fake news. They're tormented. In one way, they have to have it on because it's ratings. It's big, big, beautiful ratings. In another way, CNN hates when I say CNN is fake corrupt news. They hate it. You'll see it go on and off a little bit. Now they just went off. Did you see that? Boom. Anytime I start talking, they say, "Now let's go to a commercial break now, please." No, they're tormented because they want the ratings. Without it, they get terrible

ratings. They want the ratings. They're fantastic ratings. But at the same time, they don't want to be talked about in a bad manner, right? But you have to talk about it because they're corrupt. They have to report the news. They are the enemy of the people. They really are. They're the enemy of the people.

Donald Trump: [\(01:16:19\)](#)

For generations, America's destiny was made in Fords and won in places like Bethlehem and Bristol, Scranton. By the way, he has nothing to do with Scranton. Altoona, Easton, and Allentown. They were tough American men and strong American women who gave their heart, sweat, and soul for their families, their country, and for freedom. We stand on the shoulders of the Pennsylvania Patriots who fought the battles, mined the coal, worked the assembly lines, loaded the rail cars, poured the steel that built the middle-class. It built the middle-class. Raised up our great skyscrapers, laid down the battleships, won two World Wars, defeated fascism and communism, and made America into the single greatest nation in the history of the world, and the best is yet to come.

Donald Trump: [\(01:17:27\)](#)

Proud citizens like you helped build this country. Together we are taking back our country. We are returning power to you, the American people. With your help, your devotion, and your drive, we are going to keep on working. We are going to keep on fighting, and we are going to keep on winning, winning, winning.

Donald Trump: [\(01:17:57\)](#)

We are one movement, one people, one family, and one glorious nation under God. Together with the incredible people of Pennsylvania, we have made America powerful again, our military. We have made America wealthy again, our stock market. Your 401ks, let's keep them up there. Don't throw them away in two years and you'll say, "The president told... The previous president told me that was going to happen. I don't think that's going to happen." Your 401ks are hitting records. Does anybody have a 401k?

Donald Trump: [\(01:18:38\)](#)

We have made America strong again. We have made America proud again. We have made America safe again, and we will make America great again. Thank you, Pennsylvania. Go and vote. Thank you.

Donald Trump: [\(02:00\)](#)

Thank you very much. Thank you. What a group. What a group. We love this place. This was my first victory, right? This was our first victory. Remember that beautiful primary that we had and Trump came in and Trump won this incredible great state and it was off to the races, right? Off to the races. So I want to thank you and hello, New Hampshire. It's great to be with you on this beautiful, on this beautiful day.

Donald Trump: [\(02:40\)](#)

Nine days from now, we are going to win the state. Can you believe it? Nine days. And we're going to win four more great years in the White House. We're going to keep it going. This is the most important election in the history of our country, the most important election.

Donald Trump: [\(03:02\)](#)

And I never thought I'd say it after what we went through with the last one four years ago, this is a more important election because we're fighting people that we've got to end it. We've got to end the fight. We've got to put them down. We've got to end the fight. Our country will never be a socialist country. We have to end the fight once and for all.

Donald Trump: [\(03:27\)](#)

For the last half century sleepy Joe Biden has been outsourcing your jobs, opening your borders, and sacrificing American blood and treasure in the endless, horrible, ridiculous foreign wars. Afghanistan, 19 years, 19 years. He voted for the war in Iraq. But for himself, did you know today? You know what happened, right? He put the lid on. You know what the lid is? He's constantly putting the lid on, constantly putting the lid on.

Donald Trump: [\(03:58\)](#)

The lid means, I guess it's referring to a garbage can, right? You put the lid. And he's putting the lid on. This guy has more lids. I don't know. There's something going on. Somebody said it's strategy. It's not not, because really strategy would be coming out. And by the way, a lot of things are happening lately. You been noticing? Have you been noticing?

Donald Trump: [\(04:19\)](#)

I just was asking some people to go back to the fake news and go to the back of the plane. A lot of people up there, a lot of cameras. And I was saying, "And I wish those cameras would show behind the cameras." There were thousands of people there, thousands of people there, and thousands of people outside on the street, thousands.

Donald Trump: [\(04:44\)](#)

There are thousands of people outside. But have you been noticing what's been happening? People know we've done a great job. What's going to happen? This is going to be as exciting, maybe, I don't know, you can say more exciting. You remember that beautiful night in November four years ago? Well, I don't think this one will be as close. I don't think this is going to be as close. Thank you.

Crowd: [\(05:13\)](#)

We love you. We love you. We love you. We love you. We love you.

Donald Trump: [\(05:28\)](#)

No, that's a chant. In all fairness, I said, "Has anyone in the history of politics," think about it, Ronald Reagan was popular, but they never had that chant. That is a chant. I won't even say it because I don't want to cry, but Ronald Reagan never had that chant. Nobody's ever had that chant, and you see what we go through. It's a tough thing. The swamp is deep and it's vicious. These people are vicious. These people don't report the truth. It's very hard. They don't report the truth. So for instance, I asked them, "Would you please turn the cameras around?" They don't do that. They never do. They have this shot all the time. I don't have that big an ego. I don't want that shot. They have this shot. You know what they show? They show myself and about five people back there. And on occasion, some of the people back there become big stars because they are on camera.

Donald Trump: [\(06:35\)](#)

But they never move the camera, and I used to think it was the way it is. You couldn't move it, mechanically you couldn't do it. And then all of a sudden, we don't see that anymore. I shouldn't say it, but we don't see it anymore. They used to have little fights, right? Little problem. And the camera used to turn like a pretzel to catch it because they viewed that as a bad thing, right, a bad thing.

Donald Trump: [\(06:56\)](#)

And that camera would turn around. That steel would turn like there's nothing to it, but they never show the crowds. But you know what? They don't show Biden's crowd when seven people show up. And you know what? They don't show Barack Hussein Obama. He came out to campaign two days ago. Right? And they had 42 people. He drew flies. Did you ever hear the expression? Obama drew flies.

Donald Trump: [\(07:29\)](#)

But they don't show that. But we want them to show our crowds because there's never been anybody, and this is us as a group, anybody, any group, any movement that's ever gotten the kind of crowds that we have. And I was told about New Hampshire. I have a lot of friends that live up here, but I understand New Hampshire. I was told in New Hampshire, you can't have big crowds. You have to go to everybody's dining room and have dinner with them. This was even as I was campaigning. I said, "I'm sorry. It just doesn't work. You got to get together and all." And you have guys, they have nothing much to do. They're

politicians, and they'll go and have dinner with two or three people every night. And they'll do this for years. And then they come in seventh in the primary or something.

Donald Trump: [\(08:20\)](#)

I said, "No, we got to do this." And we've been doing this from the beginning. You have the good arena that holds a lot of people, and we pack that all the time. But now with the COVID, what we do, and they keep talking about cases. You know why we have cases so much? Because that's all we do is test.

Donald Trump: [\(08:36\)](#)

If we cut our testing down in half, they'd say, well, they wouldn't say that, but cases would go down. No, we have the best testing and we are coming around. We're rounding the turn. We have the vaccines. We have everything. We're rounding the turn. Even without the vaccines we're rounding the turn. It's going be over.

Donald Trump: [\(08:57\)](#)

And you know who got it? I did. Can you believe it? Every time I'd have these meetings, a lot of people, because I can't put myself in a basement for the next year and a half. Okay? I can't do it. No I can't. Or I can't go to a beautiful bedroom in the White House and lock myself up for a year and a half. You're president. You have to do your job.

Donald Trump: [\(09:17\)](#)

And I'd have meetings and I'd leave meetings, and I'd leave a meeting, and I'd say, "That wasn't good." A lot of people and there's a lot of love in the rooms a lot of times. A lot of times there's no love at all, just the opposite. But I'd say, "That might not be good," but you got to do your job. And I went and what they do is incredible. The doctors are incredible, and especially when you're president, because you have more doctors.

Donald Trump: [\(09:44\)](#)

I don't know if I could ever get used to this again, going back to a normal where you actually have one doctor. You have a doctor for every single part of your body. It's true. And they want to touch it, too. They want to grab you." Sir, I'm a specialist in this. Could I check this?" I said, "I'd prefer not."

Donald Trump: [\(10:07\)](#)

But I didn't feel good and wonderful doctors. Sean, White House doctors, terrific. They're all really talented people, but I had 12 of them, literally 12. Johns Hopkins. I had doctors from the best schools, the best hospitals in the world because you're president, right? And I said, "I'm not feeling too good, fellows. What are we going to do here?"

Donald Trump: [\(10:28\)](#)

And the following morning, I took something called Regeneron. The following morning, I felt so good. I felt like Superman. I wanted to get back. I didn't want to cancel anything.

Crowd: [\(10:50\)](#)

Super Trump. Super Trump. Super Trump. Super Trump. Super Trump.

Donald Trump: [\(10:56\)](#)

Now we didn't want to be canceling. We didn't want to be canceling a lot of things, right? Like Biden. I mean, I don't know what the hell's wrong with him. He never goes anywhere. And when he does, it's Delaware. Now, I like Delaware too. But he just wants to say right next to that house. He feels very uncomfortable. Yesterday, he did some kind of a crazy rally with the horns, right? And then the camera made a terrible mistake. The guy's going to get fired, I'm sure, because the camera turned around and there were so few, there was nobody there. And then he got very agitated, right? You saw that, because you know who was there? Our people were there. Right?

Donald Trump: [\(11:39\)](#)

And they were screaming and he can't think too well. He was having a hard time. And he got very angry. And Obama got angry too, because he went out someplace and it was all our people. And today they're having this incredible rally on long Island. What's happened to New York is so sad with the crime. Democrat run. Only Democrat run. Where you have Democrat run, you have problems. You have crime. It's all closed up in many cases, locked down, locked down.

Donald Trump: [\(12:08\)](#)

By the way, you have an excellent governor here, right? You have an excellent governor. Can I say that? Good. Sometimes I'll say that and people don't like it, but you do. You have a good governor, good guy, and he's with us. And the family is good. And his father is great. His father, I'd see that name Sununu. I said, "Man, he was brutal. He was tough."

Donald Trump: [\(12:29\)](#)

And once we won, there was nobody better than him. There was nobody rougher and there was nobody better. But it's a good family. They really are. They've done a good job and you're opened up and you're doing business and here we are, here we are. But Biden has the lid on again. I guess he figures if he keeps the lid on, he's not going to make a stupid statement.

Donald Trump: [\(12:51\)](#)

He made one yesterday. Yesterday he said, "I'm getting tired of smart people." No, you got to like smart people. Right? He said that, then he said something much worse. Right? He talked about the fact that we have the most corrupt. He didn't mean that. They didn't mean that. But I think maybe we'll put a clip up. We have a new deal. Oh, there it is.

Donald Trump: [\(13:15\)](#)

See that little screen? That costs a lot of money. And if we like you, like we do the great state of New Hampshire, if we like you, like we do New Hampshire, we put that up and we have a couple of little clips, like he's against social security, little things like that. How about his oil comment?

Donald Trump: [\(13:35\)](#)

And I said, "It took all the way to the end. He was doing okay. I wouldn't say it was Winston Churchill, but he was doing all right. He was getting through it." And then all of a sudden it came out, the oil, and he wants to transition. He wants a transition. I said, "Okay, are you listening, Texas? Are you listening, Pennsylvania?"

Donald Trump: [\(13:57\)](#)

Actually, are you listening? You know why? Because your bills. Because of New York, you have the highest energy bills in the country, New Hampshire, all of new England, because they won't allow, we're going to do it anyway, but they won't allow a pipeline to go through New York up to new England. You know that, right? And because of that, and all it would do is cause jobs because upstate New York has been an economic disaster under Cuomo and people are leaving.

Donald Trump: [\(14:27\)](#)

But think of it. A pipeline that nobody would see, way underground, would reduce your energy costs by 50, 60, 70%. And Governor Cuomo won't allow it. So we're having a little bit of a dispute, and this should've been done years ago. I get stuck with everything. I get stuck. But we'll get it done, we'll get it done. If we do that, we can get your energy cost down 50%, 60%. So it means a lot to everybody.

Donald Trump: [\(14:57\)](#)

Sleepy Joe. Are you turning the cameras around? Could I ask you to turn, because you have never seen. People don't even believe it. Look at them. Look at

them. People don't even believe it. I only get disappointed because honestly, the media, the fake news, is too close to me. If they were further back, we'd get more people up here, my people. I'm saying this to my representatives. If they move that back, they have magnifying lenses that are very good. If you move them back, you can have people. They wouldn't be blocked out by the fake news.

Donald Trump: (15:37)

Our lives are blocked out by the fake news, right? But Sleepy Joe voted for NAFTA, which was the worst thing that ever happened to your state and all of new England more than any place. Your factories are still, some of them, empty. And China's entry into the world trade organization. He shuttered your factories, shipped away your industries, and he allowed deadly drugs.

Donald Trump: (16:01)

One thing I learned more than any other place, New Hampshire drugs. For some reason, you get hit harder than anybody else. We brought it down 19%. We took it down. Now, we got set back because when the plague came in, all of a sudden we're looking at different things, but we got it down 19%. I met with your police. We went to the precincts. For some reason, your drug problem, opioids, everything else, is greater than most other states proportionately.

Donald Trump: (16:29)

And we focused very hard in New Hampshire. We got it down 19%. It's coming down further. Had a setback when the plague came in from China, but we got it down to 19 and we're going to get it down a hell of a lot lower than 19 before we're finished, believe me.

Donald Trump: (16:48)

And he allowed drugs, deadly drugs, really deadly drugs, opioids, and fentanyl to pour across our borders and flood into to your schools and your towns and communities, and more in New Hampshire proportionately, as I said, than any other place. In 2016, you voted to fire the depraved political establishment and you elected an outsider as your president who is finally putting America first. This is not the crowd that comes in second, okay? When you leave, it's like a poll, right, except much more accurate, when you leave a place like this, where you have thousands and thousands of people and more people than all of this outside, unfortunately. Can't get in, which I feel badly about. We put speakers out there, but they can't get in.

Donald Trump: (17:54)

But when you leave, you say, "This is not a state where you're going to come in second." It's just not because come in second. If Joe came in, even if he came in in that beautiful Air Force One, is that beautiful? I'll tell you a quick. We have plenty of time today, right? Is there any football game? We don't watch football as much anymore, right?

Donald Trump: (18:20)

Until they stand and honor our country, we don't do it. Until they honor that. But, when I first came in, I said, "How old is Air Force One?" Now we have the greatest people in the world in our military. They're incredible. Look at the condition. That plane looks like it's two days old, right? But it's 30 years. Can you believe it?

Donald Trump: (18:44)

So I said, "So what's going on?" "Well, they're negotiating with one and they signed a contract for \$5.7 billion." It's actually two planes. People don't realize this. Air Force One is two planes, okay? You always have two. You're very spoiled when you have this job. I guess they figure if it's ever a little bit off for a little broken, you just rip out the second one for two and a half billion.

Donald Trump: (19:08)

But it's a most incredible machine. So anyway, so I said, "Well, but 30 years is a long time." I'm not talking about for me. I'm talking it's long time. And I'm good at airplanes, okay? Been very good at airplanes. I said, "So what's the price?" "5.7 billion." I said, "You got to be kidding." For two airplanes, okay? I have friends they order a gulf stream and they pay \$ 78 million. I said, "Half of an engine costs more than that."

Donald Trump: (19:35)

So 5.7. So I met with the head of Boeing, good man, and I said, "This is the first week." I said, "We're not going to buy it." Signed contract, all done. 5.7 billion. I said, "Too much money. We're not buying it." They said, "Why do you say it's too much?" I said, "Because Obama agreed to it, so it has to be too much." It's the only thing I knew. I didn't know anything about it. I didn't know anything about it, but I knew if they were buying it, it was too much money.

Donald Trump: (20:02)

So I said, "Nope, I'm not going to do it." I said, "Cancel the order." So I went to a general, I said, "General, I want to cancel the order." "Yes sir." And I said, "Why can't we keep using this 30 years, sir?" And he's right. Look, planes would come in from especially other countries, but from Arab countries, and it would be a brand new, what's called a 747 800. That's brand new right off the thing. It's actually a much different plane. It's much longer. It's got a much bigger wingspan. You wouldn't believe it. See the top the way it is? It's a much longer top.

Donald Trump: (20:40)

I hope you people are interested in this. No, isn't this better than being on a teleprompter, right? No, but see the front? It's second floor is much longer. As beautiful as that is, it's far more beautiful, bigger, more impressive, more everything, and it's the right thing. So I said, "So general, it's a signed contract. I want to terminate the contract." "Yes sir."

Donald Trump: (21:09)

I said, "By the way, you can terminate it no problem, right?" "Yes, sir. Very proud of it, sir." "Good. You don't have to pay anything, do you?" "Yes, sir. We have a termination fee." "Oh. How much is the termination fee, general?" "Sir? We pay \$250 million then we're allowed to terminate the contract. It's 5.7 billion. So for 250 million ..."

Donald Trump: (21:32)

I said, "Wait a minute, general, wait. Wait, wait. They haven't built it yet. They haven't even started it yet. We have to pay \$250 million to terminate the contract? I don't like that deal, general. General, don't terminate it, because I want to get it. But I don't want to pay 250. Just don't terminate it. Just tell them we don't want it." "Yes, sir." So he told them.

Donald Trump: (21:52)

Then I told them, I said, "Nope, I don't want it." And we negotiated for about a month. And I said to the head of Boeing, really good guy, I said, "Hey Dennis, look, it's five, seven. It's got to have a three in front of it." Now I don't know anything about it. And it's very, very special. What they have in this plane they don't have in any plane in the world, okay? This is incredible, the kind of equipment. The equipment costs more than the plane.

Donald Trump: (22:15)

So I said, "No, Dennis. It has to have a three in front of it. So this has 5.7, a five." I said, "Got to have it. In other words, we got to skip the fours. We got to have a three." "No sir. I can't do it." So then he comes back a couple of weeks later. He takes a hundred million off. I said, "Nope, it's got to have a three." I said, "Cancel it. I don't care." "Don't cancel it in writing." I said, "We don't want the planes." I was very careful. "We don't want the planes." "Are you canceling the order?"

Donald Trump: (22:43)

I said, "No, no, no. We don't want the plane," because I don't want to pay 250 of your money, if you don't mind. And by the way, I could tell you about 300 of these stories, all right? These are stories that are all different things. This one, I just see the plane sitting there so beautiful. So I said, "No, we don't want the plane." Now I can't really go to Europe and order the comparable plane because there is no comparable plane, but I can't. I can't say, "I'm going to buy it in

Europe. I'm going to buy Air Force One in Europe." Somehow that doesn't work, so I can't. I said, "No, we're going to get used to this. We're going to have this plane. We'll fix it up. It'll be just fine."

Donald Trump: [\(23:17\)](#)

So time goes by and they raise it. They bring it down another couple of hundred. They bring it down another couple. And then all of a sudden it started dropping like a rock. And we agreed to 3.95. Somebody said, "Well, that must be a totally different plane." Nope. In fact, I actually had one generator added.

Donald Trump: [\(23:44\)](#)

It's not a big deal, one generator added. Then Boeing came to me. So is 3.9, as opposed to 5.7. Now that took about two months, three months. But isn't it really nice, right? The same exact plane, except with a different paint job. Our plane is going to be as beautiful as ...

Donald Trump: [\(24:03\)](#)

... except with a different paint job. Our plane is going to be as beautiful as that looks, Jackie O. Our plane is going to be red, white, and blue. Doesn't that make sense? Red white. And then they came to me and the general came to me. The general came to me and he said, "Sir, I know the way you like everything to be perfect. And sir, instead of coming down, see the big stairway on the left, you're really up there. When you're at that stairway, you're on a three story building, right. And sir, if it's rainy or bad weather or it's blowing," and I'm thinking about my hair, right. Oh, sometimes by the time I get down the big one, the little one is a different deal, but the big one, which we use 95%, by the time I come down that big stairway, sometimes I am wiped out. The wind is blowing. I said, "Is there any wind outside?" Yes sir. 50 miles an hour. That's good.

Donald Trump: [\(24:56\)](#)

The stairs are shaking. I'm shaking. The whole thing. By the time I get into the car, I end up running the last... By the time I get into that car, I'm wiped out. Okay, I got to say, "Does anybody have a mirror?" So the general said, "Sir, we can build a new stairway under the plane, sir. It's a spiral stairway." I said, "Wow, that's a great idea." You'd be totally protected, sir. I said, "Fantastic. How much?" 50. I said, "Wow, 50. That's a great deal. I'll take it." I said, "I'll take it." I said, "By the way, so for \$50,000, I can build." No, sir, \$50 million. I said, "I don't want this stairway for \$50 million." I tell you this because you people understand business. No, he said, "We can build it for 50." I thought he meant \$50,000. That's a lot of money for a stairway. No, we can do it for 50 million.

Donald Trump: [\(25:53\)](#)

So if you don't mind, I decided let my hair get messed up, right. So that's the story. That's a long story on the beautiful Air Force One. So we have it coming in and can you imagine after all that I better win this damn contest. Can you imagine if I saw Sleepy, Joe? He wouldn't even know it's a different plane. He'd get on. Oh this is very nice. Where am I? Where am I? You're on Air Force One. Oh, I didn't know that. This is very nice. How old is this plane, he'd say? I'd say, "Brand new, sir. It's brand new. Just..." If I see that gorgeous, you have to see the striping. It's incredible. There'll be nothing like it. And I don't want to see it. He won't appreciate it. He won't appreciate it because he won't understand it. But anyway, so that's the story that I tell. I could tell a hundred stories like that.

Donald Trump: [\(26:51\)](#)

It's all the same. The waste, it's all the same. And it was all coming together and then we had to spend \$3 trillion on the plague. Can you believe it? With all of that peanuts we're talking, we had to spend and we signed a trade deal with China, which was so great, but the ink wasn't dry when we got hit by the China plague and we'll never forget it. We'll never forget it. You watch. Sleepy Joe Biden doesn't care about New Hampshire. I saw that. He left this state before the primary was even over. He abandoned you. He likes to say Pennsylvania. Well, he left them too when he was nine years old. And based on the polls, I'm seeing the people of Pennsylvania understand that very much. And as I said at the very beginning, a lot of strange things. We're way up in Florida.

Donald Trump: [\(27:44\)](#)

We're doing fantastic in Iowa, fantastic in North Carolina. We think really good in Pennsylvania. We're doing great in the great state of Texas and these aren't poles. These are people now. Now you don't need polls so much. These are people. We're doing great all over. Georgia is looking very good. We're doing great all over. This could be a very interesting evening on November 3rd. Now the biggest risk we have are the fake ballots. To me, they send millions of ballots all over the country. They found some in a garbage can, military ballots. The name Trump was written in by the military and they found them in a garbage can, thousands and thousands, 500,000 incorrect applications in Virginia, thousands and thousands of things.

Donald Trump: [\(28:34\)](#)

I say the biggest risk we have are the fake ballots. I voted yesterday in Florida and I went and I voted in person because I like to vote in person, call me old fashioned, but a lot of our people want to vote in person. They want to vote. So I went to Florida. Sir, do you have identification? They said that. And no, and they didn't mean to be rude. They want to go through like they would. I took out a passport. I gave them a passport. I took out an ID. Wouldn't it be nice to have voter ID by the way?

Donald Trump: [\(29:12\)](#)

So the woman who was great, very smart. And I gave her the passport. I gave her the ID. She said, "Sir, I think you might be President Trump." Okay, so I qualify. And then I sat and they gave me the voting thing slips, very computerized, very good. I went through everyone. They said, "Sir, is this it?" Yes. Good. And then I signed my name on something else. Sir, you can go to the booth and please, here's a pad. You can keep it secret. I said, "I don't want to keep it secret. I voted for Donald Trump." I don't want to keep it secret. Now if I voted for Sleepy Joe, that would be a story, right. That I would want to keep secret. [inaudible 00:05:55].

Donald Trump: [\(29:55\)](#)

No, but I went in, the people were fantastic. And I went in, really professional people, great people. I went in, I took it. I took it out of the folder. I mean, they wanted me to put it in a folder just to walk it 20 feet to a machine. I took it out. I put it in that. I put it in again, two pages, certain things they had and a lot of different races, the presidency and other races, good races, congressperson, good races. Put them in. And I said, "Wow, there was no cheating. There was no way you could cheat. There was no way anything could go wrong. It was like a perfect deal." Now, they send. Think of that.

Donald Trump: [\(30:37\)](#)

So that's one way. The other way they send millions of ballots. We don't know who's sending them. We don't know where they're going. We don't know who's bringing them back. We don't know who signed them. In Nevada, they want to have a thing where you don't have to have any verification of the signature. It is so terrible. And you know who knows it more than us? The Democrats, all Democrat run states are the ones that are the problem and they know it. And they say, "He's against our freedom. He's against our freedom." No, no. I want to have a real election. I don't want to have millions of votes sent to millions of different people. And I call them unsolicited. I say, "Solicited is good." That's where you write in. You want, they send it to you, et cetera, which still is not as good as being there, but it's pretty good.

Donald Trump: [\(31:28\)](#)

But when you have unsolicited, meaning you don't want them, they call them universal. I said, "That name doesn't make sense." What does it mean? It doesn't mean anything. They call it different names. I came up with a name. They have millions of unsolicited ballots being sent all over and it's no good. It's no good. And there's tremendous. Every day you pick up the newspaper and you read about the only good thing is we have people watching them like crazy, both law enforcement and yourselves and everybody, but in Philadelphia, which is notorious for what goes on, we want to have poll watchers. They won't let us have poll watchers. So we're in court over poll watchers. Why won't they let you have a poll watcher? What's wrong? Think of it. What's wrong? Philadelphia has been unbelievable. When a candidate, very wonderful candidate happened to lose very badly, Ren, a number of years ago and a man named Mitt Romney. Did anybody ever hear of Mitt Romney? He did so badly in Philadelphia. Almost nobody voted for him. Now you know that's not so, but they gave almost no votes for him, almost nothing. And you know that's not so and it's not right. And we want poll watchers in Philadelphia and they won't let us have them so we're in court. But think of it, when they won't let you have a poll watcher, what's that all about? What's that all about? So we're watching it very closely, but I was really impressed yesterday in Florida because there was no way there could be any cheating. There was no way. These people were great. The system is great and there was no way you're voting twice, you're voting 20 times or you're not voting at all. It was a beautiful thing to see, but the ballots are not that way.

Donald Trump: [\(33:13\)](#)

The ballots get handled by many, many people by the time they even get there and it shouldn't be allowed. And the Democrats know it's a hoax and they know and it's going to cause problems. Then we have a ruling from a court. I won't say which court, a ruling that the ballots can go beyond November 3rd and then they can take time too, in the state of Pennsylvania, which we love, which we think we're going to win. I love Pennsylvania. I won it the last time against crooked Hillary, right. It was the first time in a long time that somebody won. And we have a situation where they have their ballots and they have a long time to count the ballots. A lot of bad things will happen during that period of time. Terrible things will happen, crooked, dishonest things. But that means that Pennsylvania, a major state, an important state, very important to me, I'm there all the time.

Donald Trump: [\(34:11\)](#)

I went to school there, Pennsylvania. So if we don't know the result on November 3rd, that means unlike has always been where you generally find out the election that night or soon, we could be going on forever with this. It's the craziest thing. And it's frankly, it's a crazy ruling and we shouldn't let it happen. We shouldn't let it happen. I think that's my biggest fear. My biggest risk for this election is the unsolicited, the millions of unsolicited ballots they're sending out. In California, they're sending millions and millions and millions of ballots. People are getting ballots that don't want them. People are getting ballots that don't even know why they're getting them. It's a terrible thing. Sleepy Joe Biden works for big tech and big donors.

Donald Trump: [\(35:06\)](#)

And I'll tell you, when you watch what's happened, how he's being protected because you see what's going on. He is a corrupt politician. And one of the reasons, and I would say the primary reason he's put the lid on again is because he can't answer the questions. No, he can't answer these questions. He goes to China, the family makes a fortune. He goes to Ukraine, his son gets put on a board for \$183,000 a month. How about Russia? Russia, the wife of the mayor of Moscow pays him three and a half million dollars for the son and then he has stuff that he has to give his father 10%. Then he has another one where it's 50%. What the hell is going on? Terrible. And then the media refuses to write it. They refuse except for the New York Post by the way, who's stock has gone way up. I have a lot of respect for the New York Post. What they've done is incredible.

Donald Trump: [\(36:08\)](#)

So I'm not just running against Joe Biden, I'm running against the left wing media and Silicon Valley, censors who want to manipulate and control the American people. No, it's unbelievable. And if you say anything bad about Biden, they block you, they take you down or they make it so you can't go on any of these sites, Twitter or any of them. It's unbelievable. Some high quality people. They put up a story from the New York Post, fourth largest newspaper in the country and the oldest by far founded by Alexander Hamilton, somebody puts up a story about this Biden corruption, which is incredible, and they block the story and take down his site. It's unbelievable. The great Charlie Kirk, Charlie Kirk, but many of them. With your vote, we will continue to fight for American workers, lower drug prices. We are bringing drug prices down, way down. It's already happened.

Donald Trump: [\(37:07\)](#)

Support our great police, protect the 2nd Amendment, defend our borders that ensure more products are proudly stamped with that very beautiful phrase made in the USA like the old days, right. We go back to the old days sometimes. Made in the USA, people used to be so proud of that. We are again.

Speaker 1: [\(37:28\)](#)

USA. USA. USA. USA. USA. USA. USA. USA.

Donald Trump: [\(37:38\)](#)

We will deliver record prosperity, epic job growth, groundbreaking therapies, the therapies are unbelievable. By the way, here I am. Now, I don't know, maybe I didn't need it. Maybe I didn't need it, but I'm happy. I took that Regeneron. Regeneron, Superman, and a safe vaccine. And we have many of our greatest companies and labs are coming out very quickly with the vaccines. They're doing great. Very shortly, very quickly. It's going to be delivered fast. That will quickly end the pandemic. It's ending anyway. We're rounding the turn, but the vaccine will get it down fast because we want normal life to resume, normal life. We just want normal. Normal life, normal life. And next year will be the greatest economic year in the history of our country. Last year, New Hampshire had by far the best year economically that you've ever had. And I can say that for I think every state in the Union. I really think just about, I don't have to go check.

Donald Trump: [\(38:41\)](#)

I don't have to be like Joe, where he has no idea. You just say no, it's uniform. I think just about every state in the Union and you see what's happening now. We have a super V. We're recovering at a level, housing starts. The Atlanta Fed just predicted, now this is not a forecast by me, this is the Atlanta Fed, that GDP will rise for the third quarter, which will end by the way. I think the number will be produced on November 1st, which is just before, but hopefully you'll have voted by that time. That's the crazy thing. Everybody will have voted before some of this incredible news comes in, but the news has been very good anyway. They're predicting GDP up 35%. Nobody's ever had that, right.

Donald Trump: [\(39:33\)](#)

I think 8%. I don't know what the record is, but like eight or nine or something maybe as a record, but this is 35% up, faster than any other country anywhere in the world. We went down less and we've gone up faster. So within my first year in office, I delivered the largest tax cuts and reform in the history of our country. We cut taxes \$2,200 a year so that's for the typical American family. We doubled the child tax credit \$1,000 a child, and we increased median household income to the highest levels ever recorded. Highest. Then we had to close it up, save millions of lives, at least 2 million lives, and now we're opening it up. The radical Biden Harris agenda. What do you think of Harris? Oh boy. More liberal than Crazy Bernie, could you believe it? So you have Crazy Bernie. He's crazy, there's no question, but he's a good sport. He's a great sport. No, no. Have you ever seen anybody lose so much and be so happy about it?

Donald Trump: [\(40:49\)](#)

It's happened now twice. Is Bernie running again in four years? Media, is Bernie Sanders projected to run again in four years? I think so. He'll be up there. One thing about him, he fights. He fights, but he somehow doesn't mind losing because Elizabeth Warren, a neighbor of yours. No, Elizabeth Warren super radical left, not as bad as Bernie, and by the way, not even close to Kamala, but if she would have, and I say all the time, if she would have left because she was gone. She was gone. If she would have left before Super Tuesday, Bernie would have won every single state that Sleepy Joe. He was shocked when he won. They said, "Joe, you won." What? What? I did? How? What happened?

Donald Trump: [\(41:41\)](#)

Well, Elizabeth Warren stayed in the race, Joe. So when people voted, they voted, they split the vote. So Bernie Sanders would've gotten all of it. He didn't have to get all. If he got just a few of her votes, he would've won everything. I mean, literally, but he would've gotten almost all of them. He said, "Oh, okay. Explain? How does that work?" They said, "Forget it Joe." He wanted to know how that worked. The radical Biden Harris agenda is projected to slash the typical American's income. And you saw this in the Wall Street Journal, income by \$6,500 a year over a short period of time. And also, it will destroy at least 5 million jobs. Joe Biden is promising the largest tax hike in American history. This is the first time, I said it last night, we were in Ohio. We were in Wisconsin, we were in North Carolina. I'm doing three or four of these suckers a day. That's not bad, right.

Donald Trump: [\(42:43\)](#)

And he's got the lid on every... I said, "Where is he campaigning?" Sir, he's decided. You can't have a president in this world where you have President Xi, President Putin, Kim Jong-Un, and lots of people. You cannot have a low energy president. Now, there's a reason he's got the lid and I'm trying to figure it out. And I have a feeling it's because of the corruption because he can't have. Did you see where he walked out in primetime right after it happened holding ice cream, right? And the press asked him, "What flavor is it, sir? What flavor?" Uh, I think it's vanilla and chocolate. That was the question. They don't ask me questions like that. What flavor, sir? I don't think he likes me too much. We better win. No, he's not a nice guy. He's not. No, people that knew him in primetime.

Donald Trump: [\(43:48\)](#)

People that knew him in primetime. He was never a nice guy, phony guy. He was never a nice guy. I don't think he's a nice guy, but now he's probably more

agitated than ever before. Biden's \$4 trillion tax increase is a missile aimed at the heart of the middle-class and middle-class families. That's all it is. You're going to lose all your jobs. These companies are all going to go back where they came from. We brought in tremendous numbers of companies. I mean, look at the auto business. We hadn't had a factory in 40 years and now they're opening up all over Michigan, all over the place. Ohio, North Carolina, South Carolina. I'd say to the Prime Minister Abe, a great, great gentleman who retired. He had a problem, medical problem, but he retired. I'd say, "Shinzo, you got to open some factories in Michigan. You got to open up some factories in the US. I don't care where, you're going to open up factories, Shinzo. You're selling too many cars made in Japan. You got to make them in the US."

Donald Trump: [\(44:51\)](#)

Then he'd say, "Well, I don't do that. I mean, look, we don't have anything to do with that. This is done by the private sector." I said, "Shinzo, you're a powerful man. You can do it." I really can't. I said, "You have to do it." Next day, they announced five companies were opening up factories so that was the end of that. And he's a great guy, Shinzo, and I hope he's going to be well. He was a great leader of Japan. In my second term, I will pass another historic middle class tax cut. It's already... Biden, all my life I've been studying politics. I watched it. I was on the other side. I was a contributor to like everybody. They came to my office. I was a contributor to everybody. And they would come in, but all my life I watched and I'd watch Texas. And I've never seen this before where somebody goes, "We will raise your taxes. Vote for me." No, it's never happened. I've always watched politicians. We will cut your taxes. We will cut your taxes. We will cut your taxes.

Donald Trump: [\(45:54\)](#)

Biden gets up, "We will raise your taxes." And people say, "Oh." A lot of people don't get it. They'll go like, "Oh, did I hear that right?" No, he's going to raise your taxes. So Biden wants to eliminate oil. Think of it in Texas. You saw him in the debate the other night. Now, he can't get away with that. I said, "So tell me, because he almost made it." And then that last question got him. And Kristin, who is not particularly in my camp, I thought she did a good job to be honest. I thought she did a good job. She looks at him. She goes, "Why would you do that?" And then I said, "Yeah, why would you do that?" And unfortunately for his party, he said he will transition out of oil. And I said, "Are you listening, Texas, right? Are you listening Pennsylvania? And are all the people in the country because we have an energy independent country right now." And once we get New Hampshire and New England, the pipeline cutting across New York, which we're very close to getting, you will have energy prices that will be low, very low. Very low. And nobody else will be able to get that pipeline, that I can tell you, nobody else. That means that no heat in New Hampshire winters. \$5 a gallon gasoline, much more than that I think. Think of it, what are you now? \$2. And you'll go under \$2, right, \$2, right.

Speaker 2: [\(47:21\)](#)

Armenia for Trump.

Donald Trump: [\(47:26\)](#)

Armenia, you know Armenia? We're working on that. You know we're working. We did it with Kosovo and Serbia. Do you believe I got three nominations for the Nobel Peace Prize? Can you believe it? The Middle East, we're doing peace. I did it the opposite way of what these fools did for years. We just signed the third Sudan yesterday. We signed. So we will have Bahrain, UAE, United Arab Emirates led by a great gentleman, a great leader, a great warrior, actually...

Donald Trump: [\(48:03\)](#)

Led by a great gentleman, a great leader, a great warrior, actually, Muhammad. And yesterday we got Sudan. I mean, no blood in the sand, no cost, no this, no that. The opposite way. And then we got one, Serbia. We had Serbia, because this relates to Armenia. We had Serbia, Kosovo. We're doing a trade deal. I said, "Wait a minute. These people, right, Serbia, these people have been killing themselves. They've been killing each other for years and years and decades. And we're dealing with both of them unrelated." I said, "Fellas, if you don't get your act together, we're not going to deal with you. What the hell do we have to deal for? We don't have to. We're doing trade deals." I said, "Wait a minute." They've been fighting each other and killing each other for years. I told my people, "Tell them they got to work a deal. Otherwise, we're not going to do a deal with either of them." Cost us nothing.

Donald Trump: [\(48:47\)](#)

And you know what? They hugged and they kissed in the Oval Office and they were so happy. And this is after many years. Nobody thought they could come together. Nobody thought they'd come together. That deal was worse than Israel, if you think about it, and the Palestinians. Israel and the Palestinians, they say can't, it'll come together. It'll come together. We stopped paying. We used to give the Palestinians \$750 million a year. And I said, "Look, we're not going to pay you if you're not going to make a deal. Why would we pay?" And other people said that was a terrible thing. It wasn't a terrible thing because they'd say death to America, death to Israel, et cetera, et cetera. And now they want to talk. They all want to talk. So we have three countries. We have many countries lined up. You'll end up with peace in the Middle East with nothing but for nothing. And a neighbor of yours, John Kerry, said two years ago, "It would be impossible to do the deal that way." No, no. That's the only way you can do the deal. It's all coming together beautifully. We're going to have peace in the Middle East. What we've done is pretty amazing. But with Serbia, Kosovo, so we signed a deal. So they gave me a Nobel Prize for that. They gave me a Nobel Prize for something else. They should give me a Nobel Prize for what I did in Syria. When I say Nobel Prize, nomination, I don't know. I don't know.

Donald Trump: [\(50:14\)](#)

But with Serbia. So now we have Armenia. Look at the Armenia. They are incredible people. They're fighting like hell, right? They're fighting like hell. And you know what? We're going to get something done because, thank you. And I love you, too. You know the Armenians have had a tough go. In fact, I was in yesterday, Ohio, actually. I was in Ohio because I went to various stops. But in Ohio we had a tremendous group of Armenians with the flag and the whole thing, the spirit. And the problems that they have and the death and the fighting and everything else, we'll get that straightened out. I call that an easy one. Okay? We'll get that. Go back and tell your people. Go back and tell your people. All right? We'll get that straightened out. Armenia. Why not? It's easy. If you know what you're doing, it's like that. If you know what you're doing, it's easy. But we will.

Donald Trump: [\(51:17\)](#)

But think of that, with Kosovo, Serbia I said, "Well, we're doing these two. We're not doing either deal unless they put it together." And they actually, they both came back. The prime ministers, they came back, they were in the Oval Office two weeks ago, hugging and kissing. It was an incredible thing, very historic. And what are we doing? We're saving a lot of lives. We're saving a lot of good people from being killed. See, normally I wouldn't tell you all this stuff, but we're in the afternoon. Where are we going from here? There's no more NFL that you watch. Where the hell are we going?

Donald Trump: [\(51:53\)](#)

Biden has also vowed. Do you think sleepy Joe would be doing these things? I don't think so. I don't think. He'll go back to bed. Hillary used to spend a lot of time in bed too, but she had more energy than him. She did. They said, "What's the difference between crooked Hillary Clinton and Biden?" I said, "Well, obviously they're both crooked, but let's get out of that." The big difference is she had more energy, but not much. And she's a more intelligent person. I will say that. She's a much more intelligent person. Until she used the word deplorables, I thought she was very smart. Biden has also vowed to impose the highest business tax rate in the developed world on companies that created jobs in our country. They came over here. They created jobs. They'll be gone in two minutes. It would trigger a mass exodus of companies and jobs out of America and back into the places they came for or other places. That's what happens. They would leave.

Donald Trump: [\(52:55\)](#)

And we don't want people to leave. We want them to stay. And we want those jobs and we want that income. You've had them leave already under NAFTA. Biden also pledged to eliminate our tariffs on China. We're taking in tens of billions of dollars. We taxed them where they dumped the steel. We taxed them where they targeted our farmers. I gave our farmers, this doesn't pertain too much to you, but a little bit. I gave our farmers \$28 billion from China because they were targeted and it kept our farmers solvent and actually strong. In other words, he wants to raise taxes on American factories and give preferential treatment to Chinese factories. There's nobody that wants to see us raise taxes on companies more than China and other countries, because they're going to pick up the business.

Donald Trump: [\(53:46\)](#)

So remember this. If Biden wins, China wins. If we win, New Hampshire wins and America wins. It's very simple. It's very simple. Besides that, how could he make a deal with China when he's taking a lot of money out of China, right? For himself and his family. His son walked away with a billion and a half dollars. He gets fees on a billion and a half. So how can a guy like that, seriously? Did you see the letter? Oh, that laptop he's got. You know the laptop? You know what it's called? I said it last night in Wisconsin. It's called the laptop from hell. Right? That laptop. That laptop is not good.

Donald Trump: [\(54:29\)](#)

But did you see that he wants \$10 million a year from China for introductory reasons? In other words, he's going to introduce him to people. You know who the people are going to be? His father. Going to introduce him to his father. So this guy was, we won't say why and how, sadly no longer in the Navy. Right? Empty years, nothing. And then his father becomes Vice President and now he's making tens of millions of dollars. It's wrong. It's wrong. And Joe's making it too, by the way. Joe's making it, too. 10%. We got to give 10% to the big guy. Oh, what does that mean? Tell us. What is 10% to the big guy mean? Explain that. That's why Joe has the lid on. The Biden tax hikes will also reimpose Obamacare's individual mandate penalty, which I ended. I ended the individual mandate, most unpopular part, which really makes it not even Obamacare anymore. We took the most egregious thing, and Obamacare was the individual mandate. You had to pay a fortune for the privileges of not paying a fortune to have terrible health insurance. All right?

Donald Trump: [\(55:48\)](#)

And in the meantime, we've brought the rates down. We've done it well, we've done a great job with it, but much better would be if we come up with brand new healthcare. We'll see what happens in the Supreme Court. Always protecting people with pre-existing conditions. Always. 80% of this tax would fall on Americans making less than 50,000 a year. He keeps talking about the 400. It doesn't work that way. And he knows that. Well, he doesn't know it, but the people surrounding him. There's virtually no aspect of American life that Joe Biden does not want to tax and regulate into oblivion. And worse will be the regulations because the taxes will go through the roof. But I think that the biggest reason we were successful is that I took off more regulations than any president, whether it's four years, eight years, or in one case, more.

Donald Trump: [\(56:48\)](#)

He's always wanted to do this, massively cut your social security and your Medicare. And it's all part of the war on the middle-class. I don't know. I don't know what he's thinking. I've never seen a politician that wants to hurt social security that survives, and then he denied it. But you'll see in a second, because you don't have to take my word for it. Just listen to Biden explain his crazy views and crazy plans just a little while ago. So roll out the video. I do this because I love this state. I spent a fortune for that. So I hope it works. I hope it works.

Joe Biden: [\(57:22\)](#)

Why we pay for it is by rolling back unproductive tax cuts. That's why I'm going to eliminate the Trump tax cuts. Guess what? If you're like me, you're not going to have, you taxes are going to be raised, not cut. I would repeal the \$2 trillion tax cut. First thing I would do as president was eliminate the President's tax cuts. Reverse the Trump tax cuts.

Speaker 3: [\(57:40\)](#)

Vice President has laid out a plan to increase taxes.

Speaker 4: [\(57:43\)](#)

When would you make these changes, is my point, because the economy is in a bad state right now. You wouldn't. I mean, would you wait for unemployment to go under 2%?

Joe Biden: [\(57:51\)](#)

No, no, no. I'd make the changes on the corporate taxes on day one.

Speaker 4: [\(57:55\)](#)

Bingo.

Speaker 5: [\(58:04\)](#)

Well, may I ask you a question, Joe?

Joe Biden: [\(58:05\)](#)

Yeah.

Speaker 5: [\(58:05\)](#)

You're right here with me.

Joe Biden: [\(58:06\)](#)

Yeah.

Speaker 5: [\(58:07\)](#)

Have you been on the floor of the Senate? You were in the Senate for a few years.

Joe Biden: [\(58:11\)](#)

Yeah.

Speaker 5: [\(58:11\)](#)

Time and time again, talking about the necessity with pride about cutting social security, cutting Medicare, cutting veteran's programs.

Joe Biden: [\(58:20\)](#)

No.

Speaker 5: [\(58:21\)](#)

You never said that?

Joe Biden: [\(58:22\)](#)

No.

Joe Biden: [\(58:22\)](#)

When I argued that we should freeze federal spending, I meant social security as well. I'm meant Medicare and Medicaid. I meant veteran's money, I met every single solitary thing in the government.

Joe Biden: [\(58:35\)](#)

Look, here's the deal.

Speaker 5: [\(58:36\)](#)

You're an honest guy. Why don't you just tell the truth here? We all make mistakes.

Joe Biden: [\(58:39\)](#)

No, I am telling the truth. And I not only tried it once, I tried it twice, I tried it a third time and I tried it a fourth time.

Speaker 5: [\(58:45\)](#)

Joe, let me repeat it again. I want you just be straight with the American people. I am saying that you have been on the floor of the Senate time and time again, talking about the need to cut social security, Medicare and veteran's programs. Is that true or is that not true?

Joe Biden: [\(59:04\)](#)

No, it's not true.

Speaker 5: [\(59:05\)](#)

That is not true?

Joe Biden: [\(59:06\)](#)

That is not true. I meant veteran's money. I meant every single solitary thing in the government. Everything was on the table. I did not support any of those cuts in social security or in veteran's benefits.

Speaker 5: [\(59:18\)](#)

Whoa, Whoa, Whoa. Everything was on the table. All right, you're right. You just said it, including in your judgment, cuts to social security and veterans.

Joe Biden: [\(59:26\)](#)

In order to get the kinds of changes we need on other things related.

Speaker 5: [\(59:31\)](#)

Okay. Joe, then you just-

Joe Biden: [\(59:32\)](#)

But we did not cut it.

Speaker 5: [\(59:34\)](#)

I know because people like me helped stop that. Although I would say to the American people, go to YouTube, it's all over the place. Joe said it many, many times. I'm surprised you can defend or change your mind on it, but you can't deny the reality.

Joe Biden: [\(59:48\)](#)

Secondly, we're in a situation where we have put together and you guys did it for President Obama's administration before this. We had put together, I think, the most extensive and inclusive voter fraud organization in the history of American politics. Probably for your dad. First African-American state Senator in the State of Delaware. And by the way, I sit on the stand and I get hot, I got a hairy legs that turn blonde in the sun. And the kids used to come up and reach into the bowl and rub my leg down so it was straight and then watch the hair come back up again. They'd look at it. So I learned about roaches. I learned about kids jumping on my lap and I've loved kids jumping on my lap.

Donald Trump: [\(01:01:01\)](#)

So he did try and cut your social security. Just like he said for a year, there will be no fracking, and then he got through that and he goes to Pennsylvania and he says, "You can frack." And then he denied it. And the media never did anything about it. They don't ask him the question. But the other day, fortunately, in the debate in one of the better parts of the debate, he said he's getting rid of it. He will not let you frack. It's not him. His party will never let you frack. Okay? It's a million jobs in Pennsylvania. And for you, it's billions of dollars in energy costs.

Donald Trump: [\(01:01:40\)](#)

I will cut your taxes, not raise them. And I will always protect Medicare and social security, just like I've been doing. This election is a choice between a Trump recovery, and I call it a Trump super recovery, because that's what's happening. You see the name. And a Biden depression. If he gets in, you're going to have a depression, the likes of which you've never seen before with the possible exception of 1929. He's going to raise your taxes through the sky. He's going to put all those regulations. It would take 18 years to get a highway approved. We have it down to two. We're trying to get it down to one and it may not get approved for environmental or for safety reasons, but you're going to know very quickly.

Donald Trump: [\(01:02:27\)](#)

We have regulation cuts. Nobody's ever seen anything like it. He wants to put all that garbage back in. All that wasted, wasted stuff. And we have more cuts to come and we need regulation. We're going to have regulation, but it's going to be reasonable. It's not going to be where it's impossible to build a simple road from point A to point B. So you have a choice, New Hampshire, between a Trump boom or a Biden lockdown. He wants to lock it down. He said, "No, I'd lock it down." We're not locking down. We understand the disease. We're going to take such, and we've been, taking care of our elderly, especially with heart or diabetes problems. And we're going to take care of it. And we're going to be careful, and we're going to be vigilant, but we're not locking down. He would lock it down in a heartbeat. He would.

Donald Trump: [\(01:03:16\)](#)

The Biden lockdown would permanently destroy the lives and dreams of tens of millions of our citizens. Wipe out what will be, and what's turning out to be, the greatest economic comeback of all time. You see what's happening. Desperately hurt our small businesses, inflict lasting harm on our children and massively reduce life expectancy for the American people, life expectancy. So, for the American people, you see what happens. And I came up with a statement. I don't know, I think it was me. They'll try and find somebody else said it 25 years ago, the cure cannot be worse than the problem itself. When you look at what's happening with these lockdowns, right?

Donald Trump: [\(01:04:02\)](#)

I mean, look at Michigan, how she's so vicious. She's vicious to everybody but her husband, he can do whatever he wants. He can go sailing. He could do whatever he wants now. No, but look, and we won that case in the Supreme Court. Michigan has to open. It was unconstitutional. She was running like jail cells over there and Pennsylvania, right? And so many other places. But fortunately you people are in good shape. You're in good shape. You have no complaints. Lockdowns will also lead to a surge in drug overdoses. That's what's happening. Drugs, alcohol, depression, suicides all over the place. Tremendous family disputes like they've never had before. It's a horrible thing that happens. The cure can't be worse. Under my leadership, we have marshaled the full power of government in our fight to end the opioid epidemic, to help those addicted and to keep our precious children from getting hooked on drugs.

Donald Trump: [\(01:05:06\)](#)

It's had a tremendous impact. And it's really because this was one of the first states I really worked hard on and campaigned in. I learned so much about that whole drug problem from New Hampshire. This is really the place. And you have incredible law enforcement police, fire departments, where I met with them. And they know this problem better than the experts. Biden is the shutdown candidate. The Democrats are the shutdown party. They will shut down your job, shut down your schools, your businesses, your police departments, your energy. They'll shut down your freedom. And they will shut down the greatest economic comeback in the history of our country. That's what we're doing. Do you know how hard it was for me to say, "We'll shut it down"?

Donald Trump: [\(01:05:56\)](#)

We have the greatest economy in history. We're blowing away China. China was supposed to overtake us 10 years ago. 2019 they were going to overtake us. They were so far behind. We left them in the dust. Now all of a sudden we have to shut it down. But we saved, remember, 2.2 million people were going to die. We saved 2 million people and now we're opening up and it was a great honor. We had such incredible people. Ventilators, what we did with ventilators. We

didn't have ventilators and now we're making them for the entire world. We have all we can use in our country. We got along great with a lot of the governors. Some governors, they were all thankful of the phone. "Sir, this is incredible what you've done for this state, that state." If they happen to be not good people, they would then go out and see the reporters. These people right there. And they'd say, "We're not happy with the job the President is doing."

Donald Trump: [\(01:06:50\)](#)

We got them gowns and masks and goggles and ventilators and everything else. But now we have the vaccines coming way ahead of schedule. If this were another administration, you wouldn't have vaccines for three years. If this were another administration, you wouldn't have Regeneron that nobody heard of four months ago. You wouldn't have these new super drugs. And you look at the mortality rate down 85%. 85. That's incredible. And then you look at Europe and what's going on. They always used to use Europe. Now they're not using it anymore. Yet as we've seen from surging cases in Europe, their never ending shutdowns. It just never stops. Europe shut it down tight, shut it down tight. And now they have a surge. And it'll work out, but it should have never happened. Should have never happened from China. They closed up most of China, but they didn't close the world. They let it come to Europe, the US, the rest of the world.

Donald Trump: [\(01:07:50\)](#)

Joe Biden has made a corrupt bargain in exchange for his party's nomination. He's handed control of his party over to the socialists. He's handed it over to some very, very bad people. They are filled, and I've seen it, they are filled with rage and desperate for power. This election day, the people of New Hampshire must stop the anti-American radicals by giving Joe Biden, and it's really not Joe Biden, it's the people that control him, the people that surround him, because Joe doesn't have a clue. Joe doesn't have a clue. I really believe he doesn't have a clue. We can be nice and we can say, "Oh, it's okay," or, "Let's vote for him. We feel sorry." There's nothing to feel sorry about. This is our democracy. This is our country. We have to do what's right. And he's not a nice person. He's not a nice person. We have to give the Democrats a thundering defeat. And that includes Congress. That includes your Senate. By the way, you have a very good Senate candidate. I hope you're going to get out there because Corky, where is he? Is he here? Corky. Corky Messner. Where is Corky? Corky Messner is doing great. I hear he's doing great, right? Is he? He better do great. He's running for somebody that doesn't help our nation very much, I will tell you that. So I hope you're going to be able to get out and vote for Corky and Congressional Candidates, Matt Bowers and Steve Negron. Right? Great. Where are they? Where are they? Hello, fellas. Thank you very much. Good luck. Good luck. And also a friend of mine who's been with me from day one, GOP Chairman, Steve Stepanek. Where is Steve? Where is Steve? Steve, are we doing okay? Because otherwise you're going to be fired so fast. We're doing good? Steve is great. He loves this state and he loves our country and he's the head of the GOP. And he tells us we're going to win. He said, "Sir, could you come up for a rally?" I said, "When would you like it?" "How about Sunday?" I said, "That's great." So I got in. It's okay. So I got it about one o'clock in the morning, just left. Actually four states. Left Florida, right, where I voted. I went to North Carolina, I went to Ohio. I did a big one in Ohio. The crowds were unbelievable. It's an unbelievable state.

Donald Trump: [\(01:10:57\)](#)

We got Big Ten football back. I got it back. You know why? Because Biden and his group said, "Donald Trump killed Big Ten football." I said, "What do I have to do with Big Ten? What's this all about?" And then I said, "Well, not only didn't we kill, I didn't even know they weren't going to open. I'm more focused on China, if you don't mind." And when I heard that, I said, "That's terrible." I called the commissioner of football, the commissioner of Big Ten, nice guy, Warren. I said, "Commissioner, we got to get it back." And he was good. And we worked very hard. I had a great group of people, Tim Pataki and some others, and we got it back. And then we got PAC-12 back, too. I said, "Get it back, get it back. We got to get it back." So we have Big Ten opened up. Ohio State won and Wisconsin won so they both won. It's nice that they won. I wouldn't have wanted to go there if they lost, but they don't lose too often.

Donald Trump: [\(01:11:47\)](#)

But Steve has been with us from the beginning and he's been fantastic. He was with us for the great primary win, which was so good. And another man who's been incredible, he was from day one. He said, "Sir, you're going to win." I said, "Say it again." "You're going to win, sir."

Donald Trump: [\(01:12:02\)](#)

"Sir, you're going to win." I said, "Say it again." "You're going to win, sir." And he's a real character, and he's a really good guy and his name, I'm sure nobody ever heard of him, Corey Lewandowski. Where's Corey? Where is he? Oh, there they are. I'm looking for these people. Hi, Corey. Are you doing okay, Corey? Are we going to win, Corey? You better win, Corey. I'll never speak to you again. I'll never speak to you again.

Audience: [\(01:12:37\)](#)

Four more years! Four more years! Four more years!

Donald Trump: [\(01:12:55\)](#)

Hey Corey, next time you could take a bigger chunk of the runway, please. We'd get everybody. Okay? Pretty good crowd. Right? But even bigger is what's outside. What's outside. No, Corey's been a friend of mine for a long time. He's great. He does. He loves his state and he loves our country and he's a great person. He's a great person.

Donald Trump: [\(01:13:15\)](#)

In my first three years, we built the greatest economy in the history of the world. And now we are doing it again. You know, I see the hat, Make America Great Again Again, Make America Great Again Again. I'm going to add another again. This way I can sell you all an extra hat. It all goes to the campaign. Make America Great Again Again. No, we did. We had it. We had the greatest economy. And I'll tell you something, we were coming together. You've heard me say this. I was getting calls from people that normally I wouldn't be getting calls from. We had the best numbers, the best everything in every way, and things were happening. Success will bring us together and we're going to soon have that same. We will soon be in that position again. Very soon.

Donald Trump: [\(01:14:06\)](#)

We increased family income over \$6,000, more than five times the gains in all eight years. So think of that. In three and a half years, we did more than they did in eight years, times five. I mean, think of that. African American unemployment, Hispanic American unemployment, and Asian American unemployment all reached the lowest levels ever recorded. Women had unbelievable numbers and more women were working than ever at any time before. Think of it. Think of it. Think of that.

Donald Trump: [\(01:14:48\)](#)

And by the way, suburban women, you know that. I got rid of the regulation. You know, they keep saying, he's not going to do well with suburban women. And you know why they say that? WhY Because I'm going to stop crime. You know, their next spot, the Antifa people, it only happens with the Democrat run areas, right? But like in Portland, but their next stop is suburbia. But I got rid of the regulation that will allow projects to be built right alongside of your home. And I think that I have a feeling suburban women are going to be voting for Trump. And you know, if Biden gets in, they're putting that regulation, very specific, they're putting that regulation back, and you're going to have low-income housing and projects built. You're going to have crime like you never saw. And you're going to want to get the hell out of suburbia. So I think we're going to do very well with suburban women. And I think it's going to be one of the surprise.

Donald Trump: [\(01:15:50\)](#)

Remember last time, four years ago, we listened. I suffered with this for six months. My wife would say, our First Lady, by the way says hello to everybody. She tested positive also. How about that? She was positive and then she was better within a few days, you know? But she, thank you, but she's, she's great. People love, they love Melania. Every time I go, they have signs, we love our First Lady. We love our First Lady. She's great. Great First Lady. She represents you well, I can tell you. They don't treat her fairly, but that's all right. She understands it very well. She's done a great job, very popular.

Donald Trump: [\(01:16:31\)](#)

But when you look at what we've done, and the last time, right, four years ago, he will not do well with women. Right, Corey? Remember that? He will not do well with women. And then they said, wow, he did well with women. They're crying. They crying. They said, "What happened? What happened?" He did well

with women. Was that the greatest evening, really? Remember? Remember? I wasn't going to win Florida. I wasn't going to win North Carolina. I wasn't going to win Pennsylvania. Michigan wasn't even talked about. Nobody had won Michigan for decades and decades, republican. Wasn't going to win Wisconsin, same thing.

Donald Trump: [\(01:17:09\)](#)

All of a sudden they start, the evening begins, "Donald Trump has won the state of Ohio by eight points." Nobody ever thought possible. That hasn't happened. So I started off with Ohio and they all said, "Eight points. What's going on?" That's when we knew there was something happening. Eight points. Donald Trump won. Then we won Florida. We won Georgia. We won South Carolina. Then we won their firewall. They called it North Carolina. They spent a fortune. They spent a fortune in North Carolina. We won North Carolina and then we just ran it up. It was a beautiful, right?

Donald Trump: [\(01:17:50\)](#)

And then you saw these very unbiased anchors with the tears coming down. They were very unbiased. Remember John King with the red board, right? His hand was shaking at the end. He was like, "Well, this is not that bad that he lost Florida, that Hillary lost Florida. She could do." But then when we started getting into Pennsylvania, North Carolina, they started getting a little bit worried. Right? No, that was an amazing evening. And we're going to have an even more amazing evening in 10 days.

Donald Trump: [\(01:18:24\)](#)

After the virus hit, we recovered faster than any major nation in the world. We're in the process now, but there's no nation in the world that's recovered like we've recovered. Since April, we created a record 11.4 million jobs. We've spent the last four years reversing the damage Joe Biden and Obama inflicted. Look. Look. We've done more in 47 months than sleepy Joe has done in 47 years, and I really mean it, too. I really do. Biden is the living embodiment of the corrupt and treacherous political class that I've had to deal with. Nobody told me the swamp was going to be that vicious or that deep. Swamp creatures, I can't even believe it. I thought it would be a lot easier. They're tougher, smarter, more vicious, and we're beating the hell out of them. We're beating the hell out of them. And they got rich by bleeding America dry. These same wealthy interests are now funding my opponent's campaign.

Donald Trump: [\(01:19:36\)](#)

By the way, you know all the money he raises? I could raise much more. I could sit for one day in the White House and call up every guy on Wall Street, the heads of every firm. I need \$10 million. I need \$25 million right now. Give it to the campaign. I'd have money. I would set every record in the book. I don't want to do that because when you do that, when you do that, number one, we don't need it. You remember, last time we had, I mean, Hillary spent three or four times more money. It's not about the money. In fact, recently I was criticized. They said, Hillary Clinton raised more money than Donald Trump. I said, "What the hell?" Because you know, we won, and they're bragging that she raised more money. My father taught me a long time ago, if you can win and spend less money, that's a good thing, not a bad thing. Right? That's a good thing.

Donald Trump: [\(01:20:28\)](#)

But I would have those donors. They would be talking, "Trump raised \$900 million." I could do that so easy, but I don't want to do that. If I do that, you'll see there's something wrong. I'm the President of the United States. I know many of these people. Every time he raises big money like that, they've made deals. They've made deals. They're very simple. I serve the people. Joe Biden is proven to be a corrupt politician, whether you like it or not. He's a corrupt politician. And if I don't sound like a typical Washington politician it's because I'm not a politician.

Donald Trump: [\(01:21:11\)](#)

And People of New Hampshire, you had a lot to do with it because that was a very big win we had here in that primary. And you don't want a politician. If I don't always play by the rules of the Washington establishment, it's because I was elected to fight for you, and I fight harder than any President has ever fought before.

Donald Trump: [\(01:21:34\)](#)

I ended the NAFTA nightmare, and you know it better than anybody else. You have the scars of it better than almost any other place in the United States, and proudly signed the brand new USMCA, which has just kicked in, whole different ball game. I wouldn't say Mexico and Canada are thrilled with that deal, but that's okay. I took the toughest ever action to stand up to China. Under my leadership, we achieved the most secure border in U.S. history. And the wall is going to be finished very shortly, over 400 miles. We're doing 10 miles a week. 10 miles a week. We're doing 10 miles a week. Biden and Harris, the wall, you notice they don't talk about the wall anymore. They used to say, "The wall will never get built." Every day, front page hammering me, hammering me.

Donald Trump: [\(01:22:28\)](#)

I had a major party, the Democrats along with the fake news media, and now we find out Big Tech, and the RINOs, too. The RINOs. You know, the RINOs in many ways, are worse than all of them. That's Republican in name only. Does anybody know? No, I had this major group of guys and they used to hammer me. The wall will not happen. It will not happen. Then I won a couple of cases. They kept saying, then the wall started. Now they never mentioned the wall anymore. And by the way, Mexico is paying for the wall and you do know that, okay? A fee.

Donald Trump: [\(01:23:02\)](#)

Biden and Harris have put forward the most radical immigration plan ever conceived by a major party, including nationwide catch and release, which means open borders. It's a disaster. Catch, you catch a murderer, you catch a rapist, you know they're murderers, you know their rapists and you release them only into our country. If you don't mind, I ended it. And it was very tough to end it. It was very tough. And then Joe said the other night, "And they come back to court." No, no, no. They never come back. I told him only a very low IQ individual comes back. They never come back. He said, "They come back for a trial." They say, "Come back in four years." And then nobody comes back. Why would they come back? There's no reason to come back. They would never come back. Only, I'm serious, like 1%, a tiny fraction comes back. And he so solid on that. Right? You saw that. "They then come back for a trial." He was making it sound, catch and release was a disaster. I've ended it. We're not letting criminals into our country.

Donald Trump: [\(01:24:07\)](#)

Our country would surrender control of our border, and we would surrender control to the cartels in Mexico who are vicious. The Biden border plan would be the biggest gift in the history. There's never been anything like it to drug traffickers, to human traffickers. They traffick in women, not so much children, not men almost at all. They traffick in women. And because of the wall, they can't come in. This is a problem, by the way, that's all over the world. This is not just us and Southern border. This is a modern day problem at a level that it's never been before. They traffick in women all over the world. And it's because of the internet, because of the computer, but it's because of the internet and children to a much lesser extent, but women. But the drug traffickers would be allowed to freely infiltrate our country and pump their poison into our towns and schools, especially places like New Hampshire, where it was so prevalent before I came onto the scene, and it's been a lot better, and we're going to get it much, much better.

Donald Trump: [\(01:25:11\)](#)

Under my administration, over the last three years, Border Patrol and ICE have seized over two million pounds of deadly narcotics. That's a number that is unthinkable. We even have our Navy, our ships are now in the Gulf and in the Pacific getting it, because when we closed up the border, they went by water. Okay? They don't miss a trick. They're very smart, but we're seizing tremendous amounts in the ocean and in the Gulf. Working with Colombian officials, we've also seized or disrupted 227 tons of poisonous narcotics since April. That's just since April. And then Joe Biden goes out and says the other day that America is nothing more than an idea. No. America is a great country. That's what it is. It's not an idea. It's a great country. And you can't have a great country unless you have borders, unless you have borders.

Donald Trump: [\(01:26:15\)](#)

We invested \$2.5 trillion in the U.S. military, all made in the USA, much of it in New Hampshire. And we have weaponry, missiles, rockets, tanks, planes, tankers, submarines, submarines. We have weapons. We're the envy of the world, Russia, China, North Korea. We're the envy of the world and they all know it. Our nuclear plants are all brought back to perfect condition, or new, and just hope to God we never have to use it. But you know what? It's going to be far less

likely to use when we have it. But it's all been brought back. We have the greatest weapons, the hydrosonic missiles that go seven times faster than a normal, very fast missile. We have the greatest equipment. We're the envy of the world and hopefully, hope to God, we don't have to use it.

Donald Trump: [\(01:27:15\)](#)

We passed big veteran area. Where's big AI? Where's AI? I used to love that guy. We passed VA Choice and VA Accountability. We got it done. Right? We got it done. So now instead of waiting online for weeks and weeks and days and days, we have your VA choice. You go to a doctor. You get yourself taken care of. We pay the bill. And it's just been a great thing. We just got a 91% approval rating from the vets. The highest we've ever had by a lot. How's AI? Is he around? Where's AI? Where's AI? Where is AI? AI, did I do a good job with the vets? Look at him. AI was great. AI was so depressed when I first started running. I saw him. I just liked him. A big vet, he headed up some groups, and he was telling me how badly the vets were treated. So AI, we got 91% approval rating from the vets. Thank you, AI. And I hope you're feeling good. You're feeling all right, right? He went through a lot. We.

Donald Trump: [\(01:28:24\)](#)

killed the leader of ISIS, al-Baghdadi. We killed him. Took out 100% of the ISIS caliphate. And we took out the mass murderer of American troops and many others, Soleimani is dead. The both of them, dead. Worst terrorists. I withdrew from the last administration's disastrous Iran nuclear deal, \$150 billion, \$1.8 billion in cash, I withdrew. That deal was nothing. And by the way, the first call I get if we win, will be from the leaders of Iran. They want to make a deal because their country is going to hell with the sanctions. They're down 26 or 27% in GDP, which I think is a record also. I recognized the true capital of Israel and opened the American embassy in Jerusalem. And instead of never ending wars, we are forging peace in the Middle East. No more blood on the sand.

Donald Trump: [\(01:29:25\)](#)

A vote for Republicans is a vote for safe communities, great jobs, and a limitless future for all Americans. Do me a favor. Vote for your Senator, please. He's going to be such a great Senator. I don't know. It's probably a tough race, but you should vote. He will be fantastic. He's what we need. And in conclusion, I want to just say this. A vote for Republicans is really a vote for the American dream because we're about the American dream.

Donald Trump: [\(01:29:56\)](#)

And in conclusion, over the next four years, we will make America into the manufacturing superpower of the world, and we will end our reliance on China once and for all. It's already happening. It's already happening. That's already happened. We will hire more police. We love our police. Increase penalties for assaults on law enforcement. And we will ban deadly sanctuary cities. We will uphold religious liberty, free speech, and the right to keep and bear arms. And we're giving you a great new Supreme Court Justice, by the way. That'll take place on Monday. The Democrats are thrilled. Monday. Three of them, all great.

Donald Trump: [\(01:30:57\)](#)

We will maintain America's unrivaled military might, and we will ensure peace through strength. That's what we have. We will end surprise medical billing, require price transparency, already signed and done. Goes into effect on January 1st. Lower drug prices, Favored Nations, lowest prices in the world. I'm instituting Favored Nations. The drug companies do not love me too much. They're taken more ads than anybody's ever taken, but that's okay. People understand. And we will always protect patients with pre-existing conditions. Always. We will stop the radical indoctrination of our students and restore patriotic education to our schools. We will teach our children to love our country, honor our history, and always respect our great American flag. And we will live by the timeless words of our national motto, In God We Trust.

Donald Trump: [\(01:32:10\)](#)

For years, you had a President who apologized for America, now you have a President who is standing up for America and standing up for the great people of New Hampshire. I'm standing up. For the last four years you've seen me fight for you, and now I'm relying on you to deliver another historic victory for our country. Get your friends. Get your family. Get your neighbors. Get your coworkers, even get your bosses. Say, "Boss, you got to come with me," and get out and vote. You got to get out and vote.

Donald Trump: [\(01:32:48\)](#)

From Nashua to Dixville, from Portsmouth to Plymouth, from Concord to Claremont, and from Meredith to right here in Manchester, I like Manchester. We inherit the legacy of red-blooded New Hampshire Patriots who live by that immortal motto, Live Free or Die. Live Free or Die. That's probably about as good as it gets, right? That's good. We stand on the shoulders of American heroes who cross our oceans, settle the continent, tame the wilderness, lay down the railroads, raise up the skyscrapers, won two world wars, defeated fascism and communism, and made America the single greatest nation in the history of the world. And the best is yet to come. The best is yet to come.

Donald Trump: [\(01:33:49\)](#)

Proud citizens like you help build this country and together we are taking back our country. We are returning power to you, the American people. It's happening very quickly. With your help, your devotion and your drive, we are going to keep on working, we're going to keep on fighting and we are going to keep on winning, winning. We are one movement, one people, one family, and one glorious nation under God. And together with the incredible people of New Hampshire, we have made America powerful again, our military. We have made America wealthy again, our stock market, 401(k)s. How are your 401(k)s doing? We have made America strong again. We have made America proud again. We have made America safe again. And we will make America great again. Thank you, New Hampshire. Thank you. Thank you. Go vote.

Donald Trump: [\(00:16\)](#)

Thank you very much. Thank you. Thank you.

Audience: [\(00:20\)](#)

USA, USA, USA, USA, USA, USA, USA, USA.

Donald Trump: [\(00:34\)](#)

Thank you very much. And hello, Circleville Circleville. And it's great to be back in Ohio to celebrate the return of Big Ten football with a big victory today for the Buckeyes, 52 to 17, not bad, not bad. Do you remember how this all happened? Sleepy Joe said, "President Trump didn't want to have football." I said, "What the hell is he talking about?" Sleepy Joe. So I said, "What's the problem with football?" They said, "Big Ten football is shut down." I said, "Well, he said I did it?" Yeah, he blamed me. I said, "I had nothing to do with it." So then I said, "I got an idea. I'm going to get it open, if it's shut down." Right? That's what happened. I think he even took an ad, "President Trump shut down football."

Donald Trump: [\(01:27\)](#)

I didn't think about it, I must tell you. I'm thinking about China, and I'm thinking about a lot of other things. So I said, "You know what we'll do? We'll teach Sleepy Joe and that group that don't have what it takes, we'll teach them how to do it." And I worked hard to bring back Big Ten. And I got together with your commissioner. He did a good job. And we got it back. And today, you won your football game, and we're very happy about it, because I know that life in Ohio is not complete without the glory of Ohio State football and other football. I'm glad you won the game. I wouldn't have wanted to come... Can you imagine if you lost the game? And there's a lot of people in here, but did you see outside? You're very lucky to be here. Say, "Thank you very much for this wonderful journey, President." No, you have to see, you have to see, there are tens of thousands of people in the streets out here trying to get in. I think the next time we'll get a larger field.

Audience: [\(02:43\)](#)

We love you. We love you. We love you. We love you. We love you. We love you. We love you. We love you. We love you.

Donald Trump: [\(02:44\)](#)

Thank you very much. Thank you very much.

Audience: [\(02:44\)](#)

We really do.

Donald Trump: [\(02:51\)](#)

Yeah, that's nice. That's really nice. Thank you. Thank you very much. I appreciate it. And by the way, we got Pac-12 back. You don't care about Pac-12, but we got Pac-12. We said, "We might as well do out there too." Right? And we did a double header. 10 days from now, we're going to win this great state. And we are going to win four more years in the White House. You remember last time about this state, remember they said... For a year, I had to hear it. You cannot win unless you win the great state of Ohio. I heard it so many times. That was these fake people. Look at all of them over there, all those cameras. Look at all those lights that are on, all those lights that are on. But do you remember that? They would drum it. For a year, I heard, "You cannot win unless you win Ohio." And then I got a poll and it said we're doing pretty well in Ohio, by the way. Right?

Donald Trump: [\(03:45\)](#)

And then we won. Remember they said, "It's going to be close. It's going to be hard to win, going to be very, very hard. And Trump, if he doesn't win Ohio, he's out." And then we not only won Ohio, we won Ohio by more than eight points, eight points. And they said, you know the story when it closes, I mean, they do a fast little count if you're winning big. They said, "The polls in Ohio have closed. Donald Trump has won the state of Ohio." It was like immediate. It was like in the same sentence. "The polls have closed. Trump has won." Normally, it would take like hours and whatever if it's close. No, we won big. And I hear we're winning big now. And I'm hearing they gave up on the state already. And they're going to give up on Florida very soon because we're winning big in Florida, we're winning big in North Carolina.

Donald Trump: [\(04:37\)](#)

You don't want Sleepy Joe to be your president. He draws flies. He's not drawing anybody. And Obama was there. They called in Obama. They said, "Sir, sir," this was a few days ago, "Sir, I have bad news." "What?" "President Obama is going to campaign for Sleepy Joe." And I said, "Is that good news or bad news?" It's true. And he said, "Well, he's going to campaign." So I guess it started yesterday, the day before, right? They had 42 people show up, 42. We have thousands, tens of thousands, and outside is five times what this is. No, there's something going on. It happened last time four years ago, this time more. This time more. It happened last time.

Donald Trump: [\(05:23\)](#)

There was an enthusiasm four years ago, the likes of which the fake news has never seen before. Right? And I'll have to tell you, and maybe I'll be wrong, but at least to this point, the enthusiasm is much more, because you know what we've all done together? We've done a lot. We've done it. We've done a lot. It's much more. It's much more. We got all those tax cuts. We got all the regulation cuts. We got the steel guys back. We put tariffs on all the crap that they were dumping from China, 25%. They were dumping the steel. Then we said, "You can't do that." And lots of other things, we've done a lot, but it's far greater

today. Look at this field, I mean, as far as the eye can see, it's far greater today than it was four years ago. And this is the most important election. This is the most important election of your lifetimes.

Donald Trump: [\(06:17\)](#)

I see a lot of young people up here. So big deal. Like what? 12 years. No. Big deal, right? It's really the most... It could be the most important election we've ever had. I really believe that too. And I didn't think I'd be saying it because our last win was such a big win, we've done so much. Nobody's done more than what we've done. They don't even question it when I say it, because they like to always. "Oh, he did this, he said that, he said..." They don't even question. We have done more in the first three and a half years than any administration has done. It's true. When you look at everything.

Donald Trump: [\(06:54\)](#)

And it's an honor, but this is the most important election. I didn't think I would say it because I viewed the last, what we did four years ago... Can you believe four years ago? Almost. Can you imagine that? Time flies. I'll never forget the first night in the White House, they said... It's like a surreal experience to have Abraham Lincoln's bedroom here. I was talking to the First Lady. I said, "Do you believe this?" Took a little while, it takes a while to get used to it. And then, you know what you have to do? You have to get down to work. You get down to work. And that's what we did. At the debate this week... Did anybody see the debate? Maybe? Couple of them maybe. But that had a lot. That was like a Super Bowl deal, I guess, with the ratings. That's okay. We had one poll 91 to nine, it was, 91. With us having the 91. Okay?

Donald Trump: [\(07:47\)](#)

Yeah. I kept saying, "Hey, Joe, Joe, you want to do all this stuff? Why didn't you do it? You were there three and a half years ago. Do it. Why didn't you do it, Joe? You didn't do much, Joe." Then I said, "I wouldn't have run, Joe. I wouldn't have run if you did a good job. If you two did a good job, I wouldn't have run. I didn't need this, Joe. I had a very good life, Joe. I didn't need this, Joe. I had a good life. I had a very nice life, Joe, but I wouldn't have run. You did a good job, I wouldn't have run. And if I did, I wouldn't have won because you would have done a good job. There would have been no reason. The fact is you didn't do a good job, Joe. You let us down, Joe."

Donald Trump: [\(08:23\)](#)

And he had no idea what I was talking about. He had no clue. But at the debate this week, the American people saw the contrast between a 47-year career politician who used his public office to enrich himself. You know that. I mean, his son was like a human vacuum cleaner. He just follows. "Let's go to China this week, Dad." "Okay, son. Here, take out a billion and a half." You get all the fees in a billion and a half. "How about going to Ukraine? Now, they'll me 183,000 a month for my great, great services on energy." "What do you know about energy, son? I didn't know..." "I don't know anything, Dad, but I'll learn. I'm willing to learn."

Donald Trump: [\(09:06\)](#)

For the last half century, Joe Biden has been outsourcing your jobs, opening your borders and sacrificing American blood and treasure in these endless, ridiculous foreign wars. Countries you've never even heard of for the most part. I fight for the middle-class. I fight for everyone. I fight for this country. And Biden doesn't know who he's fighting for.

Audience: [\(09:36\)](#)

USA, USA, USA, USA, USA, USA, USA, USA, USA.

Donald Trump: [\(09:44\)](#)

Now you have to say, this is serious stuff. It is. It is serious stuff, but is there any place better to be than a Trump rally?

Audience: [\(09:52\)](#)

No.

Donald Trump: [\(09:52\)](#)

I mean, seriously, right? I mean, it's serious, but we have fun. And you know the best way to succeed? You got to love what you're doing. And we all love it. And we love our country. We love our country. In 2016, Ohio voted to fire this depraved political establishment. And you elected an outsider as your president, who is finally putting America first. That's what I'm doing. You work hard, you raise your families, you follow our laws, you support your church, that you're not even allowed to go to. How about that? You can't go to your church, but you can have a riot down Fifth Avenue. Isn't that nice? You serve your community, and you give your love and loyalty to our great country. Now, you finally have a president that is loyal to you. Totally loyal to you. Believe me. There are easier ways to spend my life. This was... Nobody told me the swamp was going to be that deep and that vicious.

Donald Trump: [\(11:03\)](#)

They even impeached me over a perfect phone call. "Hello? How are you doing? Congratulations. Congratulations on your win, Mr. President of Ukraine." "We're going to impeach him." These people are crazy. These people... Oh, now they're doing it again. The laptop from hell. They found the laptop from hell. This is a laptop that they don't want to see. How the hell this laptop got freed up, it's amazing the way God works. The laptop from hell. Right? And now it comes. It's Adam Shifty Schiff. Yesterday, I saw it for the first time, watermelon. He's shaped like a watermelon. Adam Schiff, dishonest guy, totally dishonest guy. Made up my conversation. Remember in the halls of Congress, said, "Quid pro quo" eight times. I didn't say it at all. Isn't it lucky I had a transcriber? Isn't it lucky? Otherwise, it would be my word against Shifty Schiff.

Donald Trump: [\(12:07\)](#)

But think of it, think of it. So Adam Schiff, he's out there and he's talking about what's taken place, and here it is the laptop from hell. He said, "It's Russia, Russia." Here we go again. Russia, Russia, Russia. I think Russia must look at us, they say, "These people are stone cold crazy." This is Russian disinformation. I'll tell you what, we got to get back to business. This is crazy what's going on. This is crazy. Russia.

Donald Trump: [\(12:39\)](#)

I heard it yesterday they got them caught... I think Biden... Didn't he say at the debate, he said, "Well, this was Russian disinformation." This is a disaster for them. But let's see what happens. But see, but we have learned a lot. We've learned how corrupt the media is. I already knew they were corrupt. But they don't want to write anything about it. So listen, so we caught them cold, just like we caught them spying on my campaign. We caught them doing horrible treasonous things. These were treasonous things. Let's see what happens. Should have gone much faster, I have to be honest with you, but we caught them spying on our campaign, the whole group. And by the way, Obama and Biden, they knew everything about it. They knew everything about it. We caught them with that too.

Audience: [\(13:41\)](#)

Lock them up.

Audience: [\(13:41\)](#)

Lock them up, lock them up, lock them up, lock them up, lock them up, lock them up, lock them up, lock them up, lock them up, lock them up.

Donald Trump: [\(13:43\)](#)

It's much better if I say, "No, no, no, please." No, it's terrible. It's a terrible thing. Now they're trying to do it again where they get caught. And they're trying to say it was Russia. They never say China. You know why? A lot of money comes out of China into their pockets. Do you ever notice? China has not been very good. We did a great trade deal, unbelievable. Two weeks ago, the largest order of corn, the largest order of soybeans, the largest. Yeah. Yeah. Except I feel different. Normally, I would have been here talking about the great trade. But you know what? The ink on the trade deal wasn't dry. And then all of a sudden, the plague came in from China. That's more important than trade deals. That's more important. So it's no good.

Donald Trump: [\(14:29\)](#)

With your vote, we will continue to bring back your jobs, lower drug prices at a level that nobody's ever lowered them before and you... Last year for the first time ever, drug prices went down, but we're doing what's called a favored nations clause. The drug companies are not happy with me. This is not supposed to have happened. Favored nations means you'll pay the lowest price anywhere in the world. You match. Its favored nations, and nobody's exercised it, because nobody thought of it, probably. But if they did think of it, they couldn't have done it because the drug companies are so powerful. They are taking... You see all the ads against me? It's not so much Sleepy Joe. It's the drug companies because I've exercised the favored nations.

Donald Trump: [\(15:11\)](#)

So if Germany or another country pays 25 cents for a pill, the exact pill, and we pay \$2.50. And you're talking about stuff like that, these are the kinds of differences. We pay for all research and development, everything. So if Germany's at 10 or somebody, and we're at much higher, we now pay 10. It's very simple. It's called favored nations. We pay the lowest in the world. Your prices could come down 50, 60, 70, 80%. They'll come down a lot. And I have never had more ads spent because they have unlimited money. So big pharma they call it, right? It's the number one power in Washington, and I've just learned they're the number one power. And I knew this was going to happen. I said, "I don't care. I'm put here to do a job. I'm put here to do a job." They have the middlemen. The drug pricing's very complicated. It's very complicated stuff. They have it set so that it's almost impossible to disengage it.

Donald Trump: [\(16:08\)](#)

And they have middlemen. You know the middlemen? Nobody ever heard... They never say middlewomen. I've never heard middlewomen. I want to be nice. I want to say middlewomen, but I've never heard the term, having to do with drug prices. But the middleman gets millions, gets more than the drug companies. At least the drug companies make the drugs, right? These people don't do anything. They're very rich. I probably know some of them. I would be not surprised if Hunter Biden was also a middleman. He probably got... On top of everything else, takes in millions and millions. And now we find out that Hunter Biden is a middleman, but these are rich people and they get all this money for nothing. So I worked a deal where Canada, which buys their drugs for exactly 50%, I'm going to let our governors, your governor, governor of Florida, other governors buy their drugs directly from Canada. Nobody's ever done... Same drug, exactly the same, same lab, same company, same everything. And they're going to buy it for 50% less. And then by that time, the favored nations will kick in, and you'll get it for even less.

Donald Trump: [\(17:13\)](#)

So this has never happened before, but it's happening. We will support our great police, protect your Second Amendment, defend your borders, and ensure more products are proudly stamped with that beautiful... Isn't it a beautiful phrase? You didn't hear it for a long time until Trump came along, made in the USA, made in the USA. You didn't hear it for a long time, right? Been a long time. When I was young, they used to say made in America, made in... Every car, made in... Now you don't see it anymore. We're going to see it. Remember, I was saying today, I was in North Carolina, speaking to a great crowd, and I said, "Remember, when I first started, I said, 'We're going to say Merry Christmas again.'" You remember? And remember, all the department stores, many of them are wiped out because of the internet, but these are minor details, right? But all the department stores, they'd say, "Happy new year" and everything but Christmas, they don't want to say Christmas. I said, "We're going to say Christmas again." And you know what? They're all saying Christmas again. They're saying, "Merry Christmas."

Donald Trump: [\(18:25\)](#)

They're all saying, "Merry Christmas" again. Going to be there pretty soon. And we have a big day, better get out November 3rd, big, big, big. Who's voted already? Who's voted? I just voted. I just voted. Get out and vote. No, this is the biggest election that, I really believe, maybe we've ever had, because the radical left has gone crazy. And you know what, when we win this one, I think they're going to rest. I really do. I think they're going to say, "Okay, that's enough. That's enough." She goes, "No, they won't." You're probably right. But you know what brings it together? Success. And we're doing a super V, we're going up. You see housing starts, and the numbers, the automobile starts, nobody's ever seen anything like it. The numbers for some things are better than they were pre this plague that came in, the pandemic. I mean, it's amazing, actually amazing. We have a super V. You're going to see a number that's going to be announced just prior to the election, GDP. It was just estimated by the Fed to be 35%. I think the highest we've ever had was like seven. Now, who knows if they're right, maybe they're... I'll take 25 right now. Okay? Problem is, I mentioned 35. So if it's 25, you know what they'll do? "It was a terrible, terrible upset for the president." Whatever the... If it was 15, I'd be happy.

Donald Trump: [\(19:44\)](#)

They just estimated. They think it might be 35%. That's unheard of. We're coming back because we built... You know why though? Because we built a strong foundation. We had a strong foundation. If we didn't, this country would be some mess. And if a guy like Biden gets in, where he wants to raise your taxes, quadrupled. And-

Donald Trump: [\(20:02\)](#)

Where he wants to raise your taxes, quadrupled. And he wants to put all those ridiculous regulations that... Used to take 20 years to get approval for a highway. Now we got it down to two years, and I'm trying to get it down to one. I think we can, and it might not get built for safety reasons or environmental reasons, but we have it down to a very, very short period of time. It used to take... We have roads 21, 22 years, and then it would get disapproved. They would then raise their hands, not to approve it after 20 years.

Donald Trump: [\(20:30\)](#)

Now those days are over, but he would put everything back. He's going to raise your taxes like crazy. I've never seen anyone. You know, all my life I've been involved indirectly. Usually on the other side, only exclusively. I've never seen raising taxes. I've seen politicians. "We will lower your tax." This is the first politician that's ever running saying, he's going to quadruple your taxes. What the hell? This the craziest thing I've ever seen. I'm looking up. I'm saying, "Is this really like... Is this serious?" First of all, I look at him and I say, "Am I running against this man? I'm running against sleepy Joe." In primetime, he wasn't good. Now I'm running against him. This is not prime time.

Donald Trump: [\(21:16\)](#)

Did you think he did well in the debate the other night? The last question was the best though, right? Because he lied about fracking. He kept going. During the primaries, "There will be no fracking. There will be no fracking." By the way, you're a big fracking state. You better hope that he didn't... You've only got about a million. You've only got about a million jobs. More importantly than the jobs is you got the lowest energy prices we've had. How about your \$2 gasoline and less? Right?

Donald Trump: [\(21:45\)](#)

You wouldn't mind if it went to nine, \$10, \$12. You couldn't get it. Well, they wouldn't mind because they'd like you to get rid of all your cars. No more airplanes, no more cars, no more cows. You know, cows. I think they took that off the manifesto, right? It was too much, but they would like it. They would like it.

Donald Trump: [\(22:01\)](#)

No, what we're doing has been incredible. You can't have your tax increased. So I'm cutting taxes. We're doing another big tax cut. That's what brought everything in. Billions and billions of dollars has come into our country because of what we've done. What? You're going to just chase it all out? These are people without a lot of heart. They go where they make the deal. We brought it down. We brought the middle income taxes down. Child tax credit, \$1,000 a child. He said he wants to get rid of it. Okay? He wants to get rid of it. Why does he want to get rid of it?

Speaker 1: [\(22:34\)](#)

[An idiot 00:02:34].

Donald Trump: [\(22:34\)](#)

That could only take place in the great state of Ohio. And I worked here for a couple of summers in Cincinnati. I like Cincinnati. I like Ohio. Worked out well. It

was a good success. And you know, it's like, when something works out well, you like it. I was very young. A job in Cincinnati, Swifton Village, had anybody ever hear Swifton? Anyway. And we bought it and we sold it and it worked out nice. And you know, you always have like a good feeling, but I have an even better feeling because of what happened four years ago with Ohio. Even better feeling. And it's going to happen again. But it's the first time I've ever seen a politician say, "We will raise your taxes." I'm saying, "Wait a minute. Did he say..." No seriously. Have you ever heard a politician campaigning going, "I'm going to raise your taxes. And I'm going to put a lot more regulations. But a lot of people don't know."

Donald Trump: [\(23:39\)](#)

You know, I think the regulation cuts we did was actually more important. Maybe not for everybody, but for the business people. And then they hire and jobs all over the place. We had 160 million people working. We've never been anywhere close to that number. We're going to be back very soon, 11.4 million people hired over the year, which was a record. But I think the regulation cuts might've been even more important. This election is a choice between a Trump super recovery and a Biden, in my opinion, this is going to happen. I hate to say it. Depression. You're going to have a depression. And you have 401(k)s. Does anybody have a 401(k)? Throw them away. They're not going to be worth.

Donald Trump: [\(24:22\)](#)

It's a choice between a boom and a lockdown. Did you hear him during the debate? Right? He said, "I'd lock it down, oh yes. I'd..." No, no. We're not locking it down. No, no. We're not. We've learned the disease. We did the right thing. We saved millions of lives. We saved two million lives, maybe more than that. We locked it then we opened. But we understand it.

Donald Trump: [\(24:40\)](#)

Like young people, Barron. He had it. The doctor said... you know, Barron very, very tall young man and a great guy. Right. But he's young. And the doctor said, "Sir, Barron has tested positive." I said, "That's terrible. Barron didn't even know he was." He said... Next day the doctor comes in, "Sir, Barron's fine." Because they're young like these guys over here. They're young because they have strong immune systems. Right? They're strong. They have these strong, beautiful immune systems. So it was good. I happened to test. Right? You know why? I couldn't stay in a basement. I'd meet a lot of people. I'm President. I have to get out. I have to get out.

Donald Trump: [\(25:24\)](#)

No, it's true. I'd have meetings where I'd go back and say, "You know, that's got to be dangerous. That's got to be this or that." But the fact is I had it. It worked out well. Now I'm immune. I could run up and kiss this whole group of people, men and women.

Donald Trump: [\(25:44\)](#)

It worked out. By the way, 99.9% is good and then you're immune and all that stuff. I heard you were immune for life. So when I had it, I said, "I'm immune." To them, to the fake news. And they said, "But only for four months." I heard it was for life. With me it was for four months. If it was anybody else they'd say for life. But anyway, no, I had it. First Lady had it. Right. And you get better. We got better. They love the First Lady. Very elegant. Most elegant First Lady. No, it's amazing. It's amazing. They don't treat her very nicely and she's incredible. The most elegant woman. And she goes, "But that is okay." She loves the people. I mean, it's really amazing.

Crowd: [\(26:32\)](#)

We love her, we love her, we love her, we love her.

Donald Trump: [\(26:40\)](#)

Yeah. She's done a great job and she loves it and she loves the people, but she had it recovered. I had it recovered. Barron had it, didn't even know he had it. So it's one of those things, but we have to lead your life. So when I would be having meetings with Gold Star families, military, lots of other people. I'd have meetings. Right. And I go and I do the meeting and sometimes people would come up and they get close and everything else, mask, no mask. They get close. And at least some of these meetings say, "That could be dangerous. I guess. I don't know." But I have to do my job. As I said at the debate, I can't put myself in the basement of the White House for a year and a half. I can't do it till this thing goes away. And it is going away. It's rounding the term. Do you notice they talk about cases, always cases, cases, cases. They don't talk about the mortality rate down 85%. Because what we have is so incredible, the job we've done is so incredible. 85%.

Donald Trump: [\(27:42\)](#)

Think of that. 85%, but they do it. And you know what? On November 4th, you're not going to hear the news. The CNN, all they talk about. COVID COVID COVID COVID. If a plane goes down with 500 people, they don't talk about it. All that talk because they're trying to scare everybody. You have to lead your life and you have to get out. You have to be vigilant. Be careful, socially distance, get too close. Put the mask on, put it on, get on lots of different things. But really I see what they're doing.

Donald Trump: [\(28:15\)](#)

It's just like they try to hide all of this corruption from the Biden family, by not putting it. They refuse to write it. And I have to give the New York Post, my hometown paper, the New York Post, the oldest newspaper in the country, the fourth largest. I have to give them credit because they went against the grain, and they're willing to expose all of this corruption. And then you see Big Tech. They won't put it on. And if you put it on, they delete you. They terminate you. Charlie Kirk, break up Big Tech. Well, they did sue [inaudible 00:08:50], nothing to do with this, of course. But they did sue Google on Thursday. Right? You like it?

Donald Trump: [\(28:57\)](#)

No, terrible. No, no, but they've exposed themselves because nobody knew it was that serious. They won't put it on. And if you put it on, if you put something on from the New York... I think they... Didn't they delete the New York Post? They terminated out the New York Post. Can you imagine a newspaper? They won't put it on. People have learned, they don't want anything because if Biden got in, they would own the world. If Biden got in, China would own our country. I mean, China.

Donald Trump: [\(29:23\)](#)

Did you see where the kid was trying to get \$10 million a year for introduction purposes? Okay. This was all down in the paper. They say, "Russia did it." This was all down in a paper. Now confirmed by the guy that ran the company. He's not... I would say they're not too happy with him. Wouldn't you say? I saw him the other day, but it's all right stuff. I mean, what he's saying is right. He couldn't take it anymore. He couldn't stand the corruption. So let's see. But can you imagine when people say, "Don't print it." In other words, you'll never hear it, but you know, it ended up backfiring. Because that happened, it's become a much bigger story. Because you add it all up, it's actually become... If they would have printed it, who knows what would have happened? You forget it? Something... But it's become a much bigger... Big Tech, section 230, right? Big Tech is corrupt.

Crowd: [\(30:14\)](#)

Break them up. Break them up.

Donald Trump: [\(30:16\)](#)

The media, the fake news is corrupt. And I've been saying it for a long time. Even I didn't know that you were that corrupt, but look at all of them. Even I didn't know that you were that corrupt. In the meantime, you watch the television sets go off. Let's cut. Cut this guy off. Cut the President off. Can you imagine they're broadcasting this stuff and now they're saying, "Cut him off," but it's okay. I don't mind because I like telling the truth. Biden and the Democrats will offshore your jobs. Dismantle your police departments, dissolve your borders, confiscate your guns. Second Amendment. They're after it.

Crowd: [\(30:57\)](#)

Boo.

Donald Trump: (30:57)

Eliminate your private health care. You know, we have 180 million people with private health care. A lot of you have private health care. It's what you dream of. It's great. You negotiate. You have many great companies doing it. They compete. You have great private health care. They want to terminate it. They want to terminate your religious liberty. They want to destroy the suburbs. I am the best thing that ever happened to the suburbs. You know, they were talking about this... 60 Minutes. She asked me a question. You saw that I printed out the whole interview. I said, "Put it down." But she said to me a question, one of her questions, she said, "Why are you begging? Why? Suburban women? You said, "Please love me suburban women, please, please, love me, please. I beg you. Please love me suburban." No, I didn't say that. What I did is I said, "Love me suburban women," because I saved the suburbs.

Donald Trump: (31:57)

They had a regulation. They had a regulation that would have brought low-income housing projects and crime right to their doorstep. Would have been right next to it. And I said, "Suburban women, you're going to love me." That's what I said. And I was being sarcastic. They said, "Why are you begging for the love of suburban..." Suburban women are going to love me. You know why? Because they want security. They want safety and they don't want a regulation that's going to destroy suburbia. That's all. That's all. Because they said, "He's not doing well with suburban women." I said, "What about suburban men? How am I doing?" "Well there, you're doing okay. You're doing well with the men. Not the women." But Biden has vowed to abolish fracking, right? He says, "We're going to not frack anymore." He has no idea what it means.

Donald Trump: (32:51)

We are not no fossil fuels, no nothing. We're going to close down all our factories. We're going to go with wind. Wind. Wind is going to be the answer. Kills all our birds, everything else. We're going to have massive blackouts like they have in California, the whole country. You ever see the brownouts? Crippling power outages. 700,000 Ohio jobs would be destroyed. Biden lies about a lot of things. He lied about that. He lied about social security. You saw that, social security. He also won't tell you the truth about decades long quest. He had a decades long quest to renegotiate social security and Medicare. And he said he didn't do it. We have a tape here someplace. Do we have the tape? I hope it works better than the big 10 tape. Okay. Play both videos. So we have one real quick. We have... I only do this you.

Moderator: (33:42)

Biden, to respond.

Joe Biden: (33:43)

I never said I oppose fracking.

Donald Trump: (33:45)

You said it in the tape.

Joe Biden: (33:47)

I did... Show the tape. Put it on your website.

Donald Trump: (33:49)

I'll put it on.

Moderator: (33:50)

Would there be anyplace for fossil fuels, including coal and fracking, in a Biden administration?

Donald Trump: (33:56)

Turn it up.

Joe Biden: (33:57)

No, we would work it out. We would make sure it's eliminated.

Speaker 2: (34:01)

What about safe stopping fracking and stopping pipeline infrastructure and...

Joe Biden: (34:07)

No new fracking. You got to transition away from it. Look, if you're going to ban fracking all across America right now, right?

Speaker 3: (34:14)

I would love to.

Joe Biden: (34:15)

Yeah. I'd love to too. I'd love to make sure we don't [inaudible 00:34:17] use any oil or gas. Period.

Joe Biden: (34:19)

So look in my eyes. I will guarantee you, I guarantee you we're going to end fossil fuel. [inaudible 00:34:27]

Donald Trump: (34:29)

Okay. So there he said, "No, fracking." Social security.

Bernie Sanders: (34:34)

Yeah. You're right here with me.

Joe Biden: (34:35)

Yeah.

Bernie Sanders: (34:36)

Have you been on the floor of the Senate? You were in the Senate for a few years.

Joe Biden: (34:40)

Yeah.

Bernie Sanders: (34:40)

Time and time again, talking about the necessity with pride about cutting social security, cutting Medicare, cutting veteran's programs.

Joe Biden: (34:49)

No.

Bernie Sanders: (34:50)

You'd never said that?

Joe Biden: (34:51)

No.

Joe Biden: (34:51)

When I argued that we should freeze federal spending, I meant social security as well. I meant Medicare and Medicaid. I meant veteran's benefit. I meant every single solitary thing in the government.

Joe Biden: (35:04)

Look here's the deal.

Bernie Sanders: (35:05)

You're an honest guy, why don't you just tell the truth here? We all make mistakes.

Joe Biden: (35:08)

I am telling the truth.

Joe Biden: (35:09)

And I not only tried it once, I tried it twice, I tried it a third time, and I tried it a fourth time.

Bernie Sanders: (35:14)

Joe, let me repeat it again. I want you just to be straight with the American people. I am saying that you have been on the floor of the Senate time and time again, talking about the need to cut social security, Medicare and veteran's programs. Is that true? Or is that not true?

Joe Biden: (35:34)

No, it's not true. What-

Bernie Sanders: (35:34)

That is not true?

Joe Biden: (35:35)

That is not true.

Joe Biden: (35:36)

I meant veterans, I meant every single solitary thing in the government.

Joe Biden: (35:41)

Everything was on the table. I did not support any of those cuts in social security or in veteran's benefits.

Bernie Sanders: (35:47)

Whoa, Whoa. Everything was on the table. All right, you're right. You just said it, including in your judgment, cuts to social security and veteran's.

Joe Biden: (35:55)

In order to get the kinds of changes we need on other things related...

Bernie Sanders: (36:00)

Joe, but you didn't-

Joe Biden: (36:01)

But we did not cut it. I did not go for it.

Bernie Sanders: (36:03)

I know because people like me helped stop that. All that I would say to the American people, go to YouTube. It's all over the place. Joe said it many, many times, and I'm surprised... You can defend or change your mind on it, but you can't deny the reality.

Donald Trump: (36:25)

We're starting to use this very expensive means of communication because it's so much easier than my explaining it. So number one, he said, "There'll be no fracking, no fracking, no fracking." He luckily gets a nomination because Elizabeth Warren stayed in for an extra three days, right? If she would have left before Super Tuesday, he wouldn't have won one state. He would have been out. And then I would have been competing against crazy Bernie instead, which is okay. I don't care. Well, there would've been more energy. I mean, there would have been a lot more... No Bernie has more energy, smaller little face maybe, but have a lot of energy. They're coming to us because a lot of them, they agree with me so much on trade. We got a lot of them last time. But anyway, so no fracking.

Donald Trump: (37:10)

Then he goes to Pennsylvania, great place. And he says, "Yeah, you're going to have fracking. A million jobs." They want to keep their bills down. Right? The lighting bills and the gasoline. So all of a sudden he goes from no fracking to, "We will frack." And everyone said, "How the hell?" And the fake news doesn't call him out on it. They don't even talk to him about it. So I bring it up because that's good. It's expensive to do, but you know what? It's worth it for the great state of Ohio. Right. Then we hear about Medicare and social security. So all my life I've heard, if you even touch social security, you're out of politics. This guy tried to destroy social security and Medicare and Bernie caught him. I'd like to thank Bernie very much. You know, Bernie is honestly, he's a good sport. He's one of the greatest losers in the history of politics, seriously.

Donald Trump: (38:05)

He lost viciously with Hillary and possibly shouldn't. I mean, I think she sort of beat him, but he was treated very badly. And then this time he should've won, except that she said... I mean, what they did, they quadruple teamed him. And what they did to him was incredible. And he's got no hard feelings. You know, he just goes back. Bernie is the loser. I mean, I've never seen a guy like this. He loves to lose. Some people love to lose. Some people. As long as I'm your President, I will always protect Medicare and social security like I promised.

Donald Trump: (38:43)

And he won't and he won't, and America will continue to be the number one producer of oil and natural gas, anywhere in the world. You don't have to worry about me with your Ohio fracking. You frack till your heart's content. By the way, and it's not up to him just so you understand, it's not up to him. He switched, but this party is not going to let him frack, okay. They're not going to let him frack. And he's got no... And he's probably not going to be in there too long anyway. They've got the dream. They've got this Kamala who is the most liberal person.

Crowd: (39:24)

Boo.

Donald Trump: (39:25)

And she said, "There will never be fracking." Now she's saying, "Well, I think we can live with it. Yeah." No, no, no. Go with what they say first. In politics, go with what they say. That's where they come from. And they don't have a choice. She doesn't either. There's not going to be fracking if they win. There's going

to be a lot of bad things happening. Like socialized medicine, like a lot of bad things are going to happen. Joe Biden has made a corrupt bargain in exchange for his party's nomination. He has handed control of his party over to the socialists. I hate to say this, the communists, the Marxists and the left wing extremists that you see running up and down the street.

Donald Trump: [\(40:03\)](#)

And the left wing extremists that you see running up and down the street doing tremendous damage in Portland and various places that we could stop. And Antifa. You're right, Antifa. I said, "Joe, tell us about Antifa, Joe." "Oh, that's just an idea." Really? When you get hit over the head with a baseball bat, that's not an idea. No, he doesn't want to talk about Antifa. I said, "Joe I've been endorsed by almost every law enforcement group in the country, almost everyone, sheriffs, police. New York City's finest, they've taken all of that great vim and that enthusiasm. What they've done in New York is terrible. All run by Democrats, all run by radical left Democrats or even Democrats. You look at what's happened to New York crime-wise, you look at what happened to Chicago. Look at Portland, look at Portland. Look at Oakland, look at Baltimore.

Donald Trump: [\(40:54\)](#)

By the way, Obama talks like his administration. He had stuff. How about Baltimore? How about Oakland? How about Ferguson? How about St. Louis? What he had. And it's like I said, that's why I'm here. I'm here because people were not happy. They're running a slate of the most radical candidates in American history. They are running the most radical people, AOC plus three, AOC. How about AOC?

Donald Trump: [\(41:29\)](#)

How about in Minnesota, beautiful Minnesota? Omar, Ilhan Omar. And she's always complaining about the way we run our country. I think we're going to win. Minnesota hasn't been won by a Republican since 1972. Does anybody know that? I think we're going to win Minnesota. First of all, we did a very good job with Minneapolis. That National Guard went in. We have to get a call. We're not allowed to send them in unless we want to do something much tougher than that, which you don't want to do. But we have to get a call. So we get a call, but the National Guard went in. In a half an hour, the whole was ... To me, it was a beautiful sight. Boom, boom.

Donald Trump: [\(42:20\)](#)

To me, it was a beautiful sight. They lined up and they just started walking and that was the end of that. They should have been called a week and a half earlier. They could have saved a lot of people and a lot of buildings and a lot of area. If Biden wins, the flag burning rioters on the streets will be running your federal government.

Donald Trump: [\(42:41\)](#)

I signed into law, when the statues were coming down, our monuments, and at first they were monuments of people we never heard of, and I said, "You know what? You let them get away, they'll be wanting to take down monuments of George Washington." Everyone laughed. They thought it was funny. I said, "I'm not kidding." And they did. If I weren't president, you would have monuments taken down all over the city of Lincoln, of Washington, of Jefferson. They were going for the Jefferson Memorial. Can you believe this?

Donald Trump: [\(43:11\)](#)

And we have a mayor in D.C. who formed a commission with recommendations. Her recommendation is take down the Washington Monument, close up the Lincoln Monument. No, no, these are serious. You read about it. I said, "No, thank you. No, thank you. No, thank you, Madam Mayor. We're going to keep the Washington Monument just the way it is."

Donald Trump: [\(43:33\)](#)

These people. These people are crazy. I went to Mount Rushmore, made a speech. I don't know if you saw my speech, but people liked my Mount Rushmore. But you know why they liked it? Because it was so beautiful. And behind me this mountain is carved so beautifully. It's beautiful. South Dakota, beautiful. And I'm making a speech, and then I realized they want to take down Mount Rushmore. No, it's not happening.

Donald Trump: [\(44:00\)](#)

By the way, don't tell that to the people of South Dakota. So when I saw the thing with the statues and with the monuments all over the country, I said, "We need a strong, strong law. Not with this Congress we have now, where one day would be too much." And we took out an old law and it says 10 years in prison if you knock down a monument. And I reenacted it, I signed it. And they were coming in Washington. They wanted to knock down quite a few of our beautiful monuments, including one of Abraham Lincoln, and you remember Jackson, they had the ropes. But the police went in, did a great job. They did a phenomenal job.

Donald Trump: [\(44:50\)](#)

They went in, these police, they went in. They were unbelievable. It's true. Remember they had the ropes, they were ready. They were starting to pull it. And they're pretty rough guys, but the police went in and they're much rougher. It was over so fast. It was over so fast.

Donald Trump: [\(45:07\)](#)

Andrew Jackson, who was a great general and a good president, maybe a very good president, take it down. Andrew Jackson, a great battle of New Orleans, a great general and a very good president. Beautiful, right opposite the White House. They wanted to pull it down. They were ready, and the police went in and the police did a great job. They did a great job.

Donald Trump: [\(45:28\)](#)

But I said, "We need something." So we signed something that says 10 years. And you know, they were going to march the following day. They were going to have thousands of people come to rip down statues in Washington. And we informed them, "It's 10 years in jail, 10 years in prison." They actually used the term prison because it's a tougher term, right? It's in prison. Today they don't use that term today. They use much nicer terms.

Donald Trump: [\(45:52\)](#)

It says 10 years in prison if you knock down a monument, do anything to damage a monument or a statue. So what happened is they heard about it, and they came in. There were only 24 people. It was supposed to be tens of thousands. 24 people, and they looked around and the 24 people said, "Let's get the hell out of here." And that was the end. That was the end of it. It's amazing.

Donald Trump: [\(46:14\)](#)

It's amazing what the pen can do, right? The pen. But you couldn't go to Congress today and get that because they don't think this way. Today they don't think. Today they say, "What? It's freedom of speech, knocking down a statue, it's freedom of speech. You can let them do whatever they want to do." Can't do that. Can't do that.

Donald Trump: [\(46:33\)](#)

So the federal government's been doing a great job. Now the state governments have to get tougher, and the state governments have to call in the federal government when they have a problem. It's very simple. The mayor is right. They could use some help. The first thing they'll do if they win this office, and I don't think it's going to happen based on everything I'm seeing, is they're going to pack the Supreme Court with far left judges who will eliminate your Second Amendment.

Donald Trump: [\(47:04\)](#)

And if you happen to be pro-life, you can forget that. You can forget that. They will change everything. They will change it. We took our time. I have three Supreme Court justices. We have a great one coming, a great one coming. Three great ones. Many presidents have had none. Think of it. And me, their worst nightmare, has three.

Donald Trump: (47:31)

Their heads are exploding. No, but just of equal importance in my opinion, by the end of my first term, we'll have 300, give or take a little bit, 300 federal judges, including court of appeal, 300. A record, it's a record. No, it's a record. So think of that. 300 federal judges, I think, close to 60 court of appeals judges, and three Supreme Court justices. I mean, can you believe it?

Donald Trump: (48:04)

Even I can't believe it. Even I. It's a record. If I don't sound like a typical Washington politician, it's because I'm not a politician. And if I don't always play by the rules of the Washington establishment, it's because I was elected to fight for you and I am fighting for you harder than any president has ever fought. So we're joined today by a couple of our good friends, state auditor Keith Faber. Where is Keith? Keith.

Crowd: (48:41)

Four more years. Four more years.

Donald Trump: (48:43)

Good job, Keith.

Crowd: (48:43)

Four more years. Four more years. Four more years.

Donald Trump: (48:52)

Thank you. So Keith has done great job and thank you very much for being here. We appreciate it. That cheering was for you, Keith, I think. Was that for Keith? State supreme court justices, Judy French and Sharon Kennedy. Thank you very much. Congratulations. Thank you. Thank you very much.

Crowd: (49:28)

AFC, AFC, AFC, AFC, AFC, AFC.

Donald Trump: (49:28)

Thank you very much. Thank you, Judge. And a person that right at the beginning, she was with us. She was right there and she's fantastic, GOP chairwoman, Jane Timken. Great, Jane. How are we doing, Jane? How does it compare to four years ago? She goes more so. Even more enthusiasm. I mean, it's true.

Donald Trump: (49:56)

They're going to find out on November 3rd. It's going to say, "Oh." Remember four years ago that evening? Was that one of the greatest evenings? They said, "This will be a very, very short evening for Donald Trump." Then they say, "Donald Trump has won the state of Florida." "Whoa, what's that all about?" "Donald Trump has won the state of Ohio." "What the hell is going on?" "Donald Trump has won." They had North Carolina. They said that's their stopgap, that's the one. "Donald Trump has just won the state of North Carolina."

Donald Trump: (50:37)

Then, Georgia and South Carolina, and we just swept that whole place. And then we came in with Michigan, hadn't been won in decades and decades. And we came in with Wisconsin, hadn't been won in a long time. And it was one of the most beautiful evenings, wasn't it? And then they talk about, "If you lose, will this be a friendly transition?"

Donald Trump: (51:06)

And I said, "Let me ask you a question. When I won, did they give me a friendly transition?" They spied on my campaign. They did all this stuff. That was not a friendly transition was that, huh? I also want to recognize Pickaway County commissioner and Ohio State football legend, oh, Champ Henson. Where the hell is he? Whoa, good looking guy. You look like you could play tomorrow, Champ. Boy. He's a hell of an athlete. Jeff. Great. That's great. Champ led the nation in scoring when he played for the great Woody Hayes at Ohio State. Right? Great.

Donald Trump: (51:49)

It looks good. Handsome guy. Woody Hayes was easy to play for, wasn't he? He was a nice guy. He goes, "No, he wasn't." That's okay. He was great though, wasn't he, huh? You know what? He got it done, right? He got it done. Great. Nice to see you, Champ. Thank you very much. Appreciate it.

Donald Trump: (52:06)

For decades, our politicians spent trillions of dollars rebuilding foreign nations, right? They would spend money on these foreign nations that didn't give a damn for us, fighting foreign wars and defending foreign borders. But now we are finally protecting our nation. We are rebuilding our cities and we are bringing our jobs, our factories, and our troops back home to the U.S.A. Our troops are all coming back. Got to fight the deep state all the time. No, but our troops are all coming back. Afghanistan, 19 years, would you say that's enough?

Donald Trump: (52:46)

And we're policemen over there. We're police. We're were policemen over there. Under my administration, we built the greatest economy in the history of the world. And now very simply, we are doing it again. We built it. We had to close it down, unbelievably. I couldn't believe it when they came to my office. And we had to close it down. We did the right thing. We saved all those lives.

Donald Trump: (53:07)

Now we're reopening it. And we're doing it at a level that nobody's ever seen before. In my first three years, we increased family income. You know, it's called Make America Great Again, right, like the hat. Make America Great Again. But now I say, Make America Great Again Again, Make America Great Again Again.

Donald Trump: (53:26)

We increased family income over \$6,000, more than five times the gains in all eight years. So we did it in three years under the past administration. Think of that, five times more. African American unemployment, Hispanic American unemployment, and Asian American unemployment all reached their lowest levels in the history of our country. All unemployment.

Donald Trump: (53:52)

I mean, I've seen so many forms of unemployment, with a high school diploma, without a high school diploma, an MBA, a college degree, graduating number one at MIT, everybody was doing better. Women doing unbelievably, unbelievable, breaking every record. But we had to slow it down, close it up, save those lives. Understand this horrible virus that was sent to us by China, but sent to the whole world, sent to the whole world.

Donald Trump: (54:28)

They stopped it from going into other parts of China, but it came to the U.S. and Europe and all over the world, and we can never forget it. We can never forget it. After the virus hit, we've recovered faster than any major nation on earth. We've recovered faster economically since April. Since April, we created a record 11.4 million jobs. This week, I signed an order to protect the pensions of workers of Delphi Corporation. Do we have any of those workers here? You are so lucky I'm president. There's two people here.

Donald Trump: (55:06)

You are so lucky that I'm president. But when General Motors went bankrupt, Biden and Obama threw these workers really to the wolves. Their pensions were totally wiped out. Their families were left in disarray. It was a terrible thing. So my order is the first step to restoring the pensions and healthcare benefits

promised to workers in Wisconsin, Michigan, and Ohio, and congratulations. No, they were treated very unfairly. And they were promised all sorts of things, and then as usual, nothing happened.

Donald Trump: [\(55:40\)](#)

I will never let anyone rip off our great American worker. We're not going to let them rip it off. And they have been doing that for a long time. Joe Biden says buy American, but he spent 47 years in Washington sending our jobs to foreign countries. And you'll also notice he never says hire American. Did you ever notice that? That's because his plan is to hire foreign workers. He wants open borders and he wants unlimited illegal aliens coming, and we don't know who they are.

Donald Trump: [\(56:15\)](#)

So that leaves no jobs for the Americans, so we have that straight dole out. It's all done. Don't worry about it. Don't get upset. In fact, he's vowed to terminate all of the protections that I've given to the American worker. I've given you a lot of protections. To save our auto industry, I withdrew from the horrible Transpacific Partnership. It would have been the worst.

Donald Trump: [\(56:37\)](#)

I ended the NAFTA nightmare, one of the worst trade deals, probably the worst trade deal. Everyone said it would be impossible to do, and proudly signed the brand new USMCA into law, Mexico, Canada. And by the way, just kicked in. The difference is unbelievable. You know how I know it's good? Because those two countries aren't quite as happy as we are.

Donald Trump: [\(57:03\)](#)

But NAFTA was a disaster. We lost 60,000 factories went to different countries. It's terrible. It was terrible. It was a terrible thing to have signed. And everybody said it would be impossible to terminate. I terminated it. And we have the USMCA, which is great, great for us. And it makes it very, very tough. And the wall is almost complete. He says, "Build the wall." The press doesn't talk about the wall anymore because it's all built. Very soon, it's going to be completed. And it has created such an unbelievable strong border. You have no idea. And Mexico also, Mexico's given us 27,000, think of that, 27,000 soldiers to protect our border. I said, "You have to do it. You have to do it because it's not right. And we don't have people."

Donald Trump: [\(57:54\)](#)

Remember when I came in? Remember the caravans coming in, they were coming in. Thousands and thousands of people were trying to come in. I said, "You can't do it." You don't hear about any of these stories anymore. You don't hear about the wall anymore. Used to be wall, wall, wall, because they never thought I'd get it built. Once you're a developer in New York City, this is easy.

Donald Trump: [\(58:18\)](#)

No, we got it financed. Mexico will be paying for it because we're going to charge a fee at the base. So it's very simple. But they've been great. Mexico's treated us very well. They didn't use to treat us well, but now they treat us well. Joe Biden has vowed that he wants open borders, mass amnesty, and free healthcare for all illegal immigrants coming in.

Donald Trump: [\(58:42\)](#)

And that was another tape he had, right? They had 16, 17 of these super radical left people running on the Democrat side.

Crowd: [\(58:51\)](#)

Joe's a puppet.

Donald Trump: [\(58:56\)](#)

That wasn't so bad. I was waiting. I could hear that. That wasn't that bad. That's good because you got a lot of people watching you on television. But remember, they said, "Who is going to give healthcare to illegal immigrants coming into the country?" And they all raised their hands, everybody raised their hands except Joe, because he's been doing it for 47 years. He knew it was not a good thing. So he did the shoulder. Remember?

Donald Trump: [\(59:26\)](#)

And then he got the hand up. I said, "Ah, I just won," because you can't do it. The problem is, look, we all have a heart, but if you do that, you're going to have tens and millions of people pouring into our country for healthcare, for college, for school. They want to get free school, free education. They want to give, the new one, they want to give free lawyers to everybody that enters our country illegally.

Donald Trump: [\(59:47\)](#)

That's down in the manifesto with Bernie. That's between those two characters you saw up there, Bernie and Joe, Sleepy Joe. Bernie got taken further left. Can you believe it? Bernie is supposed to be taken to the right. He took Joe further left than anything he ever did ...

Donald Trump: [\(01:00:03\)](#)

... taken to the right. He took Joe further left than anything he ever did. The manifesto we call it. Biden's also pledged to terminate all national security travel bans. I got travel bans if it's okay with you, because I did like people that want to come in and blow up our country. Okay. I got it passed. Wasn't easy. That was not easy. That was a bad one. That was a tough one. They thought I was a bad person. No. I want people to come into our country who love our country, who can help us, not people that want to blow up things and kill people. But travel bans and increase, they want to increase refugees. This is an agreement with Bernie Sanders. Increase refugees, 700%, opening the flood gates to radical Islamic terrorism. No, thank you. No, thank you. We appreciate it, Joe. Thank you very much, but no thanks. I'm keeping the terrorist jihadist and violent extremists out of our country if that's okay. We invested \$2.5 trillion in the US military, including more than \$6 billion in contracts. Oh, for Lima. You know, Lima, the army tank plant. Lima. I did that when I was here. That was going to close, that plant. I was President Elect. So I had nothing to do for a little while. There was a little time, I didn't know I was being spied on. So I had nothing to do. And I heard about this tank plant and I had some friends, a lot of friends in Ohio. And they said about this tank plant that... Jim Jordan, the great Jim Jordan, who we love. He's one of them. Jim Jordan was a great NCA wrestling champion, too. He was great. He was great. Jim Jordan is a great warrior I will tell you that. Nobody like him. But it's true. Jim Jordan and others, they said, we have to save this plant. I said, let me take a look.

Donald Trump: [\(01:02:01\)](#)

So I actually went to Lima and I saw this plant. And it's the only plant now that makes army tanks. And a level of sophistication, you wouldn't believe it. And I went through, I'm good at this stuff. I went through the plant. I said, "If we ever close this plant, you'll never be able to get the skill, the talent or a facility to do this." I'm not going to buy our tanks from China. Okay. We were close to that in the steel world. Let's buy our steel from China. No, thank you. You know, there are certain industries we have to have and we brought that back. So I said, "No, I'm not going to let this be closed." And I stopped it. And we are making tanks at a record level, all made in the USA. We're making it at a record level.

Donald Trump: [\(01:02:43\)](#)

And you're right. Jim Jordan was very helpful.

Speaker 4: [\(01:02:56\)](#)

USA, USA, USA.

Donald Trump: [\(01:02:56\)](#)

You would have never been able to replace that plant, this big, incredible sprawling place. And they make these tanks. They're so sophisticated. You wouldn't believe it when you see. I look inside. I said, "No, thanks. I don't have to go inside. I don't need that." You know who tried that? Dukakis, that didn't work out. I'm slightly larger than him. I might've had the opposite problem. But he didn't look cool. That was not a good picture with him with a helmet. Does anybody remember? Dukakis? He was up 10. After that picture, he was down 15. He went down 20. No, I don't have to go into the tank, but I did happen to look in and I

said, “That’s like a complex machine. That’s incredible what you do. We can’t close this place. You’ll never be able to reproduce this.” And we didn’t close it. So it’s one of a lot of great decisions I think we’ve made for our military and for the people and also for the people of Ohio.

Donald Trump: [\(01:03:55\)](#)

And we took over 100% of the ISIS caliphate. You saw that, Syria and Iraq. And for years there were after this blood thirsty killer. They were after, they could never find him, but we found him. We killed the leader, founder of ISIS, al-Baghdadi, we killed him. And then we took out the mass murderer of American troops and many other people, Soleimani is dead. I withdrew from the last administration’s disastrous Iran, nuclear deal. One of the dumbest deals. And I recognized the true capital of Israel and opened the American Embassy in Jerusalem.

Donald Trump: [\(01:04:44\)](#)

And instead of never ending wars, you see we just signed yesterday another one, Sudan. So we have Bahrain, Sudan and the United Arab Emirates. Really led by a great leader, Muhammad, a great leader, and we’re getting peace without blood all over the sand. It’s going to happen. We have many other countries that want to come in. Many other countries want to come into that deal. We’ll have peace. I did more in 47 months than sleepy Joe Biden did in 47 years. That’s right.

Donald Trump: [\(01:05:18\)](#)

A vote for Republicans is a vote for safe communities, great jobs, a limitless future for all Americans. Really it’s a vote for the American dream. That’s what it is. We’re for the American dream. I’m for the American dream. The Republicans will be with us. Then in conclusion, over the next four years, we will make America into the manufacturing superpower of the world. We’ve already started. We will end our reliance on China once and for all. That’s already happening. We will hire more police, increased penalties for assaults on law enforcement. And we will ban deadly sanctuary cities. We will uphold religious liberty, free speech and the right to keep and bear arms.

Donald Trump: [\(01:06:10\)](#)

We will strike down terrorists who threaten our citizens and we will keep America out of the ridiculous, endless foreign wars if that’s okay. Keep them out. We’ve created the greatest military in the world. The equipment that we bought. 2.5 trillion, 2.5. That was much easier to get, frankly, and the Democrats didn’t want to give anything, but that was much easier to get, believe it or not than the wall. They didn’t want the wall. They said the wall is old fashioned. They wanted drones flying around so you could watch people pour into our border. Okay. And you know I’ve been saying it a lot because it’s true. There are two things that will never get obsolete, a wall and a wheel. Right? I said the wall and that wall is that just has stopped them. But what we’ve done is we’ve created two and a half trillion with a T, trillion dollars. We have the greatest jet fighting planes, tankers, missiles, rockets, submarines. We have greatest weapon in the world, submarines greatest, most powerful weapons in the world.

Donald Trump: [\(01:07:18\)](#)

Our nuclear arsenal is fixed and ready and only hope to God we never have to use it, but you know what? We’re much less likely to have to use it because right now we have things. The hydrostatic missiles, I call them the super-duper missiles. They’ll go seven times the speed of a normal quick missile. I mean, these things are amazing. And you know, Russia took things that we had during the Obama Administration, from our great scientists and engineers. And they built, they have hydro sonic, but we have hydro sonic now that they’re fastest in the world. We needed all of this stuff. We have the greatest equipment. We are the envy of the world, whether it’s Russia, China, North Korea, we have the greatest equipment. We have the greatest people. We have the greatest warriors. But our warriors needed the equipment.

Donald Trump: [\(01:08:11\)](#)

And when I came into office in my first short period of time, one of the world’s most overrated generals told me, “Sir, we don’t have ammunition.” I said, “That should never be said to another president again.” And now we have so much ammunition, we don’t know what to do with it. So we have totally rebuilt our military. The finest equipment anywhere in the world, nothing even close, no other country has anything even close. The fake news was saying, “You shouldn’t be saying that, you’re giving confidential information.” That’s okay. I’ll say it. There’s nobody. Can you imagine that? They wanted to even call me on that. Maybe they should impeach me for making that statement.

Donald Trump: [\(01:08:54\)](#)

And we will ensure peace through strength. We will end surprise medical billing, require the biggest thing there is, price transparency. Remember I said it. Kicks in on January 1st. It’s bigger than healthcare. Wait till you see what you can do when you have transparency, where you can negotiate with your doctors, your hospitals, et cetera. Lower drug prices, as I said, favored nations. And even more, we will always protect patients with pre-existing conditions, always. We will stop the radical indoctrination of our students and restore patriotic education to our schools. And we will teach our children to love our country, honor our history and always respect our great American flag. And so importantly, we will live by the timeless words of our national motto In God We Trust. Amen. For years you had a president who apologized for America. Now you have a President who is standing up for America and standing up for the great people of Ohio. Thank you.

Donald Trump: [\(01:10:34\)](#)

Biden used to say that he’s made a lot of mistakes, because he was never sure where the hell he was. Right? So let’s say, like that line, maybe a lesser version of it. I’m standing up for the great people of Florida. No, they had no palm trees. Now he did that about seven times. Once you do that, walk off the stage, no matter how good a speech you give, it’s no good. You just walk off the stage. Standing up for the great people of Idaho. He had Iowa and Idaho and he couldn’t figure it out. This is not what we need. For the last four years. You have seen me fight for you. And now I am relying on you to deliver another historic victory for our country. Go through Ohio. Vote early, bring your friends, your families, your neighbors, your coworkers, get your boss to go. I don’t care. But you have to get out and vote. Everybody has to get out and vote.

Speaker 4: [\(01:11:45\)](#)

Four more years, four more years.

Donald Trump: [\(01:11:46\)](#)

From Akron to Columbus, from Dayton to Cleveland, from Cincinnati to right here in Circleville, we stand on the shoulders of red blooded American patriots who poured out their heart, their sweat, their soul to secure our liberty and to defend our freedom. We inherit the legacy of American heroes who crossed the oceans, blazed the trails, settled the continent, tamed the wilderness, laid down the railroads, dug out the Panama Canal, raised up the great skyscrapers, won two world wars, defeated fascism and communism and made America the single greatest nation in the history of the world. And the best is yet to come. Best is yet to come.

Donald Trump: [\(01:12:44\)](#)

Proud citizens like you helped build this country and together we are taking back our country. We are returning power to you, the American people. That’s what this has all been about. With your help, your devotion and your drive, we are going to keep on working. We are going to keep on fighting and we are going to keep on winning, winning, winning. We are one movement, one people, one family, and one glorious nation under God. And together with the incredible people of Ohio, we have made America powerful again, military. We have made America wealthy again, stock market. We have made America strong again. We have made America proud again. We have made America safe again. And we will make America great again. Thank you, Ohio. Go out and vote. Thank you.

President Donald Trump: [\(00:00\)](#)

Thank you very much. It's great to be in Lumberton. And I'll tell you, we have a lot of friends here. They said, "Please stop by." We said, "Let's do a quickie." We're on our way to Wisconsin and Ohio. We have some rallies, but we wanted to stop. I have a lot of friends in this group, so thank you very much. And 10 days from now, can you believe it? 10 days, 10 days, it seemed like it would never happen. Right? Four years, 10 days, we're going to win the State of North Carolina for more years in the White House. At the debate this week, the American people a contrast between a 47 year career politician who's seen better days. Had to use public office and really has used public office to enrich himself. You see that, right? And a businessman who entered public service. Believe me, with me, it's only a loss of money. I did this and I did it gladly because nobody has ever done what we've done in the last four years when you look at it. Nobody's been able to do it.

President Donald Trump: [\(01:52\)](#)

For the last half a century, Joe Biden's been outsourcing your jobs, opening your borders and sacrificing American blood and treasure and endless and ridiculous foreign Wars. I fight for the middle class and Biden and his cronies serve only one class. They serve the donor class, believe it or not. Now in all fairness to the donor class, I would be the greatest in history. All I have to do is call them, send 10 million, send 10 million. Everyone would send 10 million. But once you do that, you can't deal with them anymore. Once you do that, you can no longer do what's right for you. And it's just one of those little things. In 2016, North Carolina voted to fire this depraved political establishment and you elected an outsider as your president, happened to be me. And we're putting American... I love the sound of that drum, that sound. That's why I'm here. That's why I'm here. That's why I'm here for these people.

President Donald Trump: [\(02:59\)](#)

You didn't think I'd come, did you? Huh? They didn't think, because you haven't been treated well for a long time. You haven't been treated well, but now you're being treated well. You work hard. You raise your families, you follow your laws, you support your church. You serve your community and you give your love and your loyalty to your country. But now you finally have a government and a president that is loyal to you. Joe Biden's allegiance is due, his donors, and my allegiance is to the people of this country. That's it, that's it. In every meeting and every situation in dealing with every foreign leader, I am your voice and together, we are the voice of a great country. We are the voice of the United States of America. And we are respected again as a country, not like in the past where everybody took advantage of us. We are the voice for every citizen who has been neglected, abandoned, ignored, and forgotten. And maybe that's another reason I'm here, because this is a group that has been forgotten.

President Donald Trump: [\(04:15\)](#)

On November 3rd, we will ensure the forgotten men and women of our country are never forgotten again. And I said that four years ago. I said that four years ago and they said, "Where are all these people coming from?" And by the way, just a little sacred, you got to see all the people that have voted. They haven't figured it out yet, the fake news. Check out what's going on in Florida. Check out the numbers. I'm not talking about the polls. The polls, although we have some good polls too. But they're the hottest ones. Is that sun hot or what? I'm going to be a lobster. You mind if I cut this one at about one-third, because I'm going to be one hell of a sunburned person. Is there anybody who has some sun protection for your President? This is beautiful. Oh man. I said if I can stay out of the sun, always use sunblock. Hey, always use sunblock, and here I am. That's really brilliant. With your vote, we will continue to bring back your jobs, lower drug prices, cut your taxes, continue to cut regulations. Even more important than the taxes. You know, you got the biggest tax cut in the history of our country. I got it for you. You also got the biggest regulation cut in history and you want to know the truth. This is probably the reason we're so strong. We're coming back stronger than anybody that... They're going crazy. This is not a V anymore. It's a super V. What till you see the numbers that are coming out? You support our police, protect your Second Amendment, defend our borders. And assure more products are proudly stamped with that beautiful phrase, Made in the USA. Made in the USA. Been a long time since you've heard that.

President Donald Trump: [\(06:19\)](#)

When I was growing up, you'd have a car made in the USA, made in America and you were very proud of it. Other countries used to take a dollar bill, and they'd put it on the window of their car. Just a dollar bill, because they were proud of it. Now we're proud of it again. Now we're proud of it again. It's true. I have a friend from a country in Europe that used to take a dollar bill. Everybody took a dollar bill and they put it in there because they wanted to know it was made in America. Then we lost that pride. We lost it, but we're getting it back at a level that nobody would have thought possible.

President Donald Trump: [\(06:58\)](#)

Remember when I first started campaigning, the department stores wouldn't use the word Merry Christmas. Those words, Merry Christmas. They'd say happy new year, everything would be in red and snow and all this stuff, but did say happy new year. And I said, "They will soon start saying Merry Christmas again." Now they're all saying Merry Christmas again.

President Donald Trump: [\(07:19\)](#)

We will deliver record prosperity, epic job growth.

Speaker 2: [\(07:36\)](#)

Four more years, four more years.

President Donald Trump: [\(07:37\)](#)

I just watched Biden making a speech. And he goes, "Oh, oh, thank you for everybody. Thank you." People in cars. I don't get it, they're in cars. There were so few cars. I've never seen an audience like this. And he's going, "Oh, thank you. All those people out there." There's a few cars. And the cars weren't in a little

circle. They were too close together I think. They weren't socially distanced. But I there was so few of them, it didn't matter. No, but he's going like this. And then the... I'll tell you his partner, the media, they made a mistake, a tragic mistake. They showed the crowd. It was a disaster. They were screaming, "Don't do it. Don't do it. Don't show the crowd please." We love to show the crowd. My problem is they never show the crowd. They never show the crowd. You just made it. I'm watching, I just can't... You should watch. You should watch it because you're supposed to learn. You can't watch. It's not watchable, but he's going like this, "Thank you. All those people out there. Thank you very much. Thank you."

President Donald Trump: [\(08:50\)](#)

Actually I didn't think he had that kind of sense in him to do that, to be honest. I was surprised he did that actually. They showed it, it was a tiny, tiny little crowd. You heard a couple of horns, honk, honk. The weirdest thing, you might get a speech and get people honking. I like the drum behind me. Because that really represents something. Look at those women, they follow me all over the place. Look at them back there. See those women. They're very wealthy women from North Carolina. And I saw them two rallies ago. This isn't a rally. This is a get together with friends of mine.

President Donald Trump: [\(09:38\)](#)
